

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

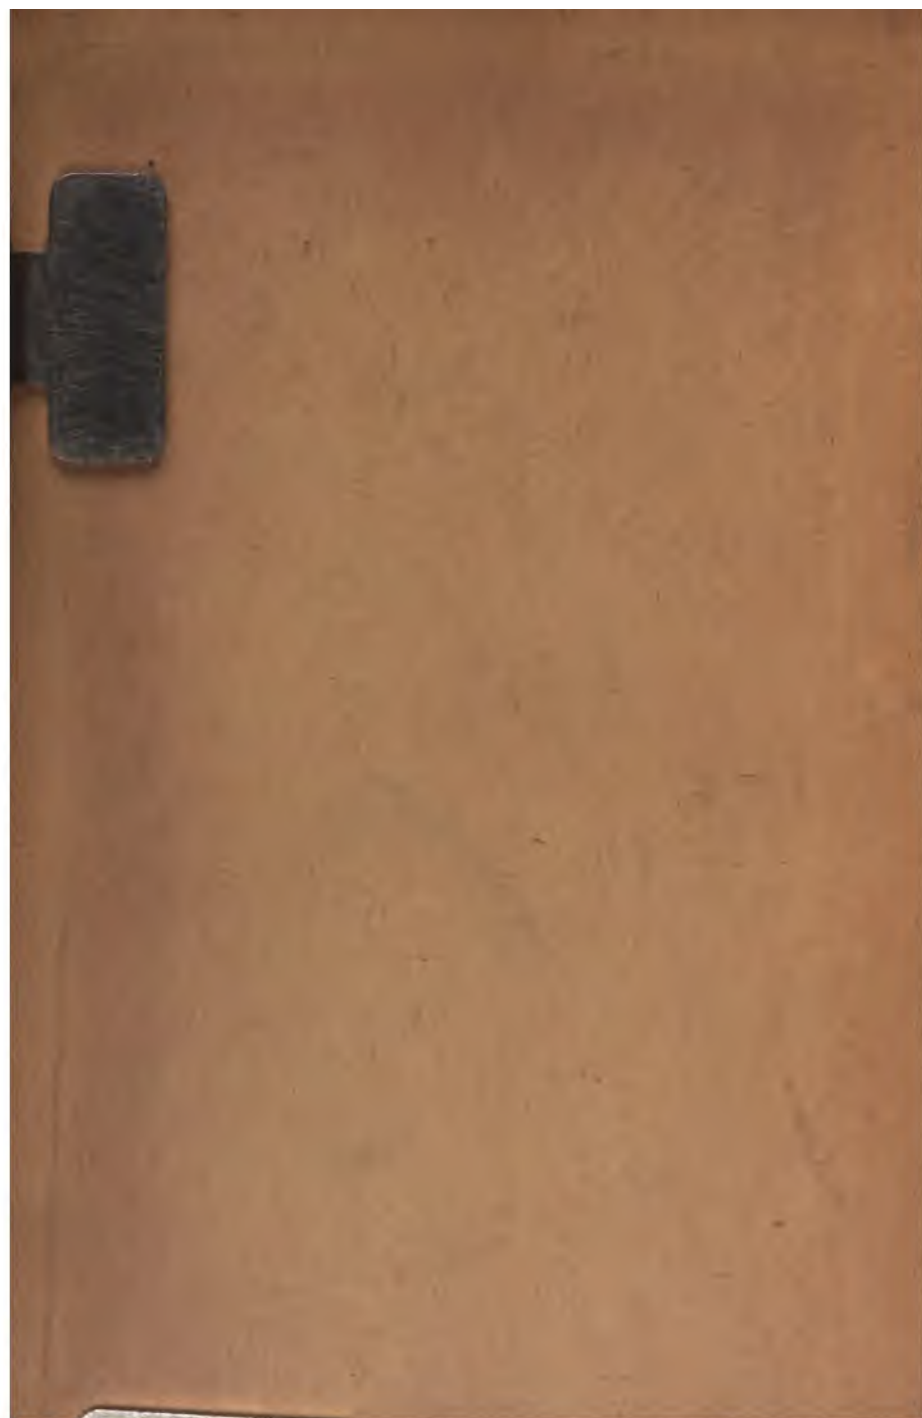

About Google Book Search

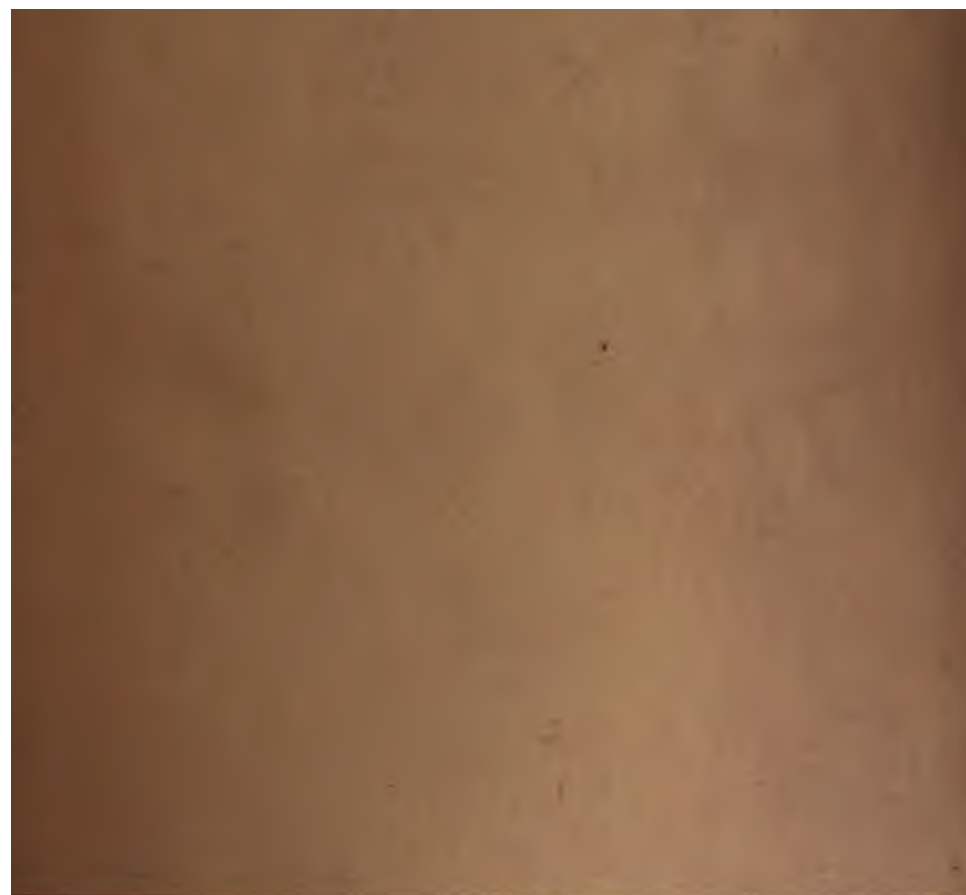

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

EIGHTEENTH

ANNUAL REPORT

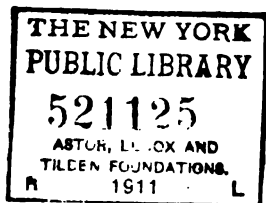

OF THE

DEPARTMENT OF DOCKS

FOR THE YEAR ENDING APRIL 30, 1888.

NEW YORK :
MARTIN B. BROWN, PRINTER AND STATIONER,
Nos. 49 AND 51 PARK PLACE.

1888,
417

REPORT.

DEPARTMENT OF DOCKS,
PIER "A" BATTERY PLACE, NORTH RIVER, }
NEW YORK, April 30, 1888.

To the Honorable ABRAM S. HEWITT,

Mayor of the City of New York:

SIR—In pursuance of section 719 of chapter 410, Laws of 1882, the Board of Commissioners of this Department has the honor to present its annual report for the year commencing May 1, 1887, and ending April 30, 1888, being its eighteenth annual report.

In submitting this report of the operations of this Department to your Honor for the year ending April 30, 1888, the Commissioners deem it desirable and proper to suggest what, in their opinion, is required for the improvement of the water-front of the city.

It may not be amiss to state that under what is known as the "Dock Law" (Laws of 1871 and 1872), this Department prepared maps or plans for the improvement of the whole water-front, which were submitted to the Commissioners of the Sinking Fund in April, 1871. Some of these plans, embodying what is known as the "New Plan," were adopted by them, and comprised the territory or district from the Battery to Grand street, and from Avenue B to Third avenue, on the East river; and also from the Battery to West Seventy-second street on the North river (except from Sixty-first street to Sixty-fifth street); and on the westerly side of Harlem river, from Fifty-ninth street to High Bridge.

It is submitted that such portions of the plans as have not been acted upon, should receive the careful attention of the Commissioners of the Sinking Fund, with the view of enabling this Department to carry on the work along those sections which have not yet been provided for.

This Board would especially suggest the advisability of adopting, as part of the "New Plan," those modified maps or plans for the improve-

ment of Grand street to Thirty-fourth street, which were submitted 1883, upon which the then Comptroller made a report which has been printed in pamphlet form, and copies of which are on file in the office of the Finance Department, and of the Commissioners of the Sinking Fund.

To carry out, however, this scheme of improving the water-front property must be acquired either by purchase or by condemnation.

Several pieces of property have been purchased at different times and have been improved under the requirements of the "New Plan," with most gratifying results, as respects the increase of revenue and the benefit to the commercial interests of the city.

A list of this property is herewith submitted.

It will not be questioned, however, that more speedy and effective means must be devised for the acquisition of property necessary for the work. In view of the fact that the question as to the proper measure of compensation to private property-owners has not been finally decided by the courts, those owning property along the water-front are not disposed to part with it except at a price which is not in conformity with the ideas of the Sinking Fund Commissioners, and hence the Department has been unable to acquire any property by purchase since June 16, 1887, with the exception of one piece bought from the Old Dominion Steamship Company.

The statutes providing for the acquisition of private property by condemnation do not seem to be as effective as are needed, as is shown by the fact that but one piece of property has been obtained in this way since the inception of the Department in 1871, and this was brought about partially through friendly adjustment, the only difference between the owner and the City being the question of price, and yet the acquisition was not consummated until five years after the proceedings were begun. To remedy this condition of affairs as it now exists, the Board requested the Council to the Corporation to prepare a bill which would enable the Department to acquire property with less delay. The bill was prepared as requested and with the approval of your Honor and the various heads of departments subsequently introduced in the Legislature. Unfortunately, however, as the Commissioners deem it, it failed to pass. It is to be hoped that some method may be devised by which, without injustice to the private owner, the City may be enabled to acquire title and enter into possession of such property as shall be needed in extending the facilities so very much needed by commerce, the growth of which has been out of all proportion to the increase of wharf accommodation. Should such a measure at some future time become a law, the Board will be prepared with

may to submit a list of the pieces of property which should be acquired and improved at the earliest possible moment.

The Board is gratified in being able to state that the bill conferring upon the Dock Masters the powers formerly possessed and exercised by the Harbor Masters has become a law. The powers thus conferred will be of great service in facilitating the enforcement of the rules and regulations of the Department and in extending its authority in cases in respect to which, in the absence of this law, there has been some question as to the powers and duties possessed and exercised by the Dock Masters.

Very respectfully,

LUCIUS J. N. STARK.	}	<i>Commissioners.</i>
JAMES MATTHEWS,		
CHARLES H. MARSHALL,		

The law provides that the annual report shall contain : 1. The name, occupation and compensation of all persons appointed and employed by said Department. 2. A statement of the action of the Board for the past year, classified with reference to the various subjects and duties which have engaged the attention of the Board. 3. A list of the orders and rules made by said Board, and a description of the contracts made by said Department, the payments made by said Department, and the purposes and amounts thereof, and the leases made by said Department, for what term, at what rent, to whom, and for what property.

Figure 1. Schematic representation of the experimental design. The subjects were divided into two groups: a control group and an experimental group. The control group received a standard training program, while the experimental group received a training program with a focus on the specific skills required for the task. The results of the training program were compared between the two groups.

SECOND.

GENERAL DUTIES.

The duties which are imposed under existing statutes upon this Department, and which the Board is empowered to perform are numerous and varied, being partly legislative and executive, and relate to the general management and supervision of the entire water-front.

both that portion which is owned by the City and that which is owned or claimed to be owned by private individuals, in accordance with the provisions of section 711 of the New York City Consolidation Act of 1882, which provides that the Department of Docks shall have exclusive charge and control of all the wharf property belonging to the Corporation of the City of New York, and the exclusive government and regulation of all wharves, piers, bulkheads, etc., in said city, not owned by the Corporation, subject in certain particulars to the control of the Commissioners of the Sinking Fund of the City of New York. The Board of this Department is also authorized by the statute to adopt rules and regulations necessary for the exercise of its powers and duties, including the setting aside of certain portions of the water-front for the use of the special kinds of commerce as it may deem proper for the promotion of business interests. To the Board also are referred all plans relating to wharves, structures and erections of every kind along the water-front, and its approval must be obtained before such structures can be erected and maintained. It is also authorized by law to carry out what is known as the "New Plan" of improvement, subject to adoption by the Commissioners of the Sinking Fund, in whom authority is vested to make such changes and modifications as may be necessary from time to time.

THIRD.

In compliance with the third provision of the law, the following information is submitted :

I.—ORDERS AND RULES ADOPTED BY THE BOARD.

December 29, 1887, the Board prepared and caused to be published the revised rules and regulations for the government of all wharf property, as provided by law, a copy whereof is herewith submitted.

JAMES WEIR, Apportionment Clerk.

REPORT
OF THE
ENGINEER-IN-CHIEF.

DEPARTMENT OF DOCKS—PIER "A," FOOT OF BATTERY PLACE, N. R.,
OFFICE OF THE ENGINEER-IN-CHIEF,
NEW YORK, May 1, 1888.

To the Board of Docks:

GENTLEMEN—I have the honor to submit the following report of the work under my charge and supervision during the year ending April 30, 1888:

NORTH RIVER—WORK UNDER NEW PLAN.

Battery Section—Embracing the boat landing, Pier "A" and Pier, new 1, North river, and about 80 feet of bulkhead north of Pier, new 1.

The improvement of the boat landing and of the approach to Pier A, under Contract No. 249, R. L. Darragh & Co., contractors, is now in progress. All the granite has been delivered and part of it set in place; the concrete foundation for the new boat landing steps has been placed. The piling and woodwork for this foundation was put in by the Department force.

Chambers Street Section—Extending from the north side of Pier, old 29, to 91.70 feet north of the north side of Pier, new 21, a distance of 651.70 feet.

Length of piling to date.....	670.50 feet.
" base blocks to date.....	603.42 "
" "E" course of granite to date.....	569.64 "
Equivalent length of completed wall to date.....	589.40 "

Some filling has been received upon this section and the new made land has been drained, sewer box located, etc.

Franklin Street Section—(Under unanimous resolution of the Board, passed October 6, 1887)—Extending from 75 feet northerly of Harrison street to a point half-way between Franklin and North Moore streets, a distance of about 253 feet.

Length of piling for the year.....	111.67 feet; to date 111.67 feet.
" base blocks for the year.....	60.25 " " 60.25 "
" granite for the year.....	0.00 " " 0.00 "
Equivalent length of completed wall for the year upon this section.....	55.50 " " 55.50 "

The work was begun by dredging the site of the wall in October last, and has progressed as shown above, the piling being carried as near as practicable to Pier, old 36.

Pier, new 24—The dredging upon the site of this pier has been done by the Department and the work of its construction is in progress by Mr. John Gillies, under Contract No. 263, and the outer portion of it will soon be in use.

North Moore Street Section—Extending from a point 21 feet south of the south side of Pier, new 26, North river, to a point half-way between North Moore and Franklin streets, a distance of about 340 feet.

Length of dredging for the year.....	155.00 feet; to date 340.00 feet.
" piling for the year.....	223.30 " " 223.30 "
" base blocks for the year.....	116.83 " " 116.83 "
Equivalent length of completed wall for the year.....	112.30 " " 147.00 "

The work upon this section was stopped by an injunction soon after its commencement in July, 1881, was resumed in July, 1887, the injunction having been dissolved by the purchase of the old bulkhead by the Department, and good progress has been made in building the bulkhead or river-wall.

Pier, new 25—Plans and specifications have been prepared and approved by the Board for building Pier, new 25, and it is expected to begin the work about June 1, 1888.

A portion of Pier, old 36, has been removed to allow the building of the bulkhead or river-wall and a temporary approach has been made around the gap to the outer end of the pier, which is in use by the lessee at this date.

Beach Street Section—Extending from 21 feet south of the south side of Pier, new 26, to 21 feet of the north side of Pier, new 26, a distance of 196 feet.

Length of base blocks for the year.....	27.17 feet ; to date 196.00 feet
“ “E” course of granite for the year.....	57.67 “ “ 178.69 “
Equivalent length of completed wall for the year.....	24.10 “ “ 192.00 “

The work upon this section, which had been suspended on account of a lease of the old bulkhead upon a portion of it, was resumed in May, 1887, and the wall has been completed between Pier new 26 and new 27, and the filling-in behind the wall has been put in.

Laight Street Section—Extending from 95 feet north of the north side of Pier, new 26, North river, to the southerly side of Pier, old 39, a distance of about 500 feet.

Length of piling for the year.....	53 feet ; to date 397.05 feet
“ base blocks for the year.....	53.78 “ “ 393.15 “
“ “E” course of granite for the year.....	56.72 “ “ 358.67 “
Equivalent length of completed wall for the year.....	45.50 “ “ 380.50 “

The work on the southerly end of this section, which was suspended in 1885 on account of loss of the old bulkhead south of Hubert street, was resumed in May, 1887, and the wall has been completed to join the northerly end of the North Moore street section.

This work and that on northerly end of North Moore street section makes a continuous stretch of bulkhead or river-wall from the southerly line of Pier, new 26, to the northerly side of Pier, new 28, a distance of 532 feet.

The building of the wall to the northward of Pier, new 28, was stopped by injunction of United States Circuit Court on March 11, 1882, which injunction is still in force.

A temporary wooden sewer box was built from the foot of Hubert street to and through the wall.

Sections North of Canal Street.

The sections north of Canal street on which the bulkhead or river wall has been completed are as follows :

SECTION.	LENGTH OF “E” OR TOP COURSE OF GRANITE UNDER COPING.	EQUIVALENT LENGTH OF COMPLETED WALL.
Canal street Section.....	334.95	373.89
Spring street Section.....	139.92	139.52
Charlton street Section.....	406.74	406.74
New King street Section.....	148.41	148.41
Old King street Section.....	114.49	114.49
Lower Clarkson street Section.....	152.91	152.91
Houston street Section.....	109.89	109.89
Upper Clarkson street Section.....	102.51	102.51
Leroy street Section.....	561.46	561.46
Morton street Section.....	151.33	151.33
Christopher street Section.....	1,095.22	1,111.51
Total length.....	3,317.83	3,373.06

These sections embrace Piers, new 34 to new 47, inclusive of both.

have been made to the pavement when carried down by the settlement of the newly-upon which it rests, and to backing-logs, etc.

ew 35—A portion of this pier was old, and the whole has been removed and an entirely new pier 2 feet wide and 594 feet long, has been built upon the site, and a new shed has been built on the pier by the Ocean Steamship Company, lessee, in accordance with the resolutions of the Board of June 6, 1883, and April 13, 1887.

ew 37—This pier and the shed upon it was destroyed by fire on February 28, 1887. A new pier 2 feet wide and 590 feet long, has been built in place of that destroyed, and a new shed has been built on the pier, progress of construction by the lessee, Mr. C. P. Huntington.

ew 41—A shed on the bulkhead or river-wall, from the middle of the bulkhead between Piers, new 41, to the middle of the bulkhead between Piers, new 41 and 42, begun in April, 1887, by the Lackawanna and Western Railroad Company under permit of the Board, passed April 18, 1886, was completed about April 21, 1888.

ew 46—The repairs to this pier and the shed upon it have not yet been reached on by the continuous occupation of the pier.

Twenty-third Street Section, South End—Extending from 10 feet south of the northerly side of Twenty-third street to 43.27 feet north of Pier, new 57, a distance of 1,238.2 feet.

Length for the year	0.00 feet :	to date	968.00 feet.
Concrete blocks	0.00 "	"	878.23 "
Estimated course of granite for the year	0.00 "	"	787.53 "
Estimated length of completed wall for the year	205.19 "	"	205.19 "
Estimated equivalent length of completed wall for the year	0.00 "	"	915.00 "

On account of the various injunctions restraining the Department from proceeding with the work on this section, no work has been done upon it, except the maintenance of the temporary piers and refilling the newly made ground where settlement made it advisable, placing temporary backing-logs, placing rip-rap stone in front of the bulkhead or river-wall, etc.

Twenty-third Street Section, North End—Extending from 43.27 feet north of Pier, new 57, to the northerly line of West Thirtieth street, extending a distance of 615.42 feet.

Length for the year	0.00 feet :	to date	500.00 feet.
Concrete blocks	0.00 "	"	471.80 "
Estimated course of granite for the year	0.00 "	"	442.12 "
Estimated equivalent length of completed wall for the year	0.00 "	"	492.00 "

For the same reasons as apply to the West Twenty-third Street Section, south end, only the same work has been done upon this section as upon the above.

Thirty-first Street Section—Extending from the northerly side of West Thirtieth street to the northerly side of West Thirty-first street, a distance of 257.5 feet.

Work upon the bulkhead or river wall on this section was completed last year except the coping, which is postponed to allow the slow settlement of the wall to proceed. Loads of filling have been received and placed in rear of the wall.

ew 61—A new pier, 100 feet wide and 500 feet long, with a low level deck for two tracks and a high level deck for freight, has been built at the foot of West Thirty-first street by the Lackawanna and Western Railroad Company, under permit of the Board, passed September 8, 1887. The company have also laid railroad tracks to and upon the pier.

West Thirty-second Street Section—Extending from the northerly side of West Thirty street to the northerly side of West Thirty-third street, a distance of 515 feet.

Length of dredging for the year.....	165.0	feet ; to date, 455.0
“ piling for the year.....	88.60	“ “ 317.90
“ base blocks for the year.....	157.91	“ “ 300.20
Approximate equivalent length of completed wall for the year..	125.5	“ “ 284.90

Under unanimous resolution of the Board, passed October 22, 1885, the work of building wall upon this section has been carried on, and the dredging, placing of cobbles and rip-rap piling and wood-work and setting of concrete blocks and granite have been done, so that the was completed to receive the new pier at foot of West Thirty-second street in November last.

Pier, new 62—A new pier, 100 feet wide and 500 feet long, at the foot of West Thirty-second street, was begun in November, 1887, by Mr. Ranald Gillies, and is in progress and nearly complete. This pier has a central low level deck for railroad tracks in its centre and high level decks on side for freight ; it is to be leased to the New York Central and Hudson River Railroad Company and that company has already begun the construction of an iron shed upon it.

West Thirty-seventh street—A new pier, 500 feet long and 60 feet wide, with a temporary approach has been built at the foot of West Thirty-seventh street by Mr. John Gillies, contractor. pier is intended for the use of the Health Department for its offal contractor, and of the Department of Street Cleaning for a dump, and also for manure dumps.

West Thirty-eighth street—A new pier, to be 500 feet long and 60 feet wide, has been begun at the foot of West Thirty-eighth street by Mr. Richard Cronin, contractor, and the work is in progress.

West Fortieth street—The new pier, 500 feet long by 60 feet wide, with a temporary approach built by Mr. Richard Cronin, contractor, and which was nearly completed at date of last report, was fully completed on June 30, 1887, and has been in use since May 1, 1887.

West Fifty-second Street Section, South End—Extending from the southerly side of Fifth street, northerly to a point not yet determined. Under unanimous resolution passed October 6, 1887.

On account of the small distance of the rock bottom of the river below mean low water on this section, there will be no pile foundation for the bulkhead or river-wall of concrete and masonry from the rock bottom to the top. The plan for this wall was passed by the Board on November 18, 1887. A portion of the old pier at West Fifty-first street was removed and the dredging on the site of the wall begun.

New Pier at West Fifty-first street—A contract has been made for building a pier 500 feet long and 60 feet wide at foot of West Fifty-first street, and work under it is in progress.

West Fifty-second Street Section, North End—Extending from the northerly side of second street section, south end (the boundary point is not yet determined) to the northerly side of West Fifty-fifth street.

A portion of the bulkhead or river wall was begun at the foot of West Fifty-second street, October 17, 1887, but was stopped by injunction of United States District Court.

Low.

EAST RIVER.

Pier, new 29—This pier to take the place of Pier, old 37, East river, at foot of Market street, was begun in December last, under Contract No. 261, and is now in progress. The dump of Street Cleaning was removed to Pier, old 44, East river.

Pier, new 32—Pier, new 32, to take the place of Pier, old 41, East river, at foot of Pike street, was begun in May 1, 1887, and completed on December 15, 1887. It is 279 feet long and 40 feet wide. A temporary approach 110 feet long and 40 feet wide.

These sections terminated in the progress of the work.

HARLEM RIVER.

Pier at East One Hundred and Seventeenth street—A new pier, to be 175 feet long and 50 feet wide, is in progress of construction at East One Hundred and Seventeenth street, under the new plan adopted by the Commissioners of the Sinking Fund on December 19, 1887.

One Hundred and Fifth-ninth street and Eighth avenue, Harlem river—The work of building a new crib-bulkhead and two piers for about 550 feet northerly of Eighth avenue at One Hundred and Fifty-ninth street, on the Harlem river, under the new plan adopted by the Commissioners of the Sinking Fund on August 31, 1887, has been begun by the Manhattan Elevated Railway Company, lessees, and is now in progress.

WORK OF CONSTRUCTION NOT UNDER NEW PLAN.

NORTH RIVER.

West Seventy-seventh to West Eightieth Street.

The new cribwork bulkhead, from West Seventy-seventh to West Eightieth street, which was begun in April, 1887, by Mr. William P. Kelly, contractor, under Contract No. 243, was finished on July 20, 1887. The earth-filling has been put in behind the cribwork and a little over an acre of new land made.

West One Hundred and Thirty-second Street.

A new crib-bulkhead about 113 feet long has been built between One Hundred and Thirty-first and One Hundred and Thirty-second streets, and a new pier 152 feet long and 60 feet wide has been built at the foot of West One Hundred and Thirty-second street by O'Connell & Coffey, contractors, and completed on December 8, 1887.

West One Hundred and Fifty-eighth Street.

A new cribwork pier at foot of West One Hundred and Fifty-eighth street was begun under Contract No. 260, in December last, and is now in progress, the work having been stopped during the winter by heavy ice and storms.

EAST RIVER.

Pier 60, Rivington Street.

The work of removing the old pier at the foot of Rivington street, and building a new pier in place of it, was begun in March last, under Contract No. 269, and is now in progress.

East Forty-sixth Street.

The grade of the street being too high for ordinary wharf purposes at the foot of East Forty-sixth street, a new kind of pier which has its surface about twenty feet above mean high water level is to be used for dumping of the Department of Street Cleaning and for cellar dirt and other waste material was begun in March last, and is now in process of construction under Contract No. 271.

East Seventy-sixth Street.

A new cribwork bulkhead on piles at the foot of East Seventy-sixth street was completed in October last by Mr. John Gillies, under Contract No. 247.

East Eightieth Street.

A new dumping-board for removal from the city of cellar dirt and other refuse material was built at the foot of East Eightieth street and finished in July last by Mr. Walter Danforth, contractor, under Contract No. 245.

HARLEM RIVER.

East One Hundred and Fifteenth Street.

A new cribwork bulkhead on piles has been built from the middle of the block between One Hundred and Fourteenth and East One Hundred and Fifteenth streets, to the northerly end of East One Hundred and Fifteenth street (about 178 feet in length), by Mr. John Gillies, under tract No. 258. The filling behind the bulkhead is now to be put in.

East One Hundred and Seventeenth Street.

A new cribwork bulkhead on piles was built across the foot of East One Hundred and Seventeenth street before the adoption of the new plan of 1885, but on the lines of that plan by Mr. Flaherty, under Contract No. 262.

Blackwell's Island.

A new wharf about 100 feet long and 47 feet wide outward from the shore was built for the use of the Department of Public Charities and Correction, on Blackwell's Island, by Mr. Duncan Gillies, under Contract No. 255.

GENERAL REPAIRS.

The repairs to piers, bulkheads, etc., have been numerous and extensive; among the best pieces of work are Pier at West Thirty-fourth street, Pier at West Seventy-ninth street, Pier 7, river, and bulkhead between Piers 11 and 12.

In the Appendix, a detailed statement of all the repairs is given, together with a statement of detail of repairs made to various structures on the water-front for other City Departments.

Floating Property.

The floating property of the Department has been increased by two new deck scows built for the Department at West Fifty-seventh Street Yard, and decreased by scow "May," condemned and sold at public auction. A full list of the various pieces is given in the Appendix.

The 100-ton derrick "City of New York" has been occupied by the usual work done by it. The tug "Manhattan" has done the towing for the Department, except when laid up for repairs, United States inspection, etc.

Dredges No. 3 and No. 4 are old and worn, and I recommend that they be sold.

The Woodcock boring-machine has made over 500 borings, and the various other pieces of floating property have been kept in order and used as required.

Surveying Party.

Base lines and bench marks have been verified from time to time in connection with the construction of the bulkhead-wall and of piers at the different sections of the North and East rivers, and from them lines and levels have been given during the progress of the work.

Lines and levels have also been given for contract work on general repairs on both rivers.

The quantities of sand, broken stone for concrete, rip-rap and cobble-stone, delivered at various sections, have been measured and calculated.

Surveys and examinations have been made over 140,184 linear feet of water-front. These surveys have been plotted and put on file in this office, and tracings have been prepared therefrom.

3,809 rod soundings to ascertain the depth of soft mud have been taken, of which 831 were on the North river and 2,978 on the East and Harlem rivers.

73,366 disk soundings, to ascertain the depth of water, have been taken on the North, East and Harlem rivers in 358 slips, of which 34,082 were taken in 154 slips on the North river and 39,284 on the East and Harlem rivers.

2,152 rod soundings and 8,228 disk soundings were for construction, and 670 rod soundings and 65,128 disk soundings for general repairs, examinations, etc., taken before and after dredging, all of which have been reduced, plotted and placed on record in this office.

All the dredging done by the Department and the dumping of all dredged material have been supervised, and the dredging done by private parties has also been supervised.

The accounts of all dredging done by the Department have been kept, and from them monthly statements for estimates, etc., have been made and receipts given as required.

The automatic tide gauges at Pier A and Pier, new 43, North river, and those on the Harlem have been attended to and the records preserved and filed.

West Fifty-seventh Street Yard—Fifty-two concrete base blocks have been made at this yard during the year. There have been received 4,099 barrels of cement, and samples of each lot have been tested, and eight tests have been made of cement not used by the Department, for private parties on payment to the Treasurer of proper fee. All the iron and blacksmith work for the Department has been done here and stores and supplies received and issued to the various sections of the Department as required.

East Seventeenth Street Yard—This yard has been kept in order and used for storage of granite and other materials, which have been issued to the work as required.

Herewith submit an appendix, containing—

Summary of the work of construction under the "new plan."

Summary of the work of construction not under the "new plan."

Table of wharfage room made by the Department of Docks during the year.

Summary of work at the Department yards.

Summary of the work of "General Repairs."

Summary of the work done for other Departments.

Summary of work done for and at the expense of alleged owners, lessees and others.

Summary of the work on "Floating Property."

List of contracts under which work has been done during the year.

List of the forms of contracts and specifications submitted to the Board of Docks during the year.

A statement in detail of the dredging done by the Department of Docks during the year.

A table of the dredging done by lessees or owners during the year by order or under permit of the Board of Docks.

A statement of stock on hand, purchased, fabricated and issued at West Fifty-seventh Street Yard.

A statement of granite on hand, received and issued at East Seventeenth Street Yard.

A full statement of the work done by owners and lessees of piers and bulkheads, and by others, by order or permit of the Board of Docks, and under my general supervision.

The following are among the most important of such works:

North River.

Pier 8, North River—The pier, the shed on the pier and the bulkhead platform on its south side were repaired by the Central Railroad Company of New Jersey.

Pier 9, North River—The damages done to the pier by the fire of January 29, 1887, were repaired and the new shed on the pier and bulkhead platform to the south were completed by the Cromwell Steamship Line.

Pier 18, North River—A new two-story shed, about 120 feet in length, was built on the outer end of the pier by John H. Starin.

Barclay Street Ferry, North River—The ferry structure and appurtenances were materially changed, modified and repaired by the Hoboken Land Improvement Company. A new ferry-house is in process of construction and is very nearly completed. The total area of land under water covered by these improvements, west of the 70 feet line of West street, amounts to 47,214 square feet, of which the company pays rent at the rate of 25 cents a square foot per annum.

Pier, old 25, North River—Extensive repairs were made to the understructure of the pier by the New York Central and Hudson River Railroad Company.

Bulkhead between Piers, old 27 and old 28, North river—The bulkhead, bulkhead platform and shed thereon were extensively repaired by the New York Central and Hudson River Railroad Company.

Bulkhead between Piers, old 28 and old 29, North river—The platform on piles, reported in Annual Report, was completed June 7, 1887.

Pier, new 35, North river—A shed was built upon this pier by the Ocean Steamship Company.

Bulkhead between Piers, new 36 and new 38, North river—The construction of an iron shed the bulkhead, about 237 feet long and 50 feet wide, has been nearly completed during the year by C. P. Huntington, lessee.

Pier, new 37, North river—A shed is under construction upon this pier by C. P. Huntington, lessee.

Bulkhead between Piers, new 40 and new 42, North river—The construction of an iron shed the bulkhead, about 269 feet long and 50 feet wide, which was erected by the Delaware, Lackawanna and Western Railroad Company, lessee.

Pier, new 61, North river—A shed was built upon this pier by the New York Central and Hudson River Railroad Company, lessee.

Bulkhead between the Piers at the foot of West Sixty-third and West Sixty-fourth streets, North river—The bulkhead was rebuilt from low water up by the New York Central and Hudson River Railroad Company.

Pier near the foot of West Sixty-eighth street, North river (Pier "G")—This pier, which was burned down to the water's surface on April 16, 1887, was rebuilt during the year and a new pier was built upon it by the New York Central and Hudson River Railroad Company.

Pier near the foot of West Seventieth street, North river—This pier, used for receiving and storing coal, was also nearly destroyed by the fire of April 16, 1887, and has been rebuilt and repaired by the New York Central and Hudson River Railroad Company.

Transfer bridge, south of West Sixty-ninth street, North river—A bridge, with racks and form for the transfer of loaded freight cars, was erected by the New York Central and Hudson River Railroad Company.

East River.

Pier 40, East river—The pier and the shed were thoroughly repaired and the side horizontal sheathing was put on by Frank Phelps, lessee.

Bulkhead between East Fifty-sixth and East Fifty-seventh streets, East river—A platform on piles and a large coal elevator were built by G. D. Curtis.

Harlem River.

East of Second avenue, Harlem river—Coal bins and hoisting apparatus were erected by the Manhattan Railway Company.

Bulkhead between One Hundred and Thirty-fifth street and One Hundred and Thirty-sixth street, Harlem river—The work which was begun in August, 1886, was completed May 14, 1887, and various appurtenances have been provided for convenient use of the premises.

Premises at One Hundred and Sixty-first street, west side of Cromwell's Creek, Harlem river—A platform on piles 465 feet long and varying in width from 79 to 100 feet has been built by J. Colwell.

Bulkhead at One Hundred and Sixty-first street, east side of Cromwell's creek, Harlem river—The filling in rear of the exterior crib-bulkhead begun by J. J. Astor in 1885 was finished October 15, 1887.

One Hundred and Fifty-fifth street to One Hundred and Fifty-seventh street, south side of Harlem river—This crib-bulkhead, begun by Mrs. Sarah Lynch in November, 1886, was completed April 21, 1888, and the filling in rear is now in progress.

One Hundred and Eighty-first street, Harlem river—The false work for the construction of the bridge over the Harlem river (Manhattan Bridge), and a variety of other work in connection with the bridge, has been supervised.

North of Morris Dock, Harlem river—Extensive platforms on piles and other accessories have been erected on the land under water belonging to the company by the Gas Engine and Power Com-

In concluding this report, I beg leave to add the following recommendations and suggestions.

West Washington Market.

New West Washington Market, between Gansevoort and Bloomfield streets, is now approaching completion, and it is to be hoped that the Department of Docks will soon be able to remove the sheds and the occupants of the present West Washington Market at Vesey and Dey streets, and proceed with the work of improvement under the new plan there, by which several new and large piers will be added to a section of the North river water front which is very much crowded, and in need of increased accommodations.

North River.

Very great pressure has existed for many years for room on the water front, from the Battery West Eleventh street, on the North river.

Under the new plan of 1871 there are to be no piers between Pier 47 at Perry street and proposed new Pier 48, which will be between West Eighteenth and West Nineteenth streets, a distance of about 4,430 feet, and from proposed new Pier 48 to West 22d street there are to be but four piers, the longest only 357 feet in length upon its centre line, while the shortest is to be but 120 feet.

The wharfage room from the north side of Pier, new 47, to the north side of proposed new Pier 51, including both bulkheads and piers, is about 7,600 feet.

It is impossible to induce the users of the water front to make the long jump from West Tenth street to West Twenty-third street, between which streets there can be no piers of consequence under the new plan, but if, as suggested and recommended in the report of 1880, a change can be made in the new plan, it would be easy to relieve the pressure below Tenth street by moving the applications up a single pier or a single block at a time. This improvement was proposed and illustrated in *extenso* in the report of 1880, and is one which, if possible, should be executed. The matter stands substantially now as it did then, except for two blocks, namely, those between Gansevoort street and Bogart streets, and between Bogart and Bloomfield streets, where the ground is now occupied by market buildings. This would simply modify the plan by so much, leaving that part of it, a distance of only about 400 feet, which would not be improved, and reducing the number of new piers to be provided from about 21 to about 19, and reducing the total amount of wharfage room to be made by the proposition of 1880 from about 25,750 feet to nearly 25,000 feet.

The property to be purchased has of course increased somewhat in value, but as an offset to this, the rental value of the piers has also increased above \$30,000 each per annum, the price used in the estimate of revenue given in the report of 1880.

In order to carry out this plan, it would be necessary to have legislation to the effect that the Board of Docks may, with the approval of the Commissioners of the Sinking Fund, alter and amend the new plan of 1871, between Christopher street and West Twenty-third street, on the North river.

The plan of 1871 can also be improved by extending the pierhead line further out into the river between West Tenth street and the Battery, to which there is no valid objection, and thereby increasing the length of the piers, some of which, now only about 540 feet long, can easily, if the change is made, be increased in length to 700 feet. The great size of the ocean steamships which chiefly use this portion of the water front, renders this change very desirable, and is also advantageous to smaller vessels, because the greater length of the piers would allow a greater number of them to be berthed at each pier than now. This change also requires legislative action to empower the Board of Docks, with the consent and approval of the Commissioners of the Sinking Fund, to make it.

East River.

Pursuant to the requirements of chapter 697 of the Laws of 1887, the Department of the Sinking Fund made a plan for an exterior street 150 feet (the width required in the statute) wide, from East Fourth to East Eighty-sixth street, and submitted the same to the Commissioners of the Sinking Fund. The matter was considered by that Board and referred to the Department of Public Works and the Department of Docks for report upon modifications. The two departments united in report that the street should be reduced in width to 115 feet and to extend from East Sixty-fourth to East Eighty-first street, and an amendment to the law of 1887 has been obtained to that effect by the Legislature of 1888.

A new plan for the improvement of the East river water front from the easterly side of Avenue A, between East Eighty-ninth and East Ninetieth streets, to the easterly side of Third Avenue, adopted by the Commissioners of the Sinking Fund on the 19th day of December, 1887, and approved by the Department of Docks on the 5th of January, 1888, and work under it has been begun, as stated elsewhere.

Harlem River.

A new plan was determined by the Department of Docks on June 28, 1887, and was adopted by the Commissioners of the Sinking Fund on August 31, 1887. "On the westerly side of the Harlem River, between the westerly side of Eighth Avenue at the southerly side of One Hundred and Ninth Street and High Bridge," and a lease (dated December 29, 1887,) of a portion of the land for about 500 feet northerly of Eighth Avenue has been made to the Manhattan Elevated Railroad Company, who are building the wharves and slips provided for in the plan, and who have made reasonable progress in the same under the circumstances.

Land Grant.

A grant of land under water has been obtained from the Commissioners of the Land Office of the State of New York, dated April 5, 1888, for all land under water belonging to the State from the mouth of the Bronx River along Long Island Sound, through the Bronx Kills to the Harlem River and through the Harlem River and Spuyten Duyvil Creek to the Hudson River, and then along the Hudson River to the northerly boundary of the city, between high-water mark and a line outside the high-water mark described in the grant.

A great deal of work must be done on this section of the water front of the city in order to ascertain its capacities and requirements for adaptation to commercial uses as required by section 713 of the Consolidation Act, as amended by chapter 517 of the Laws of 1884.

Inshore Boundary.

I beg leave to suggest that it is very desirable that the boundary of the jurisdiction of the Department of Docks on the land or shore side should be relieved from the uncertainty which attends it and made definite. The Department of Docks has jurisdiction over all the wharves in the city, but it is difficult to determine where the wharf ends and the street begins on the margin of the wharves or bulkheads, and consequently there is always an uncertainty which tends to tolerate abuses in use and condition. I beg leave, therefore, to recommend that legislation be obtained under which the Department of Docks can from time to time, with the approval of the Commissioners of the Sinking Fund and of the Board of Street Opening and Improvement, fix the inshore boundary of its jurisdiction and responsibility.

Very respectfully, your obedient servant,

G. S. GREENE, JR., Engineer-in-Chief.

APPENDIX.

Summary of the Journal of the Work for the Year ending April 30, 1888.

WORK OF CONSTRUCTION UNDER THE NEW PLAN.

NORTH RIVER WATER FRONT.

CHAMBERS STREET SECTION.

Under Unanimous Resolutions of the Board, November 24, 1877, and November 21, 1878.

EARTH FILLING.

October 4 to December 7, 1887.—587 loads of rough stone and brick-bats were received free and used to fill up in rear of the bulkhead-wall on the northerly slope of the earth filling north of Pier, new 21, North river.

Bulkhead between Piers, new 20 and new 21, N. R.

DRAINING NEW-MADE LAND.

Under Secretary's Order No. 6818.

Water was drained from the new-made land in front of Piers, new 20 and new 21, North river, at various times during the year.

LOCATING WOODEN SEWER-BOX.

Under Secretary's Order No. 6878.

August 19 to August 23, 1887.—Earth was excavated on the new-made land between Chambers and Duane streets to locate the wooden sewer-box for Department of Public Works.

SECTION OFFICE.

July 16, 1887.—Doors of the office were repaired.

FRANKLIN STREET SECTION.

Under Unanimous Resolution of the Board, October 6, 1887.

Bulkhead-wall Proper.

DREDGING.

October 19 to November 20, 1887.—14,883 cubic yards of mud were excavated and removed from site of the proposed bulkhead-wall by the Union Dredging Company, under Treasurer's Orders Nos. 12591 and 12654. The area dredged was examined by the diver.

STONE FILLING.

November 22 to December 1, 1887.—861 cubic yards of cobble-stone and 664 cubic yards of rip-rap stone were delivered and placed on the wall foundation by Mr. John A. Bouker, under Treasurer's orders therefor.

February 9 to February 16, 1888.—The present south end of the section was bulkheaded with plank by the divers to retain the cobble filling in place.

February 14 to March 5, 1888.—439 cubic yards of cobble-stones, 167 cubic yards of ballast and 348 cubic yards of rip-rap stone were delivered and placed on wall foundation by John A. Bouker and Mr. Alexander Howell, under Treasurer's orders therefor.

March 28 to March 29, 1888.—Cobble-stones were leveled off by the diver over the area the concrete foundation blocks were to be placed.

Total to date, 1,467 cubic yards of cobble-stone and 1,012 cubic yards of rip-rap stone.

PILING AND WOODWORK.

Vertical Piling.

December 1, 1887, to February 14, 1888.—354 vertical piles were driven, regulated and lathed. Two piles were broken in driving.

Bracing Piling.

December 12, 1887, to February 14, 1888.—54 bracing piles were driven and regulated.

Binding Frames.

December 22, 1887 to February 20, 1888.—5 binding frames were made, and with the diver were sunk and keyed to place.

Sawing Off Piles.

February 8 to February 9, 1888, and April 9 to April 14, 1888.—78 foundation piles & concrete foundation blocks, and 55 platform piles were sawed off by the saw-cutting machine.

February 18, 1888.—3 foundation piles for the concrete foundation blocks (which could be reached with saw cutting machine) were cut off by the divers.

The two rear rows of vertical piles were cut off by hand from time to time during the progress of the work to admit the driving of bracing piles.

Receiving Lumber.

December 5, 1887.—Lumber for use on the work was received and inspected.

Inspecting Piles.

December 16 to December 27, 1887.—Piles were inspected at Weehawken to be delivered to Treasurer's Order No. 12615.

Mooring Piles.

January 15, 1888.—5 piles were driven to moor floating property to temporarily.

Locating Foundation Piles.

February 17, and April 12, 1888.—The foundation piles on which the concrete foundation blocks were to be placed were located by the divers by means of wire screens.

MASONRY.

Concrete Blocks.

March 19 and 20, 1888.—5 concrete foundation blocks were loaded by the Derrick "City of New York," on scows for use at this section, and cement, sand and broken stone were put on by Department laborers.

April 2, 1888.—Mattresses were prepared for setting the concrete foundation blocks on, and concrete foundation blocks were placed by the derrick "City of New York," assisted by the divers.

Chain Holes.

April 2, 1888.—The chain holes between the concrete blocks were filled with concrete in the

Pier, near 24, N. E.

Under Unanimous Resolution of the Board, October 1, 1887.

DREDGING.

From May 3 to 23, 1887.—25,202 cubic yards of mud were excavated and removed by the Dredging Company under Treasurer's Orders Nos. 12180 and 12713.

Work of building a new pier northerly of Pier, old 35, North River, to be known as Pier new River, under Contract No. 263, by John Gibbs, contractor, was begun February 1, 1888, in progress.

NORTH MOORE STREET SECTION.

Under Unanimous Resolution of the Board, April 22, 1886.

Bulkhead Wall, Upper.

DREDGING.

From May 18 to July 22, 1887.—8,290 cubic yards of mud were excavated and removed by the Dredging Company, under Treasurer's Order No. 12421, from the surface of the stone filling. The mud accumulated thereon since the stoppage of the work by the municipality of July 7, 1881.

From August 15 to October 31, 1887.—8,376 cubic yards of mud were excavated and removed from the bulkhead wall by the Union Dredging Company, under Treasurer's Order No. 12444, dredged was examined by the divers.

April 14 to April 30, 1888.—4,459 cubic yards of mud and about 1,400 cubic yards of cribwork were excavated and removed from site of bulkhead wall by the Union Dredging Company, Treasurer's Order No. 12882.

Total excavated and removed for the year, 21,125 cubic yards of mud and about 1,400 yards of cribwork. Totals to date, 43,158 cubic yards of mud and about 1,400 cubic yards of cribwork.

STONE FILLING.

July 7, 1887.—The cobble-stone area was examined by the divers to ascertain the depth and condition of the mud that had accumulated thereon since the injunction of July 7, 1881.

390 cubic yards of cobble-stone were delivered and placed on wall foundation by Messrs. Brown & Fleming, under Treasurer's Orders therefor.

August 1 to September 15, 1887.—664 cubic yards of rip-rap stone were delivered and placed front and rear of the piling by Messrs. Brown & Fleming, under Treasurer's Orders therefor.

November 1, 1887, to January 12, 1888.—1,590 cubic yards of cobble-stone and 1,000 yards of rip-rap stone were delivered and placed on the wall foundation by Messrs. Brown & Fleming and by Mr. John A. Bouker, under Treasurer's Orders therefor.

Prior to putting in the filling, the mud was washed out over the slope at north end of wall with a water-jet thrown by a pump on Pile Driver No. 5, assisted by the divers.

April 6 to May 1, 1888.—574 cubic yards of cobble-stone and 1,495 cubic yards of rip-rap and 228 cubic yards of ballast as cobbles were delivered and placed on wall foundation by Messrs. Brown & Fleming, under Treasurer's Orders therefor.

Totals for the year, 2,967 cubic yards of cobbles, including the ballast put in as cobbles, 3,167 cubic yards of rip rap; to date, 4,701 cubic yards of cobbles, 4,015 cubic yards of rip-rap, 280 cubic yards of street cobble stones placed as rip-rap.

PILING AND WOODWORK.

Vertical Piling.

August 20, 1887, to April 11, 1888.—689 vertical piles were driven, regulated and stay-lashed. 4 piles were broken in driving.

Bracing Piling.

September 21, 1887, to April 5, 1888.—112 bracing piles were driven and regulated; 2 were broken in driving.

Binding Frames.

September 8, 1887, to April 24, 1888.—9 binding frames were made, and with aid of divers were sunk and keyed to place. Prior to placing the first 3 frames, the mud was washed out from the piling with a water-jet thrown by a pump on Pile-driver No. 5, assisted by the divers.

Sawing off Piles.

October 26 and October 29, 1887.—43 foundation piles for the concrete blocks were sawed off by the saw-cutting machine.

November 7 to December 19, 1887.—87 foundation piles and 83 platform piles were sawed off.

February 12 and April 6 to April 22, 1888.—37 foundation piles and 17 platform piles were sawed off.

Capping.

November 11 to December 16, 1887, and February 3 to March 29, 1888.—The bracing piles were sawed off by hand, and were prepared to receive the longitudinal caps. 318 lineal feet longitudinal capping and 31 transverse caps were placed.

Mooring Piles.

October 11, 1887.—6 mooring piles were driven to fasten the floating property to temporary

Locating Foundation Piles.

ber 3 and 11, December 16 and 21, 1887, and April 10 to April 13, 1888.—The foundation which the concrete blocks were to be placed were located by the divers.

Building Platform.

ry 4 to January 7, 1888.—A temporary platform was laid on top of piles already driven, le-driver ways for driving piles to close gap between Piers, old 36 and new 36, North river. ry 11 and 12, 1888.—The land ways driving the vertical piles in the gap were placed on m made to receive them by the derrick "City of New York."

MASONRY.

Concrete Blocks.

ber 18, 1887, to January 11, 1888.—Cement, sand and broken stone were loaded on scow st Fifty-seventh Street Yard, and 10 concrete foundation blocks were loaded by the City of New York," on scows for use at this section. Mattresses were prepared for set- adation blocks on, and 10 concrete foundation blocks were set by the derrick "City of sed by the divers.

Chain Holes.

ber 26 and 27, 1887, and January 11 and 12, 1888.—The chain holes between the ocks were filled with concrete in bags.

Temporary Approach to Pier, old 36, N. R.

March 3 to March 29, 1888.—A temporary approach about 24 feet wide was built at the end of the north side of Pier, old 36, North river, to give access to the outer end of the pier; the old work in line of new bulkhead was removed.

Removing Pier, old 36, N. R.

March 30 to April 12, 1888.—The old shed upon Pier, old 36, North river, was taken; the old sheathing, deck and square timbers of the pier were removed, old piles were pulled and the cribwork underneath the pier was removed down to low-water mark, in line of the bulkhead wall.

April 13 to April 16, 1888.—A portion of the old material removed from the inner end of old 36, North river, was unloaded from a scow and stored at West Fifty-seventh Street Yard.

Locating a Sunken Canal Boat.

January 4, 1888.—A canal boat, the "Chas. H. Fowles," consigned to the Morgan Steam Company, sunk in slip between Beach and North Moore streets, was located by the divers.

BEACH STREET SECTION.

Under Unanimous Resolution of the Board, July 16, 1879.

Bulkhead Wall Proper.

DREDGING.

May 30, 1887.—1,180 cubic yards of mud were excavated and removed from site of bulkhead wall by the Union Dredging Company, under Treasurer's Order No. 12667.

Totals excavated for the year, 1,180 cubic yards of mud. To date, 21,267 cubic yards of mud and 1,450 cubic yards of cribwork.

STONE FILLING.

June 7 to June 15, 1887.—Mud was washed from the cobble stone and 773 cubic yards of stone were delivered and placed on wall foundation by Messrs. Brown and Fleming and Mr. A. Bouker, under Treasurer's Order therefor.

Totals deposited during the year, 598 cubic yards of cobble and 773 cubic yards of rip-rap; to date, 6,146 cubic yards of cobble, 9,518 cubic yards of rip-rap and 135 cubic yards of stone put in as cobble.

PILING AND WOODWORK.

Vertical Piling.

July 20 to August 2, 1887.—79 vertical piles were driven, regulated and staylathed. 10 piles were broken in driving. Total vertical piles driven for the year, 79 and 2 broken; to date, 633 and 31 broken.

Bracing Piling.

August 2 to August 5, 1887.—9 bracing piles were driven and regulated. Total, bracing piles driven for the year, 9; to date, 96 and 2 broken.

Binding Frames.

August 20 to August 28, 1887.—1 binding frame was made, and with the aid of divers sunk and keyed to place.

Sawing Off Piles.

August 17 to August 31, 1887.—33 foundation piles for the concrete blocks, and 33 platform piles were sawed off by the saw-cutting machine.

Capping.

September 21 to October 17, 1887.—The bracing piles were sawed off by hand and were prepared to receive the longitudinal caps, and 72 lineal feet of longitudinal capping and 9 transverse caps were placed.

Locating Foundation Piles.

ber 18, 1887.—The foundation piles on which the concrete blocks were to be placed were located by means of wire screens.

Decking.

ber 12 to November 18, 1887.—1,175 feet B. M. of 4-inch spruce planking was placed on rear of wall.

MASONRY.

Concrete Blocks.

ber 3 to September 11, 1887.—The accumulation of oyster shells in the chain holes of blocks last set at the present north end of section in July, 1886, was cleared off by the men, sand and broken stone, were loaded on scows at the West Fifty-seventh street yard concrete foundation blocks were loaded by the derrick "City of New York" on scows in this section. Mattresses were prepared for setting the concrete blocks on, and three concrete blocks were set by the derrick "City of New York," assisted by the divers.

Chain Holes.

ber 10, 1887.—The chain holes between the concrete blocks were filled with concrete in

Granite.

ber 9 to December 20, 1887.—20 pieces of granite were set and backed up with 80 cubic feet of concrete.

Coping Stones.

ber 1 to March 21, 1888.—14 pieces of coping stone were prepared by dressing the bottom of the stone set north of Pier, new 26, North river.

REMOVING OLD WORK.

November 1 to November 10, 1887.—The old bulkhead-platform and the facing timber old crib-bulkhead in rear of the bulkhead wall was removed, rafted up and towed to the foot of West Thirtieth street, North river, to make way for earth filling.

EARTH FILLING.

November 28, 1887, to February 1, 1888.—4,828 loads of earth filling on tickets were and placed in rear of the bulkhead wall.

Total filling received to date, 5,106 loads on tickets, 24,435 loads free, and 1,175 loads the Street Cleaning Department.

LAIGHT STREET SECTION.

Unanimous Resolutions of the Board, July 30 and November 3, 1880.

Bulkhead Wall Proper.

DREDGING.

May 28 to May 30, 1887.—2,884 cubic yards of mud were excavated and removed from bulkhead wall by the Union Dredging Company under Treasurer's Order No. 12667. Total excavated for the year, 2,884 cubic yards of mud; to date, 45,212 cubic yards of mud and 8,412 yards of cribwork.

STONE FILLING.

June 1 to June 15, 1887.—Mud was washed from the cobble-stone area with a water-jet by a pump on Pile-driver No. 5, assisted by the divers.

August 26 to November 14, 1887, and January 5 and January 6, 1888.—968 cubic yards of cobble-stone and 1,281 cubic yards of rip-rap stone were delivered and placed on wall from Messrs Brown & Fleming, under Treasurer's Orders therefor.

Total deposited for the year, 968 cubic yards of cobble and 1,281 cubic yards of rip-rap; to date, 11,420 cubic yards of cobble and 16,244 cubic yards of rip-rap.

PILING AND WOODWORK.

Vertical Piling.

June 15 to August 24, 1887.—168 vertical piles were driven, regulated and stayed which were extra foundation piles driven for the concrete blocks. 4 piles were broken in driving. Total for the year, 168 driven and 4 broken; to date, 1,280 driven and 4 broken.

Bracing Piling.

June 15 to August 5, 1887.—36 bracing piles were driven and regulated. Total for the year, 36; to date, 207.

Binding Frames.

July 10 to July 18, 1887.—2 binding frames were made, and with aid of divers were keyed to place.

Sawing Off Piles.

July 15 to August 30, 1887.—54 foundation piles for the concrete blocks and 75 platform piles were sawed off by the saw-cutting machine.

Capping.

August 5 to August 12, 1887, and September 6 to October 13, 1887.—Chock pieces were driven underneath ends of caps. The bracing piles were sawed off by hand and were prepared to receive the longitudinal caps. 216 lineal feet of longitudinal capping and 20 transverse caps were driven.

December 15 to December 26, 1887.—Ends of caps were sawed off where they interfere with the setting of granite.

Locating Piles.

August 12 to August 19, 1887.—The foundation piles on which the concrete blocks were to be relocated by the divers by means of wire screens.

Decking.

November 17 to November 29, 1887.—2,877 feet, B. M., of 4-inch spruce planking were placed in rear of bulkhead wall.

MASONRY.

Concrete Blocks.

October 16, 1887.—Measurement on concrete blocks were made by the surveying party, assisted by

November 3 to September 12, 1887.—Cement, sand and broken stone were loaded on scows at City-seventh Street Yard, and four concrete foundation blocks were loaded by the derrick "City of New York" on scows for use at this section. Mattresses were prepared for setting the blocks on, and four concrete foundation blocks were set by the derrick "City of New York" assisted by the divers.

Chain Holes.

November 13, 1887.—The chain holes between the concrete blocks were filled with concrete

Granite.

November 9 to December 20, 1887.—90 pieces of granite were set and backed up with 240 concrete.

Coping Stone.

January 11 to March 21, 1888.—5 pieces of coping stone were prepared and set between Piers, new and old, North river, on this section.

* Given in equivalent lengths of wall, which has not been done in previous years.

REMOVING OLD WORK.

November 1 to November 30, 1887, and March 9 to March 24, 1888.—The facing timb the old cribwork in rear of the bulkhead wall was removed, rafted up and towed to the timb foot of West Thirtieth street, North river, to make way for earth filling.

TEMPORARY SEWER BOX.

November 16 to December 3, 1887.—A temporary sewer box was built from the foot of street, on the line of West street, to an opening left in the bulkhead wall between Beach and streets.

FILLING IN REAR OF WALL.

May 23 to May 25, 1887.—The plank approach leading to Pier, new 27, North riv shored up, same having been disturbed by the filling on the north of it.

November 1, 1887, to May 1, 1888.—9,714 loads of earth filling on tickets were receiv placed to fill up rear of the bulkhead wall.

Total received during the year, 9,714 loads on tickets; to date, 30,841 loads on tick 461 loads free.

WATCHMAN'S OFFICE.

June 13 to June 17, 1887.—The small frame office used by Watchmen for a tool-bo cleaned, repaired and removed from the present length of section to the bulkhead between and Hubert streets.

October 17, 1887.—The Watchman's office was repaired.

SPRING STREET SECTION.

Bulkhead Wall Proper.

STONE FILLING.

May 15, 1887.—96 cubic yards of rip-rap stone were furnished by Messrs. Brown & F under Treasurer's Order No. 12289, and deposited by them in front of the wall over t occupied by a crib which was not removed at the time the wall was built.

MASONRY.

Coping Stone.

September 8 to September 24, 1887.—4 pieces of coping-stone were prepared by cutt bottom beds and set; two on the south side of Pier, new 35, North river, and two on the nor The joints were pointed.

Backing Logs.

December 12 to December 26, 1887, and January 7 to January 29, 1888.—2 pieces of b logs were placed on the bulkhead wall, one on the north side and one on the south side c new 35, North river. The piece placed on the south side had been treated with creosote.

Pier, new 35, N. R.

Under Resolution of the Board, June 6, 1883, and April 13, 1887.

April 5 to August 18, 1887.—The old pier was removed, including the cribwork under t and its site was dredged to a depth of about 25 feet below mean low-water mark, and a ne 594 feet long and 62 feet wide, was built on the site of the old pier by the Ocean Steamshi pany, lessees, in substantial accordance with the plans and specifications on Contract No. 1 in accordance with the terms of the resolutions of the Board of June 6, 1883, and April 1: The work was supervised under Secretary's Order No. 6431.

The removal of the old pier was begun April 5, 1887, the dredging was begun April 1: and was finished on August 22, 1887. The new pier was finished August 18, 1887.

A shed was built upon the pier by the lessees under permit of the Board. It was begun 1887, and was finished April 14, 1888.

Bulkhead between Piers, new 36 and new 38, N. R.

Under Secretary's Order No. 5530.

An iron shed about 237 feet long and 50 feet wide has been built on the bulkhead extending from the centre of the bulkhead between Piers, new 36 and new 37, to the centre of the slip between Piers, new 37 and new 38, by C. P. Huntington, lessee. It was begun September 13, 1886, and was nearly completed on February 28, 1887, when Pier, new 37, North river, was destroyed by fire. It will be finished as soon as the shed now being built on Pier, new 37, is sufficiently advanced to admit of a connection with it.

Pier, new 37, N. R.

The pier with the shed thereon was destroyed by fire on the morning of February 28, 1887.

Removing the Burned Remains of Pier, new 37, N. R.

Under Contract No. 253.

September 15 to November 7, 1887.—The burned remains of Pier, new 37, were removed by Morris & Cumings Dredging Company, contractors.

Dredging for the new Pier.

Under Contract No. 254.

October 5 to October 17, 1887.—The site of the new pier was dredged by the Union Dredging Company, contractors.

Building Pier, new 37.

Under Contract No. 257.

October 31, 1887, to February 15, 1888.—A new pier 590 feet long and 80 feet wide, being 10 feet wider than the former pier, was built by the Pacific Improvement Company, contractors.

Shed on Pier, new 37, N. R.

Under Secretary's Order No. 6528.

March 22, 1888, to date.—A shed is being built on the new pier by C. P. Huntington, lessee.

Bulkhead between Piers new 40 and new 42, N. R.

Under Secretary's Order No. 5697.

April 14, 1887 to April 21, 1888.—A shed about 269 feet long and 50 feet wide was built on the bulkhead from the centre of the bulkhead between Piers, new 40 and new 41, to the centre of the bulkhead, between Piers, new 41 and new 42, by the Delaware, Lackawanna and Western Railroad Company.

Building Silt Basin near Pier, new 41, N. R.

Under Secretary's Order No. 6591.

June 28 to July 9, 1887.—The granite paving blocks were taken up near the north side of Pier, new 41, and cleaned by Department force, the ground was excavated to the sewer, a silt basin delivered by the Jordan L. Mott Iron Works under Treasurer's Order No. 12347 was put in place, and a 6-inch drain-pipe connection was made between the silt basin and sewer under Treasurer's Order No. 12347, and the earth filling replaced. The removed pavement was replaced by Mr. George F. Doak, under Treasurer's Order No. 12365. The coal tar and gravel were filled in the joints by Department labor.

WEST TWENTY-THIRD STREET SECTION, SOUTH END.

Under Unanimous Resolution of the Board November 5, 1886.

Bulkhead Wall Proper.

PIILING AND WOODWORK.

August 1 to August 3, 1887.—Pile driver ways were transferred from Pier, new 57, North river, to deck of Scow "E" (the ways had been used during the construction at this section and were left on storage on Pier, new 57).

Examination of Bulkhead Wall.

September 16 and 17, 1887.—The rip-rap filling in front of the wall was examined with a view to settlement by divers, assisted by Pile-driver No. 5, with its pump for removing the mud.

Temporary Approach to Pier, new 54, N. R.

May 18, 1887.—Two holes in the plank roadway leading to the pier were repaired.

October 6, 1887.—The approach was blocked up and repaired a hole in same with 108 ft. of new 4-inch spruce plank.

Temporary Approach to Pier, new 56, N. R.

March 29 to April 1, 1888.—Patched sheathing on the temporary approach leading to the pier with 2,074 feet B. M. of new 4-inch spruce plank.

Removal of Old Work.

August 19 to September 27, 1887.—The New York Central and Hudson River Railroad Company removed about 170 feet of the inner end of an old pier about 35 feet wide, located about 100 feet north of the northerly line of West Thirtieth street, cutting off the piles at low water.

Filling in of Land under water by Private Owners.

September 6, 1887, to May 1, 1888.—26,606 loads of earth filling were put in place in the lines of West Thirty-first street, over area of land under water contained in a water grant owned by the New York Central and Hudson River Railroad Company, under permit of the

WEST THIRTY-SECOND STREET SECTION.

Under Unanimous Resolution of the Board, October 22, 1885.

Bulkhead Wall Proper.

DREDGING.

May 17 to May 24, 1887.—9,108 cubic yards of mud were excavated and removed from site of bulkhead wall by the Union Dredging Company, under Treasurer's Orders therefor. A sunken wreck was removed from the site of the wall under Treasurer's Orders No. 12320.

April 3 to 17, 1888.—18,692 cubic yards of mud were excavated and removed from site of the bulkhead wall by the Union Dredging Company, under Treasurer's Orders therefor. Total excavated during the year, 27,800 cubic yards of mud and 1 wreck; total to date, 63,771 cubic yards of mud and 1 wreck.

STONE FILLING.

May 1 to December 14, 1887.—4,597 cubic yards of cobble stone and 8,998 cubic yards of rip-rap stone were delivered and placed on the wall foundation by Messrs. Brown & Fleming, under Treasurer's Orders therefor.

February 22 to 25, 1888.—388 cubic yards of rip-rap stone were delivered and placed in front of the bulkhead wall by Mr. Alexander J. Howell, under Treasurer's Orders therefor.

November 3 to 14, 1887.—50 cubic yards of cobble stone previously stored on the bulkhead wall north of Pier, new 60, North river, were transferred and deposited on the wall foundation by Department laborers.

December 30 and 31, 1887.—About 50 yards of cobble stone were transferred from the bulkhead wall north of Pier, new 60, North river, to the bulkhead north of Pier, new 61, North river, by Department laborers.

December 6 to 9, 1887.—440 cubic yards of cobble stone were discharged on the bulkhead wall north of Pier, new 61, North river, by Messrs. Brown & Fleming, under Treasurer's Order therefor, for use during the cold weather, if required.

April 18 to 26, 1888.—834 cubic yards of cobble stone and 519 cubic yards of rip-rap stone were delivered and placed on the wall foundation by Mr. John A. Bouker, under Treasurer's Orders therefor.

Total deposited in wall foundation for the year, 5,481 cubic yards of cobble and 9,905 cubic yards of rip-rap: to date, 13,421 cubic yards of cobble and 20,030 cubic yards of rip-rap.

PILING AND WOODWORK.

Vertical Piling.

May 1 to July 2, 1887.—328 vertical piles were driven, regulated and staylathed; 2 piles were broken in driving. Total to date 990, 12 of which were extra piles and 2 broken.

Bracing Piling.

May 1 to July 29, 1887.—59 bracing piles were driven and regulated; 1 pile was broken in driving.

Binding Frames.

May 1 and August 15, 1887.—6 binding frames were made and with aid of divers were sunk and keyed to place, making a total of 13 frames in place to date.

September 23, 1887.—Binding frames were keyed up in the rear by the divers.

Sawing off Piles.

May 12 and 13, July 13 and August 2 and 10, 1887.—150 foundation piles were sawed off by saw-cutting machine and the high grade piles to receive the capping were cut off by hand.

Capping.

May 11 to 13 and September 1 to October 13, 1887.—Ends of caps were sawed off where projecting in the way of setting granite, and chocks were placed under the outer ends of caps on the foundation blocks.

May 18 to October 13, 1887.—The bracing piles were sawed off by hand and were prepared to receive the longitudinal caps. 504 lineal feet of longitudinal capping and 56 transverse caps were placed.

Decking.

May 10 and 11, July 16, October 5 to 28, 1887, and February 8, 1888.—1,276 square feet of 4-inch deck planking were placed on the caps in rear of the bulkhead wall.

Locating Foundation Piles.

May 10 to 16, July 20 to 26, and August 4 to 6, 1887.—The foundation piles on which the concrete blocks were to be placed were located by the divers by means of wire screens.

Inspecting Piles.

May 10 to 13 and July 9, 1887.—Piles delivered on the work were inspected.

Mooring Piles.

May 25, 1887.—3 new mooring piles were driven to fasten floating property to.

July 7 and 9, 1887.—3 old mooring piles were driven in place of the new piles broken.

Pile Butts.

June 8, 21 and 30, 1887.—Old pile butts were rafted up and placed in the timber basin at the foot of West Thirtieth street, North river.

MASSORY.

June 3 to 6, August 8 to 11 and September 19 to 22, 1887.—Cement, sand and broken stone were loaded on scows at the West Fifty-seventh Street Yard, and 13 concrete foundation blocks were loaded by the derrick "City of New York" on scows for use at this section. Mattresses were prepared for setting the concrete foundation blocks on, and 13 concrete blocks were set in the wall by the derrick "City of New York," assisted by the divers.

CHAMBER STAYS.

July 6 and 10 and September 20, 1887.—The chain holes between the concrete foundation blocks were filled with concrete in bags.

BACKING.

May 18 to 21, July 3 to September 20 and November 1 to 10, 1887.—880 pieces of granite were loaded up with 536 barrels of concrete, and cement, sand and broken stone were loaded on at the West Fifty-seventh Street Yard as required for use in setting and backing up the granite.

PAINTING GRANITE.

On 28, 1887.—The joints in granite were painted.

Filling in Rear of Wall.

1887, to May 1, 1888.—14,648 loads of earth filling on tickets and 8,214 loads of filling sets from the Street Cleaning Department were received and placed in rear of the bulk-

Total to date, 14,648 loads on tickets and 8,214 loads from the Street Cleaning Department tickets.

Removing Old Work.

ry 25 to March 28, 1888.—Old piles were pulled up, old sheathing, deck and square e removed from the outer end of old Pier at the foot of West Thirty-second street to for earth-filling at this point.

Pier, new 61, N. R.

Under Unanimous Resolution of the Board, March 16, 1887.

DREDGING.

to June 14, and October 24, 1887, and November 9 to December 6, 1887.—77,389 cubic id were excavated and removed from site of pier and from the slips on either side, by the dging Company, under Treasurer's Orders therefor. Total to date, 94,226 cubic yards.

RECEIVING LUMBER.

o to 30, 1887.—Yellow pine timber was received from the Hilton Timber and Lumber under *Treasurer's Order No. 12,309*, for use in building the pier, and it was inspected and

rafted up and placed in timber basin foot of West Thirtieth street, N. R., July 13 to 14, 1887. 6 piles were driven to secure the timber.

HANDLING LUMBER.

August 1 to October 12, 1887.—Yellow pine timber was selected and cut for use in building the pier by Department labor and turned over to the contractor for building the pier.

BUILDING PIER.

Under Contract No. 248.

July 1 to October 12, 1887.—A new pier, 500 feet long and 100 feet wide, with a low level deck for two railroad tracks and a high level deck for freight, was built by Joseph Walsh, contractor.

SHED.

Under Secretary's Order No. 6965.

November 12, 1887, to April 21, 1888.—A shed was built on the high level platform of the pier by the New York Central and Hudson River Railroad Company, lessees, under permit of the Board.

GANGWAYS IN PIER.

Under Secretary's Order No. 7439.

January 28 to March 28, 1888.—Gangways were placed in the openings left in the pier therefor, by the New York Central and Hudson River Railroad Company, under permit of the Board.

RAILROAD TRACKS.

Under Secretary's Order No. 7228.

November 26, 1887, to May 1, 1888.—Two railroad tracks have been laid on the pier and across the newly filled land in rear thereof to connect with the upland tracks of the lessees, and although not fully completed are now in use. The work is being done by the New York Central and Hudson River Railroad Company, lessees, under permit of the Board.

BUMPER FRAMES.

Under Secretary's Order No. 6891.

October 5 to 17, 1887.—Bumper frames were placed at the outer ends of the tracks on the pier by the New York Central and Hudson River Railroad Company, lessees, under permit of the Board.

Pier, new 62, N. R.

Under Unanimous Resolution of the Board, March 16, 1886.

DREDGING.

August 1 to 31, 1887.—45,197 cubic yards of mud were excavated and removed from site of Pier by the Union Dredging Company, under Treasurer's Orders therefor. Total to date, 45,197 cubic yards.

BUILDING PIER.

Under Contract No. 256.

November 17, 1887, to May 1, 1888.—A new pier, 500 feet long and 100 feet wide, with a central low level platform for a single railroad track and with a high level freight platform on each side of it, is under construction by Ranauld Gillies, contractor.

SHED ON THE PIER.

Under Secretary's Order No. 7174.

April 26 to May 1, 1888.—A shed is being erected upon the pier by the New York Central and Hudson River Railroad Company, lessees, under permit of the Board.

New Pier and Temporary Approach at West Thirty-seventh street, N. R.

Under Unanimous Resolution of the Board, June 25, 1887.

REMOVAL OF OLD PIER AND DUMPING BOARD.

July 30 to August 23, 1887.—The force of the Department removed the old pier, and the Street Cleaning Department dump and the cribwork under the pier down to mean low-water mark.

NEW PIER.

Under Contract No. 252.

September 12, 1887, to March 3, 1888.—A new pier, 500 feet long and 60 feet wide, was built by J. H. Gallies, contractor.

TEMPORARY APPROACH TO NEW PIER.

September 1, 1887, to March 2, 1888.—A temporary approach, extending from the pavement at the foot of West Thirty-seventh street to the inner end of the new pier, a distance of about 270 feet, and to the full width of the street, was built by the force of the Department. The old cribwork was widened about 18 feet for about 160 feet on its northerly side by a platform on piles; a crib about 45 feet in length was built across the street in extension of the cribwork to the south, to retain beach filling, and a pile work connection 60 feet wide and about 50 feet long was made from the end of the crib-bulkhead to the south with the inner end of the new pier. A large accumulation of wind-blown ashes was removed from the surface of the old cribwork within the street lines, and was discharged in rear of the bulkhead wall at West Thirty-second Street Section. This area was then covered with new 5-inch yellow pine plank.

DUMPING-BOARD ON THE NORTH SIDE OF THE APPROACH.

September 28 to October 8, 1887.—A dumping-board, 32 feet square, with an inclined approach 16 feet wide and 92 feet long, was erected by the force of the Department. This dumping-board turned over on October 8, 1887, to the Department of Street Cleaning for their temporary use during the construction of the new pier, and it has been occupied by said Department up to date.

TIMBER FOR NEW PIER.

August 24 to September 1, 1887.—The yellow pine timber for the new pier, delivered by J. H. Gallies, under Treasurer's Order No. 12499, was received, inspected, rifled and cared for.

September 12, 1887, to March 3, 1888.—The yellow pine timber for the new pier was turned over to the contractor from time to time in accordance with the terms of the contract for building it.

DREDGING FOR NEW PIER AND APPROACH.

July 27 to November 24, 1887.—73,853 cubic yards of mud, 2,758 cubic yards of cribwork and 14 wreck was excavated and removed from the site of the new pier and its approach, and from 15 feet on each side, by the Union Dredging Company, under Treasurer's Order No. 12500.

New Pier and Approach at West Thirty-seventh Street, N. R.

Under Unanimous Resolution of the Board, June 16, 1887.

DREDGING.

June 21, 1887, to March 30, 1888.—70,500 cubic yards of mud have been excavated and removed to date from the site of the new pier and approach, and from the sides of the approach, and from 15 feet on each side, by the Union Dredging Company, under Treasurer's Order No. 12500.

NEW PIER AND APPROACH.

Under Contract No. 262.

January 6 to May 1, 1888.—The outer end about 175 feet in length of the new pier have been built, and the work of building the outer end about 200 feet in length of the new pier is in progress.

by Richard Cronin, contractor. The work of removing the inner end of the old pier and proceeding with the dredging for and building the inner end of the new pier, its approach, and repairs to the crib-bulkhead, is retarded by the continued occupancy of the old pier by the Department.

New Pier and Approach at West Fortieth Street, N. R.

Under Unanimous Resolution of the Board, March 16, 1887.

November 17, 1886, to June 30, 1887.—A new pier, 500 feet long and 60 feet wide, extending on the street lines extended from the established bulkhead line to the established pier line, with temporary approach thereto, about 258 feet long and 40 feet wide, has been built by Richard Cronin, under Contract No. 231. The premises were leased at public auction at the sale of April 1887, for a term of four years from May 1, 1887, to the Western Stock Yard Company, who took possession on May 1, 1887.

New Pier at West Forty-seventh Street, N. R.

Engineer's Order.

March 19 to March 27, 1888.—15 rod borings were made with the "Woodcock" borer to determine length of piles required for a new pier.

Proposed Bulkhead Wall West Forty-sixth to West Fifty-sixth Street, N. R.

Engineer's Order.

September 9 to 16, 1887.—43 test piles were driven from the north side of West Fifty-first street to the south side of West Fifty-fifth street, North river, to test the river bottom.

September 23 to October 3, 1887.—63 rod borings were made by the "Woodcock" borer to test the river bottom.

WEST FIFTY-SECOND STREET SECTION, SOUTH END.

Under Unanimous Resolution of the Board, 6th October, 1887.

Removal of Old Work.

April 13 to 26, 1888.—The inner end of the old pier, extending easterly from a line about feet westerly of the established bulkhead line, was removed by the force of the Department to make room for the bulkhead wall. The old material was rafted and cared for.

Bulkhead Wall Proper.

DREDGING.

April 27 to May 1, 1888.—2,714 cubic yards of mud were excavated and removed from the site of the bulkhead wall by the Union Dredging Company, under Treasurer's Orders therefor. To date, 2,714 cubic yards.

WEST FIFTY SECOND STREET SECTION, NORTH END.

Under Unanimous Resolution of the Board, 6th October, 1887.

Bulkhead Wall Proper.

DREDGING.

October 17 to November 23, 1887.—25,574 cubic yards of mud were excavated and removed from site of bulkhead wall by the Union Dredging Company, under Treasurer's Orders therefor. Total excavated to date, 25,574 cubic yards.

STONE FILLING.

November 24 to December 3, 1887.—8 piles were driven in clusters by Department labor and mooring scows when engaged depositing filling on wall foundation.

99 cubic yards of cobble-stone and 651 cubic yards of rip-rap stone were deposited on the foundation by Messrs. Brown & Fleming and Mr. John A. Bouker, under Treasurer's Orders No. 7452.

December 3, 1887.—Work on this portion of the section was stopped by an injunction issued by United States Court.

February 6, 1888.—2 clusters of piles were pulled up, as they had been disturbed by the ice and reported dangerous to navigation by the Dock Master. The work was done under Secretary's Order No. 7452.

New Pier at West Fifty-first Street, N. R.

Under Unanimous Resolution of the Board, April 9, 1888.

February 24 to March 10, 1888.—9 rod borings were made by the "Woodcock" borer, under Secretary's Order No. 7390, to fix the length of piles required for a new pier.

REMOVAL OF OLD PIER.

Under Contract No. 272.

April 10 to May 1, 1888.—The work of removing all of the old pier outside of a line 50 feet early of the established bulkhead line is in progress.

DREDGING FOR NEW PIER.

April 17 to 27, 1888.—22,285 cubic yards of mud were excavated and removed from site of new pier by the Union Dredging Company, under Treasurer's Order No. 12893; total to date, 22,285 cubic yards.

West Fifty-seventh Street, N. R.

Receiving, inspecting and handling yellow pine timber to be delivered under Contract No. 259.

January 10 to 23, 1888.—Building boom on the north side of West Fifty-seventh street Pier, East river, to receive the timber.

January 10 to April 26, 1888.—Dexter Hunter has delivered 5 cargoes of yellow pine timber under his contract therefor No. 259, aggregating about 470,795 feet B. M.

January 10 to April 30, 1888.—Department force receiving, inspecting and caring for yellow timber delivered under Contract No. 259.

EAST RIVER.

Pier, new 29, E. R.

Under Unanimous Resolution of the Board, September 8, 1887.

REMOVAL OF DUMPING BOARD.

December 27, 1887, to January 4, 1888.—The old Street Cleaning Department dumping-board on the west side of pier, old 37, East river, was removed by the force of the Department of Docks to make way for Pier, new 29, and the old material taken therefrom was cared for.

The Department of Street Cleaning was moved up to the west side of Pier 44, East river.

BUILDING PIER.

Under Contract No. 261.

December 13, 1887.—The work of removing Pier, old 37, at the foot of Market Slip, and of building a new pier 288 feet long and 40 feet wide, to be known as Pier, new 29, East river, including a temporary approach thereto about 125 feet long and 40 feet wide, under Contract No. 11, Classes Nos. 2 and 3, by P. Sanford Ross, contractor, was begun December 13, 1887, and is in progress.

DREDGING

December 13, 1887, to March 21, 1888.—17,289 cubic yards of mud and 8,594 cubic yards of rockwork were excavated and removed from the site of the new pier, and its approach, and from the half slip on each side, by the Union Dredging Company, under Treasurer's Orders therefor.

TEST PILES.

February 16 to February 18, 1888.—Five test piles were driven on the site of the new pier and its approach.

March 6 to March 9, 1888.—Nine test piles were driven on the site of the new pier and its approach.

Pier, new 32, E. R.

Under Unanimous Resolution of the Board, December 1, 1886.

BUILDING PIER.

Under Contract No. 241.

May 1 to December 15, 1887.—The work of building a new pier about 279 feet long and 42 feet wide, with a temporary approach thereto, about 110 feet long and 40 feet wide, at the foot of Slip, E. R., in place of Pier, old 41, E. R., and to be known as Pier, new 32, E. R., was completed by John Gillies, contractor, under Contract No. 241, Classes Nos. 2 and 3, and was finished December 15, 1887.

CREOSOTED PILES.

Under Treasurer's Order No. 12168.

May 11 and May 12, 1887.—Thirty-four creosoted piles were received from the Carolina Creosote Company, at Jersey City, on a scow and were stored at West Fifty-seventh Street until required for Pier, new 32, East river. These piles were creosoted with "wood creosote."

June 8 to June 13, 1887.—A catamaran was built at West Fifty-seventh Street Yard, material, to carry the creosoted piles, and they were loaded upon it and towed to the pier.

June 13, 1887.—The creosoted piles were delivered to the contractor and were receipted for him, and were used as bearing-piles in the outer double row of piles of the pier in accordance with the terms of the contract.

DREDGING.

May 1 to October, 1887.—The dredging for the site of the new pier and its approach and half slip on each side was continued, and was finished October 19, 1887. 11,479 cubic yards of mud and 4,743 cubic yards of cribwork were excavated and removed by the Union Dredging Company, under Treasurer's Orders therefor. Total to date, 16,292 cubic yards of mud and 5,714 cubic yards of cribwork.

April 5 to April 9, 1888.—The river bottom on each side of the new pier was examined and dredged by the diver, and all loose sunken logs and projecting timbers were removed and disposed of.

Pier, old 46, E. R.

Under Secretary's Order No. 7184.

January 5 to January 7, 1888.—Three test piles were driven to determine probable length of piles for a new pier on the site of the old one.

Pier, new 36, E. R.

March 26, 1888.—A form of contract and specifications and the necessary plans for a new pier and a temporary approach thereto on the site of Pier, old 41, to be known as Pier, new 36, East river, have been prepared and are now about ready to advertise.

HARLEM RIVER.

Pier at East One Hundred and Seventeenth Street.

Under Unanimous Resolution of the Board, January 13, 1888.

April 14, 1888.—The work of extending the pier at the foot of East One Hundred and Seventeenth street, in course of construction under Contract No. 262, about 39 feet out to the water.

bulkhead line of the new plan, approved and adopted by the Commissioners of the Sinking Fund for this section of the water-front on December 19, 1887, was begun April 14, 1888, and is in progress by Mr. John W. Flaherty, under Treasurer's Order No. 12846 therefor.

Proposed Pier and Bulkhead at East One Hundred and Nineteenth Street, H. R.

TEST PILES.

Under Secretary's Order No. 7048.

January 9 and January 10, 1888.—Six test piles were driven to test the nature of the river bottom.

Proposed Pier and Bulkhead at East One Hundred and Twentieth Street, H. R.

January 10 to January 12, 1888.—Six test piles were driven to test the nature of the river bottom.

Proposed Masonry Bulkhead Wall at East One Hundred and Twenty-fifth Street, H. R.

Under Secretary's Order No. 7409.

January 24 to February 23, 1888.—482 borings were made with the boring machine "Woodcock."

March 15 and 16, 1888.—82 hand-rod borings were made.

February 7 to 10, 1888.—The timber work of the outer end of the old pier was removed to make room for the borings on the site of the proposed wall.

February 15 to 17, 1888.—509 cubic yards of cribwork were excavated and removed from the outer end of the old pier to make room for the borings on the site of the proposed wall by the Union Dredging Company, under Treasurer's Order No. 12796.

Crib-bulkhead between One Hundred and Fifty-ninth and One Hundred and Sixty-first Streets, H. R.

Under Secretary's Order No. 7460.

March 29, 1888.—The work of dredging for and building a crib-bulkhead on piles by the Manhattan Elevated Railroad Company, on the lines of the new plan for the improvement of the westerly side of the Harlem river, between the southerly line of One Hundred and Fifty-ninth street and High Bridge, approved and adopted by the Commissioners of the Sinking Fund on August 31, 1887, was begun on March 29, 1888, and is now in progress. The work to be done covers a length of about 550 feet of the bulkhead line, extending northerly from a point about 125 feet northerly of the south line of One Hundred and Fifty-ninth street, with a slip of 200 feet in length by 100 feet wide at its entrance and with return and wing-cribs, to make a total of about 1,304 linear feet of wharfage room when completed. The work is carried on under the supervision of the Engineer-in-Chief and in accordance with the resolution of the Board of December 12, 1887.

WORK OF CONSTRUCTION NOT UNDER NEW PLAN.

NORTH RIVER.

West Seventy-fifth Street to West Seventy-seventh Street, N. R.

PROPOSED CRIB-BULKHEAD.

Under Secretary's Order No. 7430.

January 28 to February 16, 1888.—Forty-one test-piles were driven to ascertain the nature of the river bottom.

Crib-bulkhead, West Seventy-seventh to West Seventy-eighth Street, N. R.

CONSTRUCTION OF CRIB-BULKHEAD.

Under Contract No. 243.

April 15 to July 20, 1887.—The new crib-bulkhead, including the necessary dredging on its site and in front of it, was finished and completed by Mr. William P. Kelly, contractor, on July 20, 1887.

Under Engineer's Order.

January 7, 1888.—Three oak fender-piles were driven at the outer lower corner of the crib.

FILLING IN REAR OF CRIB-BULKHEAD.

Under Unanimous Resolutions of the Board, September 8 and December, 30, 1887; January 27 and April 5, 1888.

August 1 to November 14, 1887.—4,606 wagon loads and 613 cart loads of clean earth and stone filling were received from Thomas Smith & Co., and were deposited in rear of the crib-bulkhead.

November 15, 1887, to April 9, 1888.—10,657 wagon loads and 1,850 cart loads of clean earth and stone filling were received from Thomas Smith & Co., under Secretary's Order No. 7167, and were deposited in rear of the crib-bulkhead, completing the filling in rear thereof for the present or until future settlements require additional filling.

Under Secretary's Order No. 6827.

August 1, 1887, to January 10, 1888.—3,428 loads of street dirt and ashes were received from the Street Cleaning Department and deposited as filling in rear of the crib-bulkhead.

Under Secretary's Order No. 7357.

January 11 to March 10, 1888.—4,440 loads of street dirt and ashes were received from the Street Cleaning Department and deposited as filling in rear of the crib-bulkhead.

Under Secretary's Order No. 6764.

July 14 to 30, 1887.—959 loads of earth and stone were removed from the bulkheads between West Seventy-eighth and West Eightieth streets, and from the surface of the pier at West Seventy-ninth street, N. R., by John A. Bouker's Nephew & Company, and were deposited as filling in rear of the crib work.

Total number of single or cart loads of filling received to date :

From Street Cleaning Department.....	7,874 loads.
From Thomas Smith and Company, 15,263 double loads,	
equivalent to	30,526 single loads,
Single loads	2,463
	32,989 "
From John A. Bouker's Nephew & Co	959 "
Total equivalent in single loads	41,822 "

The area of land under water reclaimed by this filling inside of the backing-log of the new cribwork is about 46,000 square feet.

TEMPORARY BOOM.

Under Secretary's Order No. 7357.

December 30, 1887, to January 7, 1888. A temporary boom to retain filling was built across the southern end of the area to be filled in.

New Made Land at foot of West Ninety-sixth Street, N. R.

Under Resolution of the Board, April 5, 1888.

April 11, 1888.—120 wagon loads and 303 cart loads of clean earth and stone have been dredged from Thomas Smith & Co., and deposited to fill up the land under water in rear of the bulkhead at the foot of the street, and formerly covered by the pile work portion of the pier at said street; in progress.

Pier and Crib-bulkhead at the foot of West One Hundred and Thirty-second Street, N. R.

Under Contract No. 246.

From August 8 to December 8, 1887.—A new crib-bulkhead about 113 feet long was built in extension of the old crib-bulkhead north of West One Hundred and Thirty-first street, with a winging the northerly line of West One Hundred and Thirty-second street, North river, to connect the railroad embankment; the area in rear of the new cribwork was filled in; a new pier 12 feet long at its south side and about 156 feet long on its north side, and 60 feet wide, was the lines extended, of West One Hundred and Thirty-second street, and springing from the bulkhead, and the necessary dredging for the new cribwork and for the pier was done by O'Connell & Coffey, contractors. The premises are now in use. An area of about 8,700 square feet of land inside of the backing-logs of the new cribwork was filled by the filling done under this contract.

Crib-bulkhead at the foot of West One Hundred and Fifty-eighth Street, N. R.

Under Contract No. 260.

From September 24, 1887, to May 1, 1888.—The work of dredging for and building a crib-bulkhead at the foot of West One Hundred and Fifty-eighth street, North river, by Duncan A. Gillies, contractors, was begun December 24, 1887, and is now in progress. The structure will be about 118 feet long on the south side, about 95 feet long on the north side, and 60 feet wide. The dredging was temporarily suspended on account of the ice on January 3, 1888. The work was resumed on April 11, 1888.

EAST RIVER.

Pier 60 E. R.

Under Secretary's Order No. 7276.

From September 9 to 16, 1887.—Seven test piles were driven to ascertain probable length of piles for a new pier.

NEW PIER.

Under Contract No. 269.

From March 19 to May 1, 1888.—The work of removing old pier 60, at the foot of Rivington street, and of building a new pier about 241 feet long and 50 feet wide, extending out to the old pier line, by Duncan A. Gillies, contractor, was begun March 19, 1888, and is in progress.

Dumping Pier at East Forty-sixth street, E. R.

Under Engineer's Order.

From September 19 to 23, 1887.—Eight test piles were driven to ascertain the probable length of piles required for a new pier.

Under Contract No. 271.

From March 26 to May 1, 1888.—The work of removing the old dumping pier and of building a new dumping pier about 404 feet long on its centre line and 36 feet wide, with dumping-pier 2 feet wide on each side and across its outer end, and of building a new block of cribwork about 40 feet wide by 20 feet long at the inner end of the pier, by Messrs. O'Connell and contractors, was begun March 26, 1888, and is in progress.

Small Landing Pier at the Foot of East Fifty-first Street, E. R.

Under Secretary's Order No. 7636.

April 17 to May 1, 1888.—A small landing pier, 30 feet long and 12 feet wide, with an approach 15 feet long and 6 feet wide, is under construction by the force of the Department, at the foot of East Fifty-first street, East river, for the use of the Department of Public Charities and Correction.

Crib-bulkhead at the Foot of East Seventy-sixth Street, E. R.

Under Contract No. 247.

July 18 to October 16, 1887.—A crib-bulkhead on piles was built at the foot of East Seventy-sixth street, extending out to the established bulkhead line, and with its side lines on the street line extended, by John Gillies, contractor.

Dumping-board at the Foot of East Eightieth Street, E. R.

Under Contract No. 245.

May 31 to July 12, 1887.—A dumping-board about 40 feet wide and 36 feet long on its surface including the overhang, with a planked approach about 55 feet long and 20 feet wide, was built at the foot of East Eightieth street, East river, by Walter Danforth, contractor.

HARLEM RIVER.

Crib-bulkhead between East One Hundred and Fourteenth Street and One Hundred and Fifteenth Street, H. R.

Under Engineer's Order.

September 6 to 8, 1887.—9 test piles were driven over the site of a proposed crib-bulkhead to test the nature of the river bottom.

CRIB-BULKHEAD.

Under Contract No. 258.

November 30, 1887, to April 20, 1888.—A crib-bulkhead on piles, extending from the existing crib-bulkhead at the centre of the block, between East One Hundred and Fourteenth and East One Hundred and Fifteenth streets, about 178 feet to the southerly side of the existing cribwork along the northerly line of East One Hundred and Fifteenth street, including the necessary dredging over and in front of its site and a rip-rap embankment in its rear, was built by John Gillies, contractor.

New Pier and Crib bulkhead at the Foot of East One Hundred and Seventeenth Street, H. R.

Under Secretary's Order No. 7020.

October 7, 1887.—Three test-piles were driven to ascertain the length of piles required for the proposed new pier.

NEW PIER AND CRIB-BULKHEAD.

Under Contract No. 262.

January 7 to June 30, 1887.—The work of dredging for and building a new crib-bulkhead on piles across the foot of East One Hundred and Seventeenth street, on the proposed bulkhead line of 1885, with a wing-crib on the southerly side, and of dredging for and building a new pier on its site, about 137 feet long and 50 feet wide, extending from the new crib-bulkhead to the established bulkhead and pier line of 1857, was begun on January 13, 1887, by John W. Flaherty, contractor, and is now in progress.

BLACKWELL'S ISLAND.

Storehouse Pier.

Under Contract No. 255.

Under 25, 1887, to January 20, 1888.—A new platform on piles 100 feet long and about 47 feet wide, in extension northerly of the Storehouse Pier on Blackwell's Island, was built by Duncan & contractor.

New Wharfrage Room, in linear feet, made during the Year ending April 30, 1888.

DEPARTMENT YARDS

West Fifty-seventh Street Yard, N. R.—Maintenance.

Under Resolution of the Board, November 21, 1885.

November 21 to 29, 1887.—The deck sheathing on the same was repaired with 2,223 feet. M., of 4-inch and 1,359 feet, B. M., of 5-inch yellow pine, and 185 feet, B. M., of 5-inch spruce, September 19, 1887.—Some fender piles were replaced on the north side of the pier.

Secretary's Order No. 7379.—January 4 to May 1, 1888.—The roofs of the cement shed, water shops and offices are being painted.

March 20 to 21, 1888.—The platform on the south side of the pier was repaired; four second-hand bearing piles were driven, chocked and fastened; a piece of cap put on with second-hand metal, and the deck was repaired with 225 feet, B. M., of 3-inch spruce. Begun March 20 and ended March 21, 1887.

WORK DONE AT THE YARD.

May 1, 1887 to May 1, 1888.—Iron work was made and repaired by the blacksmith for work on foundation, general repairs, flating property, West Fifty-seventh Street Yard and for the survey-party. 4,099 barrels of Portland cement were received and stored for Department use and samples tested.

May 1, 1887 to May 1, 1888.—Concrete moulds and cores were made, set up and taken down as required to make the concrete foundation blocks. 52 concrete foundation blocks were made, containing 1,716 cubic yards of concrete.

May 1, 1887 to May 1, 1888.—Tests were made of sample barrels of the following-named brands of Portland cement, and the results reported and recorded:

Under Secretary's Order No. 6458, "Anchor" brand.

Under Secretary's Order No. 6560, "Sphinx" brand.

Under Secretary's Order No. 6968, "Crofester's" brand.

Under Secretary's Order No. 6968, "Improved" brand.

Under Secretary's Order No. 7103, "Manske" brand.

Under Secretary's Order No. 7102, "Stehmams" brand.

Under Secretary's Order No. 7441, "Superior" brand.

Under Secretary's Order No. 7680, "Hiltens" brand.

East Seventeenth Street Yard—Maintenance.

Secretary's Order No. 6835.—The office building was repaired and painted by Department labor. Begun August 23 and finished October 5, 1887.

Secretary's Order No. 6811.—A tin roof was placed on the small office building by Mr. Samuel Suydam, under Treasurer's Order No. 12454, and was painted by Department labor. Begun October 4 and finished October 20, 1887.

Secretary's Order No. 6804.—The roof of the store-house was repaired and painted by ment labor, and a new tin roof was placed on it by Mr. Samuel A. Suydam, under the Order No. 12,452. Begun September 7 and finished October 20, 1887.

Low places about the yard were graded up with material that come from placing the an for the guys. Begun March 1 and finished April 30, 1888.

WORK DONE AT THE YARD.

May 9 to 11, 1887.—Granite was transferred to scow "E" for use at West Thirtieth Street Section.

June 3 to 7, 1887.—Granite was received under Contract No. 230, from Messrs. Nolan

July 12 to 16, 1887.—Granite was received under Contract No. 230, from Messrs. Nolan

July 19 to 20, 1887.—Granite was transferred to scow "E" for use at West Thirtieth Street Section.

SALE OF OLD MATERIAL AT PUBLIC AUCTION.

The following old material was sold at public auction on December 21, 1887, and was by the purchasers :

At the Basin foot of West Thirtieth Street, N. R.

No. 8.—1 lot, 1 raft of old timber, about 2½ feet deep, 24 feet wide and 28 feet long.

No. 9.—1 lot, 1 raft of old timber, about 2½ feet deep, 24 feet wide and 76 feet long.

No. 10.—1 lot, 1 raft of old timber, about 3 feet deep, 16 feet wide and 52 feet long.

No. 11.—1 lot, 1 raft of old timber, about 3 feet deep, 21 feet wide and 40 feet long.

No. 12.—1 lot, 1 raft of old timber, about 2½ feet deep, 18 feet wide and 60 feet long.

No. 13.—1 lot, 1 raft of old timber, about 1 foot deep, 11 feet wide and 25 feet long.

At West Fifty seventh Street Yard, N. R.

No. 14.—1 lot, deck scow "May" 80 feet long, 22 feet 8 inches wide and 6 feet 3 inches d

No. 15.—1 lot, 3 upright tubular boilers, 3 feet diameter and 7 feet high.

No. 16.—1 lot, 7 metal hand suction-pumps, about 8 feet long.

Also the following lots of old material :

No. 17.—1 lot, about 14,700 pounds of old wrought-iron.

No. 18.—1 lot, about 3,900 pounds of old cast-iron.

No. 19.—1 lot, about 2,700 pounds old rope.

- 1 lot, about 450 feet old rubber hose.
- 1 lot, about 12 pairs old rubber boots.
- 1 lot, about 39 in number, old steel shovels.
- 1 lot, about 7 in number, old steel hoes.
- 1 lot, about 6 in number, old tubular lanterns.
- 1 lot, about 6 in number, old oil cans.
- 1 lot, about 32 in number, old canal barrows.
- 1 lot, about 23 in number, old oil barrels.

At East Seventeenth Street Yard.

- 1 lot, about 800 pounds old rope.
- 1 lot, about 1,900 pounds old wrought-iron.
- 1 lot, about 250 pounds old canvas.
- 1 lot, about 46 in number, old canal barrows.
- 1 lot, about 16 in number, old window awnings.
- 1 lot, about 16 pairs, old rubber boots.
- 1 lot, about 500 feet, old rubber hose.

MENT OF GENERAL REPAIRS OTHER THAN DREDGING, FOR THE YEAR ENDING
APRIL 30, 1888.

NORTH RIVER.

Raising and Repairing Battery Boat Landing and Approach to Pier "A."

New-made Land from Pier, new 20 to new 21, N. R.

Secretary's Order No. 6578.—Obstructions, consisting of old Christmas trees, remains, dirt, etc., were removed and disposed of. Begun May 27 and finished June 3, 1887.

Pier, new 21, N. R.

Secretary's Order No. 7407.—Obstructions, consisting of old Christmas trees, left thereon by the pier were removed and destroyed. Begun and finished April 6, 1888.

Secretary's Order No. 7503.—A loose bearing pile was refastened with screw bolts. Begun 1888, and finished March 3, 1888.

Pier, old 33 (south side), N. R.

Secretary's Order No. 6738.—The pavement at the entrance and adjoining the south side of pier was repaired. Begun July 8 and finished July 14, 1887.

Secretary's Order No. 6880.—The deck sheathing of the south half of pier was patched with 4,355 feet, B. M., of new 3-inch spruce plank. Begun August 23 and finished August 24, 1887.

Secretary's Order No. 7485.—A loose spring pile on the south side of the pier was driven and fastened to place. Begun and finished April 10, 1888.

Pier, old 34 (north half), N. R.

Secretary's Order No. 6675.—Loose planks were refastened and loose spikes driven in. Begun and finished June 20, 1887.

Secretary's Order No. 6714.—The deck was patched with second-hand material, and pavement at entrance was repaired. Begun June 27 and finished June 29, 1887.

Secretary's Order No. 7041.—Deck was resheathed with 28,875 feet, B. M., of new spruce plank. Begun October 22 and finished October 31, 1887.

Bulkhead between Piers, old 34 and 35, N. R.

Secretary's Order No. 6531.—The bulkhead 100 feet southerly from Franklin street was repaired by putting on new timbers, backing-logs and blocking underneath; the piles and fenders braced, fish-plates and chocks were put on; used 1,164 feet, B. M., of 12-inch by 12-inch second-hand timber, 525 feet, B. M., of new 5-inch yellow pine, 1,668 feet, B. M., of new 12-inch by 12-inch yellow pine, 873 feet, B. M., of new hewn yellow pine; two half-round oak fenders put on, four second-hand piles were driven, and the surface of the platform was repaired with 10,012 feet, B. M., of new 3-inch spruce. Begun May 14 and finished May 28, 1887.

Bulkhead south side of Pier, old 35, N. R.

Secretary's Order No. 7218.—The pavement in front of the bulkhead was repaired. Begun December 5 and finished December 8, 1887.

Bulkhead between Piers, old 35 and old 36, N. R.

Secretary's Order No. 6446.—Spare paving-stones were removed from bulkhead to East Tenth Street Yard. Begun May 7 and finished May 9, 1887.

Secretary's Order No. 7225.—The pavement in front of the bulkhead near the north side of old 35, was repaired. Begun December 9 and finished December 10, 1887.

Pier, old 42, N. R.

Secretary's Order No. 7005.—The deck sheathing was patched with 4,025 feet, B. M., of spruce plank. Begun and finished October 28, 1887.

Secretary's Order No. 7394.—Obstructions, consisting of dirt, stone and rubbish, were removed from the surface of the pier. Begun April 23 and finished April 24, 1888.

Spring to West Tenth Street.

Resolution of the Board, June 2, 1886.—Silt-basins on the new-made land were cleaned and the mud swept from around them at various times, as required during the year.

Bulkhead between Piers, new 35 and new 36, N. R.

Secretary's Order No. 7653.—A hole in the tarred pavement on the bulkhead between new 35 and new 36, North river, formerly occupied by ice scales, was filled in to grade by manual labor and the pavement was then replaced, the joints being filled with tar and gravel. Begun April 19 and finished April 26, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the bulkhead. Begun March 14 and finished March 17, 1888.

Bulkhead between Piers, new 36 and new 37, N. R.

Secretary's Order No. 7394.—Snow and ice were removed from the bulkhead. Begun March 11 and finished March 20, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of dirt and rubbish, were removed from the bulkhead. Begun April 6 and finished April 12, 1888.

Pier, new 37, N. R.

Secretary's Order No. 6876.—14 oak fender piles were pulled up from the outer corners of pier and were stored at West Seventeenth street yard for general use. Begun August 9 and finished August 22, 1887.

Contract No. 253.—The burned remains of Pier, new 37, North river, were removed by Morris & Company's Dredging Company, contractors. Begun September 15 and finished October 17, 1887.

Pier, new 37, N. R.

Secretary's Order No. 7521.—Paving blocks forming the approach to pier were replaced under Secretary's Order No. 12871, and the joints were filled with tar and gravel by Department labor. Begun April 21 and finished April 25, 1888.

Bulkhead between Piers, new 37 and new 38, N. R.

Secretary's Order No. 7367.—Obstructions were removed from surface thereof. Begun and finished April 24, 1888.

Bulkhead between Piers, new 38 and new 39, N. R.

Secretary's Order No. 7394.—Snow and ice were removed from the surface of the bulkhead. Begun and finished March 16, 1888.

Secretary's Order No. 7394.—Obstructions consisting of stone, dirt and rubbish, were removed from the bulkhead. Begun and finished April 4, 1888.

Pier, new 39, N. R.

Secretary's Order No. 6668.—One bearing pile was driven and fastened in place and small repairs were made to the understructure. Begun January 27 and finished January 28, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the bulkhead. Begun and finished March 16, 1888.

Bulkhead between Piers, new 39 and new 40, N. R.

Secretary's Order No. 7394.—Obstructions, consisting of dirt and rubbish, were removed from the bulkhead. Begun and finished April 5, 1888.

Pier, new 40, N. R.

Secretary's Order No. 7604.—Crosswalk stones leading to the pier were taken up and cleaned, pointed and replaced, and the joints were filled with tar and gravel. Begun April 21 and finished April 28, 1888.

Bulkhead between Piers, new 41 and new 42, N. R.

Secretary's Order No. 7394.—Obstructions, consisting of earth, stone and rubbish, were removed from the bulkhead. Begun April 26 and finished April 27, 1888.

Pier, new 42, N. R.

Secretary's Order No. 6733.—About one square yard of the pavement at the entrance to the pier, where settlement had taken place, was taken up and filled with earth and rammed to grade. The pavement was then replaced and the joints refilled with tar and gravel. Begun and finished July 1, 1887.

Secretary's Order No. 7603.—The crosswalk stones are being taken up, rejointed, cleaned, and paving to replace them. Begun April 28, 1888; in progress.

Bulkhead between Piers, new 42 and new 43, N. R.

Secretary's Order No. 6794.—Second-hand iron cleats were put on and refastened. Begun August 19, 1887.

Secretary's Order No. 7394.—Obstructions consisting of earth, stone and rubbish were removed from the bulkhead. Begun April 25 and finished April 27, 1888.

Pier, new 43, N. R.

Engineer's Order.—Old fenders were removed and were replaced with new, 7 spring piles were refastened and 1 was reset, chocks were put on and doors of shed were repaired. Begun May 3, 1887.

Secretary's Order No. 6527.—Bearing piles were repaired and refastened. Begun and finished November 23, 1887.

Secretary's Order No. 6532.—The water-closet on the pier was repaired. Begun May 19, 1887.

Contract No. 235.—The metal covering on the outside of the shed and the office building were repaired and painted, and the outside face of the pier, the inside of the office at the inshore end of the pier and the windows were painted by John L. Egan, contractor. Begun April 1 and finished May 28, 1887.

Secretary's Order No. 6647.—The pier was repaired by blocking up the understructure required by driving piles and chocking, 7 oak fender-piles were driven, the armature plate braces were refastened, and new braces were put on, the doors of the shed were repaired, planking around the mooring-posts and the sheathing were also repaired; used 175 feet, B. M., of 5-inch yellow pine plank and 1,008 feet, B. M., of 4-inch spruce plank. Begun October 1 and finished November 26, 1887.

Secretary's Order No. 6713.—The sheathing on the outer end of the pier was repaired, 5,226 feet, B. M., of new 4-inch spruce plank. Begun July 16 and finished July 19, 1887.

Secretary's Order No. 6798.—Spring piles on south side of the pier were refastened. Begun and finished September 29, 1887.

Secretary's Order No. 6813.—Fender piles were refastened; used 40 pounds of chain. One fender pile was pulled. Begun and finished October 25, 1887.

Secretary's Order No. 6946.—Loose spring piles on northerly side of pier were refastened. Begun and finished October 25, 1887.

Secretary's Order No. 7141.—Thirteen split side bearing piles were drawn together and fastened with screw bolts, and fenders and side caps were refastened with screw bolts. Begun November 1 and finished November 17, 1887.

Secretary's Order No. 7188.—A drip-cock was placed on a hydrant on the south side near end of the pier was placed by T. C. Townsend, under Treasurer's Order No. 12683, and a competent carpenter cut a hole in the deck for it and repaired the old water pipe box. Begun November 29 and finished November 30, 1887.

Secretary's Order No. 7475.—One second-hand oak spring pile was driven; repaired and refastened loose spring piles on sides of pier with second-hand material; and leader pipe on pier was repaired by Samuel A. Suydam, under Treasurer's Order No. 12827. Begun February 2 and finished March 6, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 16, 1888.

Engineer's Order.—Temporary repairs were made to the water-pipe. Begun and finished March 11, 1888.

New-made Land Opposite Christopher Street Ferry, N. R.

Secretary's Order No. 6872.—The posts of a waiting station thereat were repaired.

Pier, new 44, N. R.

Secretary's Order No. 6379.—183 square yards of pavement were replaced by George F. Doak for Treasurer's Orders Nos. 12291 and 12314, and the joints were filled with coal tar and gravel Department labor. Begun April 20 and finished May 11, 1887.

Pier, new 45, N. R.

Secretary's Order No. 7676.—Divers made an examination of the river bottom in slip in and around the pier for the purpose of ascertaining whether any obstruction exist thereat that could cause it to be damaged in any way. Begun April 21 and finished April 26, 1888.

Approach to Pier, new 46, N. R.

Secretary's Order No. 7507.—Deck was patched with 450 feet, B. M., of 3-inch spruce plank. Begun and finished March 1, 1888.

Approach to Piers, new 46 and new 47, N. R.

Secretary's Order No. 6637.—Deck of approach was patched with second-hand material. Begun and finished June 6, 1887.

Pier, new 46, N. R.

Secretary's Order No. 6257.—A pattern was made at West Fifty-seventh Street Yard for weight of main gate, and the front gate on the pier was repaired. Begun June 9 and finished June 10, 1887.

Secretary's Order No. 6297.—The hanging doors were repaired and new sheaves were put on as required. Begun May 3 and finished May 6, 1887.

Secretary's Order No. 6375.—One new spring pile was driven and fastened. Begun May 3 and finished May 4, 1887.

Secretary's Order No. 6871.—The roof of the shed on the pier was painted. Begun August 18 and finished August 23, 1887.

Secretary's Order No. 7064.—Some fender chocks and three second-hand iron cleats were placed on the south side.

Secretary's Order No. 7145.—New deck sheathing was laid by the occupants of the pier; used 1467 feet, B. M., of 4-inch spruce and 200 pounds of 10-inch spikes, furnished by the Department of Docks. Begun and finished November 6, 1887.

Pier, old 54, N. R.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 16, 1888.

Secretary's Order No. 7362.—Obstructions, consisting of about 35 loads of rubbish, were removed from surface of pier. Begun April 2 and finished April 3, 1888.

Pier at West Eleventh Street, N. R.

Secretary's Order No. 6401.—Old fenders were removed and replaced with new, half round oak fenders, 4 second-hand spruce piles driven, used second-hand material and 83 feet, B. M., of 5-inch yellow pine. Begun July 8 and finished July 12, 1887.

Secretary's Order No. 6452.—The deck sheathing was patched on the outer end of pier with 1475 feet, B. M., of 3-inch spruce plank. Begun May 2 and finished May 3, 1887.

Secretary's Order No. 7075.—The deck sheathing and vertical sheathing at outer end were patched with 2,210 feet, B. M., of 3-inch spruce plank. Begun October 26 and finished October 27, 1887.

Secretary's Order No. 7195.—The deck sheathing was patched with second-hand 4-inch spruce. Begun and finished November 25, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 16, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of earth, stone and rubbish, were removed from the surface of the pier. Begun March 28 and finished March 31, 1888.

Pier at Jane Street, N. R.

Secretary's Order No. 6465.—Old fenders were removed, horizontal and vertical sheathing repaired, vertical fenders were put on, bearing piles put in place and refastened, and armature were refastened; used second-hand material and 1,596 feet, B. M., of new 5-inch yellow pine. Begun May 3 and finished May 10, 1887.

Secretary's Order No. 7040.—Replaced one broken bearing-pile and one half-round oak. Begun and finished October 28, 1887.

Secretary's Order No. 7318.—Obstructions, consisting of about 17 loads of rubbish, were removed from surface of pier. Begun March 23 and finished March 24, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Pier at Horatio Street.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Pier at Bogart Street, old 57, N. R.

Secretary's Order No. 6632.—A loose chock on the outer end of the pier was refastened. Begun June 6 and finished June 7, 1887.

Secretary's Order No. 7319.—Obstructions, consisting of about 20 loads of rubbish, were removed from surface of pier. Begun January 27 and finished February 1, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of earth and stone, were removed from pier. Begun April 27 and finished April 28, 1888.

Pier north of Bloomfield Street, N. R.

Secretary's Order No. 7304.—Obstructions, consisting of stone, earth and rubbish, were removed from the surface of the pier. Begun April 27, 1888; in progress.

Pier at Little West Twelfth Street, N. R.

Secretary's Order No. 7054.—Missing fender-pile chocks were put on and loose chocks were refastened. Begun and finished October 12, 1887.

Pier at West Thirteenth Street, N. R.

Secretary's Order No. 6725.—About 42 feet in length of the pier on the north side, and about 42 feet in length of the pier on the south side, were cut off, and the end of the pier was squared. The old deck timbers and piles were removed as required; new second-hand bearing piles were driven; cross caps and backing logs were put on; horizontal sheathing was placed on the end; the rangers were repaired; 10 oak fender-piles were driven; a mooring post was set and the deck and sheathing of the remainder of the outer end of the pier were repaired; used 480 lineal feet oak piles, 2,903 feet, B. M., of yellow pine, 1,500 feet, B. M., of 3-inch, and 2,947 feet, B. M., of 4-inch spruce, and 100 pounds of chain. Begun July 25 and finished August 16, 1887.

Secretary's Order No. 7052.—About 100 feet of backing log on north side of the pier were repaired with second-hand material. Begun October 29th and finished October 31, 1887.

Secretary's Order No. 7152.—The deck sheathing was repaired with 2,530 feet, B. M., of 3-inch spruce plank. Begun November 14 and finished November 15, 1887.

Secretary's Order No. 7320.—Obstructions, consisting of about 34 loads of rubbish, were removed from the surface of the pier. Begun January 25 and finished January 27, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Pier at West Fifteenth Street, N. R.

Secretary's Order No. 7162.—Two oak fender piles were fastened on upper outer corner. Begun and finished November 14, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of stone, earth and rubbish, were removed from the pier. Begun March 24 and finished March 28, 1888.

Secretary's Order No. 7547.—Loose oak spring piles on outer upper corner were repaired and refastened. Begun March 15 and finished March 22, 1888.

Pier at West Sixteenth Street, N. R.

Secretary's Order No. 7321.—Obstructions, consisting of about 4 loads of rubbish, were removed from surface of pier. Begun January 25 and finished January 27, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Pier at West Seventeenth Street, N. R.

Secretary's Order No. 6605.—Some new side-caps and 3 half-round oak fenders were put on and refastened, blocked up cribwork; used 780 feet, B. M., of 12 inches by 12 inches hewn yellow pine, 1,000 feet, B. M., of 5-inch yellow pine and 45 feet, B. M., of 3-inch spruce. Begun June 6 and finished June 8, 1887.

Secretary's Order No. 7096.—Projecting spikes were redriven. Begun and finished October 1887.

Secretary's Order No. 7310.—A fender pile on the northwest corner of pier was refastened. Begun and finished December 21, 1887.

Secretary's Order No. 7322.—Obstructions, consisting of about 10 loads of rubbish, were removed from surface of pier. Begun and finished January 24, 1888.

Secretary's Order No. 7384.—Loose half round fenders on the south side of pier were refastened. Begun and finished January 12, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Pier at West Eighteenth Street, N. R.

Secretary's Order No. 6708.—The deck sheathing was patched with 1,020 feet, B. M., of 3-inch spruce. Begun and finished July 2, 1887.

Secretary's Order No. 6854.—Deck sheathing was repaired with 1,020 feet, B. M., 3-inch spruce. Begun August 9 and finished August 10, 1887.

Secretary's Order No. 7036.—Deck sheathing was patched with 1,685 feet, B. M., of 3-inch spruce. Begun October 12 and finished October 13, 1887.

Secretary's Order No. 7157.—Deck sheathing was patched with 298 feet, B. M., of 3-inch spruce. Begun and finished November 14, 1887.

Secretary's Order No. 7309.—Deck and sheathing were repaired with 495 feet, B. M., of 3-inch spruce. Begun and finished December 21, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Secretary's Order No. 7655.—The deck and sheathing were repaired with 2,000 feet, B. M., second-hand plank, and loose fenders and fender piles were refastened. Begun April 13 and finished April 24, 1888.

Pier at West Nineteenth Street, N. R.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Bulkhead Platform at West Twenty-fourth Street, N. R.

Secretary's Order No. 7170.—The pavement in front of the platform was repaired. Begun November 28 and finished November 29, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from the platform. Begun March 16 and was finished March 21, 1888.

Bulkhead between Piers, new 54 and new 55, N. R.

Secretary's Order No. 7394.—Snow and ice were removed from the bulkhead. Begun March 16 and finished March 21, 1888.

Pier, new 57, N. R.

Secretary's Order No. 6616.—The deck sheathing was patched with 6,507 feet, B. M., of 3-inch spruce, and the steps on the south side of the pier were repaired with one 2-inch plank and 45 of 3-inch spruce. Begun June 6 and finished June 10, 1887.

Secretary's Order No. 7291.—One new spruce fender pile was driven and fastened on south side. Begun and finished January 14, 1888.

Pier, new 59, N. R.

Secretary's Order No. 6533.—The deck sheathing was patched with 199 feet, B. M., of 3-inch spruce. Begun May 13 and finished May 14, 1887.

Secretary's Order No. 6569.—The chocks at the outer end of the pier were repaired and ones were put on with 160 feet, B. M., of 8-inch by 8-inch yellow pine, and loose chock between fenders on the north side of pier were refastened. Begun and finished May 23, 1887.

Secretary's Order No. 6707.—The backing-log on the inner end of pier was repaired with second-hand timber. Begun July 6 and finished July 7, 1887.

Secretary's Order No. 6795.—The deck was patched with 970 feet, B. M., of new 3-inch spruce. Begun August 3 and finished August 4, 1887.

Secretary's Order No. 7063.—The deck sheathing was patched with 2,160 feet, B. M., of 3-inch spruce, and a missing chock was put on and large chocks were refastened; used second-hand material. Begun October 13 and finished October 17, 1887.

Secretary's Order No. 7125.—The deck sheathing was patched with 200 feet 3-inch spruce. Begun November 3 and finished November 4, 1887.

Secretary's Order No. 7594.—One new bearing pile was driven and fastened; two were put to place and refastened and chocked; deck was patched; one new square oak fender was put and braces and fenders were refastened; used 990 feet, B. M., of 3-inch spruce plank for patching. Begun April 10 and finished April 13, 1888.

Secretary's Order No. 7687.—Repairing deck sheathing; used 1,122 feet, B. M., of 3-inch spruce. Begun April 28, 1888; in progress.

Pier at West Thirty-fourth Street, N. R.

Contract No. 240.—John Gillies, contractor, removed part of the old pier and prepared for and built a new pier on the site of the old pier, and repaired a part of the old pier for use as an approach to the new pier. Begun February 17 and finished August 31, 1887.

Secretary's Order No. 6688.—A gangway was cut at the outer end of the pier by Department labor. Begun June 29 and finished July 5, 1887.

Secretary's Order No. 7394.—Snow and ice removed from the pier. Begun March 15 and was finished March 25, 1888.

Secretary's Order No. 7463.—The oak sping-piles on upper northerly corner of pier were refastened, and fender piles were refastened and chocked, and side caps were fastened with wire bolts. Begun February 4 and finished February 6, 1888.

Pier at West Thirty-seventh Street, N. R.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun March 15 and finished March 25, 1888.

Approach to Pier at West Thirty-seventh Street, N. R.

Secretary's Order No. 7569.—Two oak spring piles were refastened on the north side. Begun and finished March 21, 1888.

Slip between Piers at West Thirty-ninth and West Fortieth Streets, N. R.

Secretary's Order No. 7475.—A sunken canal-boat was removed by the Union Dredging Company, under Treasurer's Order No. 12828. Begun March 6 and finished March 7, 1888.

Pier at West Fortieth Street.

Secretary's Order No. 6403.—The pavement at the entrance to the pier was relaid, gutter boxes were put in through the bulkhead, and the crib-bulkhead between the north side of the pier and the northerly street line was raised to grade; second-hand material was used. Begun April 21 and finished May 13, 1887.

Pier at West Forty-sixth Street, N. R.

Secretary's Order No. 6529.—The armature plates on the outer corner of the pier were refastened. Begun May 27 and finished June 1, 1887.

Secretary's Order No. 6625.—The deck sheathing was patched with 495 feet, B. M., of 3-inch spruce. Begun and finished June 2, 1887.

Secretary's Order No. 6690.—The deck sheathing was patched with 999 feet, B. M., of 3-inch spruce. Begun and finished July 6, 1887.

Secretary's Order No. 6849.—A dumping-board was erected on the south side of the pier; used second-hand material for posts and 2,811 feet, B. M., new hewn yellow pine and 4,004 feet, B. M., of 4-inch and 600 feet, B. M., of 3-inch spruce, 750 feet, B. M., of 4-inch yellow pine, and 1,450 feet of second-hand 3-inch spruce in the remaining portions of the structure. Begun August 22 and finished August 31, 1887.

Secretary's Order No. 6858.—The deck sheathing was repaired with 1,495 feet, B. M., of 3-inch spruce. Begun August 10 and finished August 12, 1887.

Secretary's Order No. 7008.—The deck sheathing was patched with 3,325 feet, B. M., of 3-inch spruce. Begun October 17 and finished October 19, 1887.

Secretary's Order No. 7137.—The centre of the pier was sheathed with 33,037 feet, B. M., of 3-inch spruce. Begun November 9 and finished November 14, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 16, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 16, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of earth, stone and rubbish, were removed from the pier. Begun April 12 and finished April 18, 1888.

Pier at West Forty-seventh Street, N. R.

Secretary's Order No. 6487.—The deck sheathing was repaired with 523 feet, B. M., of 3-inch spruce. Begun and finished May 6, 1887.

Secretary's Order No. 6732.—The deck and its sheathing was repaired and new rangiers were put on to keep the pier safe; used 1,090 feet, B. M., of 3-inch spruce, and 3,181 feet, B. M., of hewn yellow pine. Begun August 5, 1887; work suspended.

Secretary's Order No. 6821.—Two dumping-boards were erected on the northerly side of the pier with old material as far as it was available, and in addition used 10,267 feet, B. M., of new hewn and 3,190 feet, B. M., of new sawed 4-inch yellow pine, and 4,024 feet of new 4-inch spruce. Begun August 4 and finished August 17, 1887.

Pier at West Fifty-first Street, N. R.

Secretary's Order No. 6564.—The deck sheathing was patched with 1,013 feet, B. M., of 3-inch spruce. Begun and finished May 21, 1887.

Secretary's Order No. 6691.—The deck sheathing was patched with 903 feet, B. M., of 3-inch spruce. Begun June 28 and finished June 29, 1887.

Secretary's Order No. 6816.—The deck sheathing was patched with 1,020 feet, B. M., of 3-inch spruce. Begun August 6 and finished August 8, 1887.

Secretary's Order No. 6907.—The deck sheathing was patched with 750 feet, B. M., of 3-inch spruce. Begun and finished August 27, 1887.

Secretary's Order No. 6952.—The deck sheathing was patched with 125 feet, B. M., of 3-inch spruce. Begun and finished September 10, 1887.

Secretary's Order No. 7062.—The deck sheathing was patched and spring piles at outer end were refastened; used 470 feet, B. M., of 3-inch spruce, and 25 pounds of chain. Begun October 13 and finished October 14, 1887.

Pier at West Fifty-first Street, N. R.

Secretary's Order No. 7169.—The deck sheathing was patched with 315 feet, B. M., of 3-inch spruce. Begun and finished November 21, 1887.

Secretary's Order No. 7328.—Obstructions, consisting of about 10 loads of rubbish, were removed from surface of pier. Begun January 19 and finished January 23, 1888.

Secretary's Order No. 7392.—Snow and ice were removed from the pier. Begun and finished March 16, 1888.

Secretary's Order No. 7432.—The deck sheathing was patched with 225 feet, B. M., of 3-inch spruce. Begun and finished January 27, 1888.

Pier at West Fifty-fifth Street, N. R.

Secretary's Order No. 6488.—The deck sheathing on outer end of the pier was patched with 298 feet, B. M., of 3-inch spruce. Begun and finished May 5, 1887.

Secretary's Order No. 6530.—The armature plates on the outer corner of the pier were refastened. Begun May 23 and finished May 26, 1887.

Secretary's Order No. 6815.—The deck sheathing on outer end of pier was patched with 405 feet of 3-inch spruce and a spring pile on the outer corner of pier was refastened. Begun and finished August 4, 1887.

Secretary's Order No. 6978.—The deck sheathing of outer end of pier was patched with 520 feet, B. M., of 3-inch spruce; 1 loose fender pile was refastened and 1 oak fender pile was driven at the outer upper corner of the pier. Begun and finished September 19, 1887.

Secretary's Order No. 7329.—Obstructions, consisting of about 180 loads of rubbish, were removed from the surface of the pier. Begun December 21 and finished January 18, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 15, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of earth, stone and rubbish, were removed from the pier. Begun April 18 and finished April 26, 1888.

Secretary's Order No. 7398.—The deck sheathing was repaired with 325 feet, B. M., of 3-inch spruce. Begun and finished January 14, 1888.

Secretary's Order No. 7597.—The deck sheathing was patched with 1,719 feet, B. M., of 3-inch spruce. Begun March 29 and finished March 30, 1888.

Secretary's Order No. 7690.—Refastening spring piles on outer end of the pier. Begun April 24, 1888; in progress.

Bulkhead from West Seventy-seventh to West Seventy-eighth Street, N. R.

Secretary's Order No. 7394.—Obstructions, consisting of sand and stone, were removed from the bulkhead. Begun March 22 and finished April 18, 1888.

Bulkhead at foot of West Seventy-eighth Street, N. R.

Secretary's Order No. 7394.—Obstructions, consisting of sand and stone, were removed from the bulkhead. Begun March 22 and finished April 18, 1888.

Bulkhead from West Seventy-eighth to West Seventy-ninth Street, N. R.

Secretary's Order No. 7315.—Obstructions, consisting of about 100 loads of sand and rubbish, were removed from the surface. Begun December 22 and finished January 28, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the bulkhead. Begun March 14 and finished March 15, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of sand and earth, were removed from the bulkhead. Begun March 20 and finished April 18, 1888.

Pier at West Seventy-ninth Street, N. R.

Secretary's Order No. 7024.—The deck was resheathed for its entire length with 26,072 feet, B.M., of 3-inch spruce. Begun October 20 and finished October 25, 1887.

Secretary's Order No. 6760.—The deck sheathing was patched with 150 feet, B.M., of 3-inch spruce. Begun and finished July 19, 1887.

Secretary's Order No. 7560.—Two spruce bearing piles were driven, pulled to place, chocked and fastened, one spruce fender pile was driven and fastened and three half-round fenders were put on to repair damage done by floating ice. Begun March 21 and finished March 24, 1888.

Bulkhead between West Seventy-ninth and West Eightieth Streets, N. R.

Secretary's Order No. 7140.—The large blocks of stone left on the bulkhead were removed and placed in rear of the crib-bulkhead between West Seventy-seventh and West Seventy-eighth streets, North river. Begun December 27 and finished December 31, 1887.

Secretary's Order No. 7315.—Obstructions, consisting of about 100 loads of dirt, stone chips, etc., were removed from the surface. Begun December 22, 1887, and finished January 28, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of sand and stone, were removed from the bulkhead. Begun March 29 and finished April 18, 1888.

Bulkhead at foot of West Eightieth Street, N. R.

Secretary's Order No. 7394.—Obstructions, consisting of sand and stone, were removed from the bulkhead. Begun March 31 and finished April 18, 1888.

Bulkhead at West Ninety-sixth Street, N. R.

Secretary's Order No. 7104.—The surface was cleaned and the deck sheathing was patched with 1,150 feet, B.M., of 3-inch spruce. Begun October 31 and finished November 3, 1887.

Secretary's Order No. 7240.—The deck sheathing was patched with 360 feet, B.M., of 3-inch spruce. Begun and finished December 27, 1887.

Secretary's Order No. 7394.—Snow and ice was removed from the bulkhead. Begun and finished March 17, 1888.

Secretary's Order No. 7582.—Removing the inner end of the old pier, repairing sewer and a portion of deck of the bulkhead. Begun April 9, 1888; in progress.

Bulkhead from West One Hundred and Twenty-ninth to West One Hundred and Thirtieth Street, N. R.

Secretary's Order No. 7316.—Removing obstructions from surface. Begun April 30, 1888; in progress.

Pier at West One Hundred and Thirtieth Street, N. R.

Secretary's Order No. 6775.—An accumulation of dirt was leveled off and grading was done. Begun July 18 and finished July 23, 1887.

Secretary's Order No. 7710.—Setting new mooring at outer end of pier. Begun April 30, 1888; in progress.

Pier at West One Hundred and Thirty-first Street, N. R.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Secretary's Order No. 7711.—Refastening loose fender-piles on north side thereof; 6 fender-piles have been driven and fastened to date. Begun April 27, 1888; in progress.

Crib-bulkhead between West One Hundred and Thirty-first and West One Hundred and Thirty-second Streets.

Contract No. 246.—The crib-bulkhead, extending about 105 feet northerly from the crib pier at the foot of West One Hundred and Thirty-first street, North river, was repaired by Messrs. O'Connell & Coffey, contractors, by rebuilding from low-water up. Begun July 2 and finished December 8, 1887.

Secretary's Order No. 7394.—Obstructions, consisting of dirt and stone, were removed from the bulkhead. Begun April 28 and finished April 30, 1888.

Secretary's Order No. 7664.—Settlements in earth filling were filled up. Begun April 26 and finished April 28, 1888.

Pier at West One Hundred and Thirty-second Street, N. R.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun and finished March 17, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of sand, stone and rubbish, were removed from the pier. Begun April 28 and finished April 30, 1888.

Secretary's Order No. 7664.—Settlements in earth filling at the entrance to the pier were filled in. Begun April 26 and finished April 28, 1888.

Pier at West One Hundred and Thirty-eighth Street, N. R.

Secretary's Order No. 6778.—The surface was level and graded, and 950 feet, B. M., of 3-inch spruce were used for sheathing to retain filling. Begun July 25 and finished July 30, 1887.

Secretary's Order No. 7608.—The outer northerly corner was repaired, the corner bands and old fenders were removed, 2 bearing piles and 13 fender piles were driven, and square fenders were replaced; used 35 pounds of chain. Begun April 16 and finished April 20, 1888.

Pier at West One Hundred and Fifty-second Street, N. R.

Contract No. 239.—The superstructure of the pier was repaired by Messrs. O'Connell & Coffey, contractors. The work was begun March 16, and finished June 7, 1887.

Pier at West One Hundred and Fifty-fifth Street, N. R.

Secretary's Order No. 7056.—The sheathing was patched with 1,103 feet, B. M., of 3-inch spruce. Begun and finished October 26, 1887.

EAST RIVER.

Bulkheads between Piers 6 and 7, E. R.

Secretary's Order No. 7394.—Snow and ice removed. Begun and finished March 15, 1888.

Pier 7, E. R.

Secretary's Order No. 6640.—Holes in the deck sheathing were repaired with 1,005 feet, B. M., of 3-inch spruce. Begun and finished June 4, 1887.

Secretary's Order No. 6608.—Holes in deck sheathing were repaired with second-hand material. Begun and finished June 27, 1887.

Secretary's Order No. 6608.—The deck sheathing was repaired with 5,003 feet, B. M., of 3-inch spruce, and holes in the deck were repaired with 1,020 feet, B. M., of 4-inch spruce. Begun July 22 and finished August 3, 1887.

Secretary's Order No. 6959.—The deck sheathing was repaired with 1,035 feet, B. M., of 3-inch spruce, and some loose fender piles on the easterly side of the pier were refastened. Begun September 13 and finished September 14, 1887.

Secretary's Order No. 7372.—The outer end of the pier was repaired by blocking up, raising and close piling, the outer crib near backing log was put in, the deck sheathing was repaired, second-hand piles were used, also 2,600 feet, B. M., of second-hand plank, 4,723 feet, B. M., of new 6 inches by 12 inches yellow pine, 5,880 feet, B. M., of new 4-inch, and 135 feet, B. M., of new 3-inch spruce. Begun January 6 and finished January 25, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from the pier. Begun March 14 and finished March 15, 1888.

Secretary's Order No. 7522.—About 60 feet in length of the westerly side, beginning at a point about 120 feet from its inner end, was repaired. Four new and eighteen second-hand spruce piles were driven, pulled to place and fastened, caps were put on deck, and deck sheathing was laid; eight half-round oak fenders were put on, chocked and fastened; 160 feet, B. M., of 4-inch and 1,394 feet, B. M., of 12 inches by 12 inches yellow pine, and 2,720 feet, B. M., of 4-inch and 1,980 feet, B. M., of 3-inch spruce were used. Begun March 10 and finished March 23, 1888.

Secretary's Order No. 7611.—The deck sheathing was patched with 618 feet, B. M., of 3-inch spruce. Begun and finished April 2, 1888.

Secretary's Order No. 7633.—Sunken crib logs were removed from the inner end of the slip on the westerly side of the pier. Begun April 4 and finished April 5, 1888.

Secretary's Order No. 7692.—Patching deck sheathing; 5,902 feet, B. M., of 3-inch spruce have been used to date. Begun April 25, 1888; in progress.

Bulkhead between Piers 7 and 8, E. R.

Secretary's Order No. 7196.—A hole in the surface was filled in with stone and earth. Begun and finished November 30, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 15, 1888.

Bulkhead between Piers 11 and 12, E. R.

Secretary's Order No. 6931.—The bulkhead was excavated and was rebuilt from low-water up; six new spruce piles were driven for a foundation in front; new spruce logs were used for crib ties; 7,594 feet, B. M., of 12 inches by 12 inches sawed yellow pine, and 1,120 feet, B. M., of 10 inches by 12 inches sawed yellow pine, were used for facing timbers and backing log; 30 half-round oak fenders were put on and the bulkhead was filled in and graded. Begun September 29 and finished October 21, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 15, 1888.

Pier 12 (west half), E. R.

Secretary's Order No. 6655.—Deck sheathing was repaired with 4,025 feet, B. M., of 3-inch spruce. Begun July 27 and finished July 29, 1887.

Secretary's Order No. 7045.—Loose piles on the outer lower corner of the pier were refastened. Begun October 17 and finished October 18, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 15, 1888.

Pier 18, E. R.

Secretary's Order No. 7683.—A spring pile on the outer upper corner of the pier was refastened with 30 pounds of chain. Begun and finished April 19, 1888.

Bulkhead between Piers 18 and 19, E. R.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 15, 1888.

Pier 19 (west half), E. R.

Secretary's Order No. 6745.—Loose ends of plank were refastened. Begun July 12 and finished July 13, 1887.

Secretary's Order No. 6976.—One new mooring-post was set and deck sheathing was repaired with 852 feet, B. M., of 3-inch spruce. Begun September 20 and finished September 21, 1887.

Secretary's Order No. 6948.—A mooring-post at the outer corner was repaired and chocks were refastened with second-hand material. Begun September 21 and finished September 22, 1887.

Secretary's Order No. 7207.—The deck sheathing was patched with 135 feet, B. M., of 3-inch spruce. Begun and finished November 30, 1887.

Secretary's Order No. 7340.—Deck sheathing on the outer end was patched with 315 feet, B. M., 3-inch spruce. Begun and finished December 24, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 15, 1888.

Bulkhead between Piers 36 and 37, E. R.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 15, 1888.

Pier 37, E. R.

Secretary's Order No. 6486.—The deck sheathing was patched, repaired with second-hand plank. Begun and finished May 6, 1887.

Secretary's Order No. 6746.—The fence across the outer end of the pier was replaced with second-hand plank. Begun and finished July 11, 1887.

Secretary's Order No. 6747.—The deck sheathing was patched with 2,252 feet, B. M., of 3-inch spruce. Begun July 11 and finished July 12, 1887.

Secretary's Order No. 6935.—2 spruce fender piles were driven and fastened, 2 loose fender piles were refastened, and the backing log and fence were refastened. Second-hand material was used. Begun September 17 and finished September 20, 1887.

Secretary's Order No. 7127.—A mooring-post was put in, 2 spruce piles were driven, fastened and chocked, and the backing log was repaired with second-hand material. Begun and finished November 10, 1887.

Contract No. 261.—The work of tearing up the bulkhead under and westerly of Pier, old 37, and the foot of Market Slip, E. R., about 81 feet 6 inches in length, and of rebuilding from low-water up, by P. Sanford Ross, contractor, was begun December 13, 1887, and is in progress.

Pier, old 41, E. R.

Contract No. 241.—The crib-bulkhead under Pier, old 41, at the foot of Pike Slip, E. R., and for about 51 feet westerly thereof, a length of about 102 feet in all, was removed down to mean low-water mark, and was rebuilt to grade and its surface was repaired by John Gillies, contractor. Begun March 15 and finished December 15, 1887.

Pier, new 32, E. R.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 15, 1888.

Bulkhead east of and adjoining Pier 43, E. R.

Secretary's Order No. 6825.—Twelve half-round oak fenders were put on and fastened, and the backing log was repaired with 341 feet, B. M., of hewn yellow pine. Begun September 9th and finished September 10, 1887.

Bulkhead easterly of Pier 43, E. R.

Secretary's Order No. 6873.—A hole in the bulkhead was filled in with stone and earth. Begun and finished August 20, 1887.

Bulkhead between Piers 43 and 44, E. R.

City's Order No. 7294.—A hole in the bulkhead was filled in and the pavement was repaired. Begun December 14 and finished December 17, 1887.

City's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished December 1888.

Pier 44, E. R.

City's Order No. 6539.—Five white oak fender piles (245 linear feet) were driven and the deck 360 feet, B. M., of 12 inches by 12 inches yellow pine; projecting spikes were driven. Begun May 26 and finished May 28, 1887.

City's Order No. 6667.—The vertical sheathing on the upper side of the pier was repaired with 3,000 ft. of 3-inch spruce. Begun June 30 and finished July 1, 1887.

City's Order No. 6906.—A half-round oak fender was put on and several fenders were repaired. Begun September 10 and finished September 13, 1887.

City's Order No. 6949.—An oak spring pile on the outer upper corner of the pier was driven with 50 pounds of chain; the deck sheathing was repaired with 2,018 feet, B. M., of 12 inches by 12 inches yellow pine, and the backing log was repaired. Begun September 10 and finished September 13, 1887.

City's Order No. 7100.—The spring and fender piles at the upper outer corner were repaired. Begun and finished October 27, 1887.

City's Order No. 7128.—2 oak fender piles were driven and fastened, and several fender piles were fastened and choked. Begun November 5 and finished November 7, 1887.

City's Order No. 7300.—A spring pile on outer upper corner of the pier was refastened. Begun and finished December 14, 1887.

City's Order No. 7344.—Snow and ice were removed from its surface. Begun March 15 and finished March 16, 1888.

City's Order No. 7431.—The material of the fence taken down by the Department of Public Works was secured and stored. Begun and finished January 26, 1888.

City's Order No. 7626.—The oak spring piles on upper outer corner of the pier were repaired with 25 pounds of chain. Begun and finished April 7, 1888.

Pier 46, E. R.

City's Order No. 6570.—Fender piles at the outer end of the pier were refastened, loose piles were driven, mooring piles were repaired, with second-hand material, and with 85 feet, B. M., of 12 inches by 12 inches yellow pine, and the pavement at the entrance to the pier was repaired. Begun May 24 and finished June 3, 1887.

City's Order No. 6633.—New sheathing laid with 25,025 feet, B. M., of 3-inch spruce. Begun June 12, 1887; work was suspended on July 27, 1887, as enough had been done for immediate use.

City's Order No. 7010.—Three oak fender piles on the outer lower corner of the pier were driven. Begun and finished September 29, 1887.

City's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished December 1888.

City's Order No. 7616.—The cluster of spring piles at the outer lower corner of the pier was repaired with 25 pounds of chain. Begun and finished March 31, 1888.

Bulkhead between Piers 47 and 48, E. R.

City's Order No. 6396.—The seven feet in length of the bulkhead, westerly of and about 10 feet from the bulkhead, belonging to the City, was repaired by John Monks, under Treasurer's Order No. 158. Begun September 19 and finished November 16, 1887.

Pier 48, E. R.

Secretary's Order No. 6581.—The deck sheathing was patched with 4,991 feet, B. M., of spruce. Begun July 7 and finished July 11, 1887.

Secretary's Order No. 7153.—The deck sheathing was patched with 2,001 feet, B. M., of spruce. Begun and finished November 18, 1887.

Secretary's Order No. 7528.—The cluster of fender piles on the outer lower corner of was refastened and rechoked. Begun and finished March 7, 1888.

Pier 54 (westerly half), E. R.

Secretary's Order No. 7283.—Three oak fender-piles were driven and fastened on the outer corner of the pier. Begun and finished December 24, 1887.

Pier 58 (easterly half), E. R.

Secretary's Order No. 6577.—The deck sheathing was repaired with 2,520 feet, B. M., of spruce. Begun June 22 and finished June 25, 1887.

Secretary's Order No. 6941.—The deck sheathing was patched with 1,032 feet, B. M., of spruce. Begun September 16 and finished September 17, 1887.

Secretary's Order No. 7332.—The deck sheathing was repaired with 1,014 feet, B. M., of spruce. Begun December 23 and finished December 24, 1887.

Secretary's Order No. 7401.—Two new half-round oak fenders were put on and the fenders refastened. Begun January 13 and finished January 17, 1888.

Secretary's Order No. 7571.—The deck sheathing was patched with 463 feet, B. M., of spruce. Begun and finished March 28, 1888.

Pier 59 (westerly half), E. R.

Secretary's Order No. 6658.—10 second-hand piles were driven for clusters along the cribwork to protect vessels from drifting on sunken crib. Begun June 2 and finished June 4, 1887.

Secretary's Order No. 6704.—3 second-hand spruce piles were driven for a cluster to replace the one carried away by some vessels striking it. Begun July 6 and finished July 7, 1887.

Secretary's Order No. 6749.—3 second-hand spruce piles driven and fastened for a cluster to prevent vessels from drifting on cribwork at the outer end. Begun July 7 and finished July 10, 1887.

Pier 60, E. R.

Secretary's Order No. 6674.—The deck sheathing was repaired with 2,025 feet, B. M., of spruce. Begun June 20 and finished June 21, 1887.

Secretary's Order No. 6923.—The deck sheathing was patched with 510 feet, B. M., of spruce. Begun August 30 and finished August 31, 1887.

Secretary's Order No. 6961.—The deck sheathing was patched with 3,015 feet, B. M., of spruce. Begun September 14 and finished September 15, 1887.

Secretary's Order No. 7182.—A mooring pile on the south side was repaired, and the deck sheathing was patched with 540 feet, B. M., of 3-inch spruce. Begun and finished November 18, 1887.

Secretary's Order No. 7378.—Holes in deck at gangway, formerly used by the Public, were repaired; used 450 feet, B. M., of 3-inch spruce. Begun and finished January 10, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 16, 1888.

Bulkhead at foot of Rivington Street, E. R.

Contract No. 269.—The work of removing the old crib-bulkhead at the foot of Rivington Street under Pier 60, E. R., and for a distance of about 54 feet northerly of the inner end of Pier 60 along the easterly line of Rivington street, and of rebuilding it from low water up, was begun March 19, 1888, by Duncan A. Gillies, contractor, and is in progress.

Bulkhead along the easterly side of Rivington Street, E. R.

Secretary's Order No. 7394.—Snow and ice removed from its surface. Begun and finished March 16, 1888.

Pier 61, E. R.

Secretary's Order No. 6962.—2 half-round oak fenders were put on and chocked, several old ones were refastened, 1 new spruce bearing pile was driven and 1 was blocked up and fastened. Begun September 15 and finished September 17, 1887.

Secretary's Order No. 7275.—Close piling was driven on northerly side of pier to prevent about 100 feet in length of cribwork from falling to pieces: 40 second-hand spruce piles were used; dock plating was patched with 2,170 feet, B. M., of 3-inch spruce. Begun December 10 and finished December 19, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 16, 1888.

Bulkhead between Piers 61 and 62, E. R.

Secretary's Order No. 6520.—The portion of the bulkhead owned by the City, being about 50 feet in length north of Pier 61, was repaired by putting on a new top course of facing timber and a backing log with 1,800 feet, B. M., of new 12 inches by 12 inches sawed yellow pine. 10 half-round oak fenders were put on and fastened. Begun May 28 and finished June 2, 1887.

Pier at East Fifth Street, E. R.

Secretary's Order No. 5394.—Projecting crib timbers, crib stone, pile stumps, and other obstructions were removed from the side of the pier at such times as to interfere as little as possible with the use of the pier; 1 spruce bearing pile was driven. Begun June 1 and finished December 3, 1887.

Pier at East Eighth Street, E. R.

Secretary's Order No. 7292.—The inner end of the pier and the bulkhead on the north side were closed off at a dangerous hole; 468 feet, B. M., of 3-inch spruce were used. Begun and finished December 29, 1887.

Bulkhead at East Fourteenth Street, E. R.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 17, 1888.

Bulkhead at East Sixteenth Street, E. R.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 17, 1888.

Bulkhead along Centre Line of East Seventeenth Street, E. R.

Secretary Order No. 6710.—Four new oak fender piles (184 linear feet) were driven and fastened at the public hydrants. Begun August 20 and finished August 22, 1887.

Secretary's Order No. 6790.—A mooring-post was set and the backing log was repaired, and 8 new oak fender piles (404 linear feet) were driven, chocked and fastened; 1,331 feet, B. M., of new yellow pine were used. Begun August 23 and finished September 3, 1887.

Bulkhead between East Seventeenth and Eighteenth Streets, E. R.

Secretary's Order No. 7164.—The fence which had been torn down in places was repaired with 1,000 feet, B. M., of 3-inch spruce. Begun and finished November 15, 1887.

Pier at East Twenty-eighth Street, E. R.

Secretary's Order No. 6621.—Rangers were put in where required and blocking up under pier was done: the backing log and deck sheathing were repaired and fenders were refastened; second-hand material was used. Begun June 8 and finished June 11, 1887.

Secretary's Order No. 6723.—The deck sheathing was patched with 1,220 feet, B. M., of 3-inch spruce, and the pavement at the entrance to the pier was repaired. Begun July 5 and finished July 17, 1887.

Secretary's Order No. 6834.—The deck sheathing on the north side was repaired with 1,013 feet, B. M., of 3-inch spruce. Begun August 5 and finished August 6, 1887.

Secretary's Order No. 7050.—Broken rangers were replaced; 11 second-hand bearing piles were driven and fastened; blocking up and chocking under the pier was done where required; the deck sheathing was patched, and loose spring piles were refastened and chocked; 1,020 feet, B. M., of new 3-inch spruce were used. Begun October 2 and finished November 3, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 17, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of dirt, stone and rubbish, were removed from its surface. Begun April 20 and finished April 21, 1888.

Secretary's Order No. 7535.—The deck and deck sheathing were patched with 150 feet, B. M., of 3-inch spruce. Begun and finished March 8, 1888.

Bulkhead at East Twenty-ninth Street, E. R.

Secretary's Order No. 7330.—Obstructions, consisting of about 75 loads of dirt and sand, were removed from the surface. Begun April 21 and finished April 23, 1888.

Bulkhead at East Thirtieth Street, E. R.

Secretary's Order No. 7536.—Two mooring-piles were placed; second-hand material was used. Begun and finished March 30, 1888.

Pier at East Thirty-seventh Street, E. R.

Contract No. 242.—The pier was repaired, widened and extended, and the old cribwork at the outer end was removed by John W. Flaherty, contractor. Begun March 21 and finished July 1, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 17, 1888.

Pier at East Thirty-eighth Street, E. R.

Secretary's Order No. 6653.—The backing-log was repaired with second-hand timber, and second-hand spruce piles were driven and fastened on the outer end, and the deck sheathing was patched with 1,013 feet, B. M., of 3-inch spruce. Begun June 13 and finished June 17, 1887.

Secretary's Order No. 6770.—A spring pile was refastened on the outer end of the pier. Begun and finished July 19, 1887.

Secretary's Order No. 7277.—The backing-log was repaired, 2 spruce bearing and 5 spruce fender piles were driven and fastened, and other piles were rechocked and refastened. Second-hand material was used for all. Begun January 3 and finished January 6, 1888.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 17, 1888.

Secretary's Order No. 7595.—The deck sheathing was patched with 998 feet, B. M., of 3-inch spruce. Begun and finished March 31, 1888.

Bulkhead at East Thirty-ninth Street, E. R.

Secretary's Order No. 6439.—A section of crib-bulkhead on piles, about 26 feet long and about 20 feet wide, was built on the southerly half of the street in front of the random rubble wall, to strengthen inner end of the crib-bulkhead along the centre line of East Thirty-ninth street, and to form an approach to the bulkhead platform on the half block southerly of East Thirty-ninth street. Second-hand bearing and fender piles were driven at the upper outer corner of the bulkhead platform. Begun October 11, 1887, and finished January 5, 1888.

Bulkhead at East Forty-second Street, E. R.

ry's Order No. 7334.—Snow and ice were removed from its surface. Begun and finished March 17, 1888.

ry's Order No. 7413.—Loose fenders were refastened. Begun and finished January 19, 1888.

ry's Order No. 7537.—Projecting fender spikes on the face of the bulkhead were driven. Begun and finished March 8, 1888.

Bulkhead at East Forty-third Street, E. R.

ry's Order No. 7394.—Obstructions, consisting of dirt, stone and rubbish, are being removed from its surface. Begun April 23, 1888; in progress.

Bulkhead at East Forty-sixth Street, E. R.

ry's Order No. 271.—Portions of the old cribwork at the foot of the street are being removed and replaced, by Messrs. O'Connell & Coffey, contractors. Begun March 26, 1888; in progress.

Bulkhead at East Fifty-fourth Street, E. R.

ry's Order No. 6313.—The sheathing on the bulkhead was patched and the plank repaired with 4,240 feet, B. M., of 3-inch spruce. Begun July 13 and finished July 20, 1888.

ry's Order No. 7327.—Obstructions, consisting of about 50 loads of dirt and rubbish, were removed from the surface of the bulkhead. Begun April 18 and finished April 21, 1888.

ry's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 18, 1888.

Bulkhead Platform at East Seventy-fifth Street, E. R.

ry's Order No. 7231.—Dirt was removed from its surface and two second-hand oak fenders were refastened. Begun December 3 and finished December 8, 1887.

ry's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 18, 1888.

Bulkhead at East Seventy-sixth Street, E. R.

ry's Order No. 7185.—Two iron mooring-cleats were placed on the backing logs. Begun and finished November 23, 1887.

ry's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 18, 1888.

Dump at East Eighty-sixth Street, E. R.

ry's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 18, 1888.

ry's Order No. 7518.—The backing-log was repaired and iron bands were refastened; 516 feet of 12 inches by 12 inches yellow pine were used. Begun March 31 and finished April 1, 1888.

Pier South of East Eighty-sixth Street, E. R.

ry's Order No. 7323.—Obstructions, consisting of about 20 loads of stone and dirt, were removed from its surface. Begun January 12 and finished January 30, 1888.

ry's Order No. 7356.—2 old pile stumps were pulled; 1 bearing, 1 spring and 1 fender were driven, chocked and fastened, and the backing-log was repaired, and 2 half-enders put on; second-hand material was used. Begun January 25 and finished February 18, 1888.

ry's Order No. 7394.—Snow and ice were removed from its surface. Begun and finished March 18, 1888.

ry's Order No. 7394.—Obstructions, consisting of dirt, stone and rubbish, were removed from the face of the pier. Begun April 10 and finished April 11, 1888.

Pier at Foot of East Eighty-sixth Street, E. R.

Secretary's Order No. 7323.—Obstructions, consisting of about 50 loads of dirt and removed from its surface. Begun January 12 and finished January 30, 1888.

Secretary's Order No. 7347.—The backing log was repaired, four courses of facing on, fender-piles were driven, chocked and fastened, 2 half-round oak fenders put on, and a station necessary was filled in with stone and earth, and it was then graded; all the work on the southerly side. Begun January 3 and finished February 4, 1888.

Secretary's Order No. 7394.—Snow and ice was removed from its surface. Begun March 19, 1888.

Secretary's Order No. 7394.—Obstructions, consisting of stone, dirt and rubbish, was from its surface. Begun April 7 and finished April 9, 1888.

Secretary's Order No. 7508.—The armature plates on the lower outer corner were Begun and finished March 28, 1888.

Bulkhead North of East Eighty-sixth Street, E. R.

Secretary's Order No. 7540.—A loose fender pile was refastened. Begun and finished 1888.

Ferry-rack North of East Ninety-ninth Street, E. R.

Secretary's Order No. 7007.—10 oak piles which were outside of established bulkhead pulled from the ferry-rack. Begun November 7 and finished November 10, 1887.

HARLEM RIVER.

Bulkhead at East One Hundred and Seventh Street, H. R.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun March 17, 1888.

Pier at East One Hundred and Ninth Street, H. R.

Secretary's Order No. 6609.—The backing log and deck sheathing were repaired, a hand material was used, and 1,039 feet, B. M., of new 12 inches by 12 inches yellow pine feet, B. M., of new 3-inch spruce. Begun June 10 and finished June 15, 1887.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun March 17, 1888.

Foot of East One Hundred and Fifteenth Street, H. R.

Secretary's Order No. 7093.—Removed boat-house, piles and floats. Begun November finished November 7, 1887.

Pier at East One Hundred and Seventeenth Street, H. R.

Secretary's Order No. 6568.—The deck sheathing was patched and repaired with 2,000 of 3-inch spruce.

Secretary's Order No. 7019.—The old pier was removed, and some filling-in was inner end. Begun October 10 and finished November 2, 1887.

Bulkhead at East One Hundred and Twentieth Street, H. R.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun March 17, 1888.

Bulkhead at foot of Second Avenue, H. R.

Secretary's Order No. 7394.—Snow and ice were removed from its surface. Begun March 17, 1888.

GENERAL EXPENSE.

Pier "A," N. R.

Temporary stand was erected on the deck of Pier "A," for the use of the Auctioneer, sales of piers and bulkheads at public auction, on April 11, 1888. Begun and finished 1888.

Pier at Bethune Street, N. R.

Oak piles were received and inspected from A. J. Murray, under Treasurer's Order No. Begun December 20 and finished December 22, 1887.

NUMBERING PIERS.

Secretary's Order No. 6022.—The work of numbering the piers on the North, East and rivers was completed. Begun December 10, 1886, and finished December 19, 1887.

WORK DONE, OTHER THAN DREDGING, FOR THE DEPARTMENT OF CHARITIES AND CORRECTIONS.

Pier at East Twenty-sixth Street, E. R.

Secretary's Order No. 6836.—The deck sheathing was repaired with 10,719 feet, B. M., of spruce, 384 feet (linear) of oak fender piles were driven, and loose fender piles were refastened were chocked with 1,440 feet, B. M., of 8 inches by 8 inches yellow pine timber. Begun September 19 and finished September 30, 1887.

Secretary's Order No. 7016.—5 oak fender-piles (382 linear feet) were driven for chocks were put on and loose fender piles were fastened; 934 feet, B. M., of 8 inches by 8 inches yellow pine timber and 180 pounds of chain were used. Begun September 30 and finished October 3, 1887.

Secretary's Order No. 7142.—4 oak fender-piles were driven, fastened and chocked outer end of the pier; braces were repaired and piles were refastened; second-hand material, 1,000 feet, B. M., of new 8 inches by 8 inches yellow pine timber and 50 pounds of chain were used. Begun November 28 and finished December 1, 1887.

Erysipelas Pavilion Pier, between East Twenty-seventh and East Twenty-eighth streets, E. R.

Secretary's Order No. 6887.—The deck was repaired and new deck-sheathing was laid, 8 piles were blocked up and fenders were refastened, 8,478 feet, B. M., of 3-inch spruce and 400 B. M., of second-hand yellow pine were used. Begun October 3 and finished October 6, 1887.

Small Landing Pier at the foot of East Fifty-first street, E. R.

Secretary's Order No. 7636.—A small landing-pier, 30 feet long and 12 feet wide, with approach 15 feet long and 6 feet wide, is under construction by the force of the Department. 21 spruce piles, 4 oak piles, 4,476 feet, B. M., of 12 inches by 12 inches, 2,093 feet, B. M., of plank, 184 feet, B. M., of 4 inches by 12 inches, and 662 feet, B. M., of 5-inch yellow pine timber, 200 feet, B. M., of 3-inch spruce, have been used. Begun April 17, 1888; in progress.

Boat Landing at East Fifty-second street, E. R.

Secretary's Order No. 7144.—4 bearing piles and 12 fender piles were driven. Begun November 11 and finished November 14, 1887.

Between East Seventy-sixth and East Seventy-seventh streets, E. R.

Secretary's Order No. 7023.—A landing for the Blackwell's Island Workhouse launch built, consisting of a float, fender piles, gangway and approach. Begun October 6 and finished December 8, 1887.

Blackwell's Island.

CHARITY HOSPITAL PIER.

Secretary's Order No. 6218.—8 second-hand and 3 new oak fender-piles were driven side of the pier and the deck sheathing were repaired, 8,452 feet, B. M., of 3-inch spruce and 1,000 feet, B. M., of 8 inches by 8 inches yellow pine were used. Begun May 7 and finished May 13, 1887.

STOREHOUSE PIER.

Secretary's Order No. 6897.—Old pile stumps were pulled, the deck was repaired, chocks were removed, and 2 second-hand and 4 new oak spring-piles were driven, 553 feet, B. M., of 3-inch backing and 796 feet, B. M., of hewn yellow pine timber was used. Begun August 31 and finished September 3, 1887.

Contract No. 255.—About 80 feet in length of the southerly end of the old pier was removed, raising the cribwork under it, the southerly end of the platform was repaired and a new platform 110 feet long and about 47 feet wide, in extension northerly of the existing platform on piles, was built by Duncan A. Gillies, contractor. Begun October 25, 1887, and finished January 26, 1888.

UPPER COAL DOCK, EAST SIDE OF ISLAND.

Secretary's Order No. 7143.—6 mooring posts were set, two fender piles were driven, and the backing log was repaired. Second-hand material was used. Begun November 23 and finished December 26, 1887.

Randall's Island.

COAL DOCK WEST SIDE OF RANDALL'S ISLAND, E. R.

Secretary's Order No. 7200.—The deck sheathing was repaired with 15,003 feet, B. M., of spruce and the fenders and backing log were repaired. Begun January 16 and finished February 26, 1888.

WORK DONE OTHER THAN DREDGING FOR THE FIRE DEPARTMENT.

NORTH RIVER.

Pier at West Thirteenth Street.

Secretary's Order No. 6760.—Placed sign near outer end of pier, inscribed as follows, viz.: "No vessel or boat is allowed to lie at the outer end of this pier, it being set aside for the exclusive use of the Fire Department. By order of the Board of Docks, L. J. N. Stark, President." Begun April 12 and finished April 23, 1888.

EAST RIVER.

Pier 48, E. R.

Secretary's Order No. 6881.—6 new white oak spring piles were driven and fastened on the north side of the pier, and 3 old spring piles were reset and refastened for the use of the fire-berthed there. Begun September 6 and finished September 8, 1887.

Secretary's Order No. 7649.—A sign was placed near the outer end of the pier inscribed as follows, viz.: "No vessel or boat is allowed to lie at the outer end of this pier, it being set aside for the exclusive use of the Fire Department. By order of the Board of Docks, L. J. N. Stark, President." Begun April 12 and finished April 23, 1888.

WORK OTHER THAN DREDGING DONE FOR THE HEALTH DEPARTMENT.

NORTH RIVER.

Pier at West Thirty-eighth Street, N. R.

Secretary's Order No. 6740.—A large area of the pier was blocked up underneath, the deck patched and sheathed, new side-caps and some new cross-caps were put on; 190 feet, B. M., of second-hand plank, 11,988 feet, B. M., of new 3-inch and 1,027 feet, B. M., of new 4-inch backing, and 8 second-hand spruce piles were used. Begun July 12 and finished August 1, 1887.

Secretary's Order No. 7072.—Some old rangers were removed and were replaced with new; second-hand piles were driven and fastened and the backing log was repaired; 7,394 feet, B. M., of second-hand 3-inch spruce were used. Begun October 26 and finished November 4, 1887.

New Pier at Thirty-seventh Street, N. R.

The outer about 250 feet of the whole width of the new pier, built under Contract No. 252, under unanimous resolution of the Board of June 25, 1887, was assigned to the use of the Health Department, by resolution of the Board of February 10, 1888.

EAST RIVER.

Pier at North Brother Island, E. R.

Secretary's Order No. 6777.—The deck sheathing was repaired with 5,998 feet, B. M., of 3-inch spruce, four spring piles were driven and the fenders refastened. Begun August 24 and finished August 31, 1887.

WORK DONE FOR THE DEPARTMENT OF PUBLIC WORKS.

PUBLIC BATHS, NORTH RIVER.

Pier, new 21 (north side), N. R.

Secretary's Order No. 6571.—The gangway was opened up for access to the Public Bath. Begun and finished June 11, 1887.

Pier at Horatio Street, N. R.

Secretary's Order No. 6571.—The gangway was opened up for access to the Public Bath. Second-hand material was used. Begun and finished June 10, 1887.

Secretary's Order No. 7057.—The gangway to the Public Bath was closed; 250 feet, B. M., of 3-inch spruce were used. Begun and finished October 15, 1887.

Pier at West Fifty-first Street, N. R.

Secretary's Order No. 6571.—The gangway to the Public Bath was opened up and 1 cleared put on. Begun June 6 and finished June 16, 1887.

Secretary's Order No. 7057.—The gangway to the Public Bath was closed; second-hand material and 45 feet, B. M., of 3-inch spruce were used. Begun and finished October 13, 1887.

EAST RIVER.

Pier 51, E. R.

Secretary's Order No. 7057.—The gangway to the Public Bath was closed; second-hand material was used. Begun and finished October 12, 1887.

Pier 60, E. R.

Secretary's Order No. 6571.—The gangway was opened for access to the Public Bath; 756 feet, B. M., of 3-inch spruce were used. Begun June 7 and finished June 9, 1887.

Secretary's Order No. 7057.—The gangway to the Public Bath was closed; 262 feet, B. M., of 3-inch spruce and 216 feet, B. M., of yellow pine timber for backing log were used. Begun and finished October 14, 1887.

Pier at East Nineteenth Street, E. R.

Secretary's Order No. 7057.—The gangway to the Public Bath was closed; second-hand material was used. Begun and finished October 12, 1887.

Pier at East Thirty-seventh Street, E. R.

Secretary's Order No. 6571.—The gangway was opened up for access to the Public Bath; 294 feet, B. M., of 8 inches by 8 inches yellow pine, and 294 feet, B. M., of 3-inch spruce were used. Begun June 17 and finished June 18, 1887.

Secretary's Order No. 7057.—The gangway to the Public Bath was closed; second-hand material was used. Begun and finished October 15, 1887.

HARLEM RIVER.

Bulkhead at East One Hundred and Twelfth Street, H. R.

Secretary's Order No. 6571.—An approach and platform on piles were built for an approach and access to the Public Bath; 10 second-hand piles were driven and fastened for bracing and cluster piles, and 1,430 feet, B. M., of 3-inch and 307 feet, B. M., of 4-inch spruce, and 375 feet, B. M., of 12 inches yellow pine were used for floor of platform, braces and fences. Begun June 16 and finished June 23, 1887.

Secretary's Order No. 7057.—The gangway to the Public Bath was closed; the platform and piles were removed. Begun November 3 and finished November 5, 1887.

WORK OTHER THAN DREDGING DONE FOR THE DEPARTMENT OF STREET CLEANING.

NORTH RIVER.

Dumping-board at Foot of West Twelfth Street, N. R.

Secretary's Order No. 6585.—Old pile stumps were removed; 19 second-hand piles were driven and fastened; loose spring-piles were refastened, blocked up and braced; the deck was patched with 1,307 feet, B. M., of 3-inch spruce, and some cross-caps were put on with 12 inches by 12 inches second-hand timber. Begun May 26 and finished June 4, 1887.

Dumping-board on Pier at West Nineteenth Street, N. R.

Secretary's Order No. 7161.—2 spruce piles under the dumping-board were fastened. Begun and finished November 14, 1887.

New Pier at West Thirty seventh Street, N. R.

The inner about 250 feet in length of the southerly half of the new pier built under Contract No. 252, and under unanimous resolution of the Board, June 25, 1887, was assigned to the use of the Department of Street Cleaning, by resolution of the Board of February 10, 1888.

EAST RIVER.

Pier 44, E. R.

Secretary's Order No. 7192.—A dumping-board 32 feet square, with an inclined approach 111.8 feet long and 15 feet wide, was built on the inner end of the southerly side of the pier; 1,400 feet, B. M., of 3-inch and 9,100 feet, B. M., of 4-inch spruce, and 4,467 feet, B. M., of 4-inch, and 3,468 feet, B. M., of 12 inches by 12 inches yellow pine were used, in addition to a considerable amount of second-hand material. The premises were first occupied by the Department of Street Cleaning on December 15, 1887. Begun December 1 and finished December 14, 1887.

Secretary's Order No. 7385.—A fence was erected along the southerly side of the pier, with 1,620 feet, B. M., of 3-inch and 397 feet, B. M., of 4-inch spruce. Begun January 11 and finished January 12, 1888.

Dumping-board at East Twenty-second Street, E. R.

Secretary's Order No. 6956.—28 spruce bearing piles were driven, cross caps were spliced, blocks and braces were put on, some blocking up was done, old piles were pulled and the deck was patched; 2,480 feet, B. M., of hewn yellow pine and 720 feet, B. M., of 3-inch spruce were used. Begun September 22 and finished October 3, 1887.

Secretary's Order No. 7519.—4 spring piles were driven, pulled to place and fastened, bench caps were repaired, chocked and braced, and 2 half-round oak fenders were put on; 970 feet, B. M., of 12 inches by 12 inches yellow pine were used. Begun March 27 and finished March 30, 1888.

New Dumping-board at East Forty-sixth Street, E. R.

The old dumping-board has been removed, and a new dumping-pier, one side for the use of the Department of Street Cleaning, is under construction at the foot of the street, and the crib-bulkhead being repaired under Contract No. 271.

Temporary Dumping-board at East Forty-eighth Street, E. R.

Secretary's Order No. 7589.—A temporary dumping-board on piles, with an approach thereon, was built at the foot of East Forty-eighth street for the temporary use of the Department of Street Cleaning during the construction of the new dumping-pier at the foot of East Forty-sixth street, East river; 12 spruce bearing piles and 4 new oak piles were driven, sills were laid, rangers, backing log, braces and chocks were put on, put up posts and fences, laid a new deck, put on braces and repaired the pavement; 6,757 feet, B. M., of 4-inch spruce, 3,186 feet, B. M., of 12 inches by 12 inches yellow pine timber, and 100 pounds of chain were used. Begun March 23 and finished April 4, 1888. The Department of Street Cleaning began to use the structure on April 4, 1888.

WORK DONE, INCLUDING DREDGING, FOR ALLEGED OWNERS, LESSEES AND OTHERS, ON THEIR REFUSAL OR NEGLECT TO COMPLY WITH THE ORDER OF THE BOARD, AND AT THE EXPENSE OF THE PARTIES FOR WHOM THE WORK WAS DONE.

NORTH RIVER.

Pier "A," N. R.

Secretary's Order No. 7628.—The damage done to a Department float stage by tug "I. H. Rutter," lying on the north side of Pier "A," North river, was repaired with 45 feet, B. M., of 3-inch spruce. Begun and finished April 10, 1888.

Bulkhead South of West Fourteenth Street, N. R.

Secretary's Order No. 6709.—1,774 cubic yards of mud were excavated and removed in front of the bulkhead extending 100 feet south of West Fourteenth street, North river, for H. K. Thurber. Begun and finished June 10, 1887.

Pier, new 43, N. R.

Secretary's Order No. 6709.—7 white oak fenders were put on and 1 bracing pile and 1 mooring post were refastened for the Baltimore and Ohio Railroad Company, occupants. Begun October 26 and finished November 4, 1887.

Secretary's Order No. 7412.—The damage done to the pier by the steamboat "Greece" of the National Line was repaired, as follows: 1 new oak pile was driven and fastened and several others were refastened. Begun and finished January 24, 1888.

Bulkhead North of West Thirty-eighth Street, N. R.

Secretary's Order No. 7499.—1,526 cubic yards of mud were excavated and removed in front of the bulkhead for the estate of Stuart F. Randolph. Begun and finished March 26, 1888.

EAST RIVER.

Contract No. 251.—6,468 cubic yards of mud were excavated and removed from the half slip on the east side of Pier 12 for the alleged owners. Begun August 4 and finished August 9, 1887.

Pier 13, E. R.

Contract No. 251.—11,970 cubic yards of mud were excavated and removed from the slips on each side of Pier 13 for the alleged owners. Begun August 10 and finished August 22, 1887.

Pier 14, E. R.

Contract No. 251.—2,247 cubic yards of mud were excavated and removed from the slip on the west side of Pier 14 for the alleged owners. Begun August 22 and finished August 24, 1887.

Pier 44, E. R.

Secretary's Order No. 6666.—The damage done to the spring piles on the outer upper corner of the pier by the scow "Bell," William Gannon, owner, of No. 32 South street, City, was repaired by refastening them. Begun and finished June 30, 1887.

Bulkhead 100 feet South of Cherry Street, E. R.

Secretary's Order No. 7194.—1,162 cubic yards of mud were excavated and removed from the bulkhead for 100 feet south of Cherry street. Begun December 3 and finished December 6, 1887.

Pier 59, E. R.

Secretary's Order No. 6785.—The two clusters of fender-piles at the outer end of the pier, broken up by the tug "F. A. Low," were renewed. Begun August 17 and finished August 18, 1887.

Pier at West One Hundred and Fifty-second Street, N. R.

Secretary's Order No. 7606.—The damage done to the outer end of the pier by ice was repaired by John A. Bouker, lessee, as follows: 3 spruce bearing-piles and 20 spruce fender piles were driven and fastened to place, stumps of old piles were pulled out, cross-caps, braces, backing log, deck and plank-sheathing were repaired; 896 feet, B. M., of new 12 inches by 12 inches yellow pine timber and 400 feet, B. M., of 4-inch yellow pine plank were used. Begun April 20 and finished April 27, 1888.

FLOATING PROPERTY.

The floating property of the Department consists of the following:

100-ton derrick "City of New York."

10-ton derrick.

Tug "Manhattan."

2 dredges, Nos. 3 and 4.

10 pile-drivers, Nos. 1, 2, 3, 5, 6, 7, 8, 9, 10 and 11.

9 deck scows, "B," "C," "D," "E," "F," "H," "I," "Jim" and "Willie."

Boring machine "Woodcock."

Divers' scow "G."

Small divers' scow.

10 yawls, 3 skiffs and 3 sounding boats.

The 100-ton Derrick "City of New York."

May 11, 1887.—Placed pile-driver No. 6 on deck of scow "D" at West Fifty-seventh Street Yard, and on June 3 placed pile-driver No. 6 in the water at West Fifty-seventh street, North river.

June 6 and 7.—Loaded 5 concrete base blocks on scows "B" and "D," at West Fifty-seventh Street Yard, was towed to West Thirty-second Street Section on June 7, and set the 5 blocks in the bulkhead wall, and towed back to West Fifty-seventh Street Yard on June 9.

August 8.—Loaded 4 concrete base blocks on scows "B" and "C," at West Fifty-seventh Street Yard, was towed to West Thirty-second Street Section, set the 4 blocks in the bulkhead wall, and towed back to West Fifty-seventh Street Yard on August 11.

August 17.—Placed pile-driver No. 8 on deck of Pier at West Fifty-seventh street, and on September 2 placed pile-driver No. 8 in the water.

September 3.—Placed a set of new batter ways on deck of pile-driver No. 8.

September 7.—Placed the old vertical ways of pile-driver No. 8 on deck of pile-driver No. 3.

September 6.—Loaded 7 concrete base blocks on scows "B," "C," and "E," at West Fifty-seventh Street Yard, was towed to Lighthouse Street Section on September 7, set the 7 blocks in the bulkhead wall, and towed from Lighthouse street on September 10 for West Fifty-seventh street, but was compelled to lay up at West Fortieth street, North river, on account of a strong ebb tide and heavy wind until Monday, September 12, when it was towed to West Fifty-seventh Street Yard.

September 19.—Loaded 4 concrete base blocks on scows "B" and "C," at West Fifty-seventh Street Yard, was towed to West Thirty-second Street Section on September 20, set the 4 blocks in the bulkhead wall, and towed back to West Fifty-seventh street, on September 23, 1887.

September 19, 1887.—Placed pile-driver No. 1 on deck of Pier at West Fifty-seventh street, removed house, boiler and machinery from deck of No. 1, and on November 19 placed pile-driver No. 1 in the water.

November 10.—Police Department inspected boiler.

November 18.—Loaded 6 concrete base blocks on scows "D" and "H," at West Fifty-seventh Street Yard for North Moore Street Section.

November 19.—Placed pile-driver No. 2 on deck of West Fifty-seventh street Pier, and on January 14, 1888, placed pile-driver No. 2 in the water and removed the old ways from deck of No. 2 to pier.

November 21.—Towed from West Fifty-seventh Street Yard to North Moore Street Section, set 5 concrete base blocks in the bulkhead wall and towed back to West Fifty-seventh Street Yard on November 26.

January 3 and 4, 1888.—Loaded 5 concrete base blocks on scows "B" and "H," and on January 5 was towed from West Fifty-seventh Street Yard to North Moore street section, set the 5 blocks in the bulkhead wall, and towed back to West Fifty-seventh Street Yard on January 13, 1888.

January 31.—Placed Pile-driver No. 7 on deck of Pier at West Fifty-seventh Street Yard and on March 10, 1888, placed Pile-driver No. 7 in the water.

March 10.—Placed Pile-driver No. 3 on deck of West Fifty-seventh street Pier, removed the old ways, and on April 5 placed pile-driver No. 3 in the water.

March 19 and 20.—Loaded 5 concrete base blocks on scows "B" and "H" at West Fifty-seventh Street Yard, and on March 29 was towed from West Fifty-seventh street to Franklin Street Section, set the 5 blocks in the bulkhead wall, placed land-ways on deck of scow "H," and on April 4 was towed from North Moore street to Pier "A" North river, and placed the 60 feet land-ways (from scow "H") on bulkhead, east of pier "A," North river, and towed from pier "A," North river, at 3 p. m., to West Fifty-seventh Street Yard.

April 7.—Placed the new 50 feet vertical ways on deck of pile-driver No. 2, at West Fifty-seventh Street Yard.

April 9.—Towed from West Fifty-seventh Street Yard to Pier "A," North river, and placed the 60 feet land-ways on deck of scow "H" (from bulkhead), and towed back to West Fifty-seventh Street Yard.

April 17.—Placed 60 feet vertical ways on deck of pile driver No. 3, at West Fifty-seventh street yard.

April 27.—Placed pile-driver No. 9 on deck of scow "E," at West Fifty-seventh Street Yard also placed old ways of No. 9 on Pier at West Fifty-seventh street.

February 7, 1888.—The Pioneer Iron Works, under Treasurer's Order No. 12783, repaired and put 6 new tubes in boiler.

January 31, 1888.—Charles L. Bucki, under Treasurer's Order No. 12695, furnished some 14-inch by 14-inch and 13-inch by 12-inch yellow pine.

The force of the Department calked deck and circle, repairing king post, tower legs, steps in engine-room, life lines on boom, gantline block, circle, shutters, hatchway on roof, boiler, machinery, deck, etc.; packed valves, piston-rods, water glass, etc.; fitted steam-pipes in cylinder, made new window sash, cut out old and put in new keelson, laid new yellow pine floor in hold, put wire rope around tower, screwed up bolts in beams, pumped out the bilges, painted wire rope around tower, shifted ballast in hold, etc.; carpenters are now resheathing house and covering same with white pine shingles, and painter priming new work.

The 10-ton Derrick.

May 13, 1887.—Towed from West Fifty-seventh Street Yard to West Thirty-second Street Section, set granite in the bulkhead-wall, and was towed back to West Fifty-seventh Street Yard on June 3, 1887.

June 16, 1887.—Police Department inspected boiler.

July 13, 1887.—Towed from West Fifty-seventh Street Yard to West Thirty-second Street Section, set granite in the bulkhead wall, and was towed back to West Fifty-seventh Street Yard on August 4, 1887.

August 29, 1887.—Towed to North Moore Street Section from West Fifty-seventh Street Yard and back.

August 30, 1887.—Towed from West Fifty-seventh Street Yard to East Seventeenth Street Yard coping-stone for Spring Street Section, and towed back to West Fifty-seventh Street Yard on August 31, 1887.

September 13, 1887.—Towed from West Fifty-seventh Street Yard to Spring Street Section, set coping-stone at or near Pier, new 35, North river, and was towed back to West Fifty-seventh Street Yard on September 15, 1887.

October 13, 1887.—Towed from West Fifty-seventh street to West Thirty-second Street Section, granite in the bulkhead-wall, and was towed back to West Fifty-seventh Street Yard on November 7, 1887.

November 9, 1887.—Towed from West Fifty-seventh Street Yard to Laight Street Section.

December 20, 1887.—Towed to East Seventeenth Street Yard from Laight street, and back to West Fifty-seventh Street Yard on December 24, 1887.

December 27, 1887.—Towed to Seventy-ninth street, North river, and removed some large stone numbering the bulkhead north of West Seventy-ninth street, and was towed back to West Fifty-seventh street on December 31, 1887.

January 31, 1888.—Raised and pumped out pile driver No. 7, partially sunk at West Fifty-seventh Street Yard on January 29, 1888.

February 27, 1888.—Towed from West Fifty-seventh Street Yard to East Seventeenth Street Yard, and handled coping for Laight Street Section from time to time as required until February 29, when it was towed to Beach and Laight Street Sections, set the coping-stone and towed to West Fifty-seventh Street Yard on March 21, 1888.

April 19, 1888.—Raised and pumped out sunken pile-driver No. 9 at West Fifty-seventh Street Yard.

The force of the Department repaired doors, house, engines and machinery, fastened corner blocks, fitted up centrifugal pump, scraped and oiled mast and boom, overhauled rigging, cleaned boiler, water tanks and machinery and made rope fenders.

Tug "Manhattan."

May 6, 1887.—United States Local Inspectors inspected hull and boilers.

May 7, 1887.—Returned to West Fifty-seventh Street Yard, having been laid up since April 28, 1887, at the Atlantic Basin, South Brooklyn, while the Pioneer Iron Works, under Treasurer's Order No. 12282, repaired engines and machinery, and Thomas C. Townsend, under Treasurer's Order No. 12276, repaired pipes and fittings of water-closet.

June 20, 1887.—At about 2.40 P. M. the Hunter's Point ferry-boat "Flushing" ran into the "Manhattan" when off East Thirty-fourth Street Ferry, East river, and damaged it as follows: broke the guard fender rail, knees, etc., under the deck, loosened the deck and the house.

August 30, 1887.—At 4.15 P. M. went on screw dock, foot of Market street, East river, and David Clark, under Treasurer's Order No. 12504, scraped and cleaned bottom of the "Manhattan" from the water-line down, and painted same with two coats of Wettersted's copper paint, finished and ran off screw dock on August 31, then went to William M. Tebo's Yard, Twenty-third street, South Brooklyn, and on September 1 William Tebo's men, under Treasurer's Order No. 12515, commenced repairing damage done the "Manhattan" by the ferry-boat "Flushing" and finished the said repairs, and on September 20 got up steam and returned to West Fifty-seventh Street Yard.

January 11, 1888.—At 12.30 P. M. laid up at West Fifty-seventh Street Yard for repairs to rudder stock which was broken by the ice at West Fifty-seventh street while backing out of slip: divers unshipped the old rudder and Department workmen got out and fitted new oak rudder stock, repaired the copper on sides; running was resumed on January 20, 1887, at 2 P. M.

January 20, 1888.—Laid up at West Fifty-seventh Street Yard with pile-driver No. 7 lashed alongside of tug to prevent the pile-driver from sinking.

February 28, 1888.—At about 11 A. M. broke off one of the flukes of the propeller wheel sunk log at West Thirty-second Street Section, returned to West Fifty-seventh Street Yard at P. M.

March 3, 1888.—At 1 P. M. arrived at Court street, South Brooklyn, for the purpose of getting dry dock to have propeller wheel balanced, and waited to go on dock until March 9, at 6.30 P. M. being prevented from docking before by the ice.

March 10, 1888.—Pioneer Iron Works, under Treasurer's Order No. 12825, balanced propeller wheel and the tug returned to West Fifty-seventh Street Yard at 5.30 P. M.

April 4, 1888.—At 5.30 P. M. laid up at Burtiss' dry dock, foot of Elizabeth street, Brooklyn, while the Pioneer Iron Works, under Treasurer's Order No. 12847, removed the propeller wheel and fitted new wheel on the shaft. The Delamater Iron Works, under Treasurer's Order No. 12826, furnished new wheel, size 9 feet 6 inches diameter by 15 feet 9 inches pitch. The Pioneer Iron Works, under Treasurer's Order No. 12851, furnished and put on one 8-inch and copper connections and repaired copper exhaust pipe. The force of the Department came from bottom from keel to copper, painted bolt heads, cleaned boiler, repaired machinery, etc.; and ran off of dock on April 7 and returned to West Fifty-seventh Street Yard on April 9, at 11 A. M. The hired tugs of Victor Vierow did all the towing required by the Department while "Manhattan" was laid up, under Treasurer's Orders Nos. 12310, 12513, 12755 and 12829. Laid up on May 16, June 24, August 3, October 1, November 8, and December 2, 1887; also cleaned boiler while laid up for repairs.

May 15, 1887.—Devoc & Co., under Treasurer's Order No. 12302, furnished 1 cask sal.

June 30, 1887.—John F. Rogers & Co., under Treasurer's Order No. 12383, furnished 4 oil cups, and July 30, 1887, under Treasurer's Order No. 12433, furnished 50 pounds All grease.

August 15, 1887.—McNab & Harlan Manufacturing Co., under Treasurer's Order No. 12311 furnished brass saucer, and under Treasurer's Order No. 12426 furnished steam fittings.

September, 1887.—John Morris, under Treasurer's Order No. 12502, furnished labor material to fit up steering gear.

October 15, 1887.—Alexander Pollock, under Treasurer's Order No. 12534, furnished 1 cask soda.

September 30, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12537, repaired machinery.

October 15, 1887.—Metropolitan Hardware Co., under Treasurer's Order No. 12570, furnished one galley stove, crockery and table furniture.

November 30, 1887.—Brooklyn Furniture Co., under Treasurer's Order No. 12595, furnished couches, 4 feather pillows, 4 comforters, 4 pair gray blankets and 2 excelsior mattresses.

December 31, 1887.—Alexander Pollock, under Treasurer's Order No. 12692, furnished 1 cask sal soda.

January 15, 1888.—Patterson Bros., under Treasurer's Order No. 12594, furnished 8 plates, spelter, door fastenings, etc., and under Treasurer's Order No. 12740 furnished 1 wrought-iron nut.

January 31, 1888.—C. & R. Poillon, under Treasurer's Order No. 12662, furnished 1 spruce staff, 37 feet long by 5¾ inches in diameter.

January 31, 1888.—Taunton Copper Co., under Treasurer's Order No. 12759, furnished 4 sheets 30 inches by 60 inches, copper and 12 pounds 1½ yellow metal nails.

January 31, 1888.—C. & R. Poillon, under Treasurer's Order No. 12756, furnished 1 Maryland oak, 17 inches by 17 inches, 409 feet B. M. for rudder stock.

February 29, 1888.—Taunton Copper Manufacturing Co., under Treasurer's Order No. 12756, furnished 10 pounds ¾ inch round copper for rudder stock.

April 30, 1888.—Iron-clad Manufacturing Co., under Treasurer's Order No. 12784, furnished No. 18 galvanized-iron ash buckets.

Pioneer Iron Works, under Treasurer's Order No. 12861, furnished use of dry dock while laid up to calk bottom.

les H. Pepper, under Treasurer's Order No. 12865, furnished 3 coca and 1 linoleum mats. The Rubber Co., under Treasurer's Order No. 12902, furnished 100 feet 2½-inch rubber with lengths of 50 feet each.

The force of the Department repaired house, pilot house, boat chocks, etc.; made and hung rudder stock, sewed new canvas on boiler, made canvas boat covers, hickory fenders, put 36 feet 1-inch white oak sheathing on hull to protect copper from ice, painted and new woodwork, painted engine room, small boats, smoke-stack, etc., and whitewashed hold. Nos. 3 and 4 are in the possession of the Union Dredging Company.

Pile-drivers.

river No. 1.—September 19, placed on deck of West Fifty-seventh street pier, and the Department removed old wearing pieces, cut out old ends, sides, timbers, deck, etc.; addition of 8 inches in depth of scow, put in new timbers, planks, 6-inch hackmatac white pine water tank; laid new yellow pine deck plank; calked all over; painted and overhauled scow, and the scow is now in first-class order. November 19, placed in the

old boiler that was on No. 1 was condemned and sold at public auction on December 21,

boiler and engine of Pile-driver No. 9 has been placed on this machine and is now in order, with the exception of a safety-valve.

new ways, 60 feet high, built for No. 1, are now on Pile-driver No. 3.

river No. 2.—November 19, 1887, placed on deck at West Fifty-seventh street pier for the same and placed in the water on January 14, 1888. The force of the Department calked plank, knees and timbers and replaced them with new; laid new yellow pine deck; over; fitted up new tubular upright boiler, steam pipes and fittings and steam winch; put on a set of 50 feet vertical ways. It has been painted and is now in first-class order. Ways that were on No. 2 have been broken up.

1, 1887.—The barge "Chicago," in tow of tug "Bluestone," broke a side-shore on old No. 2, which the Department force of Floating Property repaired under Secretary's Order at a cost of \$15.

6, 1887.—Police Department inspected boiler of Pile-driver No. 2, furnished by J. W. Under Treasurer's Order No. 12016.

1, 1888.—Pioneer Iron Works, under Treasurer's Order No. 12795, furnished 1 steam

15, 1888.—Eckford Iron Works, under Treasurer's Order No. 12843, furnished one No. 1 new set double sheaves and boxes and six roller chocks.

river No. 3.—Is now under repairs at West Fifty-seventh Street Yard.

6, 1887.—Police Department inspected boiler. The force of the Department put new drum of engine, repaired old ways, water-tanks, deck, house, windlass-bits, boiler, engine very, calked water-tank and deck, removed the old angle ways and put in their place the new ways from Pile-driver No. 8, which have since been removed and broken up. New set high were made November 7, 1887, to January 10, 1888, and on January 10 were sent to Moore Street Section for temporary use as land-ways in driving pile foundation for bulk. were returned to West Fifty-seventh Street Yard on April 9 and on April 17 were placed on Pile-driver.

10, 1888.—Placed on deck of Pier at West Fifty-seventh street and was thoroughly put out all the decayed plank and timbers and replaced with new, calked all over and it was put in first-class order. It was put back in the water on April 5, 1888.

18, 1888.—Pile-driver No. 9 was made fast to Pile-driver No. 3, and in sinking it pulled out the old and upper timbers of Pile-driver No. 3, which will be replaced with new timbers. No. 5 (fitted up as a pile-cutter).

May 22 and September 30, 1887.—Police Department inspected boiler. The old boiler No. 5 is now laid up at West Fifty-seventh Street Yard, and the old boiler of No. 8 is now No. 5.

The force of the Department repaired house hatch covers, tubes in boiler, machine frame and gear, painted ways and house, reshingled roof, put on new spark arrester and new rubber belting on saw shaft.

August 31, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12445, repaired old from Pile-driver No. 8.

September 30, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12512, repaired boiler which is now laid up.

November 15, 1887.—New York Belting and Packing Company, under Treasurer's Order No. 12600, furnished 36 feet and 6 inches of 4-ply and 32 feet and 8 inches of 4-ply extra belt, 6 feet of 318-inch lace leather.

December 31, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12711, furnished spark arrester.

March 31, 1888.—Pioneer Iron Works, under Treasurer's Order No. 12808, furnished 2 sets of bearings.

Cut out and welded piece in saw shaft and crowned a 36-inch by 8-inch pulley, also furnished pattern and core-box for cast-iron bearings.

Pile-driver No. 6—May 11, 1887.—Placed on deck of scow "D" for repairs. The force of the Department cut out the decayed timbers, plank and knees and replaced same with new as follows: laid new yellow pine deck, put in eleven 6-inch hackmatac knees, put on new end plank, wearing pieces and chocks, calked all over, painted and thoroughly repaired.

June 3, 1887.—Placed in the water at West Fifty-seventh Street Yard.

September 12, 1887.—Police Department inspected boiler.

October 15, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12539, furnished spark arrester.

Pile-driver No. 7.—July 23, 1887, Police Department inspected boiler.

January 29, 1888.—At 9.30 P. M. the ice cut a large hole in port side plank at the water about midships, while lying up alongside tug "Manhattan," and it partially sunk, but was from going to the bottom by its lines to the tug.

January 30, 1888.—The 10-ton derrick raised and pumped out the forward end, which was under water about 13 feet.

January 31, 1888.—The derrick "City of New York" placed No. 7 on deck of Pier at West Fifty-seventh street for repairs.

The force of the Department removed wearing pieces, cut out old material and replaced same with new, as follows: put in 6-inch knees, side and end plank and timbers, laid new deck of yellow pine, put on wearing pieces and ironwork, calked all over, painted and thoroughly overhauled, placed in the water on March 10, 1888. The engine, machinery, ways and house were repaired and are now in first class order, also fitted up boom on ways.

August 31, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12432, repaired old engine.

April, 1888.—Pioneer Iron Works, under Treasurer's Order No. 12850, furnished new stack and bonnet.

Pile-driver No. 8 (fitted up with batter ways).—August 17, 1887, placed on deck of West Fifty-seventh street pier for repairs. The force of the Department cut out the old and decayed plank, knees and timber, and replaced with new, as follows: Laid new yellow pine deck plank and iron work, put in new 6-inch hackmatac knees, put on wearing pieces, and it is now in first-class order.

September 2, 1887.—Placed in the water, and on September 3 placed a new set of batter ways on deck, the old vertical ways having been removed and placed on pile-driver No. 3. The new ways were built by force of the Department. Fitted up a new steel boiler and steam

engines, machinery and house calked all over, reshingled roof on house, painted and repaired. Put on new spark arrester.

ber 8, 1887.—The pile-driver was loaned to Mr. John Gillies, in accordance with Secretary No. 7148, and it was returned by him in good order on November 9, 1887.

ber 30, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12449, furnished one upright boiler.

ber 15, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12539, furnished spark

ber 31, 1887.—Gaskell, Greenlie & Co., under Treasurer's Order No. 12587, furnished spark plate.

ber 1, 1887.—Bell Bros. furnished, under Treasurer's Order No. 12332, 21 pieces 1½ inches by 3 feet spruce.

ber 5, 1887.—Patterson Bros., under Treasurer's Order No. 12342, furnished 202 pounds round washers and 6 bars angle iron (1,715 pounds) for new ways.

ber 1, 1887.—Charles L. Bucki & Co., under Treasurer's Order No. 12331, furnished 4,877 feet of yellow pine for new ways.

ber 30, 1887.—Police Department inspected boiler.

ber 9, 1887.—Is laid up at West Fifty-seventh Street Yard for repairs.

ber 28, 1888.—Police Department inspected boiler.

ber 8, 1888.—At 11 P. M. sprung a leak and sank at West Fifty-seventh Street Yard. Pairs had No. 9 in use all day, having been towed from Pier A, North river, in the forenoon. Force of General Repairs were engaged the remainder of the day fitting it out for work on First Street, where it was to be towed in the morning.

ber 19, 1888.—The 10-ton derrick, pile-driver, diver and force of the Department raised it and out.

ber 1, 1888.—The Department repaired house, ways, engine, machinery, and shifted boiler and pile-driver No. 1.

ber 11, 1888.—Reshingled roof of house, made new window sash, marked scale on ways and boiler.

ber 17, 1888.—Placed No. 9 on deck of scow "E" for repairs, and removed old ways from deck on Pier at West Fifty-seventh street.

ber 15, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12497, furnished one boiler.

ber 10, May 22, 1887.—Police Department inspected boiler. The force of the Department repaired ways and machinery, cut pump holes in deck and made plugs for same; fitted new smoke-stack and spark arrester; put in new grate-bars and cleaned boiler.

ber 31, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12450, dressed pistons and rings; October 15, 1887, 2 sets of piston rings, and under Treasurer's Order No. 12539 furnished new spark arrester.

ber 31, 1887.—The Lidgerwood Manufacturing Company, under Treasurer's Order No. 12587, furnished 1 cast-iron pinion.

ber 31, 1887.—Gaskell, Greenlie & Co., under Treasurer's Order No. 12587, furnished 2

ber 29, 1888.—Pioneer Iron Works, under Treasurer's Order No. 12766, furnished 1 smoke

ber 11, December 16, 1887.—The force of the Department cut out old and put in new pine bed pieces under batter ways, repaired vertical ways, smoke stack, machinery, etc., hatch covers, ceiled and calked water tank, painted house and ways, fitted and put on new stack and spark arrester, put in new grate bars and cleaned boiler, etc.

ber 12, 1888.—Police Department inspected boiler.

ber 30, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12571, furnished labor to dress the drum and to put new wooden friction on it.

December 31, 1887.—Pioneer Iron Works, under Treasurer's Order No. 12711, furnished arrester.

October 31, 1887.—Lidgerwood Manufacturing Company, under Treasurer's Order No. 12711, furnished 1 cast-iron pinion.

October 31, 1887.—Gaskell, Greenlie & Co., under Treasurer's Order No. 12587, furnished grate bars.

February 29, 1888.—Pioneer Iron Works, under Treasurer's Order No. 12766, furnished a stack.

Deck Scows.

Scow "B."—Has been in use from time to time. The force of the Department called cleaned out hold, etc. She is now in good order.

Scow "C."—Has been in use from time to time and is in good order.

Scow "D."—Has been in use from time to time and is in good order.

Scow "E."—Has been in use from time to time and is in good order.

Scow "F."—(Used and fitted up with ten pockets for carrying coal to different parts of work) has been kept in good repair.

Scow "H."—Built at West Fifty-seventh Street Yard by the force of the Department under unanimous resolution of the Board December 8, 1886. Was begun in June, 1887, and launched at West Fifty-seventh street on October 12, 1887. Its dimensions are about 70 feet long, 30 feet wide and 7 feet 6 inches deep, with a displacement of 325 tons. It has been used from time to time and is in first-class order. A. J. Murray, under Treasurer's Orders Nos. 12150 and 12151, furnished yellow pine and white oak used in the scow.

Scow "I."—Built at West Fifty-seventh Street Yard by the force of the Department under unanimous resolution of the Board of December 8, 1886. Was begun in October, 1887, and launched on March 16, 1888. Its dimensions are 70 feet long, 30 feet wide and 7 feet 6 inches deep, with a displacement of 325 tons. The work of painting the inside of the scow with fernoline is in progress.

Scow "K."—Now under construction at West Fifty-seventh Street Yard by the force of the Department, under unanimous resolution of the Board of December 8, 1886, was begun in March, 1888.

Scow "Jim."—Is laid up at West Fifty-seventh Street Yard where she is used for storing timber, etc.

Scow "Willie."—Is now laid up at West Fifty-seventh Street Yard.

March 3, 1888.—It leaked so badly it required a man at the pump all the time to keep it from sinking. It was then beached at the foot of West Fifty-sixth street. The carpenters and calkers replaced the wearing pieces on corner, calked corner and top of the sides and replaced the wearing pieces. It is now afloat but not safe to carry any weight.

Scow "May."—Having been condemned as not worth repairing, was sold at public auction at West Fifty-seventh Street Yard, on December 21, 1887.

Divers' Scow "G."—Has been engaged on different sections of the work where required and is in good order.

Small Divers' Scow.—Is laid up at West Fifty-seventh Street Yard. It is used for storing etc., not being serviceable for work as it is decayed and worn out.

Boring Machine "Woodcock."—June 2, 1887, Police Department inspected boiler.

September 23 to October 3, 1887.—Made 63 borings from West Forty-sixth street to West Forty-seventh street, North river, for the examination of water front.

January 24 to February 23, 1888.—Made 482 borings at East One Hundred and Twenty-ninth street, Harlem river, under Secretary's Order No. 7409.

February 24 to March 10, 1888.—Made 9 borings at West Fifty-first street, under Secretary's Order No. 7390, for a new pier.

March 19 to 27, 1888.—Made 15 borings for a proposed new pier at West Forty-seventh street.

ce of the Department painted and lettered house, repaired canvas on roof, house, pumps, etc., painted rods for boring, cleaned boiler, machinery, etc.

and Ways, 30 feet high.—Built by the Department force at West Fifty-seventh Street commenced July and finished September, 1887.

ber 30, 1887.—Patterson Bros., under Treasurer's Order No. 12474, furnished 20 feet of pinch wrought iron, 340 pounds, for deck scows.

Iron Works, under Treasurer's Order No. 12473, furnished 1 No. 0 windlass, 2 roller cleats.

and Ways, 45 feet high.—Force of the Department is now building a new set of ways for rig wall foundations.

boats.—The force of the Department built and painted one 15-foot yawl boat, No. 20, and one 15-foot yawl boat, No. 21.

d and painted yawls, skiffs and sounding boats. The two bateaux are decayed and are not worth repairing.

er 15, 1887.—Pierson & Co., under Treasurer's Order No. 12623, furnished 112 pounds of new yawls.

tic Tide Gauges.—Shifted and fitted up the gauge and house at the N. Y. City & Railroad Bridge, Harlem river; made and painted tide-gauge staffs; repaired and painted the Harlem river and Cromwell's Creek.

East Seventeenth Street Yard.

, 1887.—Police Department inspected boiler of hoisting engine, the force of the Department its machinery, cleaned boiler, engines, etc., and put cover on mast-head, assorted material, etc., of floating property on storage at this yard.

Pier "A" North River, and Building thereon.

and varnished pigeon-hole cases for Rooms 7, 9 and 19; put up and varnished partition, and fitting up closets, bookcase, etc.

ers attending boilers to heat building and cleaned boilers, repaired furniture, doors, water-pipes, closets, gutter on roof and tin roof on building and tide gauge, painted and side gate, placed and bolted in deck of pier, two cast-iron fenders at gate entrance; rickwork and tops of boilers and painted up brickwork in boiler room. Fitted up steam-tors, storm-windows and awnings. Put up and varnished a partition and wainscoting in sed by the Police Department at the outer end. Foreman, with laborers, unloaded and for heating building.

er 1.—Police Department inspected both boilers; varnished floor of the Engineer-in-Chief's le and painted box for use of painters' material, made ladders, platform for use of cut holes in window-glass for ventilators and put in same; put casing on steam-pipes on Croton-water pipe; removed storm-windows from north side of building.

Miscellaneous at West Fifty-seventh Street Yard.

drawing-board for use of Superintendent of Machinery; put up one No. 3 upright hand-smith's shop—Maxwell, Manning & Moore furnished same under Treasurer's Order No. ide ladders for general use of floating property; made and put up closet in carpenter le pike-poles and fitted irons to same; made, painted and put up signboard on outer end hibiting vessels from landing, by order of the President; cleaned and fitted up boiler in; shifted pile-drivers, scows, etc., from the south to the north side of pier and back to for dredging slips; made snow shovels, saw benches, sign for fire-hose box, boat-hooks, ing oakum, filed saws.

ber 20, 1887.—Police Department inspected boiler in pipe-shop. This boiler is used for team on pier to keep Croton water in pipes from freezing. Lettered doors of shops

with the words "no smoking"; made patterns for cleats, chocks, windlass boxes, and same; repaired metal pumps, hand-hoisting blocks, fire-hose box, hand trucks, etc.; put of glass in shop windows, pumped out scows, handled timber, cleaned off snow from property, and looking after floating property laid up at Yard; numbered lots of old material sold at public sale, December 21, 1887.

December 21, 1887.—Sold at public auction 3 old tubular upright boilers, old hand pumps, etc.; furnished steam from pile-driver No. 2 to thaw out broken stone at West Fifty Street Yard.

The work of building two portable offices for construction work was begun on April 1 and is now in progress.

In addition to the above various work was done for Construction Account at Pier, new river, and at East One Hundred and Twenty-fifth street; for General Repairs Account at Pier 43 and new 46, North river, and Pier 59, East river; for the Department of Public Charities, Correction, landing platform north of East Seventy-sixth street, for the Fire Department at West Thirteenth street, North river, and at Pier 48, East river; and for the Dock Master at West Seventy-ninth street, North river, and at Chambers street office, as will be seen in detailed reports of the localities for which the work was done.

The following material, other than that already specified, has been furnished for the use of floating property, except where otherwise stated:

June 28, 1887.—George L. Van Emberg, under Treasurer's Order No. 12379, furnished 600 feet, B. M., of $\frac{1}{2}$ -inch, 1 inch, $1\frac{1}{4}$ -inch and $1\frac{1}{2}$ -inch white pine.

July 22, 1887.—William B. Ferguson & Son, under Treasurer's Order No. 12405, furnished 100 horseing beetles and handles and 200 hickory ship wedges.

July 26, 1887.—The Eureka Manufacturing Company, under Treasurer's Order No. 12406, furnished 111 pounds green lubricant, and A. J. Murray, under Treasurer's Order No. 12407, furnished 7,630 feet, B. M., yellow pine.

August 15, 1887.—McLaughlin & Lloyd, under Treasurer's Order No. 12406, furnished 100 pounds galvanized bolts and nuts for deck scows.

September 30, 1887.—McNab & Harlan Manufacturing Company, under Treasurer's Order No. 12343, furnished 60 pounds round wrought-iron washers, under Treasurer's Order No. 12344, galvanized iron suction pumps, etc., and under Treasurer's Order No. 12404, steam fitting Eckford Iron Works, under Treasurer's Order No. 12473, furnished 12 half-chocks.

August 15, 1887.—A. J. Murray, under Treasurer's Order No. 12382, furnished 31,206 feet, B. M., of yellow pine.

July 21, 1887.—N. Y. Belting and Packing Company, under Treasurer's Order No. 12405, furnished 22½ pounds $\frac{1}{8}$ -inch gumpacking, and C. & R. Poillon, under Treasurer's Order No. 12425, furnished 50 6-inch and 2 4-inch hackmatac knees.

August 12, 1887.—McNab & Harlan Manufacturing Company, under Treasurer's Order No. 12457, furnished 50 pounds of $\frac{1}{2}$ -inch, $\frac{3}{8}$ -inch and $\frac{1}{4}$ -inch square wrought-iron nuts.

August 18, 1887.—Manhattan Fire Brick and Clay Company, under Treasurer's Order No. 12483, furnished 1 barrel fire mortar for Pier "A" boiler room.

August 27, 1887.—A. J. Murray, under Treasurer's Order No. 12493, furnished 659 feet, B. M., of 4-inch by 6-inch wide oak for pile-drivers 1, 2 and 7, and on September 9, 1887, under Treasurer's Order No. 12503, furnished 4,056 feet, B. M., yellow pine.

September 26, 1887.—C. & R. Poillon, under Treasurer's Order No. 12520, furnished 659 feet, B. M., 1-inch cedar, 537 feet, B. M., 1-inch, $1\frac{1}{2}$ -inch and 2-inch white oak and 24 boat knees.

September 21, 1887.—Richard Vose, under Treasurer's Order No. 12533, furnished 1 cutting machine.

September 9, 1887.—A. J. Murray, under Treasurer's Order No. 12536, furnished 10,131 feet, B. M., yellow pine.

September 13, 1887.—McNab & Harlan Manufacturing Co., under Treasurer's Order No. 12537, furnished steam fittings.

- ber 30, 1887.—Patterson Brothers, under Treasurer's Order No. 12474, furnished 500 galvanized iron rings, 55 pounds, for the new deck scows.
- ber 30, 1887.—Eckford Iron Works, under Treasurer's Order No. 12473, furnished 12 for new deck scows.
- ber 10, 1887.—William P. Ferguson & Son, under Treasurer's Order No. 12582, furnished ship wedges.
- ber 10, 1887.—Charles L. Bucki & Co., under Treasurer's Order No. 12584, furnished M., 8-inch by 10-inch, and 1,422 feet, B. M., 12-inch, 5-inch, 7-inch and 1½-inch for new pile-driver ways.
- ber 31, 1887.—Piers & Co., under Treasurer's Order No. 12623, furnished 8 bars 4-inch refined flat iron and 1¼-inch round iron for new yawls and vertical ways, and in November, under Treasurer's Order No. 12651, furnished 200 pounds ¾-inch by ¾-inch washers and ¾-inch round galvanized iron for new deck scow.
- ber 22, 1887.—Gaskell, Greenlie & Co., under Treasurer's Order No. 12668, furnished 15 of countersunk machine bolts and nuts.
- ber 28, 1887.—McNab & Harlan Manufacturing Co., under Treasurer's Order No. 12679, furnished fire pot and snips, 20 pounds XX. tin and bag charcoal, etc.
- ber 30, 1887.—Thomas C. Townsend, under Treasurer's Order No. 12683, furnished material to place drip cock on Pier, new 43, North river.
- ber 31, 1887.—Charles L. Bucki & Co., under Treasurer's Order No. 12684, furnished B. M., 8-inch by 10-inch, 1,170 feet, B. M., 5-inch by 9-inch, 882 feet, B. M., 7-inch by 309 feet, B. M., 1½-inch yellow pine timber for new ways of pile-drivers.
- ber 10, 1887.—George Kan & Co., under Treasurer's Order No. 12694, furnished 150 inch rough spruce, and 84 pieces 3-inch by 4-inch dressed spruce plank, 13 feet long, 360 inch dressed spruce plank, 96 feet 6-inch, and 96 feet 3-inch crown moulding.
- ber 22, 1887.—Gaskell, Greenlie & Co., under Treasurer's Order No. 12710, furnished 12 inch, twelve 24-inch cast-iron cleats, and twelve 14-inch chocks, and 24 windlass boxes.
- ber 23, 1887.—Fernoline Chemical Co., under Treasurer's Order No. 12717, furnished 15 gallons of fernoline.
- ber 29, 1887.—C. & R. Poillon, under Treasurer's Order No. 12720, furnished fifty 6-inch knees.
- ber 30, 1887.—William B. Ferguson & Son, under Treasurer's Order No. 12721, furnished 10 solid iron-sheaved snatch blocks, six 6-inch double patent blocks, 10 patent bushed and 5 iron sheaves.
- ber 10, 1888.—Patterson Bros., under Treasurer's Order No. 12740, furnished 6 each of ½-inch, ¾-inch and 1½-inch ship augers.
- ber 14, 1888.—Hodgman Rubber Co., under Treasurer's Order No. 12741, furnished 3 pairs couplings, 150 feet 1½-inch 3-ply rubber hose, and 74 pounds gumpacking.
- ber 13, 1888.—Patterson Brothers, under Treasurer's Order No. 12747, furnished two No. 74 jaws and six No. 8 hand screws.
- ber 19, 1888.—Adolph Starke, under Treasurer's Order No. 12754, furnished 1,000 pounds square by 8-inch wrought-iron hand-made deck spikes and 2,000 pounds 8-inch by ½-inch iron deck spikes for new deck scows.
- ber 18, 1888.—F. S. Shurick, under Secretary's Order No. 12762, furnished 3,201 feet, white oak, and on March 27, 1888, under Treasurer's Order No. 12862, 843 feet, B. M., of .
- ber 5, 1888.—Charles L. Bucki & Co., under Treasurer's Order No. 12785, furnished 55,545 ., yellow pine for pile-drivers.
- ber 15, 1888.—William B. Ferguson, under Treasurer's Order No. 12787, furnished eight double patent blocks with iron straps, and three 16-inch solid iron sheave snatch blocks.
- ber 13, 1888.—New York Belting and Packing Company, under Treasurer's Order No. 12788, furnished 16 pounds Sala packing.

February 13, 1888.—Garrett E. Green, under Treasurer's Order No. 12799, furnished : and grooved pine boards.

February 28, 1888.—Abendroth & Root Manufacturing Company, under Treasurer's 12819, furnished 18 leather plungers for hand-pumps.

March 8, 1888.—William B. Ferguson & Son, under Treasurer's Order No. 12822, fu 20-inch double heavy purchase blocks.

March 3, 1888.—Gaskell, Greenlie & Co., under Treasurer's Order No. 12823, fu hundred 1-inch galvanized square wrought-iron washers, 500 pounds $\frac{3}{4}$ -inch square w washers and 200 pounds nuts, for new deck scows.

April 4, 1888.—Jersey Chain Works, under Treasurer's Order No. 12839, furnished : and four $\frac{3}{8}$ -inch chains, 10 feet long, with hooks.

March 20, 1888.—George Karr & Co., under Treasurer's Order No. 12840, furnishe B. M., of clear white pine.

March 23, 1888.—McNab & Harlan Manufacturing Co., under Treasurer's Order furnished steam fittings, etc.

April 3, 1888.—William B. Ferguson & Son, under Treasurer's Order No. 12856, furr and material to repair 6 snatch, 2 double and 5 single blocks.

April 12, 1888.—C. & R. Poillon, under Treasurer's Order No. 12881, furnished 1 s 30 feet long $8\frac{1}{4}$ inches in diameter, for pile-driver No. 7.

FORMS OF CONTRACTS AND SPECIFICATIONS PREPARED AND SUBMITTED TO THE
OF DOCKS.

Secretary's Order No. 3986.—For repairing the crib-bulkhead north of West One Hundred and Thirty-first street, North river; for building a new crib-bulkhead northerly in extension of the northerly line of West One Hundred and Thirty-second street, with a return crib, and for building a new pier at the foot of West One Hundred and Thirty-second street, North river, necessary dredging. Submitted March 23, 1885, but no action taken then, for want of revised and resubmitted May 10, 1887, and advertised as Contract No. 246.

Secretary's Order No. 6248.—For building a crib-bulkhead at the foot of East Seventh street, East river. Submitted May 12, 1887; advertised as Contract No. 247.

Secretary's Order No. 6281.—For building a new pier at the foot of West Thirty-fifth street, North river, to be known as Pier, new 61, North river. Submitted May 23, 1887; advertised as Contract No. 248.

Engineer's Order.—For raising and improving Battery boat-landing and the approach "A," North river. Submitted June 15, 1887; advertised as Contract No. 249.

Secretary's Order No. 6659.—For dredging the slips on each side of Pier, new 59, North river. Submitted June 15, 1887; advertised as Contract No. 250.

Secretary's Order No. 6561.—For dredging at Piers 12, 13 and 14, East river. Submitted July 24, 1887; advertised as Contract No. 251.

Secretary's Order No. 4172.—For building new pier at the foot of West Fifty-seventh street, North river. Submitted July 27, 1887; advertised as Contract No. 252.

Engineer's Order.—For removing the burned remains of Pier, new 37, North river. Submitted August 22, 1887; advertised as Contract No. 253.

Engineer's Order.—For dredging the site of Pier, new 37, North river. Submitted August 22, 1887; advertised as Contract No. 254.

Secretary's Order No. 6842.—For extending the store-house pier at Blackwell's Island, removing portions of the existing pier. Submitted September 12, 1887; advertised as Contract No. 255.

Engineer's Order.—For transcribing, printing and binding the minutes of the Board meetings. Submitted September 25, 1887; advertised as Contract No. 270. No bids being received, the form contract was revised by leaving out the transcribing, and as revised it was resubmitted on March 1888; readvertised as Contract No. 270.

Secretary's Order No. 6282.—For building Pier, new 62, at the foot of West Thirty-second street, North river. Submitted September 23, 1887; advertised as Contract No. 256.

Secretary's Order No. 6935.—For building Pier, new 37, North river. Submitted September 1887; advertised as Contract No. 257.

Secretary's Order No. 6679.—For dredging for and building a crib-bulkhead between East One Hundred and Fourteenth street and East One Hundred and Fifteenth street, Harlem river. Submitted October 10, 1887; advertised as Contract No. 258.

Secretary's Order No. 7051.—For furnishing 1,500,000 feet, B. M., of yellow pine timber. Submitted October 19, 1887; advertised as Contract No. 259.

Secretary's Order No. 6200.—For building crib-bulkhead at West One Hundred and Fifty-eighth street, North river. Submitted November 1, 1887; advertised as Contract No. 260.

Secretary's Order No. 6914.—For removing Pier, old 37, East river, and for building Pier, new 37, East river, on the site thereof, and for repairing the crib-bulkhead thereat. Submitted November 1, 1887; advertised as Contract No. 262.

Resolution of Board, October 6, 1887.—For removing Pier, old 35, North river, at the foot of Franklin street, and for building Pier, new 24, North river. Submitted November 21, 1887; advertised as Contract No. 263.

Secretary's Order No. 6684.—For removing Pier at foot of West Thirty-eighth street, North river, and for building a new pier and temporary approach on the site thereof, and for repairing the crib-bulkhead at the foot of said street. Submitted December 13, 1887; advertised as Contract No. 264.

Secretary's Order No. 7380.—For furnishing granite stones to complete delivery under Contract No. 230. Submitted January 3, 1888.

Secretary's Order No. 7373.—For dredging the half slip adjoining Pier 7, East river. Submitted January 4, 1888; advertised as Contract No. 266.

Resolution of Board, April 28, 1880.—For removing Pier, old 36, North river, at the foot of North Moore street, and for building Pier, new 25, North river, on the site thereof. Submitted January 23, 1888.

Secretary's Order No. 7276.—For removing old Pier 60, East river, for building a new pier on the site thereof, and for repairing the crib-bulkhead at the foot of Rivington street, East river. Submitted January 26, 1888; advertised as Contract No. 269.

Engineer's Order.—For furnishing granite stones for bulkhead or river wall. Submitted January 25, 1888; advertised as Contract No. 268.

Engineer's Order.—For removing old pier at the foot of East Forty-sixth street, East river; for building new pier on the site thereof, and for repairing the crib-bulkhead thereat. Submitted February 11, 1888; advertised as Contract No. 271.

Secretary's Order No. 7390.—For removing the old pier at the foot of West Fifty-first street, North river, and for building a new pier on the site thereof. Submitted February 17, 1888; advertised as Contract No. 272.

Secretary's Order No. 7184.—For removing Pier 46, East river, for building Pier, new 36, on the site thereof, and for repairing the crib-bulkhead thereat. Submitted March 26, 1888; advertised as Contract No. 273.

Engineer's Order.—For repairing the crib-bulkhead and pier at West Eleventh street, North river. Submitted April 6, 1888; advertised as Contract No. 274.

Secretary's Order No. 7722.—For dredging at Pier, new 43, North river, and at West Fifty-fifth street, North river. Submitted April 27, 1888.

WORK DONE, OTHER THAN DREDGING, BY ALLEGED OWNERS AND LESSEES OF PIERS
OTHERS, BY ORDER OR UNDER PERMIT OF THE BOARD OF DOCKS, AND UNDER
SUPERVISION OF THE ENGINEER-IN-CHIEF.

ON THE NORTH RIVER.

New-made Land South of Pier, new 1, N. R.

Secretary's Order No. 6656.—The surface of paved land south of Pier, new 1, was excavated to repair the service pipe of the Consolidated Gas Company to Pier "A," North river, and the pavement (3 square yards) was properly replaced and the joints were filled, with tar and gravel. the Consolidated Gas Company, under permit of the Board. Begun June 10 and finished, 17, 1887.

Pier, new 1, N. R.

Secretary's Order No. 6926.—Spring piles were replaced, and chocks on the north side of outer end of the pier were repaired by the New York, West Shore and Buffalo Railroad Company under permit of the Board. Begun September 1 and finished September 3, 1887.

Secretary's Order No. 7497.—Two fender piles were driven and fastened on the north side of pier by the New York, West Shore and Buffalo Railroad Company, under permit of the Board. Begun February 22 and finished February 23, 1888.

Secretary's Order No. 7600.—Driving spring piles on the south side of pier in place of destroyed or worn out, by the New York, West Shore and Buffalo Railroad Company, under permit of the Board. Begun April 26, 1888; in progress.

Secretary's Order No. 7617.—Repairing the tin roofing on the outer end of shed on the pier of the Iron Steamboat Company, lessees, by order of the Board. Begun April 19, 1888; in progress.

Pier, old 1, N. R.

Secretary's Order No. 6759.—A 10-inch cast-iron water-pipe was laid through the bulkhead of the Exchange Bathing Company, under permit of the Board. Work commenced August 22, 1887, and finished October 31, 1887.

Pier, old 1, N. R.

Secretary's Order No. 7675.—The deck sheathing was repaired by the Pennsylvania Railroad Company under permit of the Board. Begun April 22, 1888; in progress.

Pier 2, N. R.

Secretary's Order No. 6472.—The longitudinal sheathing on the north side was repaired with 5 inches by 10 inches yellow pine and two white oak fenders; piles were driven and fastened on the outer northerly corner by the Lehigh Valley Railroad Company, by order of the Board. The longitudinal sheathing on the south side of pier was repaired with 5 inches by 10 inches yellow pine by the Pennsylvania Railroad Company, by order of the Board. Work on the north half was begun June 1 and was finished June 6, 1887. Work on the south half was begun July 11 and finished July 13, 1887.

Secretary's Order No. 7673.—Driving 12 new oak piles at northerly corner of pier in place of old ones, tearing off old side sheathing plank 100 feet inshore from the outer end of the pier and replacing it with new sheathing, and also driving about 50 spring piles, by the Lehigh Valley Railroad Company, under permit of the Board. Begun April 25, 1888; in progress.

Pier 3, N. R.

Secretary's Order No. 6697.—20 fender piles and 9 bearing piles were driven and fastened with the existing lines by F. A. Alexandre & Sons, lessees, under permit of the Board. Begun June 1 and finished June 25, 1887.

Secretary's Order No. 7621.—Bearing and fender piles and fenders on the south side of pier were repaired by the Pennsylvania Railroad Company, under permit of the Board. Begun April 4 and finished April 11, 1888.

Pier 4, N. R.

Secretary's Order No. 7115.—The vertical sheathing at the outer end, and the horizontal sheathing on both sides of the pier were repaired by the Pennsylvania Railroad Company, by order of the Board. Begun November 28 and finished December 1, 1887.

Bulkhead between Piers 4 and 5, N. R.

Secretary's Order No. 7599.—5 spring piles were replaced by the West Shore Railroad Company, under permit of the Board. Begun and finished April 1, 1888.

Pier 5, N. R.

Secretary's Order No. 5788.—The side sheathing and the blocking and crib-work under the pier were repaired by the Pennsylvania Railroad Company, under permit of the Board. Begun June 1 and finished August 27, 1887.

Secretary's Order No. 6921.—The deck sheathing at the front of the gate was repaired by the Pennsylvania Railroad Company, under permit of the Board. Begun August 29 and finished September 8, 1887.

Secretary's Order No. 6922.—Fender piles were driven and fastened, and the sheathing across the end of the pier was repaired by the New York Central and Hudson River Railroad Company, and of West Shore Railroad Company, under permit of the Board. Begun August 28 and finished September 6, 1887.

Secretary's Order No. 7163.—A stump of a fender pile was pulled and a new fender pile was driven and fastened in place of it, by the Pennsylvania Railroad Company, by order of the Board. Begun and finished November 30, 1887.

Secretary's Order No. 7237.—4 fender piles were replaced on the northwesterly corner of the pier by the New York, West Shore and Buffalo Railroad Company, under permit of the Board. Begun December 12 and finished December 13, 1887.

Secretary's Order No. 7478.—A cluster of 6 oak fender piles and 4 spruce sheathing piles were driven at the outer northerly corner of the pier, and the horizontal sheathing on the sides of the pier was repaired by the New York, West Shore and Buffalo Railroad Company, under permit of the Board. Begun February 19 and finished February 24, 1888.

Secretary's Order No. 7682.—The side sheathing on the north side of the pier and the approach to the pier were repaired by the New York, West Shore and Buffalo Railroad Company, under permit of the Board. Begun April 22, 1888; in progress.

Pier 6, N. R.

Secretary's Order No. 6630.—Some fender and side bearing piles were driven by the New York and Baltimore Transportation Company, under permit of the Board. Begun June 7 and finished November 11, 1887.

Secretary's Order No. 7101.—7 spring piles were driven and fastened on the south side and at the end of the pier, by Frank R. Bunnell, under permit of the Board. Begun November 4 and finished November 11, 1887.

Secretary's Order No. 7116.—Repairs were made to the shed on the pier and a mooring post was placed at outer end of pier, by the New York and Baltimore Transportation Company, by order of the Board. Begun November 29 and finished December 2, 1887.

Pier 7, N. R.

Secretary's Order No. 6630.—About 8 fender piles were driven and fastened by the New York and Baltimore Transportation Company, under permit of the Board. Begun June 7 and finished November 11, 1887.

Secretary's Order No. 7213.—The pavement at the bulkhead in line of the north side of the pier was repaired by the New York and Baltimore Transportation Company, by order of the Board. Begun and finished April 10, 1888.

Secretary's Order No. 7214.—The pavement in line of the south side of the pier was repaired by the Department of Public Works at the request of the Board. Begun and finished August 1888.

Pier 8, N. R.

Secretary's Order No. 6310.—The pier and shed thereon, and the platform on the south side of the pier were repaired by the Central Railroad Company of New Jersey, by order of the Board. Begun May 16 and finished December 1, 1887.

Secretary's Order No. 7214.—The pavement in line of the south side of the pier was repaired by the Department of Public Works, at the request of the Board. Begun and finished August 1888.

Secretary's Order No. 7546.—22 new side bearing piles were driven and pulled under the pier and were secured with chocks, and also several loose piles were refastened by the Central Railroad Company of New Jersey, under permit of the Board. Begun March 19 and finished March 31, 1887.

Bulkhead at Rector Street, N. R.

Secretary's Order No. 6008.—The bulkhead was cut through to extend the sewer to the pier by the Department of Public Works, under permit of the Board. Begun December 6, 1887, and finished October 3, 1887.

Bulkhead between Piers 8 and 9, N. R.

Secretary's Order No. 6327.—A shed on the platform between Piers 8 and 9 was built by the Cromwell Steamship Company, under permit of the Board. Begun March 29 and finished September 23, 1887.

Pier 9, N. R.

Secretary's Order No. 6229.—The deck and deck sheathing were repaired and fender fences and backing logs were replaced by the Cromwell Steamship Company, under permit of the Board. Begun March 21 and finished November 19, 1887.

Secretary's Order No. 6482.—A shed on the pier was built by the Cromwell Steamship Company, under permit of the Board. Begun May 6 and finished September 23, 1887.

Pier 11, N. R.

Secretary's Order No. 6588.—90 bearing piles were driven in place of old and worn out ones by the Metropolitan Steamship Company, under permit of the Board. Begun May 21 and finished July 9, 1887.

Pier 12, N. R.

Secretary's Order No. 7212.—The pavement on the bulkhead adjoining the pier was repaired by the Central Railroad Company of New Jersey, by order of the Board. Begun and finished November 29, 1887.

Bulkhead between Piers 12 and 13, N. R.

Secretary's Order No. 7348.—The pavement was repaired by the Central Railroad Company of New Jersey, by order of the Board. Begun January 3 and finished January 5, 1888.

Pier 13, N. R.

Secretary's Order No. 7117.—The horizontal sheathing on the north and south sides of the pier was repaired by the Central Railroad Company of New Jersey, by order of the Board. Begun December 1 and finished December 3, 1887.

Pier 14, N. R.

Secretary's Order No. 6478.—15 white oak fender piles were driven and chocked; 15 bearing piles were driven and fastened; 20 old stumps of piles were pulled; chocks were placed between the fender piles; the side cap was spliced and the inner 175 feet of the longitudinal sheathing was replaced.

and the pier was renewed by the Philadelphia and Reading Railroad Company, occupant, by order of the Board. Begun May 31 and finished July 12, 1887.

Bulkhead between Piers 14 and 15, N. R.

Secretary's Order No. 6870.—A hole in the bulkhead near the northeast corner of the ferry shed was repaired by the Central Railroad Company of New Jersey, by order of the Board. Begun August 19 and finished August 22, 1887.

Pier 15, N. R.

Secretary's Order No. 7208.—The north ferry rack and the small pier north thereof were repaired by the Central Railroad Company of New Jersey, under permit of the Board. Begun November 12, 1887, and finished February 27, 1888.

Pier 16, N. R.

Secretary's Order No. 7369.—The vertical sheathing on the outer end of the pier was replaced by the Pennsylvania Railroad Company, under permit of the Board. Begun January 5 and finished January 10, 1888.

Secretary's Order No. 7462.—The horizontal sheathing was repaired and bearing and fender piles were driven on the south side of pier by the Pennsylvania Railroad Company, under permit of the Board. Begun February 6 and finished February 13, 1888.

Pier 18, N. R.

Secretary's Order No. 5006.—Bearing and fender piles were driven and fastened, broken and decayed cross and side caps, rangers and backing log were renewed, and the deck was repaired by John H. Starin, alleged owner, by order of the Board. Begun October 26, 1886, and finished June 1, 1887.

Secretary's Order No. 6207.—A new two story shed was put up at the outer end of the pier extending from the westerly end of the old shed westerly about 120 feet, and a gallery for foot-passengers to and from the end of pier, about 8 feet wide and 7 feet high, supported by additional posts and braces was placed on the roof of the old shed by John H. Starin, under permit of the Board. Begun April 16 and finished November 19, 1887.

Bulkhead between Piers 18 and 19, N. R.

Secretary's Order No. 6902.—The bulkhead was repaired by John H. Starin, under permit of the Board. Begun August 29 and finished September 7, 1887.

Secretary's Order No. 7270.—A dangerous hole in the pavement at the bulkhead was repaired by the Delaware, Lackawanna and Western Railroad Company, by order of the Board. Begun and finished December 20, 1887.

Approach to Pier, old 20, N. R.

Secretary's Order No. 6617.—A hole in the approach was repaired by the Baltimore and Ohio Railroad Company, by order of the Board. Begun and finished May 31, 1887.

Secretary's Order No. 6525.—3 yellow pine fender piles were driven and properly fastened on each side of the pile by the Baltimore and Ohio Railroad Company, under permit of the Board. Begun May 8 and finished July 20, 1887.

Secretary's Order No. 6638.—A gangway was cut and fender piles were driven by the Baltimore and Ohio Railroad Company, under permit of the Board. Begun June 6 and finished June 30, 1887.

Secretary's Order No. 6717.—The horizontal sheathing, chocking and blocking and cribwork on both sides of the pier and the shed on the pier were repaired by the Baltimore and Ohio Railroad Company, by order of the Board. Begun October 3, 1887, and finished January 26, 1888.

Bulkhead Platform between Piers, old 20 and 21, N. R.

Secretary's Order No. 6483.—The shed on the bulkhead was widened by about 10 feet 6 in. on the westerly side, and a raised platform was built along the westerly side of the bulkhead, to form about 133 feet long, 30 feet wide and 1 foot 8 inches high, and the small triangular pier on piles in the angle between the north side of Pier, old 20, and the face of the bulkhead platform was removed by the Baltimore and Ohio Railroad Company, under permit of the Board. Begun May 6, 1887, and almost completed on April 30, 1888.

Secretary's Order No. 6525.—18 white oak fender-piles were driven and fastened by the Baltimore and Ohio Railroad Company, under permit of the Board. Begun May 8 and finished July 1887.

Secretary's Order No. 6572.—The westerly portion of the bulkhead platform for about 30 ft. in width and about 133 feet in length was renewed within its existing line, by driving 21 bearing piles to replace old and broken piles, and new caps, ranges, deck and backing log was laid on by the Baltimore and Ohio Railroad Company, under permit of the Board. Begun May 20 and finished June 20, 1887.

Pier, old 21, N. R.

Secretary's Order No. 6622.—20 fender piles were driven and fastened and several old piles refastened by the Baltimore and Ohio Railroad Company, under permit of the Board. Begun May 6 and finished June 30, 1887.

Secretary's Order No. 6718.—The horizontal sheathing, blocking and chocking, and the work on both sides of, and the shed on the pier were repaired, and bearing and fender piles driven and fastened where required, by the Baltimore and Ohio Railroad Company and by J. Cebalos & Company, occupants of pier, by order of the Board. Begun December 1, 1887, finished January 17, 1888.

Pier, old 23, N. R.

Secretary's Order No. 6429.—Erection temporarily on south side of pier of a stationary crane and other coal-handling apparatus, formerly located on Pier 3, North river. Was erected temporarily on the south side of the pier by the New York Steam Company, under permit of the Board. Begun May 2 and finished May 19, 1887.

Secretary's Order No. 6584.—Holes in the deck of the south half of the pier were repaired by the New York Steam Company, lessee, by order of the Board. Begun June 1 and finished June 1887.

Secretary's Order No. 6643.—The deck sheathing on the north side of the pier was repaired by Buck & Steljes, occupants, under permit of the Board. Begun June 13 and finished June 14, 1887.

Secretary's Order No. 6644.—A scale, four feet square, was placed on the south side of pier by the New Brunswick, Amboy, and New York Steamboat Company, under permit of the Board. Begun and finished June 10, 1887.

Secretary's Order No. 6748.—A dangerous hole in deck at the entrance to the pier was repaired by Buck & Steljes, occupants, by order of the Board. Begun and finished July 12, 1887.

Secretary's Order No. 6967.—The roadway leading to the entrance to the pier was repaired by the Department of Public Works, at the request of the Board. Begun September 20 and finished September 30, 1887.

Secretary's Order No. 7269.—The deck sheathing on the north side of the pier, at the berth steamer "Minnie Cornell," was repaired by Buck & Steljes, occupants, by order of the Board. Begun January 3 and finished January 5, 1888.

Secretary's Order No. 7402.—The deck sheathing was repaired by the New York Steam Company and by Buck & Steljes, by order of the Board. Begun April 5 and finished April 7, 1888.

Secretary's Order No. 7660.—The deck sheathing and the backing log on the north side of pier were repaired by Buck & Steljes, occupants, under permit of the Board. Begun and finished April 21, 1888.

Pier, old 24, N. R.

Secretary's Order No. 6911.—This pier was repaired and strengthened on the northerly side, made to conform with the southerly line of the new Hoboken Ferry platform. The old piles number of the outer 40 feet of the pier were torn up and replaced with new piles and new work. The work was done by the Hoboken Land and Improvement Company and by Buck & Sons, under permit of the Board. Begun November 5, 1887, and finished January 28, 1888.

Barclay Street, N. R.

Secretary's Order No. 6563.—The ferry structure and appurtenances at the foot of said street were materially changed, modified and repaired by the Hoboken Land and Improvement Company, under permit of the Board. Begun June 13, 1887, and finished November 20, 1887.

Secretary's Order No. 6874.—A one-story shed about 26 feet wide by 125 feet long, used as a temporary waiting-room for ferry purposes, also another small shed 10 feet wide by 30 feet long and as a baggage room while the permanent iron shed is being built, were put up by the Hoboken Land and Improvement Company, under permit of the Board. Begun August 17 and finished December 5, 1887.

Secretary's Order No. 7029.—35 oak piles for additional detached centre pier at the ferry at Barclay street were driven in a cluster by the Hoboken Land and Improvement Company, under permit of the Board. Begun October 24 and finished October 28, 1887.

Secretary's Order No. 7186.—A temporary shed was put upon the north side of the ferry at Barclay street, by the Hoboken Land and Improvement Company, under permit of the Board. Begun December 12, 1887, and finished January 14, 1888.

Resolution of the Board, February 17, 1888.—A cluster of piles in front of centre pier at the ferry was removed and the centre pier was strengthened with additional piles by the Hoboken Land and Improvement Company, under resolution of the Board dated February 17, 1888. Begun February 27 and finished March 3, 1888.

Pier, old 25, N. R.

Secretary's Order No. 7021.—Removal of the side cap for the entire length of pier on the northerly side of the pier was renewed and new fender and bearing piles driven alongside and under it. The interior bearing piles were blocked up and the cross caps were spliced, where required, by the New York, Central and Hudson River Railroad Company, by order of the Board. Begun October 5 and finished November 28, 1887.

Bulkhead between Piers, old 25 and old 26, N. R.

Secretary's Order No. 6987.—The pavement in front of the bulkhead and at the entrance to Pier, old 26, North river, was repaired by the Department of Public Works, at the request of the Board. Begun September 19 and finished September 21, 1887.

Bulkhead between Piers, old 26 and old 27, N. R.

Secretary's Order No. 6789.—The surface of the bulkhead was repaired by the alleged owners by order of the Board. Begun and finished July 20, 1887.

Bulkhead between Piers, old 27 and old 28, N. R.

Secretary's Order No. 6969.—Pavement in front of the bulkhead was repaired by the Department of Public Works, at the request of the Board. Begun September 19 and finished September 1, 1887.

Secretary's Order No. 7391.—The bulkhead, bulkhead platform and shed thereon, were repaired in accordance with the plans and specifications, and submitted and approved by the New York Central and Hudson River Railroad Company, under resolution of the Board. Begun December 1, 1887, and finished April 12, 1888.

Pier, old 28, N. R.

Secretary's Order No. 6662.—The spring piles at the outer end of the pier were repaired by Old Colony Steamboat Company, under permit of the Board. Begun June 17 and finished June 18, 1887.

Bulkhead between Piers, old 28 and old 29, N. R.

Begun November 4 and finished December 6, 1887.

Pier at West Thirty-sixth Street, N. R.

Secretary's Order No. 6468.—Chocks between the fenders were refastened, and the longitudinal sheathing on north and south sides of pier was repaired with 5-inch by 10-inch yellow pine, by New York Central and Hudson River Railroad Company, by order of the Board. Begun and finished May 25, 1887.

Secretary's Order No. 7085.—2 railroad tracks were laid across Twelfth avenue, one from the centre of each block above and below West Thirty-sixth street, converging into one tract at 200 feet out on the Pier at foot of West Thirty-sixth street, and thence extending as one track to outer end of the pier, and the transfer bridges and the tracks leading to them on each side of Thirty-sixth street. Pier was raised by the New York, West Shore and Buffalo Railroad Company, under permit of the Board. Begun October 26, 1887, and finished January 7, 1888.

Pier at West Thirty-seventh Street, N. R.

Secretary's Order No. 7552.—A temporary telegraph office and board fence were put out 250 feet of pier by Thomas F. White, under permit of the Board. Begun March 24, and in progress.

Pier at West Thirty-eighth Street, N. R.

Secretary's Order No. 6953.—A sunken canal boat in slip on southerly side pier was raised and removed to Hoboken, New Jersey, by E. M. Parker, owner, by order of the Board. Begun and finished October 8, 1887.

Secretary's Order No. 7642.—A sunken barge alleged to have been struck by floating timber belonging to the Department of Docks, in the slip on the southerly side of the pier, was raised and removed by P. White's Sons, under Treasurer's Order No. 12883. Begun April 16 and finished April 19, 1888.

Slip between Piers at West Thirty-ninth and West Fortieth Streets, N. R.

Secretary's Order No. 7206.—A sunken scow was removed from the premises by John Hays, by order of the Board. Begun and finished December 20, 1887.

Bulkhead Platform between West Thirty-ninth and West Fortieth Streets, N. R.

Secretary's Order No. 7363.—Some dangerous holes in the surface were repaired by the all owners, by order of the Board. Begun and finished January 7, 1888.

Bulkhead Platform south of West Fortieth Street, N. R.

Secretary's Order No. 6180.—The bulkhead platform south of Pier at West Fortieth Street, North river, was repaired by John R. McPherson, under permit of the Board; new front bulkhead

were driven and a new front cap was put on ; new cross caps and a new deck were put in. Begun February 15 and finished May 25, 1887.

Pier at West Fortieth Street, N. R.

Secretary's Order No. 6463.—A gangway was cut in the outer end of pier by the Western Stock Company, lessees, under permit of the Board. Begun May 2 and finished May 17, 1887.

Secretary's Order No. 6475.—A temporary platform was erected on the north side of the pier for loading and discharging ice by W. M. Montgomery, under permit of the Board. Begun May 4 and finished May 7, 1887.

Secretary's Order No. 7122.—A loose fender pile on the outer end of the pier was refastened by R. McPherson by order of the Board. Begun and finished October 29, 1887.

Pier between West Forty-first and West Forty-second Streets, N. R.

Secretary's Order No. 6689.—The trestle work on the end of the pier, used for discharging coal, was repaired by the Consolidated Gas Company, under permit of the Board. Begun June 10 and finished August 27, 1887.

Pier at West Forty-third Street, N. R.

Secretary's Order No. 7203.—A mooring pile was replaced by the Knickerbocker Ice Company, under permit of the Board. Begun November 26 and finished December 1, 1887.

Pier at West Forty-fourth Street, N. R.

Secretary's Order No. 6518.—The deck sheathing was repaired and a new armature plate was put in the outer southerly corner in place of one lost, and the armature plates on the northerly end of the pier were refastened by the New York Horse Manure Company, lessees, by order of the Board. Begun July 1, 1887, and finished March 24, 1888.

Secretary's Order No. 7285.—The outer lower corner and end of the pier were rebuilt to repair damage done by the ferryboat "Oswego," on December 27, 1887, by the New York, Westchester and Buffalo Railroad Company for the New York Horse Manure Company, lessee, who was ordered by the Board to make the repairs. Begun December 14, 1887, and finished March 24, 1888.

Dumping-board at West Forty-seventh Street, N. R.

Secretary's Order No. 7457.—The approach to the dumping-board was extended about 10 feet by John Everson, occupant, under permit of the Board. Begun February 6 and finished February 1888.

Pier at West Fifty-fifth Street, N. R.

Secretary's Order No. 7453.—A sunken canal boat was raised and removed to Weehawken, New Jersey, by the Baxter Wrecking Company, for the Delaware and Hudson Canal Company, lessees of said boat, who were ordered to remove it by the Board. Begun February 2 and finished February 6, 1888.

Pier at West Fifty-eighth Street, N. R.

Secretary's Order No. 7076.—The backing-log at the outer end of the pier was repaired by the Union Stock Yard and Market Company, lessee, by order of the Board. Begun December 20 and finished December 24, 1887.

Pier at West Fifty-ninth Street, N. R.

Secretary's Order No. 6335.—The horizontal sheathing on the sides of the pier was repaired, new fender piles were driven and fastened, and 5 old fender piles were refastened by the New York Central and Hudson River Railroad Company, by order of the Board. Begun May 21 and finished May 23, 1887.

Pier at West Sixty-third Street, N. R. (Pier "C.")

Secretary's Order No. 6822.—The pier near the foot of West Sixty-third street was repaired by the New York Central and Hudson River Railroad Company, under permit of the Board. Begun July 27 and finished August 20, 1887.

Bulkhead between the Piers at the foot of West Sixty-third and West Sixty-fourth streets, N. R.

Secretary's Order No. 6822.—The crib-bulkhead was rebuilt from low-water up, by the New York Central and Hudson River Railroad Company, under permit of the Board. Begun July 27 and finished August 20, 1887.

Pier between West Sixty-seventh street and West Sixty-eighth street, N. R. (Pier "G.")

Secretary's Order No. 6424.—This pier with the shed on it was burned down to the surface on April 16, 1887, and the pier was rebuilt, from about low-water up, by the New York Central and Hudson River Railroad Company, under permit of the Board. Begun April 16 and finished August 22, 1887.

Secretary's Order No. 6963.—A shed was erected upon the pier by the New York Central and Hudson River Railroad Company, under permit of the Board. Begun October 18, 1886, and finished March 1, 1888.

Pier near the foot of West Seventieth street, N. R.

Secretary's Order No. 6424.—This pier, used for receiving coal, was about half destroyed by fire on April 16, 1887, and it was repaired by blocking up the burned piles, by putting on new stringers, deck and deck-sheathing where required, and by patching burned places in the deck-sheathing by the New York Central and Hudson River Railroad Company, under permit of the Board. Begun May 15 and finished August 22, 1887.

Transfer Bridge south of the foot of West Sixty-ninth Street, N. R.

Secretary's Order No. 6496.—A platform on piles with one transfer bridge, floats and racks, extending about 205 feet out on the centre line of the structures, from and at an angle to the face of the bulkhead and about 72 feet wide over all, were built by the New York Central and Hudson River Railroad Company, under permit of the Board. Begun June 28 and finished about August 25, 1887.

Secretary's Order No. 7160.—An extension of the northerly fender rack of the freight transfer bridge was built by the New York Central and Hudson River Railroad Company, under permit of the Board. Begun December 24, 1887, and finished February 2, 1888.

Bulkhead from West Seventy-seventh to Seventy-ninth Street, N. R.

Secretary's Order No. 6827.—Ashes and street dirt were dumped in the rear of the bulkhead by the Department of Street Cleaning, under permit of the Board. Begun August 1, 1887. This work has been superseded by Secretary's Order No. 7357.

Bulkhead from West Seventy-seventh to West Seventy-eighth Street, N. R.

Secretary's Order No. 7357.—Ashes and street dirt were dumped in rear of crib-bulkhead between West Seventy-seventh to West Seventy-eighth street, North river, by the Department of Street Cleaning, under permit of the Board. Begun January 11 and finished March 19, 1888.

Bulkhead between West Seventy-eighth and West Seventy-ninth Streets, N. R.

Secretary's Order No. 6764.—Surplus material left therefrom was removed and deposited behind the new bulkhead between West Seventy-seventh and West Seventy-eighth streets, North river, by J. A. Bouker's Nephew & Company, under permit of the Board. Begun July 14 and finished July 30, 1887.

Pier at West Seventy-ninth Street, N. R.

Secretary's Order No. 6443.—An oil pipe was placed under the pier and to and through the bulkhead at the southerly side of the pier to connect the main oil pipe under the North river, the main oil pipe along the line of the New York Central and Hudson River Railroad, and dredging was done therefor at the outer end of the pier by the National Transit Company, under permit of the Board. Begun May 14 and finished June 11, 1887.

Secretary's Order No. 6764.—Surplus material left on the surface by stone teams was removed deposited in rear of the crib-bulkhead between West Seventy-seventh and West Seventy-eighth North river, by J. A. Bouker's Nephew & Company, under permit of the Board. Begun July 14 and finished July 30, 1887.

Secretary's Order No. 6847.—A half-round fender loosened by the Union Dredging Company dredging at the pier on August 2, 1887, was replaced by said company, by order of the Board. Begun September 17 and finished September 19, 1887.

Secretary's Order No. 7443.—Signs were placed on the outer lower corner of the pier, one called "Pipe Line, Do not Anchor," and the other "Pipe Line 2 ft. 3 inches outside of pier for 100 feet from Corner," as a protection to the oil pipe, by the National Transit Company, under permit of the Board. Begun April 5 and finished April 7, 1888.

Secretary's Order No. 7473.—A dumping board was built on the south side of the pier by the Department of Street Cleaning, under permit of the Board. Begun March 6 and finished March 16, 1888.

New-made Land along the southerly side of West Eightieth Street, N. R.

Secretary's Order No. 7661.—A fence 100 feet long and 50 feet wide was put up thereon, for protection of coal, by Thomas Ward, under permit of the Board. Begun April 11 and finished April 14, 1888.

Bulkhead Platform south of West Ninety-sixth Street, N. R.

Secretary's Order No. 6519.—2 bearing piles were driven and 6 half-round oak fenders were put up by Peck & Martin, occupants, by order of the Board. Begun May 23 and finished May 24, 1887.

Bulkhead foot of West Ninety-sixth Street, N. R.

Secretary's Order No. 6925.—A drain pipe was placed through bulkhead by Canda & Kane, under permit of the Board. Begun August 30 and finished August 31, 1887.

Secretary's Order No. 7417.—Two sunken canal boats were raised and removed to McCarthy's Dock, Jersey City, New Jersey, by the Baxter Wrecking Co., for the owners of boats, by order of the Board. Begun February 1 and finished February 25, 1888.

Bulkhead north of West Ninety-sixth Street, N. R.

Secretary's Order No. 6204.—An office, shed and one steam derrick were built thereon by John M. & Company, under permit of the Board. Begun March 21 and finished May 16, 1887.

Bulkhead from West Ninety-sixth to West Ninety-seventh Street, N. R.

Secretary's Order No. 6807.—The bulkhead was raised about 2 feet and a new backing log was put on, and the fender piles were rechecked by the owners and lessees, by order of the Board. Begun August 16 and finished November 23, 1887.

Bulkhead between West One Hundred and Twenty-ninth and One Hundred and Thirtieth Streets, N. R.

Secretary's Order No. 6731.—Three hoisting masts were put up in place of old ones for hoisting coal on bulkhead, by Theodore F. Tone, under permit of Board. Begun July 11 and finished August 11, 1887.

Secretary's Order No. 7355.—A sunken canal boat, the "Tillie D," was raised and removed to Jersey Flats, New Jersey, by the Baxter Wrecking Company, for owner of boat, "Thomas Green," by order of Board. Begun December 24 and finished December 31, 1887.

Ferry north of West One Hundred and Thirtieth Street, N. R.

Secretary's Order No. 6598.—Necessary repairs were made to the ferry racks by the Fox Ferry Company, under permit of the Board. Begun May 24 and finished June 27, 1887.

Premises north of West One Hundred and Thirty-second Street, N. R.

Secretary's Order No. 6800.—A small wing shed was removed from the structure north of One Hundred and Thirty-second street, N. R., by A. M. Tiemann, by order of the Board. and finished August 5, 1887.

West One Hundred and Thirty-third to One Hundred and Thirty-fourth Street.

Secretary's Order No. 7098.—Building crib-bulkhead on piles between the centre line of One Hundred and Thirty-third street and the centre line of West One Hundred and Thirty-third street, N. R., by Theodore F. Tone, under permit of the Board. Begun April 10, 1888 ; in progress.

Secretary's Order No. 7713.—Driving piles for a foundation in rear of crib-bulkhead from One Hundred and Thirty-third street to West One Hundred and Thirty-fourth street, N. R. Theodore F. Tone, under permit of the Board. Begun April 10, 1888 ; in progress.

Foot of West One Hundred and Thirty-fifth Street, N. R.

Secretary's Order No. 7730.—2 spruce piles were driven thereat by the Hudson Boat Club, under permit of the Board. Begun and finished April 27, 1888.

Pier at West One Hundred and Thirty-eighth Street, N. R.

Secretary's Order No. 7242.—A sunken scow was raised and removed to McCarthy's Dock, Jersey City, New Jersey, by the Baxter Wrecking Co., for P. Ciancimino, owner of scow, by order of the Board. Begun December 9 and finished December 13, 1887.

ON THE EAST RIVER.

Ferry west of Pier 1, E. R.

Secretary's Order No. 6413.—50 piles were driven in place of old and worn out piles, by Staten Island Rapid Transit Company, under permit of the Board. Begun April 30 and finished May 13, 1887.

Pier 3, E. R.

Secretary's Order No. 7386.—Fender piles along the outer end of the pier, to protect the structure, by James Cruikshank, agent, under permit of the Board. Begun January 14 and finished January 26, 1888.

Bulkhead between Piers 3 and 4, E. R.

Secretary's Order No. 6750.—The backing log and one course of timber under the same renewed, several new half round oak fenders were put on and others were refastened by the all owners, by order of the Board. Begun July 25 and finished July 30, 1887.

Pier 4, E. R.

Secretary's Order No. 6734.—4 new fender piles were driven and fastened and several fender piles were refastened on the outer corners of the pier, by Charles A. Pool & Company, under permit of the Board. Begun July 19 and finished July 20, 1887.

Secretary's Order No. 7190.—The deck and deck sheathing of the west half were repaired, fenders and fender piles were placed on both sides of the pier, by James Cruikshank for all owners, in conjunction with the lessees of the east half, by order of the Board. Begun January and finished February 15, 1888.

Secretary's Order No. 7191.—Close piles were driven along the outer side of the east half of pier and the interior rangers were renewed by the New York Central and Hudson River Railroad Company, lessees, and by the alleged owners of the west half, by order of the Board. Begun

1888. This order was superseded by, and the work was continued under, Secretary's Order No. 7361.

Secretary's Order No. 7361.—The deck and deck sheathing were repaired by the New York Central and Hudson River Railroad Company, lessees of the east half and by the alleged owners of the west half, under permit of the Board. Begun January 14 and finished April 10, 1888.

Pier 5, E. R.

Secretary's Order No. 7361.—The rangers near the outer end were renewed and the deck and sheathing were repaired by the New York Central and Hudson River Railroad Company, lessees, under permit of the Board. Begun January 14 and finished April 10, 1888.

Pier 6, E. R.

Secretary's Order No. 6932.—The deck sheathing and the pavement at the entrance to the pier were repaired by the New York Central and Hudson River Railroad Company, lessees, by order of the Board. Begun September 9 and finished September 12, 1887.

Secretary's Order No. 7361.—New rangers where required, and about 5 new cross caps were put on the 4-inch yellow pine deck was laid, new mooring posts were set and the fenders were repaired by the New York Central and Hudson River Railroad Company, lessees, under permit of the Board. Begun January 14 and finished April 10, 1888.

Secretary's Order No. 7477.—The bulkhead was rebuilt from low-water mark up for a length of 32 feet across the inner end of the pier; 12 new cross caps were put in the pier, and tops of bearing piles were sawed off and blocked up by the New York Central and Hudson River Railroad Company, by order of the Board. Begun February 15 and finished April 10, 1888.

Pier 7, E. R.

Secretary's Order No. 7563.—The damage done to outer corner of the pier by the tug "Transfer" was repaired by the New York, New Haven and Hartford Railroad Company, owners of the tug, by order of the Board. Begun March 21 and finished March 28, 1888.

Pier 8, E. R.

Secretary's Order No. 7000.—The deck sheathing was patched, the backing-log and several fenders were repaired, 6 new bearing and about 8 fender piles were driven and fastened by the New York, Lake Erie and Western Railway Company, under permit of the Board. Begun in October 5 and finished October 13, 1887.

Pier 9, E. R.

Secretary's Order No. 7282.—The deck sheathing at the outer end of the pier was repaired by the alleged owners, by order of the Board. Begun December 22 and finished December 24, 1887.

Pier 10, E. R.

Secretary's Order No. 6722.—The deck sheathing repaired by T. E. Nesmith, Jr., under permit of the Board. Begun June 28 and finished July 2, 1887.

Secretary's Order No. 6895.—8 fender piles, 3 on each corner and 2 on the outer face of the pier were driven by Henry E. Nesmith, under permit of the Board. Begun August 22 and finished September 7, 1887.

Secretary's Order No. 6809.—The vertical sheathing on the sides of the pier and the deck sheathing and backing logs were repaired, and a mooring post was set and chocked by the alleged owners, by order of the Board. Begun August 22 and finished October 8, 1887.

Bulkhead between Piers 10 and 11, E. R.

Secretary's Order No. 6929.—The bulkhead was rebuilt for the 6 top courses of square timber by the alleged owners, by order of the Board. Begun September 9 and finished September 24, 1887.

Pier 11, E. R.

Secretary's Order No. 6634.—The deck sheathing was repaired with 3-inch spruce, Whipple, agent, by order of the Board. Begun June 11 and finished June 21, 1887.

Secretary's Order No. 6930.—The backing log on the inner end of the pier was repaired by the alleged owners, by order of the Board. Begun and finished September 20, 1887.

Pier 12, E. R.

Secretary's Order No. 6655.—Sheathing on the deck of the east half of the pier was repaired by the alleged owners, by order of the Board. Begun June 29 and finished October 1, 1887.

Secretary's Order No. 7045.—Loose piles on the upper outer corner of the east half of the pier were refastened by the alleged owners, by order of the Board. Begun and finished October 1, 1887.

Bulkhead between Piers 12 and 13, E. R.

Secretary's Order No. 7293.—The bulkhead was opened and drainpipe from No. 41 Street was repaired by J. H. Morrell, under permit of the Board. Begun December 9 and finished December 14, 1887.

Bulkhead between Piers 13 and 14, E. R.

Secretary's Order No. 6505.—The sewer pipe running through the bulkhead from No. 41 Street was repaired by G. Thwaite & Company, under permit of the Board. Begun May 14 and finished May 14, 1887.

Secretary's Order No. 6639.—A 6 inch drain pipe through bulkhead, from Nos. 51 and 53 Street, was run through the bulkhead by Smith & Dowling, under permit of the Board. Begun June 3 and finished June 7, 1887.

Bulkhead at Pier 15, E. R.

Secretary's Order No. 7393.—A dangerous hole in the easterly side of the bulkhead was filled with stone and earth by W. P. Clyde & Company, occupants, by order of the Board and finished February 27, 1888.

Pier 15, E. R.

Secretary's Order No. 6654.—The deck sheathing was repaired with 2-inch spruce by the Ferry Company, lessee of east half, and by the alleged owners of the west half, by order of the Board. Begun June 9 and finished June 14, 1887.

Secretary's Order No. 7069.—A shed is being erected upon the pier by the Clyde & Company. Begun November 12, 1887; in progress.

Secretary's Order No. 7039.—Loose fender piles on the outer corner of the pier were repaired by the alleged owners, by order of the Board. Begun and finished October 11, 1887.

Pier 16, E. R.

Secretary's Order No. 7659.—The deck sheathing was repaired and 3 fender piles were replaced by James E. Ward & Company, under permit of the Board. Begun April 14 and finished April 17, 1888.

Bulkhead between Piers 16 and 17, E. R.

Secretary's Order No. 6831.—3-inch plank was laid on the surface of the bulkhead backing log to the curb, for a distance of about 60 feet in length and 10 feet in width, by Ward & Company, under resolution of the Board of July 28, 1887. Begun September 3 and finished September 3, 1887.

Pier 17, E. R.

Secretary's Order No. 6879.—6 fenders were put on and fastened and 8 fender piles were replaced by S. A. Frost, under permit of the Board. Begun August 22 and finished August 25, 1887.

Secretary's Order No. 7429.—4 bearing and 11 fender piles were driven under and along the side of the pier, and other necessary repairs to keep the pier safe were made by S. A. Frost, under permit of the Board. Begun January 26 and finished February 1, 1888.

Bulkhead between Piers 17 and 18, E. R.

Secretary's Order No. 7031.—The pavement on its surface was repaired by S. A. Frost, agent of the alleged owners, by order of the Board. Begun and finished October 5, 1887.

Pier 19, E. R.

Secretary's Order No. 6665.—The deck sheathing was repaired by the alleged owners, by order of the Board. Begun July 11 and finished July 21, 1887.

Secretary's Order No. 7305.—Seven fender piles were replaced and fastened on the easterly side, and the surface of the pier was repaired, by S. A. Frost, under permit of the Board. Begun November 15 and finished December 16, 1887.

Pier 21, E. R.

Secretary's Order No. 6850.—The extension and completion of the shed over the pier, in accordance with resolution of the Board August 4, 1887, is to be done by C. H. Mallory & Company. Begun August 10, 1887; work suspended by the company.

Secretary's Order No. 5922.—A tin roof is to be placed on the shed, and sides of the shed are to be lined with corrugated iron, by C. H. Mallory & Company, under permit of the Board. Begun October 27, 1886; work suspended by the company.

Pier 22, E. R.

Secretary's Order No. 6430.—The deck of the pier was resheathed by the Union Ferry Company for the Fulton Market Fishmongers' Association, by order of the Board. Begun May 10 and finished May 18, 1887.

Bulkhead at Pier 23, E. R.

Secretary's Order No. 7017.—A dangerous hole in the bulkhead was repaired by the Department of Public Works. Begun and finished September 29, 1887.

Pier 23, E. R.

Secretary's Order No. 6585.—The deck sheathing was repaired by the Fulton Market Fishmongers' Association, under permit of the Board. Begun May 24 and finished June 4, 1887.

Pier 24, E. R.

Secretary's Order No. 6642.—The deck sheathing was repaired by the Hartford and New York Transportation Company and E. G. Smith, lessee, under permit of the Board. Begun June 7 and finished June 15, 1887.

Secretary's Order No. 7645.—Repairing deck of sheathing by the Hartford and New York Transportation Company, under permit of the Board. Begun April 14, 1888; in progress.

Pier 27, E. R.

Secretary's Order No. 6589.—A gangway was cut in the backing log for the steamer "Sylvan Sea" by E. W. Barton, under permit of the Board. Begun and finished May 27, 1887.

Secretary's Order No. 6863.—The side sheathing was renewed and additional fenders were placed on the south side of the pier, by the Baltimore and Ohio Railroad Company, under permit of the Board. Begun August 26 and finished October 12, 1887.

Pier 28, E. R.

Secretary's Order No. 6298.—18 half-round fenders were placed, and six bearing piles were added and refastened on the north side of the pier, by William P. Clyde & Company, under permit of the Board. Begun May 18 and finished May 28, 1887.

Secretary's Order No. 6696.—The deck sheathing was repaired by S. A. Frost, under permit of the Board. Begun June 22 and finished June 30, 1887.

Secretary's Order No. 7306.—The deck and deck sheathing were repaired by S. A. Frost, under permit of the Board. Begun and finished December 16, 1887.

Bulkhead at Pier 29, E. R.

Secretary's Order No. 6007.—The bulkhead was cut through by the Department of Works in order to extend the sewer to the outer end of the pier, under permit of the Board. Begun December 6, 1886, and finished September 20, 1887.

Pier 29, E. R.

Secretary's Order No. 6705.—6 fender piles were driven at the outer end of the pier by W. P. Clyde & Company, under permit of the Board. Begun June 22 and finished June 23, 1887.

Bulkhead between and Approaches to Piers 33½ and 34, E. R.

Secretary's Order No. 6499.—The pavement thereat was repaired by William P. Clyde, under permit of the Board. Begun May 9 and finished May 14, 1887.

Pier 34, E. R.

Secretary's Order No. 7083.—5 bearing piles and 4 fender piles were driven and fastened. A side cap was spliced and the deck sheathing was patched by William P. Clyde & Co., under permit of the Board. Begun October 21 and finished October 27, 1887.

Secretary's Order No. 7666.—Repairing deck sheathing on pier, driving 12 bearing piles, renewing 6 caps and 1 stringer, by W. P. Clyde & Co., under permit of the Board. Begun April 16, 1888; in progress.

Pier 36, E. R.

Secretary's Order No. 7097.—A shed was built on the pier, in accordance with resolution of the Board of October 21, 1887, by the Central Vermont Railroad Company. Begun October 21 and finished November 15, 1887.

Secretary's Order No. 7572.—7 fender piles were driven on the east side of pier, in place of broken piles, by Lawrence Son & Gerrish, under permit of the Board. Begun March 1 and finished April 20, 1888.

Bulkhead Platform West of Pier 38, E. R.

Secretary's Order No. 7159.—A platform about 38 feet along the bulkhead and 44 feet wide was built on the westerly side of the pier by the Maine Steamship Company, lessees, under permit of the Board. Begun November 4, 1887, and finished April 13, 1888.

Secretary's Order No. 7458.—A fence was built on the platform in accordance with a resolution of the Board of February 2, 1888, by the Maine Steamship Company. Begun April 9 and finished April 11, 1888.

Pier 38, E. R.

Secretary's Order No. 6743.—2 spring piles were driven on the east side of the pier, in place of existing lines, by the Maine Steamship Company, under permit of the Board. Begun and finished July 21, 1887.

Secretary's Order No. 6824.—2 gangways were cut on the easterly side of the pier by the Maine Steamship Company, under permit of the Board. Begun August 8 and finished August 18, 1887.

Secretary's Order No. 6761.—4 fender piles were driven on each side of the outer end of the pier by the Maine Steamship Company, under permit of the Board. Begun and finished August 18, 1887.

Pier 39, E. R.

Secretary's Order No. 6939.—Timbers, caps and flooring at the outer end of the pier were repaired by the Old Colony Steamboat Company, under permit of the Board. Begun September 9 and finished September 9, 1887.

Pier 40, E. R.

Secretary's Order No. 7171.—The pier and shed thereon were thoroughly repaired. Piles were driven alongside the cribwork at the inner end of the pier and capped; cross caps were run in on the work from these side caps, and bearing piles were driven under them, over the pile work portion of the pier; the shed was taken down and bearing piles were driven through the interior where required and the interior caps and rangers were repaired; the sides of the pier were repaired by driving new bearing piles and putting on new side caps, rangers and backing logs where required; the outer end of the pier was put in good order, the deck and deck sheathing were repaired, fender piles were driven along the sides and at the outer corners of the pier, horizontal side sheathing was put on each side of the pier, and the shed was put up again in good order and condition; the work was done by Frank Phelps, lessee, by order of the Board. Begun November 2, 1887, and finished March 31, 1888.

Pier, new 32 (formerly, old 41), E. R.

Secretary's Order No. 6735.—A water-pipe was removed from under Pier 40, E. R., and was installed under Pier, new 32, E. R., by G. V. Hecker & Co., under permit of the Board, and as by resolution of the Board of June 30, 1887. Begun July 18 and finished July 30, 1887.

Secretary's Order No. 6997.—2 gangways were cut for the accommodation of steamboats "Mary E. Gordon" and "Maid of Kent," by Captains Gedney and Holmes, to whom permit was granted. Angle iron was used to protect the deck of pier, also 5-inch plank secured by chain for closing gangways when not in actual use. Begun September 29 and finished October 17, 1887.

Secretary's Order No. 7001.—2 gangways were cut for the propellers "Glenville" and "Portchester," by E. F. Studwell, under permit of the Board. Angle iron used to protect pier and 5-inch plank secured by chain for closing gangways when not in actual use. Begun September 29 and finished October 17, 1887.

Secretary's Order No. 7210.—The backing log was cut on the upper side of the pier for a gangway for propellers "Glenville" and "Portchester," by the Portchester Transportation Company, under permit of the Board. Begun November 28 and finished December 13, 1887.

Secretary's Order No. 7219.—The backing log was cut for gangways for the Stamford and New Rochelle boats, by the North and East River Steamboat Company, under permit of the Board. Begun November 28 and finished December 13, 1887.

Secretary's Order No. 7224.—The backing log was cut for a gangway for the steamboat "Mary E. Gordon," by William H. Gedney, under permit of the Board. Begun November 28 and finished December 13, 1887.

Secretary's Order No. 7336.—Pipes were placed under the pier to convey water to the propeller "Capt. John," by J. D. Devine, under permit of the Board. Begun December 20, 1887, and finished April 11, 1888.

Secretary's Order No. 7337.—A water-pipe was laid on the pier to supply water to the Stamford boat, by the North and East River Steamboat Company, under permit of the Board. Begun December 20, 1887, and finished April 11, 1888.

Secretary's Order No. 7587.—A gangway was cut on the westerly side of pier, between the twenty-ninth and thirtieth pile rows from the bulkhead, in accordance with approved plan, by the North and East River Steamboat Company, under permit of the Board. Begun April 5 and finished April 14, 1888.

Secretary's Order No. 7609.—A gangway was cut on the upper side of the pier, in accordance with approved plan, by the Portchester Transportation Company, under permit of the Board. Begun April 5 and finished April 14, 1888.

Secretary's Order No. 7619.—A gangway was cut on the upper side of the pier for the use of the steamers "Mary E. Gordon" and "Maid of Kent," by William H. Gedney, in accordance with approved plan, under permit of the Board. Begun April 12 and finished April 14, 1888.

Pier 44, E. R.

Secretary's Order No. 6593.—A water pipe was laid under the pier by the North River Steamboat Company, under permit of the Board. Begun May 26 and finished June 1, 1887.

Secretary's Order No. 6261.—A tally-house was placed on the pier by the Inland and Coasting Company, under permit of the Board. Begun March 14 and finished March 15, 1887.

Pier 45, E. R.

Secretary's Order No. 6561.—Sixteen fender-piles were driven and fastened, and four were put on and fastened by Warren Rosevelt, under permit of the Board. Begun October 1, finished October 24, 1887.

Pier 47, E. R.

Secretary's Order No. 7351.—The deck of the pier was resheathed by C. M. Bell, under permit of the Board. Begun December 26, 1887, and finished January 15, 1888.

Bulkhead between Piers 47 and 48, E. R.

Secretary's Order No. 6396.—The bulkhead was rebuilt from low-water mark up by owners, by order of the Board. Begun September 19 and finished November 16, 1887.

Secretary's Order No. 7527.—A large hole in the bulkhead was filled in with earthen pavement was relaid by the alleged owners, by order of the Board. Begun March 8 and April 9, 1888.

Bulkhead east of Pier 49, E. R.

Secretary's Order No. 6395.—The bulkhead was rebuilt from low-water mark up by owners, by order of the Board. Begun May 17 and finished August 29, 1887.

Pier 49, E. R.

Secretary's Order No. 7209.—The office was lengthened, a platform for freight was built north side under the shed and two gangways were cut by the North and East River Company, under permit of the Board, the consent of the alleged owners of the pier having first obtained thereto, in accordance with the provisions of the permit. Begun November 1, finished December 2, 1887.

Secretary's Order No. 7215.—6 fender piles were driven on the east side of the pier by the New York Floating Dry Dock Company, under permit of Board. Begun November 28 and November 30, 1887.

Secretary's Order No. 7382.—A weighing scale was erected on the pier by W. H. Smith and J. A. Bostwick, under permit of the Board. Begun January 9 and finished January 12, 1888.

Pier 50, E. R.

Secretary's Order No. 6549.—18 spruce bearing and fender piles were driven where deck sheathing was put on by the New York, New Haven and Hartford Railroad Company, under permit of the Board. Begun May 18 and finished May 24, 1887.

Secretary's Order No. 6974.—Fender piles were driven on the end of the pier to replace old piles by the New York, New Haven and Hartford Railroad Company, under permit of the Board. Begun September 15 and finished November 5, 1887.

Bulkhead between Piers 50 and 51, E. R.

Secretary's Order No. 6812.—The fenders and planking were repaired, fender piles at the bulkhead and at the southerly outer corner of Pier 51, within existing lines, by the New Haven and Hartford Railroad Company, under permit of the Board. Begun August 1, finished August 27, 1887.

Pier 51, E. R.

Secretary's Order No. 6606.—The side cap and side ranger were repaired, 4 bearing piles replaced and 4 half-round oak fenders were renewed and fastened by the New York, New Haven and Hartford Railroad Company, under permit of the Board. Begun August 1, finished August 15, 1887.

ard Railroad Company, by order of the Board. Begun May 28 and finished May 31,

tary's Order No. 6974.—Fender piles were driven on the end of the pier by the New Haven and Hartford Railroad Company, under permit of the Board. Begun September 1 and finished November 5, 1887.

Bulkhead between Piers 52 and 53, E. R.

tary's Order No. 7543.—New backing logs were put on by William Duryea, under permit of the Board. Begun March 15 and finished March 17, 1888.

Pier 53, E. R.

tary's Order No. 7399.—5 spring piles were replaced and fastened on the southwesterly end of the pier by Eldridge & Mould, under permit of the Board. Begun and finished January 1, 1888.

Bulkhead between Jackson and Corlears Streets, E. R.

tary's Order No. 7493.—15 spruce fender piles were driven, chocked and fastened in front of the bulkhead and the backing log was repaired by Henry Keteltas, under permit of the Board. Begun December 1 and finished March 3, 1888.

Bulkhead west of Corlears Street, E. R.

tary's Order No. 7154.—The bulkhead, for a length of about 40 feet, was rebuilt from low water up, by the alleged owners, by order of the Board. Begun December 7, 1887, finished December 20, 1887.

Pier 55, E. R.

tary's Order No. 6501.—An ice bridge and weigh-office were put up on the pier by the New York Point Ice Company, under permit of the Board. Begun May 9 and finished May 12, 1887.

Bulkhead between Piers 57 and 58, E. R.

tary's Order No. 7272.—A 6-inch cast iron drain pipe from No. 17 East street was run along the bulkhead by Denis Mahoney, under permit of the Board. Begun December 17 and finished December 20, 1887.

Pier 58 (west half), E. R.

tary's Order No. 6678.—The deck sheathing was repaired with about 2,500 feet, B. M., of new lumber, and the old deck sheathing was refastened, by the New York Ferry Company, by order of the Board. Begun June 26 and finished June 28, 1887.

tary's Order No. 6941.—A hole in the surface was repaired by the alleged owners, by order of the Board. Begun and finished September 19, 1887.

Bulkhead between Piers 59 and 60, E. R.

tary's Order No. 6658.—An underground chute or apparatus for conveying coal was built along the bulkhead by Burns Brothers, under permit of the Board. Begun July 28 and finished August 1, 1887.

Pier 62 (north half), E. R.

tary's Order No. 7073.—The deck sheathing was repaired by the lessee, by order of the Board. Begun October 17 and finished October 19, 1887.

tary's Order No. 7074.—(south half) —The deck sheathing of the south half of the pier was repaired by the alleged owner, by order of the Board. Begun October 17 and finished October 19, 1887.

Bulkhead between Piers 61 and 62, E. R.

tary's Order No. 6521.—A new backing log and 2 new courses of facing timber were put on the bulkhead, 30 new fenders were put on its face and fastened and 6 old stumps of piles were removed by the alleged owners, by order of the Board. Begun May 25 and finished June 2, 1887.

L. Kent & Co., under permit of the Board. Begun July 2 and finished November 1, 1887.

Bulkhead at East Twentieth Street, E. R.

Secretary's Order No. 7110.—A temporary shute was removed from the bulkhead by H. L. Kent & Co., by order of the Board. Begun and finished November 1, 1887.

Bulkhead between East Twenty-first and East Twenty-second Streets, E. R.

Secretary's Order No. 7638.—Repairing the bulkhead by the Consolidated Gas Company, of New York, under permit of the Board. Begun April 20, 1888; in progress.

Bulkhead south of East Thirty-first Street, E. R.

Secretary's Order No. 6819.—6 yellow pine square piles were driven, 3 new mooring-posts were and a piece of backing-log was put on, by H. L. Brookman, under permit of the Board. Begun July 3 and finished August 6, 1887.

Pier at East Thirty-first Street, E. R.

Secretary's Order No. 6414.—8 spruce spring piles were replaced at the outer corner of pier by Joseph V. Brown, lessee, under permit of the Board. Begun May 9 and finished May 13, 1887.

Bulkhead at East Thirty-first Street, E. R.

Secretary's Order No. 7602.—The bulkhead is being cut through to carry a sewer outlet through the Department of Public Works, under permit of the Board. Begun April 10, 1888; in progress.

Bulkhead between East Thirty-second and East Thirty-third Streets, E. R.

Secretary's Order No. 6739.—The upper 6' courses of facing timber were renewed, and the longitudinal logs and cross ties were repaired, by the Standard Gas-light Company, under permit of the Board. Begun July 6 and finished July 23, 1887.

Pier at East Thirty-third Street, E. R.

Secretary's Order No. 6612.—4 new bearing piles were driven to replace missing piles, and a cap and the backing-logs were repaired, by the East River Ferry Company, lessee, by order of the Board. Begun June 15 and finished June 18, 1887.

Bulkhead between East Thirty-fourth and Thirty-fifth Streets, E. R.

Secretary's Order No. 7679.—Driving 25 fender-piles, in place of broken piles, in front of the bulkhead, by Jeremiah Skidmore's Sons, under permit of the Board. Begun April 27, 1888; in progress.

Bulkhead between East Thirty-fifth and East Thirty-sixth Streets, E. R.

Secretary's Order No. 6936.—A fender-pile was replaced by E. Elliott, under permit of the Board. Begun and finished September 10, 1887.

Pier at East Thirty-seventh Street, E. R.

Secretary's Order No. 6817.—A new lamp-post and lamp were put upon the pier by the Consolidated Gas Company, under permit of the Board to the Department of Public Works. Begun and finished August 2, 1887.

Secretary's Order No. 6776.—A fence erected on the south side of the pier, by John Nelson Sons, occupants, was removed by them by order of the Board. Begun November 21 and finished November 29, 1887.

South side of East Thirty-eighth Street, E. R.

Secretary's Order No. 7313.—A brick stable was erected by Cornelius Gallagher, under order of the Board. Begun December 10, 1887, and finished February 16, 1888.

Bulkhead foot of East Thirty-ninth Street, E. R., and Dumping-board thereon.

Secretary's Order No. 6516.—The dumping-board along the centre line of East Thirty-ninth street was rebuilt by the Long Island Fertilizing Company, by order of the Board. Begun August 4 and finished October 24, 1887.

Bulkhead between East Thirty-ninth and East Fortieth Streets, E. R.

Secretary's Order No. 6635.—The bulkhead was raised by three new courses of facing and laid the entire length of bulkhead with the necessary ties, and the fenders were repaired and the old ones were replaced by the Equitable Gas-light Company, by order of the Board. Begun August 24 and finished September 3, 1887.

Bulkhead at East Forty-second Street, E. R.

Secretary's Order No. 6620.—An ice bridge, 80 feet in length, was put up on the bulkhead at Frank E. Beam, under permit of the Board. Begun May 28 and finished June 3, 1887.

Bulkhead between East Forty-third and East Forty-fourth Streets, E. R.

Secretary's Order No. 6955.—The southerly half was built from low-water mark up, by the New York Coal Company, the bearing piles were renewed, fender piles were driven and chocked, the deck and backing log of the northerly half were repaired by Joseph H. Ladew, by order of the Board. Begun October 11 and finished November 9, 1887.

Bulkhead Platform between East Forty-fourth and East Forty-fifth Streets, E. R.

Secretary's Order No. 7077.—Twelve bearing and five spring piles were renewed, by Schuchman & Sulzberger, under permit of the Board. Begun October 21 and finished October 22, 1887.

Secretary's Order No. 7566.—3 bearing and 2 fender piles were renewed by Schwarzschild & Sulzberger under permit of the Board. Begun March 17 and finished March 23, 1888.

Bulkhead at East Forty-seventh street, E. R.

Secretary's Order No. 6889.—The sunken canal boat "Mystic" was raised and removed to Pottery Beach, Hunter's Point, Long Island, by the Baxter Wrecking Company for Owen & Company, consignees, who were ordered by the Board to remove it. Begun and finished August 18, 1887.

Dumping-board at East Forty-ninth street, E. R.

Secretary's Order No. 7033.—Piles were driven in place of those worn out, by M. Goodwin, under permit of the Board. Begun and finished October 6, 1887.

Bulkhead between East Forty-ninth and Fifty-first streets, E. R.

Secretary's Order No. 7435.—The erection of derricks for loading stone on scows be-
neath, and the placing of quarried stone inside of the bulkhead line for the purpose of aiding
the construction of a bulkhead wall, by the New York Steam Company, under permit of the Board.
Begun March 5, 1888; in progress.

Bulkhead at East Fifty-first street, E. R.

Secretary's Order No. 6619.—The bulkhead was opened up for the purpose of making repairs to section pipe therein, by the F. & M. Schafer Brewing Company, under permit of the Board. Begun and finished May 28, 1887.

Bulkhead at East Fifty-third Street, E. R.

Secretary's Order No. 5794.—Small repairs were made to the premises by the Ridgewood Ice Company, lessee, by order of the Board. Begun and finished November 26, 1886.

Bulkhead near East Fifty-third Street, E. R.

Secretary's Order No. 6614.—2 bearing and 11 fender piles were driven and fastened in place broken and missing ones by H. L. Herbert & Co., under permit of the Board. Begun June 7 and finished June 8, 1887.

Bulkhead at East Fifty-fourth Street, E. R.

Secretary's Order No. 6314.—A dumping-board located on the north side thereof was removed by Randolph Guggenheimer, by order of the Board. Begun June 4 and finished July 6, 1887.

Bulkhead between East Fifty-fourth and East Fifty-fifth Streets, E. R.

Secretary's Order No. 6434.—A 12-inch pipe was run through the premises to draw salt water by John Kress Brewing Company, under permit of the Board. Begun April 21 and finished April 18, 1887.

Bulkhead between East Fifty-sixth and East Fifty-seventh Streets, E. R.

Secretary's Order No. 6940.—A platform and coaling station at the bulkhead between East Fifty-sixth and East Fifty-seventh streets, East river, were built by G. D. Curtis, under permit of the Board. Begun on or about September 6, 1887, and finished on or about March 1, 1888.

Bulkhead Platform south of East Fifty-seventh Street, E. R.

Secretary's Order No. 6758.—Three piles driven on the upper side by Schmidt & Schwanenengel, under permit of the Board. Begun and finished October 15, 1887.

Bulkhead Platform between East Sixtieth and East Sixty-first Streets, E. R.

Secretary's Order No. 7591.—The removal of the dirt and sand from the premises by Cavanagh & Collins, lessees, by order of the Board, has been partly done. Begun April 16, 1888; in progress. The repairs ordered have not yet been begun.

Bulkhead Platform at East Sixty-first Street, E. R.

Secretary's Order No. 7591.—The removal of the dirt and sand from the premises by Cavanagh & Collins, lessees, by order of the Board, has been partly done. Begun April 16, 1888; in progress. The repairs ordered have not yet been begun.

Bulkhead Platform between East Sixty-first and East Sixty-second Streets, E. R.

Secretary's Order No. 6441.—An ice bridge, platform, scale and a weigh-office were put up by Knickerbocker Ice Company, under permit of the Board. Begun April 30 and finished May 1, 1887.

Bulkhead Platform between East Sixty-first and Sixty-second Streets, E. R.

Secretary's Order No. 7592.—Repairing the bulkhead platform and removing of dirt from its surface by the Knickerbocker Ice Company, by order of the Board. Begun April 11, 1888; in progress.

Pier at East Sixty-second Street, E. R.

Secretary's Order No. 7325.—Obstructions, consisting of dirt and sand, were removed from surface by the Knickerbocker Ice Company, lessee. Begun April 16 and finished April 20, 1887.

Bulkhead north of East Sixty-second Street, E. R.

Secretary's Order No. 5696.—A platform extending 75 feet north was repaired by Candee Smith, under permit of the Board. Begun May 2 and finished May 11, 1887.

Bulkhead between East Sixty-third and Sixty-fourth Streets, E. R.

Secretary's Order No. 7657.—Repairing the bulkhead by Neidlinger, Schmidt & Company under permit of the Board. Begun April 18, 1888; in progress.

Bulkhead at East Sixty-fourth Street, E. R.

Secretary's Order No. 6498.—A sewer outlet was carried through its northerly end, by the Department of Public Works, under permit of the Board. Begun May 16 and finished June 1, 1887.

Bulkhead at foot of East Seventy-fifth Street, E. R.

Secretary's Order No. 6810.—A brick sewer was carried through the crib-bulkhead at foot of East Seventy-fifth street, by the Department of Public Works, under permit of the Board. Begun August 15, 1887, and finished on or about September 1, 1887.

Pier at East Seventy-ninth Street, E. R.

Secretary's Order No. 6474.—A platform scale was placed on the north side of the pier by the Ridgewood Ice Company, under permit of the Board. Begun June 1 and finished June 11, 1887.

Secretary's Order No. 7015.—The deck sheathing was repaired by the Ridgewood Ice Company, lessee, under permit of the Board. Begun October 7 and finished November 9, 1887.

Secretary's Order No. 7324.—Obstructions, consisting of dirt and sand, were removed, from surface of the pier, by the Ridgewood Ice Company, lessee. Begun and finished April 16, 1888.

Bulkhead between East Seventy-ninth and East Eightieth Streets, E. R.

Secretary's Order No. 7047.—The deck of the bulkhead platform was repaired by the alleged owners, by order of the Board. Begun October 17 and finished October 19, 1887.

Foot of East Eightieth Street, E. R.

Secretary's Order No. 6579.—A small shed within the street lines was removed by the owners, by order of the Board. Begun and finished June 22, 1887.

Foot of East Eighty-third Street, E. R.

Secretary's Order No. 7415.—The removal of the earth embankment constructed thereat, to 100 feet west of the original high-water mark, with a proper slope, by L. & J. Brandt, alleged owners, by order of the Board. Begun January 30, 1888; suspended.

Foot of East Eighty-third Street, E. R.

Secretary's Order No. 7461.—Running of an eight-inch sewer pipe through from the premises from a stable 60 feet southerly of the foot of said street, by L. & J. Brandt, under permit of the Board. Begun April 2 and finished April 11, 1888.

Bulkhead at East Eighty-fourth Street, E. R.

Secretary's Order No. 7043.—An 8-inch cast-iron temporary drain-pipe from south side of Eighty-fourth street, seventy-eight feet east of Avenue B, was laid through the bulkhead by L. & J. Brandt, under permit of the Board. Begun September 26 and finished October 3, 1887.

Ferry at East Ninety-second Street, E. R.

Secretary's Order No. 7091.—Replacing of racks and piles of the ferry structure and the face of the crib, also the erection of a new ferry-house in place of old one, by the Astoria Ferry Company, under permit of the Board. Begun November 23, 1887; in progress.

Water-front between East Ninety-fifth and Ninety-seventh Street, E. R.

Secretary's Order No. 7476.—12 piles driven near the south line of water-front, from the middle of the block between Ninety-fifth and Ninety-sixth streets to Ninety-seventh street, by Michael Kane, under permit of the Board. Begun and finished February 15, 1888.

Ferry north of East Ninety-ninth Street, E. R.

Secretary's Order No. 7111.—8 piles were driven at the outer end of ferry-rack within 100 feet north side of Ninety-ninth street, and inside of the established bulkhead line of 1857, by the New York and College Point Ferry Company, under permit of the Board. Begun November 1 and finished November 2, 1887.

Secretary's Order No. 7663.—A cluster of 8 piles were driven on the north side to replace broken ones by the New York and College Point Ferry Company, under permit of the Board. Begun and finished April 21, 1888.

HARLEM RIVER.

South of East One Hundred and Second Street, H. R.

Secretary's Order No. 7158.—36 piles were driven for the foundation of a new dog-pound, to be used thereat, by the Department of Public Works, under permit of the Board. Begun November 1 and finished November 12, 1887.

Secretary's Order No. 6893.—A structure for a dog-pound was built on the foundation prepared and substantially in accordance with plans submitted, by the Department of Public Works, under permit of the Board. Begun November 9 and finished December 15, 1887.

Pieris between East One Hundred and Second and East One Hundred and Third Streets, H. R.

Secretary's Order No. 6418.—A boat-house was built in accordance with diagram submitted, by Thomas S. McManus, under permit of the Board. Begun April 21 and finished June 17, 1887.

Between East One Hundred and Ninth and East One Hundred and Tenth Streets, H. R.

Secretary's Order No. 7278.—A rip-rap retaining wall is under construction by H. C. McGown, under permit of the Board. Begun December 21, 1887, and in progress from time to time.

Crib-bulkhead north side of East One Hundred and Fourteenth Street, H. R.

Secretary's Order No. 5549.—Building a crib-bulkhead between East One Hundred and Fourteenth street and the centre of the block between East One Hundred and Fourteenth and East One Hundred and Fifteenth streets, Harlem river, by John Dwight, under permit of the Board. Begun October 11, 1886; cribwork finished on or about February 19, 1887; filling in rear in progress.

Secretary's Order No. 6910.—8 oak fender piles were driven on east and south sides of the bulkhead by John Dwight, under permit of the Board. Begun August 25 and finished August 8, 1887.

Half Block south of East One Hundred and Fifteenth Street, H. R.

Secretary's Order No. 6513.—A brick building has been erected by the Standard Gas-light Company, under permit of the Board. Begun April 6, 1887, and finished April 1, 1888.

Crib-bulkhead between East One Hundred and Fifteenth and East One Hundred and Sixteenth Streets, H. R.

Secretary's Order No. 5587.—Building a crib-bulkhead between East One Hundred and Fifteenth and East One Hundred and Sixteenth streets, Harlem river, by the New York Steam

Company, under permit of the Board. Begun September 3, 1886; cribwork finished December 1886; filling in rear in progress.

Bulkhead north of East One Hundred and Sixteenth Street, H. R.

Secretary's Order No. 6583.—A brick building has been erected by W. G. Tucker, under permit of the Board. Begun about June 8 and finished July 23, 1887.

Pier between East One Hundred and Sixteenth and East One Hundred and Seventeenth Streets, H. R.

Secretary's Order No. 6648.—The backing log was repaired, and 12 fender piles were driven by William G. Tucker, under permit of the Board. Begun October 7 and finished October 24, 1887.

Bulkhead between East One Hundred and Seventeenth and East One Hundred and Eighteenth Streets, H. R.

Secretary's Order No. 6833.—A bulkhead structure, 207 feet long and 9 feet wide, has been erected by R. H. Wolff & Co., under permit of the Board. Begun November 4 and finished December 21, 1887.

Slip foot of East One Hundred and Nineteenth Street, H. R.

Secretary's Order No. 7403.—A sunken canal-boat was raised and removed to the Jersey shore by the Baxter Wrecking Company, for the Delaware and Hudson Canal Company, who was ordered by the Board to remove it. Begun January 17 and finished January 19, 1888.

Bulkhead between East One Hundred and Twenty-second and East One Hundred and Twenty-third Streets, H. R.

Secretary's Order No. 6481.—A pile platform about 29 feet long by about 15 feet 4 inches wide was built by Canda & Kane, under resolution of the Board of April 30, 1887. Begun May 26 and finished May 30, 1887.

Secretary's Order No. 6657.—A structure for conveyance of coal from boat to a point about 75 feet distant from bulkhead was built on the recently constructed platform by Tinsley Brothers, under permit of the Board. Begun June 10 and finished July 15, 1887.

Secretary's Order No. 7037.—The structure or runway for the conveyance of coal recently built on the platform was strengthened by additional bracing by Tinsley Brothers, by order of the Board. Begun October 4 and finished October 5, 1887.

Foot of East One Hundred and Twenty-third Street, H. R.

Secretary's Order No. 6385.—The premises were filled in with earth and stone, by Thomas Patten, under permit of the Board. Begun April 9 and finished May 3, 1887.

Bulkhead between East One Hundred and Twenty-fifth and One Hundred and Twenty-sixth Streets, H. R.

Secretary's Order No. 6712.—Fifteen piles in the timber boom were taken up and replaced by McDonough & Company, under permit of the Board. Begun July 14 and finished July 15, 1887.

Pier foot of East One Hundred and Twenty-eighth Street, H. R.

Secretary's Order No. 6377.—A portion of the backing log was cut out and removed, and 22 white oak fender piles were driven and fastened by Ar. nour & Co., under permit of the Board. Begun April 25 and finished May 3, 1887.

Bulkhead Extending about 100 feet East of Second Avenue, H. R.

Secretary's Order No. 7718.—12 fender piles were driven and fastened in front of the bulkhead by the Manhattan Railway Co., under permit of the Board. Begun April 21 and finished April 23, 1888.

East of Second Avenue at H. R.

Secretary's Order No. 7070.—Coal bins thereat were erected at the bridge abutment by the Rapid Transit Company, under permit of the Board. Begun October 26 and finished October 9, 1887.

Secretary's Order No. 7444.—The termini of the cable crossings were changed and boxes were put for them in accordance with plans submitted by the Western Union Telegraph Company, under permit of the Board. Begun February 2 and finished February 9, 1888.

Secretary's Order No. 6894.—A structure for hoisting coal was erected on the bulkhead substantially in accordance with plans submitted by the Manhattan Railway Company, under permit of the Board. Begun August 29, 1887, and finished March 28, 1888.

Foot of Willis Avenue and Easterly thereof, H. R. (north side).

Secretary's Order No. 7092.—Filling in has been done by the New York, New Haven and Hartford Railroad Company, under permit of the Board. Begun July 15, 1887, and temporarily suspended January 31, 1888.

Bulkhead at Willis Avenue, H. R. (north side).

Secretary's Order No. 7046.—Driving of about 200 piles along the ferry racks at the bulkhead to replace those worn out by the New York, New Haven and Hartford Railroad Company, under permit of the Board. Begun October 8, 1887; suspended.

Pier at East One Hundred and Thirtieth street, H. R.

Secretary's Order No. 7474.—2 fender piles were driven in front of the pier by the Harlem River Consolidated Transportation Line, under permit of the Board. Begun and finished January 13, 1888.

West of One Hundred and Thirty-third Street, west of Lincoln Avenue, H. R. (north side).

Secretary's Order No. 6548.—Repairs and alterations have been made to the platforms thereat by the Harlem River Steamboat Company, under permit of the Board. Begun May 20, 1887, and finished June 3, 1887.

Foot of One Hundred and Thirty-second Street, H. R. (south side).

Secretary's Order No. 7531.—Piles have been driven to moor a boat-house by the Friendship Club, under permit of the Board. Begun March 19 and finished March 26, 1888.

North of One Hundred and Thirty-second Street, H. R. (south side).

Secretary's Order No. 7588.—Piles have been driven to moor a boat-house, by the Nonpareil Club, under permit of the Board. Begun March 21 and finished March 26, 1888.

Bulkhead at One Hundred and Thirty-seventh Street and Mott Haven Canal, H. R. (north side).

Secretary's Order No. 6553.—8 fender piles were driven and chocked, and the bulkhead was repaired by J. F. Allen, under permit of the Board. Begun May 16 and finished May 18, 1887.

Mott Haven Canal, near One Hundred and Fortieth Street, H. R. (north side).

Secretary's Order No. 7124.—Construction of a pile platform on the west side of the canal by W. and, under permit of the Board. Begun November 12, 1887, and suspended April 18, 1888.

Fourth Avenue Railroad Bridge Abutment, N. R. (north side).

Secretary's Order No. 7465.—Piles were driven on north side of the bridge for cable boxes to be put by the Western Union Telegraph Company, under permit of the Board. Begun and finished January 28, 1888.

West foot of Railroad Avenue, near One Hundred and Thirty-fifth Street, H. R. (north side).

Secretary's Order No. 6928.—The planking and backing logs were removed and renewed, and 10 g. pile and 15 fender piles were driven, within the existing lines, by J. H. Cheever, under permit of the Board. Begun August 31 and finished September 9, 1887.

Bulkhead between One Hundred and Thirty-fifth and One Hundred and Thirty-eighth H. R. (south side).

Secretary's Orders Nos. 5534 and 5939.—Crib-bulkheads have been erected, and filling of same has been done by Henry A. Cram, under permit of the Board. Begun August 24 and finished May 14, 1887.

Premises between One Hundred and Thirty-fifth and One Hundred and Thirty-sixth H. R. (south side).

Secretary's Order No. 7006.—A fence has been erected on the new-made land, by H. Cram, under permit of the Board. Begun October 12 and finished October 15, 1887.

Bulkhead foot of One Hundred and Thirty-sixth street, H. R. (south side).

Secretary's Order No. 6551.—A platform for landing ice with scales and weigh-houses been erected on the bulkhead by Scott & Company under permit of the Board. Begun and finished June 25, 1887.

Bulkhead between One Hundred and Thirty-seventh and One Hundred and Thirty-eighth H. R. (south side).

Secretary's Order No. 6358.—Sheds, office, stable and fence have been erected by Peck, & Company under permit of the Board. Begun April 4, and finished May 17, 1887.

Bulkhead south of One Hundred and Thirty-eighth street, H. R. (south side).

Secretary's Order No. 6459.—A coal office and stables have been erected by John I. under permit of the Board. Begun April 15, and finished July 1, 1887.

Bulkhead at One Hundred and Thirty-eighth Street, H. R. (south side).

Secretary's Order No. 6365.—A hoisting mast was erected by John Dobbins, under permit of the Board. Begun and finished May 3, 1887.

North of Madison Avenue Bridge, H. R. (north side).

Secretary's Order No. 6672.—Piles were driven for a timber basin by MacDonough under permit of the Board. Begun June 20 and finished July 15, 1887.

Secretary's Order No. 7574.—Piles were driven to moor a boat-house by the Columbia Boat Club, under permit of the Board. Begun March 27 and finished April 14, 1888.

Premises between One Hundred and Thirty-eighth and One Hundred and Forty-fourth H. R. (north side).

Secretary's Order No. 7593.—Piles were driven on which to erect a board walk by V. Ruddemann, under permit of the Board. Begun April 2 and finished April 14, 1888.

Secretary's Order No. 7032.—Piles were driven to moor a boat-house by Charles Van under permit of the Board. Begun October 7, 1887, and finished April 18, 1888.

Premises at One Hundred and Forty-ninth Street, H. R. (north side).

Secretary's Order No. 7425.—The work of dredging, preparatory to building a crib-bulkhead has been commenced by Messrs. Morris & Adams, under permit of the Board. Begun March 1888; in progress.

Bulkhead south of One Hundred and Fiftieth Street, H. R. (north side).

Secretary's Order No. 3665.—The filling in rear of crib-bulkhead and the rip-rap wall, by Sturgis, under permit of the Board, was continued from time to time, and finished February 29

Premises at One Hundred and Fifty-second Street, H. R. (south side).

DEPARTMENT OF DOCKS.

At a meeting of the Board of Docks, held May 4, 1887.

Present—Commissioners Stark, Matthews and Koch.

On motion of the President, Commissioner Koch took the chair, and the Board proceeded to business for the ensuing year.

Commissioner Stark, having received all the votes cast, was unanimously elected President of the Board for the year ending April 30, 1888.

Commissioner Matthews, having received all the votes cast, was unanimously elected Treasurer of the Board for the year ending April 30, 1888.

On motion, Charles Miller, Jr., was detailed to perform duty as Acting Secretary until otherwise ordered by the Board.

The minutes of the meeting held April 30, 1887, were read and approved.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From his Honor Mayor Hewitt :

1st. Requesting information in reference to the permit granted to the Knickerbocker Ice Company to build a bridge extending from Sixty-first to Sixty-second street, East river.

2d. Enclosing communication received from A. T. Decker & Co., in reference to contract for ber. The action of the President in replying thereto was approved.

From Civil Service Supervisory and Examining Boards—In reference to a reclassification of employees in the service of the Department. Referred to the Engineer-in-Chief to examine and report.

From Hoboken Land and Improvement Company—Requesting permission to alter, modify, and repair the present ferry sheds and appurtenances at the foot of Barclay street, North river. Referred to the Engineer-in-Chief to examine and report.

MAY 4, 1887.]

2

From Roberts & King--Requesting a renewal of permit for tally-house on Pier 11, East river. Permission granted, to be and remain only during the will of the Board.

From George Ruprecht--Requesting a lease of Pier, foot of Fifty-fifth street, North river. Application denied, and the President authorized to advise that the Board have no power to lease wharf property except at public auction.

From Department of Public Works--Reporting that it will be necessary, in order to reach proper point of elevation for connection with the new sewer built by the Department under Pier new 21, North river, to take up some of the flooring of the dock or Pier. Permission granted to the Department of Public Works to make excavation and remove portion of plank approach that may be necessary in order to make connection with the brick sewer in rear of the bulkhead wall at Pier new 21, North river, under the direction and supervision of the Engineer-in-Chief of the Department.

From Lehigh Valley Railroad Company--In reference to repairing Pier 2, North river.

From F. P. Eastman--Requesting the Department to place him in possession of the bulkhead foot East Seventieth street, East river, purchased at public sale, held April 9, 1887. Referred to the Engineer-in-Chief to examine and report.

From Hoboken Land and Improvement Company--Requesting permission to repair ferry-rack, foot of Christopher street, North river. Permission granted, all of the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Baltimore and Ohio Railroad Company--Requesting permission to remove gas-fixture shade, chimneys, reflector and a short piece of pipe from office on the north side of Pier, new 40, North river. Permission granted, all the work of removing said gas-fixtures, etc., to be done under the direction and supervision of the Engineer-in-Chief.

From James McClenahan, lessee--Requesting dredging on both sides of Pier foot of Third street, North river.

From Hunt & Donaldson--Requesting dredging and repairing at the bulkhead south of Harrison street, between Piers, old 34 and 35, North river. The Engineer-in-Chief directed to examine and report and repair and dredge if necessary.

From Providence Line--Requesting permission to erect small passenger office on the south side of Pier, old 29, North river, under the present shed, and remove delivery office from its present position on the south side to the north side of said pier. Referred to the Engineer-in-Chief to examine and report.

From Arthur D. Williams, attorney--Requesting copies of certain papers in reference to the lease of bulkhead between Piers, new 40 and 42, North river.

From Wing & Evans--In reference to the removal of soda ash, etc., from new-made land between Canal and West Tenth streets, North river.

From William G. Tucker--Requesting permission to erect a building for factory and other purposes on a portion of premises on the north side of East One Hundred and Sixteenth street, Harlem river, as per plans submitted. Referred to the Engineer-in-Chief to examine and report.

[MAY 4, 1887.]

From William P. Clyde & Co.—Requesting permission to make repairs to approach to Piers 32 and 34, East river. The action of the President in issuing a permit, the work to be done under direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Joseph B. Erwin, Dock Master—Reporting holes in Piers, foot of Forty-seventh and Fifty-fifth streets, North river.

From Edward Abeel, Dock Master—Reporting mooring-pile required lower side of Pier 37, North river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From Patrick Curley, Dock Master—Reporting that oak fenders and bearing-pile are needed on side of Pier, new 43, North river.

From John Simpson, Dock Master—Reporting hole in the bulkhead at the entrance to Pier, old 43, North river. The action of the President in directing the Engineer-in-Chief to examine and repair was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending April 30, 1887.

3d. Reporting completion of repairs to Pier, old 54, North river, under Contract No. 232. The action of the President in directing the Dock Master to collect wharfage from all vessels using said Pier was approved.

4th. Reporting the amount of material removed by the Union Dredging Company with Department dredges during the month of April, 1887. The Treasurer authorized to collect amount from Union Dredging Company.

5th. Report on Secretary's Order No. 6476, respecting the application of the New York Central and Hudson River Railroad Company for renewal of lease of site for pier at West Fifty-ninth street, North river. The President authorized to have lease prepared and forwarded to the New York Central and Hudson River Railroad Company for execution.

6th. Report on Secretary's Order No. 6432, repairs required to the bulkhead between Piers, old 35, North river, and the pavement in front thereof. The President authorized to notify S. J. Welsh, executor, to make the repairs required thereat, as recommended by the Engineer-in-Chief of this Department and under his direction and supervision.

7th. Report on Secretary's Order No. 6460, in reference to the application of the Department of Public Works for permission to extend sewer outlet through the bulkhead at Sixty-fourth street, North river, and recommending that the said sewer shall not be carried out through the bulkhead, on the northerly side thereof within the limits of East Sixty-fourth street. On motion, the report was received, recommendation adopted, and the President authorized to advise the Department of Public Works that permission is granted to extend the sewer outlet thereat, as recommended by the Engineer-in-Chief of this Department and under his direction and supervision.

8th. Report on Secretary's Order No. 6444, in reference to the application of Thomas O'Brien for permission to place an ice bridge, weigh scales and box on Pier 55, East river. Permission

granted to place ice bridge, etc., on said pier under the direction and supervision of the Engineer Chief of this Department, and to be and remain only during the will of the Board.

9th. Report on Secretary's Order No. 6452, that he had repaired sheathing on lower end of Pier 41 at West Eleventh street, North river.

10th. Report on Secretary's Order No. 6043, that he had repaired new-made land on the head north of Pier, new 41, North river.

11th. Report on Secretary's Order No. 6042, that he had repaired new-made land on the head in front of Pier, new 43, North river.

12th. Report on Secretary's Order No. 6279, that he had repaired roof of shed on Pier, new 43, North river.

13th. Report on Secretary's Order No. 6428, that he had directed and superintended the driving of piles and repairing backing-log at Pier north of Ninety-first street, North river.

14th. Report on Secretary's Order No. 5535, that he had directed and superintended the driving and erection of ferry-houses at the bulkhead between Piers 2 and 3, East river.

15th. Report on Secretary's Order No. 6347, that he had superintended driving piles at the west end of Battery.

16th. Report on Secretary's Order No. 6367, that he had repaired damage to Pier foot of Pier 41 at Eleventh street, North river.

17th. Report on Secretary's Order No. 6369, that he had removed piles driven at bulkhead at the site of old Dead-house north of Twenty-sixth street, East river.

18th. Report on Secretary's Order No. 6381, that he had superintended driving four fender-piles at Pier 39, East river.

19th. Report on Secretary's Order No. 6393, that he had driven three white oak spring-piles at outer upper corner of Pier 44, East river.

20th. Report on Secretary's Order No. 6426, that he had superintended the erection of a platform on wooden horses on south side of Pier, old 24, North river.

21st. Report on Secretary's Order No. 6440, that he had superintended driving three oak piles about twenty feet from Castle Garden wharf.

22d. Report on Secretary's Order No. 6445, that he had superintended placing a weigh-beam on north side Pier 55, East river.

23d. Report on Secretary's Order No. 6449, that he had refastened fender-piles on the west corner of Pier foot of Fifty-fifth street, North river.

24th. Report on Secretary's Order No. 5667, that he had fastened fenders at Pier foot of Bet street, North river.

25th. Report on Secretary's Order No. 5834, that he had superintended repairing Pier 49, North river.

26th. Report on Secretary's Order No. 6046, that he had repaired Pier A, North river.

[MAY 4, 1887.]

- 32th. Report on Secretary's Order No. 6249, that he had superintended repairing platform at Castle Garden.
- 33th. Report on Secretary's Order No. 6307, that he had directed the repairing of Pier 9, North river.
- 34th. Report on Secretary's Order No. 6319, that he had superintended and directed the erection of an ice platform on the northerly half of the bulkhead between Thirteenth and Fourteenth streets, North river.
- 35th. Report on Secretary's Order No. 6320, that he had superintended repairing bulkhead on side of Fifteenth street, North river.
- 36th. Report on Secretary's Order No. 6334, that he had superintended placing two new fenders at upper outer corner of Pier 39, East river.
- 37th. Report on Secretary's Order No. 6363, that he had superintended repairing deck of Pier, new 34, North river.
- 38th. Report on Secretary's Order No. 6451, that he had repaired hole in deck of approach to Pier, new 59, North river.
- 39th. Report on Secretary's Order No. 6152, that he had superintended erecting platform in front of bulkhead south of Warren street, North river.
- 40th. Report on Secretary's Order No. 6436, that he had superintended altering water pipe, and placing a water meter on Pier, new 43, North river.
- 41th. Report on Secretary's Order No. 6343, that he had superintended repairing spring pile at the northwest corner of Pier, new 21, North river.
- 42th. Report on Secretary's Order No. 5876, that the erection of a ferry-house and shed structure at bulkhead between Piers 2 and 3, East river, had been superintended, and the work done in accordance with the plans, specifications and amendments filed therefor.
- 43th. Report on Secretary's Order No. 6238, that he had superintended and directed the driving of piles in front of One Hundred and Twenty-second street, Harlem river.

The application of James H. Caulfield, agent of the Haverstraw Brick Company, requesting permission to use the Pier foot of West Seventeenth street, North river, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is granted to James H. Caulfield, agent of the Haverstraw Brick Company, to use and occupy, during the will of the Board, the Pier at the foot of West Seventeenth street, North river, provided he agrees to pay as compensation for the use thereof the sum of \$6 per day for each and every day, payable weekly in advance, to the Dock Master of the District, commencing May 14, 1887.

The application of the Western Stock Yard Company, lessees, requesting permission to sub-let the Pier foot of West Fortieth street, North river, to the New York, Lake Erie and Western Railroad Company, was,

MAY 4, 1887.]

6

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That license and consent be and hereby is granted to the Western Stock Yard Company, lessees, to sublet to the New York, Lake Erie and Western Railroad Company, so much wharfage granted by a certain lease, dated the 29th day of April, 1887, as may accrue on the southerly side of the Pier foot of West Fortieth street, North river ; provided that the said license be given by The Western Stock Yard Company, and the sureties to the said lease shall execute and file an agreement in writing with this Board that their obligations under the provisions thereof shall not in any manner be affected or impaired by reason of such license and consent to the said sub-letting.

The report of the Engineer-in-Chief on Secretary's Order No. 6484, in reference to the application of the New York Central and Hudson River Railroad Company for permission to erect and maintain a freight transfer bridge and racks between Sixty-eighth and Sixty-ninth streets, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the New York Central and Hudson River Railroad Company to erect and maintain, between West Sixty-eighth and Sixty-ninth streets, North river, "that kind of a pier called a freight transfer bridge and racks," in accordance with plans submitted, which are hereby approved ; all of the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, and in accordance with the resolution adopted by the Board April 28, 1880.

The Treasurer, Commissioner Matthews, reported that he had notified Kennedy, Rinck and Company that the rate of compensation to be paid by them for the privilege of maintaining a freight transfer bridge on the approach of Pier foot of West Twenty-ninth street, North river, had been fixed at \$4 per day, payable weekly when due from and after Saturday, May 7, 1887.

On motion, his action was approved.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending May 3, 1887, amounting to \$115,580.68, which was received and ordered to be spread in full on the minutes, as follows :

MAY 4, 1887.]

10

On motion, the President and Treasurer were authorized to prepare a list of bulkhead or property to be sold at public auction between June 10 and 20, 1887.

The Board then went into Executive Session.

The President offered the following preamble and resolutions, which were unanimously adopted.

Whereas, By the resignation of B. W. Ellison, Secretary, this Board is now without Secretary ; therefore, be it

Resolved, That Gouverneur Kemble be and he is hereby appointed Secretary of this Board upon filing the bond required for the faithful performance of the duties of Secretary, in accordance with the By-laws of this Board.

Resolved, That the compensation of Gouverneur Kemble as Secretary, be and is hereby fixed at the rate of \$3,000 per annum, payable monthly, to take effect on the filing of his bond named in the foregoing resolution.

On motion, William Hayden was appointed Dock Builder and James Butler, Laborer.

On motion, the Board adjourned.

CHARLES MILLER, Jr., Acting Secretary.

At a special meeting of the Board of Docks, held May 9, 1887.

Present—Commissioners Stark, Matthews and Koch.

The minutes of the meeting held May 4, 1887, were read and approved.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

A special Executive meeting of the Board of Docks held May 9, 1887.

Present—Commissioners Stark, Matthews and Koch.

On motion, Commissioner Koch acted as Secretary.

On motion, the following resolution was adopted :

Resolved, That David W. Bogert be and is hereby appointed as Dockmaster, to fill the vacancy caused by the resignation of John M. Smith, at an annual salary of \$1,800, payable monthly, to take effect on the 16th day of May instant, provided he shall have qualified under article 13, section 1 of the By-laws of this Board.

On motion, the Board adjourned.

JOSEPH KOCH, Acting Secretary.

[MAY 11, 1887.]

At a meeting of the Board of Docks, held May 11, 1887.

Present—Commissioners Stark and Matthews.

Absent—Commissioner Koch.

The following communications were received, read and

On motion, laid on the table to await action as stated, to wit :

From Canda & Kane—Requesting use of bulkhead foot of Fourteenth street, East river.

From Emerald Gun Club—Requesting permission to land at Pier 43, East river, on June 21,

From Engineer-in-Chief :

1st. Requesting the appointment of two additional stone masons.

2d. Respecting the cost of building a foundation for dumping board foot of East Seventieth street, East river.

3d. In reference to the application of F. P. Eastman, requesting the Board to place him in possession of the bulkhead foot of Seventieth street, East river.

4th. Report on Secretary's Order No. 6493, respecting the application of the Hoboken Land and Improvement Company, requesting permission to make certain changes to ferry sheds and appurtenances at ferry premises foot of Barclay street, North river.

5th. Report on Secretary's Order No. 3986, submitting plans, form of contract and specifications for dredging and building crib bulkhead, etc., at and south of West One Hundred and Thirty-third street, North river.

6th. Report on Secretary's Order No. 6480, in reference to the application of William P. Clyde & Co., for permission to replace shed on Pier 15, East river.

7th. Report on Secretary's Order No. 6469, in reference to the application of R. H. Wolff & Co. for permission to erect a crib work at the bulkhead between One Hundred and Seventeenth and One Hundred and Eighteenth streets, Harlem river, and recommending that action be deferred until such time as the Commissioners of the Sinking Fund take final action on the plans submitted by the board for the improvement of the water-front in that vicinity.

On motion, the report was received, recommendation adopted, and the President authorized to send R. H. Wolff & Co. a copy of the report of the Engineer-in-Chief.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary as stated, to wit :

From His Honor Mayor Hewitt—Inclosing communication respecting repairs being made to pier at East Thirty-seventh street, East river. The action of the President in replying thereto was approved.

MAY 11, 1887.]

12

From Counsel to the Corporation—Approving form of contract for dredging in the half west of Pier 19, the east side of Pier 43, west side of Pier 44, and the bulkhead between Piers 43 and 44, East river.

From Robert S. Briggs—Requesting use of Pier, foot of Seventeenth street, North river.

From Schwarzschild & Sulzberger—Requesting use of bulkhead foot of East Forty-fifth street, East river. Referred to the Treasurer.

From E. Browne—Requesting permission to erect shed for awning purposes on Pier 44, Ninety-second street, East river. Referred to the Engineer-in-Chief to examine and report.

From Mailler & Quereau—Requesting permit for tally-house on Pier 10, East river. Granted, to be located under the direction and supervision of the Dock Master of the District, to remain only during the will of the Board.

From Frank Curtis, President of the Long Island Land Fertilizing Company, lessees—Requesting the Board to repair bulkhead and dump, foot of Thirty-ninth street, East river. The President authorized to advise the said company that the repairs required thereat must be made by the company in accordance with the terms and conditions of the lease, and under the direction and supervision of the Engineer-in-Chief of this Department.

From Houston, West street and Pavonia Ferry Railroad Company—Requesting permission to lay a pipe to connect with sewer, and put in water pipes at the stand in front of Pavonia Ferry, Chambers street, North river. Referred to the Engineer-in-Chief to examine and report.

The Board suspended the regular order of business for the purpose of receiving estimates for dredging half slip west of Pier 19, Pier 43 east side, Pier 44 west side, and the bulkhead between Piers 43 and 44, East river, advertised to be opened this day at 12 o'clock M.

A representative of the Comptroller was present.

Two estimates were received, as follows :

No. 1. From William M. Tebo, accompanied with \$45 in money, 23 cents per cubic yard.

No. 2. The Morris & Cuming Dredging Company, accompanied with \$45 in money, 23½ cents per cubic yard.

On motion, the bids received were laid over for examination, and the President authorized to transmit to the Comptroller the security deposits made by the said bidders, and accompany their respective estimates.

The Board then proceeded with the regular order of business.

From Baltimore & Ohio Railroad Company—Requesting permission to drive piles between Piers, old 20 and 21, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From George Thwaite & Co.—Requesting permission to open bulkhead opposite Nos. 42 and 44 South street. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From American Manufacturing and Supply Company—Requesting the privilege of keeping a shed at the foot of One Hundred and Fifty-third street, Harlem river, for the purpose of handling lumber from magazines on the shore. Referred to the Engineer-in-Chief to examine and report.

From Murray's Line of Barges—Requesting permission to place a tally-house, scales and tools on Pier 6, East river. Permission granted, to be and remain only during the will of the Board.

From Daniel Shea, lessee, Pier, old 56, North river—In reference to and requesting the Department to repair said pier. The President authorized to advise Mr. Shea that the repairs required to be made by him in accordance with the terms and conditions of the lease, and under the direction and supervision of the Engineer-in-Chief of this Department.

From James McClenahan, Lessee—Requesting permission to erect scales and ice bridge on the north side of Pier foot of West Thirtieth street, North river. Referred to the Engineer-in-Chief to examine and report.

From C. H. Mallory & Co.—Requesting permission to extend shed on Pier 21, East river, as plans submitted. Referred to the Engineer-in-Chief to examine and report.

From Thomas L. Egan—Requesting that the time to complete the painting of shed on Pier, new North river, be extended from May 15th to 25th instant.

On motion, the time was extended as requested, and the President authorized to notify Thomas Egan and the Engineer in-Chief of the action of the Board.

From Cavanagh & Collins—Requesting permission to drive piles at the head of Seventh avenue, between One Hundred and Fifty-fourth and One Hundred and Fifty-fifth streets, Harlem river. Referred to the Engineer-in-Chief to examine and report.

From Anthony Hartman, Dock Master—Reporting that the bulkhead foot of Sixty-first street, East river, requires cleaning. The President authorized to request the Department of Street Cleaning to clean.

From Charles B. Husted, Dock Master—Reporting damage to pier foot of West Seventeenth street, North river, by the steamer "Kanawah," on May 5, 1887. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

From Patrick Curley, Dock Master—Reporting that repairs are required to the sheathing on the north side of Pier, old 42, North river. The action of the President in directing the Engineer-in-Chief to examine and repair if necessary, was approved.

From Charles P. Blake, Dock Master—Recommending that the bulkhead foot of Forty-fourth and Forty-fifth streets, East river, be repaired. The action of the President in directing the Engineer-in-Chief to examine and report the repairs required to the bulkhead foot of Forty-fifth street, East river. And also notify the lessee of the bulkhead foot of Forty-fourth street, East river, to repair under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Patrick J. Brady, Dock Master—Recommending that the platform at the foot of Twenty-ninth street, North river, be cleaned and hole in centre of Pier, new 59, be repaired. The action of

the President in requesting the Department of Street Cleaning to clean the platform foot of fourth street, and directing the Engineer-in-Chief to repair Pier, new 59, was approved.

From Engineer-in-Chief :

- 1st. Reporting assignment of employes to special duty.
- 2d. Reporting the amount of work done during the week ending May 7, 1887.
- 3d. Reporting repairs required to Pier, new 59, North river. The Engineer-in-Chief directed to repair as recommended in his report at a cost of about \$100.
- 4th. Recommending that the toe at bulkhead wall Pier, new 35, North river, be completed. The action of the President in directing the Engineer-in-Chief to do said work was approved.
- 5th. Reporting repairs required to water-closet on Pier, new 43, North river. The Engineer-in-Chief directed to repair as recommended in his report at a cost of about \$10.
- 6th. Reporting repairs required to Piers foot of Forty-sixth and Fifty-fifth streets, North river. The Engineer-in-Chief directed to repair as recommended in his report at a cost of \$30 each.
- 7th. Reporting repairs required to Pier at Forty-fourth street, North river. The President authorized to notify the New York Horse Manure Company, Lessees, to repair as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.
- 8th. Report on Secretary's Order No. 6317—In reference to the erection of a shed on North river, by G. Wessels & Co., and recommending that the permit issued March 23, 1887, be revoked, as it is not their intention to do any work at present. On motion, the permit was revoked, and the President authorized to notify G. Wessels & Co. and the Engineer-in-Chief of the action of the Board.
- 9th. Report on Secretary's Order No. 6370—In reference to the damage to the sewer running through the bulkhead adjoining ferry premises foot of Desbrosses street, North river, stating that the same has been repaired by the Pennsylvania Railroad Company.
- 10th. Report on Secretary's Order No. 6454—Repairs required to bulkhead between Piers 61 and 62, East river. The Engineer-in-Chief directed to repair about 150 feet of the bulkhead of Pier 61, East river, owned by the City, as recommended in his report, at a cost of about \$100. The President authorized to notify the alleged owner or owners of the remainder of the bulkhead north of that owned by the City to repair as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.
- 11th. Reporting repairs required at bulkhead platform south of West Ninety-sixth street, North river. The President authorized to notify the alleged owner or owners to repair as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.
- 12th. Report on Secretary's Orders Nos. 6455 and 6456, repairs required to bulkhead from Sixth street to Seventh street and Pier at the foot of Sixth street, East river. The President authorized to notify William H. Webb, alleged owner, to make the repairs required at the said premises as directed by the Engineer-in-Chief of this Department and under his direction and supervision.

Report on Secretary's Order No. 6477, in reference to the application of James W. Boyle for permission to sheath the bulkhead north and south of Pier, old 54, foot of Perry street, North river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

Report on Secretary's Order No. 6492, repairs required to bulkhead platform between piers 34 and 35, North river. The Engineer-in-Chief directed to repair as recommended in report at a cost of about \$675.

Report on Secretary's Order No. 6360, that he had superintended and directed the repairs of Pier, old 39, North river, in accordance with the resolution adopted on the 2d of April, 1886, the area now covered by the platform erected thereat amounts to 567 square feet. The Engineer-in-Chief directed to notify the Chief Clerk.

Report on Secretary's Order No. 6491, in relation to the application of the Providence Steamship Company for permission to erect small passenger office on the south side of Pier, old 29, North river, and remove delivery office from the south to the north side of said Pier. Permission granted; the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department, and in accordance with the plans and specifications submitted therefor.

Report on Secretary's Order No. 6458, submitting report of Portland cement, tested for strength. The President authorized to send him copy of said report.

Report on Secretary's Order No. 6438, approving plans and specifications submitted by the Steamship Company of Savannah, for building a shed on Pier, new 35, North river.

On motion, the plans and specifications were approved, and the President authorized to notify the Steamship Company and the Engineer-in-Chief of the action of the Board.

Report on Secretary's Order No. 6506, in reference to the application of the Baltimore and Ohio Railroad Company for permission to drive fifty or sixty fender piles at Piers, old 25 and 26, North river, and the bulkhead between, to protect said premises while berthing railroad floats. Permission granted, all of the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

Report on Secretary's Order No. 6489, in reference to repairs required at Pier, new 43, North river, and reporting that seven new oak fenders and one bearing pile are required on the south side of pier, and that the bearing and one bracing pile require refastening, and mooring posts at outer end of pier need shoring. The said repairs, with the exception of the bearing pile, being needed on account of the pier being heavily struck by car floats during the occupancy of the pier by the Baltimore and Ohio Railroad Company; and recommending that the said company be notified to make at once all of the repairs above mentioned, except bearing pile, in accordance with the agreement entered into by them, dated October 6, 1886, whereby they agreed to surrender said pier in as good order and condition as when they took possession of it.

On motion, the report was received, recommendation adopted, the Engineer-in-Chief directed to repair bearing pile and the President authorized to notify the Baltimore and Ohio Railroad Company.

to make at once the repairs recommended by the Engineer-in-Chief of this Department under his direction and supervision.

21st. Report on Secretary's Order No. 6420, respecting the applications of the Standard Gas Company, requesting lease of bulkhead, when completed, between One Hundred and Four and One Hundred and Fifteenth streets, Harlem river, and also requesting permission to certain buildings on their land, between One Hundred and Fourteenth and One Hundred and Fifteenth streets, Harlem river.

On motion, permission was granted to erect the buildings on the said premises, provided buildings or structures of any kind are erected outside of or easterly of the original high-water mark, all of the work to be done under the direction and supervision of the Engineer-in-Chief of the Department.

22d. Report on Secretary's Order No. 6485, that repairs have been made to the pavement entrance to Pier, old 20, North river.

23d. Report on Secretary's Order No. 6222, that he had repaired the north side of Pier 20, North river.

24th. Report on Secretary's Order No. 6375, that he had repaired the spring pile on outside of Pier, new 46, North river.

25th. Report on Secretary's Order No. 6377, that he had superintended and directed the cutting and removal of a portion of backing log and the driving and fastening of white oak fender planks at Pier foot of One Hundred and Twenty-eighth street, Harlem river.

26th. Report on Secretary's Order No. 6385, that he had superintended and directed the work in at foot of One Hundred and Twenty-third street, Harlem river.

27th. Report on Secretary's Order No. 6446, that he had superintended the erection of a bridge, weigh office and scale on the bulkhead between Piers, new 35 and 36, North river.

28th. Report on Secretary's Order No. 6488, that he had repaired deck of Pier foot of Pier 21, fifth street, North river.

29th. Report on Secretary's Orders Nos. 6273, 6275 and 6276, that he had made requisition dredging at the dumping boards at West Twelfth street, West Thirty-seventh street and West Forty-seventh street, North river, and supervised the work thereat, which was done by the Union Dredging Company.

30th. Report on Secretary's Order No. 6465, that he had repaired Pier at Jane street, North river.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the month of May 10, 1887, amounting to \$95,359.16, which was received and ordered to be spread in the minutes, as follows :

York, May 11, 1887.

The Treasurer, Commissioner Matthews, reported that he had received the following bill for furnishing the Department with 1,000 barrels Portland Cement, and 500 cubic yards of stone.

PORTLAND CEMENT.

A. C. Babson	Per bbl.
Haebler & Co	"
S. L. Merchant & Co	"
Johnson & Wilson	"
James Brand	"

BROKEN STONE.

John A. Bouker	Per cubic yard.
Brown & Fleming	"
Daniel C. Donovan	"

—and recommended that the orders for furnishing the same, be awarded to Haebler & Co John A. Bouker, they being the lowest bidders.

On motion, the report was received and the recommendation adopted.

The application of Archibald Scott for permission to erect a platform, 85 feet in length bulkhead between Twenty-first and Twenty-second streets, North river, was,

On motion, taken from the table, ordered to be placed on file, and permission granted platform to be erected under the direction and supervision of the Engineer-in-Chief of this ment, and to be and remain only during the will of the Board.

On motion, the Engineer-in-Chief was directed to examine and report respecting the accumulation of refuse on the new-made land from Jay to Chambers street, North river.

The application of the East River Ferry Company lessees, requesting permission to portion of the Pier foot of Thirty-third street, East river, to the Knickerbocker Ice Company

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That license and consent be and hereby is granted to the East River Ferry Company lessees to sublet to the Knickerbocker Ice Company so much of the wharfage granted by lease, dated May 1, 1886, as may accrue at the southerly side and surface of the Pier foot Thirty-third street, East river.

Commissioner Matthews offered the following preamble and resolution, which was adopted

Whereas, A certain lease, dated April 30, 1881, was made on behalf of the Corporation City of New York to Frank Phelps of said city, of all and singular the wharfage which may accrue or become due for the use of the wharf or pier known as Pier 40, East river, and on the bulkhead easterly, for the term of five years, commencing May 1, 1882, and ending May 1, at the yearly rental of \$9,000, with an option to the said Phelps for renewal of said lease further term of five years, at an annual rental of \$11,000 in said lease stated, to which

[MAY 11, 1887.]

le; and the said Phelps having complied with the terms of said lease and given the renewal thereby required,

ed, That the President, Treasurer and Secretary of this Board be and they are hereby authorized to execute a lease on behalf of the Mayor, Aldermen and Commonalty of New York, to the said Frank Phelps of the wharfage which may arise, accrue or become use and occupation by vessels of more than five tons burden of all that wharf property the East river, in said city, described as the wharf or pier known as Pier 40, East river, of the bulkhead easterly, for the term of five years, commencing May 1, 1887, and 1, 1892, at the annual rent of \$11,000, payable quarterly in advance, that is to say, the first days of May, August, November and February, respectively, in each year during said lease being in renewal of, and to contain the like covenants, conditions, reservations and as the lease of which the lease hereby authorized is a renewal, except as to the rental and further extension.

resident appointed Commissioners Matthews and Koch as the Auditing Committee.

tion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held May 14, 1887.

Present—Commissioners Stark, Matthews, and Koch.

The minutes of the special meeting, held May 9, and the regular meeting, held May 9, were read and approved.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as state

From Counsel to the Corporation—Approving blank form of contract for preparing building a dumping-board and approach at East Eightieth street, East river.

From Board of Aldermen—Inclosing copy of resolution requesting copy of resolution respecting the leasing of Pier 41, North river, and the bulkheads adjoining. The Secretary to furnish the information desired.

From East River Bathing Company—Requesting permission to locate floating bath at head, between Water and Cherry streets, East river, as per diagram submitted, and inclosing of Lawrence & Co., owners of a portion of said bulkhead. Referred to the Engineer-in-Chief to examine and report.

From Samuel Hanna—Requesting permission to connect premises No. 383 West Eleventh street with sewer pipe to cross the street and empty into the North river. Referred to the Engineer-in-Chief to examine and report.

From Bishop O'Donnell & Co.—Requesting permission to repair the wall of bulkhead Fifty-second and Fifty-third streets, North river, and extend the same to the middle of Fifty-fourth street. Referred to the Engineer-in-Chief to examine and report.

From W. R. Grace & Co. —Requesting the Department to cause the executors of the estate of Moses Taylor to dredge slips both sides of Pier 13, East river. The President authorized the executors of the said estate to dredge at once, in accordance with the action of the Board of Docks, March 25, 1887, and notify Grace & Company of the order of the Board.

From North and East river Steamboat Company :

1st. Requesting the Department to drive fender-piles at the upper side and end of Pier 13, East river. The action of the President in directing the Engineer-in-Chief to drive the said piles was approved.

2d. Requesting permission to lay water-pipe underneath the dock for about two hundred feet on Pier 44, East river, for supplying water to the steamer "Shady Side." The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From F. P. Eastman—Requesting the Board to place him in possession of the bulkhead East Seventieth street, East river. Referred to the Treasurer to examine and report.

From Scott & Co.—Requesting permission to erect platform for landing ice on the wharf at the slip at One Hundred and Thirty-sixth street, Harlem river, and place scales and weights.

property, and drive spring piles where necessary. Permission granted, all of the work to be under the direction and supervision of the Engineer-in-Chief of this Department.

From New Haven Steamboat Company—Reporting that dredging is needed at wooden sewer or running under the westerly side of Pier 25, East river. Referred to the Engineer-in-Chief to examine and report.

From Capt. Theodore F. Kane, commanding U. S. steamship "Minnesota," requesting the permission to make certain repairs to Pier, new 57, North river, and also requesting a supply of material on said pier. Referred to the Engineer-in-Chief to examine and report.

From New York Steam Company—Requesting permission to dredge in front of the bulkhead, Thirty-second and Thirty-third streets, East river. Permission granted, the work to be under the direction and supervision of the Engineer-in-Chief.

From Department of Public Works—In reference to the removal of the Dog Pound and Offal and requesting the views of the Department as to the availability of the Pier foot of West Eighth street, North river, for the purposes named. Referred to the Engineer-in-Chief to examine and report, and the President authorized to notify Commissioner Newton of the action of the Department.

From Department of Street Cleaning :

Requesting repairs to dump foot of West Twelfth street, North river. Referred to the Engineer-in-Chief to examine and report.

Requesting dredging at dumps foot of Market street, Stanton street, Seventeenth street and Hundred and Tenth street, East river. The President authorized to advise that the Engineer-in-Chief of this Department has been directed to dredge at said places.

From Charles Farrell—Requesting berth for canal-boat at the bulkhead foot of Twenty-ninth street, East river. Referred to the Dock Master.

From Canda & Kane—Requesting use of bulkhead foot of Fourteenth street, East river. Referred to the Treasurer.

From New York, Lake Erie and Western Railroad Co.—Requesting permission to repair Piers, 20 and 21, North river. The action of Commissioner Matthews in issuing a permit, the work to be under the direction and supervision of the Engineer-in-Chief, was approved.

From J. F. Allen—Requesting permission to drive piles and repair dock at One Hundred and Seventh street and Mott Haven canal. The action of Commissioner Matthews in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Emerald Gun Club—Requesting permission to land at Pier 43, East river, on June 21, 1887.

From J. I. Housman, lessee—Requesting permission to repair sheathing on platform, between West Tenth streets, North river, in front of oyster scow No. 7. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Engineer-in-Chief :

1st. Reporting that the bulkhead at the foot of One Hundred and Thirty-sixth, One Hundred and Thirty-seventh and One Hundred and Thirty-eighth streets, Harlem river, recently built under permit to Mr. Cram, owner of the water-grant between One Hundred and Thirty-fifth and One Hundred and Thirty-eighth streets, are sufficiently complete to be used, and recommending that the Dock Master be directed to collect wharfage thereat, as the bulkhead belongs to the city. On motion, the report was received and recommendation adopted.

2d. Report on Secretary's Order No. 6512, in reference to the application of Cavanagh Collins for permission to drive piles, etc., at One Hundred and Fifty-fifth street, Harlem river. On action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

3d. Report on Secretary's Order No. 6476, that he had made requisition for furnishing and driving ten new bearing piles in the outer row of Pier at West One Hundred and Fifty-second street North river, and superintended the work, which was done by O'Connell & Coffey.

4th. Report on Secretary's Order No. 5696, that he had superintended and directed the repairing of bulkhead platform extending seventy-five feet north of Sixty-second street, East river.

5th. Report on Secretary's Order No. 6534, in reference to the application of the Houston West Street and Pavonia Ferry Railroad Company and the Chambers Street and Grand Street Railroad Company for permission to place "taps or goose necks" for supplying the horses of said Railway Company with water, and also for a drain to return the waste water to the Chambers street sewer. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, and be and remain only during the will of the Board.

6th. Report on Secretary's Order No. 6494, in reference to the communication received from the Civil Service Supervisory and Examining Board respecting the reclassification of employees.

On motion, the report was received, recommendation adopted, and the President authorized to send copy of said report to the Civil Service Supervisory and Examining Board.

7th. Report on Secretary's Orders Nos. 6421 and 6490, in reference to building foundation for a dumping board at the foot of Seventieth street, East river, and in reference to placing F. P. Eastman in possession of said bulkhead. Referred to the Treasurer.

The reports of the Engineer-in-Chief on Secretary's Orders Nos. 3986 and 6248, submitting plans, forms of contract and specifications, for building Pier and bulkhead at and south of West One Hundred and Thirty-second street, and repairing crib-bulkhead north of West One Hundred and Thirty-first street, North river, and also for a crib-bulkhead at the foot of East Seventy-sixth street East river, were,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plans, specifications and forms of contract, as prepared by the Engineer-in-Chief, for dredging for and building a pier about one hundred and fifty feet long and sixty feet wide and a crib-bulkhead at and south of West One Hundred and Thirty-second street, North river, and

repairing the existing crib-bulkhead north of West One Hundred and Thirty-first street, North river, and also for building a crib-bulkhead at the foot of East Seventy-sixth street, East river, be and hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals prepared, and proper advertisements inviting estimates for doing the said work inserted in the papers authorized by law.

The report of the Engineer-in-Chief on Secretary's Order No. 6493, respecting the application of the Hoboken Land and Improvement Company for permission to make certain changes to ferry structures and appurtenances at the foot of Barclay street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the Hoboken Land and Improvement Company, lessees of the franchise for Barclay street ferry, to alter, change, modify and repair the ferry structures and appurtenances at the foot of Barclay street, North river, in general accordance with the plan submitted and more particularly as to details in accordance with plans and specifications to be hereafter first submitted to and approved by the Board of Docks before beginning the work, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, provided that the said Hoboken Land and Improvement Company file in this Department within ten days from receipt hereof, an agreement in writing satisfactory as to form to pay to the Treasurer of this Department the sum of twenty-five cents per square foot per annum, for all the area under water covered by said ferry structures and appurtenances, situated westerly of the easterly line of proposed shed, as shown on the plan submitted, about one hundred and sixty-three feet westerly of the easterly line of West street, payable quarterly, in advance, to the Treasurer of the Department of Docks, and that no damage, cost or charge shall be claimed by the said Company or by the Department of Docks, or the City of New York, for the destruction or removal of the whole or any part of the said ferry structures in executing the work of improvement under the new plan, when the Department of Docks is ready and decides to make such improvements; and that this permission and anything done under it shall in no way affect any legal right of the City or of the said Company as the same may exist, and that all such rights shall remain as heretofore, the same as though this permit and anything done under it did not exist.

The application of the New York Steam Company, lessees Requesting permission to sub-let to the Swift Refrigerating Company part of the bulkhead south of Pier, old 23, North river, and to sub-let to the Cornell Towing Company the right of joint occupancy of the south half of Pier, old 23, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That license and consent be and hereby is granted to the New York Steam Company, lessees, to sub-let to the Swift Refrigerating Company so much of the warfage granted by a certain order, dated the 29th day of April, 1887, as may accrue on account of a portion of the bulkhead westerly of Pier, old 23, North river.

MAY 14, 1887.]

26

The said New York Steam Company, lessees, may, if they choose, permit the Cornell Company to occupy the south half of Pier, old 23, North river, in conjunction with the will of the Board.

The following resolutions were, on motion, adopted :

Resolved, That a statement of the balance of the Dock Fund now to the credit of this Department, with a statement of the liabilities for outstanding contracts and orders, be prepared and forwarded to the Comptroller with a request for the placing to the credit of this Department of the sum of five hundred thousand dollars for its use.

Resolved, That the time for closing the contracts made with the Hon. Alfred C. Chapin, for the Screw Dock Company, party of the first part, with the Mayor, Aldermen and Common Council of the City of New York, acting by the Department of Docks, party of the second part, for the sale of three hundred and three feet of bulkhead or wharf property on South street, including right, title and interest in and to Pier 39, East river, in the City of New York, be and the same is hereby extended and postponed to June 16, 1887.

Resolved, That permission be and hereby is granted to Schwarzschild & Sulzberger to occupy during the will of the Board, the bulkhead and dump at the foot of East F street, East river, provided they pay as compensation for the use thereof the sum of \$50 per month payable monthly in advance, to the Treasurer of this Department, commencing May 18, 1887.

Resolved, That the requisition for \$1,000 drawn on the Comptroller under date of December 1886, in favor of James D. Wynkoop for the lease held by him for one hundred feet of the wharf on West street, next south of Hubert street, North river, be and the same is hereby counted and directed to be cancelled, and the President authorized to notify the Comptroller of the same to the Board.

On motion, John Clark was appointed Scowman, Michael Tobin, Mason, and Michael J. Laborer.

On motion, the Board adjourned.

G. KEMBLE, Secretary

At a meeting of the Board of Docks, held May 18, 1887.

Present—Commissioners Stark and Matthews.

Absent—Commissioner Koch.

The minutes of the meeting held May 14, 1887, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Frank E. Bean—Requesting use of bulkhead foot of East Forty-second street, with permission to erect an ice-bridge for discharging ice.

From Engineer-in-Chief :

Report on Secretary's Order No. 6557, in reference to the application of the East River Bathing Company, for permission to moor a floating bath in front of the bulkhead between Water and Cherry streets, East river.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Hoboken Land and Improvement Company—Accepting the terms and conditions of action adopted May 14, 1887.

From Fort Lee Ferry Company, E. H. Coffin, Superintendent—Requesting permission to extend pier north to One Hundred and Thirty-first street, North river, and also requesting permission to place a light and fog-bell on pier at One Hundred and Thirty-first street, North river. Referred to Engineer-in-Chief to examine and report.

From Burns Brothers—Requesting permission to erect and maintain a hopper on the bulkhead between Piers 59 and 60, East river. Referred to the Engineer-in-Chief to examine and report.

From Scott & Co.—Requesting permission to erect scale office, fourteen by sixteen feet, on the pier south of West Twenty-second street, North river. Permission granted to erect an office, twelve by twelve feet, to be and remain during the will of the Board, and to be erected under the direction and supervision of the Engineer-in-Chief.

From Albert Hies—Requesting permission to build a float at the foot of One Hundred and Twenty-sixth street, west side of Harlem river. Referred to the Engineer-in-Chief to examine and report.

From Department of Public Works :

1st. Requesting the Department to make proper and convenient approaches for the accommodation of the public baths at the places designated. The Engineer-in-Chief directed to do the work required.

2d. In relation to marginal sewer in West street, between Jay and Warren streets, North river. Engineer-in-Chief directed to confer with General Newton, Commissioner of Public Works, or Engineer-in-Chief of said Department in relation thereto.

3d. Respecting the locations assigned for use of public baths at Pier 60, East river, and foot of One Hundred and Twelfth street, Harlem river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From William G. Tucker—Requesting permission to moor barge, boat or float on north side of pier, between One Hundred and Sixteenth and One Hundred and Seventeenth streets, Harlem river. Permission granted, to be berthed at the said premises under the direction and supervision of the Dock Master of the District and to be and remain only during the will of the Board.

From Gustave Bossange—Requesting a test of cement, and inclosing \$10 to pay the cost of the same. The action of Commissioner Matthews in directing the Engineer-in-Chief to make a test of cement was approved.

From Western Stock Yard Company—Requesting permission to attach a derrick to the piles foot of West Fortieth street, North river, for the purpose of unloading cargo of the action of the President in issuing a permit for the said derrick, to be erected under the direct Dock Master, and to be removed when cargo of coal is discharged, was approved.

From Schwarzschild & Sulzberger—Agreeing to pay \$50 per month for use of bulkhead Forty-fifth street, East river.

From Baltimore and Ohio Railroad Company—Requesting permission to renew platform of bulkhead between Piers, old 20 and 21, North river. Permission granted; the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From New York Horse-Manure Company, lessees—Reporting that they will repair platform West Forty-fourth street, North river.

From R. H. Wolff & Co.—In reference to their application for permission to build crib on the Harlem river, between East One Hundred and Sixteenth and East One Hundred and Seventeenth streets.

From Wilson Line of Steamers—Requesting berth for "S. S. Morenge" at Pier, new North river. Referred to the Dock Master.

The President reported that he had issued the following permits, the same having been recommended by the Engineer-in-Chief of this Department, and the work to be done under his direction and supervision :

Warren Roseveit—To drive fender and bearing piles on existing line of Pier 45, East

New York, New Haven and Hartford Railroad Company—To drive piles and repair platform on Pier 50, East river.

North and East River Steamboat Company—To dredge in front of premises west of avenue, on the Harlem river, and take up pile-platform on the easterly side of slip and repair on the line with new dock thereat.

On motion, his action was approved.

From Eugene McCarthy, Dock Master—Reporting repairs needed to piles, Pier 46, East

From Joseph B. Erwin, Dock Master—Reporting holes in Pier at Fifty-first street, North river. The action of the President in directing the Engineer-in-Chief to repair, if necessary, was approved.

From Patrick J. Brady, Dock Master—Reporting that chocks on the outshore side of piles need replacing, and chocks between fenders on the north side need refastening. The action of the President in directing the Engineer-in-Chief to repair was approved.

From John Callan, Dock Master :

1st. Reporting that the Pier at East One Hundred and Ninth street needs redeck string-piece on the outer end.

2d. Reporting holes in Pier foot of East One Hundred and Seventeenth street. The President in directing the Engineer-in-Chief to examine and report repairs required.

One Hundred and Seventeenth street, and repair Pier at East One Hundred and Ninth street, North river, was approved.

From Charles H. Thompson, Dock Master :

1st. Reporting repairs required to sheathing on Piers 12 and 15, East river.

2d. Reporting that the bulkhead between Piers 12 and 13, East river, requires cleaning. The President in directing the Engineer-in-Chief to examine and report repairs required to Piers 12 and 15, East river, and requesting the Department of Street Cleaning to clean bulkhead between Piers 12 and 13, East river, was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending May 14, 1887.

3d. Report on Secretary's Order No. 6541, in relation to the accumulation of dirt, rubbish, Christmas trees, etc., on the bulkhead between Jay and Chambers street, North river. The Engineer-in-Chief directed to remove, as recommended in his report, at a cost of about \$100.

4th. Report on Secretary's Order 6509, respecting the damage done to pier at Seventeenth street, North river, by the Steamer "Kanawah." The President authorized to notify the consignees to repair pier under the direction and supervision of the Engineer-in-Chief of this Department.

5th. Report on Secretary's Order No. 6558, repairs required to dumping-board foot of West 11th street, North river. The Engineer-in-Chief directed to repair, as recommended in his report, at cost of about \$300.

6th. Reporting that there is a small shed within the street lines, at the foot of Eightieth street, North river, near the water-front, and recommending that it be ordered to be removed at once, so as to clear a way to the dump which the Department is about to build there.

On motion, the report was received and the recommendation adopted.

7th. Report on Secretary's Order No. 6544, in reference to locating baths at Pier 60, foot of Kingston street, and foot of East One Hundred and Twelfth street, Harlem river. The President authorized to send to the Department of Public Works a copy of the report respecting the location of bath foot of One Hundred and Twelfth street, Harlem river.

8th. Report on Secretary's Order No. 6473, in reference to the request made by Jacob Fleishman for the Department to repair bulkhead at Forty-fourth street, East river.

On motion, the application of Jacob Fleishhauer was denied, and the President authorized to notify him of the action of the Board.

9th. Report on Secretary's Order No. 6303, dredging required in front of bulkhead foot of Twenty-fifth street, East river. The Engineer-in-Chief directed to dredge, as recommended in his report, to obtain a depth of about twelve feet at mean low water.

10th. Report on Secretary's Order No. 6538, in reference to the application of James McClenahan for permission to erect scale and ice-bridge on the northerly side of Pier, new 60, foot

of Thirtieth street, North river. Permission granted to erect ice-bridge on the northerly side of pier as requested. Permission also granted to place scale on the new-made land or filling immediately behind the wall at the inner end of the pier. The said ice-bridge and scales to be located thereat under the direction and supervision of the Engineer-in-Chief of this Department, and be remain only during the will of the Board.

11th. Report on Secretary's Order, No. 6495, in reference to the application of William O. Tucker, for permission to erect a building on the north side of One Hundred and Sixteenth street Harlem river. Permission granted to erect building entirely westward of the original high-water mark in accordance with the plans submitted and under the direction and supervision of the Engineer-in-Chief of this Department.

12th. Report on Secretary's Order No. 6118, reference to repairs required to Croton water-pipe, Pier, new 43, North river.

13th. Report on Secretary's Order No. 6413, that he had superintended driving piles at ferry slip adjoining Pier 1, East river.

14th. Report on Secretary's Order No. 6414, that he had superintended replacing spring-piles outer corners of Pier foot of Thirty-first street, East river.

15th. Report on Secretary's Order No. 6499, that he had superintended repairing pavement of bulkhead, between Piers 33½ and 34, East river.

16th. Report on Secretary's Order No. 6501, that he had superintended the erection of an ice-bridge and weigh office on Pier 55, East river.

17th. Report on Secretary's Order No. 6507, that he had repaired Pier, new 59, North river.

18th. Report on Secretary's Order Nos. 6523 and 6543, that he had superintended resheathing bulkhead platform on north and south sides of Pier, old 54, North river.

19th. Report on Secretary's Order No. 6533, that he had repaired Pier, new 59, North river.

20th. Report on Secretary's Order No. 6505, that he had superintended repairing sewer-pipe running through the bulkhead between Piers 13 and 14, East river.

A communication from his Honor Mayor Hewitt, respecting the purchase of certain bulkhead or wharf property from the Old Dominion Steamship Company, was,

On motion, ordered to be placed on file and the following preamble and resolutions were adopted :

Whereas, At a meeting of this Board held on the 26th day of November, 1886, certain resolutions were adopted, as follows :

"Resolved, That by virtue of the power vested in this Board by subdivision 4 of section 6, chapter 574 of the Laws of 1871, and section 716 of chapter 410 of the Laws of 1882, commonly called the 'New York City Consolidation Act,' as amended by chapter 517 of the Laws of 1884, that the entire bulkhead between Piers, new 26 and 27, North river, and one hundred and twenty-five feet of bulkhead next south of Pier, new 27, North river, be and the same are hereby appropriated to the sole use of the special kind of commerce carried on by steam transportation ;

[MAY 18, 1887.]

"Resolved, That the Old Dominion Steamship Company be and is hereby informed that this Board, upon the completion of the work of constructing the new bulkhead upon the plan of the best improvement adopted therefor, will grant to it a lease of the entire bulkhead on West street, between Piers, new 26 and 27, North river, and one hundred and twenty-five feet of bulkhead West street, next south of said Pier, new 26, with permission to shed the same fifty-five feet from the front of the bulkhead and in front of said Pier, new 26, for a term of years co-terminous with its present lease of said Pier, new 26, at an annual rental of \$5,640, payable quarterly in advance, and will agree in said lease to give said lessee a covenant of renewal for a further term co-terminous with its right of extension of its present lease, said lease to contain the usual covenants and conditions and to be in conformity with the terms herein set forth.

"Resolved, That said shed shall be constructed subject to the regulations required by chapter 10 of the Laws of 1875, and sections 772 and 774 of chapter 410 of the Laws of 1882, commonly known as 'The New York City Consolidation Act,' and in conformity with plans to be first submitted and approved by the Board governing the Department of Docks, and all work to be done under the supervision of the Engineer-in-Chief of this Department.

"And provided further, that the said lessee shall file in the office of this Department, within ten days after the receipt hereof, a written agreement that the said shed shall revert to and become the property of the Corporation of the City of New York, upon the expiration or sooner termination of the lease of said bulkhead, free of all claims of every kind whatsoever.

"Resolved, That the Counsel to the Corporation be and is hereby directed to prepare in proper form a lease, in triplicate, to the Old Dominion Steamship Company, of said premises for a term of years co-terminous with its present lease and renewals, containing the usual covenants and conditions, and the terms herein set forth, and that the officers of this Board be and are hereby authorized and empowered to execute the said lease when approved as to form by the said Counsel to the Corporation."

And whereas, This Board, at the meeting of November 26, 1886, adopted a certain other resolution with respect to the purchase by the City of New York of the said wharf property, to wit: one hundred and twenty-five feet of the bulkhead or wharf property on West street, next south of North street, providing for the purchase thereof, if the Commissioners of the Sinking Fund, if need be, should approve the same.

And whereas, The Commissioners of the Sinking Fund, annexed to a resolution adopted by them on the 20th day of April, 1887, ratifying and approving the agreement for the said purchase, have in the following words: "Provided, however, that these resolutions are to take effect only upon the rescission by the Department of Docks of all resolutions other than those adopted in reference to the communication from N. L. McCready, President of the Old Dominion Steamship Company, to the Commissioners of the Department of Docks, dated May 31, 1884, to lease said premises upon the acquisition by the city of the title thereto to said Old Dominion Steamship Company, or any other person or persons, and the assent in writing of said Company and person or persons to such acquisition."

Now, therefore, be it resolved, That this Board hereby rescinds the said resolution of November 26, 1886, first hereinbefore recited, providing for the leasing to the Old Dominion Steamship Company, and the covering with a shed of the new bulkhead to be erected between Piers, new 26 and 27,

MAY 18, 1887.]

32

North river, and one hundred and twenty-five feet of bulkhead on West street, next south of Pier, new 26, it being intended hereby to comply with the terms of the proviso attached to the resolution of the Commissioners of the Sinking Fund, by rescinding the resolution or resolutions which it was therein provided should be rescinded.

The following preamble and resolution was

On motion, adopted :

Whereas, Pursuant to contracts with the executors and trustees of the last will and testament of John L. Brower, deceased, and others, and the executors and trustees under the last will and testament of Elizabeth Ogden Brower, deceased, and others, the City of New York acting through the Department of Docks, acquired one hundred feet of bulkhead or wharf property on West street, next south of Hubert street, subject to a lease thereof to James D. Wynkoop, which lease was made on May 1, 1888, at an annual rental of (\$1,000) one thousand dollars, payable quarterly, with privilege to the lessor or their assigns of terminating the same on giving thirty days' notice, and obligating said lessee at the expiration thereof the sum of (\$500) five hundred dollars, therefore be it

Resolved, That the President of this Board be and is hereby directed to notify James D. Wynkoop or his assigns, that it is the desire of this Department to terminate the said lease at the expiration of thirty days from service of notice thereof, and that a requisition for (\$500) five hundred dollars be drawn on the Comptroller in favor of the said Wynkoop or his assigns in pursuance of the conditions of his lease and the terms thereof, provided that the same be approved by the Commissioners of the Sinking Fund.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending May 17, 1887, amounting to \$7,204.33, which was received and ordered spread in full on the minutes, as follows :

JAMES MATTHEWS, Treasurer.

Following requisitions were read, and,

motion, approved :

For 21 pieces spruce plank	Estimated cost,	\$7 00
For 1 lot yellow pine.....	"	160 00
For ice at Department office opposite Pier, new 21, North river.	"	7 50
For ice at Department office, West Fifty-seventh street, North river	"	36 00

motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held May 20, 1887.

Present.—Commissioners Stark, Matthews, and Koch.

The Board proceeded to open estimates for preparing for and building a dumping-board and approach at East Eightieth street, East river, advertised to be opened this day at 12 o'clock M. A representative of the Comptroller was present.

Four estimates were received as follows :

No. 1. From Walter Danforth, accompanied with \$25 in money.....	\$2,395 00
No. 2. From O'Connell & Coffey, accompanied with \$25 in money.....	2,750 00
No. 3. From John D. Walsh, accompanied with \$25 in money.....	2,973 00
No. 4. From Fearon & Jenks, accompanied with \$25 in money.....	4,500 00

On motion, the bids received were laid over for examination, and the President authorized to transmit to the Comptroller the security deposits made by the several bidders and accompanying their respective estimates.

The following resolution was, on motion, adopted :

Resolved, That the contract opened this day for building a dumping-board and approach at East Eightieth street, East river, be and is hereby awarded to W. Danforth, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the city.

The Board then proceeded with the regular order of business.

The minutes of the meeting held May 18, 1887, were read and approved.

The report of the Engineer-in-Chief on Secretary's Order No. 6537, in reference to the application of C. H. Mallory & Co., for permission to extend shed on Pier 21, East river, was

On motion, laid on the table.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary as stated, to wit :

From Board of Street Openings and Improvements—In relation to grade of West Fifty-sixth street, between Eleventh and Twelfth avenues. Referred to the Engineer-in-Chief.

From The Barney Dumping Boat Company—In relation to use of Pier 12, East river. The President authorized to request the General Manager of said Company to call on the Commissioners on Monday, May 22d instant, at 12 o'clock M.

From Thomas C. Carroll—Requesting appointment as janitor of the Department offices on Pier A, North river.

From Charles H. Thompson—Reporting that he had notified the schooner "M. M. Chase" to vacate berth at Pier 4, East river.

From Charles P. Blake, Dock Master—In reference to the application of Charles Farrell for bulkhead foot of Twenty-ninth or Thirtieth streets, East river, and reporting that the same interfere with the use of premises by private parties.

On motion, the application of Charles Farrell was denied.

From Frank Phelps, lessee—Requesting the Department to repair Pier 40, East river. Referred to the Treasurer.

From Engineer-in-Chief :

1st. Reporting that the newly made land just north of the north crosswalk leading to Pier, new North river, has settled, causing a depression in the pavement below the established grade. The Engineer-in-Chief directed to place a silt basin at the lowest point of depression and connect with sewer thereat, as recommended in his report, at a cost of about \$150.

2d. Report on Secretary's Order No. 6540, in reference to the application of the North and River Ferry Company for permission to lay water-pipe underneath Pier 44, East river. Permission granted, to be and remain during the will of the Board, and to be placed thereat under the direction and supervision of the Engineer-in-Chief of this Department.

3d. Report on Secretary's Order No. 6550, in reference to communication from the Department of Public Works respecting the location of dog pound on Pier at the foot of West Thirty-eighth street, North river. The President authorized to advise General Newton, Commissioner of Public Works, upon examination by this Department the Pier at One Hundred and Second street, Harlem river, has been selected as a suitable place for the locating of the Dog Pound.

4th. Report on Secretary's Order No. 6554, in reference to the application of Samuel Hanna for permission to run a sewer pipe from No. 383 West Eleventh street, through the bulkhead at West Eleventh street, North river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, the pipe to be and remain only during the will of the Board.

The President stated he had issued the following permits, the same having been approved by the Engineer-in-Chief of this Department, and the work to be done under his direction and supervision.

Metropolitan Steamship Company—To drive bearing piles within existing lines at Pier 11, North river.

Fulton Market Fishmongers' Association—To repair Pier 23, East river.

The President also stated that he had notified the New York Steam Company, lessees, to repair piles in pier, foot of Vesey street, Pier, old 23, North river.

On motion, his action was approved.

The communication from the Comptroller of the city approving sureties of William M. Tebo, his estimate for dredging at various places on the East river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the contract for dredging at the half slip, west of Pier 19, east side of the west side Pier 44, and at the bulkhead between Piers 43 and 44, East river, be and hereby is awarded to William M. Tebo, his bid for doing the same being the lowest under estimates publicly called for on the 11th instant, and the Comptroller having approved of the sureties thereto, the 19th instant.

The Report of the Engineer-in-Chief on Secretary's Order, No. 6577, in reference to the application of E. H. Coffin, Jr., Superintendent of the Fort Lee Ferry Company, requesting permission to extend platform north to One Hundred and Thirty-first street, repair ferry-rack, and place a light and fog-bell on the end of pier foot of One Hundred and Thirty-first street, North river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to E. H. Coffin, Jr., lessee of the bulkhead between West One Hundred and Thirtieth and One Hundred and Thirty-first streets, and southerly side of the pier at West One Hundred and Thirty-first street, North river, under dated April 29, 1887, to repair ferry-rack at ferry premises foot of West One Hundred and Thirty-first street, North river, place a light and fog-bell on pier foot of West One Hundred and Thirty-first street, and build a platform from the north side of the existing ferry platform, about twenty feet between One Hundred and Thirtieth and One Hundred and Thirty-first streets, to the southerly side of One Hundred and Thirty-first street, North river ; all of said work to be done under the direction and supervision of the Engineer-in-Chief of this Department ; provided that the said E. H. Coffin, Jr., shall file in this Department within ten days from receipt hereof, an agreement in writing, as compensation for the use of the land under water occupied by said platform, the sum of ten cents per square foot, per annum, during the existence of the platform to be erected under this permit, the same to be payable quarterly in advance, to the Treasurer of the Department of Docks.

And it is also specially provided and understood that this permit is for a temporary platform only, and that it is revocable at any time by the Board governing the Department of Docks ; further provided that this permit shall not take effect until the petitioner has filed a written agreement, satisfactory as to form, with the Board governing the Department of Docks, to the effect they will at any time within twenty days from receiving written notice from the Board of Docks to do, remove any and all structures of every kind that may be built and erected under this permit, and restore the premises to the same condition that they are in at date hereof.

And further provided, that the said E. H. Coffin, Jr., shall within ten days after receipt hereof file in this office a written agreement, that the said platform shall revert to, and become the property of the Corporation of the City of New York upon the expiration or sooner termination of the permit for the premises above mentioned, free of all claims of every kind whatsoever.

The application of Cavanagh & Collins, for permission to repair and extend platform at Seventh avenue, Harlem river, was

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That Cavanagh & Collins be and hereby are permitted to extend the existing platform at the northerly end of Seventh avenue, Harlem river, to the southward, by building a pile platform

a line with the present wharf and extending about thirty feet to the southward thereof, provided that the same shall remain only during the pleasure of the Board, and that it shall be removed at any time upon written notice of the Board so to do.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held May 25, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

Commissioner Marshall presented his certificate of appointment as Commissioner of the Department of Docks, which was received and ordered to be entered in full on the minutes, as follows :

MAYOR'S OFFICE, NEW YORK, May 21, 1887.

In pursuance of the statutes in such case made and provided, I, Abram S. Hewitt, Mayor of the City of New York, do hereby appoint Charles H. Marshall a Commissioner of the Department of Docks of the City of New York, for the term of six years from the first day of May, 1887, in place of Joseph Koch, whose term of office has expired.

[SEAL.]

ABRAM S. HEWITT, Mayor.

The minutes of the meeting held May 20, 1887, were read and approved.

The following reports from the Engineer-in-Chief were received, read, and

On motion, laid on the table to await action as stated, to wit :

- 1st. Recommending promotions and increase in force. Referred to Executive Session.
- 2d. Recommending the appointment of three additional Ship Carpenters. Referred to Executive Session.
- 3d. Report on Secretary's Order No. 6594, in reference to the plans submitted by the Police Department for proposed alterations and additions to rooms on the north side of Pier A, North river.
- 4th. Report on Secretary's Order No. 6596, in reference to the application of the Maine Steamship Company, for permission to build platform and erect shed adjoining Pier 38, East river, as per plans submitted.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Comptroller of City—Approving sureties of W. Danforth for building a dumping-board and approach at the foot of East Eightieth street, East river.

From C. B. Orcutt, General Coaling Agent—In reference to repairing damage done to of West Seventeenth street, North river, by the steamer "Kanawah," and requesting thment to make the repairs required at their expense, at a cost of \$175. The Enginee directed to repair said pier, and the President authorized to notify Mr. Orcutt of the act Board.

From Department of Public Charities and Correction—Requesting dredging in Bellevue Hospital, at Twenty-sixth street, East river. The Engineer-in-Chief directe requisition for dredging thereat at a cost not to exceed \$900.

From E. K. Stephens—Requesting appointment as janitor of Department offices on North river.

From John L. Egan—Requesting that the time to complete the work of painting repairing metal covering on Pier, new 43, North river, under Contract No. 235, be exte May 25th to 28th instant. The action of the President in extending the time as requ approved.

From New York, Catskill and Athens Steamboat Company—Requesting permiss gangways on the south side of Pier, old 33, North river. Permission granted, the said w done under the direction and supervision of the Engineer-in-Chief of this Department.

The President reported that he had directed the Engineer-in-Chief to examine and re the following applications :

1st. From Police Department—Submitting plans for proposed alterations and ad rooms on the north side of Pier A, North river.

2d. From Maine Steamship Company—Requesting permission to build a pile platform Pier 38, East river, and erect a shed over the same as per plan submitted.

3d. From East River Bathing Company--Requesting permission to moor a floating b Pier foot of East Twenty-eighth street, East river.

The President also stated that he had granted permits to the following parties, the sar been recommended by the Engineer-in-Chief of this Department ; and the work to be di his direction and supervision :

Kennedy, Reinhart & Co.—To dredge slip on north side of Pier at Fifty-first str. river, to a depth of ten feet at mean low water, and erect a temporary platform to discha dredging is being done thereat.

Captain E. W. Bartow—To cut string-piece on Pier 27, East river, to make gangwa Steamer "Sylvan Glen."

Norwich and New York Transportation Company—To dredge slip north side of Pi North river.

On motion, his action was approved.

on J. B. Erwin, Dock Master—Reporting that Piers foot of Forty-sixth, Fifty-first and Fifty-ninth, North river, are in need of cleaning. The action of the President in requesting the Department of Street Cleaning to clean the said piers was approved.

on Charles P. Blake, Dock Master :

1. Reporting that the sheathing, backing-log, and the first and second rows of timber on the side of Pier foot of Twenty-eighth street, East river, need repairing.

2. Reporting a hole in the bulkhead north of Pier at East Thirty-eighth street, East river. Action of the President in directing the Engineer-in-Chief to examine and repair, if necessary, the Pier foot of East Twenty-eighth street, and examine and report repairs required north of East Thirty-eighth street, East river, was approved.

on Eugene McCarthy, Dock Master—Reporting damage to the easterly side of Pier 51, East

on Edward Abeel, Dock Master—Reporting repairs required to Pier 44, East river. The action of the President in directing the Engineer-in-Chief to examine and report the repairs required on the easterly side of Pier 51, East river, and repair, if necessary, Pier 44, East river, was approved.

on Engineer-in-Chief :

Reporting assignment of employees to special duty.

Reporting the amount of work done during the week ending May 21, 1887.

Reporting repairs required to Pier 6, North river. The President authorized to notify the owner or owners to repair under the direction and supervision of the Engineer-in-Chief of the Department.

Reporting repairs required to Pier, new 60, North river. The President authorized to permit James McClenahan, lessee, to make the repairs required under the direction and supervision of the Engineer-in-Chief of this Department.

Reporting repairs required to Pier 59, East river. The Engineer-in-Chief directed to be recommended in his report at a cost of about \$100.

Report on Secretary's Order No. 6567, repairs required to Pier at One Hundred and Ninth Harlem river. The Engineer-in-Chief directed to repair as recommended in his report at a cost of about \$175.

Report on Secretary's Order No. 6597, in reference to the application of the East River Company for permission to locate floating bath at Pier foot of East Twenty-eighth street, East river. Permission granted, the said bath to be located thereat under the direction and supervision of the Dock Master of the District, and be and remain during the will of the Board. The subject-respecting the compensation to be charged for use of said Pier, was

referred to Commissioner Marshall.

1. Report on Secretary's Order No. 6429, that he had directed and superintended the erection of a stationary engine and other coal-burners on the south side of Pier, old 23, North river, of a stationary engine and other coal-

handling apparatus, formerly located on Pier 3, North river, and also reporting that it is the intention of the New York Steam Company to lay the railway tracks or to remove portion of the same, and recommending that the permit for tracks and removal of platform be revoked.

On motion, the report was received, recommendation adopted, and the President authorized to notify the New York Steam Company and the Engineer-in-Chief of the action of the Board.

9th. Report on Secretary's Order No. 6441, that he had directed and superintended the construction of an ice-bridge, platform-scale and weigh office at bulkhead between Sixty-first and Sixty-second streets, East river.

10th. Report on Secretary's Order No. 6568, that he had repaired the sheathing on Pier at One Hundred and Seventeenth street, Harlem river.

11th. Report on Secretary's Order No. 6564, that he had repaired the deck of Pier at First street, North river.

12th. Report on Secretary's Order No. 6466, that he had directed and superintended the construction of Piers, new 27 and 28, North river.

13th. Report on Secretary's Order No. 6335, that he had superintended repairing Pier at North river.

14th. Report on Secretary's Order No. 6569, that he had repaired and replaced the fender-piles on outer end of Pier, new 59, North river.

15th. Report on Secretary's Order No. 6515, that he had directed and superintended the construction of an ice platform on bulkhead between Twenty-first and Twenty-second streets, North river.

16th. Report on Secretary's Order No. 6403, that he had repaired pavement at entrance of Pier at Fortieth street, North river.

17th. Report on Secretary's Order No. 6553, that he had directed and superintended the repairing of bulkhead, One Hundred and Thirty-seventh street and Mott Haven Canal.

A report from the Engineer-in-Chief on Secretary's Order No. 6281, submitting plan, contract and specifications for building a new pier at the foot of West Thirty-first street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plans, form of contract and specifications, as prepared by the Engineer-in-Chief, for building a new wooden pier at the foot of West Thirty-first street, North river, known as Pier, new 61, North river, be and hereby are approved, subject to the approval of the Board and Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting bids for the said work inserted in the papers designated by law.

On motion, the Engineer-in-Chief was directed to proceed with the completion of the bulkhead wall between Piers, new 26 and 27, North river.

[MAY 25, 1887.]

resident appointed Commissioner Marshall a member of the Auditing Committee in place of Commissioner Koch.

Following preambles and resolution were,

motion, adopted :

25. Plans for the improvement of the water-front on the westerly side of the East and West rivers, extending from the northerly side of Eighty-sixth street, East river, to the easterly side of 10th avenue, Harlem river, without an exterior public wharf, street, or place, were heretofore adopted about October 14, 1886, determined by this Department and forwarded to the Commissioner of the Sinking Fund for adoption, pursuant to the provisions of chapter 517 of the Laws of 1886.

26. The Counsel to the Corporation, under date of 13th May, 1887, in a communication to the Comptroller, has given his opinion that power does not exist to establish a system of improvement of the water-front which shall not include an exterior public wharf, street, or place adjacent to the water, to its whole extent ; therefore

Resolved, That the Commissioners of the Sinking Fund are hereby requested to return said plans to the Department for further consideration.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending May 18, amounting to \$3,170.42, which was received and ordered to be spread in full in the following :

On motion, the Board adjourned.

G. KEMBLE, Secy

At a special meeting of the Board of Docks, held May 26, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held May 25, 1887, were read and approved.

A communication from the Engineer-in-Chief, requesting three additional Inspectors of dredged material, was,

On motion, referred to executive session.

The report of the Engineer-in-Chief on Secretary's Order No. 6573, respecting the scale office on the bulkhead south of West Twenty-second street, North river, by Archibald Scott, was,

On motion, laid on the table.

The following communications were received, read and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From J. M. Goetchius.—Requesting permission to cut a gangway in string-piece on the outer Pier foot of West Thirty-fifth street, North river. Permission granted, provided the written consent of the Pennsylvania Railroad Company is first filed in this Department ; the work to be under the direction and supervision of the Engineer-in-Chief.

From H. L. Herbert & Co.—Requesting permission to replace fender piles at Pier near the foot of East Fifty-third street, East river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief.

From Old Dominion Steamship Company—Requesting permission to erect four awning-posts in the shed on Pier, new 26, North river, to remain during the months of June and July. Permission granted, the said awning-posts to be placed thereat under the direction and supervision of the Engineer-in-Chief of this Department, and to be and remain during the months of June and July, unless otherwise ordered by the Board.

From F. P. Eastman—Reporting that the upper corner of dumping-board foot of Sixty-fourth street, East river, overhangs the trench dug for sewer. The action of the President in directing the Engineer-in-Chief to take the necessary action to protect said dumping-board was approved.

From Engineer-in-Chief :

1st. Reporting repairs required to Pier foot of Thirty-third street, East river. The President authorized to notify the East River Ferry Company, lessees, to make the repairs required, in accordance with the terms and conditions of the lease, and under the direction and supervision of the Engineer-in-Chief of this Department.

2d. Report on Secretary's Order No. 6600, respecting the damage done to Pier 51, East river. The action of the President directing the New York, New Haven and Hartford Railroad Company, lessees, to repair, under the direction and supervision of the Engineer-in-Chief, was approved.

3d. Reporting repairs required to Pier 14, North river. The President authorized to notify Central Railroad Company of New Jersey, lessees, to repair, under the direction and supervision of the Engineer-in-Chief of this Department.

4th. Report on Secretary's Order No. 6555, in reference to the application of Capt. Theo. F. Meade, commanding U. S. S. "Minnesota," requesting repairs and Croton water supply on Pier 57, North river.

On motion, the Engineer-in-Chief was directed to repair the sheathing on the deck, and the scum at the south side of the Pier, as recommended in his report, at a cost of about \$210, and the remainder of the application was denied.

The report of the Engineer-in-Chief on Secretary's Order No. 6557, respecting the report of the East River Bathing Company, requesting permission to berth floating bath in front of head between Water and Cherry streets, East river, was,

On motion, ordered to be placed on file. Permission granted to berth bath at the said pier to remain during the will of the Board, provided a space of forty feet is maintained between bath and the southerly side of Pier 55, East river.

The application of Frank E. Bean for use of bulkhead foot of Forty-second street, with permission to erect ice-bridge thereat, was,

On motion, ordered to be placed on file. Permission granted, to be and remain there during the will of the Board, at a compensation of \$3 per day for each and every day weekly in advance to the Dock Master of the District, the work of erecting the ice-bridge under the direction and supervision of the Engineer-in-Chief of this Department.

The following preambles and resolutions were,

On motion, adopted :

Whereas, This Board did, on the 6th day of April, 1887, adopt a resolution requesting Chauncey M. Depew, President of the West Shore and Ontario Terminal, the West Shore Company, and the New York Central and Hudson River Railroad Company, to inform at what price the owners of one-half of Pier No. 33, old number, North river, and of one-half of Pier No. 34, old number, North river, and the bulkhead between said piers, would convey a cession of the said property to the Corporation of the City of New York ; and

Whereas, On the 26th day of May, 1887, the Board received a communication from Chauncey M. Depew, President, stating that the owners of one-half of Pier No. 33, old number, North river, and one-half of Pier No. 34, old number, North river, and of the bulkhead between the said piers, do not desire to sell the same, or any part thereof, and therefore respectfully request the Board to agree upon a price for the purchase thereof ; and

Whereas, This Department deems it proper to acquire, and is desirous of acquiring, in and for the benefit of the Corporation of the City of New York, the title and possession of one-half of Pier, old No. 33, North river, and one-half of Pier, old No. 34, North river, and the bulkhead between the said piers, together with all the rights, terms, easements and privileges pertaining thereto or connected with ; and

Whereas, No price can be agreed upon between the owners of said property and the Corporation for the purchase thereof ; therefore, be it

Resolved, That the Counsel to the Corporation of the City of New York be and he is directed to take legal proceedings to acquire said property rights, terms, easements and interests for the Mayor, Aldermen and Commonalty of said city, as required by law in such cases provided.

Resolved, That the permit issued on the 4th day of May, 1887, to James H. Caulfield of the Haverstraw Brick Company, to use and occupy the Pier foot of West Seventeen

river, be and hereby is revoked, to take effect May 31, 1887, and the Dock Master of the District hereby is directed to take charge of and collect all wharfage that may accrue thereat after date.

Resolved, That the compensation for the use of bulkhead foot of East Fourteenth street, East under permit issued to Peter McCullough on the 16th day of April, 1887, be and hereby is set to \$5 per week, payable weekly to the Dock Master of the District, to take effect from after Monday, May 30, 1887.

The Auditing Committee presented an audit of eighteen bills, amounting to \$17,967.75, which approved and ordered to be spread in full on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS,
CHARLES H. MARSHALL, { Auditing Committee

On motion, the Board adjourned.

G. KEMBLE, Secretary

At a special meeting of the Board of Docks, held May 27, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The Board went into executive session.

The communication from the Engineer-in-Chief recommending certain promotions and increase of force, was

On motion, ordered to be placed on file, and the President authorized to send the persons named for promotion to the Civil Service Supervisory and Examining Board for examination, also request the said Board to furnish this Department with the names of persons eligible for appointment as Engineer, Hydrographer and Draughtsman.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held June 1, 1887.

Present—Commissioners Matthews and Marshall.

Absent—Commissioner Stark.

On motion, Commissioner Marshall was elected President pro tem.

The minutes of the meetings held May 26 and 27, 1887, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action as stated, to wit :

From Counsel to the Corporation -In reference to the injunction prohibiting the Department from proceeding with the work of construction under the new plan, between West Twenty-seventh and Thirtieth streets, North river. Referred to the Engineer-in-Chief to examine and report.

From C. P. Huntington—Relating to the rebuilding of Pier, new 37, North river. Referred to Counsel to the Corporation for his opinion.

From C. A. Meigs, Chairman Committee on Transportation, New York Lumber Trade—
 asking an interview.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Department of Public Charities and Correction—Requesting repairs to Pier foot of
 Fifty-sixth street, East river. The President pro tem. authorized to request Commissioner
 to call on the Commissioners.

From Central Railroad Company of New Jersey—Advising the Board that they will make the
 repairs ordered to Pier 14, North river.

From Pennsylvania Railroad Company :

1st. Consenting to the cutting of string-piece on the outer end of Pier foot of Thirty-fifth
 North river, by J. M. Goetchins of the Fort Lee Steamboat Company.

2d. Requesting lease of one-half of the bulkhead between Piers, new 26 and 27, North river,
 permission to erect shed on said bulkhead.

3d. Stating that they will repair Piers 4 and 5, North river, in accordance with permit granted
 by the Board.

From New York, New Haven and Hartford Railroad Company—Advising the Board that they
 will make the repairs ordered to Pier 51, East river.

From J. H. Caulfield—Enclosing bill for legislative documents.

From Thomas E. Rochfort, attorney—Advising the Board that he will apply for an injunction
 any work is commenced by the Department at the bulkhead between Piers, new 26 and 27,
 North river.

From Baltimore and Ohio Railroad Co. :

1st. Requesting permission to drive and refasten piles at Pier, old 21, North river. The action
 of Commissioner Matthews in issuing a permit, the work to be done under the direction and super-
 vision of the Engineer-in-Chief, was approved.

2d. Requesting permission to make certain improvements to Pier, old 20, North river, as per
 plans and specifications submitted. Referred to the Engineer-in-Chief to examine and report.

3d. Respecting the repairs ordered to the water-pipes on Pier, new 43, North river. Referred
 to the Engineer-in-Chief to examine and report.

From William J. Sparks—Requesting renewal of permit for tally-house on Pier 10, East
 river. Permit granted ; to be and remain only during the will of the Board.

From Department of Public Works—Reporting that the free floating baths have been ordered
 into commission and service for the season.

From William J. McKenna—Requesting permission to erect a small shelter house on Pier 1 of Rivington street, East river. Referred to the Dock Master to examine and report.

From F. & M. Schaefer Brewing Co.—Requesting permission to open bulkhead foot of first street, East river, for the purpose of repairing suction-pipe. The action of Commodore Matthews in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From William P. Clyde & Co.—Requesting permission to drive piles at Pier 29, East river. Referred to the Engineer-in-Chief to examine and report.

From New York and Baltimore Transportation Line—Requesting permission to repair Piers 6 and 7, North river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Engineer-in-Chief:

1st. Reporting assignment of employees to special duty.

2d. Reporting that no repairs have been made by the owner or owners of the bulkhead between Piers 47 and 48, East river. The President pro tem. authorized to notify George Schieffelin, J. P. Joralemon and Beekman & Ogden, alleged owners, to make the repairs required in accordance with the order of the Board, dated the 13th day of April, 1887.

3d. Reporting that the Compagnie Generale Transatlantique have not placed new anchor plates on the northerly and southerly outer lower corners of Pier, new 42, North river, as ordered by the Board. The President pro tem. authorized to notify the said company to place new anchor plates thereat, under the direction and supervision of the Engineer-in-Chief of this Department.

4th. Repairs required to the bulkhead between Thirty-ninth and Fortieth streets, East river. The President pro tem. authorized to notify the Equitable Gas-light Company to place three courses of timber the entire length thereof, and repair and replace fenders, under the direction and supervision of the Engineer-in-Chief of this Department.

5th. Reporting that the sheathing on deck of Pier 11, East river, should be renewed with 4 inch plank. The President pro tem. authorized to notify D. Whipple, agent for owners, to make the said repairs, under the direction and supervision of the Engineer-in-Chief of this Department.

6th. Reporting that the Central Railroad Company of New Jersey have not made the required repairs to Pier 8 and shed thereon and platform on the south side thereof, North river. The President pro tem. authorized to notify the said railroad company that the repairs required to said pier and platform must be made as ordered by the Board, and to the satisfaction and under the direction of the Engineer-in-Chief of this Department.

7th. Reporting non-commencement of repairs to Pier, new 39, North river, and shed thereon. The President pro tem. authorized to notify the National Line lessees to make the repairs as ordered by the Board on the 30th day of April, 1887.

8th. Reporting repairs required to Pier 46, East river, and Pier, old 57, foot of Bogart street, North river. The Engineer-in-Chief directed to repair as recommended in his reports at a cost of \$400 and \$5, respectively.

jk. Reporting non-commencement of repairs to Pier, old 56, North river. The President pro tem. authorized to notify Daniel Shea, lessee, that he must make the repairs required in accordance with the order of the Board, dated May 11, 1887.

kl. Reporting non-commencement of removal of dumping-board on north side of bulkhead by fourth street, East river, as ordered. The President authorized to notify Claussen & Scheimer that unless the said dumping-board is removed at once the preambles and resolution of the Board on the 30th day of April, 1887, canceling the penalties imposed upon them and the rules will be rescinded.

lm. Reporting that the New York Central and Hudson River Railroad Company have not made repairs ordered to Pier, old 33, North river, and the bulkhead thereon. The President pro tem. authorized to notify the Hon. Chauncey M. Depew, President, of the repairs required and that they be made in accordance with the order of the Board, dated 10th of May, 1887.

ln. Reporting that repairs cannot be made to the bulkhead at Fifty-fourth street, East river, the bulkhead west of Corlears street and east of Pier 54, East river, until they are cleaned by the Department of Street Cleaning. The President pro tem. authorized to request the Department of Street Cleaning to clean the said bulkheads at the earliest possible date.

lo. Reporting non-commencement of repairs to Pier 40, East river, and the bulkhead thereon. Referred to Commissioner Matthews.

lp. Reporting that repairs have not been made to Piers 2 and new 44, North river. The President pro tem. authorized to notify the Lehigh Valley Railroad Company and the White Star Line, respectively, to make the repairs required as heretofore ordered by the Board.

lq. Reporting that repairs have not been made to the bulkhead foot of Forty-fourth street, East river.

lr. Report on Secretary's Order No. 6601, repairs required to Pier at Twenty-eighth street, East river. The Engineer-in-Chief directed to repair as recommended in his report, at a cost of \$150.

ls. Report on Secretary's Order No. 6606, that he had superintended repairing Pier 51, East river.

lt. Report on Secretary's Order No. 6531, that he had repaired bulkhead between Piers, old 35, North river.

lu. Report on Secretary's Order No. 6298, that he had superintended placing fender-piles, East river.

lv. Report on Secretary's Order No. 6463, that he had superintended and directed the laying of a gangway in the outer end of Pier at Fortieth street, North river.

lv. Report on Secretary's Order No. 6468, that he had directed and superintended the repairs to Pier at Thirty-sixth street, North river.

lv. Report on Secretary's Order No. 6519, that he had directed and superintended the repairs to bulkhead platform south of West Ninety-sixth street, North river.

23d. Report on Secretary's Order No. 6530, that he had repaired Pier foot of Fifty-first North river.

G. KEMBLE, Sec

[JUNE 6, 1887.]

At a special meeting of the Board of Docks held June 6, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The following preambles and resolutions were, on motion, adopted :

Whereas, The Old Dominion Steamship Company on the 31st day of May, 1884, submitted a communication to the Department of Docks, which contained a proposition to sell and convey to the City of New York the company's one hundred and twenty-five (125) feet of bulkhead or wharf property on West street, next south of Beach street, North river, for the sum of seventy-five thousand (\$75,000) dollars, conditioned that the Department of Docks would subsequently lease to the Old Dominion Steamship Company, at such rental as should be mutually agreed upon for a term of years coterminous with the Company's present lease of Pier, new 26, and of its renewals, the said one hundred and twenty-five (125) feet of bulkhead, next south of Beach street, and also the entire bulkhead between Piers, new 26 and 27, North river ; and

Whereas, This Board on the 4th day of June, 1884, by resolution unanimously passed, accepted the terms and conditions proposed by the Old Dominion Steamship Company, that it would purchase said property at seventy-five thousand (\$75,000) dollars, and resolved that the Department should comply with the other conditions, as far as the same may be lawful and consistent with the duties and obligations of their official positions, to lease to the Old Dominion Steamship Company the entire bulkhead between Piers, new 26 and 27, North river, and the one hundred and twenty-five (125) feet next southerly to Beach street ; and

Whereas, On the 6th day of August, 1884, the Corporation of the City of New York, acting by the Department of Docks, in pursuance of said resolutions entered into an agreement with the Old Dominion Steamship Company for the purchase of the Company's one hundred and twenty five (125) feet of bulkhead or wharf property next southerly of Beach street, and that said agreement of purchase was approved by the Commissioners of the Sinking Fund on the 4th day of September, 1884 ; and

Whereas, The Counsel to the Corporation found objections to passing the title to said property ;

Whereas, Subsequently, the Old Dominion Steamship Company removed said objections, and thereupon, on the 26th day of November, 1886, this Department reaffirmed said agreement of purchase, and resolved that if the Counsel to the Corporation should certify his approval of said title, and the Commissioners of the Sinking Fund if need be, should approve the same, this Department would draw its requisition in favor of the Old Dominion Steamship Company for the sum of \$75,000 in payment for said property ; and

Whereas, On said 26th day of November, 1886, this Department also passed certain other resolutions agreeing to lease to the Old Dominion Steamship Company the entire bulkhead between Piers, new 26 and 27, North river, and also the 125 feet of bulkhead southerly of said Pier 26, upon the completion of the work of constructing the same, at an annual rental of \$5,640, with a covenant of renewal ; and

[JUNE 6, 1887.]

Resolved, That shed or sheds shall be constructed subject to the regulations required by chapter of the Laws of 1875, and of sections 772 and 774 of chapter 410 of the Laws of 1882, commonly known as "The New York City Consolidation Act," and in conformity with plans to be first submitted and approved by the Board governing the Department of Docks, and all work to be done under the supervision of the Engineer-in-Chief of this Department; and provided further, that the said plans shall file in the office of this Department, within five (5) days after receipt hereof, a written statement that the said shed or sheds shall revert to and become the property of the Corporation of the City of New York upon the expiration or sooner termination of the lease of said bulkhead, free of all claim of every kind whatsoever; and be it further

Resolved, That a copy of this resolution be sent to the Old Dominion Steamship Company, and that the said company be requested to assent in writing to the same, and also to the previous resolution of this Department of date May 18, 1887, rescinding its said resolution of November 26, 1886, in compliance with the proviso attached to said resolution of the Commissioners of the Sinking Fund of April 20, 1887; and that the foregoing resolutions shall take effect only on receipt of said assent in writing from said Old Dominion Steamship Company, and on the completion of the purchase of the property therein described.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held June 8, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held June 1 and 6, 1887, were read and approved.

A communication from Thurber, Whyland & Co., respecting the application of E. J. Hamilton for appointment in the Department, was,

On motion, referred to Executive Session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Civil Service Supervisory and Examining Boards—Respecting amendment to Regulation No. 16, which was,

On motion, ordered to be spread in full on the minutes, as follows:

	CITY OF NEW YORK,	}
	CIVIL SERVICE SUPERVISORY AND EXAMINING BOARDS,	
	SECRETARY'S OFFICE, ROOM 11, CITY HALL,	
	NEW YORK, June 4, 1887.	

Hon. L. N. STARK, President Department of Docks:

DEAR SIR—The following amendment to Regulation 16 of the New York City Civil Service Regulations has been made:

JUNE 8, 1887.]

56

If the Appointing Officer shall notify the Secretary of more than one vacancy at any time, the Secretary shall certify to the Appointing Officer for appointment, the names of as many as there are vacancies to be filled, with the addition of two names for the first vacancy and one for every two vacancies in addition to the first.

Very respectfully,

LEE PHILLIPS, Secretary and Executive Officer

From Department of Street Cleaning :

1st. Requesting repairs to Pier foot of Thirty-eighth street, East river. The President advised that the Engineer-in-Chief of this Department has been directed to repair said

2d. Informing the Board that they will clean the bulkhead west of Corlears street and Pier 54, and bulkhead at Fifty-fourth street, East river.

From Baltimore and Ohio Railroad Company—Desiring to be informed where repairs needed at Pier. old 20, North river. The Engineer-in-Chief directed to furnish the information desired.

From The North American Exchange Company—Requesting copies of printed report Department. Referred to the Secretary.

From Hoboken Land and Improvement Company—Submitting plans and specifications improvement of ferry premises foot of Barclay street, North river. Referred to the Engineer-in-Chief to examine and report.

From Edward McDonald—Requesting permission to erect a temporary boat-house at O dred and Eighth street, North river. Referred to the Engineer-in-Chief to examine and report.

From Henry C. Phillips—Requesting permission to drive piles in front of premises, One Hundred and Thirty-seventh and One Hundred and Thirty-eighth streets, Harlem river referred to the Engineer-in-Chief to examine and report.

From White Star Line, lessees Pier, new 44, North river, advising the Board that they ask the Troy Steamboat Company to make the repairs required. The President authorized the said company that this Department expects them to proceed with the work of repairs heretofore ordered by the Board, as their arrangement with the Troy Steamboat Company affect the terms and conditions of the lease made with this Department.

From C. A. Meigs, Chairman, etc.—In reference to interview.

From C. B. Orcutt, agent—Inclosing check for \$175 to pay for repairing damage to Pier of West Seventeenth street, North river.

From Hudson River Transportation Company—Requesting the Board to include the Fifty-fifth street, North river, in the next sale of wharf property.

From William G. Tucker—Requesting permission to dredge and repair at Pier between One Hundred and Sixteenth and One Hundred and Seventeenth streets, Harlem river. Request granted, the work to be done under the direction and supervision of the Engineer-in-Chief Department.

New York Central and Hudson River Railroad Company—Requesting permission to use a space about 1,500 square feet on Pier, old 26, North river, the same to be used as a temporary waiting-room for passengers by the Hoboken Land and Improvement Company during the course of their proposed improvements. Permission granted, the said structure to be erected under the direction and supervision of the Engineer-in-Chief of this Department, and to remain by the will of the Board.

The President reported that he had issued the following permits, the same having been recommended by the Engineer-in-Chief of this Department, the work to be done under his direction and supervision :

Smith & Darling, to run a six-inch drain pipe through the bulkhead, between Piers 14 and 15, North river.

New Brunswick, Amboy & New York Steamboat Company, to place scale on south side of Pier 14 of Vesey street, North river.

Buck & Steljes, to repair Pier foot of Vesey street, North river.

Hartford and New York Transportation Company, to repair Pier 24, East river.

The President also stated that he had directed the Engineer-in-Chief to examine and report condition of water-front on First avenue, between Ninety-fourth and Ninety-seventh streets, the same being reported in a dangerous condition by the Police Department.

On motion, his action was approved.

Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending May 28 and June 4, 1887.

3d. Reporting the non-commencement of repairs to Pier at Forty-fourth street, North river. The President authorized to notify the New York Horse Manure Company, lessees, that unless they make the repairs heretofore ordered within ten days from receipt of notice, this Department will do the work at their expense.

4th. Reporting that repairs have not been made to the bulkhead and dumping-board foot of Forty-ninth street, East river. The President authorized to notify the Long Island Fertilizing Company that unless the repairs heretofore ordered are made within ten days from receipt of notice the said dump will be fenced off from use.

5th. Reporting non-commencement of repairs to Pier, new 43, North river. The President authorized to request Thomas M. King, Vice-President of the said company, to call on the Commissioners on Friday, June 10th instant, at 2 o'clock P. M.

6th. Reporting non-commencement of repairs to Pier at Sixth street, and bulkhead between Fifth and Seventh streets, East river.

7th. Repairs required at Pier 7, East river. The action of the President in directing the Engineer-in-Chief to repair, was approved.

8th. Reporting completion of repairs to Pier at One Hundred and Fifty-second street, East river, under Contract No. 239. The action of Commissioner Marshall in directing the Dock to collect wharfage from all vessels using said pier from and after June 2d instant, was approved.

9th. Reporting repairs needed to approach to Piers, new 46 and 47, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to repair, was approved.

10th. Report on Secretary's Order No. 6627, in reference to the application of the Delaware and Ohio Railroad Company for permission to drive piles and cut gangway at Pier, old 20, East river. The action of Commissioner Marshall in issuing a permit, the said work to be done in accordance with plan submitted and under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

11th. Report on Secretary's Order No. 6602, repairs required to Pier at Thirty-eighth street, East river. The Engineer-in-Chief directed to repair as recommended in his report, at a cost of about \$200.

12th. Report on Secretary's Order No. 6566, repairs required to sheathing on deck of Pier 61, East river. The President authorized to notify the Union Ferry Company, lessees, to repair the east half and the alleged owner or owners to repair the west half, under the direction and supervision of the Engineer-in-Chief of this Department.

13th. Report on Secretary's Order No. 6565, repairs required to sheathing on deck of Pier 61, East river. The Engineer-in-Chief directed to repair the west half, as recommended in his report, at a cost of about \$65. The President authorized to notify David Whipple, agent of the owners, to repair the sheathing on the east half of said pier, under the direction and supervision of the Engineer-in-Chief and in conjunction with this Department, who will repair the west half.

14th. Report on Secretary's Order No. 6097, that he had superintended driving piles at Pier 61, East river.

15th. Report on Secretary's Order No. 6500, that he had superintended repairing south bulkhead at Christopher street, North river.

16th. Report on Secretary's Orders Nos. 6520 and 6521, that he had superintended repairing portion of bulkhead between Piers 61 and 62, East river, not owned by the City, and had repaired the City's portion of said bulkhead.

17th. Report on Secretary's Order No. 6529, that he had repaired Pier at Forty-sixth street, North river.

18th. Report on Secretary's Order No. 6570, that he had repaired Pier 46, East river.

19th. Report on Secretary's Order No. 6580, that he had repaired dumping-board at Twelfth street, North river.

20th. Report on Secretary's Order No. 6584, that he had superintended repairing deck of Pier 23, East river.

21st. Report on Secretary's Order No. 6585, that he had superintended repairing sheathing on deck of Pier 23, East river.

22d. Report on Secretary's Order No. 6589, that he had superintended cutting gangway at Pier East river.

23d. Report on Secretary's Order No. 6608, that he had repaired Pier 59, East river.

24th. Report on Secretary's Order No. 6613, that he had superintended the erection of awning in front of Pier, new 26, North river.

25th. Report on Secretary's Order No. 6617, that he had superintended repairing hole in approach to Pier, old 20, North river.

26th. Report on Secretary's Order No. 6618, that he had superintended repairing hole south of Pier, old 34, North river.

27th. Report on Secretary's Order No. 6620, that he had superintended erecting ice bridge on bulkhead at Forty-second street, East river.

28th. Report on Secretary's Order No. 6625, that he had repaired deck of Pier at Forty-sixth street, North river.

29th. Report on Secretary's Order No. 6637, that he had repaired deck of approach to Piers, new 46 and 47, North river.

30th. Report on Secretary's Order No. 6640, that he had repaired the surface of Pier 7, East river.

31st. Report on Secretary's Order No. 6615, that he had directed and superintended cutting gangway in backing-log on end of Pier at Thirty-fifth street, North river.

32d. Report on Secretary's Order No. 6632, that he had repaired Pier, old 57, North river.

33d. Report on Secretary's Order No. 6639, that he had directed and superintended running six-inch pipe from Nos. 51 and 52 South street, through bulkhead, between Piers 13 and 14, East river.

From Patrick J. Brady, Dock Master - Reporting that the bulkhead-platform foot of Twenty-fourth street, North river, requires cleaning. The action of the President in requesting the Department of Street Cleaning to clean, was approved.

From Patrick Curley, Dock Master :

1st. Reporting repairs needed to Pier, new 43, North river. The action of the President in directing the Engineer-in-Chief to examine and repair if necessary, was approved.

2d. Reporting that the bulkheads, between Piers, new 36 and 43, North river, require cleaning. The action of the President in requesting the Department of Street Cleaning to clean, was approved.

From John Simpson, Dock Master—Reporting that the south side of Pier, old 33, North river, is in a dirty condition and should be cleaned as soon as possible. The action of the President in directing the New York, Catskill and Athens Steamboat Company, lessees, to clean the said premises, was approved.

From Eugene McCarthy, Dock Master—In reference to the application of W. J. McKenna, for permission to place a watchman's house on the Pier foot of Rivington street, East river, and stating that if the said house is erected on wheels it would not be an encumbrance.

JUNE 8, 1887.]

60

On motion, permission was granted to W. J. McKenna to place a watchman's house on Pier, under the direction of the Dock Master of the District, to be and remain during the will of the Board, provided it does not exceed 6 feet square and is placed on wheels.

On motion, the subject matter respecting the renewal of insurance on sheds on Piers, new 46, and furniture, etc., in offices on Pier A, North river, was referred to the Treasurer, Commissioner Matthews.

The following resolution was,

On motion, adopted :

Resolved, That permission be and is hereby granted to John Dorschell to locate a floating dock at the foot of Eighty-first street, North river, to be and remain during the will of the Board, provided he pays as compensation for the use thereof, at the rate of \$40 per month, payable monthly (or during occupancy), to the Treasurer of this Department, commencing June 1, 1887.

The Treasurer, Commissioner Matthews, reported that he had received the following Estimate for furnishing the Department with 2,500 cubic yards of cobble stones :

Brown & Fleming, per cubic yard
P. Cianciennino, per cubic yard.....

And recommended that the order for furnishing the same be awarded to Brown & Fleming, being the lowest bidders.

On motion, the report was received and recommendation adopted.

The Treasurer, Commissioner Matthews, presented his report of receipts for the week ending June 7, 1887, amounting to \$33,834.16, which was received, and ordered to be spread in full on minutes, as follows :

G. KEMBLE, Secretary.

[JUNE 8, 1887.]

62

At a special meeting of the Board of Docks, held June 8, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

A communication from the Old Dominion Steamship Company assenting to the adopted by the Board May 18, 1887, rescinding the resolution adopted on the 26th day of 1886, in reference to the leasing of the bulkhead or wharf property adjoining Pier, new river, was,

On motion, ordered to be placed on file.

A communication from the Old Dominion Steamship Company agreeing to the terms of the resolutions adopted on the 6th day of June, 1887, in respect to leasing to company the entire bulkhead on West street, between Piers, new 26 and 27, North river, and dred and twenty-five feet of bulkhead next southerly of said Pier, new 26, North river, with shed the same, was,

On motion, ordered to be placed on file, and the President authorized to transmit a said communication to the Counsel to the Corporation.

On motion, the Board adjourned.

G. KEMBLE, Secy

At a special meeting of the Board of Docks, held June 11, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meeting, held June 8, 1887, were read and approved.

A communication from Simon Stevens, attorney for the New York, New Haven and Railroad Company—Requesting a renewal of lease of wharf property at Gouverneur river, with permission to shed Piers 51 and 51½, East river, and build a platform and shed said piers, was

On motion, laid on the table until the next regular meeting.

A communication from the Standard Gas-light Co.—In reference to bulkhead, between Hundred and Fourteenth and One Hundred and Fifteenth streets, Harlem river, was

On motion, laid on the table, and the President authorized to request Mr. A. A. Havens, Vice-President, to call on the Commissioners on Tuesday, June 14th instant, at 2 P. M.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated

From Counsel to the Corporation—Opinion in reference to the proposition of C. P. Havens, respecting the rebuilding of Pier, new 37, North river. The Secretary directed

recorded in the Book of Opinions. The action of the President in conferring with the Counsel of the Corporation in relation thereto, approved.

From Department of Street Cleaning—Requesting removal of obstructions at bulkhead between West Tenth street and Pier 54, East river. The action of the President in directing the Dock Master to have said obstructions removed, was approved.

From Thomas F. White—Requesting temporary use of some dock on North river or portion of same from which dead animals, butchers' offal, etc., may be removed, as the pier now in use for that purpose, foot of Thirty-eighth street, North river, is in a very unsafe condition.

On motion, a temporary berth was assigned for said purpose at the north side of Pier foot of West Forty-seventh street, North river.

From Simon Stevens, Attorney for private owners of Piers 12, 13 and 14, East river—Relating dredging slips on east side of Pier 13, East river.

On motion, the Engineer-in-Chief was directed to make requisition for dredging thereat, and report the cost for collection from the owner or owners.

The President authorized to advise the Department of Street Cleaning, that any arrangement made with them by private parties for the use of the dumping-board at Pier 12, East river, must be cancelled, and the use of the dump confined strictly to the uses and purposes of the said Department.

From William M. Tebo—Requesting that the time to complete the work of dredging in the half slip west of Pier 19, east side Pier 43, west side of Pier 44, and the bulkhead between Piers 43 and 44, East river, under contract No. 244, be extended thirty days.

On motion, the time was extended thirty days, from June 15, 1887.

From Wing & Evans—Respecting obstructions of soda ash, etc., on new made land, between Canal and West Tenth streets, North river.

From The Consolidated Gas Company—Requesting permission to excavate for leak on the surface of bulkhead south of Pier, new 1, North river. The action of the President in issuing a permit, the work to be done and the pavement relaid under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From F. P. Eastman—Agreeing to pay 50 cents per day for use of bulkhead, foot of Thirty-ninth street, East river, until such time as an approach is built thereat. Also requesting permission to locate a floating dumping-board on the south side of the south pier at Eighty-sixth street, East river. Referred to the Treasurer, with power.

From Tinsley Brothers—Requesting permission to erect a structure on the bulkhead, between One Hundred and Twenty-second and One Hundred and Twenty-third streets, Harlem river. The action of the President in issuing a permit, the said structure to be erected under the direction and supervision of the Engineer-in-Chief of this Department, and be and remain during the will of the Board, was approved.

From Quebec Steamship Company—Respecting berth at Pier, new 43, North river. The President authorized to request Mr. Outerbridge to call on the Commissioners.

From Engineer-in-Chief :

1st. Repairs required to doors of shed on Pier, new 46, North river. The Engineer directed to prepare specifications and receive estimates for making said repairs as recommended in his report.

2d. Recommending that the time for completion of Contract No. 239 for repairing 1 foot of West One Hundred and Fifty-second street, North river, be extended to and June 2, 1887.

On motion, the time was extended as recommended by the Engineer-in-Chief.

3d. Report on Secretary's Order No. 6450, dredging required in half slips adjoining 159 and 60, North river. The Engineer-in-Chief directed to prepare specifications and contract for dredging the half slips adjoining each side of Pier, new 59, North river, to a twenty-five feet at mean low water, as recommended in his report.

4th. Report on Secretary's Order No. 6652, that he had examined the plans and specifications submitted by the Hoboken Land and Improvement Company, for proposed improvement of Barclay street, North river, and find them sufficient and proper for the purpose, and recommend that they be approved.

On motion, the report was received and recommendation adopted. The President directed to notify the Hoboken Land and Improvement Company and the Engineer-in-Chief of the Board.

5th. Report on Secretary's Order No. 6576, in relation to the application of Albert H. H. mission to build and maintain a float foot of One Hundred and Seventy-sixth street, Harlem river. Permission granted said float to be placed thereat, under the direction of Master of the district, and to be and remain during the will of the Board.

6th. Report on Secretary's Order No. 6575, in reference to the application of Burns for permission to erect a structure on the bulkhead between Piers 59 and 60, East river. It is granted, the said structure to be erected under the direction and supervision of the Engineer of this Department and to be and remain during the will of the Board.

On motion, Frank Quinn was appointed laborer, and John Lysaght, Peter Lang and Whalen, ship carpenters.

The following resolution was,

On motion, adopted :

Resolved, That permission be and hereby is granted to Garrett May, to place a lan for boats, with a gangway thereto, at bulkhead on southerly side of Pier, new 57, North same to be and remain thereat only during the pleasure of the Board, and to be used for the purpose of affording facilities for the use of small boats, at a compensation of \$3.50 per week payable to the Dock Master of the district.

On motion, the Board adjourned.

G. KEMBLE, Sec

At a meeting of the Board of Docks held June 15, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held June 11, 1887, were read and approved.

A communication from Rice & Bijur, attorneys for the East River Ferry Company, requesting permission to assign to the Metropolitan Ferry Company the lease of the south half and outer end of pier at the foot of East Thirty-third street, and the lease of the north half except outer end of the pier, was,

On motion, referred to Commissioner Marshall to examine and report.

The application of Edward C. Sheehy for use of dumping-board now being built at the foot of Eightieth street, East river, to take dirt from cellar excavations, was,

On motion, laid on the table.

The following communications were received, and,

On motion, ordered to be placed on file, action being taken where necessary as stated, to wit :

From Counsel to the Corporation :

1st. Respecting the proposition submitted by C. P. Huntington for the rebuilding of Pier, new North river. The Secretary directed to have the same recorded in the Book of Opinions.

2d. Approving forms of contract for building a crib-bulkhead at the foot of Seventy-sixth street, North river.

3d. Approving forms of contract for building a new wooden pier at the foot of West One Hundred and Thirty-second street, North river, and for building a new crib bulkhead at and south of West One Hundred and Thirty-second street, and repairing the crib bulkhead northerly of the crib at the foot of West One Hundred and Thirty-first street, North river.

4th. Respecting the case of Edward G. Ames.

On motion, the order of the Court, reinstating Edward G. Ames as Clerk in this Department, was complied with, and the President authorized to notify him to appear for duty on Thursday, June 16th instant.

From Daniel Shea, lessee—Enclosing copy of proposal for repairs to Pier foot of Gansevoort street, North river.

From Sanderson & Son, lessees Pier, new 54, North river—Requesting permission to erect a temporary structure on said pier. Referred to the Engineer-in-Chief to examine and report.

From Civil Service Supervisory and Examining Board—Submitting eligible list of Chainmen. The Engineer-in-Chief directed to examine and report as to the qualifications of the parties named.

From Edward G. Ames—Submitting statement of account. Referred to the Auditing Committee to examine and audit if correct.

From Comptroller of the City, enclosing copy of opinions of the Counsel to the Corporation

1st. In reference to the application of John Dunn for the return to him of the sum of deposited December 27, 1886, with bid submitted by him to repair Pier at One Hundred and second street, North river. Referred to the Treasurer.

2d. Advising the Board that he has informed the Counsel to the Corporation that the New Lake Erie and Western Railroad Company offer to settle claim of the City now in suit for the north half of Pier 29, North river, from February 1, 1880, to August 12, 1881, for \$5,000.

From Rochfort & Barbour, attorneys for Frank Phelps, lessee of Pier 40, East river—Regarding the repairs required to said pier. The President authorized to request Mr. Phelps to call on Commissioners on Friday, 17th instant, at 1 o'clock.

From Old Colony Steamboat Company—Requesting permission to repair spring-piles at end of Pier, old 28, North river. The action of the President in issuing a permit, the work to be under the direction and supervision of the Engineer-in-Chief, was approved.

From Ward & Olyphant—Requesting permission to drive about forty-eight piles on the side of the bulkhead, fifty feet by thirty upon the southwest side of Third street, towards Houston at East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From D. Boughton, Superintendent of Ferries West Shore Railroad—Requesting permission to drive ten piles on the north side of Pier, old 33, North river, to complete necessary repairs to the slip, at foot of Jay street, North river.

On motion, the action of the Secretary in replying to said communication was reconsidered and the Secretary directed to advise Mr. Boughton, that until the repairs ordered March 10, 1887, to the ferry-rack, and the pier and shed known as Pier, old 33, North river, are made, no further permit will be issued.

From John W. Flaherty—Requesting that the time to complete the work of rebuilding the foot of East Thirty-seventh street, East river, under Contract No. 242, be extended one month. Referred to the Engineer-in-Chief to examine and report.

From Union Steamboat Company—Requesting permission to use the first derrick on the land side of Pier 7, East river, in addition to the two now in use by them on said pier. The action of the Secretary in directing the said company to confer with the Dock Master of the District was approved.

From Canda & Kane—Offering \$7 per week for lease of bulkhead foot of Fourteenth street, East river. Referred to the Treasurer to examine and report.

From Department of Street Cleaning—Objecting to location of bath at Pier foot of Rivington street, East river. Referred to the Engineer-in-Chief to examine and report.

From McDonough & Co.—Requesting permission to drive piles on the north side of Harlem river just above Madison Avenue Bridge. Permission granted, provided the piles are kept inside the canal line, the work to be done under the direction and supervision of the Engineer-in-Chief of the Department.

Engineer-in-Chief :

reporting assignment of employees to special duty.

reporting the amount of work done during the week ending June 11, 1887.

recommending that the permit issued to C. H. Mallory & Co., April 22, 1886, to erect an on the bulkhead, between Piers 20 and 21, East river, be revoked, as no plans and ns have been submitted up to date.

tion, the said permit was revoked, and the President authorized to notify the Engineer-nd C. H. Mallory & Co., of the action of the Board.

reporting that he had repaired damage to pier at Seventeenth street, North river, caused "Kanawah."

Report on Secretary's Order No. 6624, condition of sheathing on the deck of Pier 60, East : Engineer-in-Chief directed to repair as recommended in his report, at a cost of about \$75.

Report on Secretary's Order No. 6623, repairs required to the sheathing on the deck of Pier ver. The Engineer-in-Chief directed to repair the east half as recommended in his report, of about \$80, and the President authorized to notify the New York Ferry Company to west half, under the direction and supervision of the Engineer-in-Chief of this it.

Report on Secretary's Order No. 6448, that he had directed and superintended repairing ighth street, East river.

Report on Secretary's Order No. 6474, that the placing of a platform scale on the north r foot of Seventy-ninth street, East river, had been done under his direction and super-

Report on Secretary's Order No. 6497, that he had superintended the taking up of a the flooring or sheathing that forms the approach to Pier, new 21, North river.

Report on Secretary's Order No. 5843, that he had superintended the erection of a sewer the Old Colony Steamboat Company at Pier, old 28, North river.

motion, the bids received were laid over for examination, and the President authorized to forward to the Comptroller the security deposits made by the several bidders and accompanying estimates.

motion, the Board took a recess until 2 o'clock, P. M.

which hour all of the Commissioners were present.

minutes of the meeting held June 15, 1887, were read and approved.

report of the Engineer-in-Chief on Secretary's Order No. 6651, respecting the application of McDonough for permission to erect a temporary boat-house at the foot of One Hundred and Thirty-second street, North river, was,
motion, laid on the table.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated.

From Hon. Abram S. Hewitt, Mayor—Reference to occupation of Bulkhead foot of Forty street, East river, by Frank E. Bean. Referred to the Secretary to reply thereto.

From Thomas F. White—Requesting removal of obstructions from Pier at Forty-seventh North river.

On motion, the action of the Board, dated June 11, 1887, assigning a temporary berth pier, from which dead animals, butchers' offal, etc., may be removed, was reconsidered, and subject matter, respecting the assignment of a berth, was laid over for further consideration.

From Comptroller of the City—Respecting the resolution adopted for the purchase of bulk and wharf property from the Old Dominion Steamship Company.

From Simon Stevens, attorney—Relating to repairing sheathing on Pier 12, East river.

From F. W. J. Hurst, manager—Reference to Pier, new 46, North river.

From C. A. Meigs, Chairman, etc.—Appointing Monday, June 20th instant, for an interview with the Commissioners.

From Hebrew Shelter Guardian Society—For permission to erect a bath-house, etc., between One Hundred and Fiftieth and One Hundred and Fifty-first streets, North river. Referred to Engineer-in-Chief to examine and report.

From Eugene McCarthy, Dock Master :

1st. Reporting that the sheathing of Pier 48, East river, needs repairing. The action of President, in directing the Engineer-in-Chief to repair, if necessary, was approved.

2d. Reporting that he had removed the lumber from bulkhead, between Piers 52 and 53, East river, to the storehouse of W. B. Smith's Son, No. 52 Corlears street.

On motion, his action was approved.

From Engineer-in-Chief—Reporting the dumping of rubbish in the open sewer trench foot West Fifty-sixth street, North river. The Secretary directed to notify James Brooks to call on Commissioners to show cause why penalty should not be imposed upon him for violation of law.

A communication from the Engineer-in-Chief in reference to the estimates received for building a crib-bulkhead at the foot of East Seventy-sixth street, East river, was

On motion, ordered to be placed on file, and the following preamble and resolution were unanimously adopted :

Whereas, This Board deems it for the interests of the City to reject all bids received this day for preparing for and building a crib-work bulkhead at the foot of East Seventy-sixth street, East river ; therefore

Resolved, That all the bids received this day, namely :

- No. 1. From John W. Flaherty, for \$5,300,
- No. 2. From O'Connell & Coffey, for \$4,945,
- No. 3. From Joseph Walsh, for \$6,000,

and hereby are rejected, and the Secretary be and hereby is directed to readvertise inviting bids for doing said work, inserted in the papers designated by law.

The following resolution was adopted :

Resolved, That the contract opened this day for building a new wooden Pier, etc., at the foot of the Hundred and Thirty-second street, North river, be and hereby is awarded to O'Connell & Coffey, they being the lowest bidders, upon the approval of the sureties by the Comptroller of the City.

Commissioner Stark offered the following resolution, which was unanimously adopted by the affirmative votes of Commissioners Stark, Matthews, and Marshall :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the removal of the old Pier at the foot of West Thirty-eighth street, North river, and with the construction of a new pier with a temporary approach thereto, within and upon the established lines for the same, at the foot of West Thirty-eighth street, and that all the work hereby ordered be performed otherwise than by contract as required by section 714 of the Consolidation Act, and that it be done by the force of the Department by days' work, except so much of the labor and material, as is now or may hereafter be contracted for, and that all the material and dredging necessary therefor, not heretofore contracted for, or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

On motion, the following resolutions were adopted :

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans and specifications for building a pier in accordance with the new plan at the foot of West Thirty-eighth street, North river, with a temporary approach thereto.

Resolved, That the time for closing the contracts made with the Hon. Alfred C. Chapin, Attorney for the Screw Dock Company, party of the first part, with the Mayor, Aldermen and Comptroller of the City of New York, acting by the Department of Docks, party of the second part, for the sale of 303 feet of bulkhead or wharf property on South street, including the right, title and interest in and to Pier No. 39, East river, in the City of New York, be and the same is hereby postponed and postponed to July 18, 1887.

The following preamble and resolution were adopted :

Whereas, The Commissioners of the Sinking Fund have approved of the agreement for the purchase by the Corporation of the City of New York from the Old Dominion Steamship Company of the 125 feet of bulkhead next southerly from Beach street, North river, for the sum of \$75,000, subject to the examination of the title to the same by the Counsel to the Corporation ; therefore,

JUNE 16, 1887.]

74

Resolved, That requisition be drawn and transmitted by the President to the Finance Department in favor of the Old Dominion Steamship Company, for the sum of \$75,000, for purchase money for the said wharf property, upon the approval of the title by the Council Corporation.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held June 21, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The Board met for the purpose of receiving estimates for building a new wooden Pier foot of West Thirty-first street, North river, to be known as Pier, new 61, North river, advertisement be opened this day at 12 o'clock M. A representative of the Comptroller was present. estimates were received as follows :

No. 1. Joseph Walsh, accompanied with \$675 check.....	\$48.00
No. 2. P. Sanford Ross, accompanied with \$675 in money.....	50.75
No. 3. James D. Leary, accompanied with \$675 in money.....	52.50
No. 4. John Gillies, accompanied with \$675 in money.....	56.30

On motion, the President was authorized to transmit to the Comptroller the security deposit made by the several bidders and accompanying their respective estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for building a new wooden pier with its appurtenances at the foot of West Thirty-first street, North river, be and hereby is awarded to Joseph Walsh, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

a meeting of the Board of Docks, held June 22, 1887.

Present—Commissioners Stark, and Matthews.

Absent—Commissioner Marshall.

The minutes of the meetings, held June 16 and 21, 1887, were read and approved.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Comptroller of the City—Requesting a map of wharf property used for ferry purposes at Forty-third street, North river. The Engineer-in-Chief directed to prepare maps as requested.

From Consolidated Gas Company—Requesting permission to repair trestle-work on Pier, between Forty-first and Forty-second streets, North river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Hon. George W. Plunkett—Objecting to the placing of offal dock at Pier, foot of West Forty-seventh street, North river.

From Counsel to the Corporation—Approving form of contract for building Pier at West Thirty-third street, North river.

From Department of Street Cleaning—Respecting the berthing of bath at Pier, foot of Rivington street, East river. Referred to the Engineer-in-Chief to examine and report.

From New York, Catskill and Athens Steamboat Company—Reporting dangerous condition of Pier, old 33, North river. The action of the President, in directing the Engineer-in-Chief to examine and report, was approved.

From James McClenahan—Requesting dredging at Pier, foot of West Thirtieth street, North river.

From Ward and Olyphant—Requesting permission to drive piles and erect coal pockets inside the wharf, between Houston and Third streets, East river. The action of the President, in directing the Engineer-in-Chief to examine and report, was approved.

From John C. Munzinger—Requesting permission to erect a watchman's house foot of One Hundred and Thirty-fifth street, Harlem river. Permission granted, the said house to be erected thereat under the direction of the Dock Master, and remain only during the will of the Board.

From James Brooks—In reference to the complaint made against him for dumping rubbish in the river at the foot of Fifty-sixth street, North river.

From S. A. Frost—Requesting permission to repair Pier 28, East river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Board of Arbitration—In reference to contract for building Pier at the foot of West Thirty-fourth street, North river. Referred to the Engineer-in-Chief to examine and report.

From a Tax-payer—Reporting that from 30 to 60 tons of butchers' manure is washed into the river between Forty-fifth and Forty-seventh streets, East river. Referred to the Dock Master of the river to examine and report.

From F. Alexander & Sons—Requesting permission to drive piles at Pier 3, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From White Star Line—Requesting permission to remove buffer and replace same with north corner of Pier, new 44, North river. Referred to the Engineer-in-Chief to examine and report.

From Department of Taxes and Assessments—Requesting map of water-front, between Twenty-third and Thirty-third streets, North river. The Engineer-in-Chief directed to prepare diagram and report.

From Joseph B. Erwin, Dock Master—Reporting holes in deck of Pier, foot of Forty and Fifty-first streets, North river. The action of the President, in directing the Engineer-in-Chief to examine and repair if necessary, was approved.

From Anthony Hartman, Dock Master—Reporting that the bulkhead from Ninetieth and first street, East river, is in a dangerous condition. The action of the President, in directing the Engineer-in-Chief to examine and report, was approved.

From Patrick Curley, Dock Master :

1st. Recommending that a row of fender piles be placed at the outer end of Pier 11, Eleventh street, North river.

2d. Reporting holes in pavement of approach to Pier, new 42, North river. The action of the President, in directing the Engineer-in-Chief to examine and report, was approved.

From Joseph F. Sharkey, Dock Master :

1st. Reporting that the bulkhead and pier, between Seventy-eighth and Eightieth streets, North river, and the bulkhead between One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North river, require cleaning. The action of the President, in requesting the Department of Cleaning to clean, was approved.

2d. Reporting that repairs are required to surface of Pier, foot of One Hundred and Twenty-eighth street, North river. The action of the President, in directing the Engineer-in-Chief to examine and report, was approved.

From Charles H. Thompson, Dock Master :

1st. Reporting that the dumping-board on Pier 12, East river, is still being used for reception of cellar dirt. The Dock Master directed to serve a notice on the Barney Dumping Company, notifying them that they must at once discontinue using the dumping-board, as the Department will not allow the said dumping-board to be used by any other than the Department of Cleaning, for the uses and purposes of said Department.

2d. Reporting a hole in the deck of Pier 7, East river. The action of the President, in directing the Engineer-in-Chief to repair, was approved.

From Patrick J. Brady, Dock Master—Reporting that the backing-log on the inner end of Pier new 59, North river, needs replacing and the Pier is in need of cleaning. The Engineer-in-Chief directed to replace backing-log, and the President authorized to request the Department of Cleaning to clean said Pier.

Engineer-in-Chief:

Reporting assignment of employees to special duty.

Reporting the amount of work done during the week ending June 18, 1887.

Recommending that a gangway be made in outer end of Pier at West Thirty-fourth street, or, in order to accommodate passenger steamboats plying on the North river. The action of the Board, in directing the Engineer-in-Chief to make gangway as recommended in his report at a cost of \$85, was approved.

Reporting non-removal of stone dumped at Pier foot of West Fifty-fifth street, North river. to the Treasurer.

Reporting the amount of material excavated by the Union Dredging Company with its dredges during the month of May, 1887. The Treasurer authorized to make out bill for that amount from Union Dredging Company.

Reporting non-commencement of dredging at dumping-board foot of West Thirty-seventh street, North river.

Reporting that the order to dredge thereat, dated April 13, 1887, was revoked, and the President of the Board to notify Thomas Scully and the Engineer-in-Chief of the action of the Board.

Reporting damage to cluster of piles at outer end of Pier 59, East river. The Engineer-in-Chief directed to drive a new cluster of second-hand piles thereat as recommended in his report, at a cost of about \$40.

In reference to the communication received from G. B. Lawton requesting the Department to take action with the improvement of the water-front between Gansevoort and West Thirtieth street, North river.

Report on Secretary's Order No. 6302, dredging required in slip adjoining Pier at One and Seventeenth street, Harlem river. The Engineer-in-Chief directed to make requisition for the work as recommended in his report, at a cost not to exceed \$900.

Report on Secretary's Order No. 6685, in reference to the application of Ward & Olyphant to erect a coal pocket and drive piles at bulkhead south of Third street, towards Houston street, East river. The action of Commissioners Matthews and Marshall in granting a permit to the applicant to excavate a pocket with a proper foundation of piles on the bulkhead, provided that the said pockets be at least 10 feet in the clear along the surface of the bulkhead, and that they shall be set back at least five feet from the outer end of the bulkhead, and that the bulkhead shall be sufficiently strengthened for the prosecution of the work, the said coal pockets to be and remain only during the term of the Board, and to be constructed under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

Reporting that alleged owners have not dredged at Piers 3 and 4, East river. The President of the Board authorized to notify the alleged owners that unless they commence to dredge within fifteen days after receipt of notice, this Department will do the work at their expense.

Transmitting Inspector's report of material used under contract No. 239, repairing Pier at West Hundred and Fifty-second street, North river.

25th. Report on Secretary's Order No. 6656, that the work of repairing service-pipe, taking and relaying pavement south of Pier, new 1, North river, had been done by the Consolidated Company.

Report on Secretary's Order No. 6434, that he had directed the running of a twelve-inch bulkhead, between Fifty-fourth and Fifty-fifth streets, East river.

Report on Secretary's Order No. 5276, respecting the erection of an open shed at bulkhead between Piers 20 and 21, East river.

Report on Secretary's Order No. 6180, that he had superintended repairing bulkhead for about sixty-six feet south of the southerly line of West Fortieth street, North river.

Report on Secretary's Order No. 6201, that he had made requisition for dredging at south pier and along bulkhead at Sixty-second street, East river.

Report on Secretary's Order No. 6230, that he had supervised the erection of a temporary walk on piles north of Madison Avenue Bridge, east side of Harlem river.

Report on Secretary's Orders Nos. 6220, 6221, 6224 and 6236, that he had made requisition for dredging under and in front of the dumping-board foot of Market street, Seventeenth street to Forty-sixth street, East river.

Report on Secretary's Order No. 6257, that he had repaired shed Pier, new 46, North river.

Report on Secretary's Order No. 6418, that he had directed and superintended the erection of a boat-house on the bulkhead between One Hundred and Second and One Hundred and Third streets, Harlem river.

Report on Secretary's Order No. 6604, that he had made requisition for dredging at Forty-sixth street, facing Bellevue Hospital, East river.

Report on Secretary's Order No. 6609, that he had repaired Pier at One Hundred and Second street, Harlem river.

Report on Secretary's Order No. 6643, that he had directed and superintended the patching of sheathing on north half of Pier, old 23, North river.

The Treasurer, Commissioner Matthews, to whom was referred the matter in relation to the claim of \$62.50 against Bogert & Morgan for the use of land under water for platform at south side of Pier, old No. 36, North river, for the three months commencing June 1, 1887, reported that he had carefully examined the questions submitted and is inclined to think that the platform for which the \$62.50 is claimed, was embraced in and passed under the sale of April last, and that the \$3,500 covers the amount rental of the whole, and recommended that the claim for \$62.50 rental be withdrawn and canceled of record.

On motion, the report was received, recommendation adopted, and the President authorized to notify the Chief Clerk and Messrs. Bogert & Morgan of the action of the Board.

A communication from the Engineer-in-Chief reporting the non-commencement of repairs to the bulkhead, between Thirty-ninth and Fortieth streets, East river, was

On motion, ordered to be placed on file, and the following preambles and resolution were adopted :

Whereas, on the 6th day of June, 1887, a notice dated June 1, 1887, from this Department, was duly served upon the Equitable Gas-light Company directing them to make the necessary repairs to

the bulkhead, between Thirty-ninth and Fortieth streets, East river, in the manner and in said notice stated, and

Whereas, The said Equitable Gas-light Company have neglected to make ~~so~~ thereby required and directed by this Department, although duly notified and requi therefore

Resolved, That the Equitable Gas-light Company be and hereby are ordered, required to be and appear before the Board of Commissioners of Docks at a meeting to l Board Room of this Department at Pier "A," Battery place, North river, on Thursday, J at 2 o'clock in the afternoon of that day, and show cause why such repairing has not be why penalty should not be imposed, as provided in section 717 of chapter 410 of the L for failure and neglect to comply with the order and direction of this Department, a cause why this Department should not take such further or other action in the premis proper.

The report of the Engineer-in-Chief, stating that the New York Horse Manu lessees, had not repaired Pier at Forty-fourth street, North river, was

On motion, ordered to be placed on file, and the following preambles and res adopted :

~~Whereas,~~ The New York Horse Manure Company have been duly ordered, notified to replace the lower armature plate at outer southerly corner and refasten the armature northerly corner of said pier, and such other repairs as they have been ordered to make

Whereas, The said New York Horse Manure Company have failed and neglect work or make such repairs as so ordered and required, and

Whereas, The lease under which the said company holds and uses the said p among other things, that the said company will at all times during the term of the leas and maintain the said wharf property and every part thereof and the structures thereon sufficient repair and condition, and

Whereas, The said lease also provides that in case the said company shall neglect make repairs as therein stated, the said lease shall become null and void, or the D Docks may, at its option, make such repairs at the cost and expense of said company ; fore, be it

Resolved, That the New York Horse Manure Company be and hereby are orde and required to be and appear before the Board of Commissioners of Docks at a meetin be held in the Board Room of this Department, at Pier "A," Battery place, on Thursd: 1887, at 2 o'clock in the afternoon of that day, and show cause why such repairing h: done, and why the lease should not be canceled and annuled for failure and neglect to c the order and direction of this Department, and for failure to comply with the conditic *visions of said lease*, and why this Department should not be entitled to such further or *in the premises as may be proper.*

[JUNE 22, 1887.]

communication from the Engineer-in-Chief reporting that repairs urgently needed have not commenced at Pier 40, East river, was

On motion, ordered to be placed on file, and the following preambles and resolution were adopted:

Whereas, Frank Phelps, lessee, has been duly ordered, notified and required to make the necessary repairs to Pier 40, East river, as recommended by the Engineer-in-Chief of this Department;

And whereas, The said Frank Phelps has failed and neglected to do said work and make such repairs as so ordered and required, and

Whereas, The lease under which the said Frank Phelps holds and uses the said Pier, provides, among other things, that the said Frank Phelps will, at all times during the term of the lease, put, keep and maintain the said wharf property and every part thereof, and the structures thereon, in good and sufficient repair and condition; and

Whereas, The said lease also provides that, in case the said Frank Phelps shall neglect or refuse to make repairs as therein stated, the said lease shall become null and void, or the Department of the Navy, at its option, make such repairs at the cost and expense of said lessee; now, therefore,

Resolved, That Frank Phelps be and is hereby ordered, notified and required to be and appear before the Board of Commissioners of Docks, at a meeting thereof, to be held in the Board Room of the Department, at Pier "A," Battery place, on Thursday, June 30, 1887, at 12 o'clock M. of that day, and show cause why such repairing has not been done, and why the lease should not be annulled and annulled for failure and neglect to comply with the order and direction of the Department, and for failure to comply with the conditions and provisions of said lease, and why this Department should not be entitled to such further or other relief in the premises as may be proper.

The report of the Engineer-in-Chief stating that the Long Island Land Fertilizing Company had not repaired the bulkhead and dump at the foot of East Thirty-ninth street, East river, was,

On motion, ordered on file, and the following preambles and resolution were adopted:

Whereas, The Long Island Land Fertilizing Company have been duly ordered, notified and required to repair the bulkhead and dumping-board foot of East Thirty-ninth street, East river, and

Whereas, The Long Island Land Fertilizing Company have failed and neglected to do said work, and make such repairs as so ordered and required, and

Whereas, The lease under which said Company holds and uses the said bulkhead provides among other things, that the said Company will at all times during the term of the lease, put, keep and maintain the said wharf property and every part thereof, and the structures thereon in good and sufficient repair and condition, and

Whereas, The said lease also provides that in case the said Company shall neglect or refuse to make repairs as therein stated, the said lease shall become null and void, or the Department of

Docks may, at its option, make such repairs at the cost and expense of said company ; none-
fore, be it

Resolved, That the Long Island Land Fertilizing Company be and hereby are ordered,
and required to be and 'appear before the Board of Commissioners of Docks at a meeting
to be held in the Board Room of this Department at Pier "A," Battery place, on Thurs-
30, 1887, at 2 o'clock in the afternoon of that day, and show cause why such repairing has
done, and why the lease should not be canceled and annuled for failure and neglect to com-
the conditions and provisions of said lease, and why this Department should not be entitled
further or other relief in the premises as may be proper.

The Treasurer, Commissioner Matthews, reported that he had received the following est
for furnishing the Department with 1,000 barrels of Portland cement :

James Brand, per barrel
Eckmeyer & Co., per barrel
A. C. Babson, per barrel

—and recommended that the order for furnishing the same be awarded to James Brand, he
the lowest bidder.

On motion, the report was received and recommendation adopted.

The action of the Treasurer in awarding the order to repair doors, etc., of shed on Pim
46, North river, to the Pioneer Iron Works, for the sum of \$750, was

On motion, approved.

Due notice having been given,

On motion, the following resolution was adopted :

Resolved, That section 2 of article 1 of the By-laws of this Department be amended by st
out the word "Wednesday," and insert in lieu thereof the word Thursday, making the said
read as follows :

A public meeting shall be held on Thursday of each week at 11 o'clock, A. M.

The Auditing Committee presented an audit of nineteen bills, amounting to \$56,567.24, v

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held June 23, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meeting held June 22, 1887, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Glen Cove Manufacturing Company—Submitting plan for temporary pier, and requesting permission to erect the same at the bulkhead near the foot of Jackson street, East river.

From Manhattan Railway Company—Submitting plan of proposed improvements of the water-front on the west side of Harlem river and north of One Hundred and Fifty-ninth street, and requesting the Board to name a price for a fifty years' lease for land under water fronting Harlem river. Referred to the Engineer-in-Chief to examine and report.

From Engineer-in-Chief :

1st. Reporting damage done to tug "Manhattan" by Hunter's Point Ferryboat "Flushing," June 20th instant. The Secretary directed to notify the ferry company of said collision, and request an answer in relation thereto.

2d. Report on Secretary's Order No. 6628, respecting the communication received from the Baltimore and Ohio Railroad Company protesting against repairing Croton water-pipes on Pier, new North river.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Comptroller of the City :

1st. Returning plans submitted to the Commissioners of the Sinking Fund for the improvement of the water-front, from Eighty-sixth street, East river, to Third avenue, Harlem river, together with copy of the resolution and opinion of the Counsel to the Corporation upon the subject of said plans.

2d. Approving sureties of O'Connell & Coffey for building a new wooden Pier, etc., Hundred and Thirty-second street, North river.

From Engineer-in-Chief :

1st. Reporting repairs required to Piers, old 20 and 21, North river. The President authorized to notify the Baltimore and Ohio Railroad Company to make the repairs required to said Piers in accordance with the reports of the Engineer-in-Chief of this Department and under his direction and supervision.

2d. Reporting the death of William H. Ellis, Laborer. The Secretary directed to delete his name from the roll of employees.

3d. Report on Secretary's Order No. 6291, that he had made requisition for dredging at Hundred and Tenth street, Harlem river.

4th. Report on Secretary's Orders Nos. 6464 and 6552, that he had supervised dredging at front of the southerly half of bulkhead between Thirteenth and Fourteenth streets, North river, and Thirty-second and Thirty-third streets, East river.

5th. Report on Secretary's Order No. 6524, that he had superintended the erection of a pier office, etc., on the south side of Pier, old 29, North river.

6th. Report on Secretary's Order No. 6579, that he had directed the removal of shed No. 8 at Eightieth street, East river.

7th. Report on Secretary's Order No. 6603, that he had supervised dredging at south side of Pier, old 40, North river.

8th. Report on Secretary's Order No. 6612, that he had superintended repairing Pier at Thirtieth street, East river.

9th. Report on Secretary's Order No. 6634, that he had supervised repairing Pier 11, East river.

10th. Report on Secretary's Order No. 6662, that he had superintended repairing spring at end of Pier, old 28, North river.

11th. Report on Secretary's Order No. 6674, that he had repaired sheathing on deck of Pier 11, East river.

The Engineer-in-Chief submitted copy of extract from the proceedings of the Commissioners of the Sinking Fund, on June 17, 1887, and called attention to their action in relation to the works at front between Fiftieth and Fifty-first streets, East river.

On motion, the subject matter was referred to Commissioners Matthews and Marshall to take such action as they may deem necessary.

On motion, the communications received from Peter McCullough and Canda & Kane respecting the use of bulkhead foot of East Forty-second street, East river, was referred to the Treasurer for his consideration and report.

A communication from the Engineer-in-Chief, submitting specifications and form of contract for building slips on each side of Pier 13, East river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the specifications and form of contract submitted by the Engineer-in-Chief for building the whole of the slips on each side of Pier 13, East river, except the bulkhead areas, be and hereby are approved subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals and proper advertisements inviting estimates for doing said work inserted in the papers published by law.

The report of the Engineer-in-Chief respecting the qualifications of the candidates submitted to the Civil Service Supervisory and Examining Boards for the position of Chainmen in the Department, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That George A. Button and Bernard Rolf, who have been certified to by the Board of Civil Service Examiners as eligible for such positions, be and hereby are appointed as Chainmen with compensation at the rate of \$12 per week, to take effect from and after this date.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held June 25, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

A communication from the Department of Street Cleaning in reference to the use of dumping-grounds at Pier 12, East river, was,

On motion, laid on the table.

The application of William P. Kelly requesting that the time for the completion of Contract No. 13, for building bulkhead between Seventy-seventh and Seventy-eighth streets, North river, be extended from July 1 to August 15, 1887, was referred to the Engineer-in-Chief to examine and report.

A communication from the Comptroller of the city in reference to the substitution of James D. Leary, as surety in place of Thomas Walsh, to the estimate of Joseph Walsh for building Pier foot of West Thirty-first street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is given to the substitution of James D. Leary, as surety, in place of Thomas Walsh, to the estimate of Joseph Walsh, for building Pier at the foot of West Thirty-first street, North river.

The following resolutions were unanimously adopted by the affirmative votes of Commissioners Stark, Matthews, and Marshall.

Resolved, That this Board deems it advisable to make alterations in the width of the pier located at the foot of West Thirty-seventh street, North river, from the lines therefor as shown on the plans adopted by the Board, April 13, 1871, by making the same 60 feet in width instead of 80 feet, as laid down thereon, and to that end do hereby fix and establish, subject to the approval of the Commissioners of the Sinking Fund, as provided by law, the location and width of the pier to be built at the foot of West Thirty-seventh street, as follows :

The centre line of the Pier to remain as heretofore established, the length of the pier to remain as heretofore established, the width of the pier to be 60 feet.

Resolved, That the Commissioners of the Sinking Fund be and hereby are respectfully requested, in pursuance of the provisions of section 712 of chapter 410 of the Laws of 1882, to consent to and approve of the width and location of the new pier, located at the foot of West Thirty-seventh street, North river, being altered and changed as above described and set forth.

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the reconstruction of the old Pier at the foot of West Thirty-seventh street, North river, and with the construction of a new Pier, with a temporary approach thereto, within and upon the established lines for the pier, provided that they be changed so as to make the Pier 60 feet wide instead of 80 feet, as now laid down upon the established plan, at the foot of West Thirty-seventh street, and that all the work hereby ordered be performed otherwise than by contract, as required by section 714 of the Consolidation Act, and that it be done by the force of the Department by day's work, except so much of the labor and materials as is now or may hereafter be contracted for, and that all the material and dredging necessary therefor not heretofore contracted for be purchased by the Treasurer otherwise than by contract.

Resolved, That the Engineer-in-Chief be and hereby is directed to make such repairs as may be necessary upon the existing Pier at foot of West Thirty-eighth street, North river, to put the same in serviceable condition for the use of the Offal Contractor until the new Pier at the foot of West Thirty-seventh street, North river, is built.

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans for the change of lines of the Pier at the foot of West Thirty-seventh street, North river, so as to make the pier sixty feet wide, instead of eighty feet wide.

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans for the improvement of the westerly side of Harlem river, from the westerly side of Eighth avenue, at the south line of One Hundred and Fifty-ninth street, to the High Bridge.

Resolved, That the permits of Michael McGirr, Thomas Scully, Edward Teague and Francis Connolly for use of manure dumps at West Thirty-seventh street, North river, be and hereby be annulled, and that they be notified by the Secretary to vacate the same immediately.

Commissioner Matthews reported that he had renewed insurance on Piers, new 43 and 46, North river, and the sheds thereon, to the extent of \$35,000 on Pier, new 43, and \$30,000 on Pier, new 46, for the year from June 25, 1887, to June 25, 1888, at noon.

On motion, his action was approved.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held June 27, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The report of the Engineer-in-Chief on Secretary's Order No. 6594, in reference to the application of the Police Department for permission to make alterations to their rooms on the north side of Pier A, North river, was,

On motion, taken from the table and ordered to be placed on file, and the following resolution adopted :

Resolved, That permission be and hereby is granted to the Police Department to make alterations and additions to rooms on the north side of Pier A, North river, in accordance with the plans submitted and the report of the Engineer-in-Chief of this Department, all the work to be done under direction and supervision, and at the sole cost and expense of the Police Department.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held June 28, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

A communication from the Union Ferry Company, reporting dangerous condition of Pier 2, East river, was referred to the Engineer-in-Chief to examine and report.

A communication from the Engineer-in-Chief submitting plans for the improvement of the water front, between Eighth avenue and High Bridge, Harlem river, was received, read and ordered to be placed on file, and the following resolutions were adopted :

Resolved, That the plans for the improvement of the water front on the westerly side of the Harlem river, between the westerly side of Eighth avenue, at the southerly side of One Hundred and Fifty-ninth street and High Bridge, made and prepared, pursuant to the provisions of section 12 of chapter 410 of the Laws of 1882, as amended by chapter 517 of the Laws of 1884, be and

[JUNE 28, 1887.]

90

the same are hereby approved, adopted and declared to be the sole plans determined upon by the Department of Docks for the section of territory embraced therein, subject to the approval of the Commissioners of the Sinking Fund as required by law.

Resolved, That the President be and hereby is directed to transmit the said plans to the Commissioners of the Sinking Fund, and to respectfully request their approval of and adoption of the same in accordance with the requirements of law.

The Treasurer, Commissioner Matthews, to whom was referred with power the application of Canda & Kane for use of the bulkhead foot of East Fourteenth street, East river, reported that he had granted them permission to use the said premises during the will of the Board, at \$7 per week commencing July 1, 1887.

On motion, his action was approved.

On motion, the permit issued to Peter McCullough on the 16th day of April, 1887, to use and occupy bulkhead foot of East Fourteenth street, East river, was revoked.

On motion, the plans prepared by the Engineer-in-Chief, in accordance with the resolution adopted June 25, 1887, for changing the width of Pier at the foot of West Thirty-seventh street, North river, were approved and adopted, and the President authorized to transmit them to the Commissioners of the Sinking Fund for their approval.

On motion, the Engineer-in-Chief was directed to cut off and square up the end of Pier foot of West Thirteenth street, North river.

On motion, The Secretary was directed to notify Archibald Scott to call on the Commissioner on Friday, July 1, at 1 o'clock P. M., and show cause why the scale-house erected on the bulkhead south of West Twenty-second street, North river, should not be removed.

On motion, A. G. Lundhal was appointed Ship Carpenter, and George Sparks, Michael Connolly, Fremont Beaver and Richard Cunningham were appointed Dock Builders.

On motion, the Board adjourned.

CHAS. MILLER, JR., Acting Secretary.

At a meeting of the Board of Docks, held June 30, 1887.

Present—Commissioners Matthews and Marshall.

Absent—Commissioner Stark.

On motion, Commissioner Marshall was elected President pro tem.

The minutes of the meetings held June 23, 25, 27 and 28, 1887, were read and approved.

The following communications were received, read and,

On motion, laid on the table to await action, as stated, to wit :

From Counsel to the Corporation—Respecting suits against the estate of George Law, suits as to wharf property foot of East Tenth street, East river.

From East River Ferry Company—In reference to collision between the ferryboat "Flushing" the tug "Manhattan."

From J. P. Joralemon—Stating that he does not own any bulkhead property between Piers 47 and 48, East river.

From Engineer-in-Chief :

1st. Reporting non-commencement of repairs to bulkhead at inner end of Pier 40, East river, westerly thereof, by Frank Phelps.

2d. Reporting repairs required to roof of storehouse, etc., at Yard foot of East Seventeenth street, East river.

3d. Report on Secretary's Order No. 5794, respecting the repairs made by the Ridgewood Ice Company, lessees, in accordance with the order of the Board, dated September 24, 1886.

4th. Report on Secretary's Order No. 6345, that in order to obtain a depth of fifteen feet at low water in front of the bulkhead between Piers 47 and 48, East river, dredging to the extent of about 2,500 cubic yards will be required.

From Simon Stevens, attorney—Requesting the Board to renew and extend to Wednesday noon, October 5, 1887, the time for closing the contracts made with S. Charles Welsh and Messrs. Champlain and Phelps, for the purchase of certain bulkhead and wharf property on the North river.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation :

1st. Advising the Board that on June 18, 1887, the General Term of the Supreme Court handed down decisions reversing the judgments in the cases of William M. Kingsland and Walter Langdon and Marion Langdon against the Mayor, etc., and the Department of Docks of the City of New York, on the reports of Hamilton Cole and Augustus C. Brown, referees, against the city, as to the value of certain wharf property on the North river, taken or appropriated by the Department in connection with the building of wharves and bulkheads under the new plan of improvement.

2d. In reference to the obligations of the sureties to the lease of the East River Ferry Company for north and south half and outer end of Pier at Thirty-third street, East river, in the event of the Department assigning said lease to the Metropolitan Ferry Company.

From Comptroller of the City :

1st. *Inclosing extract from proceedings of the Commissioners of the Sinking Fund of June 17, 1887, which was received and ordered to be spread in full on the minutes, as follows :*

The Comptroller offered the following preamble and resolution :

Whereas, At a meeting of the Commissioners of Docks, held October 8, 1886, a resolution adopted directing a notice to be given of the desire of the Department of Docks to terminate to James D. Wynkoop of certain wharf property on the North river, and the payment to him of one thousand dollars, and a requisition was made upon the Comptroller by the Commissioners of Docks on December 9, 1886, for that amount in favor of said Wynkoop ; and

Whereas, The Commissioners of the Sinking Fund, at a meeting held March 4, 1887, adopted a resolution approving of said resolution of the Commissioners of Docks, and the payment to said Wynkoop of the sum of one thousand dollars accordingly ; and

Whereas, The Commissioners of Docks adopted a resolution on May 14, 1887, countersigning and directing said requisition for one thousand dollars in favor of said Wynkoop to be cancelled, and an agreement was made and entered into with the Commissioners of Docks on the 27th day of May, 1887, by said Wynkoop, agreeing to the termination of said lease upon the payment to him of the sum of five hundred dollars ;

Resolved, That the resolution adopted by this Board March 4, 1887, approving of the resolution adopted by the Commissioners of Docks, October 8, 1886, and of the payment to said Wynkoop of the sum of one thousand dollars, is hereby rescinded, and the payment of the sum of five hundred dollars in lieu thereof under said agreement is hereby concurred in and approved.

Which were unanimously adopted.

2d. Approving sureties of Joseph Walsh for building a new wooden pier at the foot of East Thirty-first street, North river.

From Department of Street Cleaning—Reporting that they cannot complete the cleaning of the bulkhead between Corlears street and Pier 54, East river, until the obstructions are removed. The Dock Master directed to have the owners remove obstructions at once so that the premises can be cleaned.

From East River Bathing Company—Requesting permission to locate bath at Pier 54, East river. Permission granted, to be and remain during the will of the Board.

From Canda & Kane—Requesting lease of bulkhead between Fifty-first and Fifty-second streets, North river. Referred to the Engineer-in-Chief to examine and report.

From Department of Public Charities and Correction—Reporting that the steamer " J. S. Brennan " carried away string-piece and piles at the southern end of Storehouse Pier, Blackwell's Island, East river. The Engineer-in-Chief directed to examine and report.

From John Green Requesting permission to erect a derrick for hoisting coal at the foot of East Thirty-seventh street, East river. Referred to Dock Master to examine and report.

From Simon Stevens, attorney—In reference to the use of dumping-board at Pier 54, East river, by the Barney Dumping Company.

Baltimore and Ohio Railroad Company :

Requesting the Department to drive seven oak fenders, one bracing pile and rechock moor-
t Pier, new 43, North river, at their expense. The action of the President in directing the
n-Chief to do said work and report the cost for collection from the Baltimore and Ohio
Company was approved.

pecting repairs ordered to Piers, new 20 and 21, North river.

McDonough & Co.—Requesting permission to replace about fifteen piles of timber boom
e Hundred and Twenty-fifth and One Hundred and Twenty-sixth streets, Harlem river.
granted, provided the piles are replaced in same place as at first, the work to be done
irection and supervision of the Engineer-in-Chief of this Department.

Theo. F. Tone—Requesting permission to replace three masts for hoisting coal on the
etween One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North
nission granted, the said masts to be located under the direction and supervision of the
-Chief of this Department, and to be and remain during the will of the Board.

Thomas E. Nesmith, Jr.—Requesting permission to repair Pier 10, East river. The
e President in issuing a permit, the work to be done under the direction and supervision
eer-in-Chief, was approved.

I. L. Herbert & Co.—Requesting permission to repair backing-log, etc., at bulkhead
necent and Twentieth streets, East river, to prevent the crib filling from washing away,
questing permission to place a temporary shute on the bulkhead at the foot of East
street, East river, for discharging during the progress of above repairs. Permission
e said shute to be removed when repairs are completed, all of said work to be done
irection and supervision of the Engineer-in-Chief of this Department.

Engineer-in-Chief :

eporting assignment of employees to special duty.

eporting the amount of work done during the week ending June 25, 1887.

eporting that repairs have not been made by James McClenahan, lessee, to Pier, new 60,
r. The Secretary directed to notify Mr. McClenahan that the repairs required must be
etefore ordered by the Board.

Reporting repairs required to Pier at Forty-seventh street, North river. The Engineer-in-
ted to repair, as recommended in his report, at a cost of about \$800, was approved.

Reporting that the placing of new armature plates on the northerly and southerly outer
Pier, new 42, North river, has not been done by the lessees, as ordered by the Board on
ay of May, 1887. The Secretary directed to request Mr. Louis De Rebien, agent of the
e Generale Transatlantique, lessees, to call on Commissioner Marshall.

*Reporting that several fenders on the outer southerly corner of Pier, new 44, North river,
loosened by the boats of the Hoboken Land and Improvement heavily striking the same*

when entering the ferry slip, and recommending the said ferry company be directed to repair same.

On motion, the report was received and recommendation adopted.

7th. Reporting repairs required to Pier, new 41, North river. The action of the President directing the Delaware, Lackawanna & Western Railroad Company, lessees, to repair, in accordance with the report of the Engineer-in-Chief of this Department, and under his direction and supervision, was approved.

8th. Reporting repairs required to deck of Pier, new 43, North river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of \$200, was approved.

9th. Reporting repairs to bulkhead at East Seventeenth street, East river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$140, was approved.

10th. Reporting repairs required to Dock Master's office at bulkhead foot of Seventeenth street, North river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$7.50, was approved.

11th. Reporting non-commencement of repairs to platform south side of Pier 8, North river. The Secretary directed to notify the Central Railroad Company of New Jersey to make the repairs required in accordance with the order of the Board.

12th. Report on Secretary's Order No. 6695, condition of and repairs required to bulkhead from Ninetieth to Ninety-first streets, East river. The Secretary directed to notify the owner or owners to repair, as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.

13th. Report on Secretary's Order No. 6675, in reference to the application of John Flaherty, requesting an extension of time to complete work under Contract No. 242, repairing bulkhead at Thirty-seventh street, East river.

On motion, the time was extended to July 20, 1887, as recommended by the Engineer-in-Chief, provided the written consent thereto of the sureties on said contract is filed with this Department.

14th. Report on Secretary's Order No. 6719, in reference to the application of William Kelly, requesting an extension of time to complete work under Contract No. 243, building sub-bulkhead, between Seventy-seventh and Seventy-eighth streets, North river.

On motion, the time was extended to July 20, 1887, provided the written consent thereto of the sureties on said contract is filed with this Department.

15th. Report on Secretary's Order No. 6686, repairs required to Pier, old 33, North river. Referred to Commissioner Matthews to confer with Hon. Chauncey M. Depew, President of the Erie Railroad, in reference to making the required repairs.

16th. Report on Secretary's Order No. 6560, submitting report of one barrel of cement for Gustave Bossange. The Secretary directed to send him copy of said report.

1st. Report on Secretary's Order No. 6694, repairs required to the pavement in front of Pier, new 42, North river. The Engineer-in-Chief directed to repair, as recommended report, at a cost of about \$5.

2d. Report on Secretary's Order No. 6402, respecting dredging at dump foot Thirty-seventh North river.

3d. Report on Secretary's Order No. 6470, that he had directed and superintended repairing Pier 39, North river, and shed thereon.

4th. Report on Secretary's Order No. 6526, respecting the repairing of Pier, new 43, North

5th. Report on Secretary's Order No. 6677, that he had repaired sheathing on deck of east Pier 58, East river.

6th. Report on Secretary's Order No. 6571, that he had made proper and convenient paths to the public baths.

7th. Report on Secretary's Order No. 6697, that he had superintended driving piles Pier 3, North river.

8th. Report on Secretary's Order No. 6705, that he had superintended driving piles outer end Pier 3, East river.

9th. Report on Secretary's Order No. 6715, that he had superintended repairing deck on south Pier, old 34, North river.

10th. Report on Secretary's Orders Nos. 6603 and 6641, reference to dredging between Piers 12 and 13, East river.

11th. Report on Secretary's Order No. 6698, that he had repaired sheathing deck of Pier 7, North river.

12th. Report on Secretary's Order No. 6678, that he had directed and superintended repairing west half of Pier 58, East river.

From Charles P. Blake, Dock Master :

1st. Reporting hole in Pier at Twenty-eighth street, East river. The action of the President in directing the Engineer-in-Chief to examine and repair, if necessary, was approved.

2d. Reporting that the bulkhead foot of Fifty-fourth street, East river, requires sheathing. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From John Simpson, Dock Master :

1st. Reporting holes on north side of Pier, old 34, North river. The action of the President in directing the Engineer to repair, if necessary, was approved.

2d. Reporting that the pavement has settled at the entrance to and adjoining the south side of Pier, old 33, North river. The Engineer-in-Chief directed to examine and repair, if necessary.

3d. Reporting broken plank on the south side of Pier, old 34, North river. The action of the President in directing the owner or owners to repair under the direction and supervision of the Engineer-in-Chief of this Department was approved.

From Anthony Hartman, Dock Master—Reporting that the piers at Eighty-sixth street, East river, are in need of cleaning. The action of the President in requesting the Department to clean was approved.

From Eugene McCarthy, Dock Master—Reporting that Brown & Fleming will remove a wreck sunk between Piers 60 and 61, East river.

The application of the Ridgewood Ice Company requesting permission to extend a plank bridge at the bulkhead foot of Seventy-ninth street, East river, was, together with the report of the Dock Master of the district, ordered to be placed on file and the Secretary directed to send to the ice company a copy of the Dock Master's report and notify them that under the circumstances the Board is not prepared at the present time to grant their request.

A report from Charles H. Thompson, Dock Master, reporting that the Barney Dumping Company are obstructing the slip at Pier 12, East river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the Commissioner of the Department of Street Cleaning and the Dumping Company be and hereby are notified and informed that this Department orders and directs that the westerly side of Pier 12, East river, be used only for the removal of street cleaning ashes, etc., and that it shall not be used for the loading of cellar dirt and old building materials.

The application of George V. Hecker & Co., requesting permission to remove the injection pipe running under Pier 40, and place same under Pier 41, East river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and the same is hereby granted to George V. Hecker to remove ten-inch iron pipe, now under the deck of Pier 40, East river, and place the same under the deck of Pier 41, East river, in order to take water from the river for the uses and purposes of the Croton Mills in Cherry street, provided that the work be done under the direction and supervision of the Engineer-in-Chief of this Department, and that the said pipe be removed when so ordered by this Board or its successor free of cost and expense to the Corporation.

The Treasurer, Commissioner Matthews, reported that he had examined and taken up the claim of the Department against Connolly & Mahoney, in relation to their alleged guaranty pay wharfage amounting to \$40.50 due from one Charles McGonigle on a canal-boat which he formerly owned or had at Pier 57, East river, and has come to the conclusion that Connolly & Mahoney did not guarantee the payment of, or promise to pay the said sum of \$40.50 or any part thereof, and that they are not legally liable, but that McGonigle is liable if any one, and recommending that the claim be placed in the hands of the Counsel to the Corporation for collection.

On motion, the report was received, recommendation adopted, and the President authorized to transmit said claim to the Counsel to the Corporation for collection.

tion, the President pro tem. was authorized to have the apparatus of the American Dispatch Company placed in the Messenger's Room for the uses and purposes of the Department to be done free of charge.

Treasurer, Commissioner Matthews, presented his report of receipts for the week ending 37, amounting to \$2,867.29, which was received and ordered to be spread in full on the follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

In the matter
of
Phelps, in relation to repairing, etc., Pier 40, East river. }

matter having been called and proceeded with in its regular order, Thomas E. Rochfort before the Board, as attorney on behalf of Frank Phelps, lessee of said Pier 40, East river, to a resolution and order in this matter, dated June 22, 1887, and duly served upon said June 27, 1887, requiring him, the said Phelps, among other things, to show cause why cer-

JUNE 30, 1887.]

98

tain designated repairs to said pier should not be made by him and why his lease of said pier should not be forfeited and annulled by reason of his failure and neglect to make such repairs as required by this Board.

The attorney for Mr. Phelps claims that his client was not liable to make the repairs as

The Board insisted and do insist, among other things, that by the terms and conditions of sale, the agreement for lease, the lease itself, the provisions of the statute in such cases, and all the circumstances connected with the transaction, Mr. Phelps is legally and equitably make the repairs to said pier as ordered.

After considerable discussion the counsel for Mr. Phelps conceded that his client ought to bear the expense of the repairs in part but not all.

The matter was then, on motion, adjourned to Friday, July 8, 1887, at 12 o'clock for further consideration.

A communication was received from The New York Horse Manure Company stating that repairs are being made to Pier, at Forty-fourth street, North river. A. M. Graham, President of the Gas-light Company and the Long Island Land Fertilizing Company, agreed to come with the Board in reference to the subject.

On motion, further consideration of the subject was adjourned to Friday, July 8, 1887, at 12 o'clock, noon.

On motion, the Board adjourned.

G. KEMBLE, Secretary

At a special meeting of the Board of Docks, held July 1, 1887.

Present—Commissioners Matthews and Marshall.

Absent—Commissioner Stark.

On motion, Commissioner Marshall was elected President pro tem.

The Board proceeded to open the estimates advertised to be opened this day at 12 o'clock for building crib-bulkhead at the foot of East Seventy-sixth street, East river.

A representative of the Comptroller was present.

Two estimates were received, as follows :

- | | |
|---|---|
| No. 1. From John Gillies, accompanied with \$40 in money..... | 4 |
| No. 2. From W. Danforth, accompanied with \$40 in money | |

On motion, the President pro tem. was authorized to transmit to the Comptroller the deposits made by the said bidders and accompanying their respective estimates.

following resolution was,

Resolution, adopted :

1. That the contract opened this day for building a crib-bulkhead at the foot of East 11 street, East river, be and hereby is awarded to John Gillies, he being the lowest bidder, with the approval of the sureties by the Comptroller of the City.

and then proceeded with the regular order of business.

Minutes of the meeting held June 30, 1887, were read and approved.

Following communications were received, read and,

on, ordered to be placed on file, action being taken where necessary, as stated, to wit :

Health Department—Reporting that repairs are needed to Pier at North Brother Island. The Engineer-in-Chief to examine and report.

Equitable Gas-light Company—Requesting permission to postpone the work of repairing between Thirty-ninth and Fortieth streets, East river, until September 1, 1887.

Long Island Land Fertilizing Company—Agreeing to repair bulkhead and dumping between East Thirty-ninth street, East river.

J. A. Meigs, Chairman, etc., New York Lumber Trade Association—Protesting against removal of bulkhead between Piers, new 26 and 27, North river, to the Old Dominion Steamship Company. Referred to Commissioners Stark and Marshall.

Standard Gas-light Company—Requesting permission to repair bulkhead between Thirty-third and Thirty-fourth streets, East river. Permission granted, the work to be done within existing limits under the direction and supervision of the Engineer-in-Chief of this Department.

New York Central Lighterage Company—Requesting permission to repair Pier 4, East river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

Engineer in-Chief :

Report on Secretary's Order No. 6703, transmitting copies of map of ferry premises at 11th street, North river. The President authorized to transmit said maps to the Comptroller of the City.

Report on Secretary's Order No. 5006, that he had superintended repairing Pier 18, North river.

Report on Secretary's Order No. 6562, that he had superintended placing goose-neck new-made land between Warren and Chambers streets, North river.

Report on Secretary's Order No. 5803, that he had supervised dredging between Thirtieth and Fourteenth streets, North river.

Report on Secretary's Order No. 6357, that he had supervised dredging between Piers 19 and 20, North river.

JULY 1, 1887.]

100

6th. Report on Secretary's Order No. 6691, that he had repaired deck of Pier foot of Fifth street, North river.

7th. Report on Secretary's Order No. 6714, that he had repaired sheathing on deck of side of Pier, old 34, North river.

8th. Report on Secretary's Order No. 6471, that he had superintended repairing Pier, old 34, North river.

The report from the Engineer-in-Chief on Secretary's Order No. 6407, that he had made provision for dredging in front of bulkhead for one hundred feet south of West Fourteenth street, North river, and supervised the work thereat, which was done by the Union Dredging Company, at a cost of \$361.13, was,

On motion, ordered to be placed on file, and the following preambles and resolutions adopted :

Whereas, It appears that notice was given, on the 21st day of March, 1887, to H. K. Thurber, to deepen and dredge water at the bulkhead between West Thirteenth and Fourteenth streets, North river, of which the said H. K. Thurber is the alleged owner, and that said notice was not complied with after a reasonable period had been allowed for the commencement of the work; and

Whereas, Said work of deepening and dredging the water at or near the premises referred to has been done by this Department (in accordance with the authority conferred upon it by section 10 of the Consolidation Act of 1882, and Rule No. 9 of the Rules and Regulations of the Department) at a cost of \$361.13; therefore

Resolved, That a bill for the above amount be rendered to the said H. K. Thurber, and demand for payment of same be made with affidavit of personal service, and in case of neglect of the said H. K. Thurber to pay the amount in full within ten days from the presentation of account, that the claim be placed in the hands of the Counsel to the Corporation for collection.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held July 7, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held July 1, 1887, were read and approved.

A communication from the Counsel to the Corporation, inclosing form of lease for portion of bulkhead adjoining Pier, new 41, North river, leased to the Delaware, Lackawanna and Western Railroad Company, was referred to Commissioner Marshall.

[JULY 7, 1887.]

communication from William H. Webb, respecting the rebuilding and extending of the Pier Sixth street, East river, was referred to executive session.

The following communications were received, read and,

on motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From his Honor the Mayor—Transmitting communication received from J. R. Stephenson for a berth at Pier foot of Fortieth street, North river. Referred to the Secretary to reply.

From Department of Public Works—Transmitting tracing of water-front from Thirtieth to Fifty-first street, North river. Referred to the Engineer-in-Chief.

From Hon. J. S. Coleman, Commissioner, Department of Street Cleaning—Stating that he has withdrawn the permission given to the Barney Dumping Boat Company to use Pier 12, East river, for the reception of building material, etc.

From Alfred J. Murray and John Crouch, sureties on the contract of William P. Kelly, for building a bulkhead between Seventy-seventh and Seventy-eighth streets, North river—Consenting to extension of time for the completion of said contract. The Secretary directed to file same with contract.

From Maine Steamship Company—Requesting permission to drive two spring piles on the west side of Pier 38, East river. The action of Commissioner Matthews in issuing a permit, the same to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From James McClenahan, lessee—Stating that he will make the repairs required to Pier, new foot of Thirtieth street, North river.

From S. A. Frost—Requesting the Department to dredge the slip at the easterly side of Pier East river. Referred to the Engineer-in-Chief to examine and report.

From Mrs. Kate Monahan—Requesting permission to place a candy-stand on Pier at Thirtieth street, East river. Application denied.

From James W. Carson—Requesting appointment as Assistant Dock Master.

From C. H. Tweed, attorney—Stating that he will call on the Commissioners in reference to the communication sent to Bogert & Morgan respecting the building of Pier, new 25, in place of old 36, North river.

From Richard Cronin—Requesting that the time to complete the work of building Pier and approach at the foot of West Fortieth street, North river, under Contract No. 231, be extended to July 1, 1887.

On motion, the time was further extended as requested.

From Charles P. Blake, Dock Master—Reporting that John Nesbit & Sons have erected a fence on the south side of Thirty-seventh street, East river, without a permit from the Board. The action

JULY 7, 1887.]

102

of Commissioner Marshall in directing the Engineer-in-Chief to examine and report, and Nesbit & Sons to call on the Commissioners on Wednesday, July 6th instant, was approved.

From John Simpson, Dock Master :

1st. Reporting hole in Pier, old 23, North river. The action of the President in directing lessees or owners to repair, under the direction and supervision of the Engineer-in-Chief Department, was approved.

2d. Reporting hole at entrance to Pier, old 35, North river. The action of the President in notifying Homer Ramsdell & Co. to repair, under the direction and supervision of the Engineer-in-Chief, was approved.

From Edward Abeel, Dock Master—Reporting repairs required to Piers 19 and 37, East river. The action of the President in directing the Engineer-in-Chief to examine and repair if necessary, was approved.

From Patrick Curley, Dock Master—Reporting that the Consolidated Gas Company has dug up 20 feet off of the deck of approach to Pier, new 46, North river, for a distance of about twenty feet without a permit. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Joseph B. Erwin, Dock Master—Reporting that Gardner & Co., foot of Forty-ninth street, North river, are in the habit of dumping ashes foot of Forty-ninth street, and along the front between West Forty-eighth and Forty-ninth streets, North river. The President authorized to notify said parties to call on the Commissioners on Monday, July 11th instant, at 1 o'clock and show cause why penalty should not be imposed for violation of law.

From Eugene McCarthy, Dock Master—Reporting that the obstructions have been removed from the bulkhead between Pier 54 and Corlears street, East river. The Secretary directed to transmit copy of report to the Department of Street Cleaning.

From D. W. Bogert, Dock Master :

1st. Reporting that there is a candy and cake stand on the west corner of bulkhead near east side of Pier 51, East river.

2d. Reporting that there are two refreshment stands on Pier 60, East river.

Dock Master Bogert directed to notify the owner or owners of said stands to vacate the premises within ten days from receipt of notice so to do from this Department.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Recommending that a cluster of piles be driven at Pier 59, East river, and the Dock Master be directed not to allow vessels to make fast to the clusters of piles thereat. The action of the President in directing the Engineer-in-Chief to replace said piles as recommended in his report, at a cost of about \$35, was approved.

[JULY 7, 1887.]

Reporting that repairs are required to the bulkhead between Piers 3 and 4, East river. The action of the President in directing the alleged owner or owners to repair as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision, was approved.

9th. Reporting repairs required to Pier at Third street, East river. The action of the President in directing the Ridgewood Ice Company, lessees, to make the repairs required, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

10th. Report on Secretary's Order No. 6666, that he had repaired damage done to Pier 44, East river, by scow "Bell," at a cost of \$15.32. The Treasurer authorized to send bill for said amount to owners, agents or consignees of said scow for collection.

11th. Report on Secretary's Order No. 6622, that he had superintended driving and refastening piles at Pier, old 21, North river.

12th. Report on Secretary's Order No. 6638, that he had superintended driving piles and cutting away at Pier, old 20, North river.

13th. Report on Secretary's Order No. 6667, that he had repaired sheathing on upper side of Pier 44, East river.

14th. Report on Secretary's Order No. 6696, that he had superintended repairing sheathing on Pier 28, East river.

15th. Report on Secretary's Order No. 6708, that he had repaired sheathing on deck of Pier at West Fifty-seventh street, North river.

16th. Report on Secretary's Order No. 6720, that he had made the necessary repairs to Dock No. 1's office on bulkhead at West Seventy-ninth street, North river.

17th. Report on Secretary's Order No. 6722, that he had superintended repairing sheathing on Pier of Pier 10, East river.

On motion, the Secretary was directed to request Mr. King, Vice-President, Baltimore and Ohio Railroad Company, to call on the Commissioners respecting the repairs required to Croton water-pipe on Pier, new 43, North river.

Commissioners Matthews and Marshall recommended that insurance be effected on the following plant and stock of the Department, viz.:

On tug "Manhattan"	\$15,000 00
On 10-ton derrick	2,000 00
Pier at West Fifty-seventh street, North river, including sheds and buildings thereon.	20,000 00
Stock, etc., on hand	15,000 00

On motion, the report was received, recommendation adopted, and Commissioners Matthews and Marshall authorized to have the said plant, etc., insured, as recommended in their report.

JULY 7, 1887.]

104

A communication from the Engineer-in-Chief, relating to dredging ordered between Fifteenth and Twenty-third streets, North river, was

On motion, ordered to be placed on file, and the following preambles and resolutions adopted :

Whereas, On September 30, 1886, a notice dated September 21, 1886, from this Department was duly served upon D. C. Newell, Knickerbocker Ice Company, Ogden & Co., and J. N. W. respectively, directing them to dredge at the bulkhead between Eighteenth and Nineteenth streets, and between Twenty-first and Twenty-second streets, North river, to a depth of fifteen feet at mean low water ; and

Whereas, The said D. C. Newell, Knickerbocker Ice Company, Ogden & Co. and J. N. W. have neglected to do such dredging as thereby required and directed by this Department, and duly notified and required so to do ; therefore

Resolved, That D. C. Newell, Knickerbocker Ice Company, Ogden & Co. and J. N. W. and hereby are ordered, notified and required to be and appear before the Board of Commissioners of Docks, at a meeting to be held in the Board room of this Department, at Pier A, Battery North river, on Tuesday, July 12, 1887, at 12.30 o'clock in the afternoon of that day, and show cause why such dredging has not been done and why penalty should not be imposed, as provided in section 717 of chapter 410 of the Laws of 1882, for failure and neglect to comply with the order and direction of this Department, and also show cause why this Department should not take such other action in the premises as may be proper.

The Auditing Committee submitted an audit of three claims, amounting to \$7,172.38, which was approved and ordered to be spread in full on the minutes, as follows :

6115. For galvanized-iron bolts.....	"

Requisition No.

320. For 1 revolving book-stand for Board room.
 321. For reseating chair.
 322. For 1 revolving book-case.

On motion, the Board adjourned.

G. KEMBLE, Secre

Special meeting of the Commissioners of the Dock Department, held July 11, 1887.

Present—Commissioners Stark (President), Matthews and Marshall.

On motion, Commissioner Marshall was elected Secretary pro tem.

It was, on motion,

Resolved, That John Sloan, at present Pilot of the tug "Manhattan," be and is he pended and relieved from duty, to take effect on the 16th of July, 1887.

On motion,

Resolved, That Charles A. Martin be and is hereby restored to the position of Captu tug "Manhattan" (from which he was suspended on the 8th of July, 1886), at a salary per month, to begin July 16, 1887.

The following preamble and resolution were, on motion, adopted :

Whereas, It is the judgment of this Board that the offices of Janitor and Assistant Janit needed in this Department, and should therefore be dispensed with ;

Resolved, That the offices of Janitor and Assistant Janitor be and are hereby abolis

[JULY 11, 1887.]

It was, on motion,

Resolved, That Thomas Ferris, formerly Assistant Janitor in this Department, which office has been abolished, be and hereby is suspended and relieved from further duty, and it is ordered that his name be taken from the pay-rolls on the 16th July, current.

Resolved, That Nelson Parker, at present filling the position of Assistant Janitor in this Department, which office has been abolished, be and is hereby suspended and relieved from further duty, and it is ordered that his name be taken from the pay-rolls as Assistant Janitor on the 16th July,

Resolved, That Nelson Parker be and hereby is appointed Temporary Watchman, and that he be assigned to such duty as the President of the Board may direct.

Resolved, That George S. Hunt, at present Messenger in this Department, be and hereby is relieved from further duty, and it is ordered that his name be taken from the pay-rolls on the 16th July, current.

Resolved, That the resignation of Mr. E. G. Ames, Clerk in this Department, dated July 11, 1887, be and is hereby accepted, the same to take effect July 12, 1887.

Resolved, That the salary of Mr. Charles Miller, Jr., Recording Clerk in this Department, be fixed at \$133.33 (one hundred and thirty-three and $\frac{1}{3}$ dollars) per month, to begin on the 15th of July, 1887.

Resolved, That the salary of Mr. Louis S. Kellogg, Clerk in this Department, be fixed at \$166 (one hundred and sixteen $\frac{2}{3}$ dollars) per month, to begin on the 15th July, 1887.

Resolved, That the salary of Mr. Berthold Somer, Clerk and Messenger in this Department, be fixed at \$83.33 (eighty-three $\frac{1}{3}$ dollars) per month, to begin on the 15th July, 1887.

On motion, the Board adjourned.

CHARLES H. MARSHALL, Secretary pro tem.

New York, July 11, 1887.

At a special meeting of the Board of Docks, held July 13, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The following estimates were received for dredging at Pier, new 59, North river. A representative of the Comptroller was present :

	Per cubic yard.
From Charles Du Bois, accompanied with \$150 in money	23 9-10 cents.
From The Union Dredging Company, accompanied with \$150 in certified check	20 cents.

On motion, the Secretary was directed to transmit to the Comptroller the security deposits made by the said bidders and accompanying their respective estimates.

[JULY 13, 1887.]

110

The following resolution was, on motion, adopted :

Resolved, That the contract opened this day, for dredging at Pier, new 59, North river, hereby is awarded to The Union Dredging Company, they being the lowest bidders, and with the approval of the sureties by the Comptroller of the City.

A communication from the Comptroller of the City in reference to the substitution of Gaskell as surety in place of William P. Greenlie, to the estimate of John Gillies for building a bulkhead at the foot of East Seventy-sixth street, East river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is given to the substitution of William Gaskell as surety in the place of William P. Greenlie, to the estimate of John Gillies for building a bulkhead at the foot of East Seventy-sixth street, East river.

A communication from the Engineer-in-Chief, respecting dredging at North Moore section, under agreement No. 132, with The Union Dredging Company, and a communication from The Union Dredging Company in relation to the same, were,

On motion, ordered to be placed on file, and the following preambles and resolution unanimously adopted :

Whereas, Nearly all the work of dredging that can without doubt be called for under the written agreement made by and between this Department and The Union Dredging Company, dated May 9, 1881, except that on the North Moore street section (including dredging for the dredging for Pier, new 25, North river, and the slips on each side of same), has been done

Whereas, Mr. C. H. Loomis, Superintendent Union Dredging Company, has this day given this Department his written consent to the annulling and terminating of said agreement, and the said company is given Treasurer's orders for the dredging on North Moore street as above described, at one dollar per cubic yard for filled-in crib work, and fifty cents per cubic yard for crib work not filled in, and twenty cents per cubic yard for mud, etc.

Resolved, That the said agreement be and hereby is annulled and terminated, and the Treasurer be and hereby is authorized to issue his orders for the work of dredging on the North Moore street section as above described, and at the prices above named.

On motion, the Board adjourned.

G. KEMBLE, Secretary

[JULY 14, 1887.]

a meeting of the Board of Docks, held July 14, 1887.

present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meeting held July 7 and 13, 1887, were read and approved.

A communication from William Rainer, late Foreman of Floating Property, presenting claim for duty due, was,

and motion, referred to Executive Session.

A communication from A. C. Chapin, Attorney Screw Dock Company, respecting the sale of land and wharf at Pier 39, East river, was,

and motion, referred to Executive Session.

The following communications were received, read, and,

and motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Comptroller of the City :

1st. Requesting the Board to assign, as a Store Yard for the purpose of storing various articles relating to the Bureau of Encumbrances, a certain portion of premises between Sixteenth and Twentieth streets, East river. Referred to the Engineer-in-Chief to examine and report.

2d. In reference to and approving the terms of the proposal made by C. P. Huntington, and opinion of the Counsel to the Corporation, respecting the proposition for the rebuilding of Pier 37, North river. Referred to Commissioner Marshall.

3d. Approving sureties of John Gillies for building bulkhead at Seventy-sixth street, East river.

From the Scientific Publishing Company —Requesting advertisements for the "Engineering and Mining Journal."

From Alfred J. Murray, surety of John W. Flaherty—Consenting to the extension of time to complete Contract No. 242, for repairing, etc., Pier at Thirty-seventh street, East river, to July 20, 1887. Secretary directed to file with contract.

From Counsel to the Corporation :

1st. Approving form of contract for dredging at Piers 12, 13 and 14, East river.

2d. Approving form of contract for building approach to Pier A, North river.

3d. Approving form of contract for dredging at Pier, new 59, North river.

4th. Requesting information respecting lease of James L. Miller for bulkhead at Forty-third street, East river.

The action of the Secretary in furnishing the desired information, was approved.

5th. In relation to the substitution of sureties by the Metropolitan Ferry Co., assignees of the New River Ferry Co. Referred to Commissioner Marshall.

JULY 14, 1887.]

112

From F. P. Eastman—Requesting possession of bulkhead foot of East Seventieth river. Referred to the Treasurer.

From Greenpoint Ferry Company—Requesting delay respecting the removal of adverse at ferry premises, foot of Twenty-third street, East river. Referred to Commissioner May power.

From Joseph May—Requesting permission to keep a small float at north side of Thirty-fourth street, North river. The action of the President in directing the Dock examine and report, was approved.

From Department of Street Cleaning—Reporting that repairs are required to bulkhead Seventeenth street, East river. The action of the President in directing the Engineer-examine and report, was approved.

From Maine Steamship Company—Requesting permission to cut two drops in the end of Pier 38, East river. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

From Steckler & Steckler, Attorneys—Requesting permission to copy lease of Pier 38 street, East river, to Ridgewood Ice Company. The action of the Secretary in granting same was approved.

From D. C. Newell—Stating that sickness will prevent him from calling on the Commissioner.

From Knickerbocker Ice Company :

1st. Agreeing to dredge in front of bulkhead between Nineteenth and Twenty-first streets of the season. The action of the President in requesting them to state definitely when the said dredging, was approved.

2d. Requesting that the time to dredge between Nineteenth and Twenty-first street be postponed to the end of October next.

On motion, the Secretary was directed to advise that said dredging must be completed by October 1, 1887.

3d. Requesting the Department to revoke permit given to Henry Fischer, to maintain bulkhead, foot of Sixty-second street, East river. Referred to the Dock Master to examine and report.

From Joseph V. Brown, Lessee—Requesting the Department to dredge at Pier foot of Fifty-fifth street, East river. Referred to the Engineer-in-Chief to examine and report.

From Rice & Bijur, attorneys, East River Ferry Company—Enclosing draft of bond as a substitution of the sureties on East River Ferry leases. Referred to Commissioner May power.

From James E. Ward & Co.—Requesting permission to cover a portion of bulkhead at Piers 16 and 17, East river, with three-inch spruce plank. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

From Schmidt & Schwanenflugel—Requesting permission to drive piles on the end of bulkhead-platform south of Fifty-seventh street, East river. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

The Evening Post Job Printing Office—Offering to print and bind Annual Report at the same rate as last year. Referred to Secretary.

R. H. Wolff & Co.—Renewal of application for permission to build bulkhead between One Hundred and Seventeenth and One Hundred and Eighteenth streets, Harlem river. Referred to Engineer-in-Chief to examine and report.

A. Van Santvoord—Requesting berth for steamboat "C. Vibbard" at the southerly side of foot of West Twenty-seventh street, North river. Permission granted, to be and remain there during the will of the Board, provided they pay as compensation for the use thereof the sum of \$10 per day for each and every day, commencing Sunday, July 17th instant.

Maine Steamship Co.—Requesting permission to drive piles at Pier 38, East river. Permission granted, work to be done under the direction and supervision of the Engineer-in-Chief.

From Engineer-in-Chief:

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending July 9, 1887.

3d. Reporting that he had suspended laborers, acting watchmen John C. Farlow, Daniel Thomas Cody, Frank Whelan and John Murphy, who were found asleep while on duty, and recommending that they be not again assigned to duty as acting watchmen. The action of the Engineer-in-Chief was approved and recommendation adopted.

4th. Reporting repairs required to Pier at Seventy-ninth street, North river. The action of the Board in directing the Engineer-in-Chief to repair as recommended in his report, at a cost of \$10, was approved.

5th. Reporting death of John C. Donohue, late clerk to General Repairs Force. The Secretary directed to drop his name from the roll of employees.

6th. Reporting damage to Pile Driver No. 2 by barge "Chicago" in tow of tug-boat "Blue Stone." The Engineer-in-Chief directed to repair said damage, and report the cost for collection to the tug "Blue Stone."

7th. Report on Secretary's Order No. 6736, in reference to the request of Canda & Kane, for Department to name a nominal sum as compensation for the use of about twenty-four feet of the bulkhead between Fifty-first and Fifty-second streets, North river, and recommending that their request be denied, at least for the present.

On motion, the report was received and recommendation adopted.

8th. Report on Secretary's Order No. 6744, respecting the cutting of deck of approach to Pier, No. 46, North river, by the Consolidated Gas Co. The President authorized to notify the said company to show cause on Tuesday, July 19, instant, at 1 o'clock P. M., why penalty should not be imposed for violation of law.

9th. Report on Secretary's Order No. 6754, in reference to the application of the East Bath Company for permission to place a ten-inch cast-iron pipe under Pier, old 1, North river, for the purpose of obtaining a supply of salt water. The action of the President in issuing a consent providing that consent is first obtained to place it under said pier, said pipe to remain down to the will of the Board, and to be laid under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

10th. Report on Secretary's Order No. 6700, in reference to the protest of the Department of Street Cleaning against the location of public bath adjoining north side of Pier 60, foot of River street, East river.

11th. Report on Secretary's Order No. 6626, respecting the availability of bulkhead at Seventy-first street, East river, as a site for a dumping-board.

12th. Report on Secretary's Order No. 6419, dredging required in front of bulkhead between Piers, old 57 and 58, North river. The Engineer-in-Chief directed to make requisition for dredge to the extent of about 1,500 cubic yards, as recommended in his report.

13th. Report on Secretary's Order No. 6741, repairs required to Pier at North Brother Island, and stating that before said work can be done a large amount of sand stored on the approach to the pier must be removed. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$300. The President authorized to request the Board of Health to remove sand, and to employ the employees of this Department with transportation during said repairs.

14th. Report on Secretary's Order No. 6753, in reference to the application of S. A. Jones, requesting the Department to dredge the half slip on the easterly side of Pier 20, East river. The Secretary directed to notify C. H. Mallory & Co. to dredge forthwith, under the direction and supervision of the Engineer-in-Chief of this Department.

15th. Report on Secretary's Order No. 6702, respecting the work being done by John G. Gorman, contractor, in building Pier foot of West Thirty-fourth street, North river.

16th. Report on Secretary's Order No. 6556, dredging required in half slip northerly of Pier 20, East river. The Engineer-in-Chief directed to dredge, as recommended in his report, at a cost of about \$900. The President authorized to request the Department of Public Works to repair the sewer and extend same to the outer end of pier.

17th. Reporting repairs required to Pier at Third street, East river. The Secretary directed to notify E. A. Cruikshank, agent of alleged owner of east half, and The South Brooklyn Ferry Company, lessees of west half, to repair under the direction and supervision of the Engineer-in-Chief of this Department.

18th. Reporting that the Pier at One Hundred and Thirtieth street, North river, requires leveling off. The Engineer-in-Chief directed to do said work as recommended in his report, at a cost of about \$40. The Dock Master directed to have the obstructions encumbering said bulkhead removed at once.

19th. Recommending that the Dock Master be directed to remove obstructions on the bulkhead north of Pier at One Hundred and Thirty-first street, North river. The Secretary was directed to notify the Dock Master to remove said encumbrances as recommended by the Engineer-in-Chief of this Department.

10th. Recommending the refastening of fender-pile at Pier at Thirty-eighth street, East river. Action of the President in directing the Engineer-in-Chief to repair, was approved.

11st. Report on Secretary's Order No. 6237, submitting information requested by the Counsel to the Corporation in relation to the water-front, between One Hundred and Twenty-second and One Hundred and Twenty-third streets, Harlem river. The President authorized to send copies of reports to the Counsel to the Corporation and request him to take the necessary steps to place Department in possession of all the water-front from One Hundred and Twentieth to One Hundred and Twenty-fourth street, Harlem river.

12d. Report on Secretary's Order No. 6742, in reference to the action of John Nesbit & Son in erecting a fence at Pier foot of Thirty-seventh street, East river. The Secretary directed to notify John Nesbit & Son to remove fence on south side of pier, also projection of shed beyond pier line on south side, and shed on bulkhead on the north side.

13d. Report on Secretary's Order No. 6692, condition of Pier at One Hundred and Thirty-fourth street, North river. The Engineer-in-Chief directed to repair as recommended in his report, cost of about \$125.

14th. Reporting non-commencement of dredging north of Fifty-fourth street, East river. Directed Randolph Guggenheimer to commence to dredge within ten days in accordance with his contract.

15th. Report on Secretary's Order No. 6170, that he had superintended building crib-bulkhead between Ninety-sixth and Ninety seventh streets, North river.

16th. Report on Secretary's Order No. 6314, that he had superintended the removal of dumping-board on the north side of bulkhead at Fifty-fourth street East river.

17th. Report on Secretary's Order No. 6498, that he had superintended the carrying of sewer north of bulkhead at Sixty-fourth street, East river.

18th. Report on Secretary's Order No. 6611, that he had taken immediate action to prevent access to dumping-board foot of Sixty-fourth street, East river.

19th. Report on Secretary's Order No. 6681, that he had repaired deck of Pier 48, East river.

20th. Report on Secretary's Order No. 6690, that he had repaired deck of Pier foot of Forty-fourth street, North river.

21st. Report on Secretary's Order No. 6704, that he had replaced cluster of piles, Pier 59, North river.

22d. Report on Secretary's Order No. 6707, that he had repaired backing-log on inner end of Pier 59, North river.

23d. Report on Secretary's Order No. 6723, that he had repaired deck of Pier foot of Twenty-fourth street, East river.

24th. Report on Secretary's Order No. 6729, that he had superintended refastening fender piles at outer southerly corner of Pier, new 44, North river.

35th. Report on Secretary's Order No. 6746, that he had replaced fence across outer Pier 37, East river.

36th. Report on Secretary's Order No. 6747, that he had repaired deck of Pier 37, East river.

37th. Report on Secretary's Order No. 6749, that he had replaced cluster of piles at Pier 37, East river.

38th. Report on Secretary's Order Nos. 6693 and 6401, that he had repaired pier and bulkhead at West Eleventh street, North river.

39th. Report on Secretary's Order No. 6546, that he had superintended repairing Piers 20 and 21, North river.

40th. Report on Secretary's Order 6748, that he had superintended repairing Pier, old 21, North river.

41st. Report on Secretary's Order No. 6745, that he had repaired Pier 19, East river.

From Edward Abeel, Dock Master—Reporting that he had served notice on C. H. Mallory Co. and the Union Ferry Company to remove signs from the upper side of Pier 21 and the lower side of Pier 22, East river.

From John Callan, Dock Master—Reporting that repairs are required to Pier at One Hundred and Seventeenth street, Harlem river. The action of the President, in directing the Engineer-in-Chief to examine and report, was approved.

From Eugene McCarthy, Dock Master—Reporting damage to cluster of piles at Pier 50, East river, by tug-boat "F. A. Low," while towing barge "S. D. Silliman" in the slip foot of Delancey street, East river. The action of the President, in directing the Engineer-in-Chief to examine and report cost of repairs, and notifying owners of tug-boat and barge that they must pay for damage done, was approved.

From Charles H. Thompson, Dock Master—Reporting service of notices to remove advertisements from signs.

From John Simpson, Dock Master—Reporting that there is a hole on the north and south side of Pier, old 34, North river. The action of the President, in directing the Engineer-in-Chief to examine and report, and notifying the West Shore Railroad Company to repair the south side, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Joseph B. Erwin, Dock Master—Reporting that he had served notice on Walsh & O'Connell respecting the dumping of marble dust into the slip at Pier foot of Forty-sixth street, North river.

Commissioner Matthews also reported that he had received the following estimates for furnishing the Department with 500 piles and about 357,255 feet sawed yellow pine :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held July 14, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The Board went into Executive Session.

The minutes of the Executive Session, held July 11, 1887, were read and approved.

The application of William H. Webb requesting permission to repair and extend the Pier at Sixth street, East river, was,

On motion, ordered to be placed on file, and the following preamble and resolution were adopted :

Whereas, Application has been made by William H. Webb for permission to make certain repairs to the Pier foot of Sixth street, East river ;

Resolved, That permission be and hereby is granted to the said William H. Webb to make necessary repairs within the existing lines, as may be required to put the Pier in good and serviceable condition ; all the work hereby authorized to be done under the direction and supervision of the Engineer-in-Chief of this Department, it being expressly understood that the permission hereby granted is not to be construed as in any way or manner acknowledging that the said William H. Webb has any right, title, or interest in or to the said premises, or as in any manner impairing or prejudicing the right, title, or interest of the City to the said property.

A communication from the Engineer-in-Chief, respecting the application of the Police Department for alterations in and completion of, the westerly room on the northerly side, lower story, of Pier "A," North river, as per plan submitted, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the Engineer-in-Chief be and hereby is directed to make the alteration completion requested by the Police Department, at a cost not to exceed \$200.

A communication from: Hon. Alfred C. Chapin, attorney Screw Dock Company, respecting sale of Pier 39, East river, and bulkhead adjoining, was,

On motion, ordered to be placed on file, and the following preambles and resolution adopted :

Whereas, A resolution was passed by this Board on the 26th March, 1887, authorizing chase of certain bulkhead and wharf property on South street, between Market and Pike amounting to three hundred and four and three-tenths feet, including also Pier 39, East belonging to the Screw Dock Company, for the sum of \$650 per lineal foot of said bulkhead, or a total of \$196,950; and

Whereas, An agreement was entered into with said Screw Dock Company in conformity with the terms of said resolution above recited, which agreement was extended from time to time and now expires on the 18th July, current ;

Resolved, That the resolution made on the 26th March, 1887, which provides for the purchase of the above-mentioned property, and in accordance with which the agreement was made, be amended so as to read that the price of said bulkhead property, amounting to 304 $\frac{3}{4}$ lineal feet of Pier 39, East river, amounting to 710 $\frac{1}{4}$ lineal feet of wharfage room, in all 1,014 $\frac{3}{4}$ lineal feet of wharfage room, be \$194.17 $\frac{1}{2}$ (one hundred and ninety-four dollars and seventeen and one-half cents) per lineal foot for said bulkhead and Pier 39, East river, and that an agreement be made in conformity with the terms and conditions aforesaid, and be extended to and include October 1887.

The following preambles and resolutions were, on motion, adopted :

Whereas, A resolution was adopted by the Board on the 24th of June, 1886, subsequently amended by a resolution adopted February 9, 1887, leasing to C. P. Huntington the stone pier extending from the middle of the slip, between Piers, new 37 and 38, North river, with permission to shed the same ; and

Whereas, Said lease was granted for a term of years co-existent with the lease to C. P. Huntington of Pier, new 37, North river, with a covenant of renewal for a further term of years co-existent with the right of extension of the present lease of Pier, new 37, North river, at an annual rent of three thousand and five hundred dollars payable quarterly in advance ; now, be it

Resolved, That said resolution of the 24th of June, 1886, with amendment of February 9, 1887, be still further amended by the inserting after the words "to give to said lessee a covenant of renewal for a further term of years coterminous with his right of extension of his present lease of said pier," the words "at an advanced rent of three thousand and eight hundred dollars per year, payable quarterly in advance, in accordance with chapter 15, section 716 of the Consolidated Laws of 1882 ;" so that the amended resolution will read as follows :

Whereas, By a resolution of the said Board of Docks, adopted on the 24th day of June, 1886,

Resolved, That by virtue of the power vested in said Board by subdivision 6, of section 6, of chapter 574 of the Laws of 1871, and by section 716 of chapter 410 of the Laws of 1882, commonly known as "The New York City Consolidation Act," as amended by chapter 517 of the Laws of 1884, the westerly half of the stone bulkhead, between Piers, new 37 and new 38, North river, and the easterly half of stone bulkhead, between Piers, new 36 and new 37, North river, be and are hereby granted to the sole use of the special kind of commerce carried on by steam transportation ; and it was further

Resolved, That C. P. Huntington should be informed that this Department would grant to him the use of said premises for a term of years coterminous with his present lease of said Pier, new 37, North river, at an annual rent of three thousand five hundred dollars, payable quarterly in advance, and would agree in said lease, to give said lessee a covenant of renewal for a further term coterminous with his right of extension of his present lease of said pier, at an advanced rent of three thousand and eight hundred dollars per annum, payable quarterly in advance, in accordance with chapter 15, section 716 of the Consolidation Act of 1882, provided that said C. P. Huntington should, within five days after receipt thereof, file in the office of said Board a written acceptance of said resolution, and agree to execute a lease of said bulkhead with permission to shed a width of fifty feet easterly from the front of the bulkheads, and from the middle of the bulkhead, between Piers, new 36 and new 37, North river, to the middle of the bulkhead, between Piers, new 37 and new 38, North river, containing the usual covenants and in conformity with the terms set forth in said resolution ; and it was further

Resolved, That said shed should be constructed subject to the regulations required by chapter 15 of the Laws of 1875, and of sections 772 and 774 of chapter 410 of the Laws of 1882, commonly known as "The New York City Consolidation Act," and in conformity with the plans to be first submitted to and approved by the Commissioners of Docks, and all work to be done under the supervision and direction of the Engineer-in-Chief of said Department, and, provided that the area of land to be occupied by said shed should be maintained and kept in satisfactory repair by and at expense of the lessee, and further that the said lessee should file in the office of said Department, within five days after receipt of said resolution, a written agreement that the said shed should revert and become the property of the Corporation of the City of New York, upon the expiration or termination of the lease of said bulkhead free of all claims of every kind whatsoever ; and,

Whereas, C. P. Huntington has, in compliance with the conditions of the said resolution, filed in the office of the Department of Docks, a written acceptance of the terms of said resolution, an agreement to execute a lease of said bulkheads and also a written agreement that the said shed shall revert to and become the property of the Corporation of the City of New York, upon the expiration or termination of the lease of said bulkhead free of all claims of every kind whatsoever ; and

Whereas, By a resolution of the said Board, adopted on the 9th day of February, 1887 ; it was

Resolved, That the said resolution adopted on the 24th day of June, one thousand eight hundred and eighty-six, be amended so as to read as follows :

Resolved, That by virtue of the power vested in this Board, by subdivision 6, of section 574 of the Laws of 1871, and section 716, of chapter 410 of the Laws of 1882, commonly called "The New York City Consolidation Act," as amended by chapter 517 of the Laws of 1886, the stone bulkhead extending from the middle of the slip, between Piers, new 36 and new 37, North river, to the middle of the slip, between Piers, new 37 and new 38, North river, be and be appropriated to the sole use of the special kind of commerce carried on by steam transportation.

Whereas, A resolution was adopted by the Board on the 20th day of August, 1886, and subsequently amended by a resolution adopted February 9, 1887, leasing to the Delaware, Lackawanna and Western Railroad Company the whole bulkhead from a point ninety-four feet southerly on the southerly side of Pier, new 41, North river, to a point ninety-four feet northerly of the northern side of said Pier, new 41, North river, with permission to shed the same; and

Whereas, Said lease was granted for a term of years co-existent with the present lease of the Company of Pier, new 41, North river, with a covenant of renewal for a further term of years co-existent with the right of extension of the present lease of said Pier, new 41, North river, at an annual rental of five thousand dollars, payable quarterly in advance; now be it

Resolved, That the said resolution of the 20th of August, 1886, with amendment of February 9, 1887, be still further amended by inserting after the words "to give said lessee a covenant of renewal for a further term of years coterminous with its right of extension of its present lease of said Pier," the words "at an advanced rent of five thousand three hundred dollars per annum, payable quarterly in advance, in accordance with chapter 15, section 716 of the Consolidation Act of 1882, so that the amended resolution will read as follows:

"Whereas, By a resolution of the said Board of Docks, adopted on the 20th day of August, 1886; it was

"Resolved, That by virtue of the power vested in said Board by subdivision 6 of section 574 of the Laws of 1871, and by section 716 of chapter 410 of the Laws of 1882, commonly called 'The New York City Consolidation Act,' as amended by chapter 517 of the Laws of 1886, ninety-four feet of the bulkhead adjoining each side of the Pier, new 41, North river, were appropriated to the sole use of the special kind of commerce carried on by steam transportation; and was further

"Resolved, That the Delaware, Lackawanna and Western Railroad Company should be informed that this Department would grant to it a lease of said premises for a term of years coterminous with its present lease of said Pier, new 41, North river, at an annual rent of five thousand dollars, payable quarterly in advance, and would agree in said lease to give said lessee a covenant of renewal for a further term of years coterminous with its right of extension of its present lease of said pier, at an advanced rent of five thousand three hundred dollars per annum, payable quarterly in advance, in accordance with chapter 15, section 716 of the Consolidation Act of 1882, provided that said company should, within five days after receipt thereof, file in the office of said Board a written acceptance of the terms of said resolution and agree to execute a lease of said bulkhead with permission to shed the same, fifty feet easterly from the front of the bulkheads and from the middle of the bulkhead between Piers, new 40 and new 41, North river, to the middle of the bulkhead

[JULY 14, 1887.]

on Piers, new 41 and new 42, North river, containing the usual covenants and in conformity with the terms set forth in said resolution ; and it was further

Resolved, That said shed should be constructed subject to the regulations required by chapter 410 of the Laws of 1875, and of sections 772 and 774 of chapter 410 of the Laws of 1882, commonly known as "The New York City Consolidation Act," and in conformity with the plans to be first submitted to and approved by the Commissioners of Docks, and all work to be done under the supervision and direction of the Engineer-in-Chief of said Department, and provided that the area of said shed to be occupied by said shed should be maintained and kept in satisfactory repair by and at the expense of the lessee, and further, that the said lessee should file in the office of said Department, within five days after the receipt of said resolution, a written agreement that the said shed should revert to and become the property of the Corporation of the City of New York upon the expiration or sooner termination of the lease of said bulkhead free of all claims of every kind whatsoever; and

"Whereas, The Delaware, Lackawanna and Western Railway Company has, in compliance with the conditions of the said resolution, filed in the office of the Department of Docks a written agreement to execute a lease of said bulkheads, and also a written agreement that the said shed shall revert to and become the property of the Corporation of the City of New York, upon the expiration or sooner termination of the lease of said bulkhead, free of all claim of every kind whatsoever.

"And Whereas, by a resolution of the said Board, adopted on the 9th day of February, 1887"

Resolved, That the said resolution adopted on the 20th day of August, one thousand eight hundred and eighty-six, be amended so as to read as follows :

"Resolved, That by virtue of the power vested in this Board by subdivision 6, of section 6, chapter 574 of the Laws of 1871, and section 716 of chapter 410 of the Laws of 1882, commonly known as "The New York City Consolidation Act," as amended by chapter 517 of the Laws of 1884, the whole bulkhead from a point ninety-four feet southerly of the southerly side of Pier, new 41, North river, to a point ninety-four feet northerly of the northerly side of said Pier, new 41, North river, be and is hereby appropriated to the sole use of the special kind of commerce carried on by steam transportation."

The communication from William Rainer respecting claim for salary due as Foreman of floating property, was referred to the Treasurer to examine and report.

On motion, the Secretary was directed to request Thomas E. Rochfort, attorney for Frank Phelps, to call on the Commissioners on Monday, 18th instant, at 12.30 o'clock.

A communication from the Engineer-in-Chief in relation to filling behind the new bulkhead, between Seventy-seventh and Seventy-eighth streets, North river, was referred to the Treasurer to examine and report.

On motion, Charles S. Thompson, laborer, was assigned to perform duty as heretofore.

On motion, John Ward, Dennis Brown, Gavin Rutherford, John Smith, Patrick Brau Fitzgerald and John Manly, were appointed dock builders, G. W. Barber, carpenter, Wilson, laborer.

On motion, the Board adjourned.

G. KEMBLE, Sec

At a special meeting of the Board of Docks, held July 18, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The Board met for the purpose of receiving estimates for dredging at Pier 12, Pier 14, East river, advertised to be opened this day at 12 o'clock M.

A representative of the Comptroller was present.

One estimate was received from the Morris & Cumings Dredging Company, accompanied by check for \$70, 22 cents per cubic yard.

On motion, the Secretary was directed to transmit to the Comptroller the security made by said bidder and accompanying his estimate.

The following resolution was, on motion, adopted :

Resolved, That the contract opened this day for dredging at Pier 12, Pier 13 and Pier 14, East river, be and hereby is awarded to the Morris & Cumings Dredging Company, they being the lowest bidders, upon the approval of the sureties by the Comptroller of the city.

On motion, the Board adjourned.

G. KEMBLE, Sec

At a special meeting of the Board of Docks, held July 18, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The following resolutions were, on motion, adopted :

Resolved, That the permission granted to Edward Teague on the 26th of August, 1887, to occupy during the pleasure of the Board, the dumping-board at the foot of West Third street, North river, be and hereby is revoked, and that the said Edward Teague be ordered to vacate and surrender the premises forthwith.

Resolved, That the permission granted to Francis Connolly on the 14th of October, 1887, to occupy during the pleasure of the Board, the dumping-board at the foot of West Third street, North river, be and is hereby revoked, and that the said Francis Connolly be ordered to vacate and surrender the premises forthwith.

On motion, the Board adjourned.

G. KEMBLE, Sec

[JULY 21, 1887.]

At a meeting of the Board of Docks, held July 21, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held July 14 and 18, 1887, were read and approved.

The following estimate was received for granite work and masonry on the boat-landing wall about the approach to Pier "A," North river, advertised to be opened this day at 12 o'clock M.

A representative of the Comptroller was present.

Joseph Moore, with certified check for \$75 \$9,100 00

On motion, the Secretary was directed to transmit to the Comptroller of the City the security bid made by the said bidder and accompanying his estimate.

The following preamble and resolution was,

On motion, adopted :

Whereas, This Board deems it for the interests of the City to reject the bid received this day for granite work and masonry on the boat-landing wall and about the approach to Pier "A," North river; therefore

Resolved, That the bid received this day, namely, No. 1, from Joseph Moore, for \$9,100, be hereby is rejected, and the Secretary be and hereby is directed to re-advertise in the papers designated by law, inviting estimates for doing said work.

The following communications were received, read and,

On motion, laid on the table to await action, as stated, to wit :

From James McClenahan—Requesting dredging in slip at south side of Pier foot of Thirtieth Street, North river.

From O'Brien & Norman—Requesting use of dumping-board foot of Eightieth street, East river.

From Engineer-in-Chief :

1st. Reporting that the repairs made to the east half of Pier 12, East river, are insufficient, and put in accordance with the order of the Board.

From New York Steam Company—Requesting permission to erect coal pockets a improvements between Fifty-sixth and Fifty-seventh streets, East river, in accordance with i specifications submitted. Referred to the Engineer-in-Chief to examine and report.

From Consolidated Gas Company—Requesting permission to replace gas-pipe on Pier, North river. Referred to the Engineer-in-Chief to examine and report.

From Health Department—Stating that the sand stored on the Pier at North Broth will be removed and transportation provided whiie repairs are being made to said pier.

From Edward Abeel, Dock Master :

1st. Reporting that bearing pile and half-round fender are required at the upper side o East river. The action of Commissioner Matthews in directing the Engineer-in-Chief to and cause the work to be done if necessary, was approved.

2d. Reporting repairs required to fender piles on the upper side of Pier 43, East river the lower side of the bulkhead near said pier. The action of the President in directing the in-Chief to examine and report, was approved.

[JULY 21, 1887.]

From Patrick J. Brady, Dock Master—Reporting holes on the inner end of Pier, new 59, North river. The action of the President in directing the Engineer-in-Chief to examine and repair if necessary, was approved.

From Joseph B. Erwin, Dock Master—Reporting that the Pier at Fifty-fifth street, North river, needs cleaning. The action of the President in requesting the Department of Street Cleaning to clean, was approved.

From Patrick Curley, Dock Master :

1st. Reporting repairs required to one of the iron bands on sliding door on Pier, new 43, North river.

2d. Recommending that cleat be replaced on the bulkhead between Piers, new 42 and 43, North river. The action of the President in directing the Engineer-in-Chief to examine and repair if necessary, was approved.

From John Simpson, Dock Master—Reporting holes in the bulkhead between Piers, old 26 and 27, North river. The action of the President in directing the alleged owner or owners to repair, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Anthony Hartman, Dock Master—In reference to and recommending that the permit granted to Henry Fisher, March 25, 1887, to erect derrick on the bulkhead between Sixty-first and Sixty-second streets, East river, be revoked, and that he be directed to remove it without delay.

On motion, the report was received, recommendation adopted, and the Secretary directed to notify Henry Fisher and the Dock Master of the action of the Board.

From John Simpson, Dock Master—Reporting that a fence has been erected around the bulkhead on the north side of Pier, old 34, North river, by Contractor Walsh without a permit. The action of the Secretary in requesting an explanation from T. and A. Walsh, was approved.

From Patrick J. Brady, Dock Master :

1st. That he had served notice on Michael Connelly and Edward Teague to vacate the dump-board at Pier foot of West Thirty-seventh street, North river.

2d. In reference to the application of Joseph May for permission to place a float on the north side, inner end, of Pier foot of Thirty-fourth street, North river. Referred to the Engineer-in-Chief to examine and report.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending July 16, 1887.

3d. Reporting that there is a small triangular wing shed or addition to a boat-house north of West One Hundred and Thirty-second street, North river, which comes over land under water owned by the City to be occupied by the crib work now under construction. The Secretary directed to notify A. M. Tieman to remove said structure at once, in order that the work of this Department may be proceeded with thereat.

4th. Enclosing map of certain property on East and Harlem rivers, in front of southern block between East One Hundred and Sixteenth and One Hundred and Seventeenth and recommending that the Board request the Counsel to the Corporation to take the necessary steps to put the Department in possession of the same.

On motion, the report was received and recommendation adopted.

5th. Reporting the completion of dumping-board foot of East Eightieth street, East river. Contract No. 245. The Secretary directed to notify the Dock Master to collect wharfage vessels using the said dumping-board.

6th. Reporting that Morris & Cumings Dredging Co. are dredging near the foot of street, East river, without a permit from the Board. The action of the Secretary in requiring Morris & Cumings Dredging Co. to inform the Board by whose authority they are thereat, was approved.

7th. In reference to and reporting that Morris & Cumings Dredging Co. will do the dredging in the slip, between Piers 3 and 4, East river.

8th. Reporting repairs required to Pier, new 43, North river. The Engineer-in-Chief to repair as recommended in his report, at a cost of about \$10.

9th. Transmitting Inspector's report of material used under Contract No. 245, building-board at Eightieth street, East river.

10th. Report on Secretary's Order No. 6726, repairs required to Pier 2, East river. The President in notifying the Union and South Brooklyn Ferry Companies, respectively, of the west and east sides of said pier, to repair under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

11th. Report on Secretary's Order No. 5479, in reference to the application of the New York and Long Island Ferry Company for permission to erect platform, ferry racks, bridges, etc. feet north of Ninety-ninth street, East river, and recommending that all piles driven by company outside of the established bulkhead line be removed.

On motion, the report was received, recommendation adopted, and the Secretary directed to notify the Long Island Ferry Company to remove said piles forthwith, under the direct supervision of the Engineer-in-Chief of this Department.

12th. Report on Secretary's Order No. 6650, respecting the application of Henry C. Phillips for permission to drive piles in front of the bulkhead between One Hundred and Thirty-seventh and One Hundred and Thirty-eighth streets, East river.

On motion, the application of Henry C. Phillips was denied.

13th. Report on Secretary's Order No. 6676, in relation to the application of Sanderson & Sons, lessees of Pier, new 54, North river, for permission to erect a temporary structure south of said pier. Referred to Commissioner Marshall, with power.

14th. Report on Secretary's Order No. 6767, repairs required to the bulkhead along the line of East Seventeenth street, East river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$150.

19th. Report on Secretary's Order No. 6535, respecting the application of E. Browne, for permission to erect a shed on the Pier at Ninety-second street, East river.

On motion, the application of E. Browne was denied.

20th. Report on Secretary's Order No. 6757, in relation to the application of James E. Ward for permission to lay a covering of three-inch plank on surface of bulkhead between Piers 17, East river. Referred to Commissioner Marshall, with power.

21st. Report on Secretary's Order No. 6289, that the South Pacific Company, to whom permit was granted to cut gangways in Pier, new 46, North river, do not intend to do said work, and recommending that the permit be revoked.

On motion, the report was received and recommendation adopted.

22nd. Report on Secretary's Order No. 6762, respecting the cost of replacing cluster of piles at the outer end of Pier 59, East river, broken by tug-boat "F. A. Low." The action of the Board in directing the Engineer-in-Chief to replace piles and report the cost for collection from owners of said tug-boat was approved.

23rd. Report on Secretary's Order No. 6737, in reference to the application of the Equitable Light Company for an extension of time until after September 1, 1887, in which to repair the bulkhead between Thirty-ninth and Fortieth streets, East river. The Secretary directed to notify the Equitable Gas Light Company that the request to have the time extended is denied, and that they commence to repair the said bulkhead at once as heretofore ordered by the Board, and under direction and supervision of the Engineer-in-Chief of this Department, and that a copy of the report be sent.

24th. Report on Secretary's Order No. 6598, that he had directed and superintended the repairing of ferry racks at One Hundred and Thirtieth street, North river, by the Fort Lee Ferry Company, and recommending that the permit issued to said company on the 20th May, 1887, to erect a light and fog-bell on end of Pier foot of One Hundred and Thirty-first street, and build a platform on north side of existing ferry platform, about twenty feet wide, between One Hundred and Thirtieth and One Hundred and Thirty-first streets to the southerly side of One Hundred and Thirty-first street, North river, be revoked, as it is not the intention of the Ferry Company to do said work at the present time.

On motion, the report was received and recommendation adopted.

25th. Report on Secretary's Order No. 6261, that he had directed and superintended the location of a tally-house on Pier 44, East river, and also stating that it is not the intention of the Inland and Seaboard Coasting Company to cut gangway in said pier, and recommending that the permit be revoked.

On motion, the report was received and recommendation adopted.

26th. Report on Secretary's Order No. 5802, that he had superintended repairing Piers at Twentieth and Thirteenth streets, East river.

23d. Report on Secretary's Order No. 6724, that repairs have been made to deck of bulkhead foot of Fifty-fourth street, East river.

24th. Report on Secretary's Order No. 6313, that he had repaired the bulkhead at Fifty-first street, East river.

25th. Report on Secretary's Order No. 6472, that he had superintended repairing Pier 2, East river.

26th. Report on Secretary's Order No. 6588, that he had superintended driving piles, Pier 2, North river.

27th. Report on Secretary's Order No. 6610, that he had superintended repairing Pier, new 2, North river.

28th. Report on Secretary's Order No. 6657, that he had superintended the erection of structure for the conveyance of coal from boats to a point about seventy-five feet distant from bulkhead, One Hundred and Twenty-second to One Hundred and Twenty-third street, Harlem river.

29th. Report on Secretary's Order No. 6712, that he had superintended replacing piles in boom at bulkhead, between One Hundred and Twenty-fifth and One Hundred and Twenty-sixth streets, Harlem river.

30th. Report on Secretary's Order No. 6738, that he had repaired pavement at entrance of Pier, old 33, North river.

31st. Report on Secretary's Order No. 6752, that he had superintended repairing bulkhead, north side Pier, old 35, North river.

32d. Report on Secretary's Order No. 6769, that he had superintended repairing south side Pier, old 34, North river.

33d. Report on Secretary's Order No. 6478, that he had superintended repairing Pier, new 3, North river.

34th. Report on Secretary's Order No. 6706, that he had superintended repairing Pier, new 44, North river.

35th. Report on Secretary's Order No. 6591, that he had placed a silt basin on the new-mud land near Pier, new 41, North river.

36th. Report on Secretary's Order No. 6733, that he had repaired the approach to Pier, new 42, North river.

37th. Report on Secretary's Order No. 6649, that he had superintended the erection of temporary passenger office at Pier, old 26, North river.

38th. Report on Secretary's Order No. 6760, that he had repaired sheathing on deck of Pier, new 38, North river.

39th. Report on Secretary's Order No. 6713, that he had repaired Pier, new 43, North river.

[JULY 21, 1887.]

- 13th. Report on Secretary's Order No. 6770, that he had refastened pile at outer end of Pier at Fifty-fourth street, East river.
- 14th. Report on Secretary's Order No. 6159, that he had superintended the erection of derricks and the placing of a boiler and hoisting engine on Pier, new 54, North river.
- 15th. Report on Secretary's Order No. 6250, that he had superintended repairing Pier, new 40, North river.
- 16th. Report on Secretary's Order No. 5597, that he had superintended the placing of boilers, on Pier, new 55, North river.
- 17th. Report on Secretary's Order No. 6724, that repairs had been made to deck of bulkhead of Fifty-fourth street, East river.

The Treasurer, Commissioner Matthews, to whom was referred the application of William Rainer, late Foreman of Floating Property, respecting salary due him, submitted the following report:

DEPARTMENT OF DOCKS, July 18, 1887.

to the Board of Docks:

The within bill of William Rainer against this Department, amounting to \$68.71, having been presented to me, I beg leave to report that I have examined the same and have had a personal interview with the claimant concerning the same; that it appears by a resolution of the Board, adopted July 4, 1882, that "his compensation or salary," as Foreman of Floating Property, was fixed at \$18.76 per month; that by way of settlement he is willing to waive the payment of the \$18.76, being the period from January 25, 1885, to January 31, 1885; that he has been paid in full (waiving the \$18.76) up to August 1, 1885; that on the 27th day of July, 1885, he obtained a leave of absence with pay for one week, and it does not appear that any further leave of absence, either with or without pay, was given; that on the 15th of August, 1885, his services were dispensed with, since which time he has not performed or appeared to perform any services whatever for this Department.

Under all the circumstances and to avoid further controversy in this matter, I am of the opinion, and accordingly recommend, that the bill (\$49.95) be paid.

All of which is respectfully submitted.

JAMES MATTHEWS, Treasurer.

On motion, the report was received, recommendation adopted, and the Chief Clerk directed to draw requisition for said amount.

Commissioner Matthews offered the following preambles and resolutions, which were unanimously adopted:

Whereas, At a meeting of the Board of Docks duly held June 1, 1887, it was

Resolved, That permission be granted to the Consumers' Ice Company to use and occupy during the will of the Board, the Pier foot of Horatio street, North river (except reservation for public

bath at outer northerly side), at the rate of \$150 per month, payable monthly (or during to the Treasurer of this Department, commencing May 1, 1887 ; and

Whereas, The said Consumers' Ice Company has failed and neglected to pay the \$150 per month, or any part thereof, for the use and occupancy of the said pier, although therefor has been duly demanded ; therefore

Resolved, That said Consumers' Ice Company be and it is hereby ordered and required to show cause before the Board of Commissioners governing this Department, in the Board Room, North river, on Friday, the 29th day of July, 1887, at 2 o'clock in the afternoon of the said \$150 per month has not been paid, and why the said resolution granting it the use and occupy the premises as aforesaid should not be revoked, and why this Department not be declared entitled to such further or other relief in the premises as may be just and

Whereas, One James L. Miller is the lessee from the City of the wharfage and crane right to collect the same, for the use and occupancy of the bulkhead at Forty-third street, as provided for in the lease to him thereof, dated April 1, 1885 ; and

Whereas, It is provided in said lease, among other things, that the said lease may forfeited, null and void in case of failure to pay rent or comply with the terms, covenants and conditions of said lease ; and

Whereas, The said James L. Miller has failed and neglected to pay the rent on the premises, as provided in said lease, although often requested so to do, and although many days have elapsed since the same became due and payable, and there is now due to the said Miller on account of said lease the sum of \$525.

Resolved, That he, the said James L. Miller, be and he is hereby ordered and required to show cause before the Board of Commissioners governing this Department, at the Board Room, Pier "A," North river, on Friday, the 29th day of July, 1887, at 12 o'clock noon, of the said rent has not been or is not paid, and why the said lease should not be declared null and void, and why this Department should not be declared entitled to such further relief in the premises as may be just and proper.

Resolved, That the recommendation of Commissioner Matthews and the resolution of the Board, passed October 21, 1885, adopting such recommendation, granting permission to John A. Bouker to erect dumping-board on the Pier at East Seventy-third street, East river, during the pleasure of the Board, be and the same are hereby revoked, and that he, the said John A. Bouker, vacate and render possession of said pier on the 30th day of July, 1887.

Commissioner Marshall, to whom was referred the application of the East River Ferry Company for permission to assign lease of Pier foot of Thirty-third street, East river, offering the following preambles and resolution, which were unanimously adopted :

Whereas, Application has been made by the East River Ferry Company for the transfer to the Metropolitan Ferry Company the remainder of the terms of certain leases

[JULY 21, 1887.]

owit, May 1, 1881, and April 15, 1886, by this Department to the said East River Ferry
y, of the use and occupation of a certain pier at the foot of Thirty-third street, East river,
rk City, said pier to be used by the said Metropolitan Ferry Company in the operation of its
subject to the rents, covenants and conditions of the leases above referred to ; and

reas, The Metropolitan Ferry Company has complied with the requirements of this Depart-
urnishing two responsible sureties, who have duly qualified and executed a bond, the form
has been approved by the Counsel to the Corporation ;

lved, That the Board of Commissioners of this Department hereby agrees and consents
nsfer and assignment of the leases as described and mentioned above, and to the substitu-
e Metropolitan Ferry Company of the sureties who have been submitted, it being under-
agreed that all the covenants, rents and conditions of said leases shall remain and be in
shall not be changed or vitiated in any way by this assignment, and provided that the
sent to the terms of these preambles and resolution shall be given to this Department in
the East River Ferry and the Metropolitan Ferry companies.

Auditing Committee presented an audit of four bills, amounting to \$17,840.32, which were
and the Secretary directed to enter in full on the minutes, as follows :

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held July 22, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held July 21, 1887, were read and approved.

The Board then went into Executive Session.

The following communications were,

On motion, taken from the table, and ordered to be placed on file :

From Thomas Sheehy and O'Brien & Norman—Requesting use of dumping-board foot of
thirtieth street, East river.

From Glen Cove Manufacturing Company.—Requesting permission to build a temporary pier or
platform in front of the bulkhead near the foot of Jackson street, East river, in accordance with the
plans submitted. Referred to the Engineer-in-Chief to examine and report.

From James McClenahan—Requesting the Department to dredge at south side of Pier foot of
thirtieth street, North river. Referred to the Engineer-in-Chief to examine and report.

From Thurber, Whyland & Co.—Recommending E. J. Hamilton for an appointment in the
Department.

From J. P. Joralemon—Stating that he does not own any of the bulkhead between Piers 47 and
48, East river.

From Standard Gas-light Company—Requesting the Department to proceed with the construction of the bulkhead between One Hundred and Fourteenth and One Hundred and Fifteenth streets, Harlem river, and give said company a lease with the right to collect wharfage.

From Department of Street Cleaning—Respecting the use of the dumping-board at Pier 40, East river, by the boats of the Barney Dumping-boat Company. The Secretary directed to advise said company to at once cease the receiving of cellar dirt and other material at the said pier.

From New York Horse Manure Company—Advising the Board that they are making necessary repairs to the Pier at Forty-fourth street, North river.

From Engineer-in-Chief :

1st. Reporting that Frank Phelps has not commenced to repair the bulkhead at inner Pier 40, East river, as ordered by the Board. Referred to the Treasurer, Commissioner Marshall.

2d. Reporting repairs required to roof, etc., of storehouse at East Seventeenth Street Yard, East river. The Engineer-in-Chief directed to repair roof of storehouse by placing a tin roof on the same, and also repair roof of small office building by placing a tin roof thereon, and repair office floors, doors, etc., with the force of the Department, as recommended in his report.

3d. Requesting the appointment of twelve additional Dock Builders.

4th. Report on Secretary's Order No. 6782, in reference to the application of R. H. Wolf Co. for permission to build a crib-bulkhead, between One Hundred and Seventeenth and One Hundred and Eighteenth streets, Harlem river. The Secretary directed to request Mr. Wolff to appear before the Commissioners.

5th. Report on Secretary's Order No. 6573, respecting the dimensions of the house erected by A. Scott & Son, on the bulkhead south of West Twenty-second street, North river. The Secretary directed to notify A. Scott & Son that unless the dimensions of the said house are made to conform in every respect to the requirements of the permit issued May 18, 1887, penalty for violation of rules will be imposed.

6th. Report on Secretary's Order No. 6596, in relation to the application of the Maine Steamship Company for permission to erect a platform, etc., adjoining Pier 38, East river. The President authorized to request the agent of said company to call on the Commissioners, on Thursday, July 28th instant, at 12 M.

7th. Report on Secretary's Order No. 6537, respecting the application of C. H. Mallory & Co. to extend shed at Pier 21, East river. Referred to Commissioner Marshall.

8th. Report on Secretary's Order No. 6651, in relation to the application of Edward McDonough for permission to erect a temporary boat-house foot of One Hundred and Eighth street, North river.

9th. Report on Secretary's Order No. 5794, that the Ridgewood Ice Company have made necessary repairs to the bulkhead foot of Fifty-third street, East river.

D. W. Bogert, Dock Master, reported that on July 18th instant, he had notified George B. of No. 9 York street, to remove lumber obstructing the bulkhead, between Piers, new 38 and North river, on or before the 19th. Said lumber removed July 22d instant.

tion, a penalty of \$40 was imposed upon George Blair for violation of Rule No. 4, and
 ry was directed to notify him to call and pay the said amount to the Treasurer of this
 t within ten days after receipt of notice or the claim will be sent to the Counsel to the
 for collection.

avit from Walsh & O'Neill, respecting the dumping of marble dust at the foot of Forty-
 North river, was ordered to be placed on file, and

tion, a penalty of \$25 was imposed upon the said parties for violation of Rule No. 10,
 retary directed to notify them to call and pay the said amount to the Treasurer of this
 within ten days or the claim will be sent to the Counsel to the Corporation for collection.

ort of the Engineer-in-Chief (Secretary's Order No. 6771), on the application of the
 to know if this Department can allow the Department of Public Works to use tempo-
 tion of the East Seventeenth Street Yard for the storage of materials belonging to the
 ncumbrances, was received, and,

ion, the President was authorized to inform the Comptroller that this Department will
 epartment of Public Works to use a portion of the East Seventeenth Street Yard for the
 toring various articles appertaining to the Bureau of Incumbrances, provided that it is
 distinctly understood and agreed that the said use is temporary only, and that it shall
 ily at the pleasure of the Board governing the Department of Docks, and that the
 of Public Works will immediately remove all articles under its control from said yard
 equired to do so by the Department of Docks, and that all articles stored or placed in
 hall be stored and placed under the direction and supervision of the Engineer-in-Chief of
 ment.

issioner Matthews offered the following resolutions, which were,
 otion, adopted :

ved, That the resolution adopted by the Board on the 28th July, 1886, setting apart and
 g the bulkhead platform foot of Seventieth street, East river, for the use of the Department
 leaning, be and hereby is revoked, to take effect July 29, 1887.

lved, That pursuant to the provisions of section 728 of chapter 410, Laws of 1882, the
 platform foot of East Seventy-third street, East river, be and hereby is set apart and desig-
 the use of the Department of Street Cleaning of the City of New York, to take effect July

mmunication from the Counsel to the Corporation, respecting the title to certain wharf
 on the East river, between Seventh and Thirteenth streets, was,

notion, ordered to be placed on file, and the following preambles and resolution, offered by
 ioner Marshall, were adopted :

reas, A communication under date of June 28, 1887, has been received from the Corpora-
 nsel, referring to the steps which have been taken by him to recover certain pier and wharf
 at the foot of Tenth street, East river, in accordance with the request made by resolution
 ard on the 2d of August, 1882 ; and

Whereas, It appears that the proceedings initiated by the Corporation Counsel with have been attended with partial success, and will, in his opinion, result ultimately in the for the use of the city of considerable property at and near Tenth street, East river, now enjoyed by private parties ; and

Whereas, There are at present several pieces of property on the East river, from about of Seventh street to about the foot of Thirteenth street, which are in possession of various claiming them, but the title to which under the law declared by the Courts in the above vested in this city, being substantially in the same category as to possession ; and

Whereas, The Corporation Counsel in the communication above referred to has suggested this Board the expediency of bringing the several suits necessary to be undertaken recovery to the City of the possession of the property described as between Seventh street and thirteenth street, East river, and also a suit against the heirs and representatives of John Roach, to recover the possession of the premises included in the former suit, abatement of which was by the death of John Roach ; now be it

Resolved, That the Counsel to the Corporation be requested to continue the suit against heirs and representatives of John Roach, deceased, and that he be also requested to draw up resolutions as may be necessary to terminate any licenses that may be found to exist for occupation of land under water belonging to the City between the northerly side of Sixth street river, and the northerly side of Thirteenth street, East river.

Commissioner Marshall offered the following resolution, which was,

On motion, adopted :

Resolved, That the Treasurer's Clerk be directed to observe the rule in regard to the attendance in this Department, namely, from 9 A. M. till 4 P. M., except on Saturdays, the present office hours shall be from 9 A. M. to 12 M., and that, in addition to the keeping of the Treasurer's accounts, he be ordered to have the care and charge of the Dock Masters' weekly returns, thoroughly comparing the same and ascertaining their correctness or otherwise shall also verify the tonnage of all vessels mentioned in said returns on which tonnage is charged by the official records ; he shall copy all the opinions of the Corporation Counsel provided for the purpose, and he shall do such other work as may be assigned to him by the Board or Treasurer.

The following preamble and resolution were,

On motion, adopted :

Whereas, Chapter 697 of the Laws of 1887, entitled "An act to lay out and extend exterior street along a portion of the East river, in the City of New York, and to alter the plan of the City of New York to conform thereto," passed 25th June, 1887, contains in said act the following provision, namely :

"The Board of the Department of Docks in the City of New York shall, within three months from the date of the passage of this act, determine upon a plan for the said street, and

to be prepared, and shall certify the same by their indorsement thereon and send the same to the Commissioners of the Sinking Fund of the City of New York * * * Therefore

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare and submit to the Board of Docks the plan for the said street, required in said act.

On motion, Commissioner Marshall was requested to confer with the Counsel to the Corporation respecting the placing of advertising signs on the piers and other wharf structures.

The following employees were,

On motion, discharged :

Edward Freel, Carpenter.	Charles Daniels, Laborer.
William Hayden, Dock Builder.	William Dowling, Laborer.
Matthew McDonald, Dock Builder.	Bartley Hartens, Laborer.
Patrick Horan, Dock Builder.	George Bambury, Laborer.
Alexander Law, Dock Builder.	John Scanlan, Laborer.

On motion, Michael Magee, Doorman and Watchman, was suspended for ten days without pay from July 23d instant, for being found asleep while on duty.

A communication from the Engineer-in-Chief requesting twelve additional Dock Builders, was read and to be placed on file, and

On motion, John Mokely, John Kelly, Thomas McCarthy, Thomas Kenney, Thomas E. Davis, were appointed Dock Builders, and Joseph Heaney and George Roemer were appointed Laborers.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held July 25, 1887.

Present—Commissioners Stark, Matthews and Marshall.

On motion, Commissioner Marshall was appointed Secretary pro tem.

The Engineer-in-Chief submitted a list of positions to be filled, as follows :

- 4 Inspectors of Dumping of Dredged Material.
- 2 Sounders.
- 3 Inspectors of Pier Building.
- 2 Hydrographers.
- 1 Draughtsman.
- 1 Assistant Engineer.
- 1 Inspector of Dredging.

A communication was received from the Civil Service [Supervisory and Examiners] furnishing eligible lists of Inspectors of Dumping of Dredged Material, Sounder, Inspector of Pier Building, Hydrographer, Inspector of Dredging, and Draughtsman, as follows :

Inspectors of Dumping of Dredged Material.

Henry F. Marker.
Bernard D. Meyer.
Charles E. Beck.
D. A. Park.

Sounders.

J. C. Darby.
William H. Reilly.
William J. F. Sullivan.

Inspectors of Pier Building.

Hugh J. Daly.
Francis E. Clarke.
John E. Land.
James P. Campbell.

Hydrographer.

Allen N. Spooner.

Inspector of Dredging.

George E. Rodgers.

Draughtsmen.

William D. Skidmore.
A. P. Hartman.

On motion, Charles E. Beck, No. 247 Driggs street, Brooklyn, and Bernard D. 445 Tenth street, Brooklyn, were appointed Inspectors of Dumping of Dredged Material, at a compensation of \$15 per week ; J. G. Darby, No. 93 Goerck street, New York City, was appointed Sounder, at a compensation of \$15 per week, and John E. Land, No. 341 West Fifth street, New York City, was appointed Inspector of Pier Building.

On motion, the Board adjourned.

CHARLES H. MARSHALL, Secretary]

cial meeting of the Board of Docks, held July 27, 1887.

-Commissioners Stark, Matthews and Marshall.

ates of the meetings held July 22 and 25, 1887, were read and approved.

unication from A. Culver, Water Purveyor, Department of Public Works, requesting a load scows with sand on the bulkhead foot of East Thirtieth street, was

on, ordered to be placed on file and the President authorized to advise the Commis-
sioners of Public Works that permission is granted to unload scows with sand free of wharfage at the
Thirtieth street, with the understanding that the said bulkhead shall not be used for
scows, and provided it is clearly and distinctly understood and agreed that the said use
be only, and that it shall continue only at the pleasure of the Board governing the
Board of Docks.

lication of George Blair requesting the Board to remit the fine imposed upon him for
violation of Rule 4 of the Rules and Regulations, was

on, denied.

Commissioner Marshall, to whom was referred with power the application of Sanderson & Son
for permission to build a platform on top of the foundation of the bulkhead on river wall
No. 54, North river, recommended that their request be denied.

on, the report was received and recommendation adopted.

Report of the Engineer-in-Chief, in relation to the eligible lists certified by the Civil Service
Board, was received and ordered to be placed on file, and,

appointment, Wm. J. F. Sullivan, No. 2091 Third avenue, New York City, was appointed Sounder,
at a compensation of \$15 per week; Hugh J. Daly, No. 405 Tenth avenue, New York City, was
appointed Inspector of Pier Building; Allen N. Spooner, No. 296 Ninth street, Jersey City, N. J.,
appointed Hydrographer, at a compensation of \$75 per month, and George E. Rodgers, No. 87
avenue, Brooklyn, was appointed Inspector of Dredging.

Application of Brown & Fleming for the privilege of using the dumping-board at Eightieth
street, North river, and agreeing to pay for same \$35 per week, was,

on motion, ordered to be placed on file, and the following resolution was adopted:

Resolved, That permission be and hereby is granted to Brown & Fleming to use and occupy
the dumping-board at the foot of East Eightieth street, East river, at the rate of \$35 per week, payable weekly at
each week to the Dock Master of the District, to take effect July 30, 1887.

Following resolution was, on motion, adopted:

*Resolved, That the permit of license given to Michael McGirr and Thomas Scully, dated Sep-
tember 1885, to use the dumping-boards at the foot of West Thirty-seventh street, North river,*

during the will of the Board, be and the same are hereby revoked and the Engineer-in-Charge hereby is directed to remove forthwith the said dumping-boards, and locate the same on the northerly side of the pier foot of West Forty-seventh street, North river, and permission hereby is granted to the said Michael McGirr and Thomas Scully to use and occupy the said boards when located or placed at the said northerly side of the pier foot of West Forty-seventh street, North river, during the will of the Board, at the same rental as they had previously paying at the foot of West Thirty-seventh street.

The following resolution was, on motion, adopted :

Resolved, That William J. Trimble, at present temporary clerk, be appointed clerk of the Board at a salary of \$75 per month.

The following preambles and resolution were, on motion, adopted :

Whereas, At a public sale made at auction March 29, 1881, all and singular the wharf and pier No. 40, and the right to collect the same which might accrue on account of the wharf or pier No. 40, and the one half of bulkhead easterly thereof, during the term of five years from and to May 1, 1882, were duly sold to Frank Phelps at an annual rental of \$9,000, payable quarterly in advance, the lease thereof to contain a covenant for a renewal term of five years, at the option of the lessee, at an advanced rent of \$2,000 per annum, as in the published terms and conditions expressed ; and

Whereas, Pursuant to the terms of said sale, a lease of said premises dated April 30, 1881, duly executed to him for the term of five years commencing May 1, 1882, at an annual rental of \$9,000, payable quarterly in advance, as therein expressed, to which lease and the published terms and conditions of sale reference is hereby made ; and

Whereas, The said lease and the lease given pursuant to the option provided among other things that the lessee shall take the premises in the condition in which they are at the commencement of the term, and that no claim will be allowed that they are not in proper repair at the commencement of the term ; that the lessee will put, keep and maintain the premises with the structures and appurtenances in good and sufficient repair and condition, etc., during the term, and that in case of failure to do so within ten days after notice the lease may be declared null and void ; and

Whereas, The said lessee on the 24th of January, 1887, gave notice to this Department that he would avail himself of the option provided for in the first mentioned lease, to which notice reference is hereby made ; and

Whereas, Pursuant to the option provided for in said lease and the said notice of option given, this Department executed a lease in continuance and renewal as aforesaid dated March 1, 1887, for the term of five years at an annual rental of \$11,000 payable quarterly in advance, on the same terms, conditions and covenants in respect to repairs as the lease, of which it is a copy is on file, and renewal, he having paid the first quarters rent in advance and all of the rent due on the first mentioned lease as therein provided ; and,

Whereas, The said Phelps has been from time to time and at various times duly notified to make certain designated repairs to said pier, bulkhead and premises, the cost of same amounting in the aggregate to about the sum of \$14,000 ; and,

is, It appears by certain correspondence dated respectively September 30, 1882, and 1882, that the said Frank Phelps (with permission of this Department), leased or sublet premises for the remainder of the term with privilege of renewal, to the Merchants' and Transportation Company, who thereby agreed with him to keep the same in repair, to pondence and resolution granting permission, etc., reference is hereby made ; and,

is, The said Merchants' and Miners' Transportation Company, did by a certain instrument dated September 1, 1885, with the permission of this Department and of Frank Phelps declared in certain preambles and resolutions adopted August 26, 1885, lease to Joel B. Receiver of the New York City and Northern Railroad Company, the said premises for the term with privilege of renewal, such receiver to keep the said premises in repair as expressed and to which reference is hereby made, the said railroad company being in possession and occupancy of said premises ; and,

is, The Board of Commissioners governing this Department did, on the 22d day of August, adopt certain preambles and resolutions directing the said Frank Phelps to show why the repairs in question had not been made, and why the said lease to him should be annulled, as in said preambles and resolutions expressed, and to which reference is hereby made ;

is, It is the opinion of the Board that the said Frank Phelps has not shown sufficient cause why he has not made said repairs nor caused them to be made, as heretofore directed by the Board ; and

is, The said Frank Phelps neglects and refuses to make said repairs, although often directed to do ; and

is, The many and varied questions that seem to arise for careful consideration and deemed by the Board to be of sufficient importance to warrant the submission of some of them to the legal adviser of the City ; now, therefore,

Resolved, That the following questions or propositions be submitted to the Counsel to the Corporation for his advice and opinion thereon :

1st—Has this Department the right to annul the lease to the said Phelps on account of his neglect to make the repairs ?

2d—Can proceedings be successfully maintained to remove him and those claiming as successors title under or through him from the premises on account of the failure to make the repairs ?

3d—It being absolutely necessary that the repairs be promptly made, can an action (in case the defendant makes the repairs) be maintained against the said Phelps for the money expended in making such repairs ?

4th—Has the Board the right to agree with said Phelps so that each may contribute to the expense of making the repairs ?

Fifth—What obligation or liability have the Merchants' and Miners' Transportation and the said receiver, or either of them, assumed as to this Department in relation to repairs?

Sixth—What course is best, under all circumstances, for the Department to pursue on the premises?

On motion, the Board adjourned.

G. KEMBLE, Secy

At a meeting of the Board of Docks, held July 28, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held July 27, 1887, were read and approved.

The application of the Engineer-in-Chief requesting additional employees was

On motion, referred to Executive Session.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated.
From Comptroller of the City—Reporting the sale of dock bonds.

From Department of Street Cleaning—Requesting permission to dump ashes and street dirt behind the bulkhead between Seventy-seventh and Seventy-eighth streets, North river.

Permission granted to dump ashes and street dirt, but not garbage, the said dumping under the direction and supervision of the Engineer-in-Chief of this Department, commencing Monday, August 1, 1887.

From Counsel to the Corporation—Requesting information respecting the damage to boat "Lizzie." Referred to the Engineer-in-Chief.

From the Department of Street Cleaning :

1st. Reporting obstructions in Old slip. Referred to the Dock Master.

2d. Respecting the occupation of Pier 12, East river, by the boats of the Barney Dum Company. The action of the Secretary in advising said Department of the action of the Board was approved.

From Department of Public Works :

1st. Requesting repairs to Pier at East Twenty-fourth street and the bulkhead between Fourth and Twenty-fifth streets, East river. Referred to the Engineer-in-Chief to examine and report.

1. Requesting permit for the Consolidated Gas Company to erect a lamp-post on the Pier at Seventh street, East river. The action of the President in issuing a permit, the work to be under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From the New York, Lake Erie and Western Railroad Company—Reporting stagnant pools of water in front of their premises, foot of Reade and Duane streets, North river. The action of the President in directing the Engineer-in-Chief to drain said premises, was approved.

From T. & A. Walsh—Respecting the erection of a fence on the bulkhead north of Pier, old 34, East river.

From C. H. Mallory & Co.—Requesting the Department to suspend the order to dredge slip at West side of Pier 20, East river. Referred to Commissioner Marshall.

From Morris & Cumings Dredging Co.—In reference to dredging foot of Fiftieth street, East river. The Secretary directed to advise that in future they must have a permit before commencing dredging.

From New York, New Haven and Hartford Railroad Co :

1st. For permission to repair Pier 51, East river, and the bulkhead between Piers 50 and 51. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

2d. In relation to the owner of candy stand on bulkhead at Pier 57, East river.

From Captain B. G. Berrien—Reporting that repairs are required to the docks at entrance to West Duvvil Creek. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

From Randolph Guggenheimer—Requesting duplicate copy of order to dredge at the bulkhead north of Fifty-fourth street, East river. The action of the Secretary in sending same, was approved.

From Fred. W. Wright, lessee—Requesting the Department to place him in possession of Pier 58 East river. Referred to Commissioner Marshall.

From H. D. Brookman—Requesting permission to repair west side of bulkhead at Thirty-first street, East river. The action of Commissioner Marshall in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From the New York Central and Hudson River Railroad Company—Requesting permission to repair Piers between Sixty-third and Sixty-fourth streets, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From John Gillies—Requesting that the time to complete the work of building Pier at Thirty-fourth street, North river, be extended to August 15th proximo. Referred to the Engineer-in-Chief to examine and report.

From Engineer-in-Chief :

1st. *Reporting assignment of employees to special duty.*

2d. Reporting the amount of work done during the week ending July 23, 1887.

3d. Reporting that Peter Burke was found asleep while on duty, and recommending that he be discharged from the service of the Department.

On motion, the report was received and recommendation adopted.

4th. Reporting completion of new Pier and approach foot of Fortieth street, North river, completion of crib bulkhead between Seventy-seventh and Seventy-eighth streets, North river, the completion of repairs, etc., to Pier at Thirty-seventh street, East river. The action of the President in directing the Dock Master to collect wharfage from all vessels using the Pier at Seventy-seventh street, East river, was approved.

5th. Transmitting Inspector's reports of materials used under Contracts Nos. 231, 242 and 243.

6th. Reporting repairs required to Pier 7, East river. The action of the President in directing the Engineer-in-Chief to repair as recommended in his report, at a cost of about \$1800, was approved.

7th. Reporting repairs required to Pier 10, East river. The action of the President in directing the owner or owners to repair as directed by the Engineer-in-Chief of this Department, and under his direction and supervision, was approved.

8th. Reporting repairs required to crib-bulkhead from Ninety-sixth to Ninety-seventh streets, North river. The action of the President in notifying John Cox & Co., lessees, to repair about 100 feet, and John D. Crimmins, the balance, about 130 feet, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

9th. In relation to the removal of dumping-boards at Pier foot of Thirty-seventh street, East river.

10th. Reporting that he had suspended Laborer, Acting Watchman Jacob Sussman, for being found asleep while on duty, and recommending that he be not again assigned to duty as a Watchman.

On motion, the report was received, and recommendation adopted.

11th. Reporting the erection of a fence and platform at foot of One Hundred and Sixty-seventh street, Harlem river. The Secretary directed to notify William G. Tucker to appear before the Board on Wednesday, August 3, 1887, and show cause why penalty should not be imposed for violation of law.

12th. Reporting the non-placement of armature plates on Pier, new 42, North river.

13th. Report on Secretary's Order No. 6629, in reference to the opinion of the Counsel to the Corporation, respecting the right of the Department to proceed with the construction of the bulkhead wall, between Twenty-seventh and Thirtieth streets, North river. Referred to Commissioner Marshall.

14th. Report on Secretary's Order No. 6781, that he had repaired the damage done to driver No. 2 by barge "Chicago," in tow of tug "Blue Stone," on 11th instant, at a cost of \$100. The Treasurer authorized to make out bill and collect amount from the owner, agent or consignee of the tug "Bluestone."

Report on Secretary's Order No. 6792, repairs required to the bulkhead north of and old Pier 43, East river. The Engineer-in-Chief directed to repair as recommended in a cost of about \$90.

Report on Secretary's Order No. 6766, in reference to the application of the Maine Steam- permission to cut two gangways in the easterly side of Pier 38, East river. Permission said work to be done under the direction and supervision of the Engineer-in-Chief of ment.

Report on Secretary's Order No. 6730, in relation to the repairs required to Store-house well's Island, East river.

tion, the report of the Engineer-in-Chief was received, recommendation adopted, and it authorized to send copy of said report to the Department of Public Charities and Cor- their consideration.

Reporting that the repairs have not been made to the bulkhead north of Pier, old 34, but that the said bulkhead has been fenced off from public use. The Secretary directed Charles Welsh, executor, to appear before the Board on Wednesday, August 3, 1887, at . M., and show cause why repairs have not been made to the said bulkhead, as ordered by lay 4, 1887, and why fence has been erected thereat without a permit from this Department.

Report on Secretary's Order No. 6791, repairs required north half Pier 43, East river. ary directed to notify Fred. W. Wright, the lessee, to repair, under the direction and of the Engineer-in-Chief of this Department.

Report on Secretary's Order No. 6665, that he had repaired City's portion of Pier 19, and had superintended repairing portion owned by private parties.

Report on Secretary's Order No. 6711, that he had superintended repairing Pier, new 41, r.

Report on Secretary's Order No. 6734, that he had superintended driving and fastening ter end of Pier 4, East river.

Report on Secretary's Order No. 6739, that he had superintended repairing bulkhead, thirty-second and Thirty-third streets, East river.

Report on Secretary's Order No. 6743, that he had superintended driving spring piles on le of Pier 38, East river.

Report on Secretary's Order No. 6768, that repairs have been made to the north side of 4, North river.

Report on Secretary's Order No. 6775, that he had done the work required to Pier at red and Thirtieth street, North river.

Report on Secretary's Order No. 6789, that he had superintended repairing surface of between Piers, old 26 and 27, North river.

Report on Secretary's Order No. 6793, that he had repaired band iron on sliding-door v 43, North river.

From Edward Abeel, Dock Master—Reporting that the hydrant on Pier 43, East river, is out of order. The action of the President in notifying the Department of Public Works, was approved.

From Joseph B. Erwin, Dock Master—Reporting holes in deck of Piers at Fifty-first and Fifty-fifth streets, North river. The action of the President in directing the Engineer-in-Chief to have the holes repaired, was approved.

From Patrick Curley, Dock Master—Reporting loose pile at Pier, new 43, North river. The action of the President in directing the Engineer-in-Chief to remove said pile was approved.

From Charles P. Blake, Dock Master—Reporting favorable on the application of John G. Blake for permission to erect a hoisting derrick on Pier foot of Thirty-seventh street, East river. The President directed to furnish more definite information as to location, etc.

From Joseph F. Sharkey, Dock Master—Giving the address of the owner of wing or shed on bulkhead north One Hundred and Thirty-second street, North river.

The report of the Engineer-in-Chief on Secretary's Order No. 6757, upon the application of James E. Ward & Co. for permission to lay a covering of spruce plank on the bulkhead between Piers 16 and 17, East river, was

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is granted to James E. Ward & Co. to lay a covering of three-inch plank on surface of bulkhead between Piers 16 and 17, East river, from backing curb, a distance of about sixty feet in length and ten feet in width, for the purpose of protecting merchandise from dampness while resting temporarily thereon, during the process of loading and unloading same from vessels, but with the understanding that the same is not to be used for other purposes, but that all the freight received and discharged thereat shall be removed as rapidly as possible ; and it is also specially provided and understood that this permit is for temporary platform only, and that it is revocable at any time by the Board governing the Department of Docks ; further provided that this permit shall not take effect until the petitioners have filed a written agreement satisfactory as to form with the Board governing the Department of Docks, to the effect that they will assent to and comply in all particulars to the conditions aforesaid and will at any time within twenty days from receiving written notice from the Board of Docks so to do, remove the platform and restore the premises to the same condition that they are in at date hereof. The same to be done under the direction and supervision of the Engineer-in-Chief of this Department.

A communication from the Engineer-in-Chief reporting the non-commencement of repairs to bulkhead, between Piers 47 and 48, East river, was,

On motion, ordered to be placed on file, and the following preambles and resolution adopted :

Whereas, On the 4th day of June, 1887, a notice dated June 1, 1887, from this Department was duly served upon J. P. Joralemon, George R. Schieffelin and Beekman & Ogden directing them to *make the necessary repairs to the bulkhead, between Piers 47 and 48, East river, in the manner and to the extent in said notice stated, and*

Whereas, The said J. P. Joralemon, George R. Schieffelin and Beekman & Ogden have neglected to make such repairs as thereby required and directed by this Department, although duly notified and required so to do ; therefore

Resolved, That J. P. Joralemon, George R. Scheffelin, Beekman & Ogden and S. B. Wildey be and hereby are ordered, notified and required to be and appear before the Board of Commissioners of the City of New York at a meeting to be held in the Board Room of this Department at Pier "A," Battery place, East river, on Wednesday, August 3, 1887, at 2 o'clock in the afternoon of that day, and show cause why such repairing has not been done, and why penalty should not be imposed, as provided in section 410 of the Laws of 1882, for failure and neglect to comply with the order and direction of this Department, and also show cause why this Department should not take such further or other action in the premises as may be proper.

The report of the Engineer-in-Chief on Secretary's Order No. 4172, submitting plans, form of contract and specifications for building a new wooden pier at the foot of West Thirty-seventh street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plans, form of contract and specification prepared and submitted by the Engineer-in-Chief for building a new wooden pier at the foot of West Thirty-seventh street, North river, be and hereby are approved, subject to the approval of the Counsel to the Corporation as to the form of the contract, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting bids for doing said work inserted in the papers published by law.

A communication from the Comptroller of the city, in reference to the substitution of Warren Rosevelt and James D. Leary in place of John Reynolds and J. McLaughlin to the estimate of the Morris & Cummings Dredging Company, for dredging at Piers 12, 13 and 14, East river, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the substitution of Warren Rosevelt and James D. Leary in the place of John Reynolds and J. McLaughlin to the estimate of the Morris & Cummings Dredging Co., for dredging at Piers 12, 13, and 14, East river.

The report of the Engineer-in-Chief on Secretary's Order No. 6596, respecting the application of the Maine Steamship Company for a platform adjoining Pier 38, East river, and the plans submitted by the Maine Steamship Company for a platform adjoining Pier 38, East river, and the plans submitted thereupon, was

On motion, ordered to be placed on file, and the following resolution offered by Commissioner Marshall, was adopted :

Resolved, That permission be and hereby is granted to the Maine Steamship Company to drive piles and to build a temporary platform, about thirty-six feet along the bulkhead, and about forty-five feet along the pier adjoining the westerly or lower side of Pier 38, East river, and to erect and conduct a temporary shed thereon, for the protection of property received and discharged thereat, all of said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

ment, and upon plans and specifications to be first submitted to, and approved by the Board ; that the said Maine Steamship Company agree to pay as compensation for the use of the water occupied by said platform, twenty-five cents per square foot per annum during the use of said platform, to be paid monthly in advance to the Treasurer of this Department. And specially provided and understood that this permit is for a temporary platform and shed and that it is revocable at any time by the Board governing the Department of Docks ; and provided that this permit shall not take effect until the petitioners have filed a written agreement as to form with the Board governing the Department of Docks, to the effect that they assent to and comply in all particulars to the conditions aforesaid, and will at any time within ten days from receiving written notice from the Board of Docks, so to do, remove any and all of every kind that may be built and erected under this permit and restore the premises to condition that they are in at date hereof.

On motion of President Stark, the revision of the By-laws was referred to Commissioners Matthews and Marshall.

The Treasurer, Commissioner Matthews, reported that he had received the following bids for furnishing the Department with rip rap and cobble stone and for one upright boiler Driver No. 8.

For Rip Rap Stone and Cobble Stone.

Brown & Fleming, rip rap	58 cents per cu yd
“ cobble	89 “
Daniel C. Donovan, rip rap	80 “
“ cobble	85 “

Upright Boiler.

Horace Theall	
J. W. Sullivan	
Pioneer Iron Works	

And recommended that the order for furnishing the same be awarded to Brown & Fleming and Pioneer Iron Works respectively.

On motion, the report was received and recommendation adopted.

The report of the Engineer-in-Chief on Secretary's Order No. 6782, in reference to the application of R. H. Wolf & Co. for permission to build a cribwork bulkhead between One Hundred Seventeenth and One Hundred and Eighteenth streets, Harlem river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to R. H. Wolf & Co., limited, to maintain a new bulkhead between East One Hundred and Seventeenth and East One Hundred and Eighteenth streets, Harlem river, upon plans and specifications to be first submitted to and approved by the Board governing this Department, upon the new bulkhead line proposed in the plan for the improvement of the East or Harlem river, from Eighty-sixth street to the Third Avenue, dated April 27, 1885, and approved by the Board of Docks, said new bulkhead line be

feet easterly of the easterly side of Avenue A. It being expressly agreed and understood in this resolution contained shall be construed in any way to interfere with or in affect, prejudice, or impair the covenants, conditions, reservations, agreements and contained in the deeds of conveyance of land under water of the said premises to L. H. to Elisha Nelson, both dated September 9, 1867; and further provided that the work to be done under this permit is to be done under the supervision and direction of the Engineer-in-Chief of the Department; and provided further that the said R. H. Wolff & Co. and the owners of the mill, within five days after the receipt of a copy of this resolution, file with the Secretary of the Department a written notice or communication agreeing to accept the terms and conditions thereof.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending July 27, amounting to \$3,091.14, which was received and ordered to be spread in full on the following:

On motion, the Board adjourned.

G. KEMBLE, Secy

At an Executive Session of the Board of Docks, held July 28, 1887.

President—Commissioners Stark, Matthews and Marshall.

The following resolutions were,

On motion, adopted :

Resolved, That the services of John J. Simpson, No. 42 Suffolk street, as Dock Mas
are hereby dispensed with ; that he be relieved from any further duty in this Department
his name be discontinued from the pay-roll thereof, to take effect from and including Au

Resolved, That the services of Joseph F. Sharkey, No. 552 Second avenue, as Dock Master, be and are hereby dispensed with; that he be relieved from any further duty in this Department, and that his name be discontinued from the pay-roll thereof, to take effect from and including August 1, 1887.

Resolved, That Charles Hutchinson be and is hereby appointed Dock Master, and assigned to the charge of District No. 12, North river, with compensation of one hundred and fifty dollars per month, to take effect August 1, 1887, provided that he shall on that day, or prior thereto, file his official bond, as provided by article 13 of the By-laws of this Board.

Resolved, That David W. Bogert be and is hereby assigned to duty as Dock Master in District No. 2, to take effect on and after August 1, 1887, at a compensation of \$150 dollars per month.

On motion, John Ward, Dock Builder, was discharged.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held August 4, 1887.

Present—Commissioners Matthews and Marshall.

Absent—The President, Commissioner Stark.

On motion, Commissioner Marshall was elected President pro tem.

The communication from the Counsel to the Corporation and Francis Lynde Stetson, attorney for C. P. Huntington, respecting the rebuilding of Pier, new 37, North river, was,

On motion, laid on the table.

The following communications were received, read and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From his Honor Mayor Hewitt:

1st. Advising the Board that the subject matter respecting increase in the salaries of the Commissioners, under a recent act of the Legislature, will be brought before the Board of Estimate and Apportionment at their next meeting.

2d. Stating that the Board will be notified of all meetings of the Commissioners of the Sinking Fund, at which matters in relation to the Department are to be considered.

From Department of Public Works—In reference to repairing sewer at Pier 25, East river, and extending same to the outer end of the Pier. The Engineer-in-Chief directed to examine and report if repairs have been made to sewer at Pier 25, East river, as stated by Department of Public Works.

From Department of Public Charities and Correction :

1st. Requesting repairs to Pier at Twenty-sixth street, East river, and bulkheads at store and at Bellevue Hospital, in front of Erysipelas Pavilion. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

2d. Approving of the plans submitted by the Board for repairing Storehouse Pier at Black Island, East river. The Engineer-in-Chief directed to prepare plans, specifications and contract for removing old structure and building new structure at Storehouse Pier, Black Island, East river, as recommended in his report.

From Comptroller of the City—Approving sureties of the Morris & Cumings Dredging for dredging at Piers 12, 13 and 14, East river.

From Police Department—Reporting that the bulkhead at Pier 40, East river, is in a damaged condition. The action of the Secretary in sending Frank Phelps, lessee, copy of said report notifying him that he will be held responsible for any accident that may occur thereat, was approved.

From Simon Stevens, attorney—Transmitting agreements for extending the time for contracts with S. Charles Welsh and others to October 5, 1887.

From Nassau Ferry Co.—Requesting permission to erect two frame sheds over ferry bridge and adjacent to the foot of East Houston street, East river. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

From Archibald Scott—In reference to and stating that it would be a great obstruction to business to remove at present the house erected on the bulkhead south of Twenty-second street, North river. The Secretary directed to notify Archibald Scott to comply with the conditions regard to the erection of the structure owned by him on the bulkhead south of the foot of Twenty-second street, North river, which prescribed dimensions of eight feet by twelve feet, and which had been put up in excess of these dimensions without any authority either written or verbal obtained from this Department. The structure alluded to must be reduced to the dimensions specified in the permit on or before the 15th August current, and in case of failure on his part to comply with this order, a fine will be imposed of \$20 per day for each and every day after expiration of the time specified in this notice, and until the conditions contained therein shall have been complied with.

From Thomas Rochfort, attorney for Frank Phelps—In reference to repairs required to bulkhead at Pier 40, East river. The action of Commissioner Marshall in replying thereto was approved.

From The East Side Improvement Association—Enclosing copy of preamble and resolution requesting the removal of dumping-board located foot of East One Hundred and Tenth street, East river. Referred to the Engineer-in-Chief to examine and report.

From Hoboken Land and Improvement Company—Submitting plans and specifications for improvements at ferry premises foot of Barclay street, North river. The action of Commissioner Matthews in directing the Engineer-in-Chief to examine and report was approved.

From James W. Elwell & Co.—Reporting obstructions on Pier 28, East river. Referred to the Master to examine and report.

From John D. Crimmins—Reporting that the necessary repairs will be made to the bulkhead of Ninety-sixth street, North river.

From J. A. Phillips, Postmaster, Long Beach—Stating that he had delivered letter to A. W.

From Brown & Fleming—Acknowledging receipt of resolution adopted July 27, 1887, authorizing them to use dumping-board at Eightieth street, East river.

From Frederick W. Wright, lessee—In reference to the order to repair fender piles on the north of Pier 43, East river, and reporting that the said piles were damaged by the dredging machine as dredging was being done in the slip between Piers 42 and 43, East river. Referred to the Engineer-in-Chief to examine and report.

From James H. Caulfield—Requesting payment of bill rendered for legislative documents, referred to the Treasurer, Commissioner Matthews.

From Captain C. H. Gotham—Requesting a position in the Department.

From Equitable Gas-light Co.—Stating that they will make the repairs required to the bulkhead between Thirty-ninth and Fortieth streets, East river.

From The New York Mutual Gas-light Co.—Reporting partial completion of repairs to Piers at Tenth, Twelfth and Thirteenth streets, East river. Referred to the Engineer-in-Chief to examine and report.

From The New York, New Haven and Hartford Railroad Co.—In reference to the stand erected on the bulkhead at Pier 51, East river.

On motion of Commissioner Marshall, the order of the Board directing the removal of said stand was suspended for the present.

From S. Charles Welsh—Stating his inability to meet the Board at the time stated. The action of the Secretary in advising that the time has been postponed until Friday, 5th instant, at 11 A. M., was approved.

From Joseph Walsh—Reporting that he has been delayed in the prosecution of his contract for building new Pier foot of Thirty-second street, North river, by the failure of the Department to furnish timber when required. Referred to the Engineer-in-Chief to examine and report.

From J. Dobbins—Requesting lease of bulkhead at One Hundred and Thirty-eighth street, Harlem river, with permission to fill in. Referred to the Engineer-in-Chief to examine and report.

From W. C. Andrews—Requesting permission to build bulkhead between Seventy-second and Seventy-third streets, East river, as per plans and specifications submitted. Referred to the Engineer-in-Chief to examine and report.

From Ward & Olyphant—Requesting permission to place hoisting engine and building to cover same at bulkhead southeast corner of Houston street, East river. Referred to the Engineer-in-Chief to examine and report.

From David W. Bogart, Dock Master—Reporting that he had served notices on the Central and Hudson River Railroad Company, the New York, Lake Erie and Western Company and the Central Railroad Company of New Jersey to remove advertising signs from old 26 and 15, and new 23, North river.

From Charles B. Husted, Dock Master—Reporting that he had notified the Albany to remove advertising sign from Pier at Twenty-second street, North river.

From Patrick J. Brady, Dock Master—Reporting that he had served notice on Thom and Michael McGirr to vacate dumping-board at Pier foot of Thirty-seventh street, North river.

From Patrick Curley, Dock Master :

1st. Recommending that the bulkhead between Piers, old 42 and new 43, North river, be cleaned, and also recommending that the pavement in front of Pier, new 43, North river, be repaired. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report thereon was approved.

2d. Reporting that he had served notice on the White Star Line to remove advertising sign from north side of Pier, new 44, North river.

From Joseph B. Erwin, Dock Master :

1st. Reporting that he had served notice on William H. Cornett to remove sign on north side of Fifty-first street, North river.

2d. Reporting that he had notified J. H. Miller to remove brick from Pier foot of Fort street, North river, on or before July 20, 1887 ; said brick not removed July 30, 1887. The Secretary directed to notify J. H. Miller to show cause, on Wednesday, 9th instant, why penalty should not be imposed for violation of law.

From Charles P. Blake, Dock Master—Reporting hole on the north side of Pier foot of Eighth street, East river. The action of Commissioner Marshall in directing the Engineer-in-Chief to repair was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending July 30, 1887.

3d. Reporting that repairs have not been commenced to the bulkhead and dumping board at Pier foot of East Thirty-ninth street, East river, by the Long Island Land Fertilizing Co. The Secretary directed to advise said company of the report made by the Engineer-in-Chief, and request an explanation why said work has not been done.

4th. Reporting non-commencement of dredging at the bulkhead north of Fifty-fourth street, East river. The Secretary directed to request Mr. Guggenheimer to advise the Board why work has not been done.

5th. Reporting non-commencement of repairs to bulkhead between Thirty-ninth and Fort streets, East river.

9th. Reporting loose fender-pile south side of Pier at Seventy-ninth street, North river. Notify Dredging Company to refasten pile, under the direction and supervision of the Engineer-in-

10th. Report on Secretary's Order No. 6479, dredging required in half slip adjoining Pier at East street, North river.

11th. Report on Secretary's Order No. 6820, in reference to the application of John Gillies, asking that the time to complete work under Contract No. 240, building Pier at Thirty-fourth street, North river, be extended to August 15, 1887.

On motion, the time was extended as requested.

12th. Report on Secretary's Order No. 6814, repairs required to Pier foot of East Twenty-fourth street and the bulkhead between East Twenty-fourth and East Twenty-fifth streets, East river. Referred to Commissioner Marshall.

13th. Report on Secretary's Order No. 6799, recommending that permit be granted to the United Gas Co. to renew gas-pipe under Pier, new 46, North river. The action of Commissioner Marshall in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

14th. Report on Secretary's Order No. 6735, that he had superintended placing pipe under Pier new 32, East river, by George V. Hecker & Co.

15th. Report on Secretary's Order No. 6687, that he had superintended the erection of coal bins on the bulkhead between Houston and East Third streets, East river.

16th. Report on Secretary's Order No. 6721, that he had superintended the work of making alterations and additions to the rooms on the north side of Pier A, North river.

17th. Report on Secretary's Order No. 6740, that he had repaired Pier at Thirty-eighth street, East river.

18th. Report on Secretary's Order No. 6778, that he had repaired Pier at One Hundred and Twenty-eighth street, North river.

19th. Report on Secretary's Order No. 6817, that he had directed and superintended the fitting of a new lamp-post and lamp at pier foot of Thirty-seventh street, East river.

20th. Report on Secretary's Order No. 6750, that he had superintended repairing bulkhead between Piers 3 and 4, East river.

Commissioner Marshall, to whom was referred the communication from C. H. Mallory & Co., requesting the Board to suspend the order to dredge slip adjoining the easterly side of Pier 20, East river, submitted the following report :

In reference to the communication of C. H. Mallory & Co. in reply to an order from the Department dated July 18, 1887, to dredge the easterly side of Pier 20, East river, to a depth of twenty-five feet at mean low water, I beg to report that the lease executed by C. H. Mallory has less than one year to run, namely, to May 1, 1888, and that when it was entered into the depth of water adjoining the premises occupied by C. H. Mallory & Co. was, according to their statement

but ten feet at mean low water ; it would seem, therefore, somewhat of a hardship to require of them so large an amount of work just prior to the expiration of the contract with this Department, and I would accordingly recommend that the order be suspended.

On motion, the report was received and the recommendation adopted.

On motion, the Engineer-in-Chief was directed to erect a dumping-board on the south Pier foot of Forty-sixth street, North river.

Commissioner Marshall, to whom was referred the report of the Engineer-in-Chief on September 5, 1886, Order No. 6537, in reference to the application of C. H. Mallory & Co. for permission to erect a shed on Pier 21, East river, offered the following preambles and resolutions, which were adopted:

Whereas, C. H. Mallory & Co. have made application to extend and complete shed on Pier 21, East river, for the distance of ninety-four feet or thereabouts, in accordance with plans which have been submitted to this Department ; and

Whereas, It appears that a portion of the pier has already been covered with a shed, and that C. H. Mallory & Co., permission to construct which was granted by this Board on the 5th December, 1886, with modifications and changes subsequently recorded under resolution dated April 26, October 21, 1886;

Resolved, That permission now be given to C. H. Mallory & Co. to construct and complete the shed and extension asked for in accordance with the plans submitted, and under the direction and supervision of the Engineer-in-Chief, and provided that both the original shed and the extension now to be made revert to and become the property of the City on the expiration or sooner termination of the lease now held by C. H. Mallory & Co. from this Department, of the right to collect on said Pier 21, East river, and provided that the covenants, conditions and agreements of the lease shall in no way be affected by anything contained in the permission now granted.

A communication from A. M. Earle, President Consumers' Ice Co., respecting the use of the Pier foot of Horatio street, North river, was,

On motion, ordered to be placed on file, and the following preamble and resolution, Commissioner Marshall, was adopted:

Whereas, A certain resolution was adopted by this Board at the meeting of June 1, 1886, the following follows :

“ Resolved, That permission be and hereby is granted to the Consumers' Ice Co. to occupy, during the will of the Board, the Pier at the foot of Horatio street, North river, for the purpose of reserving for public bath at the outerly northerly side), at the rate of \$150 per month, or during occupancy, to the Treasurer of this Department, commencing May 1, 1886, and to be paid by the Consumers' Ice Co. as follows :

Resolved, That the above resolution be and is hereby rescinded, and that the Dock Committee be notified to collect wharfage on all vessels, including those of the Consumers' Ice Co. lying at or making use of said pier.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending 1st 2, 1887, amounting to \$117,935.62, which was received and ordered to be spread in full on minutes, as follows :

NEW YORK, August 4, 1887.

On motion, John Hanlon, Patrick Ward and Peter Johnson were appointed Dock Bui

On motion, the Board adjourned.

G. KEMBLE, Secr

At a special meeting of the Board of Docks, held August 5, 1887.

Present—Commissioners Matthews and Marshall.

Absent—The President, Commissioner Stark.

On motion, Commissioner Marshall was elected President pro tem.

The following estimates were received for granite-work and masonry on the boat-land and about the approach to Pier "A," North river, advertised to be opened this day at 12 A representative of the Comptroller was present :

1. From Bernard Mahon, with \$75, certified check..... \$
2. From Joseph Moore, with \$75 in money
3. John J. Conners, with \$75 in money.....

On motion, the said estimates were laid over for further consideration, and the directed to transmit to the Comptroller the security deposits made by the said bidders, accompanying their respective estimates.

On motion, the Board adjourned.

G. KEMBLE, Sec

At a meeting of the Board of Docks, held August 11, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held August 4 and 5, 1887, were read and approved.

A communication from the Civil Service Supervisory and Examining Boards, respecting the appointment of William J. Trimble as Clerk, was,

On motion, referred to executive session.

A communication from the Engineer-in-Chief, reporting the non-commencement of repairs to the East river, was,

On motion, laid on the table.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From his Honor Mayor Hewitt—Acknowledging receipt of a copy of "Apportionment of Audited Accounts."

From Comptroller of the City :

1st. Acknowledging receipt of a copy of "Apportionment of Audited Accounts."

2d. Approving sureties Union Dredging Company.

3d. Transmitting communication from the Department of Public Works, accepting the conditions of occupation of a portion of the Yard foot of Seventeenth street, East river.

4th. Enclosing copy of resolution adopted by the Commissioners of the Sinking Fund. Which was received, read and,

On motion, ordered to be spread in full on the minutes, as follows :

CITY OF NEW YORK—FINANCE DEPARTMENT. {
COMPTROLLER'S OFFICE.

At a meeting of the Commissioners of the Sinking Fund, held July 28, 1887, the following resolution was adopted :

Resolved, That the Commissioners of the Sinking Fund hereby consent to and approve of the alterations and changes in the width of the new pier located at the foot of West Thirty-seventh street, North river, from the lines therefor heretofore adopted and approved, by making the same twenty feet in width instead of eighty feet, as fixed and established by the Board of the Department of Docks by a resolution adopted on June 25, 1887, under and by authority of section 712 of chapter 40 of the Laws of 1882, and as shown upon the plans submitted by the Department of Docks.

From Department of Street Cleaning :

1st. In reference to use of dumping-board at Canal street, North river, for advertising purposes, and reporting that William Reagan was given permission to advertise at said dumping-board for

one year from July 16, 1887, and made his first payment at that time which will expire October 1, 1887, and requesting that he be allowed to continue during the period for which he has paid the city.

On motion, the time was extended to October 16, 1887, as requested.

2d. In relation to the occupation of dumping-board at Seventieth street, East river. Referred to the Treasurer.

From Department of Public Charities and Correction—Requesting a landing place on the river, at or near the foot of Seventy-sixth street. The action of Commissioner Matthews in directing the Engineer-in-Chief to examine and report was approved.

From Department of Public Works :

1st. Reporting that repairs will be made to the hydrant between Piers 43 and 44, East river.

2d. Agreeing to terms and conditions for use of the bulkhead, foot of Thirtieth street, East river.

3d. Requesting permission to erect fence around space allotted to them at the foot of Seventeenth street, East river. The action of Commissioner Matthews in directing the Engineer-in-Chief to examine and report was approved.

From John Gillies :

1st. Requesting that the time to complete work under Contract No. 240, building new pier at the foot of West Thirty-fourth street, North river, be extended until September 1, 1887.

2d. Respecting the thickness of the spruce to be used in sheathing Pier at Thirtieth street, North river. Referred to the Engineer-in-Chief to examine and report.

From Baltimore and Ohio Railroad Company—Requesting permission to sheath south side of Pier 27, East river, and place additional fender-piles thereat. Permission granted, the said work to be done within existing lines and under the direction and supervision of the Engineer-in-Chief of the Department.

From Manhattan Railway Company—Requesting permission to erect a coaling station and necessary apparatus for hoisting coal at One Hundred and Twenty-ninth street and Second Avenue, as per plan submitted. Referred to the Engineer-in-Chief to examine and report.

From Sanderson & Son, agents Wilson Line Steamers—Requesting additional wharfage facilities and desiring to be informed if the Department propose building any new piers on the North river within the next twelve months. The Secretary directed to advise that the Department have no building of new piers under consideration, and within the time mentioned they hope to have the same ready for occupation.

From Theo. F. Tone—Requesting permission to erect a bulkhead between One Hundred and Thirty-fourth and One Hundred and Thirty-fifth streets, North river. Referred to the Engineer-in-Chief to examine and report.

From Charles H. Tweed, attorney—In reference to agreement for building Pier, new pier at North river.

From Consumers' Ice Company—Offering \$1,200 per annum for use of Pier foot of Horatio North river. Referred to Commissioner Marshall, with power.

From John H. Miller—In relation to obstruction on Pier foot of Forty-seventh street, North river. The Secretary directed to request him to call on the Commissioners on Saturday, 13th inst., at A. M.

From Ocean Steamship Company of Savannah—Requesting permission to make changes in the bulkhead of shed to be erected on Pier, new 35, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Long Island Land Fertilizing Company—Reporting that repairs will be made to premises at East Thirty-ninth street, East river.

From Randolph Guggenheimer—Reporting that he has been getting estimates for dredging at bulkhead north of Fifty-fourth street, East river. The Secretary directed to request him to state definitely what date he will commence said dredging.

From John Cavanagh—In reference to dredging in front of the bulkhead north of Pier, new 1, East river.

From George Blair—In reference to lumber obstructing the bulkhead at Pier, new 34, North river.

From William Farrell—Requesting permit to place a coal derrick on the bulkhead between East Hundred and Twenty-ninth and One Hundred and Thirty-first streets, North river. Referred to the Engineer-in-Chief to examine and report.

From William G. Tucker—Requesting permission to repair fence foot of East One Hundred and Sixteenth street, Harlem river. Referred to the Engineer-in-Chief to examine and report.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of material excavated by the Union Dredging Company with department dredges during the months of June and July, 1887. The Treasurer authorized to make bill and collect the amount from the Union Dredging Company.

3d. Reporting non-commencement of repairs to Pier 3, East river. The Secretary directed to request James Cruikshank and the South Brooklyn Ferry Company to inform the Board when they will commence to make the repairs required to said pier.

4th. Reporting non-commencement of repairs to Pier 10, Pier at Third street and the bulkhead, between Ninetieth and Ninety-first streets, East river. The Secretary directed to request the alleged owners of Pier 10, the Ridgewood Ice Company, lessees of Pier at Third street and the owners of the bulkhead between Ninetieth and Ninety-first streets, East river, to inform the Board when they propose to commence the work of repairing said premises.

5th. Reporting non-removal of fence, etc., at Pier foot of Thirty-seventh street, East river. The Secretary directed to notify John Nesbitt's Sons that if the said fence and sheds are not removed by November 1, 1887, penalty for violation of the rules will be imposed.

6th. Report on Secretary's Order No. 6862, that he had examined the plans submitted by the Ocean Steamship Company of Savannah, for changes in the details of shed to be erected new 35, North river, and find them correct and proper, and recommend that they be approved by the Board.

On motion, the report was received, recommendation adopted, and the Secretary directed to notify the said steamship company and the Engineer-in-Chief of the action of the Board.

7th. Report on Secretary's Order No. 6772, in reference to superintending dredging easterly of Pier 20, East river.

8th. Report on Secretary's Order No. 6795, that he had repaired deck of Pier, new 5, East river.

9th. Report on Secretary's Order No. 6808, that he had repaired deck of sheathing on Pier, new 5, East river.

10th. Report on Secretary's Order No. 6815, that he had repaired sheathing on deck of Pier, new 5, Fifty-fifth street, North river.

11th. Report on Secretary's Order No. 6817, that he had superintended driving pile bulkhead south of Thirty-first street, East river.

12th. Report on Secretary's Order No. 6834, that he had repaired deck on north side of foot of Twenty-eighth street, East river.

From Edward Abeel, Dock Master :

1st. Respecting obstructions on Pier 28, East river.

2d. Reporting hole in bulkhead at Pier 31, East river.

3d. Reporting that filling is required around the hydrant at upper side of Pier 43, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From D. W. Bogert, Dock Master—Reporting holes in Piers, old 25 and 26, and Pier at Fifty-fifth street, North river. The action of Commissioner Matthews in directing the Engineer to examine, report repairs required at Piers, old 25 and 26, and repair Pier at Eighteen North river, was approved.

From J. B. Irwin, Dock Master—Reporting holes in Pier at Forty-sixth street, North river. The action of the President in directing the Engineer-in-Chief to repair and report on sheathing was approved.

From John Callan, Dock Master—Reporting that there are no advertising signs on a property in his district.

From Patrick Curley, Dock Master—Reporting that on the 8th instant he had notified the captain of the schooner "Maguire Bros" not to pile brick on Pier, old 54, North river. No notice was paid to the notice, and the brick was placed on said pier. The Secretary directed the Dock Master to furnish the name of the captain of said "schooner."

From Anthony Hartman, Dock Master—In reference to the condition of the street and approach at foot of Seventy-third street, East river. The Secretary directed to send copy of report to the Department of Street Cleaning.

The report of the Engineer-in-Chief on Secretary's Order No. 6857, in reference to the application of the Department of Public Works for permission to erect a fence on that portion of the bulkhead assigned for its use at the foot of Seventeenth street, East river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is given to the Department of Public Works to erect a fence in the yard at the foot of Seventeenth street, East river, at present occupied by this Department, said fence to be erected under the supervision and in accordance with the directions of the Engineer-in-Chief, and provided that such fence shall be for temporary storage purposes only, and shall continue only during the pleasure of the Board, and shall be removed on notice being given by the Department, within ten days after the expiration of the service of said notice ; and, provided further, that no responsibility for any loss of or damage to property stored by the Department of Public Works within the enclosure of said fence shall attach to this Department, and that the written consent of the Department of Public Works be obtained to the conditions as above specified.

On motion,

Resolved That the Chief Clerk be directed to charge back the sum of \$300, being two months' rent of Pier at foot of Horatio street, North river, which has been credited as an asset on the books of the Department as due from the Consumers' Ice Co., but which has not been collected, the permit having expired on the 1st May, 1887, and not having been renewed.

Commissioners Matthews and Marshall reported that they had effected the following fire insurance for one year from July 8, 1887 :

at West Fifty-seventh street.....	\$35,000 00
\$15,000 on pier, \$2,000 cement shed, \$2,000 store room, \$15,000 on cement, tools, paint, oils, etc., etc., \$1,000 on blacksmith shop.	
ing "Manhattan".....	15,000 00
on ton derrick.....	2,000 00

On motion, their action was approved.

A communication from C. P. Huntington, lessee, respecting the furnishing of sureties to the lease of Pier, new 37, North river, was, on motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That the proper officers of this Department be and they are hereby authorized to execute and acknowledge, in due form of law, when the said instruments shall have been executed by C. P. Huntington, the other party thereto, a certain agreement, bearing date the 4th day of August, 1887, approved as to form by the Counsel to the Corporation, between the City of New York and C. P. Huntington, relating to the settlement of disputed questions between them respecting Pier, new 37, North river. Also, a certain lease, approved as to form by the Counsel to the

Corporation, bearing date the 30th day of April, 1883, from the City of New York to the said Huntington for the said pier ; the said Huntington undertaking to furnish satisfactory security for the performance of the covenants of said lease, as required by the terms of sale under which the same was purchased by him.

The following preambles and resolution were, on motion, adopted :

Whereas, By virtue of a certain lease dated April 28, 1887, from the Mayor, Aldermen and Commonalty of the City of New York, to Francis P. Eastman, of the right to collect the wharfage for the use and occupation of the bulkhead at the foot of East Seventieth street, East river, and among other things, that if the rent or sum of money in said lease reserved or any part thereof at any time be due or unpaid for the space of ten days after the same shall have become due and payable according to the terms thereof * * * then the Board of Commissioners of the City Docks, may, in its discretion, declare the lease or demise as having ceased and determined and become at all times thereafter null and void.

Whereas, There is due and payable from the said Francis P. Eastman on August 1, 1887, a sum of \$190 to the Mayor, Aldermen and Commonalty of the City of New York, acting through the Department of Docks ; and

Whereas, The said Francis P. Eastman has failed to pay the said sum of \$190 or a portion thereof ; and

Whereas, More than ten days have elapsed since the same became due and payable ;

Resolved, That the said lease, grant or demise, and all franchises connected therewith, be and do cease and determine and come to an end and are hereby declared null and void, and that the Department of Docks shall be and is authorized to repossess itself of the said franchise, rights and privileges in the same manner as if the said lease, grant or demise had never been made.

The following resolution was,

On motion, adopted.

Resolved, That the plans submitted by the Engineer-in-Chief, changing the lines of Pier 37, North river, near the foot of Charlton street, from the lines as determined by the Board of Commissioners and adopted by the Commissioners of the Sinking Fund, April 27, 1871, to lines located as follows :

The proposed southerly line of the pier to be 15.9 feet northerly of the southerly line of the pier as determined and adopted in 1871, the proposed northerly line of the pier to be 1.1 feet northerly of the northerly line of the pier as determined and adopted in 1871 ; the said lines being measured at and along the bulkhead line : the said proposed northerly and southerly lines extend westerly from the bulkhead line at an angle of 87° 30' therewith (the angle being measured on the northerly side of the lines), instead of at angle of about 86° 30', similarly measured and determined and adopted in 1871 ; the width of the pier to remain 80 feet and its length to be 588 feet, as determined and adopted in 1871, be and hereby are approved, and that the President is authorized to send said plans to the Commissioners of the Sinking Fund for their approval, *with an explanation of the reasons why the Department thinks such change is necessary.*

tion, the Secretary was directed to advise Archibald Scott that the time in which to dimensions of house located on the bulkhead south of West Twenty-second street, North been extended to September 15, 1887, provided he agrees, in writing, to have the said conformity with the dimensions of the permit on that date.

tion, the printing and binding of the annual report of the Department for the year ending 1887, was awarded to the Evening Post Job Printing Office, they being the lowest bidders.

Following resolution was, on motion, adopted :

Resolved, That the Board deem it for the interests of the city to reject all the bids received on or of August, 1887, for granite work and masonry on the boat-landing wall and about the Pier "A," North river.

Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending 1887, amounting to \$50,239.38, which was received and ordered to be spread in full on books, as follows :

L. J. N. STARK,
CHARLES H. MARSHALL, } Auditing Comm

On motion, the Board adjourned.

G. KEMBLE, Secre

At an executive meeting of the Board of Docks, held August 11, 1887.

Present -- Commissioners Stark, Matthews and Marshall.

The following resolutions were,

On motion, adopted :

Resolved, That the services of Eugene McCarthy, Dock Master, be and are hereby with, that he be relieved from any further duty in this Department, and that his name be continued from the pay-roll thereof, to take effect from and including August 16, 1887.

Resolved, That Charles H. Pendergast be and is hereby appointed as Dock Master, and to take charge of District No. 5, East river, with compensation of one hundred and fifty (\$150) per month, to take effect August 16, 1887, or as soon thereafter as he shall file a bond, as provided by article 13 of the By-laws of this Board.

The following resolution was, on motion, adopted :

Resolved, That the pay of Dock Builder in the service of this Department be and hereby is fixed at 30 cents per hour, commencing August 16th instant, and to continue until otherwise ordered by the Board.

On motion, Henry C. Reilly and John Crosland were appointed Laborers, and Matthew McDonald, Dock Builder.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held August 18, 1887.

Charles H. Tweed, attorney :

Stating that Eugene Kelly has executed bonds as one of the sureties to lease of C. P. Pier, new 37, North river, and proposing Richard T. Wilson as surety in place of Kelly, which was,

action, accepted.

Stating the lease of Pier, new 37, North river, and compromise agreement executed by Mr. Kelly has been received.

In reference to occupation of Pier, old 36, North river, etc.

From Edward Abeel, Dock Master—Reporting repairs required to outer end Pier river. The action of the President in directing the Engineer-in-Chief to examine and, if necessary, was approved.

From P. Curley, Dock Master :

1st. Recommending removal of pile from north side outer end Pier, new 37, North river. The action of the President in directing the Engineer-in-Chief to remove at once was approved.

2d. Reporting that Pears' soap is advertised on nearly all the piers from Canal to Eleventh street, North river.

From P. J. Brady, Dock Master—Reporting that he had removed lumber from Pier 1, North river, to Affleck's storage house.

From D. W. Bogert, Dock Master :

1st. Reporting sunken canal boat north side of Pier at Little West Twelfth street, North river. The action of the Secretary in notifying Ketterer & Hays to remove said canal boat, was approved.

2d. Reporting sunken place in the pavement adjoining Pier, old 34, North river, at foot of Liberty street, North river. The action of the President in directing the Engineer-in-Chief to examine and repair, if city property, was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting sunken scow in slip between Thirteenth and Fourteenth streets, East river, recommending that the owner be directed to raise and remove said scow, and the Dock Master ordered to report if the load is dumped into the slip.

On motion, the report was received and the recommendation adopted.

3d. Reporting completion of manure dumps at Pier foot of Forty-seventh street, North river, and recommending that Michael McGirr and Thomas Scully be directed to remove them from their present location, foot of Thirty-seventh street, North river.

On motion, the report was received and recommendation adopted.

4th. Recommending that the roof of shed on Pier, new 46, North river, be painted and repaired. The Engineer-in-Chief directed to paint said shed, as recommended in his report, at a cost of about \$35.

5th. Reporting that a post of one of the waiting places on the northerly crosswalk at Christopher Street Ferry, North river, needs repairing. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$3.50, was approved.

6th. Repairs required to bulkhead at Forty-fourth street, East river, and recommending that the order to repair be revoked.

On motion, the report was received and recommendation adopted.

7th. Reporting death of Watchman Amos Stokey. The Secretary directed to enter the same on the roll.

reporting that dredging is being done in front of the bulkhead south of Twenty-third river, without a permit. The Dock Master directed to furnish the name of the owner of

reporting the dumping of stones, bricks, etc., over Battery Park wall. The action of the sending copy of said report to the Department of Public Parks was approved.

reporting non-completion of repairs to Pier 8, North river. The Secretary directed to Central Railroad Company of New Jersey to advise the Board when they propose to make repairs required thereat.

Report on Secretary's Order No. 6838, that he had examined plans and specifications of the Hoboken Land and Improvement Company for the erection of sheds, superstructure, at Bay Street Ferry, North river, and find them to be sufficient in all the details and satisfactory respects.

On, the plans and specifications were approved, and the Secretary directed to notify the company and the Engineer-in-Chief.

Report on Secretary's Order No. 6846, respecting the application of the East Side Improvement Company for the removal of dumping-board at One Hundred and Tenth street, Harlem river. The Secretary directed to send said company copy of the Engineer-in-Chief's report.

Report on Secretary's Order No. 6802, dredging required in the half slip adjoining south of new Pier 60, North river, foot of West Thirtieth street. The Engineer-in-Chief directed to make provision for dredging about 2,500 cubic yards thereat in order to make twelve feet at mean low water as recommended in his report.

Report on Secretary's Order No. 6864, in reference to the application of John Gillies for extension of time to complete work under Contract No. 240, building Pier foot of West Thirtieth street, North river.

On, the time was again extended to September 1, 1887, as requested.

Report on Secretary's Order No. 6865, in reference to the application of John Gillies for permission to use some four-inch spruce sheathing a little scant in thickness in covering the deck of the pier at Thirty-fourth street, North river.

On, the report was received and recommendation adopted.

Report on Secretary's Order No. 6866, in reference to the application of the Manhattan Company for permission to erect a coaling station and the necessary apparatus for hoisting a bulkhead at One Hundred and Twenty-ninth street and Second avenue, Harlem river, in accordance with the plans submitted. Permission granted, the said structures to be erected under the direction and supervision of the Engineer-in-Chief of this Department, and on condition that they be removed only during the pleasure of the Board, and shall be removed on notice being given by the company within thirty days after the date of service of said notice. This permit not to go into effect until a written assent has been filed with this Department agreeing to the conditions hereinafter mentioned.

17th. Report on Secretary's Order No. 6868, respecting the application of the Department of Public Works for the erection of a temporary dog pound at One Hundred and Second street, East river. Permission granted to erect a dog pound on the southerly side of East One Hundred and Second street, in accordance with the dimensions indicated on map, namely, 100 by 25 feet, under the direction and supervision of the Engineer-in-Chief, said structure to continue only at the pleasure of the Board, and to be removed within thirty days after the date mentioned in said removal.

18th. Report on Secretary's Order No. 6462, dredging required in front of platform of One Hundred and Fifty-fifth street, Harlem river. The Engineer-in-Chief directed the requisition for dredging about 2,500 cubic yards to obtain a depth of 10 feet of water as recommended in his report.

19th. Report on Secretary's Order No. 6861, repairs required to the bulkhead at eastern end of Pier 43, East river. The action of the President in directing the Engineer-in-Chief to do as recommended in his report, at a cost of about \$5, was approved.

20th. Report on Secretary's Order No. 6218, that he had repaired Charity Hospital Pier, and that all other piers on Blackwell's Island are in fair condition except the Storehouse Pier, which is being provided for.

21st. Report on Secretary's Order No. 6461, dredging required foot of Ninety-ninth street, East river. The Engineer-in-Chief directed to make requisition for dredging about 500 cubic yards in order to make a depth of 10 feet at mean low water, as recommended in his report.

22d. Report on Secretary's Order No. 6765, dredging required at pier foot of Twentieth street, East river. The Engineer-in-Chief directed to make requisition for dredging to obtain a depth of 10 feet at mean low water, as recommended in his report.

23d. Report on Secretary's Order No. 6843, in reference to the application of J. D. Dobbins, requesting permission to lease and fill-in bulkhead at One Hundred and Thirty-eighth street, Harlem river.

On motion, the application of James Dobbins was denied.

24th. Report on Secretary's Order No. 6841, that the repairs made to the bulkhead between Eleventh to Thirteenth street, East river, and the piers foot of said street, are sufficient, except the vertical sheathing on northerly side near outer end of Pier at Eleventh street, East river, which should be renewed or refastened, or additional fender piles placed thereat. The Secretary directed to notify the New York Mutual Gas-light Company to make the required repairs to the Pier at Eleventh street, East river, under the direction and supervision of the Engineer-in-Chief of this Department.

25th. Report on Secretary's Order No. 6828, repairs required to Pier at the foot of East Twentieth street, East river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$900.

26th. Report on Secretary's Order No. 6829, repairs required to the bulkhead between Twentieth and Twenty-seventh streets, East river, in front of the Storehouse and Erysielas Pier. The Engineer-in-Chief directed to repair pier upon which the pavilion stands at a cost of about \$1,000.

ended in his report. So much of said report as relates to the condition of the bulkhead between Twenty-sixth and Twenty-eighth streets, East river, was referred to Commissioner

Report on Secretary's Order No. 6806, in reference to the condition of the New York and Hudson River Railroad Company's piers and ice breaks at Spuyten Duyvil Creek, New York, and stating that the premises in question lie entirely beyond the exterior line of water of the Hudson River, and come more directly under the direction of the United States Engineers.

On this subject, the Secretary was directed to notify the New York Central and Hudson River Railroad Company not to erect the proposed structures thereat. The action of the Secretary in requesting Walter McFarland to have the matter promptly attended to was approved.

Report on Secretary's Order No. 6022, that he had directed and superintended repairing Pier 42, North river.

Report on Secretary's Order No. 6324, that he had repaired tin casings of posts on Pier 44, North river.

Report on Secretary's Order No. 6658, that he had directed and superintended the construction of an underground chute or apparatus for conveying coal under bulkhead, between Piers 45 and 46, East river.

Report on Secretary's Order No. 6660, that he had prepared specifications for repairing Pier 46, North river, and superintended and directed the repairing of the same.

Report on Secretary's Order No. 6731, that he had directed and superintended the erection of three hoisting-masts, on the bulkhead, between One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North river.

Report on Secretary's Order No. 6800, that the small wing shed or addition, on the west side of the boat-house north of West One Hundred and Thirty-second street, North river, was removed.

a. Report on Secretary's Order No. 6816, that he had repaired deck of Pier at Fifty-first street, North river.

b. Report on Secretary's Order No. 6824, that he had directed and superintended the cutting of gangways on the easterly side of Pier 38, East river.

b. Report on Secretary's Order No. 6854, that he had repaired the deck of Pier at Eighteenth street, North river.

b. Report on Secretary's Order No. 6858, that he had repaired sheathing on deck of Pier at Twenty-sixth street, North river.

b. Report on Secretary's Order No. 6860, that the Long Island Railroad Company had repaired bulkhead at entrance to Pier 31, East river.

b. Report on Secretary's Order No. 6859, that temporary repairs have been made to the deck on deck of Pier at Forty-sixth street, North river.

August 18, 1887.

180

The Engineer-in-Chief and Chief Clerk submitted their report for the quarter ended 1887.

On motion, the Secretary was directed to transmit the same to the Mayor.

The Treasurer, Commissioner Matthews, reported that he had received the following for furnishing the Department with 2,500 cubic yards of rubble stones:

P. Cassamann & Son, per cubic yard, 70 cents.

Brown & Fleming, per cubic yard, 80 cents.

John A. Bouker, per cubic yard, \$1.00.

—and recommended that the order furnishing the same be awarded to P. Cassamann & Son being the lowest bidder.

On motion, the report was received and recommendation adopted.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the 18 August 21, 1887, amounting to \$31,550.51, which was received, and ordered to be read in the minutes, as follows:

On motion, the Board adjourned.

G. KEMBLE, Secret

an executive meeting of the Board of Docks, held August 19, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held August 18, 1887, were read and approved.

A communication from the Counsel to the Corporation, respecting the lease of Pier 40, East River, Frank Phelps was, on motion, laid on the table.

On motion, the President was authorized to notify the Civil Service Supervisory and Examining Board that this Department are in need of a Clerk to the General Repairs Force, a Steam Engineer, and of the various derricks or pile drivers, and six Watchmen, and request them to submit names of persons eligible for said positions.

On motion, a penalty of \$25.00 was imposed upon Captain William Freeman of the schooner "E. Bros." for violation of Rule 12 of the Rules and Regulations, and the Secretary directed him to pay said amount to the Treasurer of this Department within ten days or the claim was referred to the Counsel to the Corporation for collection.

On consideration of the promise made by J. H. Miller that he would not in future obstruct any wharves or bulkheads, the Board decided not to impose any penalty upon him for violation of any of the Rules and Regulations.

On motion, the action of the Board July 27, 1887, appointing William J. Trimble permanent Engineer was revoked.

The following employees were,

on motion, discharged:

John Heenan, Fireman, tug "Manhattan"; Daniel McCullough, Deckhand, tug "Manhattan"; Edward Conklin, Captain, Pile Driver; John Benson, Daniel Duffy, Martin N. O'Donnell, John Murphy, George Sparks and John Mokeley, Dock Builders.

Laborers.

Christopher Barden,
James Butler,
George J. Davis,
John C. Farlow,
Michael H. Leach,
John Murphy,
Edward R. Smith,
Simon Binswanger,

Thomas Cody,
Richard Dever,
Patrick Kelly,
John Lestrangle,
Frank Pierson,
Jacob Sussman,
Jeremiah Quinn.

Michael Tobin, Mason; John Clark, Scowman; George H. Kimball, Caleb A. Simms, Robert Spitzer and Albert A. Spitzer, Temporary Watchmen.

On motion, Thomas Conway was appointed Caulker; Charles McLean, Machinist; Andrew Dock Builder; Robert Mularkey, Laborer; Henry Wenzel, Saw Filer, and George Sparks, Carpenter.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held August 22, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The following preamble and resolution was,

On motion, adopted.

Whereas, A vacancy as Dockmaster occurred on Friday, August 19, by the death of Anthony Hartman, who was a faithful officer; therefore be it

Resolved, That Captain George A. Dearborn be and hereby is appointed as Dockmaster assigned to take charge of District No. 9, East river, with compensation of one hundred and fifty dollars (\$150) per month, to take effect as soon as he shall file his official bond as provided in article 13 of the By-laws of this Board.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held August 23, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The application of the Hoboken Land and Improvement Company, alleged owners of the north half of Pier, old 24, North river, and Buck & Steljes, lessees of the south half of said pier for permission to repair the outer end of the pier, in accordance with the plans submitted, was,

On motion, ordered to be placed on file and permission granted, the said work to be done within existing lines, and under the direction and supervision of the Engineer-in-Chief of the Department.

The application of John Dwight, for permission to place eight oak fender-piles about twenty-five feet apart on the east and south sides of the crib-bulkhead on the north side of One Hundred and Fourteenth street, Harlem river, was,

On motion, ordered to be placed on file, permission granted, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

A communication was received from the Civil Service Supervisory and Examining Board, furnishing eligible list of Clerks to the general repairs force, as follows: Edward J. Steele. William J. Trimble and Rudolph Herlenman, which was,

On motion, ordered to be placed on file and the following resolution was adopted:

Resolved, That William J. Trimble be and hereby is appointed permanent Clerk with compensation at the rate of \$75 per month to take effect on or after August 23, 1887.

A communication from the Engineer-in-Chief respecting car fares was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That on and after September 1, 1887, the employees of the Department who report to the Engineer-in-Chief be repaid the amount expended by them for car-fare, while traveling on business of the Department.

On motion, the Engineer-in-Chief was directed to prepare plans for changing the lines of Pier, 29, East river, and also to prepare plans, specifications and form of contract for the removal of Pier 37, East river, and building Pier, new 29, in place thereof, and repairing the bulkhead at Pier 29.

On motion, John R. Leary was appointed Divers' Tender and Boatman, and Patrick Gibbons, John Chisom, Thomas A. Eddy and William J. Beard were appointed Dock Builders.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held August 25, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held August 19, 22 and 23 1887, were read and approved.

The following communications were received, read, and

On motion, laid on the table to await action as stated, to wit :

From Hon. A. S. Hewitt, Mayor—Reference to filling-in at West Seventy-ninth street, North river.

From Counsel to the Corporation—Reference to shed erected on the bulkhead north of Pier, new 41, North river, by the Cunard Steamship Company. Referred to Executive Session.

From Engineer-in-Chief :

1st. Report on Secretary's Order No. 6797, respecting the application of the New York Steam Company for permission to erect a coal-receiving structure on the bulkhead between Fifty-sixth and Fifty-seventh streets, East river. The Secretary directed to request the President of said company to call on the Commissioners.

2. *Reporting non-commencement of repairs to bulkhead at Pier 40, East river, and easternly thereof.*

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated

From Civil Service Supervisory and Examining Boards :

1st. Respecting the re-classification of employees.

2d. Replying to inquiry about promotions.

3d. Reporting that Charles Miller, Jr., passed the required examination, and is el promotion.

From Counsel to the Corporation—Approving form of contract for building pier foot Thirty-seventh street, North river.

The Secretary was directed to notify Henry Fischer to remove said derrick forthwith, under the direction and supervision of the Engineer-in-Chief of this Department.

From Charles H. Thompson, Dock Master—Reporting that the schooner "China" is occupying berth in the Canal District at the bulkhead, between Piers 3 and 4, East river. Referred to the President.

The President stated that he had directed the Engineer-in-Chief to examine and report upon the following applications :

1st. From the Long Island Land Fertilizing Company—Respecting the plans and specifications for the rebuilding of the bulkhead and dump at East Thirty-ninth street, East river.

2d. From Police Department—Reporting hole in bulkhead on the north side of Pier 43, East river.

3d. From Hencken & Co.—Requesting permission to drive piles at south side of Pier foot of Ninety-fourth street, East river.

4th. From John Gillies—Requesting that the time to complete the building of Pier, new 32, East river, under Contract No. 241, be extended for sixty days.

The President also stated that he had issued the following permits, the same having been approved by the Engineer-in-Chief, the work to be done under his direction and supervision.

1st. To John H. Starin—Permission to repair bulkhead, between Piers 18 and 19, East river.

2d. To Henry E. Nesmith—Permit to drive piles at Pier 10, East river.

3d. To Southern Pacific Company and Morris and Cummings Dredging Company—Permit to dredge slip south side of Pier, old 36, North river.

On motion, his action was approved.

From Joseph B. Erwin, Dock Master--Reporting hole in Pier at Fifty-first street, North river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From David W. Bogert, Dock Master--Reporting several holes in deck of Pier, old 3d river. The action of the President in directing the Engineer-in-Chief to repair City's portion of Pier, and notify the West Shore Railroad Company to repair the part owned by said Company, and the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Charles H. Thompson, Dock Master--Reporting that repairs are required to the bulkhead between Piers 11 and 12, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Edward Abbel, Dock Master--Reporting repairs required to Piers 37 and 44, East river. The action of the President in directing the Engineer-in-Chief to repair Pier 44, and make small and temporary repairs as are necessary under the circumstances to Pier 37, East river, was approved.

From Charles P. Blake, Dock Master--Reporting that Henry Dubois' Sons, No. 11 West street, are the owners of the dredge which did the dredging at the bulkhead between Twentieth and Twenty-third streets, East river, without a permit. The Secretary directed to notify DuBois' Sons that permit must be obtained from the Department before any dredging is commenced.

From John Callan, Dock Master :

1st. Reporting that he had notified P. Gugisberg to remove pontoon bridge erected at Bronx river.

2d. Reporting holes in Pier at One Hundred and Seventeenth street, Harlem river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Recommending temporary repairs to Storehouse Pier, Blackwell's Island, East river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$185, was approved.

3d. Reporting that he had directed that Laborer Patrick Coyle, Acting Watchman, should be again assigned to duty as Acting Watchman for having been found asleep by the Roux and recommending that his action be approved.

On motion, the report was received and recommendation adopted.

4th. Reporting non-commencement of repairs to the following piers and bulkheads, North river.

Bulkhead between Piers 47 and 48, East river.

Bulkhead between Thirty-ninth and Fortieth streets, East river.

Pier at Sixth street, East river.

old 20, North river.

old 21, North river.

water-pipe Pier, new 43, North river.

The Secretary directed to request F. W. Wright, lessee of Pier 43, East river; William H. alleged owner of Pier at Sixth street, East river, and the Baltimore and Ohio Railroad Company, lessees of Piers, old 20 and 21, North river, to advise the Board when they propose to commence the work of repairing said piers.

5th. Reporting non-removal of piles at the foot of Ninety-ninth street, East river. The Secretary directed to notify the Long Island Ferry Company that if the said work is not commenced by September 1, 1887, penalty for violation of the rules will be imposed.

6th. Report on Secretary's Order No. 6112 in reference to the action of the Department of Public Works respecting the supply of Croton water at Pier, new 43, North river.

7th. Report on Secretary's Order No. 6204, that he had directed and superintended the erection of an office shed and one steam derrick on crib-bulkhead north of Ninety-sixth street, North river, also stating that it is not the intention of John Cox & Co. to erect another derrick on the said bulkhead at present.

8th. Report on Secretary's Order No. 6431, that he had directed and superintended the building of Pier, new 35, North river, and the removal of the old pier, which was done in substantial accordance with the terms of the resolution of the Board, dated 6th June, 1883, and April 13, 1887, by the Western Steamship Company of Savannah, in accordance with the plans submitted therefor.

9th. Report on Secretary's Order No. 6536, in reference to and recommending that the float situated at the foot of One Hundred and Fifty-third street, Harlem river, be allowed to remain there at the present.

10th. Report on Secretary's Order No. 6592, in reference to communication received from the Board of Street Opening respecting the grading of West Fifty-sixth street, between Eleventh and Twelfth avenues.

On motion, the Secretary was directed to request the Department of Public Works to have proper grade established for said street and regulate, grade and pave the same.

11th. Report on Secretary's Order No. 6785, that he had replaced the two clusters of piles taken at Pier 59, East river, by tug-boat "F. A. Low," at a cost of \$82.09. Referred to the Treasurer.

12th. Report on Secretary's Order No. 6835, as to the cleaning required at bulkheads between Piers, old 42 and new 43, North river. The President authorized to request the Department of Street Cleaning to clean thereat in accordance with the report of the Engineer-in-Chief.

13th. Report on Secretary's Order No. 6853, in reference to the application of Thomas Farrell for a permit to erect mast for hoisting coal on the bulkhead between One Hundred and Twenty-ninth and One Hundred and Thirty-first streets, North river. Referred to Commissioner Marshall.

14th. Report on Secretary's Order No. 6877, in reference to the complaint of the Department of Public Works, respecting the cutting off of the culvert at Battery place, North river. The President authorized to send copy of Engineer-in-Chief's report to the Department of Public Works, and to advise that this Department does not think that under the circumstances it should build the culvert thereat, but if desired, will cut through the cribwork for the pipe, if the said Department desires to lay it.

15th. Report on Secretary's Order No. 6878, that he had examined the report of the Department of Public Works, respecting the measurements given by this Department to locate the sewer in West street, between Chambers and Duane streets, North river, and their inability to find said box sewer, and reporting that he had succeeded without any difficulty in locating the sewer, but find it to be about nine feet westerly of its position as laid down in the tracing. The President authorized to send copy of said report to the Department of Public Works.

16th. Report on Secretary's Order No. 6869, that the repairs required to Pier, old 34, North river, are on the south side of said pier, which is occupied by the New York, West Shore and Buffalo Railroad Company, alleged owners. The action of the President in directing the said company to repair under the direction and supervision of the Engineer-in-Chief of this Department, is approved.

17th. Report on Secretary's Order No. 5414, that he had directed and superintended the making of new openings in Pier, new 42, North river.

18th. Report on Secretary's Order No. 6511, reference to repairs ordered to the bulkhead of Forty-fourth street, East river.

19th. Report on Secretary's Order No. 6514, that he had directed and superintended the repairing of Pier, old 56, North river.

20th. Report on Secretary's Order No. 6688, that he had cut gangway in Pier at West Thirtieth street, North river.

21st. Report on Secretary's Order No. 6761, that he had directed and superintended driving of fender piles at Pier 38, East river.

22d. Report on Secretary's Order No. 6794, that he had repaired iron cleat on bulkhead between Piers, new 42 and 43, North river.

23d. Report on Secretary's Order No. 6871, that he had painted roof of shed on Pier, new 41, North river.

24th. Report on Secretary's Order No. 6872, that he had repaired post of waiting station on new-made land opposite Christopher Street Ferry, North river.

25th. Report on Secretary's Order No. 6873, that he had done the work of filling-in at bulkhead at upper side of Pier 43, East river.

26th. Report on Secretary's Order No. 6876, that he had removed projecting pile from west side, outer end of Pier, new 37, North river.

[August 25, 1887.]

A communication from the Engineer-in-Chief, submitting plans and specifications for the removal of remains of burned Pier, new 37, North river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the specifications and form of contract as prepared and submitted by the Engineer-in-Chief for the removal of remains of burned Pier, new 37, North river, be and they are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

The Treasurer, Commissioner Matthews, reported that the official bonds of Charles Hutchinson, Charles H. Pendergast and George A. Dearborn, Dock Masters, had been approved by the President of the Board on August 2, 16 and 23 instant, and are now on file.

The report of the Engineer-in-Chief on Secretary's Order No. 6848, in reference to the application of Ward & Olyphant for permission to erect a hoisting engine on bulkhead at Houston street, East river, and erect a shed over the same, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is granted to Ward & Olyphant to place a hoisting engine on the bulkhead north of Houston street, East river, and to erect a temporary iron shed five feet long, ten feet wide and ten feet high over said engine, under the direction and supervision of the Engineer-in-Chief of this Department, and on condition that they shall remain only during the will of the Board and shall be removed on notice being given by this Department within thirty days after the date of service of said notice. This permit not to go into effect until a written consent has been filed with this Department agreeing to the conditions hereinbefore named.

On motion, the permit issued June 8, 1887, authorizing Patrick Paul to place a small house on the Pier foot of Rivington street, East river, was revoked and the Secretary directed to notify him to remove same in accordance with Rule 2 of the Rules and Regulations.

The report of the Engineer-in-Chief on Secretary's Order No. 6912, submitting plans for changing lines of Pier, new 29, East river, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That this Board deems it advisable to make alterations in the location and width of the new pier to be located at the foot of Market Slip, East river, and to be known as Pier, new 29, East river, from the lines therefor as shown upon the plans adopted by this Department April 13, 1871; and to that end do hereby fix and establish, subject to the approval of the Commissioners of the Sinking Fund, as provided by law, the location and width of Pier, new 29, East river, as shown on the plans submitted by the Engineer-in-Chief, and described as follows :

The easterly line of the pier as hereby fixed and established to be coincident with the westerly line of the pier as shown upon the plans adopted by this Department April 13, 1871, the width of

the pier to be 40 feet instead of 100 feet, and the length of the pier on its centre line to be instead of 375 feet.

The Auditing Committee presented an audit of 24 claims, amounting to \$54,344.88 were approved and audited, and the Secretary directed to enter in full on the minutes, as follows:

motion the Board adjourned.

G. KEMBLE, Secretary.

A special meeting of the Board of Docks held August 26, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held August 25, 1887, were read and approved.

On motion, adjourned.

G. KEMBLE, Secy

At a special meeting of the Board of Docks, held August 30, 1887.

Present—Commissioners Stark, Matthews and Marshall, and a representative of the Com

The Board proceeded to open the estimates advertised to be opened this day, at 12 o' for building a new wooden pier at the foot of West Thirty-seventh street, North river.

Three estimates were received, as follows :

No. 1. From John Gillies, with \$375 in money.....	\$1
No. 2. " John W. Flaherty, with \$375 in money.	1
No. 3. " P. Sanford Ross, with \$375 in money.....	1

On motion, the Secretary was directed to transmit to the Comptroller the security depe by said bidders and accompanying their respective estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for building a new wooden pier at the foot Thirty-seventh street, North river, be and hereby is awarded to John Gillies, he being t bidder, upon the approval of the sureties by the Comptroller of the City.

The Treasurer, Commissioner Matthews, reported that he had received the following for repairing the tug "Manhattan" :

From William M. Tebo.....	
From James D. Leary.....	
From John Winslow.....	

—and recommended that the order for making said repairs be awarded to William M. being the lowest bidder.

On motion, the report was received and recommendation adopted.

The following resolution was,

On motion, adopted :

Resolved, That Edward Lasher, Engineer ; Henry Condon, Fireman, and Thomas 1 Deckhand, of the tug "Manhattan," be and hereby are suspended, to take effect on and tember 1, 1887.

On motion, it was

Resolved, That permission be and hereby is granted to John A. Bouker to use and occupy the bulkhead at the Pier at foot of Seventy-third street, East river, at a compensation of three dollars per day (exclusive of Sunday), commencing Thursday, September 1, and payable at the end of each week to the Dock Master of the District ; said permission to continue during the pleasure of the Board.

The following preamble and resolution were,

On motion, adopted :

Whereas, The following resolution was passed by the Board at its meeting held January 12,

Resolved, That permission be and hereby is granted to the New York, New Haven and Hartford Railroad Company, occupants under a lease from the City of New York of the easterly half of Pier 51 and westerly half of Pier 52, East river, and of the bulkhead between said piers, including all pier sometimes called Pier 51½, to erect a shed upon Pier 51, East river, and also upon Pier 51½, East river, the same to be built in accordance with plans to be first submitted to and approved by the Board of Docks before beginning their erection.

And also, permission is hereby granted to the said New York, New Haven and Hartford Railroad Company to erect a platform in front of the bulkhead immediately east of Pier 51, East river, at fifty feet wide outside of the bulkhead extending from the easterly side of Pier 51, East river, to the said so-called Pier 51½, East river, and to erect a shed upon said platform. All the work to be done in accordance with plans to be first submitted to and approved by the Board of Docks, and the work to be done under the supervision and direction of the Engineer-in-Chief of the Department of Docks, provided that the said New York, New Haven and Hartford Railroad Company shall, before beginning work, file with the Department of Docks an agreement in writing, satisfactory as to form, that the said company will pay twenty-five cents per square foot, per annum, for the use of the land under water covered by said platform, until the 1st day of May, 1888 ; and also agreeing that the said platform and all sheds and buildings erected thereon shall revert to and become the property of the City at the expiration or sooner termination of the existing lease for the same, which by its terms expires on the 1st day of May, 1888.

And provided further, that the said company file a written agreement, satisfactory as to form, with the Department of Docks, that they will allow the public bath, for which reservation is made in the lease, to lie during the summer months of 1887 on the easterly side of Pier 51, East river, and will provide a good, sufficient and satisfactory access to the same through the sheds to be erected under this permit, for all persons entitled to use said bath.

And further provided, that the written consent of J. V. Brown, lessee of said piers and bulkhead for such platform and sheds, be first filed in this Department.

And Whereas, The said New York, New Haven and Hartford Railroad Company has not availed itself of the permission, as described and granted in the aforesaid resolution ; therefore

Resolved, That the resolution and permission as therein referred to and described be and hereby be rescinded, to take effect on and after this date.

The following resolution was,

On motion, adopted :

Resolved, That permission be and hereby is granted to the Consumers' Ice Company right to collect wharfage of the Pier at the foot of Horatio street, North river, with re
however, for bath at the northerly side at a rent of one hundred dollars per month, to be paid after July 1st last ; such permission to continue during the pleasure of this Board.

On motion, the Board adjourned.

G. KEMBLE, Secre

At a meeting of the Board of Docks, held September 1, 1887.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The minutes of the meeting held August 30, 1887, were read and approved.

A communication from the Glen Cove Manufacturing Company, respecting their application permission to erect temporary platform or wharf structure in front of bulkhead between Pier 53, East river, was,

On motion, referred to Commissioner Marshall.

Communications from the Civil Service Supervisory and Examining Boards, submitting lists of a Marine and Assistant Engineer, and advising the Board that Edgar B. Gosling had the necessary examination and was eligible for promotion to the position of Assistant Engineer.

On motion, referred to Executive Session.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated

From Hon. A. S. Hewitt, Mayor—Inclosing opinion received from the Counsel to the Mayor, respecting judgments obtained for arrears of dock rents. The Secretary directed to have same recorded in the Book of Opinions.

From the Counsel to the Corporation :

1st. Opinion respecting the removal of advertising signs on piers and bulkheads. The Secretary directed to have same recorded in the Book of Opinions.

2d. Approving form of contract for removing remains of burned Pier, new 37, North

3d. Inclosing bill amounting to \$113.45 for fees on searches in the matter of the said bulkhead property by the Old Dominion Steamship Company. Referred to Commissioner

From Comptroller of the City—Approving of the agreement made by the Board with John [unclear] for the use of certain spruce on deck of pier foot of West Thirty-fourth street, North river.

From Department of Street Cleaning—Reporting that certain bulkheads between Canal and Tenth streets, North river, will be cleaned.

From Police Department—Reporting that the Pier at One Hundred and Fifty-fifth street, East river, is in a dangerous condition. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Comptroller of the City—Transmitting agreement in duplicate between Collis P. Huntington and the Mayor, Aldermen and Commonalty of the City, approved as requested by the Board.

From Gaunt & Janvier, agents Pears' Soap—Stating that they will have the advertisement of said soap removed from the piers.

From William H. Webb—In reference to repairing Pier at Sixth street, East river, and bulkhead planking.

From New York, Lake Erie and Western Railroad Co.—Reporting that the planking in front of freight shed between Piers, new 20 and 21, North river, is continually wearing out, and requesting a continuous permit for three months to enable them to keep the same in good repair. Permit granted for three months as requested; all work done thereat to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From John H. Cheever—Requesting permission to repair Pier foot of Railroad avenue, in Twenty-third Ward, near One Hundred and Thirty-fifth street, Harlem river. The action of Commissioner Marshall in issuing a permit, the said work to be kept within existing lines, and done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Manhattan Railway Company—Accepting the terms and conditions of resolutions adopted August 18th instant.

From Hunt & Donaldson—Requesting dredging in front of the bulkheads between Piers, old 34 and 35, North river. The Secretary directed to advise that the Engineer-in-Chief has been directed to dredge thereat.

From A. C. Cheney—Surrendering berth for ice barge at the north side of Pier foot of Thirtieth street, North river, at the expiration of the present month.

On motion, the permit to use the northerly side of said pier, dated April 30, 1887, was revoked, and the Dock Master directed to collect wharfage thereat.

From New York Steam Company—Reporting that the holes which need attention are not on the southerly half of Pier, old 23, North river, but on the roadway leading through the market. Referred to the Engineer-in-Chief to examine and report.

From United States Illuminating Company—Requesting the Department to dredge in front of the bulkhead foot of Twenty-ninth street, East river, and requesting permission to dredge southerly thereof. Referred to the Engineer-in-Chief to examine and report.

From John Norton & Son—Requesting renewal of permit for tally-house, Pier 13, East river. Permit granted, to be and remain during the will of the Board.

From Union Dredging Company—Requesting that the time to complete the work of dredging at Pier, new 59, North river, under Contract No. 250, be extended to September 15, 1887.

On motion the time was extended as requested.

From Herman Kidder—Requesting the Board to remove obstructions from Pier at Sixth street, East river, in order that the pier can be used for excursion of St. Joseph's Church Monday, September 5. The action of the President in advising that the said request had been referred to the Dock Master, who will endeavor to have the pier clear on that day, was approved.

From Alexander M. Goge, Draughtsman—Requesting to be excused for absence from from August 20 to 27, 1887.

From J. M. Toucey, Superintendent New York Central and Hudson River Railroad Company—Requesting reference to permit for shed on Pier "G," North river. The action of the President in advising that the plans for said shed have been referred to the Engineer-in-Chief for examination and report, was approved.

From James F. Delaney—Protesting against the removal of small bridge at Cross street, Farms, and requesting the Board to revoke said order.

From Ward & Olyphant—Agreeing to the terms and conditions of resolution adopted August 25, 1887.

From Henry Du Bois' Sons—Stating that they have no dredge at work at Twenty-third street, East river. The Secretary directed to ask if they have been doing any work thereat and to them that in future they must obtain a permit before commencing any dredging.

The President reported that he had issued the following permits, the same having been recommended by the Engineer-in-Chief of this Department, the work to be done under his direction and supervision :

To John Gillies—To drive six piles on the southwest corner of Tripp's Grain Elevator, at foot of West Thirty-fourth street, North river.

To West Shore Railroad—Repair Pier 5, North river, and replace pile and repair chocks on north side, outer end, of Pier, new 1, North river.

To Pennsylvania Railroad Company—Repair sheathing in front of gate at Pier 5, North river.
Canda & Kane—Place drain-pipe through bulkhead foot of West Ninety-sixth street, North river.

On motion, his action was approved.

From David W. Bogert, Dock Master—Reporting that the West Shore Railroad Company was driving piles and repairing bulkhead north of Pier 5, North river, without a permit. The action of the President in notifying said company that they must obtain a permit before proceeding with the work was approved.

From Charles H. Pendergast, Dock Master—Reporting hole in sheathing, Pier 60, East river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From Charles H. Thompson, Dock Master—Reporting that the schooner "Gazelle" is berthed in the Canal District. Referred to the President.

From Charles H. Pendergast, Dock Master—Reporting holes in sheathing, Pier 58, East river. Engineer-in-Chief directed to repair if on the portion of said pier owned by the City.

From Charles B. Husted, Dock Master—Reporting that "Pears' Soap" is not advertised on any of the piers in his district.

From Engineer-in-Chief :

- 1st. Reporting assignment of employees to special duty.
- 2d. Reporting the amount of work done during the weeks ending August 6, 13, 20 and 27, 1887.
- 3d. Reporting repairs required to bulkhead between Piers 10 and 11, East river, and backing-up on inner end of Pier 11, East river. The action of the President in directing the alleged owner to repair, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.
- 4th. Reporting that he had suspended Edward Lasher, Engineer of the tug "Manhattan," for coming on board the tug on Saturday morning, August 27th instant, under the influence of liquor, and recommending that his action be approved.
- 5th. Reporting non-commencement of repairs to the east and west half of Piers 2 and 3, east end of Pier 12, and the bulkhead between Ninetieth and Ninety-first streets, East river.
- 6th. Reporting that fence and sheds have not been removed from foot of Thirty-seventh street, East river, by John Nesbitt's Sons. The Engineer-in-Chief directed to examine and report if said shed and fence was removed at the time stated by the Board.
- 7th. Reporting that the work of dredging and removing Pier, new 35, North river, and building a new pier in place thereof, has been done by the Ocean Steamship Company, of Savannah, Georgia, in accordance with the resolution of the Board, passed June 6, 1883.
- 8th. Reporting that the repairs to Pier 10, East river, have not been made in a satisfactory manner. The Secretary directed to advise the owners of said pier that unless they make the repairs required to said pier to the satisfaction of the Engineer-in-Chief of this Department, penalty for violation of the rules will be imposed.
- 9th. Report on Secretary's Order No. 6903, condition of bulkhead between Piers 11 and 12, East river. The action of the President in directing the Engineer-in-Chief to repair as recommended in his report, at a cost of about \$900, was approved.
- 10th. Report on Secretary's Order No. 6904, repairs required to Pier 6, East river. The action of the President in directing the New York Central & Hudson River Railroad Co., lessees, to repair, under the direction and supervision of the Engineer-in-Chief, was approved.
- 11th. Report on Secretary's Order No. 6522, that he had directed and superintended the repairing of bulkhead between Fifth and Sixth and Sixth and Seventh streets, East river.

12th. Report on Secretary's Order No. 6661, that the work of dredging slips on each Pier 13, East river, had been done by the Morris & Cumings Dredging Company, and stating statement of the cost thereof. The Chief Clerk directed to have bills made for said work and transmitted to the owners of the property for payment.

13th. Report on Secretary's Order No. 6425, as to the condition of and repairs required on bulkhead foot of Eighteenth street, East river.

14th. Reporting completion of Pier at the foot of West Thirty-fourth street, North river. President authorized to notify the Comptroller that the work of building said pier has been finished by the contractor, John Gillies.

15th. Report on Secretary's Order No. 6913, in reference to the communication submitted by the Long Island Land Fertilizing Company, in regard to repairing bulkhead and dump at the foot of Ninth street, East river. The Secretary directed to send Mr. Curtis, president of said company, a copy of the Engineer-in-Chief's report.

16th. Report on Secretary's Order No. 6892, in reference to the application of Hencken & Co. for permission to drive piles on inside line of platform south of Ninety-fourth street, East river, to allow a movable hoisting-machine to be brought nearer the backing-log; and also, in reference to the platform erected thereat. The Secretary directed to request Hencken & Co. to call on the Commissioners, Wednesday, September 7th, instant, at 2 o'clock, P. M.

17th. Report on Secretary's Order No. 6424, that he had directed and superintended repairs on the foot of Sixty-eighth and Seventieth streets, North river.

18th. Report on Secretary's Order No. 6710, that he had repaired bulkhead along the corner line of East Seventeenth street, East river, extended.

19th. Report on Secretary's Order No. 6725, that the outer end of the Pier at the foot of West Thirteenth street, North river, has been cut off and squared up.

20th. Report on Secretary's Order No. 6821, that Michael McGirr and Thomas Scully had been placed in possession of dumping-boards on the north side of Pier foot of West Forty-seventh street, North river.

21st. Report on Secretary's Order No. 6822, that he had directed and superintended repairs on pier and bulkhead between Sixty-third and Sixty-fourth streets, North river.

22d. Report on Secretary's Order No. 6870, that he had directed and superintended repairs on bulkhead between Piers 14 and 15, North river.

23d. Report on Secretary's Order No. 6879, that he had directed and superintended driving piles at Pier 17, East river.

24th. Report on Secretary's Order No. 6880, that he had repaired deck south side Pier, old North river.

25th. Report on Secretary's Order No. 6895, that he had directed and superintended driving piles at Pier 10, East river.

26th. Report on Secretary's Order No. 6901, that he had directed and superintended repairs on pavement in front of bulkhead at entrance to south half Pier, old 34, North river.

29th. Report on Secretary's Order No. 6907, that he had repaired the deck of Pier foot of Fifty-first, North river.

30th. Report on Secretary's Order No. 6909, that repairs have been made to the bulkhead north of Pier 43, East river.

31st. Report on Secretary's Order No. 6910, that he had directed and superintended driving piling at One Hundred and Fourteenth street, Harlem river.

32nd. Report on Secretary's Order No. 5788, that he had directed and superintended repairing bulkhead at Pier 23, North river.

33rd. Report on Secretary's Order No. 6395, that he had directed and superintended repairing bulkhead east of Pier 49, East river.

34th. Report on Secretary's Order No. 6689, that he had directed and superintended repairing bulkhead on Pier between Forty-first and Forty-second streets, North river.

35th. Report on Secretary's Order No. 6812, that he had directed and superintended the repair of fenders and driving fender-piles at bulkhead between Piers 50 and 51, and southeasterly end of Pier 51, East river.

36th. Report on Secretary's Order No. 6882, that he had superintended and directed repairing bulkhead at north side Pier, old 33, North river.

37th. Report on Secretary's Order No. 6689, that sunken canal-boat has been removed foot of Twenty-seventh street, East river.

38th. Report on Secretary's Order No. 6917, reference to and reporting that repairs have been made to Pier 60, foot of Rivington street, East river.

39th. Report on Secretary's Order No. 6920, that he had directed and superintended the erection of a temporary iron shed over hoisting engine located on bulkhead north of Houston street, East river.

40th. Report on Secretary's Order No. 6923, that he had repaired deck of Pier 60, East river.

A communication from the Engineer-in-Chief, submitting form of contract and specifications for dredging site of Pier, new 37, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the form of contract and specifications, as prepared and submitted by the Engineer-in-Chief, for dredging the site of Pier, new 37, North river, be and they are hereby approved, subject to the approval of the Counsel to the Corporation, and the Secretary be and he is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

The following preamble and resolution were adopted :

Whereas, The following resolution was passed by the Board at its meeting, held July 7, 1887,

Resolved, That there shall be included in the next public sale of wharf property the collect and retain all wharfage that may accrue at Pier, old 54, North river, foot of Perry also, the easterly half of Pier 51, the westerly half of Pier 52, East river, including Pier 51 the bulkhead between ; now, be it

Resolved, That the resolution, as described above, be and hereby is rescinded, the same effect on and after this date.

The report of the Engineer-in-Chief on Secretary's Order No. 6797, in reference to the cation of G. D. Curtis for permission to erect coal pockets, etc., on the bulkhead between sixth and Fifty-seventh streets, East river, was

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is given to G. D. Curtis to erect certain structures and near the bulkhead on the northerly side of Fifty-sixth street, East river, according to plan submitted, which are hereby approved, the work to be done under the direction and supervision of Engineer-in-Chief, and provided that so much of said structures as may be on land and land water outside of original high water-mark and owned by the City is to remain only during pleasure of the Board, and to be removed at any time within thirty days after the date of service notice to remove has been given by the Board of Docks ; and further provided that G. D. shall pay for the use and occupancy of the land and land under water belonging to the City sum of two hundred and fifty dollars per annum, payable quarterly in advance, and shall, within days from this date, file with this Department a written assent to the conditions hereinbefore

The following resolution was, on motion, adopted :

Resolved, That Van Tassell & Kearney, auctioneers, on behalf of this Board, be and hereby are authorized and directed to offer for sale at public auction, at Pier A, Battery place, North in the City of New York, on Tuesday, September 20, 1887, at 12 o'clock M., the right to collect and retain all wharfage accruing at the following mentioned premises, and upon the following terms and conditions :

On the East River.

Lot 1.—For and during the term of ten years, from May 1, 1888.

The easterly half of Pier 51 and the westerly half of Pier 52, and the small pier between sometimes called Pier 51½, and the bulkhead situated between Pier 51 and the small pier, and between the small pier and Pier 52.

The Department will, in pursuance of the statute in such cases made and provided, grant permit to shed said piers on the usual terms and conditions, provided the owner or owners of the other half of said piers join the Department's lessee in an application for the same; such sheds to revert to and become the property of the City on the expiration or sooner termination of the lease. The Department will also, in pursuance of the statute in such cases made and provided, if desired by the lessee, grant permit to build a platform about fifty feet wide in front of the bulkhead between Pier 51 and the small pier situated between Piers 51 and 52, and in front of the bulkhead between the small pier situated between Piers 51 and 52 and Pier 52, upon condition that the lessee shall pay

at the rate of twenty-five cents per square foot per annum for the use of the land under water, shall agree that the said platform shall revert to and become the property of the City on the expiration or sooner termination of the lease.

In case permission to shed the platform be granted, the price to be paid for such privilege to shall be determined by agreement to be hereafter made between the lessee and this Department.

TERMS AND CONDITIONS OF SALE.

The premises must be taken in the condition in which they may be at the commencement of term of the lease, and no claim or demand that the premises or property are not in suitable and stable condition at the commencement of the term will be allowed by this Department.

All repairs, maintaining or rebuilding required or necessary to be done to or upon the premises, any part thereof, during the continuance of the term of the lease, shall be done by and at the expense of the lessee or purchaser.

No claim or demand will be considered or allowed by the Department for any loss or deprivation of wharfage or otherwise, resulting from or occasioned by any delay on account or by reason of premises or any part thereof being occupied for or on account of any repairs, rebuilding or dredging.

The up-set price of the parcels or premises exposed or offered for sale will be announced by the Engineer at the time of sale.

The Department will do all dredging, whenever it shall deem it necessary or advisable so to do.

The term for which leases are sold will commence at the date mentioned in the advertisement, May 1, 1888, and the rents accruing therefor will be payable from that date in each case.

Each purchaser of a lease will be required, at the time of the sale, to pay, in addition to the Engineer's fees, to the Department of Docks, twenty-five (25) per cent. of the amount of annual bid, as security for the execution of the lease, which twenty-five (25) per cent. will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser neglects or refuses to execute the lease, with good and sufficient surety to be approved by the Department, within ten days after being notified that the lease is prepared and ready for execution at the Department of Docks.

The Department expressly reserves the right to resell the lease or premises bid off, by those failing, refusing or neglecting to comply with these terms and conditions, the party so failing, refusing or neglecting to be liable to the Corporation of the City of New York for any deficiency resulting from or occasioned by such resale.

Lessees will be required to pay their rent quarterly in advance, in compliance with the terms and conditions of the lease prepared and adopted by the Department.

In all cases where it is mentioned in the advertisement of sale, the purchaser shall be entitled to the privilege of occupying any shed upon the pier or bulkhead at the commencement of the term that may thereafter be permitted or licensed by the Department, and to the rights attached to such permission or license, but subject to the condition thereof, such purchaser being engaged in the busi-

ness of steam transportation and using and employing the same for the purpose of regularly sailing and discharging cargo thereat.

Not less than two sureties, each to be a householder or freeholder in the City of New York, approved by the Commissioners of Docks, will be required under each lease to enter into a contract or obligation, jointly and severally with the lessee, in the sum of double the annual rent, for the faithful performance of all the covenants and conditions of the lease, the names and addresses of the sureties to be submitted at the time of sale.

Each purchaser will be required to agree that he will upon ten days' notice so to do, execute a lease with sufficient surety as aforesaid, the printed form of which may be seen and examined on application to the Secretary at the office of the Department, Pier "A," Battery place.

No person will be received as a lessee or surety who is delinquent on any former lease from the Department or from the Corporation.

No bid will be accepted from any person who is in arrears to this Department or to the Corporation, upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the Department or to the Corporation of the City of New York.

The auctioneer's fees (\$25) on each lot or parcel must be paid by the purchasers thereof respectively at the time of sale.

L. J. N. STARK,
JAMES MATTHEWS,
CHARLES H. MARSHALL, } Commissioners
of the
Department of Docks.

The report of the Treasurer, Commissioner Matthews, for the week ending August 30, 1887, amounting to \$2,658.27, was, on motion, ordered to be spread in full on the minutes, as follows:

- 333. For one lot of hardware.

On motion, the Board adjourned.

G. KEMBLE, Secy

At an executive meeting of the Board of Docks, held September 2, 1887.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The minutes of the meeting held August 30, 1887, were read and approved.

The applications of William R. Grace & Co., Arnold, Cheney & Co., Van Vleck & Charles McCarthy, requesting renewal of permit for tally-house on Piers 13, 11, 14 and river, respectively, were,

On motion, ordered to be placed on file, and said permits granted, subject to the approval of the Dock Master of the District.

The communication from the Civil Service Supervisory and Examining Boards, transmitting a list of an Assistant Engineer, was,

On motion, referred to the Engineer-in-Chief for examination and report.

The communication from the Civil Service Supervisory and Examining Boards, reporting that Edgar B. Gosling had passed the necessary examination and was eligible for promotion to the position of Assistant Engineer, was,

On motion, taken from the table and ordered to be placed on file.

Two communications from the Engineer-in-Chief, recommending that Edgar B. Gosling be promoted to Assistant Engineer with a salary at the rate of \$100 per month, to take effect from the date of his appointment.

the 1st September, 1887 ; and also recommending that the compensation of Alfred U. Jacobs be increased to \$117 per month, and the compensation of Effingham V. Smith and David H. Lane be increased to the rate of \$1,000 per annum, to take effect September 1, 1887, were,

On motion, ordered to be placed on file and the following resolutions were adopted :

Resolved, That Edgar B. Gosling be and hereby is appointed Assistant Engineer in this Department, with compensation of \$100 per month, to take effect on and after September 1, 1887.

Resolved, That the salary of Alfred U. Jacobs, Clerk in this Department, be fixed at \$117 per month, to begin on the 1st day of September, 1887.

Resolved, That the salaries of Effingham V. Smith, Timekeeper, and David H. Lane, Clerk to the Property in this Department, be fixed at \$83.33 per month, to begin on the 1st day of September, 1887.

The communication from the Civil Service Supervisory and Examining Boards, certifying that C. Wood was eligible for appointment as Marine Engineer, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That John C. Wood be and hereby is appointed Engineer of the tug "Manhattan," with compensation of \$100 per month, to take effect September 5, 1887.

On motion, the Engineer-in-Chief was directed to prepare plans, forms of contract and specifications for building Pier, new 37, North river, eighty feet wide.

On motion, William H. Reilly was appointed Sounder, with compensation of \$15 per week, to take effect September 12, 1887 ; Marcellus Grant was appointed Foreman of Carpenters, with compensation of 40 cents per hour, to take effect on and after September 5, 1887.

On motion, Thomas Thomas and Edward Roach were appointed Dock Builders, and Edward Lavanagh, Carpenter.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held September 7, 1887.

Present—Commissioners Stark, Matthews and Marshall.

A communication from the Engineer-in-Chief, requesting the appointment of two Steam Engineers, in addition to two previously asked for, to run any of the various derricks or pile drivers or other engines of the Department, except the tug "Manhattan," was,

On motion, ordered to be placed on file and the President was authorized to request the Civil Service Supervisory and Examining Boards to furnish the Department with the names of persons eligible for said position.

On motion, the appointment of Charles McLean, as Machinist, was revoked.

On motion, Jeremiah O'Connell was appointed Ship Carpenter and Charles McLean Blacksmith.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

12th. Report on Secretary's Order No. 6661, that the work of dredging slips on each Pier 13, East river, had been done by the Morris & Cumings Dredging Company, and transmitting statement of the cost thereof. The Chief Clerk directed to have bills made for said work and transmitted to the owners of the property for payment.

13th. Report on Secretary's Order No. 6425, as to the condition of and repairs required on bulkhead foot of Eighteenth street, East river.

14th. Reporting completion of Pier at the foot of West Thirty-fourth street, North river. President authorized to notify the Comptroller that the work of building said pier has been finished by the contractor, John Gillies.

15th. Report on Secretary's Order No. 6913, in reference to the communication submitted by the Long Island Land Fertilizing Company, in regard to repairing bulkhead and dump at Twentieth street, East river. The Secretary directed to send Mr. Curtis, president of said company, a copy of the Engineer-in-Chief's report.

16th. Report on Secretary's Order No. 6892, in reference to the application of Hencken & Co. for permission to drive piles on inside line of platform south of Ninety-fourth street, East river, to allow a movable hoisting-machine to be brought nearer the backing-log; and also, in reference to platform erected thereat. The Secretary directed to request Hencken & Co. to call on the Commissioners, Wednesday, September 7th, instant, at 2 o'clock, P. M.

17th. Report on Secretary's Order No. 6424, that he had directed and superintended repairs on piers foot of Sixty-eighth and Seventieth streets, North river.

18th. Report on Secretary's Order No. 6710, that he had repaired bulkhead along the east line of East Seventeenth street, East river, extended.

19th. Report on Secretary's Order No. 6725, that the outer end of the Pier at the foot of West Thirteenth street, North river, has been cut off and squared up.

20th. Report on Secretary's Order No. 6821, that Michael McGirr and Thomas Scully have been placed in possession of dumping-boards on the north side of Pier foot of West Forty-seventh street, North river.

21st. Report on Secretary's Order No. 6822, that he had directed and superintended repairs on pier and bulkhead between Sixty-third and Sixty-fourth streets, North river.

22d. Report on Secretary's Order No. 6870, that he had directed and superintended repairs on bulkhead between Piers 14 and 15, North river.

23d. Report on Secretary's Order No. 6879, that he had directed and superintended driving piles at Pier 17, East river.

24th. Report on Secretary's Order No. 6880, that he had repaired deck south side Pier, old North river.

25th. Report on Secretary's Order No. 6895, that he had directed and superintended driving piles at Pier 10, East river.

26th. Report on Secretary's Order No. 6901, that he had directed and superintended repairs on pavement in front of bulkhead at entrance to south half Pier, old 34, North river.

- 28th. Report on Secretary's Order No. 6907, that he had repaired the deck of Pier foot of Fifty-first, North river.
- 29th. Report on Secretary's Order No. 6909, that repairs have been made to the bulkhead north of Pier 43, East river.
- 30th. Report on Secretary's Order No. 6910, that he had directed and superintended driving piles at One Hundred and Fourteenth street, Harlem river.
- 31st. Report on Secretary's Order No. 5788, that he had directed and superintended repairing bulkhead east of Pier 49, East river.
- 32d. Report on Secretary's Order No. 6689, that he had directed and superintended repairing sidewalk on Pier between Forty-first and Forty-second streets, North river.
- 33d. Report on Secretary's Order No. 6812, that he had directed and superintended the repair of fenders and driving fender-piles at bulkhead between Piers 50 and 51, and southeasterly pier of Pier 51, East river.
- 34th. Report on Secretary's Order No. 6882, that he had superintended and directed repairing bulkhead north side Pier, old 33, North river.
- 35th. Report on Secretary's Order No. 6689, that sunken canal-boat has been removed foot of Fifty-seventh street, East river.
- 36th. Report on Secretary's Order No. 6917, reference to and reporting that repairs have been made to Pier 60, foot of Rivington street, East river.
- 37th. Report on Secretary's Order No. 6920, that he had directed and superintended the erection of a temporary iron shed over hoisting engine located on bulkhead north of Houston street, East river.
- 38th. Report on Secretary's Order No. 6923, that he had repaired deck of Pier 60, East river.

A communication from the Engineer-in-Chief, submitting form of contract and specifications for dredging site of Pier, new 37, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the form of contract and specifications, as prepared and submitted by the Engineer-in-Chief, for dredging the site of Pier, new 37, North river, be and they are hereby approved, subject to the approval of the Counsel to the Corporation, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

The following preamble and resolution were adopted :

Whereas, The following resolution was passed by the Board at its meeting, held July 7, 1887, to-wit :

measured at and along the bulkhead-line ; the said proposed northerly and southerly lines to extend westerly from the bulkhead-line at an angle of $87^{\circ} 30'$ therewith, the angle being measured on the northerly side of the lines ; instead of at an angle of about $86^{\circ} 30'$ similarly measured, as determined and adopted in 1871 ; the width of the pier to remain 80 feet, and its length to remain 588 feet as determined and adopted in 1871 ;" under and by authority of section 712 of chapter 410 of the Laws of 1882, and as shown by the plans of the proposed change submitted by the Department of Docks.

From Health Department—Requesting a list of persons who are engaged in doing dredging work. The action of the Secretary in sending the desired information was approved.

From James Van Volkenburgh—Requesting permit for tally-house on Pier 43, East river, with the approval of the Dock Master endorsed thereon. Permit granted, to be and remain during the will of the Board.

From John A. Bouker :

1st. Accepting terms and conditions for use of dumping-board foot of Seventy-third street, East river.

2d. Requesting additional dredging between Piers, old 57 and 58, North river. The action of the President in directing the Engineer-in-Chief to make requisition for the additional dredging, in accordance with his recommendation, was approved.

From F. M. Orton & Co.—Requesting a permit to drive piles in front of bulkhead between Thirty-eighth and Thirty-ninth streets, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Old Colony Steamboat Company—Requesting permit to repair Pier 39, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Edward Elliott—Requesting permit to repair bulkhead between Thirty-fifth and Thirty-sixth streets, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Charles McManus' Sons—Requesting permit to dredge at dumping-board foot of Fourteenth street, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From C. P. Huntington, lessee—Requesting that Pier, new 37, North river, be built to carry shed proposed to be erected thereon. Referred to the Engineer-in-Chief to examine and report.

From Henry DuBois' Sons—Stating that they had not done any dredging foot of Twenty-third street, East river.

From Police Department—Reporting hole in front of Pier, old 26, North river. Referred to the Engineer-in-Chief to examine and report.

From Joseph J. O'Donohue, President Brooklyn and New York Ferry Co.—Respecting the removal of signs on the racks foot of Broome and Grand streets, East river, and requesting that the date of removal be extended to December 1, 1887. Referred to Commissioner Marshall, with power.

at the rate of twenty-five cents per square foot per annum for the use of the land under water, shall agree that the said platform shall revert to and become the property of the City on the expiration or sooner termination of the lease.

In case permission to shed the platform be granted, the price to be paid for such privilege to shall be determined by agreement to be hereafter made between the lessee and this Department.

TERMS AND CONDITIONS OF SALE.

The premises must be taken in the condition in which they may be at the commencement of term of the lease, and no claim or demand that the premises or property are not in suitable and profitable condition at the commencement of the term will be allowed by this Department.

All repairs, maintaining or rebuilding required or necessary to be done to or upon the premises, any part thereof, during the continuance of the term of the lease, shall be done by and at the expense of the lessee or purchaser.

No claim or demand will be considered or allowed by the Department for any loss or deprivation of wharfage or otherwise, resulting from or occasioned by any delay on account or by reason of premises or any part thereof being occupied for or on account of any repairs, rebuilding or dredging.

The up-set price of the parcels or premises exposed or offered for sale will be announced by the Engineer at the time of sale.

The Department will do all dredging, whenever it shall deem it necessary or advisable so to do.

The term for which leases are sold will commence at the date mentioned in the advertisement, May 1, 1888, and the rents accruing therefor will be payable from that date in each case.

Each purchaser of a lease will be required, at the time of the sale, to pay, in addition to the Engineer's fees, to the Department of Docks, twenty-five (25) per cent. of the amount of annual bid, as security for the execution of the lease, which twenty-five (25) per cent. will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser neglects or refuses to execute the lease, with good and sufficient surety or sureties to be approved by the Department, within ten days after being notified that the lease is prepared and ready for execution at the Department of Docks.

The Department expressly reserves the right to resell the lease or premises bid off, by those failing, refusing or neglecting to comply with these terms and conditions, the party so failing, refusing or neglecting to be liable to the Corporation of the City of New York for any deficiency resulting from or occasioned by such resale.

Lessees will be required to pay their rent quarterly in advance, in compliance with the terms and conditions of the lease prepared and adopted by the Department.

In all cases where it is mentioned in the advertisement of sale, the purchaser shall be entitled to privilege of occupying any shed upon the pier or bulkhead at the commencement of the term that may thereafter be permitted or licensed by the Department, and to the rights attached to such permission or license, but subject to the condition thereof, such purchaser being engaged in the busi-

Resolved, That there shall be included in the next public sale of wharf property the collect and retain all wharfage that may accrue at Pier, old 54, North river, foot of Perry also, the easterly half of Pier 51, the westerly half of Pier 52, East river, including Pier 5; the bulkhead between ; now, be it

Resolved, That the resolution, as described above, be and hereby is rescinded, the same effect on and after this date.

The report of the Engineer-in-Chief on Secretary's Order No. 6797, in reference to the location of G. D. Curtis for permission to erect coal pockets, etc., on the bulkhead between sixth and Fifty-seventh streets, East river, was

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is given to G. D. Curtis to erect certain structures and near the bulkhead on the northerly side of Fifty-sixth street, East river, according to plan permitted, which are hereby approved, the work to be done under the direction and supervision of Engineer-in-Chief, and provided that so much of said structures as may be on land and land under water outside of original high water-mark and owned by the City is to remain only during the pleasure of the Board, and to be removed at any time within thirty days after the date of notice to remove has been given by the Board of Docks ; and further provided that G. D. Curtis shall pay for the use and occupancy of the land and land under water belonging to the City a sum of two hundred and fifty dollars per annum, payable quarterly in advance, and shall, within thirty days from this date, file with this Department a written assent to the conditions hereinbefore

The following resolution was, on motion, adopted :

Resolved, That Van Tassell & Kearney, auctioneers, on behalf of this Board, be and are authorized and directed to offer for sale at public auction, at Pier A, Battery place, North of the City of New York, on Tuesday, September 20, 1887, at 12 o'clock M., the right to collect and retain all wharfage accruing at the following mentioned premises, and upon the following terms and conditions :

On the East River.

Lot 1.—For and during the term of ten years, from May 1, 1888.

The easterly half of Pier 51 and the westerly half of Pier 52, and the small pier sometimes called Pier 51½, and the bulkhead situated between Pier 51 and the small pier situated between the small pier and Pier 52.

The Department will, in pursuance of the statute in such cases made and provided, grant to the lessee said piers on the usual terms and conditions, provided the owner or owners of the other part of said piers join the Department's lessee in an application for the same; such sheds to revert to the City on the expiration or sooner termination of the lease. The Department will also, in pursuance of the statute in such cases made and provided, if desired by the lessee, grant permit to build a platform about fifty feet wide in front of the bulkhead between Pier 51 and the small pier situated between Piers 51 and 52, and in front of the bulkhead between the small pier situated between Piers 51 and 52 and Pier 52, upon condition that the lessee shall pay

at the rate of twenty-five cents per square foot per annum for the use of the land under water, shall agree that the said platform shall revert to and become the property of the City on the expiration or sooner termination of the lease.

In case permission to shed the platform be granted, the price to be paid for such privilege to shall be determined by agreement to be hereafter made between the lessee and this Department.

TERMS AND CONDITIONS OF SALE.

The premises must be taken in the condition in which they may be at the commencement of term of the lease, and no claim or demand that the premises or property are not in suitable and available condition at the commencement of the term will be allowed by this Department.

All repairs, maintaining or rebuilding required or necessary to be done to or upon the premises, any part thereof, during the continuance of the term of the lease, shall be done by and at the expense of the lessee or purchaser.

No claim or demand will be considered or allowed by the Department for any loss or deprivation of wharfage or otherwise, resulting from or occasioned by any delay on account or by reason of premises or any part thereof being occupied for or on account of any repairs, rebuilding or dredging.

The up-set price of the parcels or premises exposed or offered for sale will be announced by the Engineer at the time of sale.

The Department will do all dredging, whenever it shall deem it necessary or advisable so to do.

The term for which leases are sold will commence at the date mentioned in the advertisement, May 1, 1888, and the rents accruing therefor will be payable from that date in each case.

Each purchaser of a lease will be required, at the time of the sale, to pay, in addition to the Engineer's fees, to the Department of Docks, twenty-five (25) per cent. of the amount of annual bid, as security for the execution of the lease, which twenty-five (25) per cent. will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser neglects or refuses to execute the lease, with good and sufficient surety or sureties to be approved by the Department, within ten days after being notified that the lease is prepared and ready for execution at the Department of Docks.

The Department expressly reserves the right to resell the lease or premises bid off, by those failing, refusing or neglecting to comply with these terms and conditions, the party so failing, refusing or neglecting to be liable to the Corporation of the City of New York for any deficiency resulting from or occasioned by such resale.

Lessees will be required to pay their rent quarterly in advance, in compliance with the terms and conditions of the lease prepared and adopted by the Department.

In all cases where it is mentioned in the advertisement of sale, the purchaser shall be entitled to the privilege of occupying any shed upon the pier or bulkhead at the commencement of the term that may thereafter be permitted or licensed by the Department, and to the rights attached to such mission or license, but subject to the condition thereof, such purchaser being engaged in the busi-

12th. Report on Secretary's Order No. 6849, reporting completion of dumping-board side of Pier foot of Forty-sixth street, North river. Referred to the Treasurer, Comm Matthews.

13th. Report on Secretary's Order No. 6217, that he had supervised the erection of platform piles at One Hundred and Thirty-fifth street, Harlem river.

14th. Report on Secretary's Order No. 6635, that he had directed and superintended repairing of bulkhead between Thirty-ninth and Fortieth streets, East river.

15th. Report on Secretary's Order No. 6777, that he had repaired Pier at North Brother's East river.

16th. Report on Secretary's Order No. 6790, that he had done the work required at bulkhead along the centre line of East Seventeenth street, East river.

17th. Report on Secretary's Order No. 6897, that he had made temporary repairs to Stone Pier, Blackwell's Island, East river.

18th. Report on Secretary's Order No. 6925, that he had superintended and directed the laying of a drain-pipe through bulkhead foot of Ninety-sixth street, East river.

19th. Report on Secretary's Order No. 6926, that he had directed and superintended work on north side Pier, new 1, North river.

The report of the Engineer-in-Chief on Secretary's Order No. 6899, in reference to the application of the New York Central and Hudson River Railroad Company, for permit to erect shed on Pier "G," between Sixty-seventh and Sixty-eighth streets, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the New York Central and Hudson River Railroad Company, owners and occupants of Pier "G," between Sixty-seventh and Sixty-eighth streets, North river, which said company has built upon land lying under water belonging to the City and leased to said company by this Department, to erect thereon, at their own cost and expense, a shed for the reception and delivery of freight received and discharged thereat by water transportation, the said shed to be erected subject to sections 772 of the New York City Consolidation Act of 1882.

The work of erecting said shed to be done under the direction and supervision of the Engineer-in-Chief of this Department, and in accordance with the amended plans submitted therefor, which are hereby approved.

The said shed to revert to and become the property of the City of New York, free of any cost for cost or otherwise, whenever the pier upon which it is constructed shall revert to the City under the provisions of the lease thereof, and at the termination of said lease or of the renewal of same, expiration or otherwise, provided that the said company shall, within ten days from the date hereof, in writing, to the conditions of the resolutions aforesaid.

The report of the Engineer-in-Chief on Secretary's Order No. 6900, that he had examined plans for shed to be erected on Pier, new 61, North river, as submitted by the New York C

Hudson River Railroad Company, together with the amendments recently made by said company, and finds the said plans as amended satisfactory, and recommending that the plans as amended be approved and that a permit with the usual conditions be granted.

On motion, the report was received, ordered to be placed on file, the plans as amended were approved, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the New York Central and Hudson River Railroad Company, lessees of Pier, new 61, at or near the foot of West Thirty-first street, East river, to erect and maintain thereon a shed for the protection of railroad freight received and stored thereat, the said shed to be constructed subject to the regulations required by section 772 of the New York City Consolidation Act of 1882," in conformity with the requirements of the building and fire laws of the City of New York and in accordance with *the amended plans* submitted for ; provided that the same shall revert to and become the property of the City of New York at the expiration or sooner termination of a lease for said pier to be made under resolution of the Board adopted January 28, 1887, and the agreement made under such resolution. The said work to be done under the direction and supervision of the Engineer-in Chief of this Department, provided the said company shall within ten days from the date hereof assent in writing to the conditions of the resolution as aforesaid.

A communication from the Engineer-in-Chief respecting the building of Pier, new 29, in place of Pier, old 37, East river, and recommending that the Department of Street Cleaning be directed to remove the dumping-board from said pier, was,

On motion, ordered to be placed on file, and the following resolution was unanimously adopted by the affirmative votes of Commissioners Stark, Matthews and Marshall :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the removal of Pier, old 37, East river, and with the construction of Pier, new 29, East river, at the foot of Market Slip, and a temporary approach thereto within the established lines for the same, and that all the work hereby ordered be performed otherwise than by contract, as required by section 714 of the Consolidation Act, and that it be done by the force of the Department by day's work, except so much of the labor and material as is now or may hereafter be contracted for, and that all the materials, tools and dredging necessary therefor, and not heretofore contracted for, or which may hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

On motion, the President was authorized to notify the Department of Street Cleaning that this Department propose to build a new pier in place of Pier, old 37, near the foot of Market Slip, East river, and request Commissioner Coleman to call on the Commissioners in reference to a location for the dumping-board now erected on said Pier, old 37, East river.

Commissioner Marshall, to whom was referred the communication from the Counsel to the Corporation, enclosing bill of \$113.45, received from Robinson, Scribner & Bright, for fees on arches in the matter of the sale of bulkhead property by the Old Dominion Steamship Company, recommended that said amount be paid.

On motion, the Chief Clerk was directed to include said claim in the next audit.

The report of the Engineer-in-Chief on Secretary's Order No. 6839, in reference to the action of the Nassau Ferry Company for permission to erect an open shed at the foot of East F street, East river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the Nassau Ferry Company, its ferry franchise and wharf property at Houston street, East river, to erect and maintain during will of the Board, two frame sheds over the ferry bridge, open at both ends, fifty and fifty-long, forty-one feet wide and twenty-four feet high, for the shelter of passengers carried ferry, and for the protection of property received and discharged thereat by steam transport the said sheds to be constructed subject to the regulations required by section 772 of "the New City Consolidation Act of 1882," and in conformity with the requirements of the Building Laws of the City of New York, and in accordance with the plans and specifications submitted which are hereby approved. The said work to be done under the direction and supervision Engineer-in-Chief of this Department, provided that the said company shall, within ten days the date hereof, assent, in writing, to the conditions of this resolution as aforesaid.

Commissioner Marshall, to whom was referred the application of the Glen Cove Manufacturing Company, for permission to erect a pier or platform near the foot of Jackson street, East river, submitted a report thereon containing certain recommendations, which were,

On motion, laid on the table, and the subject was again referred to Commissioner Marshall for further consideration.

The President offered the following resolution, which was adopted :

Resolved, That the Engineer-in-Chief be and is hereby directed to furnish the Board at the earliest convenience, a list with a description of all piers where any part of said piers is now claimed to be owned by private parties, with the name and address of each claimant.

Commissioner Matthews offered the following resolution, which was adopted :

Resolved, That in consideration of the payment of \$250, which has been made to the owner of this Department, Thomas Smith & Co. be and are hereby permitted to fill in behind the crib-work bulkhead, from Seventy-seventh to Seventy-eighth street, North river, from this date including the 31st December, 1887, provided that all said filling shall be composed of clean earth, sand or of stone. If of stone, no piece of stone shall be larger than sixteen inches in largest dimensions, and provided that all the filling shall be done as directed by the Engineer-in-Chief of this Department, and under his supervision.

The following resolution was,

On motion, adopted :

Resolved, That the permit issued to F. P. Eastman on the 17th day of February, 1887, authorizing him to use the dumping-board at the bulkhead south of Thirty-ninth street, East river, and hereby is revoked, to take effect on and after September 9, 1887.

On motion, it was,

Resolved, That the following resolution, passed at the meeting of August 30, 1887, be and is hereby rescinded, namely :

Resolved, That permission be and hereby is granted to the Consumers' Ice Company for the right to collect wharfage of the Pier at the foot of Horatio street, North river, with reservation, however, for bath at the northerly side, at a rent of one hundred dollars per month, to be paid on or after July 1st last ; such permission to continue during the pleasure of the Board.

On motion, the following resolution was adopted :

Resolved, That permission be and hereby is granted to the Consumers' Ice Company to use and occupy in accordance with law, during the will of the Board, the Pier at the foot of Horatio street, North river, except reservation for a public bath at the northerly side, at the rate of one hundred dollars per month, to begin July 1, 1887, payable monthly or for such part of the month as the Pier may be occupied, to the Treasurer of this Department ; provided, that the said company shall conform to the provisions hereof within five days from the date of this resolution.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending September 6, 1887, amounting to \$29,946.21, which was received and ordered to be spread in full in the minutes, as follows :

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to

From Counsel to the Corporation—Requesting the Board to inform him what permits or licenses have been granted for building, rebuilding, repairing or maintaining piers or bulkheads, or for piling land under water between the northerly side of Sixth street, East river, and the northerly side of Nineteenth street, East river. Referred to the Engineer-in-Chief to examine and report.

From Manhattan Railway Company—Submitting map of proposed improvement of the river front on the west side of the Harlem river and north of One Hundred and Fifty-ninth street requesting permission to build a timber bulkhead along the river front, to dredge out the slip to proper depth and to build a wharf necessary for the company's commercial purposes; also to improve the marginal street and the lands around the slip and on the river-front to the proper grade.

Engineer of the Dock Department. Also requesting the Board to name a price at which it will for a term of fifty years the lands under water thereat. Referred to the Engineer-in-Chief to examine and report.

From Department of Public Works—In relation to the change of grade of West Fifty-sixth street, west of Eleventh avenue. Referred to the Engineer-in-Chief to examine and report.

From John Gillies—Requesting use of pile-driving hammer for use at Pier foot of Thirty-seventh street, North river. The action of the President in granting him permit to use said hammer for ten days was approved.

From Francis Gordon Brown—Enclosing check for \$20 to pay for tests of cement. The action of the President in directing the Engineer-in-Chief to test said cement was approved.

From Peter DeWitt—Requesting permit to run a six-inch drain-pipe from No. 379 West Eleventh street, through bulkhead. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From New York, New Haven and Hartford Railroad Company :

1st. Requesting permit to repair Piers 50 and 51 East river. The action of Commissioner Marshall in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

2d. Requesting permit to dredge at Pier 50, foot of Montgomery street, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Standard Gas-light Company—In relation to coal-pockets proposed to be built foot of West Fifty-sixth street. Referred to the Engineer-in-Chief to examine and report.

From John Hahn, attorney for Hencken & Co.—In reference to the occupation of platform at foot of Ninety-fourth street, East river. Referred to the Engineer-in-Chief to survey and make map of said premises.

From G. D. Curtis—Agreeing to the terms and conditions of permit for erection of buildings and extension of water-front between Fifty-sixth and Fifty-seventh streets, East river.

From Glen Cove Manufacturing Company—Requesting an answer to their communication of August 29th ultimo, having reference to the granting of a license or permit to erect a temporary platform or wharf structure in front of bulkhead, between Piers 52 and 53, East river. Referred to Commissioner Marshall.

From Consumers' Coal Company—In reference to repairing bulkhead between Forty-third and Forty-fourth streets, East river.

From Hunt & Donaldson—Requesting permit to place a derrick, scale and office on the bulkhead between Piers, old 34 and 35, North river. Permit granted, to be and remain during the will of the Board.

From B. J. Hall—Requesting permit to retain engine "Pacific" on Pier 13, East river. Permitted, to be and remain during the will of the Board.

From F. H. Smith & Co.—Requesting permit for tally-house on Pier 15, East river. Permit granted, to be and remain during the will of the Board.

From Tinsley Bros.—Requesting permission to use steam power for the purpose of hoisting at Pier foot of One Hundred and Twenty-second street, Harlem river. Referred to the Engineer-in-Chief to examine and report.

From Thomas Kane—Reporting that some parties are filling-in the water-front between Ninety-fourth and Ninety-fifth streets, East river. The action of the Secretary in directing the Dock Master to stop said filling was approved.

From Joseph V. Brown—Requesting permit to use as an office tally-house on Pier foot of Twenty-third street, East river. Permit granted, to be and remain during the will of the Board.

From Frank Phelps, lessee—Relating to the repairing of Pier 40, East river.

From West Shore Railroad Company—Stating that they will repair the south side of Pier 34, North river.

From Portchester Transportation Company—Requesting permit to cut backing-log and a gangway in Pier, new 32, East river. Referred to the Engineer-in-Chief to examine and report.

From Department of Street Cleaning—Reporting obstructions on Piers 35 and 43, North river, prevent their being properly cleaned. The Secretary directed to send copy of said communication to the Dock Master of the district for examination and report.

From James D. Wynkoop—Requesting permit for tally-house on Pier, old 33, North river. Permit granted, to be and remain during the will of the Board.

From Edward McGrath—In relation to the rent charged for use of float at One Hundred Twenty-fifth street, Harlem river. Referred to Dock Master of the District to examine and report.

From R. W. Cameron & Co.—Requesting permit for tally-house, engine and tool-box on Pier 9, East river. Permit granted, to remain during the will of the Board and to be located in the direction and supervision of the Dock Master of the district.

From Central Railroad Company of New Jersey—Stating that they will repair the platform south of Pier 8, North river.

From Harry Hill—Requesting berth at Pier 41, East river. Referred to Dock Master of the District.

From Engineer-in-Chief:

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending September 10, 1887.

3d. Respecting the delivery of granite by Nolan & Son, under Contract No. 230, and suggesting that the time for completion of the contract be extended to October 15, 1887.

On motion, the time was extended to November 1, 1887, provided the written consent of the Board is filed in this Department.

4th. Reporting improper use of boat-landing near Pier A, North river, by the steam-tugs "Goodwin" and "Goodwin," and recommending that the owners of said boats be directed not to land there lest they should damage the structure built only for the use of small boats.

On motion, the report was received and recommendation adopted.

5th. In relation to tools, etc., at East Seventeenth Street Yard, and recommending that the tools be relinquished and the Engineer-in-Chief directed to omit them from the quarterly returns hereafter.

On motion, the report was received and the recommendation adopted.

6th. In relation to repairing of bulkhead between Ninety-sixth and Ninety-seventh streets, East river. The Secretary directed to send the alleged owner or owners a copy of the Engineer-in-Chief's report and direct them to make the repairs required under his direction and supervision.

7th. In relation to filling-in behind bulkhead-wall between Piers, new 26 and 27, North river. Referred to the Treasurer.

8th. Reporting non-removal of fence, etc., at Pier at Thirty-seventh street, East river. Referred to Commissioner Marshall.

9th. Reporting that Henry Fischer has not removed the derrick from bulkhead between Sixty-first and Sixty-second streets, East river. The Secretary directed to notify Henry Fischer that unless the said derrick is removed within five days from the receipt of notice, it will be removed by the Engineer-in-Chief of this Department at his cost and expense.

10th. Reporting non-commencement of repairs to the east and west halves of Piers 2 and 3, and bulkhead between Ninetieth and Ninety-first streets, East river. The subject matter respecting repairing of the bulkhead between Ninetieth and Ninety-first streets, East river, was referred to Commissioner Marshall.

11th. Reporting repairs required to Pier, old 34, North river. The action of the President in notifying the Cornell Steamboat Company, lessees, to repair the north half, and the New York, West Shore and Buffalo Railroad Company the south half, under the direction and supervision of the Engineer-in-Chief, was approved.

12th. Reporting repairs required to the bulkhead between Piers, old 27 and 28, North river. The action of the President in notifying the alleged owner or owners to repair the bulkhead, and requesting the Department of Public Works to repair the pavement thereat, was approved.

13th. Requesting that another request for list of eligible draughtsmen be sent to the Civil Service Supervisory and Examining Boards. The President authorized to request the Civil Service Supervisory and Examining Boards to send said list.

September 15, 1887.]

226

34. Reporting that repairs are required to the sheathing on bulkhead, between Piers, old 21 and 23, North river. The action of the President in directing the owners or lessees to repair, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

The report of the Engineer-in-Chief on Secretary's Order No. 6842, submitting specifications and form of contract for building a new Storehouse Pier at Blackwell's Island, East river, was approved.

On motion, ordered to be placed on file, and the following resolution adopted :

Resolved, That the specifications and form of contract, as prepared and submitted by the Engineer-in-Chief of this Department for removing the lower about eighty feet in length of Storehouse Pier at Blackwell's Island, East river, and for building an extension northerly, hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

A communication from the Long Island Fertilizing Company, objecting to the Department erecting an approach to platform under the dumping-board at foot of Thirty-ninth street, East river, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That the Engineer-in-Chief be and is hereby directed to order and require the owners or lessees of the bulkhead and dump at East Thirty-ninth street to repair the said dumping-board in such form and manner as to permit free and unobstructed access, ingress and egress for cars and other vehicles to and from the platform belonging to the City of New York in front of the bulkhead on the south side of said Thirty-ninth street, East river, pursuant to law and the provision of the Charter under which the lessee or lessees collect wharfage.

A communication from Charles H. Tweed, attorney Southern Pacific Company, in relation to the surrender of Pier, old 36, North river, on March 1, 1888, was,

On motion, ordered to be placed on file and the following preambles and resolution were adopted :

Whereas, a certain resolution was passed by the Board on the 27th November, 1878, in relation to the Messrs. Bogert & Morgan, agents of Morgan's Louisiana and Texas Railroad and Steamship Company, for a term of ten years, a pier to be built on the site of Pier, old No. 36, North river, now occupied by the said Railroad and Steamship Company, and to be known as Pier, new No. 36, at an annual rental of \$30,000, with privilege of renewal for ten years additional, at an increase of \$30,500; and

Whereas, said resolution provided that the Department reserved the right to rebuild the pier and bulkhead-wall at any time it might deem expedient, and said Bogert & Morgan, did covenant and agree, in writing, on December 4, 1878, to the terms and conditions of the resolution aforesaid, by which they were to yield peaceable possession to the Department, when, in its judgment, it might be desirable to rebuild said pier; and

14th. Report on Secretary's Order No. 6932, that he had directed and superintended repairing of East river.

15th. Report on Secretary's Order No. 6939, that he had superintended and directed the repair of timber-caps and flooring at outer end of Pier 39, East river.

16th. Report on Secretary's Order No. 6952, that he had repaired deck of Pier foot of Fifty-fifth street, North river.

17th. Report on Secretary's Orders No. 6788 and 6906, that he had repaired half-round oak piles at Pier 44 East river.

18th. Report on Secretary's Orders No. 6875 and 6949, that he had repaired sheathing on deck of Pier 44, East river.

19th. Report on Secretary's Order No. 6959, that he had repaired sheathing on deck of Pier 7, East river.

From Charles H. Thompson, Dock Master—Reporting in favor of granting F. H. Smith & Co. permit for tally-house on Pier 15, East river.

From Edward Abeel, Dock Master—Reporting that another mooring-post is needed on the lower end of Pier 19, East river. The action of the President in directing the Engineer-in-Chief to place mooring-post thereat, in accordance with the report of the Dock Master, was approved.

From J. B. Erwin, Dock Master—Reporting repairs required to Pier foot of Fifty-fifth street, North river. The action of the President in directing the Engineer-in-Chief to repair, was approved.

From P. Curley, Dock Master—Reporting that the deck of Pier, old 42, requires sheathing. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From John Callan, Dock Master :

1st. Reporting that he had stopped the Suburban Railroad Company from building a coal yard on pier foot of Second avenue, east side of Harlem river.

2d. Reporting that he had stopped Williams & Gilligan from filling-in between Ninety-fourth and Ninety-fifth streets, Harlem river.

3d. Reporting favorably on Tinsley Brothers' application for permission to use steam to hoist coal in their yard at One Hundred and Twenty-second street, Harlem river.

From David W. Bogert, Dock Master :

1st. Submitting list of tally-houses, derrick and other structures for which permits have expired or have not been applied for.

2d. Approving application of Hunt and Donaldson for permission to place hoisting-derrick, scales and office on bulkhead, between Piers, old 34 and 35, North river.

3d. Reporting that repairs are required to the sheathing on bulkhead, between Piers, old No. 29, North river. The action of the President in directing the owners or lessees to repair, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

The report of the Engineer-in-Chief on Secretary's Order No. 6842, submitting specifications and form of contract for building a new Storehouse Pier at Blackwell's Island, East river, was approved.

On motion, ordered to be placed on file, and the following resolution adopted :

Resolved, That the specifications and form of contract, as prepared and submitted by the Engineer-in-Chief of this Department for removing the lower about eighty feet in length of the Storehouse Pier at Blackwell's Island, East river, and for building an extension northerly, be and hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

A communication from the Long Island Fertilizing Company, objecting to the Department erecting an approach to platform under the dumping-board at foot of Thirty-ninth street, East river, was received.

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That the Engineer-in-Chief be and is hereby directed to order and require the owners or lessees of the bulkhead and dump at East Thirty-ninth street to repair the said dumping-board in such form and manner as to permit free and unobstructed access, ingress and egress for carts and other vehicles to and from the platform belonging to the City of New York in front of the land on the south side of said Thirty-ninth street, East river, pursuant to law and the provision of the Charter under which the lessee or lessees collect wharfage.

A communication from Charles H. Tweed, attorney Southern Pacific Company, in relation to the surrender of Pier, old 36, North river, on March 1, 1888, was received.

On motion, ordered to be placed on file and the following preambles and resolution were adopted :

Whereas, a certain resolution was passed by the Board on the 27th November, 1878, leasing to Messrs. Bogert & Morgan, agents of Morgan's Louisiana and Texas Railroad and Steamship Company, for a term of ten years, a pier to be built on the site of Pier, old No. 36, North river, then occupied by the said Railroad and Steamship Company, and to be known as Pier, new No. 25, at an annual rental of \$30,000, with privilege of renewal for ten years additional, at an increased rental of \$30,500 ; and

Whereas, said resolution provided that the Department reserved the right to rebuild the pier and bulkhead-wall at any time it might deem expedient, and said Bogert & Morgan, agents, did covenant and agree, in writing, on December 4, 1878, to the terms and conditions of the resolution aforesaid, by which they were to yield peaceable possession to the Department, whenever in its judgment, it might be desirable to rebuild said pier ; and

Whereas, application has been made by the Southern Pacific Company, successors of the ~~Morgan's~~ Louisiana and Texas Railroad and Steamship Company, to continue in the occupancy of ~~said~~ pier till March 1, 1888 ; now,

Resolved, That permission be and is hereby granted to the said Southern Pacific Company, successors of Morgan's Louisiana and Texas Railroad and Steamship Company, to occupy the premises referred to, for the purposes of their business, till March 1, 1888 ; provided, however, it be understood that the Department shall on that date enter into full and peaceable possession of the pier aforesaid, for the purpose of making such repairs and rebuilding as may be deemed expedient, and that the Southern Pacific Company, or its authorized agent, shall, within ten days from date, agree, in writing, to surrender and relinquish occupancy of said pier on or before March 1, 1888, and shall also assent to all the terms and conditions of the resolution as herein stated.

A communication from the Engineer-in-Chief, reporting the completion of repairs to Pier, foot of West Forty-fourth street, North river, excepting the putting on of armature-plate at outer southerly corner, was

On motion, ordered to be placed on file, and the following preambles and resolution were adopted :

Whereas, The New York Horse Manure Company have been duly ordered, notified and required to replace the lower armature-plate at outer southerly corner of Pier, foot of Forty-fourth street, North river, and

Whereas, The said New York Horse Manure Company have failed and neglected to do said work or make such repairs as so ordered and required, and

Whereas, The lease under which the said company holds and uses the said pier provides, among other things, that the said company will at all times during the term of the lease, put, keep and maintain the said wharf property and every part thereof and the structures thereon in good and sufficient repair and condition, and

Whereas, The said lease also provides that in case the said company shall neglect or refuse to make repairs as therein stated, the said lease shall become null and void, or the Department of Docks may, at its option, make such repairs at the cost and expense of said company ; now, therefore, be it

Resolved, That the New York Horse Manure Company be and hereby are ordered, notified and required to be and appear before the Board of Commissioners of Docks at a meeting thereof, to be held in the Board Room of this Department, at Pier "A," Battery place, on Thursday, September 22, 1887, at 2 o'clock in the afternoon of that day, and show cause why such repairing has not been done, and why the lease should not be canceled and annulled for failure and neglect to comply with the order and direction of this Department, and for failure to comply with the conditions and provisions of said lease, and why this Department should not be entitled to such further or other relief in the premises as may be proper.

Commissioner Marshall offered the following resolution, which was,

On motion, adopted.

Resolved, That all permits which have been or may be issued by this Department for houses, watchmen's houses, derricks, or similar structures, shall expire on the first of May, of each year irrespective of their date, and that all persons holding such permits shall be required to renew them on the first of each May as aforesaid, and shall keep them posted in a conspicuous place on the structures erected and occupied under the authority of said permits.

Commissioner Matthews offered the following resolution, which was,

On motion, adopted.

Resolved, That the Chief Clerk be directed to charge back the sum of \$190, amount of charge to F. P. Eastman, August 1, 1887, for three months, in advance, for bulkhead at foot of East Seventieth street, East river, the lease for said premises having been abrogated, pursuant to resolution passed August 11, 1887.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending September 14, 1887, amounting to \$8,739.78, which was received and ordered to be spread in on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held September 16, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meeting held September 15, 1887, were read and approved.

The communication from the Civil Service Supervisory and Examining Boards, submitting eligible list of Watchmen, was,

On motion, referred to the Engineer-in-Chief to examine and report.

The report of Dock Master D. W. Bogert as to the condition of Pier, old 34, North river, was,

On motion, ordered to be placed on file, and the Secretary directed to send A. B. Valentine, agent of the Cornell Steamboat Company, a copy of said report.

A communication from the Engineer-in-Chief reporting that he had directed that Laborer, acting Watchman, Patrick Lestrangle, shall not be again assigned to duty as acting Watchman for having been found asleep while on duty on the night of Wednesday, the 7th of September, 1887, and recommending that his action be approved.

On motion, the report was received and recommendation adopted.

A communication from Edward Gottschall, Searcher of Water Grants, requesting an increase in compensation, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That the compensation of Edward Gottschall, Searcher of Water Grants in this Department, be and hereby is fixed at \$125 per month, to take effect on and after October 1, 1887.

The President, Commissioner Stark, offered the following resolution which was,

On motion adopted :

Resolved, That the Engineer-in-Chief be and is hereby directed to have built, with the force of the Department, as soon as practicable, a dump with an approach to the same on westerly side of and near the outer end of Pier, new 32, East river, near the foot of Pike Slip, at a cost not exceeding \$950. The same being for the use of the Street Cleaning Department.

A communication from the Comptroller of the city in reference to the substitution of James M. Cumings in place of John Reynolds to the estimate of the Morris & Cumings Dredging Company, for removing the remains of burned Pier, new 37, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the substitution of James M. Cumings in the place of John Reynolds to the estimate of the Morris & Cumings Dredging Company, for removing the remains of burned Pier, new 37, North river.

The following resolutions were, on motion, adopted :

Resolved, That the services of Charles P. Blake as Dock Master be and they are hereby dispensed with, and that he be relieved from any further duty in this Department, and that his name be discontinued from the pay-roll thereof, to take effect from and including October 1, 1887.

Resolved, That John J. Ryan be and hereby is appointed Dock Master, and assigned to take charge of District No. 12, North river, with compensation of \$150 per month, to take effect October 1, 1887, provided he shall file his official bond with sureties duly approved by the President, as provided by article 13 of the By-Laws of this Board, on or before that date.

Resolved, That Charles Hutchinson, Dock Master, be assigned to take charge of District No. 7, East river, to take effect on and after October 1, 1887.

The petition of residents of West Farms and others, requesting the Board to grant permit for the erection of pontoon bridge over the Bronx river, was,

On motion, ordered to be placed on file, and the following preambles and resolution were adopted :

[SEPTEMBER 16, 1887.]

Whereas, An application has been made to this Department for permission to place a pontoon over the Bronx river at or near No. 1924 Main street, West Farms, to the Westchester shore, and permission has been received in favor of said bridge and placed on file in this Department, and

Whereas, This Department did invite all parties who might wish to be heard on the matter to appear before the Commissioners on Thursday, September 15, at 3 P. M., and there express their views and

Whereas, Certain parties favoring and opposing the bridge did appear on that day, and were afforded a full hearing, and

Whereas, The conclusions of the Commissioners, after a careful weighing of the evidence for and against, are that the erection of the bridge asked for would seriously interfere with the navigation of the river by preventing small boats from ascending it above this point, and that it would be of no benefit to the general public, and would, particularly on Sundays, conduce to disturb the peace and quiet of the neighborhood, and

Whereas, It appears that the motive for placing the bridge is mostly a private one, the parties asking for it having houses of refreshments at both ends, where spirits and other beverages are sold to numbers of men and boys who frequent the base-ball grounds on the other side, and

Whereas, An earnest protest has been made against the erection of said bridge by many property-owners and reputable residents of the neighborhood ; now be it

Resolved, That the application be denied, and the Dock Master of the district be directed not to place the bridge to be placed thereat, at the point named in the application, nor at any other, without express authority from this Board.

Commissioner Matthews offered the following resolution, which was adopted :

Resolved, That permission be and hereby is granted to Ketterer & Hayes to use and occupy, according to the will of the Board, a berth for coal barge on the north side of Pier foot of West Thirteenth Street, North river (recently vacated by A. C. Cheney), for the purpose of unloading coal, at the rate of \$18 per week, payable at the end of each week to the Dock Master of the District, commencing September 19, 1887.

On motion, Nelson Parker was relieved from duty as Temporary Watchman, to take effect October 1, 1887.

Nelson Parker was appointed Laborer, to take effect on and after October 1, 1887.

On motion, Henry Crum, Richard O'Brien and Thomas Redman were appointed Dock Builders ; Thomas Higgins, Caulker, and Matthew Drum, Ship Carpenter.

On motion,

The Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held September 22, 1887.

Present—Commissioners Matthews and Marshall.

Absent—The President, Commissioner Stark.

On motion, Commissioner Marshall was elected President pro tem.

The minutes of the meeting held September 16, 1887, approved.

The opinion of the Counsel to the Corporation respecting the repairing of Pier 40, East river, was referred to Executive Session.

A communication from Charles Martin, Captain of the tug "Manhattan," recommending George H. Coffin as deckhand and cook of the tug "Manhattan," was referred to Executive Session.

The report of the Engineer-in-Chief, reporting non-removal of piles at the foot of Ninth street, East river, was laid on the table.

The report of the Engineer-in-Chief on Secretary's Order No. 6982, respecting the application of the Manhattan Railway Company, for permission to build timber bulkhead, etc., along the front at One Hundred and Fifty-ninth street, Harlem river, was,

On motion, laid on the table.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated,

From Hon. Abram S. Hewitt, Mayor—Enclosing copy of communication from Simon S. Simon respecting the purchase of private wharf property on the North and East rivers. Referred to Commissioner Marshall.

From Civil Service Supervisory and Examining Boards—Stating that they will send eligibles for draughtsmen.

From Counsel to the Corporation—Approving contract for dredging at Pier, new 37, North river.

From Comptroller of the City—Approving the sureties of the Morris & Cumings Dock Company to the contract for removing the remains of burned Pier, new 37, North river.

From Department of Public Charities and Correction—Requesting cluster of piles at Pier Twenty-sixth street, East river. Referred to the Engineer-in-Chief to examine and report.

From John D. Crimmins—In relation to repairing bulkhead between Ninety-sixth and ninety-seventh streets, North river. Referred to the Engineer-in-Chief to examine and report.

From John J. Murphy—Requesting permit for watchman's house on the bulkhead in front of Pier, new 34, North river. The action of the Secretary in directing the Dock Master to report on the dimensions, etc., of said house was approved.

From New York, Lake Erie and Western Railroad Co. :

1st. Requesting permit for tally-house on Pier 7, East river. Permit granted, to be and remain during the will of the Board.

2d. Requesting permission to repair Pier 8, East river. Permission granted, the work to be under the direction and supervision of the Engineer-in-Chief of this Department.

From Gedney's Freight and Passenger Line—Requesting permission to cut backing-log on Pier 41, East river. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

From A. T. Wyckoff—Requesting the Department to drive six spring piles at bulkhead foot of Pier 41, East river. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

From Port Chester Transportation Company—Requesting renewal of permit for tally-house on Pier 32, East river. The action of the Secretary in directing the Dock Master to examine and report was approved.

From Quebec Steamship Company—Requesting permit for tally-house on the approach to Pier 47, North river. Permission granted, to be and remain during the will of the Board.

From Anchor Line—Requesting that a berth be retained for the "City of Rome," at Pier, new North river, on October 6, 1887. Permit granted in accordance with the usual terms and conditions.

From William D. Bruns, Jr.—Reporting wreck of canal-boat near High Bridge, Harlem river. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report, and directing the Dock Master to transmit name of the owner or consignee, was approved.

From F. W. J. Hurst, agent and attorney-in-fact of the National Line of Steamships—Notifying the Department that they desire a renewal of lease of Pier, new 39, North river, for ten years from February 1, 1888, as therein stipulated, and signifying the intention of said company to avail of the privilege of extension.

From H. S. Nichols, agent Western States Line—Requesting renewal of permit for tally-house and derrick on Pier 6, East river. The action of the Secretary in directing the Dock Master to examine and report was approved.

From Charles McManus' Sons :

1st. Requesting permit for small house on dumping-board at foot of Fourteenth street, East river. Permit granted, to be and remain during the will of the Board.

2d. Offering \$37.50 per month for use of dumping-board foot of West Forty-sixth street, North river.

From Central Gas-light Company—Requesting that the Pier at One Hundred and Thirty-eighth street, Port Morris, be set apart for their exclusive use. The Secretary directed to request William

3d. Reporting non-commencement of repairs to Pier at Sixth street, East river. The Secretary directed to notify William H. Webb that, according to the report of the Engineer-in-Chief, dated September 20, 1887, the work of repairing said pier has not been commenced.

4th. Reporting completion of dredging at Pier, new 59, North river, under Contract No. 250. Secretary directed to notify the Dock Master to collect wharfage from all vessels using said pier.

5th. Reporting non-removal of canal-boat sunk in slip at Thirty-eighth street, North river. The Secretary directed to notify E. M. Parker to remove said canal-boat within five days from date of notice or penalty will be imposed for violation of law.

6th. Report on Secretary's Order No. 6149, that no work has been done under permit granted to J. Stripp & Son, January 12, 1887, and recommending that the same be revoked.

On motion, the report was received and recommendation adopted.

7th. Report on Secretary's Order No. 5856, that no work has been done by the Lehigh Valley Railroad Company, under permit granted by the Board October 6, 1886, for extension of shed on Pier 2, East river.

On motion, the permit dated October 6, was revoked.

8th. Report on Secretary's Order No. 5776, respecting the damage done to bulkhead wall at Pier, new 60, North river.

On motion, the report was received and referred to the Treasurer with power.

9th. Report on Secretary's Order No. 5142, that Messrs. Henderson Bros., have never availed themselves of permit to transfer office from Pier, new 41 to new 43, North river, and recommending that permit be revoked.

On motion, the report was received and recommendation adopted.

10th. Report on Secretary's Order No. 6980, in reference to the applications of E. F. Studwell, William H. Gedney, Charles Holmes and A. Ferris, for permission to make gangway at Pier, new 54, East river. Permission granted in each instance, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department, provided that angle iron is used to protect the deck of pier, and five-inch plank secured by chain is used for closing gangways when not in use.

11th. Report on Secretary's Order No. 6947, repairs required to bulkhead south of West Eleventh street, North river. The Secretary directed to notify the alleged owners to repair, as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.

12th. Report on Secretary's Order No. 6972, in reference to the cleaning of the bulkhead between Pier 54 and Corlears street, East river. The President pro tem. authorized to send copy of said report to the Department of Street Cleaning.

13th. Report on Secretary's Order No. 6975, in reference to the application of Peter De Witt for permit to run a six-inch drain-pipe, from No. 379 West Eleventh street, through bulkhead foot of West Eleventh street, North river, for sewage purposes, and recommending that permit be granted.

R. Beal, President and Superintendent of said company, to advise the Board of the names of the owners of vessels who prevent their use of said pier.

From Ransom Parker, Jr.—Requesting permit for temporary platform on the bulkhead adjoining oyster scows south of Pier foot of West Eleventh street, North river. Permit granted, to be and remain during the will of the Board.

From Cornelius McMonagle—Requesting permit to retain tally-house on the approach to Pier new 42, North river. The action of the Secretary in directing the Dock Master to examine and report was approved.

From Syracuse and Oswego Line—Requesting permit for tally-house on Pier 3, East river. Referred to the Dock Master to examine and report.

From F. W. Jordan—Requesting the Department to build pier at One Hundred and Nineteenth street, Harlem river. The Secretary directed to advise that the said application will receive due consideration, and the said application was referred to the Engineer-in-Chief to examine and report.

From Henry Fischer—Advising the Board that he has sold the derrick located on the bulkhead between Sixty-first and Sixty-second streets, East river, to the Dock Protective Association. The Secretary directed to notify the said association to remove said derrick within five days from receipt of notice, or it will be removed by this Department at their cost and expense.

From Old Dominion Steamship Company and Ocean Steamship Company of Savannah—Requesting temporary berth at Pier, new 43, North river. Referred to Commissioner Marshall to reply thereto.

From United States Local Inspectors of Steam Vessels—Desiring to be informed what a map of the docks, etc., of the harbor would cost. The action of the Secretary in replying thereto was approved.

From Charles McMonagle—Requesting permit to retain tally-house on the approach to Pier, old 42, North river. Permit granted, to be and remain during the will of the Board.

From Department of Street Cleaning—In reference to filling-in behind crib-bulkhead at Seventy-eighth street, North river, and requesting the Department to place a boom thereat, to prevent the filling from floating out with the tide. Application denied.

From New York Central Lighterage Company and The Hartford and New York Transportation Company—Requesting permit for tally-houses on Piers 4 and 24, East river. The action of the Secretary in directing the Dock Master to examine and report was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending September 17, 1887.

4th. Reporting non-commencement of repairs to Pier at Sixth street, East river. The Secretary directed to notify William H. Webb that, according to the report of the Engineer-in-Chief, dated September 20, 1887, the work of repairing said pier has not been commenced.

5th. Reporting completion of dredging at Pier, new 59, North river, under Contract No. 250. Secretary directed to notify the Dock Master to collect wharfage from all vessels using said pier.

6th. Reporting non-removal of canal-boat sunk in slip at Thirty-eighth street, North river. The Secretary directed to notify E. M. Parker to remove said canal-boat within five days from date of report or penalty will be imposed for violation of law.

7th. Report on Secretary's Order No. 6149, that no work has been done under permit granted to Stripp & Son, January 12, 1887, and recommending that the same be revoked.

On motion, the report was received and recommendation adopted.

8th. Report on Secretary's Order No. 5856, that no work has been done by the Lehigh Valley Railroad Company, under permit granted by the Board October 6, 1886, for extension of shed on Pier 2, East river.

On motion, the permit dated October 6, was revoked.

9th. Report on Secretary's Order No. 5776, respecting the damage done to bulkhead wall of Pier, new 60, North river.

On motion, the report was received and referred to the Treasurer with power.

10th. Report on Secretary's Order No. 5142, that Messrs. Henderson Bros., have never availed themselves of permit to transfer office from Pier, new 41 to new 43, North river, and recommending that permit be revoked.

On motion, the report was received and recommendation adopted.

11th. Report on Secretary's Order No. 6980, in reference to the applications of E. F. Studwell, William H. Gedney, Charles Holmes and A. Ferris, for permission to make gangway at Pier, new 62, East river. Permission granted in each instance, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department, provided that angle iron is used to protect the deck of pier, and five-inch plank secured by chain is used for closing gangways when not in use.

12th. Report on Secretary's Order No. 6947, repairs required to bulkhead south of West Eleventh street, North river. The Secretary directed to notify the alleged owners to repair, as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.

13th. Report on Secretary's Order No. 6972, in reference to the cleaning of the bulkhead between Pier 54 and Corlears street, East river. The President pro tem. authorized to send copy of said report to the Department of Street Cleaning.

14th. Report on Secretary's Order No. 6975, in reference to the application of Peter De Witt for permit to run a six-inch drain-pipe, from No. 379 West Eleventh street, through bulkhead foot of West Eleventh street, North river, for sewage purposes, and recommending that permit be granted.

On motion, permit was granted, the said work to be done under the direction and supervision of the Engineer-in-Chief, and remain during the will of the Board.

14th. Report on Secretary's Order No. 6977, repairs required deck of Pier, old 42, North river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$145.

16th. Report on Secretary's Order No. 6960, submitting the desired information in relation to Piers 2 and 4 East river, together with a copy of the same for such use as the Board may have for the extra copy.

16th. Report on Secretary's Orders Nos. 6937 and 6938, respecting the application of the United States Illuminating Company for permission to dredge and requesting dredging at bulkhead at and south of Twenty-ninth street, East river. The Engineer-in-Chief directed to make requisition for dredging in front of the bulkhead at the foot of said street to the extent of about 2,000 cubic yards to obtain a depth of ten feet at mean low water, as recommended in his report. The Secretary directed to advise the Illuminating Company that permission is granted to dredge in front of the bulkhead south of East Twenty-ninth street, East river, to a depth of ten feet at mean low water, as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.

17th. Report on Secretary's Order No. 3415, that he had superintended erecting post and rafters on Pier 21, East river.

18th. Report on Secretary's Order No. 3426, that he had done the work of erecting Yard, etc., at Fifty-seventh street, North river.

19th. Report on Secretary's Order No. 4449, that he had superintended the erection of an extension on piles on the southeasterly side of Pier, old 33, North river.

20th. Report on Secretary's Order No. 6137, that he had supervised dredging in slip between Piers 3 and 4, East River.

21st. Report on Secretary's Order No. 6278, that he had made requisition for dredging in front of bulkhead between Seventy-eighth and Seventy-ninth streets, North river, and supervised the work thereat, which was done by the Union Dredging Company.

22d. Report on Secretary's Orders Nos. 6525 and 6752, that he had directed and superintended driving piles, etc., at Pier, old 20, and bulkhead between Piers, old 20 and 21, North river.

23d. Report on Secretary's Orders Nos. 6755, 6780, 6885 and 6943, that he had made requisition for dredging in front of bulkhead for one hundred feet south of Pier, old 35, North river; in front of bulkhead between Piers, old 57 and 58, North river, and at Pier foot of East Twenty-fifth street, East river, and supervised the work thereat, which was done by the Union Dredging Company.

24th. Report on Secretary's Order No. 6823, that he had directed and superintended repairing pavement at entrance to Pier, old 41, North river.

25th. Report on Secretary's Order No. 6847, that he had directed and superintended the replacing of half-round fenders at Pier at West Seventy-ninth street, North river.

- 26th. Report on Secretary's Order No. 6390, that he had supervised dredging at dumping-places at Twenty-ninth and Forty-ninth streets, East river.
- 27th. Report on Secretary's Order No. 6007, that he had superintended piercing bulkhead at West street, East river, in order to extend sewer to end of pier thereat.
- 28th. Report on Secretary's Order No. 6978, that he had repaired sheathing on deck of Pier at 45th street, North river.
- 29th. Report on Secretary's Order No. 6930, that he had superintended repairing backing-log at end of Pier 11, East river.
- 30th. Report on Secretary's Order No. 6905, that he had repaired Pier 37, East river.
- 31st. Report on Secretary's Orders Nos. 6830 and 6867, that he had superintended erecting building within Department Yard, foot of Seventeenth street, East river, for use of the Department of Public Works.
- 32d. Report on Secretary's Order No. 6961 and 6962, that he had repaired Piers 60 and 61, East river.

From Edward Abeel, Dock Master—In reference to the application of Harry Hill for berth at Pier, new 32, East river.

From P. Curley, Dock Master :

1st. Reporting that there are no obstructions on the bulkhead between Piers, new 35 and 43, North river, and nothing that will prevent the Department of Street Cleaning from cleaning thereat. The Secretary directed to send copy of said report to the Commissioner of Street Cleaning.

2d. Reporting on the applications of the Quebec Steamship Company and Cornelius McMonagle for permission to retain tally-houses on the approach to Piers, old 42 and new 47, North river, giving dimensions.

On motion, the said permits were granted, to be and remain during the will of the Board.

From John Callon, Dock Master :

1st. Recommending that the rent charged Edward McGrath for use of float at One Hundred and Twenty-fifth street, Harlem river, be reduced one-half. Referred to the Treasurer.

2d. Reporting wreck of vessel at High Bridge, Harlem river.

From Patrick J. Brady and Joseph B. Erwin, Dock Masters—Reporting that Pier, new 59, foot of West Twenty-ninth street and Pier at Fifty-fifth street, North river, require cleaning. The action of Commissioner Marshall in requesting the Department of Street Cleaning to clean said piers was approved.

From Charles Hutchinson, Dock Master :

1st. Reporting stone on bulkhead north of Seventy-ninth street, North river, and dirt on Pier at 50th street. *The action of Commissioner Marshall in requesting the Department of Street Cleaning to clean was approved.*

2d, Reporting fender adrift on south side of pier. The action of Commissioner Marshall in directing the Engineer-in-Chief to repair, if necessary, was approved,

3d. Reporting that there is a hut at the foot of Ninety-sixth street, North river, which interferes with the discharge of vessels. The Secretary directed to notify the owner of said house to show cause why the same should not be removed before October 1, 1887.

4th. Reporting hole in sheathing, Pier foot of Ninety-sixth street, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

From George A. Dearborn, Dock Master—Reporting that he had served notice on Henry Fischer to remove derrick on bulkhead between Sixty-first and Sixty-second streets, East river.

A communication from the Engineer-in-Chief, reporting the insufficiency of repairs to the Pier Third street, East river, was,

On motion, ordered to be placed on file, and the following preambles and resolution were adopted :

Whereas, The Ridgewood Ice Company, lessee, has been duly ordered, notified and required to make the necessary repairs to Pier at Third street, East river, as recommended by the Engineer-in-Chief of this Department, and

Whereas, The said Ridgewood Ice Company have failed and neglected to do said work and make such repairs as so ordered and required, and to the satisfaction of the Engineer-in-Chief of this Department ; and

Whereas, The lease under which the said Ridgewood Ice Company holds and uses the said pier, provides, among other things, that the said Ridgewood Ice Company will, at all times during the term of the lease, put, keep and maintain the said wharf property and every part thereof, and the structures thereon, in good and sufficient repair and condition ; and

Whereas, The said lease also provides that, in case the said Ridgewood Ice Company shall neglect or refuse to make repairs as therein stated, the said lease shall become null and void, or the Department of Docks may, at its option, make such repairs at the cost and expense of said lessee : now, therefore, be it

Resolved, That the Ridgewood Ice Company be and are hereby ordered, notified and required to be and appear before the Board of the Commissioners of Docks, at a meeting thereof, to be held in the Board Room of this Department, at Pier "A," Battery place, on Thursday, September 24, 1887, at 12 o'clock M. of that day, and show cause why such repairing has not been done, and why the lease should not be canceled and annulled for failure and neglect to comply with the order and direction of this Department, and for failure to comply with the conditions and provisions of said lease, and why this Department should not be entitled to such further or other relief in the premises as may be proper.

The report from the Engineer-in-Chief on Secretary's Order No. 6995, stating that in accordance with the order and the resolution of the Board, passed on the 22d July, 1887, he had prepared a map and plan for an exterior street of one hundred and fifty feet in width extending along the

ly shore of the East river in the City of New York, from the centre line of East Sixty-fourth street, as such line is and would be if extended eastwardly into the East river, to the northerly line of East Eighty-sixth street, as such line is and would be if extended eastwardly into the East river, in accordance with the provisions of chapter 697 of the Laws of 1887, passed 25th June, 1887, and received, and.

On motion, it was

Resolved, That the said plan be and hereby is approved by this Board, and that it be and is determined upon as the plan for an exterior street as required by chapter 697 of the Laws of 1887.

The following resolutions were,

On motion, adopted.

Resolved, That permission be and is hereby granted to Thomas Scully to use and occupy the dump on the northerly side of Pier at the foot of Forty-seventh street, North river, at a compensation of one dollar and a half per day, the same to be paid weekly to the Dock Master of the district ; said permission to commence Monday, September 26, 1887, and to continue during the will and pleasure of the Board.

Resolved, That permission be and hereby is granted to Michael McGirr to use and occupy the dump on the northerly side of Pier at the foot of Forty-seventh street, North river, at a compensation of one dollar and a half per day, the same to be paid weekly to the Dock Master of the district ; said permission to commence Monday, September 26, 1887, and to continue during the will and pleasure of the Board.

Resolved, That permission be and hereby is granted to M. Carroll, representing the estate of Edward Teague, to use and occupy the dump on the southerly side of Pier at the foot of Forty-second street, North River, at a compensation of two dollars per day, the same to be paid weekly to the Dock Master of the district ; said permission to commence Monday, September 26, 1887, and to continue during the will and pleasure of the Board.

The Treasurer, Commissioner Matthews, submitted the monthly account current for the month of August, 1887.

On motion, the President pro tem. was authorized to transmit same to the Comptroller of the City.

The Secretary reported that the right to collect all the wharfage accruing at the easterly half of Pier 51 and the westerly half of Pier 52, and the small pier between, sometimes called Pier 51½, and the bulkhead situated between Pier 51 and the small pier, and between the small pier and Pier 2, East river, had been sold by Van Taseell & Kearney, auctioneers, in accordance with the terms and conditions stated at the public sale held September 20, 1887, at Pier "A," Battery, North river, New York, New Haven and Hartford Railroad Company for and during the term of ten years, on May 1, 1888, for the sum of \$8,000 per annum ; upset price, \$8,000.

The following resolution was,

On motion, adopted :

Resolved, That the right to collect all wharfage which may accrue for the use and occupancy by vessels of more than five tons burthen at the said premises be and hereby is approved and confirmed, and the officers of this Board be and hereby are authorized and empowered to execute necessary lease therefor, as prepared and in the form approved by the Counsel to the Corporation

The Treasurer, Commissioner Matthews, presented his report of receipts for the week ending September 20, 1887, amounting to \$3,660.31, which was received and ordered to be spread in on the minutes as follows :

CHARLES H. MARSHALL, } Auditing Committee.

On motion, the President pro tem. was authorized to transmit said bills, together with proper requisitions for the amounts, to the Finance Department for payment.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive session of the Board of Docks, held September 23, 1887.

Present—Commissioners Matthews and Marshall.

Absent—Commissioner Stark.

On motion, Commissioner Marshall was elected President pro tem.

The minutes of the meeting held September 22, 1887, were read and approved.

A communication from the Counsel to the Corporation, enclosing copy of a letter sent to the Comptroller on August 16, relating to the subject of the proposed improvement of the Harlem river at One Hundred and Fifty-ninth street, was,

On motion, laid on the table.

The opinion of the Counsel to the Corporation in relation to the repairs ordered to Pier 2, East river, occupied by the New York and South Brooklyn Steam Ferry and Transportation Company, was,

On motion, laid on the table.

On motion, George H. Coffin, Jr., was appointed Deckhand, and Matthew Coghlan Stonecutter.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held September 30, 1887.

Present—Commissioners Stark and Matthews.

Absent—Commissioner Marshall.

The minutes of the regular and executive meetings, held September 23, 1887, were read and approved.

The following communications were received, read, and,

On motion, referred to Executive Session.

From Civil Service Supervisory and Examining Boards :

- 1st. Transmitting eligible list of Draughtsmen.
- 2d. Transmitting eligible list of Inspectors of Dumping of Dredged material.
- 3d. Transmitting eligible list of Steam Engineers.

From Hon. Abram S. Hewitt, Mayor—Enclosing copy of communication received from Frank [illegible], lessee of Pier 40, East river, in reference to the condition of and repairs required to said pier. Referred to Commissioner Marshall.

From Engineer-in-Chief :

- 1st. Respecting the qualification of the Draughtsmen and Steam Engineers submitted by the Civil Service Supervisory and Examining Boards.
- 2d. Reporting inattention of Marcus Cane, Janitor, at West Fifty-seventh Street Yard.
- 3d. Report on Secretary's Order No. 6983, in reference to the communication from the Standard [illegible] Light Company, giving reasons for the adoption of the original plans submitted for the erection of coal-pocket at East Fifty-sixth street, East river.
- 4th. Report on Secretary's Order No. 6984, respecting the application of Tinsley Brothers for permission to erect a steam-derrick on the Pier foot of East One Hundred and Twenty-second street, East river.
- 5th. Reporting non-commencement of dredging at various places.

From William H. Webb—In relation to the repairing of Pier at Sixth street, East river.

The communication from the Engineer-in-Chief, reporting the settling of the easterly side of Pier 46, East river, through the piling of lumber on the same from canal-boat "Joseph W. Duryee," owned by Roman & Co., was,

On motion, laid on the table until the Superintendent of Repairs reports thereon.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Civil Service Supervisory and Examining Board—Stating they will submit eligible list of Steam Engineers.

From Baltimore & Ohio Railroad Co.—Requesting permit to place two portable tally-houses on the northern extension of Pier 27, East river. Referred to the President with power.

From Department of Street Cleaning—Requesting dredging in slip foot of Canal street, North river. Referred to the Engineer-in-Chief to examine and report.

From Comptroller of the City—Approving sureties of the Union Dredging Company to their contract for dredging at site Pier, new 37, North river.

From Greenpoint Ferry Company—Requesting that the time to remove advertising signs from the property rented from the Department be again extended for three months. Referred to Commissioner Marshall.

From David McGlynn—Requesting permit for two movable derricks foot of Thirtieth street, North river, and also requesting permission to erect mast on the various piers and bulkheads on the North river when required. Application denied.

From Henry A. Cram :

1st. Requesting permission to erect fence along the south side of One Hundred and Thirty-sixth street, from Madison avenue to the slip east thereof, one hundred and eighty-five feet on the east side of Madison avenue, from One Hundred and Thirty-fifth to One Hundred and Thirty-sixth street, and along the northerly line of One Hundred and Thirty-fifth street four hundred feet, more or less. The action of Commissioner Marshall in issuing a permit, the said fence to be erected under the direction and supervision of the Engineer-in-Chief of this Department, and remain during the will of the Board, was approved.

2d. Agreeing to the terms and conditions of said permit.

From William J. Fanning, attorney New York & College Point Ferry Company—In relation to the removal of piles foot of Ninety-ninth street, East river. The action of Commissioner Marshall in directing the Engineer-in-Chief to remove said piles with the force of the Department was approved.

From Thomas M. King, Second Vice-President Baltimore & Ohio Railroad Company—Agreeing to call on the Commissioners in reference to the question of water-pipe on Pier, new 43, North river.

From Thomas McGuire—Requesting permit for Watchmen's house on bulkhead at Pier 52, East river. Permit granted, to remain during the will of the Board.

From Montauk Steamboat Co.—Requesting permit for tally-house on Pier 23, East river. The action of the Secretary, in directing the Dock Master to examine and report, was approved.

From Thomas Scully—Relating to rental for use of dumping-board at Pier foot of West Forty-seventh street, North river. Referred to Commissioner Matthews with power.

From M. Biglin—Requesting permission to erect a temporary derrick on the bulkhead between Seventy-eighth and Seventy-ninth streets, East river, one on Pier foot of Seventy-ninth street, and two on Pier foot of Eighty-sixth street, East river. Application denied ; request Mr. Biglin to call on the Commissioners.

From Charles H. Tweed, attorney Southern Pacific Co.—In relation to the rebuilding of Pier, new 37, North river, and respecting the surrendering of Pier, old 36, North river, and agreeing to surrender possession of Pier, old 36, North river, March 1, 1886.

From Ocean Steamship Company of Savannah—Agreeing to the terms for use of Pier, new 43, North river.

From Old Dominion Steamship Company—Requesting use of Pier, new 43, North river, after October 20, 1887. Request Mr. McCready to call on Commissioners.

From Rice & Bijur, attorneys, Metropolitan and East River Ferry Companies—In reference to the proper form of assent to transfer of lease, etc.

From Hoboken Land and Improvement Company—Requesting permission to drive a cluster of piles at Barclay Street Ferry premises. The Engineer-in-Chief having recommended that same be granted, permit was issued, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Goodrich, Deady & Goodrich, attorneys—Respecting damage to barge "Ben Aken" by Dredge No. 3. Referred to the Engineer-in-Chief to examine and report.

From Patrick Garvey—Requesting permit to erect and maintain a derrick on the bulkhead between Twenty-fourth and Twenty-fifth streets, North river. The action of the Secretary in directing the Dock Master to examine and report, was approved.

From Clement Gould, President Gas Engine and Power Company--Requesting permit to build platform on piles north of Morris Dock, on the easterly shore of the Harlem river, in accordance with plan submitted. Referred to the Engineer-in-Chief to examine and report.

From Ridgewood Ice Company—Requesting permission to place a wagon-top opposite the platform on Pier at Third street, East river, and permission to repair Pier at Seventy-ninth street, East river. The action of the President in issuing a permit to repair Pier at Seventy-ninth street, East river, under the direction and supervision of the Engineer-in-Chief, and directing the Dock Master to examine and report in reference to placing wagon-top on Pier at Third street, East river, was approved.

From Michael Carroll, Jr.—Requesting permit to build a tally-house on manure dump at Forty-sixth street, North river. The action of the Secretary in directing the Engineer-in-Chief to examine and report was approved.

From Edward Lasher—In reference to suspension as Engineer of the tug "Manhattan," and requesting a hearing in relation thereto.

From J. Dobbins—Renewing request for lease of Pier at One Hundred and Thirty-eighth street, Harlem river. Application denied.

From William M. Tebo—In relation to dumping of a scow load of dredged material under Contract No. 244, and requesting that the Engineer-in-Chief be instructed to make allowance for said scow load in his final estimate. The Engineer-in-Chief directed to include said scow load in the final estimate as requested.

From Mutual Benefit Ice Company—Stating that on September 29, 1887, they will vacate berth occupied by them on the south side of Pier 37, East river, and requesting permission to remove scale when the rebuilding of Pier is commenced. The Secretary directed to notify the Dock Master. Permission granted.

From New York Advertising Sign Company—In reference to removal of advertising signs from wharf property. The action of Commissioner Marshall in replying thereto was approved.

From Police Department—Reporting holes in bulkhead between Piers 16 and 17, 17 and 18, and at Pier 23, East river. The action of the President in directing the Dock Master to examine and report was approved.

From New York Steam Company—Requesting permit to dredge at Pier 23, and at bulkhead adjoining. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From F. P. Eastman—Requesting permission to continue the use of floating dumping-board south of Thirty-ninth street, East river. Permission granted, to remain during the will of the Board, at a compensation of fifty cents per day, payable weekly, when due, to the Dock Master of the District.

From James Tilley—Requesting renewal of permit for ice-bridge scales, weigh office and shelter-house on the bulkhead between Fifteenth and Sixteenth streets, North river. Permit granted, to be and remain during the will of the Board.

From Engineer-in-Chief :

- 1st. Reporting assignment of employees to special duty.
- 2d. Reporting the amount of work done during the week ending September 24, 1887.
- 3d. Reporting repairs required to Pier at Seventy-ninth street, North river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$875.
- 4th. In reference to the stone deposited on the bulkhead north of Pier at Seventy-ninth street, North river.

On motion, the report was received and recommendation adopted.

- 5th. Reporting the amount of material excavated by the Union Dredging Company with Department dredges during the month of August, 1887. The Treasurer authorized to make out bill and collect the amount from the said company.

6th. Recommending that the order to repair Pier at One Hundred and Seventeenth street, Harlem river, be revoked, that the pier be fenced off for the present, that plans and specifications be prepared for building a small pier there, fifty feet wide and one hundred and forty feet long, with a view to its extension to one hundred and seventy-five feet when the new plan determined by the Commissioners of the Sinking Fund is approved.

On motion, the order to repair was revoked. The Engineer-in-Chief directed to remove the old pier with the force of the Department, and to prepare, as soon as practicable, plans, specifications and form of contract for building a new pier thereat, fifty feet wide and one hundred and forty feet long.

- 8th. Reporting that he had directed that Laborer George Rafferty be not again assigned to duty as Acting Watchman for being found asleep while on duty, and recommending that his action be approved.

On motion, the report was received and recommendation adopted.

9th. Reporting non-commencement of repairs to the east and west half of Pier 3, East river, as ordered by the Board. Referred to Commissioner Marshall.

10th. Reporting non-removal of fence, etc., at Thirty-seventh street, East river. Referred to Commissioner Marshall.

11th. Reporting repairs required to Pier, old 25, North river. The Secretary directed to send copy of said report to J. M. Toucey, General Superintendent New York Central and Hudson River Railroad Company, and request him to make the repairs required, under the direction and supervision of the Engineer in-Chief of this Department.

12th. Reporting that Pier 10, East river, has not been repaired in a satisfactory manner, nor in accordance with the order of the Board. The Secretary directed to notify Nesmiths Sons that unless they commence to make the necessary repairs required to said Pier within ten days from receipt of notice, penalty will be imposed for their failure to comply with the order of the Board.

13th. Report on Secretary's Order No. 5804, that he had superintended the dredging in front area at West Fourteenth Street Ferry, North river, and recommending that the depth obtained be accepted as sufficient, it being all that can practically be excavated, and it being a substantial compliance with the requirements of the Board.

On motion, the report was received and recommendation adopted.

14th. Report on Secretary's Order No. 6856, in reference to the application of the Department of Public Charities and Correction for a suitable landing-place at Seventy-sixth street, East river. The Engineer-in-Chief directed to place an additional landing place for the use of said Department, near the foot of East Seventy-seventh street, as recommended in his report, at a cost of about \$25.

15th. Report on Secretary's Order No. 7003, in reference to the application of the Department of Public Charities and Correction for two clumps of piles at Pier foot of Twenty-sixth street, East river. The action of the President in directing the Engineer-in-Chief to place piles thereat, as recommended in his report, at a cost of about \$200, was approved.

16th. Report on Secretary's Order No. 6968, submitting report of cement tested for Franklin B. Brown. The Secretary directed to send him copy of said report.

17th. Report on Secretary's Order No. 4219, that he had directed and superintended dredging at ferry slips between Piers 15 and 16, East river.

18th. Report on Secretary's Order No. 6896, that he had supervised dredging at south side of Pier, old 36, North river.

19th. Report on Secretary's Order No. 6941, that he had repaired east half, and superintended repairing west half, of Pier 58, East river.

20th. Report on Secretary's Order No. 6929, that he had directed and superintended the repairing of bulkhead between Piers 10 and 11, East river.

21st. Report on Secretary's Order No. 6973, that the pile-driving hammer loaned to John Williams had been returned on September 13th instant.

From Engineer-in-Chief :

1st. Respecting the ownership of Pier 4, East river.

2d. Reporting inattention of Marcus Canē, Janitor, West Fifty-seventh Street Yard.

On motion, Marcus Cane was suspended without pay until otherwise ordered by the Board.

3d. Report on Secretary's Order No. 6993, in reference to the application of A. T. Wyckoff for Department to drive six spring piles in front of bulkhead foot of Thirtieth street, East river.

On motion, the said application was denied.

4th. Report on Secretary's Order No. 6983, respecting the communication received from the Standard Gas-light Company, as to the adoption of the original plans submitted for the erection of a coal pocket at Fifty-sixth street, East river. Referred to Commissioners Matthews and Marshall to prepare permit and agreement.

5th. Report on Secretary's Order No. 6984 in reference to the application of Tinsley Bros. for permission to erect a steam derrick on the bulkhead between East One Hundred and Twenty-second and One Hundred and Twenty-third streets, Harlem river, for the purpose of hoisting coal. Permission granted, provided that the structure recently erected thereat is strengthened to the satisfaction of the Engineer-in-Chief of this Department, and the engine and boiler located under his direction and supervision.

From Edward Abeel, Dock Master—Report on application of Montauk Steamboat Company for tally-house on Pier 23, East river. Permit granted, to be and remain during the will of the Board.

From George A. Dearborn, Dock Master—In reference to the application of M. Biglin for permission to erect temporary derricks at Seventy-eighth, Seventy-ninth and Eighty-sixth streets, East river. Referred to the President with power.

From C. H. Pendergast, Dock Master—Reporting hole in deck, south side, Pier 62, East river. Referred to the Engineer-in-Chief to examine and report.

The communications from the Civil Service Supervisory and Examining Boards, submitting eligible list of Draughtsmen and Inspectors of Dumping of Dredged Material, were,

On motion, ordered to be placed on file, and the following resolutions were adopted :

Resolved, That William S. White be and hereby is appointed Draughtsman in the service of this Department, with compensation of \$100 per month, to take effect this date.

Resolved, That Joseph Ross be and hereby is appointed Inspector of Dumping of Dredged Material in the service of this Department, with compensation of \$15 per week, while employed.

The Treasurer, Commissioner Matthews, reported that he had received from George S. Schultz \$10 in settlement of claim for damage to spring piles at bulkhead wall north of Pier, new 60, north of Thirtieth street, North river.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

On motion, adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks held October 1, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held September 30, 1887, were read and approved.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Hon. Abram S. Hewitt, Mayor—In reference to communication received from Frank Phelps, lessee, respecting repairs required to Pier 40, East river. Referred to Commissioner Marshall.

From Ostrom & Morris—Requesting renewal of permit for two portable engines on Pier 19, East river. Permit granted to remain during the will of the Board.

From Civil Service Supervisory and Examining Boards—Transmitting copy of resolution adopted September 21, 1887; which was,

On motion, ordered to be spread in full on the minutes, as follows :

CITY OF NEW YORK,
CIVIL SERVICE SUPERVISORY AND EXAMINING BOARDS, {
SECRETARY'S OFFICE, ROOM 11, CITY HALL,
NEW YORK, September 30, 1887. }

Hon. L. J. N STARK, President Dock Department :

SIR—I have the honor to inform you that at a meeting of the Supervisory Board, held September 21, 1887, the following resolution was adopted, and, on September 30, 1887, was approved by the Mayor, and is therefore in force :

Resolved, That this Board recommend to the Mayor that journeymen machinists be exempt from examination and be included in Schedule "G."

Very respectfully,

LEE PHILLIPS, Secretary and Executive Officer.

From Counsel to the Corporation :

1st. Opinion respecting the liability of owners to repair private property. The Secretary directed to have the same recorded in the Book of Opinions.

2d. Approving contract for building wooden platform, etc., north of Storehouse Pier, Blackwell's Island, East river.

From Board of Aldermen—Enclosing copy of resolution adopted October 4th instant, requesting the Department to build a pier at the foot of One Hundred and Nineteenth street, Harlem river. Referred to the Engineer-in-Chief to examine and report.

From Hon. Abram S. Hewitt, Mayor—In relation to complaint of Frank Phelps respecting the repairing of Pier 40, East river.

From Comptroller of the City—Requesting Commissioners to attend a meeting of the Commissioners of the Sinking Fund, at the Mayor's office, on Friday, 7th instant, at 2 o'clock P.M.

From Old Dominion Steamship Company—Accepting the terms and conditions of permit for temporary use of Pier, new 43, North river.

From Maine Steamship Company—Requesting renewal of permit for portable engine and tally-house on Pier 38, East river. Permit granted; to be and remain during the will of the Board.

From B. J. Hall—Requesting permit to maintain a hoisting engine on Piers 16 and 17, East river. Permit granted; to be and remain during the will of the Board.

From Thomas J. White—Requesting permit to erect temporary office on Pier foot of Thirty-eighth street, North river. Permit granted; to be and remain during the will of the Board.

From District Attorney's Office—Transmitting copy of report and resolution adopted by the Jury in reference to sewer at One Hundred and Tenth street, Harlem river. The Secretary directed to advise that the Department will investigate and try and remedy the evil complained of.

From Glasco Ice Company—Requesting permit for ice bridge, scales and office at bulkhead between Fourteenth and Fifteenth streets, North river. Permit granted ; to be and remain during the will of the Board.

From Charles Van Riper—Requesting permit to drive piles and locate boat-house and float on Harlem river, between One Hundred and Thirty-eighth and One Hundred and Forty-fourth streets, as per diagram submitted. The action of the President in issuing a permit, the said piles, boat-house and float to be and remain during the will of the Board, was approved.

From William Barrett—Requesting renewal of permit for derrick on Pier foot of Market street, East river. The action of the President in issuing a permit, to be and remain during the will of the Board, was approved.

From M. Goodwin, lessee—Requesting permit to replace piles at dumping-board foot of Forty-ninth street, East river. The action of the President in issuing a permit, the work to be done within existing lines and under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Thomas Smith & Co.—Requesting the privilege of filling-in at the foot of Laight street, between Piers, new 25 and 26, North river. Referred to the Treasurer with power.

From property-owners and residents of West Fifty-first street, North river—Protesting against the Pier at foot of West Fifty-first street being used for the benefit of cellar diggers. Referred to the President. The Secretary directed to advise that the Department will give the matter their attention.

From Dock Protective Association—Reporting that the bulkhead between Sixtieth and Sixty-first streets, East river, is obstructed with sand, etc. Referred to the Engineer-in-Chief to examine and report.

From L. & J. Brandt—Requesting permit to run an eight-inch drain pipe through bulkhead at Eighty-fourth street, East river. Permission granted, the said pipe to be and remain during the will of the Board and to be placed thereat under the direction and supervision of the Engineer-in-Chief of this Department.

From Engineer-in-Chief :

- 1st. Reporting assignment of employees to special duty.
- 2d. Reporting the amount of work done during the week ending October 1, 1887.
- 3d. Reporting repairs required to the bulkhead, between Seventy-ninth and Eightieth streets, East river. The Secretary directed to notify the alleged owner or owners to repair as recommended, *and under the direction and supervision of the Engineer-in-Chief of this Department, or the said premises will be fenced off from public use, and penalty for violation of law will be imposed.*

4th. Frank P. Rush, Clerk—Requesting to be excused for absence from duty on October 1st instant. Leave of absence granted without pay.

5th. Reporting that the bulkhead, between Piers 12 and 13, East river, require cleaning and leveling off. The action of the President in requesting the Department of Street Cleaning to clean was approved.

6th. Reporting completion of dredging from West Thirteenth to West Twenty-second street, North river, and at West Fifty-seventh street, North river, under Contract No. 238.

7th. Reporting that the required dredging has not been done north of East Fifty-fourth street, East river. The Secretary directed to send Mr. Guggenheimer a copy of the Engineer-in-Chief's report, and advise that the penalty for failure to dredge thereat imposed by the Board on September 12, 1887, is still in force.

8th. Report on Secretary's Order No. 7025, in reference to the claim of the owners of barge "Ben Aken," for damage done by Dredge No. 3. The Secretary directed to send the owners of the barge copy of Engineer-in-Chief's report.

9th. Report on Secretary's Order No. 7018, condition of and repairs required to the bulkhead between Piers 17 and 18, East river. The action of the President in notifying S. A. Frost, agent of the alleged owner or owners, to make the repairs required, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

10th. Report on Secretary's Order No. 7026, respecting the application of Charles Gould, President Gas Engine and Power Company, for permission to build a bulkhead platform adjoining Morris Dock, Harlem river. Permission granted, the structures to be built upon detailed plans and specifications, to be first submitted to and approved by the Board, and under the direction and supervision of the Engineer-in-Chief of this Department.

11th. Report on Secretary's Order No. 6945, repairs required to Pier foot of Twenty-eighth street, East river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost not to exceed \$225.

12th. Report on Secretary's Order No. 6442, in reference to the scows sunk in the vicinity and opposite the crib-bulkhead of J. J. Astor, on Cromwell's Creek.

13th. Report on Secretary's Order No. 6986, in reference to the use of platform occupied by Hencken & Co., at the bulkhead foot of Ninety-fourth street, East river. Referred to Commissioner Marshall with power.

14th. Report on Secretary's Order No. 6934, that he had superintended dredging at dumping-board south of Fourteenth street, East river.

15th. Report on Secretary's Order No. 6763, reference to Pier at One Hundred and Seventeenth street, Harlem river.

16th. Report on Secretary's Order No. 6798, that he had refastened fender piles at Pier, new 43, North river.

- 17th. Report on Secretary's Order No. 6886, that he had repaired Pier at Twenty-sixth street, East river.
- 18th. Report on Secretary's Order No. 6967, that he had directed and superintended repairing of roadway at entrance to Pier, old 23, North river.
- 19th. Report on Secretary's Order No. 6998, that he had directed and superintended repairing road south of Pier at West Eleventh street, North river.
- 20th. Report on Secretary's Order No. 7002, that he had directed and superintended running pipe through bulkhead near the foot of West Eleventh street, North river.
- 21st. Report on Secretary's Order No. 7010, that he had refastened oak piles on the lower end of Pier 46, East river.
- 22d. Report on Secretary's Orders Nos. 7011 and 7017, that the hole in bulkhead at Pier 23, North river, was repaired by the Department of Public Works.
- 23d. Report on Secretary's Order No. 6008, that he had superintended piercing bulkhead at Pier 23, North river, in order to extend sewer to end of pier.
- 24th. Report on Secretary's Order No. 6256, that he had directed and superintended repairing of Pier, old 33, North river.
- 25th. Report on Secretary's Order No. 6956, that he had made the required repairs to dump at Twenty-second street, East river.
- 26th. Report on Secretary's Order No. 7016, that he had repaired Pier foot of East Twenty-fourth street, East river.

From C. H. Pendergast, Dock Master—Approving application of the Ridgewood Ice Company for permission to leave a wagon-top opposite the platform on Pier foot of Third street, East river. Permit granted; to be and remain during the will of the Board, provided that proper planking is placed upon said pier to protect the surface of the pier from injury consequent upon the travel of the horse.

From P. J. Brady, Dock Master—Reporting favorably on the application of Patrick Garvey for permission to erect and maintain one stationary derrick and one on wheels on the bulkhead between Twenty-fourth and Twenty-fifth streets, North river. Permit granted; the said derricks to be and remain during the will of the Board.

From P. Curley, Dock Master :

1st. Reporting that the water leader on the south side, lower end of Pier, new 46, North river, is missing. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

2d. Report that the house John J. Murphy desires to retain on the inner edge of new-made land in front of Pier, new 34, North river, is five by six feet. Permit granted; to be and remain during the will of the Board.

From J. B. Erwin, Dock Master :

1st. Reporting that the Pier foot of Fifty-fifth street, North river, needs cleaning. The action of the President in requesting the Department of Street Cleaning to clean, was approved.

2d. Reporting favorably on the application of Michael Carroll, Jr., for tally-house at Pier foot of Forty-sixth street, North river. Permit granted ; to be and remain during the will of the Board.

3d. Reporting that McManus' Sons are loading scows with earth at Pier foot of Fifty-first street, North river.

From Charles B. Husted, Dock Master :

1st. Reporting that fenders need repairing on north side of Pier foot of Jane street and holes in flooring of Pier at Eighteenth street, North river. The action of the President in directing the Engineer-in-Chief to repair was approved.

2d. Reporting that the northwest corner of Pier at Little West Twelfth street requires repairs, and a new string-piece is required on north side of Pier foot of Thirteenth street, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

3d. Reporting that the Piers foot of Bogart and Little West Twelfth streets, North river, require cleaning. The action of the President in requesting the Department of Street Cleaning to clean was approved.

From John Callan, Dock Master—Reporting that he had stopped the New York, New Haven and Hartford Railroad Company from filling in the water front on the Westchester side of the Harlem river and Bronx Kills, between Lincoln avenue and Mill brook.

From George A. Dearborn, Dock Master—Reporting that M. Biglin has erected a temporary derrick at the foot of Seventy-eighth street, East river, without a permit. The Secretary directed to notify the Dock Master to remove the said derrick forthwith.

From Charles H. Thompson, Dock Master—Reporting piles loose on both corners of Pier 12, East river. The Secretary directed to notify the Engineer-in-Chief to refasten piles on the portion of said pier belonging to the city, and notify David Whipple, agent of the alleged owners, to refasten the piles on their portion of said pier, under the direction and supervision of the Engineer-in-Chief of this Department.

The action of Commissioners Stark and Matthews in directing the Engineer-in-Chief to resheath the city's half of Pier, old 34, North river, in conjunction with the West Shore Railroad Company, who are to sheath their half of the said pier at the same time, at a cost not to exceed \$950, and report the cost of the same as soon as completed, in order that one-half of said cost may be collected from the lessees, was approved.

Commissioner Matthews reported that he had agreed with Edward McGrath to accept \$25 for use of float on the Harlem river, at the foot of One Hundred and Twenty-fifth street.

On motion, his action was approved.

The President, to whom was referred with power the application of M. Biglin for permission to place one temporary derrick on the bulkhead between Seventy-eighth and Seventy-ninth streets, on the Pier foot of Seventy-ninth street, and two on the Pier foot of Eighty-sixth street, East river, stated that he had granted a permit to place one derrick on the Pier foot of Seventy-ninth street, and two on the Pier foot of Eighty-sixth street, East river, under the direction and supervision of the Master of the district.

On motion, his action was approved.

A communication from the Counsel to the Corporation respecting the occupation of land under water between Sixth and Thirteenth streets, East river, was,

On motion, ordered to be placed on file, and the following preamble and resolutions were adopted :

Whereas, At the ends of the following streets on the East river, namely : Sixth street, Seventh street, Eighth street, Ninth street, Eleventh street and Thirteenth street, or adjacent thereto and within the limit between Sixth and Thirteenth streets, various persons have erected piers, houses or other structures by which land under water and made land adjacent to the water-front, belonging to the City of New York, are now occupied and the various persons possessing the same or some of them are understood to claim the right to do so by virtue of some license permission or authority of the Board or of the Common Council or some other public authority ;

Resolved, That the several persons possessing or occupying piers or other structures at the ends of Sixth, Seventh, Eighth, Ninth, Eleventh and Thirteenth streets on the East river, or adjacent thereto and within the limit between Sixth and Thirteenth streets, or possessing or occupying land under water or made land adjacent to the water-front at the ends of the streets or within the limit aforesaid belonging to the City of New York, be and they are hereby required to vacate the same and to remove the structures erected or occupied by them ; and

Resolved, That all licenses, permissions or authorities, if any such there be, heretofore granted by this Board or the Common Council, or other public authority to possess or occupy such land or land under water, or to erect or maintain such structures be and they are hereby terminated.

Resolved, That the Secretary be directed to cause a copy of these resolutions to be served upon several persons so possessing or occupying such land or land under water, or erecting or maintaining such structures or claiming rights in connection therewith.

Commissioner Marshall offered the following preambles and resolutions, which were adopted :

Whereas, The following resolution was passed by the Board on the 27th of November, 1878:

“ Resolved, That Homer Ramsdell, occupant of Pier, old 35, North river, be and is hereby ordered that this Department will grant a lease to him for a term of ten years, of a pier to be built, wholly or in part, upon the premises now occupied by said pier, or in the near vicinity of said place, as soon as the pier shall be constructed and completed by this Department, in conformity with the plans adopted or to be adopted for the improvement of the water-front, at a yearly rent of \$1,000 ; and will agree in said lease to give to the said lessee a covenant of renewal of the lease for a further term of ten years, at an annual rent of \$30,500 ; the Department reserves the right to

rebuild the said pier and the bulkhead-wall contiguous thereto, at such time as it may, by said Department, be deemed expedient; and further, that until the Department shall take possession of the said pier for the purpose of rebuilding, he shall pay to this Department, as rent, for the use of the pier at the rate of \$15,000 per annum. It being understood that in case this Department shall build said new pier of a width of sixty feet, as at present laid down on the plans adopted, then and in such case the rent for said new pier shall be at the rate of \$25,000 instead of \$30,000 per annum, and that the rate in the privilege of renewal shall be \$25,500 instead of \$30,500; provided that he shall, within five days after the receipt of this notice, file in this office his acceptance in writing, of the terms hereof, and agree to execute a lease containing the usual covenants and conditions and in conformity with the terms herein set forth, for the pier when so rebuilt and ready for occupancy."

And whereas, A copy of the foregoing resolution was duly served upon said Homer Ramsdell, as provided for in said resolution;

And whereas, The said Homer Ramsdell did, in pursuance of said resolution, duly file in the Department his acceptance in writing of the terms and conditions of the said resolution, and by such acceptance agree to the terms, conditions and provisions of said resolution;

And whereas, This Board deems it expedient to the interests of the City that the old Pier 35, North river, should be removed, and a new pier, to be known as Pier, new 24, constructed in its stead and in place of the said old pier, in accordance with the new plans, and subject in all respects to the terms, reservations, conditions and provisions of the said resolution so adopted November 27, 1878;

Resolved, That the Engineer-in-Chief of this Department be and is hereby ordered to prepare plans and specifications for a pier to be constructed on the above premises in conformity with the new plan for the improvement of the water-front, and upon lines adopted or to be adopted, and of width as hereafter directed, and to submit the same to the Board for its approval, and that Homer Ramsdell, lessee of Pier, old 35, North river, be notified and directed to quit and surrender the use and occupancy of said pier on or before December 1, 1887, in accordance with the terms and conditions of the resolution of November 27, 1878, aforesaid.

Resolved, That this Board deems it advisable to make alterations in the length and location of the new pier located near the foot of Franklin street, North river, to be known as Pier, new No. 24, North river, from the length and location therefor as laid down on the plans adopted by this Board April 13, 1871, and to that end do hereby fix and establish, subject to the approval of the Commissioners of the Sinking Fund, as provided by law, the length and location of the aforesaid pier as follows:

The width of the pier to remain 60 feet, as shown on the plans aforesaid, its length to be 560 feet instead of 570 feet as shown on the plans aforesaid, and the northerly line of the pier to be 160 feet distant, measuring along the established bulkhead line, from the southerly line of Pier, new No. 25, North river, as the same was fixed and established March 5, 1881, instead of 228 feet 4 inches, as it would be by the plans aforesaid, the axis of the pier to extend at an angle of 89° 6" with the established bulkhead line, said angle being measured on the northerly side of the pier; all as shown on plans submitted by the Engineer-in-Chief and hereby approved by the Board.

The following resolution was unanimously adopted by the votes of Commissioners Stark, News and Marshall :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the construction of sufficient concrete base blocks for the bulkhead or river-wall between the south end of the Moore Street Section, which is at a point about equally distant from Franklin and North streets, and a point about seventy-five feet northerly of Harrison street ; also, that he be and hereby is directed to proceed with the construction of about two hundred and fifty-three feet of said bulkhead wall, upon the same general plan as that for the Beach Street Section, and of a pier to be known as Pier, new No. 24, North river, and that all work hereby ordered be performed otherwise than by contract, as required by section 714 of the Consolidation act, and that it be done by the force of the Department, by day's work, except so much of the labor as is now or may hereafter be contracted for, and that all the material and dredging necessary for the above-mentioned work of the wall and pier not heretofore contracted for, or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans and specifications for building Pier, New No. 24, North river, sixty feet wide by five hundred and sixty-six feet long.

The following preamble and resolution were,

On motion, adopted :

Whereas, It appears by satisfactory evidence obtained from responsible parties, and which is now on file in this Department, that Pier No. 15, East river, has been used for the business of steam transportation between this State and other States of the United States for a period of ten years prior to the year 1875, and has not been used by vessels engaged in the foreign trade drawing over eighteen feet of water, and

Whereas, By chapter 435 of the Laws of 1883, permission may be granted to shed piers on the East river in cases where the conditions are as above stated, and

Whereas, The consent in writing of the Union Ferry Company, lessees of the northerly or westerly side of Pier 15, East river, has been given to the shedding of said pier, and is now on file in this Department,

Resolved, That permission be and is hereby granted to William P. Clyde & Co., occupants of the southerly or westerly half of Pier 15, East river, which they have leased from certain parties claiming to have a half undivided interest in said pier, to erect and maintain a shed on said pier for the discharge and reception of merchandise in transit from and to vessels lying thereat, provided that the consent in writing of the parties (or their authorized representatives) claiming to own a half undivided interest in the premises be obtained and filed in this Department, and further provided that the shed so to be constructed and maintained, in conformity with plans and specifications to be approved by this Board, and in accordance with the requirements of the building and fire laws of the City of New York.

And provided that so much of the shed so constructed and maintained as covers the northerly one-half part of the said pier shall become the property of the City of New York upon the expiration, or sooner termination of the lease before mentioned, of the southerly side of said pier. And further provided that this resolution shall not prejudice any right, title or interest of the city to the said pier or to any structures legally erected or that may be legally erected thereon, including the said shed.

And it is also provided that the said Wilham P. Clyde & Co., shall file their written assent to all the terms and conditions of the above resolutions within twenty days from the date thereof.

The following preambles and resolution were,

On motion, adopted :

Whereas, It appears that Frank Phelps, lessee of Pier 40, East river, and of the bulkhead at inner end of said pier, and easterly of the same, under a lease from this Department, of date of April 30, 1881, was notified and directed by the Board of this Department, on the 23d of March, 1887, to make certain repairs to said pier and bulkhead as were deemed necessary by this Department to be done, said repairs to be in accordance with the report of the Engineer-in-Chief of this Department, dated March 14, 1887 ; and,

Whereas, It has been reported to the Board by the Engineer-in-Chief that up to this time the repairs of said pier and bulkhead have not been made,

Resolved, That the said Frank Phelps be and is hereby directed and ordered to immediately proceed with the work of repairing the premises above named, namely, Pier 40, East river, and the bulkhead at or near the same, in accordance with the terms and provisions of the lease referred to, and as directed on March 23, 1887, and further, that said work of repairs be done in conformity with the recommendations of the Engineer-in-Chief in his report of March 14, 1887, and under his direction and supervision.

The following resolution was,

On motion, adopted :

Resolved, That the application of Thomas Ward, of Broadway and Eighty-second street, to build a fence or coal pocket on the southerly side of Seventy-seventh street, North river, running from the easterly end of the existing bulkhead at West Seventy-seventh street and upon the filling to be made, and on the southerly line of said West Seventy-seventh street (about 100 feet long and 50 feet wide), for the purpose of laying boats alongside to discharge coal for temporary storage inside of fence, permission is hereby granted, the same to be built under the supervision of the Engineer-in-Chief, and remain only during the pleasure of the Board, at a wharfage of eighty cents per day, each and every day, Sunday included, from the date when ready for use.

treasurer, Commissioner Matthews, submitted his report of receipts for the week ending 1887, amounting to \$26,416.91, which was received, and ordered to be spread in full rates, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held October 6, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The communication from Cavanagh & Collins respecting the occupancy of platform at of One Hundred and Fifty-fifth street, Harlem river, was,

On motion, referred to the Dock Master to examine and report.

The communication from the Engineer-in-Chief reporting non-commencement of dredging at various places on the North and East rivers, was,

On motion, ordered to be placed on file, and the Secretary directed to notify the Engineer-in-Chief that the order of the Board directing Cavanagh & Collins to dredge in front of the bulkhead north of Pier, new 1, North river, and alleged owners to dredge in front of the bulkhead at Piers 47 and 48, East river, was revoked, and the order directing S. Charles Welch, alleged to dredge in front of the bulkhead north of Pier, old 34, North river, was suspended.

On motion, the Secretary was directed to notify the Dock Master to advise the Board if the River Bathing Company have their bath berthed at the bulkhead south of Pier 55, East river.

The following preamble and resolutions were,

On motion, adopted.

Whereas, On the 30th day of September, 1886, a notice dated September 24, 1886, from the Department, was duly served upon the Consolidated Gas Company, D. C. Newell and the Knickerbocker Ice Company, directing them to dredge at the bulkhead between Sixteenth and Eighteenth streets, Eighteenth and Nineteenth streets, and Nineteenth and Twenty-first streets, North river, to a depth of fifteen feet at mean low water; and, on October 23, 1886, Brown and Fleming notified to remove the stone dumped in the slip at Pier foot of Fifty-fifth street, North river;

Whereas, The said Consolidated Gas Company, Knickerbocker Ice Company, D. C. Newell and Brown & Fleming have neglected to do such dredging and removing as thereby required by this Department, although duly notified and required so to do; therefore,

Resolved, That the Consolidated Gas Company, Knickerbocker Ice Company, D. C. Newell and Brown & Fleming be and are hereby ordered, notified and required to be and appear before the Board of Commissioners of Docks, at a meeting to be held in the Board Room of this Department at No. 10, Battery place, North river, on Wednesday, October 19, 1887, and show cause why such action has not been done, and why penalty should not be imposed, as provided in section 717 of chapter 410 of the Laws of 1882, for failure and neglect to comply with the order and direction of this Department, and also show cause why this Department should not take such further or other action in the premises as may be proper.

On motion, the Secretary was directed to notify the receivers of D. G. Yuengling, Jr. at the foot of Pier at One Hundred and Twenty-ninth street, North river, to call on the Commissioners of Docks, on *Wednesday, October 19, 1887*, in reference to the dredging required thereat.

communication from the Engineer-in-Chief in relation to the improvement of the water-front, from West Fifty-fifth street, North river, was

On motion, ordered to be placed on file and the following resolution adopted :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the construction of concrete base blocks for the bulkhead or river-wall, between the southerly side of West Fifty-fifth street and the northerly side of West Fifty-fifth street ; also that he be and hereby is directed to proceed with the construction of about 1,200 feet of said bulkhead wall, upon the same general plan as that for the Beach Street Section ; and that all the work hereby ordered be performed either by contract, as provided for by section 714 of the Consolidation Act ; and that it be done at the expense of the Department, by day's work, except so much of the labor as is now or may hereafter be contracted for, and that all the material and dredging necessary for the above-mentioned wall not heretofore contracted for, or which may not hereafter be contracted for, be paid for by the Treasurer otherwise than by contract.

The communication from the Engineer-in-Chief, recommending that the Department purchase and contract a quantity of timber and hold the same in readiness to furnish and deliver to the contractors for the different piers that are now in contemplation.

On motion, the report was received and recommendation adopted.

The communications from the Engineer-in-Chief respecting the eligible list of Watchmen submitted by the Civil Service, Supervisory and Examining Boards, was,

On motion, ordered to be placed on file, and the following Watchmen were appointed :

James Boyle,	Montford Clements,
Nicholas F. Kinnally,	Hugh Byrne,
Henry Manheimer,	John McDougal,

A communication from the Engineer-in-Chief reporting that twelve additional Laborers are now engaged, was,

On motion, ordered to be placed on file, and the following Laborers were appointed :

William O'Brien	Stewart W. Russell,
Alexander McLean,	Patrick Hickey,
Bernard Igoe,	William Struve,
Jeremiah Quinn,	Thomas J. McCloskey,
James Nulty,	Patrick Coate,
Martin Burke,	James McNally.

On motion, Edward Steadman and F. S. Dunning were appointed Dock-builders.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a regular meeting of the Board of Docks, held October 13, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held October 6, 1887, were read and approved.

The Board then opened the estimates advertised to be opened this day at 12 o'clock preparing for and building a wooden platform north of the Storehouse Pier at Blackwell East river, and for removing part of said Pier.

A representative of the Comptroller was present.

Five estimates were received, as follows :

No.	FROM.	CLASS No. 1.	CLASS No. 2.	CL.
		Dredging Crib-work, per Cubic Yard.	Removing Portion of Storehouse Pier.	
1	From Moses Engle, with \$70 in money	\$1 75	\$688 00	
2	" Fearon & Jenks, with \$70 in money	1 75	500 00	
3	" John W. Flaherty, with \$70 in money.....	1 50	925 00	
4	" John D. Walsh, with \$70 in money.....	1 50	483 00	
5	" D. A. Gillies, with \$70 in money.....	1 50	357 00	

On motion, the Secretary was directed to transmit to the Comptroller the security received from said bidders and accompanying their estimates.

The following resolution was adopted :

Resolved, That the contract opened this date for preparing for and building a wooden platform north of the Storehouse Pier at Blackwell's Island, East river, and for removing part of the same and hereby is awarded to D. A. Gillies, he being the lowest bidder, upon the approval and sureties by the Comptroller of the City.

The application of Kennedy, Rienhart & Co., for reduction of rent of berth on the north pier at the foot of Fifty-first street, North river, was,

On motion, laid on the table.

The Communication from the Engineer-in-Chief, in reference to the eligible list of engineers submitted by the Civil Service Supervisory and Examining Boards, was read at the Executive Session.

The report of the Engineer-in-Chief on Secretary's Order No. 7058, in reference to the specifications submitted by Theodore F. Tone for building a bulkhead between One Hundred and Thirty-third and One Hundred and Thirty-fourth streets, North river, was,

motion, laid on the table and the Secretary directed to request Mr. Tone to call on the Commissioners, on Wednesday, October 19th instant.

The following communications were received, read, and

motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Hon. Abram S. Hewitt, Mayor.—In reference to and enclosing communication received regarding the compensation of Night Watchmen in the employ of the Department. The action of Commissioner Marshall in replying thereto was approved.

From Department of Street Cleaning :

Requesting dredging in the slip at dumping-board, foot of Canal street, North river. The Commissioner Marshall in advising that the Engineer-in-Chief has been directed to examine and report the dredging required was approved.

Requesting permit to dump ashes at the foot of Seventy-eighth street, North river. The Commissioner Marshall in stating this Department will not interpose any objection to at the said premises, provided the material is such as is described in the permit, was approved.

Stating that his Department is very much in need of the timber in the old dump at Thirty-first street, which is about to be torn down. The action of the President in directing the Engineer-in-Chief to give the Department of Street Cleaning said timber was approved.

From Counsel to the Corporation—Approving contract for building Pier, new 37, near the foot of Canal street, North river.

From O'Connell & Coffey—Requesting an extension of time for the completion of bulkhead and pier of One Hundred and Thirty-second street, North river. Referred to the Engineer-in-Chief to examine and report. The Secretary directed to notify O'Connell & Coffey to prosecute the work with as much energy as possible.

From John F. Doyle, agent of the owners of south half of Pier 15, East river—Advising that needed repairs will be made to the fender-piles on outer end of Pier 15, East river.

From Department of Public Charities and Correction—Requesting repairs to boat-landing foot of Fifty-second street, East river. Referred to Engineer-in-chief to examine and report.

From Ridgewood Ice Company—Agreeing to the terms of permit for wagon-top on Pier foot of Canal street, East river.

From Suburban Rapid Transit Company—Requesting permission to enlarge coal-bin situated east side of Second avenue, at the Harlem river, in accordance with plan submitted. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

From Theodore F. Tone—Submitting new plans and specifications for building a bulkhead on North river, between One Hundred and Thirty-third and One Hundred and Thirty-fourth streets.

The action of Commissioner Matthews in directing the Engineer-in-Chief to examine and report was approved.

From Charles Van Riper and Tinsley Bros.—Agreeing to the terms and conditions of permit issued by the Board October 4, 1887.

From New York, New Haven and Hartford Railroad Company :

1st. Requesting permit to fill in ditches across the meadow flats near Float bridge, near Willis avenue, Harlem river. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report, was approved.

2d. Requesting permit to drive piles along the racks of the bulkhead on the north side of Willis avenue, Harlem river. The action of the President in issuing a permit, the piles to be kept within existing lines, and the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From William M. Montgomery & Co.—Requesting permit to place platform-scale and tally-house near the bulkhead on the north side of the approach to Pier at foot of West Fortieth street, North river. Permit granted, provided that no cap, cross-cap or ranger is cut, the said scales to be placed thereat under the direction and supervision of the Engineer-in-Chief of this Department, and remain during the will of the Board.

From Ben Franklin Line of Barges—Requesting permit for tally-house on Pier, new 35, North river. Permit granted ; to remain during the will of the Board.

From North River Steamboat Company—Requesting permit to maintain tally-house on north side of Pier, old 34, North river. Permit granted ; to remain during the will of the Board.

From the Stephens and Condit Transportation Company—Requesting permit to retain tally-house on Pier, old 33, North river. Permit granted ; to remain during the will of the Board.

From Alex. McDonnell—Requesting permit for Derrick on Pier 3, North river. Permit granted ; to remain during the will of the Board.

From Edward M. Parker—Requesting permit to retain two derricks, coal-pockets and tramways erected on the bulkhead between Thirty-seventh and Thirty-eighth streets, North river. Permit granted ; to be and remain thereat during the will of the Board.

From Joseph Jenks & Brother—Requesting permit for tally-house on Pier, old 34, North river. Permit granted ; to remain during the will of the Board.

From C. H. Mallory & Co.—Requesting permit for three hoisting engines and two tally-houses on Pier 20, East river, and two hoisting engines and one tally-house on Pier 21, East river. Referred to the Dock Master to examine and report.

From Frank Phelps, lessee—Advising Department that he will proceed to repair Pier 40, East river.

From Fire Department—In relation to the ingress and egress of the fire-boat "Wm. F. Havemeyer" at Pier 48, East river, and as to dumping ashes thereon. The action of the Secretary in sending the Dock Master extract from said letter was approved.

From Sutton & Co.—Requesting permit for tally-house on Pier 19, East river. Permit granted ; to be and remain during the will of the Board.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending October 8, 1887.

3d. Reporting the amount of material excavated by the Union Dredging Company with Department dredges during the month of September, 1887. The Treasurer authorized to collect the amount due from the Union Dredging Company.

4th. Reporting repairs required at Offal Pier, foot Thirty-eighth street, North river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$200.

5th. Reporting that all the public baths occupying berths on the North, East and Harlem rivers are being removed for the winter and recommending that an order be issued to restore the berths occupied by said baths during the past summer to their original condition. The action of Commissioner Matthews in directing the Engineer-in-Chief to repair, as recommended in his report, was approved. The Secretary directed to notify the several Dock Masters in whose districts said baths were located to collect wharfage from all vessels using the berths heretofore occupied by the baths.

6th. Reporting the completion of dredging in half slip west of Pier 19, and slip between Piers 43 and 44, East river, under Contract No. 244.

Reporting non-commencement of repairs to the east and west half of Pier 2, East river. Referred to Commissioner Marshall.

7th. Report on Secretary's Order No. 7022, dredging required at dumping-board foot of Canal street, North river. The Engineer-in-Chief directed to make requisition for dredging thereat to the extent of about 2,000 cubic yards, to obtain a depth of fifteen feet at mean low-water, as recommended in his report.

8th. Report on Secretary's Order No. 7030, repairs required to deck of Pier 62, East river. The Secretary directed to notify C. E. Murtha, lessee of the north half and the alleged owners of the south half of said pier to repair, as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.

9th. Report on Secretary's Orders Nos. 7034 and 7035, repairs required to Piers at Little West Twelfth and Thirteenth streets, North river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$5 and \$50 respectively, was approved.

10th. Report on Secretary's Order No. 7038, repairs required to water-leader on south side, lower end of Pier, new 46, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to repair, as recommended in his report, was approved.

11th. Report on Secretary's Order No. 6933, repairs required to Pier at One Hundred and Fifty-fifth street, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$40, was approved.

12th. In relation to acquiring possession of the water-front between Barclay street and Murray street, North river. Referred to Commissioners Matthews and Marshall, to see what arrangements can be made with the Rhinelander estate, alleged owners, for the purchase of said property, and report to the Board.

13th. Report on Secretary's Order No. 7061, in reference to the application of the Suburban Rapid Transit Company for permission to alter coal-bin erected at east side of Second avenue, Harlem river. Permit granted for a temporary coal-bin as requested, the same to remain only during the pleasure of the Board.

14th. Reporting that the plans submitted by William P. Clyde & Co. for proposed iron shed on Pier 15, East river, are sufficiently strong, and the structure is to be of iron.

On motion, the plans were approved and the Secretary directed to notify William P. Clyde & Co. and the Engineer-in-Chief of the action of the Board.

15th. Report on Secretary's Orders Nos. 6581, 6648, 6699, 6779, 6683 and 6884, that he had made requisition for dredging in front of bulkhead at East Seventy-fifth street, at East One Hundred and Seventeenth street, half slip adjoining west side of Pier 25, in front of bulkhead at East Ninety-ninth street, and One Hundred and Fifty-fifth street, Harlem river, and supervised the work thereat which was done by the Union Dredging Company.

16th. Report on Secretary's Order No. 6648, that he had supervised and directed the dredging at pier, between East One Hundred and Sixteenth and One Hundred and Seventeenth streets, Harlem river.

17th. Report on Secretary's Order No. 6655, that he had repaired the west half of Pier 12, East river, and directed and superintended the repairing of the east half.

18th. Report on Secretary's Order No. 6809, that he had directed and superintended repairing Pier 10, East river.

19th. Report on Secretary's Order No. 6887, that he had repaired the Pavilion Pier at Twenty seventh street, East river.

20th. Report on Secretary's Order No. 6953, that he had directed and superintended the raising and removing of canal boat sunk in the slip on the easterly side of Pier at Thirty-eighth street, North river.

21st. Report on Secretary's Order No. 7031, that he had directed and superintended the repairing of pavement on surface of bulkhead, between Piers 17 and 18, East river.

22d. Report on Secretary's Order No. 7033, that he had directed and superintended replacing piles at the corners of dumping-board at Forty-ninth street, East river.

23d. Report on Secretary's Order No. 7037, that he had directed and superintended the strengthening of runway on Pier foot of One Hundred and Twenty-second street, Harlem river.

From George A. Dearborn, Dock Master—Reporting that the approach to bulkhead foot of Seventy-fifth street, East river, is obstructed by the contractor building sewer in said street. The President authorized to request the Commissioner of Public Works to compel the contractor to leave a roadway open in said street in order that access may be had to the bulkhead.

From Charles H. Pendergast, Dock Master—Reporting that the East River Bathing Company have removed the bath from bulkhead south of Pier 55, East river.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending October 8, 1887.

3d. Reporting the amount of material excavated by the Union Dredging Company with department dredges during the month of September, 1887. The Treasurer authorized to collect the amount due from the Union Dredging Company.

4th. Reporting repairs required at Offal Pier, foot Thirty-eighth street, North river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$200.

5th. Reporting that all the public baths occupying berths on the North, East and Harlem rivers are being removed for the winter and recommending that an order be issued to restore the berths occupied by said baths during the past summer to their original condition. The action of Commissioner Matthews in directing the Engineer-in-Chief to repair, as recommended in his report, was approved. The Secretary directed to notify the several Dock Masters in whose districts said baths were located to collect wharfage from all vessels using the berths heretofore occupied by the baths.

6th. Reporting the completion of dredging in half slip west of Pier 19, and slip between Piers 43 and 44, East river, under Contract No. 244.

Reporting non-commencement of repairs to the east and west half of Pier 2, East river. Referred to Commissioner Marshall.

7th. Report on Secretary's Order No. 7022, dredging required at dumping-board foot of Canal street, North river. The Engineer-in-Chief directed to make requisition for dredging thereat to the extent of about 2,000 cubic yards, to obtain a depth of fifteen feet at mean low-water, as recommended in his report.

8th. Report on Secretary's Order No. 7030, repairs required to deck of Pier 62, East river. The Secretary directed to notify C. E. Murtha, lessee of the north half and the alleged owners of the south half of said pier to repair, as recommended by the Engineer-in-Chief of this Department, and under his direction and supervision.

9th. Report on Secretary's Orders Nos. 7034 and 7035, repairs required to Piers at Little West Twelfth and Thirteenth streets, North river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his reports, at a cost of about \$5 and \$50 respectively, was approved.

10th. Report on Secretary's Order No. 7038, repairs required to water-leader on south side, lower end of Pier, new 46, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to repair, as recommended in his report, was approved.

11th. Report on Secretary's Order No. 6933, repairs required to Pier at One Hundred and Fifty-fifth street, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$40, was approved.

12th. In relation to acquiring possession of the water-front between Barclay street and Murray street, North river. Referred to Commissioners Matthews and Marshall, to see what arrangements can be made with the *Rhineland estate*, alleged owners, for the purchase of said property, and report to the Board.

Third avenue, Harlem river, made and prepared pursuant to the provisions of chapter 517, Laws of 1884, be and the same are hereby approved, adopted and declared to be the sole plan determined upon by the Department of Docks for the section of territory embraced therein, subject to the approval of the Commissioners of the Sinking Fund, as required by law.

Resolved, That the President be and hereby is directed to transmit the said plans to the Commissioners of the Sinking Fund, and to respectfully request their approval and adoption of the same in accordance with the requirements of chapter 517, Laws of 1884.

The Auditing Committee presented an audit of forty bills or claims amounting to \$32,457.91, which was received, and,

On motion, ordered to be spread in full on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Tre

The following preambles and resolution were,

On motion, adopted :

Whereas, By an agreement dated on the 4th day of August, 1887, this Board has Mr. C. P. Huntington, lessee of Pier, new 37, North river, to repair and rebuild the un of said Pier, new 37, North river, which has been burned ; and Mr. C. P. Huntington has rebuild and repair the superstructure of said pier which has been burned at his own expense ; and

Whereas, Mr. C. P. Huntington has requested this Board to build the whole of Pier and to make the pier eighty feet wide instead of seventy feet, as heretofore, and the substructure as well as the superstructure thereof ;

Resolved, That this Board will build the whole of the Pier, new 37, including the as well as the superstructure, said pier to be eighty feet wide and five hundred and eig

and the said C. P. Huntington will agree, in writing, to pay thirty-seven and one-half per cent of the whole cost under the contract for said pier, as the proper amount to be paid by him in full for the extra width, and in lieu of constructing, repairing and rebuilding the superstructure at his own cost and expense.

On motion, adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held October 13, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the regular meeting held this date, were read and approved.

The report of the Engineer-in-Chief on Secretary's Order No. 7027, in reference to the eligible list of Steam Engineers submitted by the Civil Service Supervisory and Examining Boards, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That Edward J. Kenney and Z. C. Smith be and they hereby are appointed Steam Engineers in the service of this Department.

A communication from the Secretary of the Civil Service Supervisory and Examining Boards dated September 30, 1887, was submitted to the Board, recommending that the Engineer-in-Chief be requested to act as expert in future examinations for appointments in the Dock Department.

On motion, it was

Resolved, That in accordance with said recommendation the Engineer in Chief be and is hereby requested to assist the Board of Examiners in such examinations as may be made in reference to the Department in which his services as an expert may be required.

The following resolution was,

On motion, adopted :

Resolved, That the Counsel to the Corporation be and is hereby requested to commence such actions or proceedings against George W. Quintard and George E. Weed, assignees and trustees of the estate of John Roach, deceased, as may be necessary and proper to protect and enforce the right, title, and interest of the City of New York, in and to all those pieces or parcels of land fronting on the East river, and lying between Eighth and Ninth streets, comprising the north half of lot 41

Eighth street, and adjoining half block of bulkhead, also Pier at Ninth street and one-half of bulkhead south thereof, and bulkhead from Ninth to Tenth streets or so much thereof as they may claim to have title to or interest in.

On motion, Patrick Monohan, Patrick Hance and Andrew Higgins were appointed Dock Builders; Joseph Thompson, James McGinley and John Cullen, Laborers.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held October 14, 1887.

Present—Commissioners Stark, Matthews and Marshall, and a representative of the Comptroller.

Six estimates were received for building Pier, new 37, near the foot of Charlton street, North river, as follows :

1. From Pacific Improvement Company with check for \$825.....	\$59,500 00
2. From William P. Kelly, \$825 in money.....	72,000 00
3. From T. and A. Walsh, \$825, check.	67,000 00
4. From I. Eugene White, \$825 in money.....	71,000 00
5. From P. Sanford Ross, \$825 check.....	64,490 00
6. From John Gillies, \$825 in money.....	63,000 00

On motion, the Secretary was directed to transmit to the Comptroller the security deposits received from said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for building Pier, new 37, near the foot of Charlton street, North river, be and hereby is awarded to the Pacific Improvement Company, they being the lowest bidders, upon the approval of the sureties by the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held October 20, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meetings held October 13 and 14, 1887, were read and approved.

A communication from George A. Dearborn, Dock Master, recommending that Henry F. be permitted to place an ordinary derrick on the bulkhead foot of East Sixtieth and East Second streets, East river, was,

On motion, laid on the table, and the Secretary directed to request the Dock Master to call on the Commissioners.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Hon. Abram S. Hewitt, Mayor—Acknowledging receipt of a copy of the Annual Report of the Department for the year ending April 30, 1887.

From Comptroller of the City—Approving sureties of Duncan Gillies and the Pacific Improvement Company.

From Owens & Co.—Requesting the Department to dredge in front of the bulkhead foot of East Forty-seventh street, East river. Referred to the Engineer-in-Chief to examine and report.

From D. Phoenix Ingraham—Protesting against the granting of a permit to the Second Avenue Railroad Company to retain a "Starter's House" on or near the dock at the end of Second avenue; and also stating that the large house and watering-trough now there is an obstruction to the free use of the only public dock on the Harlem river between One Hundred and Seventeenth street and Madison avenue. The Engineer-in-Chief directed to examine and report respecting the obstruction complained of at Second avenue, Harlem river.

From W. M. Bassett, Agent Central Vermont Railroad and Steamer Line—Requesting permission to extend shed on Pier 36, East river, about thirty feet, to correspond in length with the shed on new portion of said pier. Referred to the Engineer-in-Chief to examine and report.

From Morris & Cumings Dredging Company—Stating that they will commence dredging for the Consolidated Gas Company, foot of Nineteenth street, North river, on Wednesday, 19th instant.

From Consolidated Gas Company—Stating that the order to dredge in front of the bulkhead between Sixteenth and Eighteenth streets, North river, has been given to the Morris & Cumings Dredging Company, who have commenced the work.

From Frank R. Bonnell—Requesting permit to drive seven spring piles on south side and end of Pier 6, North river. Referred to the Engineer-in-Chief to examine and report.

From Suburban Rapid Transit Company—Accepting the terms and conditions of permit for temporary coal bin on the easterly side of the Harlem river.

From Old Dominion Steamship Company :

- 1st. Relating to occupation of Pier, new 43, North river. The President authorized to advise the company that the Dock Master has been directed to collect wharfage for the use of said pier, and including October 14th inst., in accordance with the agreement made for the use thereof.
- 2d. Requesting permit to attach water meter to the pipes at Pier, new 43, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Knickerbocker Ice Company and D. C. Newell :

- 1st. Stating that the work of dredging between Eighteenth and Nineteenth, and Nineteenth and Twentieth, and Twentieth and Twenty-first streets, North river, will receive immediate attention.
- 2d. Requesting renewal of permit for open shed, bridge and engine-house at bulkhead foot of Twentieth street, North river ; bridge, engine and scale-house foot of Forty-third street, North river ; and bridge, engine and scale-house foot of Bank street, North river. Permit granted for bridge, engine and scale-house at Bank and Forty-third streets, North river, to remain during the will of the Board. The application for bridge, engine-house and open shed at bulkhead foot of Twentieth street, North river, was referred to the Dock Master to examine and report.

From Schwarzschild & Sulzberger—Requesting permit to replace bearing piles in front of pile platform between Forty-fourth and Forty-fifth streets, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From New York, Lake Erie and Western Railroad Company—Requesting permit for the relaying of three plank walks from Ferry-house foot of Chambers street, North river, to the crosswalks on West street. The action of the President in issuing a permit, the said plank walks to be placed thereat under the direction and supervision of the Engineer-in-Chief of this Department, and remain during the will of the Board, was approved.

From William P. Clyde & Co.—Requesting permit to drive piles, etc., under Pier 34, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, and kept within existing lines, was approved.

From F. E. Bean—Requesting renewal of permit for platform, tally-house and scales on the bulkhead between Sixteenth and Seventeenth streets, North river. Permit granted, to be and remain during the will of the Board.

From C. P. Huntington, lessee—Agreeing to pay 37½ per cent. of the whole cost under the contract for rebuilding Pier, new 37, North river.

From Henry Fischer—Requesting permits for derricks at Fifty-fourth, Sixtieth and Sixty-second streets, East river. The action of the Secretary in directing the Dock Master to examine and report is approved.

From Brooklyn and New York Ferry Company—Requesting permission to dredge to make twelve to fourteen feet at mean low water for a width of seventy-five feet along the northerly or easterly side of Pier 57, East river, Broome Slip. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Chauncey M. Depew, President, etc., West Shore Railroad—Requesting a permit to lay tracks and to do the necessary work in connection with the same upon the Pier foot of Thirty-sixth street, North river, in accordance with the plans submitted. The action of the President and Commissioner Marshall in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief and remain during the will of the Board, was approved.

From Consolidated Gas Company of New York—Stating that the said company does not own or occupy north half of Pier at Eleventh street and the property between Eleventh and Twelfth streets, East river.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending October 15, 1887.

3d. Reporting that he had examined the plans submitted by the Gas Engine and Power Company for the erection of platforms, sheds, etc., near Morris Dock on the Harlem river, and find them proper and sufficient for the purpose, and recommend that they be approved.

On motion, the report was received and recommendation adopted.

4th. Reporting completion of crib-bulkhead foot of Seventy-sixth street, East river, and recommending that the time for the completion of the contract be extended to October 16th instant, inclusive, and also that the Commissioner of Public Works be requested to have the street cleared of the obstructions left there by the contractor who built the sewer, in order that a good and proper access may be made to the crib-work bulkhead.

On motion, the time for the completion of said contract was extended to October 16, 1887, as recommended by the Engineer-in-Chief, provided the written consent of the sureties is filed in this office, and the President was authorized to send to the Commissioner of Public Works a copy of the Engineer-in-Chief's report respecting the obstructions in said street and request the removal of the same.

5th. Reporting completion of Pier, new 61, North river, under Contract No. 248. The action of the President in notifying the New York Central and Hudson River Railroad Company that the said pier was completed and ready for occupation commencing October 20th instant, was approved.

6th. Reporting repairs required to Pier at Fifty-eighth street, North river. The action of the President in notifying the lessees to repair, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

7th. Reporting that he had investigated the complaints made against Watchmen John McDougal Nicholas F. Kenneally and Acting Watchman Patrick Butler, for being off post and inattention duty, and had reprimanded them and given them directions for their future guidance, and recommending that his action be approved.

On motion, the action of the Engineer-in-Chief was approved.

8th. Reporting non-commencement of repairs to the east and west half of Piers 2 and 3, East river, and the bulkhead between Ninetieth and Ninety-first streets, East river. Referred to Commissioner Marshall.

9th. Reporting non-removal of fence, etc., at Thirty-seventh street, East river. Referred to Commissioner Marshall.

10th. Reference to damage to Pier 46, East river, by the piling of lumber on same. The President authorized to notify Mr. Ronan to call on the Commissioners on or before Tuesday, 25th inst., and settle for the amount of damage done to said pier, or the claim will be sent to the Counsel of the Corporation for collection.

11th. Report on Secretary's Order No. 5923, respecting the removal of stone dumped into the slip adjoining Pier at West Fifty-fifth street, North river, from scow belonging to Brown & Manning, and stating that as near as he can ascertain there were four large stones accidentally dumped there, three of which have been removed; the fourth slipped under the dock or sunk in the mud, and was not found.

12th. Report on Secretary's Order No. 7065, repairs required to Pier at West Eleventh street, North river. The action of the President in directing the Engineer-in-Chief to repair as recommended in his report, at a cost of about \$50, was approved.

13th. Report on Secretary's Order No. 7068, in reference to the application of O'Connell & Coffey for an extension of time to complete the building of a Pier, etc., at One Hundred and Thirty-second street, North river, under Contract No. 246, and recommending that the time be extended to November 10, 1887.

On motion, the time was extended to November 10, 1887, provided the written consent of the parties is filed in this office. The President authorized to notify O'Connell & Coffey that the work must be completed by that time, as no other extension will be granted, and penalty of \$50 per day will be imposed for each and every day that the work remains incompleated after that date, as provided for in the contract.

14th. Reporting completion of repairs to bulkhead between Nineteenth and Twentieth streets, East river, and non-removal of temporary coal pocket or shute erected on bulkhead foot of Twentieth street, East river. The Secretary directed to notify H. L. Herbert & Co. to remove said temporary coal pocket or shute forthwith, under the direction and supervision of the Engineer-in-Chief, or this department will remove it at their cost and expense.

15th. Report on Secretary's Order No. 6758, that he had directed and superintended driving of piles on the upper side of bulkhead platform south of Fifty-seventh street, East river.

16th. Report on Secretary's Orders Nos. 6950 and 7063, that he had repaired Pier, new 59, North river.

17th. Report on Secretary's Order No. 6863, that he had directed and superintended the renewing of the sheathing and placing additional fenders on the south side of Pier 27, East river.

18th. Report on Secretary's Order No. 7000, that he had directed and superintended repairing Pier 8, East river.

19th. Report on Secretary's Order No. 7036, that he had repaired Pier at Eighteenth street, North river.

20th. Report on Secretary's Order No. 7039, that he had directed and superintended the refastening of fender piles on outer corners of Pier 15, East river.

21st. Report on Secretary's Order No. 7054, that he had repaired Pier at Little West Twelfth street, North river.

22d. Report on Secretary's Order No. 7062, that he had repaired the sheathing on Pier at West Fifty-first street, North river.

23d. Report on Secretary's Orders Nos. 6997 and 7001, that he had superintended and directed cutting gangways in Pier, new 32, East river.

24th. Report on Secretary's Order No. 6805, that he had repaired the buildings at Seventeenth Street Yard, East river.

The report of the Engineer-in-Chief on Secretary's Order No. 7051, submitting form of contract and specifications for about 1,500,000 feet of yellow pine timber, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the form of contract and specifications, as prepared and submitted by the Engineer-in-Chief, for furnishing and delivering to the Department about one million five hundred thousand feet, board measure, of sawed yellow pine timber, be and hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements, inviting estimates for doing said work, inserted in the papers designated by law.

The following preamble and resolution were, on motion, adopted :

Whereas, Application has been made by the New York, New Haven and Hartford Railroad Company for permission to fill in certain ditches across the meadow flats at or near the foot of Willis avenue and the point of the company's float bridge, Harlem river, it being the intention of the company to replace said ditches by a stone sewer ;

Resolved, That permission be and hereby is given to the New York, New Haven and Hartford Railroad Company to do the work of filling in at the premises above described upon plans and specifications to be submitted to and approved by the Board of this Department ; and provided that the work so performed shall be under the direction and supervision of the Engineer-in-Chief ; and provided, also, that no filling in shall be made in places which can be reached by the water of the

river or harbor until a proper retaining structure shall be constructed in front of the area to be so filled in ; and further provided that the said New York, New Haven and Hartford Railroad Company shall assent, in writing, to the terms and conditions as set forth in this resolution, within ten days from the date thereof.

The following preamble and resolution were,

On motion, adopted :

Whereas, It is claimed that a permit or license was granted to Edward Roberts to build a temporary bridge or bulkhead on land belonging to the City, lying between Ninety-third and Ninety-fourth streets, East river, said alleged permit or license bearing date of April 11, 1868, and claimed to be signed by George W. McLean, the then Street Commissioner in the City of New York;

Resolved, That said permit or license claimed to be held or exercised by Edward Roberts, his heirs, representatives or assigns, to build or maintain such temporary bridge or bulkhead on land belonging to the City of New York, at or near the premises therein described, be and hereby is revoked from and after this date, October 20, 1887.

The Treasurer, Commissioner Matthews, reported that he had received the following estimate for furnishing the Department with 4,100 cubic yards of cobble-stones, and 6,400 cubic yards of rip-rap: John A. Bouker, cobble-stones, \$1.00 per cubic yard ; rip-rap, 70 cents per cubic yard, and had awarded the same to John A. Bouker, he being the only bidder.

On motion, his action was approved.

On motion, it was

Resolved, That the President of this Board be requested to send to the East River Ferry Company a statement of the expenses incurred for repairs of the tug "Manhattan," which was damaged by collision with the ferry-boat "Flushing," owned by the company, on June 20, 1887, and to demand payment of same.

From Edward Abeel, Dock Master :

1st. Reporting repairs required to Pier 40, East river. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

2d. In reference to the application of C. H. Mallory & Co., for permission to retain hoisting engines and tally-houses on Piers 20 and 21, East river.

On motion, permit was granted to C. H. Mallory & Co. to retain three hoisting engines and two tally-houses on Pier 20, East river, and two hoisting engines and one tally-house on Pier 21, East river, to remain during the will of the Board.

The President stated that he had been served with a summons in the suit of Goldsborough Banyer, as Trustee, etc., against the Mayor, Aldermen and Commonalty of the City of New York, for damages to certain bulkhead property extending fifty feet southwardly from Morton street, North river.

On motion, the President was authorized to request the Counsel to the Corporation to take such action as may be necessary to protect the interests of the City.

16th. Report on Secretary's Orders Nos. 6950 and 7063, that he had repaired Pier, new 51 North river.

17th. Report on Secretary's Order No. 6863, that he had directed and superintended the renewal of the sheathing and placing additional fenders on the south side of Pier 27, East river.

18th. Report on Secretary's Order No. 7000, that he had directed and superintended repairs Pier 8, East river.

19th. Report on Secretary's Order No. 7036, that he had repaired Pier at Eighteenth street, North river.

20th. Report on Secretary's Order No. 7039, that he had directed and superintended the refastening of fender piles on outer corners of Pier 15, East river.

21st. Report on Secretary's Order No. 7054, that he had repaired Pier at Little West Twelfth street, North river.

22d. Report on Secretary's Order No. 7062, that he had repaired the sheathing on Pier at West Fifty-first street, North river.

23d. Report on Secretary's Orders Nos. 6997 and 7001, that he had superintended and directed cutting gangways in Pier, new 32, East river.

24th. Report on Secretary's Order No. 6805, that he had repaired the buildings at Seventeenth Street Yard, East river.

The report of the Engineer-in-Chief on Secretary's Order No. 7051, submitting form of contract and specifications for about 1,500,000 feet of yellow pine timber, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the form of contract and specifications, as prepared and submitted by the Engineer-in-Chief, for furnishing and delivering to the Department about one million five hundred thousand feet, board measure, of sawed yellow pine timber, be and hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby directed to have a sufficient number of blank forms of proposals printed, and proper advertisements inviting estimates for doing said work, inserted in the papers designated by law.

The following preamble and resolution were, on motion, adopted :

Whereas, Application has been made by the New York, New Haven and Hartford Railroad Company for permission to fill in certain ditches across the meadow flat between Willis avenue and the point of the company's float bridge, Harlem river, and the company to replace said ditches by a stone sewer :

Resolved, That permission be and hereby is given to the Railroad Company to do the work of filling in at the place and on the specifications to be submitted to and approved by the Board of Directors, and the work so performed shall be under the direction and supervision of the Engineer-in-Chief, provided, also, that no filling in shall be made in places

over or harbor until a proper retaining structure shall be constructed in front of the same to be so filled in; and further provided that the said New York, New Haven and Hartford Railroad Company shall assent, in writing, to the terms and conditions as set forth in this resolution, within ten days from the date thereof.

The following preamble and resolution were,

On motion, adopted :

Whereas, It is claimed that a permit or license was granted to Edward Roberts to build a temporary bridge or bulkhead on land belonging to the City, lying between Ninety-third and Ninety-fourth streets, East river, said alleged permit or license bearing date of April 22, 1886, and claimed to be signed by George W. McLess, the then Street Commissioner in the City of New York;

Resolved, That said permit or license claimed to be held or exercised by Edward Roberts, his heirs, representatives or assigns, to build or maintain such temporary bridge or bulkhead on land belonging to the City of New York, at or near the premises therein described, be and hereby is revoked from and after this date, October 22, 1887.

The Treasurer, Commissioner Matthews, reported that he had received the following estimate for furnishing the Department with 4,300 cubic yards of cobble-stones, and 6,400 cubic yards of rip-rap: John A. Bouker, cobble-stones, \$1.00 per cubic yard; rip-rap, 70 cents per cubic yard, and had awarded the same to John A. Bouker, he being the only bidder.

On motion, his action was approved.

On motion, it was

Resolved, That the President of this Board be requested to send to the East River Ferry Company a statement of the expenses incurred for repairs of the tug "Manhattan," which was damaged by collision with the ferry-boat "Flushing," owned by the company, on June 20, 1887, and to demand payment therefor.

From Edward J. Black Master :

1st. Report required to Pier 40, East river. The action of the President in directing the same to be examined and report, was approved.

2d. Application of C. H. Mallory & Co., for permission to retain hoisting engines on Piers 20 and 21, East river.

Resolved, That permission be granted to C. H. Mallory & Co. to retain three hoisting engines and one tally-house on Pier 21, East river, and two hoisting engines and one tally-house on Pier 20, subject to the will of the Board.

Resolved, That the President be authorized to file a petition in the suit of Goldsborough against the Mayor, Aldermen and Commonalty of the City of New York, for the recovery of property extending northwardly from Morton street, North

Resolved, That the President be authorized to request the City Counsel to the Corporation to take such action as may be necessary to protect the property of the City.

OCTOBER 20, 1887.]

284

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week October 18, 1887, amounting to \$4,471.07, which was received and ordered to be spread in the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasu

On motion, adjourned.

CHARLES MILLER, Jr., Acting Secreta

At an executive meeting of the Board of Docks, held October 21, 1887.

Present—Commissioners, Stark, Matthews and Marshall.

The minutes of the meeting held October 20, 1887, were read and approved.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—Respecting the service of notices, in connection with the business of this Department, by employees of his office.

From New York Central and Hudson River Railroad Company :

1st. Requesting renewal of the lease for "site for pier" at the foot of West Fifty-ninth street, North river. Referred to Commissioner Marshall.

2d. In reference to the occupancy of Pier, new 61, North river, and desiring to be informed if it would be satisfactory to the Board to have the rent commence as of November 1st next, and be payable at the same time as other rents they pay to the Department.

On motion, the time to commence the payment of rent for said pier was extended from October 1st to November 1, 1887.

From Pennsylvania Railroad Company—Requesting permission to replace several broken piles on the north side of slip between Thirty-fifth and Thirty-sixth streets, North river (on the south side of the West Shore bridges), and to place on same fore and aft, fenders of sheathing. Also, to place fore and aft fenders on the north side inshore end of the Pier foot of Thirty-fifth street, North river. Permission granted ; all the work except horizontal fenders to be kept within existing lines, and horizontal fenders to be put on as directed by the Engineer-in-Chief of this Department.

From T. and A. Walsh—Requesting the Board to grant a permit to the Astoria Ferry Company to repair ferry-racks, etc., and dredge, at Ninety-second street, East river. The action of the Board in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Police Department—Reporting holes in bulkhead, between Piers 45 and 46, East river. The Engineer-in-Chief directed to examine and report.

From Charles H. Pendergast, Dock Master—Reporting that the bulkhead adjoining City property west of Corlears street, East river, has been washed away and is in a dangerous condition. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Ridgewood Ice Company—Requesting permission to enlarge tally-house, situated on north side of the bulkhead at East Seventy-ninth street, East river. Referred to the Dock Master to examine and report.

From Engineer-in-Chief :

1st. Reporting that the boat-houses, floats, piles, etc., at One Hundred and Fifteenth and Harlem river, have not been removed. The President authorized to notify William Decker that unless the said boat houses, etc., are removed by November 1, 1887, they will be removed by this Department at their cost and expense.

2d. Reporting the depositing of heavy pieces of machinery on new-made land, between Fifty-sixth and West Fifty-seventh streets, North river, by Blake & Co.

The report of the Engineer-in-Chief on Secretary's Order No. 7084, in reference to the application of W. M. Bassett, Agent Central Vermont Railroad and Steamer Line, for permission to extend the shed on Pier 36, East river, about thirty feet to correspond in length with the shed on the older portion of said pier, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to W. M. Bassett, Agent of the Central Vermont Railroad and Steamer Line, lessees and occupants of Pier 36, East river, to erect and maintain during the will of the Board, an extension to the shed erected on the older portion of said pier, the said extension to be about thirty feet long about forty-four feet wide, and one story in height for the protection of property received and discharged thereat by steam transportation, said extension to be constructed subject to the regulations of the Superintendent of Buildings as required by section 772 of the New York City Consolidation Act and in accordance with plans and specifications first submitted to and approved by the Board ; the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

The report of the Engineer-in-Chief on Secretary's Order No. 7058, in reference to the application of Theodore F. Tone, for permission to build a bulkhead between One Hundred and Thirty-third and One Hundred and Thirty-fourth streets, North river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to Theodore F. Tone to erect and maintain a crib-bulkhead from the middle of One Hundred and Thirty-third street to the middle of One Hundred and Thirty-fourth street, North river, upon plans and specifications to be first submitted to and approved by the Engineer-in-Chief of this Department ; the work to be done under the direction and supervision of that officer.

It being expressly agreed and understood that nothing in this resolution contained shall be construed in any way to interfere with, or in any manner affect, prejudice or impair the covenants, conditions, reservations, agreements and stipulations contained in the water-grant made by the City in 1862 to Cornelius W. Lawrence.

And further provided, that the said Theodore F. Tone shall, within five days after receipt of a copy of this resolution, file with the Secretary of this Department a written communication agreeing to accept the terms and conditions herein set forth.

3d. Report on Secretary's Order No. 6989, that he had examined the records of the Department for permits or licenses granted by the Board for building, rebuilding, repairing or maintaining bulkheads, or for occupying land under water, between the northerly side of Sixth street and the northerly side of Nineteenth street, East river, and transmitting copy thereof in accordance with the request of the Counsel to the Corporation.

On motion, the President was authorized to send said report to the Counsel to the Corporation duplicate being on file in the office of the Engineer-in-Chief).

The Treasurer, Commissioner Matthews, reported that he had received the following estimates furnishing the Department with 550 piles, 65 to 70 feet ; 90 piles, 70 to 75 feet ; 110 piles, 40 to 45 feet :

	550 Piles, 65 to 70 feet.	90 Piles, 70 to 75 feet.	110 Piles, 40 to 45 feet.
and & Kempland.....	\$10 00 each.	\$13 50 each.	\$4 50 each.
Charles B. Carman.....	10 40 "	13 25 "	4 35 "
A. J. Murray.....	9 00 "	12 00 "	4 00 "

And recommended that the order for furnishing the same be awarded to A. J. Murray, he being the lowest bidder.

On motion, the report was received and the recommendation adopted.

The Auditing Committee presented an audit of two bills, amounting to \$23,864.32, which were approved, and the Secretary directed to enter in full on the minutes, as follows :

No.	Bills or Claims.	Amount.
48.	Joseph Walsh, Estimate No. 3 and Final Contract No. 248.....	\$18,783 44
49.	John Gillies, Estimate No. 1, Contract No. 252.....	5,080 88
On Construction Account.....		\$23,864 32

Respectfully submitted,

JAMES MATTHEWS, } Auditing
CHARLES H. MARSHALL, } Committee.

The Treasurer, Commissioner Matthews, presented the balance sheet for the month of September, 1887.

On motion, the President was authorized to transmit same to the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held October 27, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held October 21, 1887, were read and approved.

The report of Charles B. Husted, Dock Master, in reference to the application of the Kibbuck Ice Company for permission to retain open shed, engine and tally-house on the bu foot of Twentieth street, North river, was laid over for further examination.

A communication from the Engineer-in-Chief, in relation to the last half monthly roll, reference to the appointment of Hugh Byrne as a Watchman, was referred to executive session.

A communication from the Engineer-in-Chief, recommending the discharge of Laborers Builders and Ship Carpenters, and requesting that others be appointed to fill their place referred to executive session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated,

From Counsel to the Corporation—Respecting the title to wharf property between Six Thirteenth streets, East river, and stating that action has been commenced against the assign trustees of John Roach, deceased.

From Department Public Works—Stating that they are about to construct a sewer in West between Murray and Jay streets, and requesting permit to connect with the sewer built Department through Pier 21, North river. The action of the President in granting said was approved.

From Counsel to the Corporation—Approving contract for building Pier, new 62, North and for building crib-bulkhead with appurtenances, from East One Hundred and Fourteenth One Hundred and Fifteenth street, Harlem river.

From New York, New Haven and Hartford Railroad Company—Agreeing to the terms conditions of permit to fill in ditches on Willis avenue, Harlem river.

From H. L. Herbert & Co.—Requesting permission to retain temporary coal-pocket at the foot of Twentieth street, East river, a short time longer. The President authorized to advise that the coal-pocket must be removed on or before November 1, 1887.

From Chas. E. Emery—Requesting map of water-front below Eighth street. Referred to Engineer-in-Chief.

From Frank Doughty—Requesting appointment as Janitor of Pier "A," North river.

From William P. Clyde & Co.—Agreeing to the terms and conditions of permit for the use of shed on Pier 15, East river.

From New York Central and Hudson River Railroad Company :

1st. Agreeing to the terms and conditions of permit for laying rail tracks, etc., on Pier at the foot of West Thirty-sixth street, North river.

2d. In relation to renewal of lease of site for Pier at West Fifty-ninth street, North river. The action of Commissioner Marshall in requesting the Counsel to the Corporation to prepare said renewal lease was approved.

From William P. Greenlie and Herman Clark—Consenting to the extension of the time for completing the bulkhead, foot of Seventy-sixth street, East river, to October 17, 1887, granted to John Gillies.

From E. W. Fisher—Requesting the Department to test a barrel of Portland cement. The action of Commissioner Marshall in directing the Engineer-in-Chief to test said cement was approved.

From Department of Public Charities and Correction :

1st. Reporting that fenders and mooring-piles are required at the bulkhead at One Hundred and Twentieth street, East river, in order to land the "Thomas S. Brennan" thereat.

2d. Reporting that piles require placing at Pier foot of Twenty-sixth street, East river.

3d. Reporting that the mooring-posts on the bulkhead at the upper landing on east side of McKim's Island are so insecure that captains of canal boats refuse to land there. The Engineer-in-Chief directed to examine and report.

From George A. Dearborn, Dock Master :

1st. Approving of the application of the Ridgewood Ice Company for permission to enlarge tally-house, located on the bulkhead north of Seventy-ninth street, East river.

On motion, permission was granted to the Ridgewood Ice Company to enlarge said tally-house by extending it two feet over the stringpiece.

2d. Reporting the sinking of canal-boat "A. M. Hitchcox" at north side of Pier foot Eighty-ninth street, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

3d. Reporting that obstructions in East Seventy-sixth street prevent the use of the bulkhead thereat.

4th. Reporting that the Lowe Wrecking Company have commenced to raise the canal-boat A. M. Hitchcox, sunk at Pier foot of Eighty-sixth street, East river.

From Edward Abeel, Dock Master—Reporting that the chain fastening holding spring-pile at outer and upper corner of Pier 44, East river, is loose. The action of the President in directing Engineer-in-Chief to repair was approved.

From Charles B. Husted, Dock Master :

1st. Reporting that piers at Jane street, Bogart street, Bloomfield street, Little West street and West Fifteenth street, are in need of cleaning. The President authorized to Department of Street Cleaning a copy of said report and request them to clean said piers.

2d. Reporting that iron spikes on fender-piles require fastening at Pier foot of West Seventh street, North river. The action of the President in directing the Engineer-in-Chief to be approved.

3d. Requesting a new stove and pipe for use in his office, with privilege to select the same at the action of the President, in directing him to report the cost of such a stove as he desired approved.

From Charles H. Hutchinson, Dock Master—Reporting favorably on Henry Fischer's application for permission to locate a derrick foot of Fifty-fourth street, East river, provided it is made for public use.

On motion, permit was granted to Henry Fischer to locate a derrick, as recommended by Dock Master, the same to be and remain during the will of the Board.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending October 22, 1887.

3d. Reporting as to ownership, etc., of the undivided one-half of Pier 8, East river.

4th. Reporting repairs and supplies needed at Dock Master's Office at Seventy-ninth street, North river. The action of the President in directing the Engineer-in-Chief to furnish the same and make the repairs required, as recommended in his report, was approved.

5th. Reporting that the work of dredging at Pier, new 37, North river, under Contract 2 was completed October 17th instant, and recommending that the time for the completion of the contract be extended to and including that date.

On motion, the report was received and recommendation adopted.

6th. Reporting that about forty feet in length of the bulkhead, beginning at a point about one hundred and twenty feet north of Bank street, North river, has broken down, and should be repaired from about low water up. The Secretary directed to notify the Knickerbocker Ice Company, Canda & Kane, alleged owners or occupants, to repair, under the direction and supervision of the Engineer-in-Chief of this Department.

7th. Reporting on Secretary's Order No. 7049, in reference to the complaint of the Protective Association as to the condition of the bulkhead between Sixty-first and Sixty-second streets, East river. The Secretary directed to send a copy of said report to the Dock Pier Association.

8th. Report on Secretary Order No. 6691, as to the condition of and the repairs required on a structure formally called a pier at the foot of Ninety-sixth street, North river. The Es

directed to make temporary repairs to the sheathing, etc., as recommended in his report, at about \$75.

9th. Report on Secretary's Order No. 6648, that he had directed and superintended the driving and necessary repairing to Pier between One Hundred and Sixteenth and One Hundred and Seventeenth streets, Harlem river.

10th. Report on Secretary's Order No. 7024, that he had repaired Pier at Seventy-ninth street, East river.

11th. Report on Secretary's Order No. 6957, that he had directed and superintended refastening screwing piles at Pier, new 26, North river.

12th. Report on Secretary's Orders Nos. 5806, 5812, that he had supervised the dredging in front of bulkhead between West Fifteenth and Sixteenth and Twenty-first and Twenty-second streets, East river.

13th. Report on Secretary's Orders Nos. 7004, 7008, that he had made requisition for dredging foot of bulkhead foot of Twenty-ninth street, East river, and superintended dredging south of Twenty-ninth street.

14th. Report on Secretary's Order No. 7008, that he had repaired deck of Pier at Forty-sixth street, North river.

15th. Report on Secretary's Orders Nos. 6482 and 6327, that he had superintended erection of platform on Pier 9, and platform between Piers 8 and 9, North river, in accordance with plans and specifications.

16th. Report on Secretary's Order No. 6516, that he had directed and superintended the necessary repairing of bulkhead and dumping-board thereon foot of Thirty-ninth street, East river.

17th. Report on Secretary's Order No. 6561, that he had superintended and directed the driving of fender-piles and putting on of fenders at Pier 45, East river.

18th. Report on Secretary's Order No. 6890, that he had directed and superintended the further repairing of bulkhead, from Eleventh to Thirteenth street, East river.

19th. Report on Secretary's Order No. 6927, that he had superintended and directed driving of piles on the southwest corner of Tripp's grain elevator, at Pier, foot of Thirty-fourth street, North river.

20th. Report on Secretary's Order No. 6979, that he had superintended dredging at bulkhead foot of Montgomery street, East river.

21st. Report on Secretary's Order No. 7014, that he had superintended dredging at Pier, old 23, East river.

22d. Report on Secretary's Order No. 7047, that he had superintended and directed the repairing of bulkhead, between Seventy-ninth and Eightieth streets, East river.

23d. Report on Secretary's Order No. 7053, that he had repaired Pier, new 46, North river.

24th. Report on Secretary's Order No. 7073, that he had directed and superintended repairs on the sheathing on the deck of north half Pier 62, East river.

25th. Report on Secretary's Order No. 7074, that he had directed and superintended the repairs on the sheathing on the deck of south half of Pier 62, East river.

The action of the President in issuing a permit to Frank R. Bonnell to drive seven springs on the south side and end of Pier 6, North river, under the direction and supervision of the Engineer in-Chief of this Department, was approved.

On motion, the following preamble and resolution were adopted ;

Whereas, Permission was given to the Old Colony Steamboat Company, occupant of Pier 28, and bulkhead adjoining, by resolution of this Board on the 9th July, 1879, to construct a platform on piles in front of the bulkhead adjacent to the northerly side of said pier, about fifty feet long, and extending westerly about fifty-five feet, and providing that the Company should pay for the land under water covered by said platform, the sum of \$250 per annum ; and,

Whereas, By resolution of the Board of Docks passed on the 23d July, 1879, permission was granted to said Company to extend the platform then in course of erection a distance of sixty feet westerly instead of fifty-five feet, and to pay therefor an additional sum of \$50 as rent for the land under water to be covered by the increased width of said platform ; and,

Whereas, By resolutions of the Board on the 16th June, 1886, and the 12th January, 1887, the Old Colony Steamboat Company was authorized and permitted to build an additional platform of piles, extending from the existing bulkhead westwardly about sixty-five feet and from the existing platform erected under permit granted to the company July 23, 1879, to about ten feet southerly of the southerly side of Pier, old 29, North river, and to erect a shed thereon, and to pay therefor the sum of twenty-five cents per square foot per annum for all land under water covered by the platform to be erected under this permit ; now be it

Resolved, That the above resolutions of the 9th and 23d July, 1879, the 10th June, 1886, and the 12th January, 1887, be amended by the addition of the following :

Resolved, That the Old Colony Steamboat Company be and hereby are granted permission to maintain and occupy during the will and pleasure of the Board, the platform constructed at the premises above described, and in accordance with the terms and conditions of the resolutions aforesaid, provided that the Company agree in writing to accept all terms and conditions and to pay for the land under water covered by all said platforms at the rate of twenty-five cents per square foot per annum, the same to be payable to the Treasurer of this Department quarterly at the end of each quarter, or so much of the time as they may occupy it ; and further provided, "that the platforms erected under the foregoing resolutions and the sheds maintained thereon, are for temporary purposes only and that the permits are revocable at any time by this Board ; and also provided that the company will, within ten days from the date of this resolution, file an agreement to remove any and all structures of every kind that have been built and are now maintained under this and preceding permits, and restore the premises to the same condition that they were in at the date of the permits granted by the resolutions aforesaid, natural wear and tear excepted, within twenty days after notice be given for such removal."

The following preambles and resolution were, on motion, adopted :

Whereas, It appears that John Nesbit's Sons have erected a fence on the south side of Thirty-ninth street, East river, also projection of a shed beyond the Pier line on the south side, and a small shed on the bulkhead at the northerly side, all said erections being on land belonging to the Board and under the charge and control of this Department ; and,

Whereas, Notice was sent on the 2d July, 1887, to said John Nesbit's Sons to remove said fence, and again on the 18th July, notice was sent to remove the fence and projection and small shed shed to, and again on the 12th of August following a similar notice was sent to said firm of John Nesbits' Sons, ordering and requiring them to remove all said structures on or before September 1st, the penalty for violation of the rules and regulations of this Department would be imposed ; and,

Whereas, A final notice was served on W. H. Nesbit, one of said firm, by the Dock Master of the District on the 15th September, imposing a penalty of twenty dollars per day for each and every day after September 1st, till said structures should be removed, unless the orders of the Board in respect to the matter should be complied with forthwith ; and,

Whereas, The said firm of John Nesbits' Sons have neglected to conform to and comply with the repeated orders of the Board as stated, and remove the structures as above described, but will maintain and use the same contrary to law and contrary to the notice and direction aforesaid of the Board,

Resolved, That the said John Nesbits' Sons be and they are hereby fined a separate penalty of twenty dollars for each and every day from the first day of September, 1887, to this date, the 27th day of October, 1887, being the time that has elapsed since the expiration of the time within which they were required to remove the said structures.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending October 25, 1887, amounting to \$3,441.98, which was received and ordered to be spread in full on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held October 27, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The communications from the Engineer-in-Chief, in reference to the last half-monthly pay-roll and in relation to the appointment of Hugh Byrne as Watchman, was,

On motion, ordered to be placed on file.

The communications from the Engineer-in-Chief, recommending the discharge of certain Dock builders, ship carpenters and Laborers, and recommending that others be appointed to fill their places was,

On motion, ordered to be placed on file, and Edward Stedman, Richard O'Brien, Charles McCarthy and John Hanlon, Dock Builders; Jeremiah O'Connell and Andrew G. Lundhal, Ship Carpenters; Martin Burke and William H. Cox, Laborers, were discharged, and the following were appointed: Francis Quinn, Daniel Norton, Michael McLaughlin, Peter King, Martin Griffin, Edward O'Halloran and Edward Robinson, Laborers; Charles McInenly, James McEneany, Peter Girard, James Byrnes and Henry Wilson, Dock Builders.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held November 1, 1887.

Present—Commissioners Stark and Matthews.

Absent—Commissioner Marshall.

The Board met for the purpose of receiving the estimates advertised to be opened this day at 12 o'clock for preparing for and building a crib-bulkhead with appurtenances, between East One Hundred and Fourteenth and East One Hundred and Fifteenth streets, Harlem river. A representative of the Comptroller was present.

Four estimates were received as follows :

No.	FROM	CLASS No. 1.	CLASS No. 2.	CLASS No. 3.
		For material dredged, removed and disposed of, per cubic yard.	For crib-bulk-head complete.	For the rip-rap stone for the embankment, per cubic yard
1	From John W. Flaherty, with \$200 in money.....	\$0 35	\$4,375 00	\$0 80
2	" John Gillies, with \$200 in money.....	30	5,500 00	65
3	" Joseph Walsh, with \$200 certified check.....	35	8,500 00	45
4	" P. Sanford Ross, with \$200 in money.....	35	6,950 00	75

On motion, the Secretary was directed to transmit to the Comptroller the security deposit made by said bidders and accompanying their estimates.

The following resolution was, on motion, adopted.

Resolved, That the contract opened this day for preparing for and building a crib-bulkhead with appurtenances, between East One Hundred and Fourteenth and East One Hundred and Fifteenth streets, Harlem river, be and hereby is awarded to John Gillies, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks held November 3, 1887.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The minutes of the meeting held October 27, 28 and November 1, 1887, were approved.

The application of D. C. Haskins, on behalf of the Hudson Tunnel Railway Company requesting remission of rents for premises occupied by said company, was,

On motion, laid on the table.

The application of Homer Ramsdell, in reference to the use of Pier, old 35, North river requesting a rebate in the rent, was,

On motion, laid on the table.

The reports of the Engineer-in-Chief, that he had directed that Laborers, acting with Michael Broderick, Joseph Devlin and Robert Mularkey shall not be again assigned to Acting Watchmen, for being found asleep while on duty, and also reporting that he had seen Watchman John McDougal, for being off post, until he can investigate his case, and recommend that his action be approved, were

On motion, referred to executive session.

The report of the Engineer-in Chief, recommending the discharge of Dock Builder Higgins and Laborer William O'Brien, and that their places be filled by other men as possible, was,

On motion, referred to executive session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated to

From Hon. Abram S. Hewitt, Mayor :

1st. Requesting particulars in relation to lease of Pier, new 41, North river. Referred to Commissioner Marshall.

2d. Enclosing communication received from J. and F. Lohman protesting against the design of the new pier foot of Pike street, East river, being used as a dumping dock for ashes and g. Referred to Commissioner Marshall.

From Department of Public Works—In reference to the sewer outlet foot of West Forty street, North river. The action of the President in directing the Engineer-in-chief to examine report was approved.

From Comptroller of the City—Approving sureties of John Gillies.

From Board of Aldermen—Enclosing copy of resolutions adopted February 24 and March 22, for the regulating, grading and paving of Thirty-seventh and Thirty-ninth streets, from 1st Avenue to the East river. Referred to the Engineer-in-chief to examine and report.

From Glen Cove Manufacturing Company—In reference to and offering to convey to the City a bulkhead and wharf property west of Jackson street, East river. Referred to Commissioner of Public Works.

From Simon Stevens, attorney—Requesting a detailed statement of the account rendered for dredging recently done in the slips between Piers 12 and 13, and 13 and 14, East river. Referred to the Engineer-in-Chief.

From Theodore F. Tone—Agreeing to the terms and conditions of permit for the erection of a bulkhead between One Hundred and Thirty-third and One Hundred and Thirty-fourth streets, East river.

From New York Central and Hudson River Railroad Co.—Requesting permission to erect a pier, new 62, North river, in accordance with plans and specifications submitted. Referred to the Engineer-in-Chief.

From C. H. Mallory & Co.—Stating that the extension to shed on Pier 20, East river, is nearly completed and will be finished in a short time. Referred to the Engineer-in-Chief.

From W. R. Grace & Co.—Requesting permission to erect a tally-house, six by eight feet, on Pier 1st East river. Permission granted to be and remain during the will of the Board, and to be located in the direction of the Dock Master of the District.

From Knickerbocker Ice Company—Reporting that they are repairing bulkhead north of Bank 4, North river.

From Patrick Dunican—Requesting permit to locate a derrick at One Hundred and Twenty-first street, Harlem river. Permit granted to be and remain during the will of the Board.

From Sidney H. Stuart, attorney for William Decker—Respecting the removal of boat-house, etc., located on the water front between One Hundred and Fourteenth and One Hundred and Fifteenth streets, Harlem river.

From E. W. Fisher—Requesting the department to test a barrel of Portland cement. The action of the President in directing the Engineer-in-Chief to test said cement was approved.

From Pennsylvania Railroad Company—Requesting permission to repair fore and aft fenders on the north side of Pier 39, and on the platform south side of Desbrosses Street Ferry Rack, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From W. H. Hand—Requesting permission to erect pile platform on Mott Haven Canal, west of about One Hundred and Fortieth street. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From F. Alexandre & Sons—Requesting permit to dredge between Piers 3 and 4, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Rice & Bijur, attorneys East River Ferry Co. and Metropolitan Ferry Company—ing to pay for the repairs or any other expenses resulting to the Department from collision ferry-boat "Flushing."

From United States Engineer's Office—Requesting information respecting the control of and bulkheads. The Secretary directed to furnish the information desired.

From James P. Nestor—Requesting permit for tally-house on bulkhead foot of Frank North river. Referred to the Dock Master to examine and report.

From New York and College Point Ferry Co.—Requesting permission to drive piles rack north of Ninety-ninth street, East river. The action of the President in issuing a permit to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From R. H. Wolff & Co.—Submitting plans and specifications for proposed bulkhead Harlem river, between One Hundred and Seventeenth and One Hundred and Eighteenth. Referred to the Engineer-in-Chief to examine and report.

From George A. Dearborn, Dock Master—Reporting that there is a floating liquor bath-house and float occupied by Wooley & Sinn, between Eighty-sixth and Eighty-seventh East river, and a small dock with house on same foot of Eighty-fourth street, East river. Secretary directed to notify the owners of said structures to advise the Board by what authority they use and occupy the said premises.

From Charles H. Pendergast, Dock Master—Reporting that repairs are required to the Pier 48, East river. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

From Edward Abeel, Dock Master—Reporting repairs required to Piers 37 and 44, East river. The action of the President in directing the Engineer-in-Chief to examine and repair, if needed, was approved.

From John Callan, Dock Master—Reporting string-piece loose at pier foot of Seventh at Harlem river. The action of the President in directing the Engineer-in-Chief to examine and repair, was approved.

From Patrick J. Brady, Dock Master—Reporting holes in Pier, new 59, North river. The action of the President in directing the Engineer-in-Chief to repair, was approved.

From Charles B. Husted, Dock Master—Recommending that the north side of pier Thirteenth street, North river, be covered with three-inch spauce. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From D. W. Bogert, Dock Master—In reference to the dumping of ashes by the New Steam Company from pier foot of Vesey street, North river.

From Engineer-in-Chief:

- 1st. Reporting assignment of employees to special duty.
- 2d. Reporting the amount of work done during the week ending October 29, 1887.

3d. Reporting repairs required to Piers 4, 6, 13, new 20, 21, 40 and 41, and pier at Fortieth street, North river. The action of the President in notifying the lessees of the said piers to repair is recommended by the Engineer-in-Chief of this Department, and under his direction and supervision, was approved.

4th. Report on Secretary's Order No. 6836, as to the repairs required to the pavement in the vicinity of Pier, new 43, North river. The Engineer-in-Chief directed to repair about one hundred and seventy square yards of pavement about forty feet south of Pier, new 43, North river, and about one hundred and forty square yards of pavement about forty feet north of said pier, as recommended in his report, at a cost of about \$860.

5th. Reporting repairs required to pier at West Forty-sixth street, North river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$950.

6th. Reporting on Secretary's Order No. 6,559, that the construction of the bulkhead wall on the established bulkhead-line, under resolution of the Board, dated 6th October, 1887, will soon be begun, and its construction would render useless the improvements contemplated by Bishop, Donnell & Co., and therefore recommending that their application for permission to repair and extend wall between Fifty-second and Fifty-third streets, North river, and extend the same to the middle of Fifty-second street, should not be granted.

On motion, the report was received and recommendation adopted.

7th. Reporting that the occupants of inner berth Pier, old 35, North river, are willing to move to middle berth on south side of Pier, old 34, North river, as soon as there is depth of water to allow them to use it. The action of the President and Commissioner Matthews in directing the Engineer-in-Chief to make requisition for dredging to the extent of about 2,500 cubic yards, as recommended in his report, was approved.

8th. Submitting Inspector's report of material used under Contract No. 247, building crib bulkhead foot of East Seventy-sixth street, East river.

9th. Report on Secretary's Orders Nos. 5807, 5808 and 5809, that he had superintended dredging in front of the bulkhead between Sixteenth and Seventeenth streets, Seventeenth and Eighteenth streets, and Eighteenth and Nineteenth streets, North river.

10th. Report on Secretary's Order No. 6992, that Col. Walter McFarland, United States Engineer, states that he will have to advertise his proposed removal of the wreck of canal-boat on the northerly side of High Bridge for thirty days, immediately after which he will remove it.

11th. Report on Secretary's Orders Nos. 5534 and 5939, that he had superintended the building of crib-bulkhead between One Hundred and Thirty-seventh and One Hundred and Thirty-eighth streets, west side Harlem river.

12th. Report on Secretary's Order No. 6496, that he had supervised the erection of transfer bridge racks, etc., between West Sixty-eighth and West Sixty-ninth streets, North river.

13th. Report on Secretary's Orders Nos. 6813 and 6946, that he had replaced fender and spring pile south side of Pier, new 43, North river,

14th. Report on Secretary's Order No. 7075, that he had repaired pier at West Eleve North river.

15th. Report on Secretary's Order No. 7056, that he had repaired pier at One Hu Fifty-fifth street, North river.

16th. Report on Secretary's Order No. 7045, that he had directed and superintended r piles on upper outer corner of Pier 12, East river, and had refastened those loose on City of said pier.

17th. Report on Secretary's Order No. 7083, that he had superintended driving p Pier 34, East river, and the making of repairs to said pier.

18th. Report on Secretary's Order No. 7005, that he had repaired Pier, old 42, North

19th. Report on Secretary's Order No. 7040, that he had repaired pier at Jane street, N

20th. Report on Secretary's Order No. 7082, that he had superintended dredging adjoining the northerly side of Pier 57, East river.

21st. Report on Secretary's Order No. 7100, that he had refastened spring piles on up of Pier 44, East river.

22d. Report on Secretary's Order No. 7077, that he had directed and superintended piles at bulkhead platform between Forty-fourth and Forty-fifth streets, East river.

23d. Report on Secretary's Order No. 7096, that he had redriven iron spokes in fender pier at West Seventeenth street, North river.

24th. Report on Secretary's Order No. 7095, that the E. R. Lowe Wrecking Cor removing canal boat sunk at Eighty-sixth street, East river.

25th. Report on Secretary's Order No. 7071, that he had made requisition for dumping-board foot of Canal street, North river, and supervised the work which was the Union Dredging Company.

26th. Report on Secretary's Order No. 7042, that he had directed and superintended sheathing of the deck of south half of Pier, old 34, North river.

27th. Report on Secretary's Order No. 6729, that he had directed and superintended ing of bulkhead between Nineteenth and Twentieth streets, East river, and the placing of a shute on the bulkhead foot of Twentieth street, East river.

28th. Report on Secretary's Orders Nos. 6804 and 7079, that he had done the work on a new tin roof on storehouse and office building at East Seventeenth street, East river.

29th. Report on Secretary's Order No. 7079, that he had superintended placing water Pier, new 43, North river.

30th. Report on Secretary's Order No. 7122, that the work of fastening loose iron Pier foot of Fortieth street, North river, has been done by the lessees.

The report of the Engineer-in-Chief on Secretary's Order No. 6200, submitting form of contract and specifications for building crib-bulkhead foot of One Hundred and Fifty-eighth street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the form of contract and specifications, as prepared and submitted by the Engineer-in-Chief, for preparing for and building a crib-bulkhead with return cribs, at the foot of West One Hundred and Fifty-eighth street, North river, and including the necessary dredging for the site of the new crib-work, and in the slips on each side, a temporary wooden sewer-box in extension of the existing sewer, the necessary filling and grading in the rear of the new crib work and grading the existing embankment at the foot of the street, be and they hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements, inviting estimates for doing the said work, inserted in the papers designated by law.

The President, to whom was referred the report of the Engineer-in-Chief respecting the stone deposited on the bulkhead north of pier at Seventy-ninth street, North river, recommended that the Engineer-in-Chief be directed to remove said stones and use them for filling-in purposes behind the crib-bulkhead between Seventy-seventh and Seventy-eighth streets, North river.

On motion, the report was received and recommendation adopted.

The Auditing Committee submitted an audit of two bills amounting to \$9,237.23, which were approved and audited, and the Secretary directed to enter in full on the minutes, as follows :

Audit No.	Name.	Amount.
9850.	Thomas O'Connell and Michael J. Coffey, Estimate No. 2, Contract No. 246.	\$7,318 98
9851.	John Gillies, Estimate No. 2 and final, Contract No. 247.	1,918 25
On Construction Account.		\$9,237 23

Respectfully submitted,

JAMES MATTHEWS,
CHARLES H. MARSHALL, } Auditing Committee.

The report of the Treasurer, Commissioner Matthews, for the period ending November 2, 1887, amounting to \$125,564.68, was received and ordered to be spread in full on the minutes as follows :

On motion the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held November 3, 1887.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The minutes of the meeting held this date were read and approved.

The following communications were received, read, and, -

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Counsel to the Corporation—Approving contract for sawed yellow pine timber.

From J. H. Olhausen, General Superintendent Central Railroad Company of New Jersey—Stating that the required repairs will be made to Pier 13, North river.

From Engineer-in-Chief:

1st. Reporting that he had suspended, pending an investigation, Watchman John McDougal, for being off his post.

2d. Reporting that he had ordered that Laborers and Acting Watchmen Robert Mularkey, Michael Broderick and Joseph Devlin, shall not be again assigned to duty as Acting Watchmen, for being found asleep while on duty, and recommending that his action be approved.

On motion, the action of the Engineer-in-Chief was approved.

3d. Recommending that Dock Builder Andrew Higgins and William O'Brien, Laborer, be discharged.

On motion, the recommendation of the Engineer-in-Chief was adopted.

4th. Reporting repairs required to Pier, new 43, North river. The Engineer-in-Chief directed to repair as recommended in his report at a cost of about \$150.

5th. Reporting non-commencement of dredging at bulkhead south of Cherry street, East river. The Secretary directed to notify Mr. Keteltas, alleged owner of the northerly half of said bulkhead, to dredge as heretofore ordered by the Board, and under the direction and supervision of the Engineer-in-Chief.

6th. Reporting repairs required to Pier, new 46, North river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$65, was approved.

7th. Report on Secretary's Order No. 7067, repairs required to boat-landing at Fifty-second street, East river. The Engineer-in-chief directed to repair as recommended in his report, at a cost of about \$75.

8th. Report on Secretary's Order No. 7108, repairs required to mooring posts on bulkhead at upper landing, east side of Blackwell's Island, East river. The Engineer-in-Chief directed to repair as recommended in his report, at a cost of about \$75.

9th. Report on Secretary's Order No. 7107, repairs required to fender piles at pier foot of sixty-sixth street, East river. The Engineer-in-Chief directed to repair as recommended in his report, at a cost of about \$130.

10th. Report on Secretary's Order No. 7131, that he had examined the plans and specifications submitted by R. H. Wolff & Co., and find them sufficient, and recommend that they be adopted.

On motion, the report was received and recommendation adopted.

11th. Material excavated by Union Dredging Company with Department dredges during October, 1887. The Treasurer authorized to collect said amount from the Union Dredging Company.

The report of the Engineer-in-Chief on Secretary's Order No. 6914, submitting plans, etc., for building Pier, new 29, East river, was

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That the plans, form of contract and specifications as prepared and submitted by the Engineer-in-Chief, for removing Pier 37, East river, except its cribwork below mean low-water mark, for building a new pier about on the site thereof, to be known as Pier, new 29, East river, and for repairing the bulkhead at the foot of Market slip, East river, be and they hereby are approved, subject to the approval of the Counsel to the Corporation as to form ; and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements, inviting estimates for doing the said work, inserted in the papers designated by law.

A communication from the Civil Service Supervisory and Examining Boards submitting the name of Charles J. Farley as eligible for appointment, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That Charles J. Farley be and hereby is appointed as Clerk to the Commissioners at a compensation of \$100 per month, to take effect on the date of his entering on his duties.

On motion, Alonzo Davis was appointed Dock Builder ; Andrew G. Lundhal, Charles Carney and Patrick Barrett, Ship Carpenters ; and Patrick Kelly, John Geoghegan, William Lyons, Bernard Flood, Patrick Kiernan, Patrick Cash, Owen Kettle and Joseph McDonald, Laborers.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

NOVEMBER 4, 1887.]

308

At a special meeting of the Board of Docks, held November 4, 1887.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The Board met for the purpose of receiving estimates for building a new wooden pier at the foot of West Thirty-second street, North river, to be known as Pier, new 62, North river.

A representative of the Comptroller was present.

Three estimates were received as follows :

1. From Ranald Gillies, with \$940 in money.....	\$66,000 00
2. From Joseph Walsh, with \$940 in check.....	71,000 00
3. From P. Sanford Ross, with \$940 in check.....	74,000 00

On motion, the Secretary was directed to transmit to the Comptroller the security deposits received from said bidders and accompanying their respective estimates.

The following resolution was, on motion, adopted :

Resolved, That the contract opened this day for building a new wooden pier at the foot of West Thirty-second street, North river, to be known as Pier, new 62, North river, be and hereby is awarded to Ranald Gillies, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the city.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held November 10, 1887.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The minutes of the meetings held November 3 and 4, 1887, were read and approved.

A communication from General John Newton, Commissioner of Public Works, inclosing copy of report of the Engineer in Charge of Sewers, respecting the obstructions in the roadway in East Seventy-sixth street, between Avenue A and the East river, was,

On motion, laid on the table, and the Secretary directed to send a copy of said report to the Dock Master of the district for examination and report.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Department of Street Cleaning—In reference to cleaning certain piers on the North river. Referred to Commissioner Marshall.

From Health Department—Requesting a conference. The action of Commissioner Marshall in requesting Commissioner James C. Bayles to call on Wednesday, November 9, 1887, was approved.

From Department of Public Works—Requesting permission to drive piles for foundation for new log Pound at One Hundred and Second street, Harlem river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Department of Public Charities and Correction—Requesting that the landing-place above twenty-sixth street, East river, be provided as soon as possible. The action of the President in sending copy of said communication to the Engineer-in-Chief was approved.

From Comptroller of the City—Approving sureties of Ranald Gillies.

From New York, Lake Erie & Western R. R. Co.—Requesting permission to repair ferry racks at Chambers street, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Hoboken Land and Improvement Co.—Requesting permission to repair ferry racks at Fourteenth street, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From John Gillies—Requesting use of Department bracing pile driver. The action of the President in granting said request was approved.

From W. H. Hand—Agreeing to the terms and conditions for the erection of a pile platform on the Harlem river, near One Hundred and Fortieth street, Mott Haven Canal.

From Central Railroad Company of New Jersey—Requesting permission to rebuild the dock back of the north ferry rack at Pier 15, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From W. R. Grace & Co.—Acknowledging receipt of permit for tally-house on Pier 13, East river.

From United States Engineer's office—Acknowledging receipt of a copy of the Annual Report.

From Old Dominion Steamship Company—Requesting copy of communication sent by the Department, dated June 6, 1887. The Secretary directed to comply with said request.

From *Maine Steamship Company*—Reporting that they are about ready to commence the building of platform at Pier 38, East river.

From A. A. Hayes, general superintendent of the Standard Gas-light Company—Renewing application for lease of the bulkhead between One Hundred and Fourteenth and One Hundred and Fifteenth streets, Harlem river, with the right to collect wharfage. The President authorized to advise that, as the bulkhead thereat will not be completed before March 1, 1888, the Board do not desire to lease the premises so far in advance of its completion.

From New York Central and Hudson River Railroad Company—Requesting permit to construct an extension to the northerly fender-rack of their freight transfer bridge now erected at foot of West Sixty-ninth street, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From David W. Bogert, Dock Master—Reporting favorably on the application of James P. Nestor for permission to retain tally-house on bulkhead foot of Franklin street, North river. Permit granted, to be and remain during the will of the Board.

From Charles B. Husted, Dock Master :

1st. Reporting that Piers at Bogart and Bloomfield streets, North river, have not yet been cleaned. Referred to Commissioner Marshall.

2d. Reporting holes in deck of Pier foot of West Eighteenth street, North river. The action of the President in directing the Engineer-in-Chief to examine and repair, if necessary, was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting that he had relieved Watchman John McDougal from suspension and restored him to work, and recommending that his action be approved.

On motion, his action was approved.

3d. Reporting that he had directed that Laborers, Acting Watchmen, Francis Quinn and Alexander McVitty shall not be again assigned to duty as Acting Watchmen for having been found asleep while on duty, and recommending that his action be approved.

On motion, his action was approved.

4th. Reporting the amount of work done during the week ending November 5, 1887.

5th. Report on Secretary's Order No. 7041, that he had resheathed the north half (City's portion) of the deck of Pier, old 34, North river, and reporting cost of same. The Treasurer authorized to make out bill for \$450.16, and collect said amount from the lessees of the premises.

6th. Report on Secretary's Order No. 7066, in reference to the application of John A. Tieman for permission to retain boat-house berthed at One Hundred and Thirty-second street, North river. The President authorized to advise Mr. Tieman that the said boat-house stands on land under water belonging to the City, and that the compensation for the use of said premises must be paid to the Department and not to the New York Central and Hudson River Railroad Company.

7th. Report on Secretary's Order No. 7086, in reference to the request of Owens & Co. for dredging at the bulkhead foot of Forty-seventh street, East river. The action of the President is

8th. Report on Secretary's Order No. 7089, condition of bulkhead west of Corlears street, East river. The action of the President in requesting the Department of Public Works to connect the gutters on each side of said street with the sewer, as recommended by the Engineer-in-Chief of this Department, was approved.

9th. Report on Secretary's Order No. 7089, condition of bulkhead west of Corlears street, East river. The action of the President in notifying the lessees to repair as recommended by the Engineer-in-Chief, and under his direction and supervision, was approved.

10th. Report on Secretary's Order No. 7113, repairs required to sheathing on deck of Pier 48, East river. The action of the President in directing the Engineer-in-Chief to repair as recommended in his report, at a cost of about \$75, was approved.

11th. Report on Secretary's Order No. 7095, dredging required in the half slip north of the pier at foot of Eighty-sixth street, East river. The action of the President in directing the Engineer-in-Chief to make requisition for dredging to the extent of about five hundred cubic yards, to obtain a depth of ten feet at mean low water, as recommended in his report, was approved.

12th. Report on Secretary's Order No. 7114, repairs required to sheathing on outer end of pier at Thirteenth street, North river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$80, was approved.

13th. Report on Secretary's Order No. 7134, submitting a detailed statement of the account rendered for dredging recently done at slips between Piers 12 and 13, and between Piers 13 and 14, East river. The action of the President in sending a copy of said report to Simon Stevens, attorney for alleged owners, was approved.

14th. Report on Secretary's Order No. 7050, that he had repaired Pier foot of East Twenty-eighth street, East river.

15th. Report on Secretary's Order No. 7057, that he had made the necessary repairs to the baths recently occupied by the public baths.

16th. Report on Secretary's Order No. 7072 that he had repaired Pier at Thirty-eighth street, North river.

17th. Report on Secretary's Order No. 7125, that he had repaired deck of Pier, new 59, North river.

18th. Report on Secretary's Order No. 7128, that he had reset, refastened and chocked fender-les at outer upper corner of Pier 44, East river.

19th. Report on Secretary's Order No. 7145, that repairs have been made to Pier, new 46, North river.

A communication from the Counsel to the Corporation in relation to the water-front on the East river, from Sixth to Thirteenth street, was

On motion, ordered to be placed on file, and the following preamble and resolution was adopted :

Whereas, A resolution of this Board was adopted on the sixth day of October, 1887, the several persons possessing or occupying piers or other structures at the ends of Sixth, Eighth, Ninth, Eleventh and Thirteenth streets, on the East river or adjacent thereto, at the limit between Sixth and Thirteenth streets, or possessing or occupying land under water land adjacent to the water-front at the ends of the said streets or within the limits aforesaid ing to the City of New York, to vacate the same and to remove the structures erected or occ them, of which resolution due notice has been given to the several persons aforesaid so fi have been ascertained, but they have not complied with such requirement.

Resolved, That the Counsel to the Corporation be and he is hereby requested to t legal proceedings as may be proper against any and all persons occupying, possessing or City property on or near the East river, between the end of Sixth street and the end of T street, for the recovery and placing the City in possession thereof and for the recovery of for detaining or using or occupying the same.

The report of the Engineer-in-Chief on Secretary's Order No. 7156, in reference to th tion of the New York Central and Hudson River Railroad Company for permission to cor extension to the northerly fender-rack of their freight transfer bridge erected at the foot Sixty-ninth street, North river, for a distance of one hundred and twenty feet within the li new pier, was,

On motion, ordered to be placed on file, and the following preambles and resolut adopted :

Whereas, A resolution was adopted at a meeting of the Board of Docks on the 4 May, 1887, which read as follows :

" Resolved, That permission be and hereby is granted to the New York Central and River Railroad Company to erect and maintain between West Sixty-eighth and Sixty-nin North river, that kind of a pier called a " Freight Transfer Bridge and Racks," in accord the plans submitted therefor, which are hereby approved ; all of the work to be done direction and supervision of the Engineer-in-Chief of this Department, in accordance with lution adopted by the Board April 28, 1880 " ; and

Whereas, Application has been made by the New York Central and Hudson River Company for permission to construct an extension to the northerly fender-rack of said Transfer Bridge " for a distance of one hundred and twenty feet within the lines of the under plans and specifications submitted ; therefore

Resolved, That permission be and hereby is granted to the New York Central and River Railroad Company to make the extension asked for, provided it be constructed v lines of the pier, established by resolution of the Commissioners of the Sinking Fund pass 27th of April, 1880, and in conformity with the plans which have been submitted to and by this Board ; and further provided, that the work of said extension shall be done under tion and supervision of the Engineer-in-Chief of this Department ; and that the New Yor and Hudson River Railroad Company shall, within ten days from date, file with the Depa written agreement to the terms and conditions of the foregoing resolution.

The following preamble and resolution was,

On motion, adopted :

Whereas, A resolution was adopted at a meeting of the Board of Docks on the 28th July, 1887,
read as follows :

" Resolved, That permission be and hereby is granted to the Maine Steamship Company to
piles and to build a temporary platform about thirty-six feet along the bulkhead and about
five feet along the pier adjoining the westerly or lower side of Pier 38, East river, and to
and construct a temporary shed thereon for the protection of property received and discharged
that, all of the said work to be done under the direction and supervision of the Engineer-in-Chief
this Department, and upon plans and specifications to be first submitted to and approved by the
and ; provided, that the said Maine Steamship Company agree to pay as compensation for the use
the land under water occupied by said platform twenty-five cents per square foot per annum
the existence of said platform, to be paid monthly in advance to the Treasurer of this Depart-
ment ; and it is also specially provided and understood that this permit is for a temporary platform
shed only, and that it is revocable at any time by the Board governing the Department of Docks ;
further provided, that this permit shall not take effect until the petitioners have filed a written
assent satisfactory as to form with the Board governing the Department of Docks, to the effect
that they will assent to and comply in all particulars to the conditions aforesaid, and will at any
time within twenty days from receiving written notice from the Board of Docks so to do, remove any
and all structures of every kind that may be built and erected under this permit, and restore the
premises to the same condition that they are in at date hereof."

And whereas, It appears that the Maine Steamship Company have failed to file a written agree-
ment to remove any and all structures within twenty days after date of notice from this Department,
provided for in the foregoing resolution ;

Resolved, Therefore, that the resolution above cited be and hereby is cancelled and revoked, to
take effect on and after this date, November 10, 1887.

Resolved, That permission be and hereby is granted to the Maine Steamship Company, to drive
piles and build a temporary platform about thirty-six feet along the bulkhead, and about forty-five
feet along the pier adjoining the westerly or lower side of Pier 38, East river, for the reception and
delivery of property in charge of said company, all of the said work to be done under the direction
and supervision of the Engineer-in-Chief of this Department, and upon plans and specifications
which have been submitted to and approved by the Board ; provided that the said Maine Steamship
Company agree to pay as compensation for the use of land under water occupied by said platform,
the sum of twenty-five cents per square foot per annum, to be paid monthly at the end of each
month to the Treasurer of this Department ; and it is specially understood and provided that this
permit is for a temporary platform only, and that it is revocable at any time by the Board governing
the Department of Docks, and is to remain only during the will and pleasure of said Board ; and
further provided, that this permit shall not take effect until the petitioners shall, within ten days
from the date of this resolution, file a written assent to the terms and conditions of the resolution,
in an agreement in form satisfactory to the Board of this Department, that they will at any time

within twenty days after receiving written notice from the Board of Docks so to do, remove and all structures of every kind that may be built and erected under this permit, and restore premises to the same condition that they are in at date hereof.

The report of the Treasurer, for the period ending November 10, 1887, amounting \$47,531.56, was received and ordered to be spread in full on the minutes, as follows :

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks held November 17, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held November 10, 1887, were read and approved.

The following communications were received, read and,

On motion, laid on the table :

From Health Department—Requesting removal of blocks of granite and gateway from the southerly line of premises foot of Seventeenth street, East river.

From Old Dominion Steamship Company—Respecting the leasing of the bulkhead between Piers, new 26 and 27, North river, and the one hundred and twenty-five feet next south of Pier, new 26, before the completion of the bulkhead.

From J. Hahn, Jr., attorney for Hencken & Co.—Requesting delay in the matter of fixing the compensation for use of land under water, foot of Ninety-fourth street, East river.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Department of Public Works—Reporting hole in Pier foot of Eighth street, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Department of Public Charities and Correction—Requesting repairs to coal dock at Randall's Island, East river. Referred to the Engineer-in-Chief to examine and report.

From Central Gas-light Company—Giving the names of the parties who obstruct their wharf at Port Morris. Referred to Dock Master, John Callan.

From Maine Steamship Company—Agreeing to the terms and conditions of resolution adopted November 10, 1887, for the erection of platform at Pier 38, East river.

From Samuel Kilpatrick—Enclosing diagram of property at Twenty-ninth street and Avenue East river, which the owner, James Sutherland, desires to sell to the City. Referred to Commissioners Matthews and Marshall.

From Glen Cove Manufacturing Company—Acknowledging receipt of communication respecting the sale of one hundred and twenty-five feet of bulkhead west of Jackson street, East river.

From Morris & Cuming Dredging Company—Requesting that the time to complete the work removing the remains of burned Pier, new 37, North river, near the foot of Charlton street, under contract No. 253, be extended from October 8, 1887, to November 7, 1887. The Engineer-in-Chief having reported that the time for the completion of the contract may be properly and justifiably extended to the 7th November, 1887, as he did not know of any damage the City's interest had suffered by the delay in question,

On motion, the time was extended as requested.

From William P. Clyde & Co.—Requesting permission to substitute another form of truss for one they were granted permission to erect on Pier 15 East river, and enclosing tracing of the same. The Engineer-in-Chief having recommended that the substitution be authorized and the plan approved,

On motion, his recommendation was adopted.

From A. T. Decker & Co.—Requesting permission to erect a derrick on the bulkhead, twenty-five feet rear of backing-log north of Bethune street, North river. Permit granted, to be and remain during the will of the Board.

From Patrick Dunican—Requesting permission to place an ordinary derrick for hoisting coal at the foot of One Hundred and Twenty-ninth street, North river. Referred to the Dock Master to examine and report.

From Cavanagh & Collins—Requesting permit to retain hoisting derrick on the bulkhead north of Pier, new 1, North river. Permit granted, to be and remain during the will of the Board.

From The Canal and Lake Steamboat Co.—Requesting permit to maintain two derricks and dolly-houses on Pier 6, East river. Permit granted, to be and remain during the will of the Board.

From Old Colony Steamboat Company—Agreeing to the terms and conditions of resolution relating to platform and shed between Piers, old 28 and 29, North river.

From B. Zoeller—Calling attention to the condition of Pier 4, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Charles L. Bucki & Co.—Requesting renewal of permit for hoisting engine on bulkhead between Little West Twelfth and Thirteenth streets, North river. Permit granted, to be and remain during the will of the Board.

From Consumers' Ice Company—Requesting renewal of permit for ice-bridge and engine-house on the bulkhead between Horatio and Jane streets, North river. Permit granted, to be and remain during the will of the Board.

From Patrick J. Brady, Dock Master—Reporting that repairs are required to the pavement at approach to platform foot of West Twenty-fourth street, North river. The action of the President in directing the Engineer-in-Chief to examine and repair where necessary was approved.

From J. B. Erwin, Dock Master—Reporting small holes in deck of Pier at West Fifty-first street, North river. The action of the President in directing the Engineer-in-Chief to repair where necessary was approved.

From George A. Dearborn, Dock Master—Reporting that a roadway has been made to the bulkhead foot of Seventy-sixth street, East river, and the street planked about half way to Avenue A by an association of stevedores and coal dealers. Referred to Commissioner Marshall.

From Charles B. Husted, Dock Master :

1st. Reporting favorably on the application of A. T. Decker & Co. for permission to erect derrick on the bulkhead north of Bethune street, North river.

2d. Replying to communication from Department of Street Cleaning, respecting the cleaning of the piers in his district. Referred to Commissioner Marshall.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending November 12, 1887.

3d. Reporting repairs required to Pier 5, North river, Piers at West Fifteenth street and West Nineteenth street, North river, and also reporting that portion of fence on bulkhead, between Seventeenth and Eighteenth streets, East river, has been torn down and destroyed. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his reports, was approved.

4th. Report on Secretary's Orders Nos. 7132 and 7133 respecting the resolutions and ordinances adopted by the Common Council for the regulating and grading, etc., of Thirty-seventh and Thirty-ninth streets from First avenue to the East river. The President authorized to send copies of said reports to Honorable Abram S. Hewitt, Mayor, and Honorable Henry R. Beekman, President of the Board of Aldermen, with the request that the ordinances passed February 24 and March 22, 1887, be rescinded.

5th. Report on Secretary's Order No. 7088, in relation to certain obstructions at foot of Second avenue, Harlem river, consisting of starter's house and watering-trough located thereat. The Secretary directed to send copy of said report to D. Phoenix Ingraham.

6th. Report on Secretary's Order No. 7093, that he had removed piles, etc., from bulkhead at One Hundred and Fifteenth street, North river, at a cost of \$50.21. The Treasurer authorized to make out bill for said amount and send it to William Decker & Son for collection.

7th. Report on Secretary's Order No. 7103, in reference to the application of the Department of Public Charities and Correction for repairs to the bulkhead at One Hundred and Twentieth street, Harlem river. Referred to Commissioner Marshall.

- 9th. Report on Secretary's Order No. 7085, condition of and repairs required to the bulkhead between Piers 45 and 46, East river. The action of the President in notifying the estate of Josiah [redacted], deceased, to repair, as recommended by the Engineer-in-Chief of this Department and under direction and supervision, was approved.
- 10th. Report on Secretary's Order No. 6974, that he had directed and superintended the removal and replacing of fender piles on the ends of Piers 50 and 51, East river.
- 11th. Report on Secretary's Order No. 7007, that he had removed ten white oak piles that were [redacted] outside of the established bulkhead-line foot of Ninety-ninth street, Harlem river.
- 12th. Report on Secretary's Order No. 7015, that he had directed and superintended the repair of the sheathing on deck of Pier foot of Seventy-ninth street, East river.
- 13th. Report on Secretary's Order No. 7019, that he had removed the structure existing at Pier One Hundred and Seventeenth street, Harlem river.
- 14th. Report on Secretary's Order No. 7029, that he had superintended driving a cluster of piles [redacted] premises, Barclay street, North river.
- 15th. Report on Secretary's Order No. 7070, that he had directed and superintended the erection of coal bins at east side of Second avenue, at Harlem river.
- 16th. Report on Secretary's Order No. 7101, that he had directed and superintended driving [redacted] on south side and end of Pier 6, North river.
- 17th. Report on Secretary's Order No. 7104, that he had repaired sheathing on deck of Pier foot of Ninety-sixth street, North river.
- 18th. Report on Secretary's Order No. 7105, that he had directed and superintended repairing bulkhead north of Bank street, North river.
- 19th. Report on Secretary's Order No. 7111, that he had directed and superintended driving piles the outer end of ferry-rack north of Ninety-ninth street, Harlem river.
- 20th. Report on Secretary's Order No. 1883, reference to plans for Pier, new 25, North river.
- 21st. Report on Secretary's Order No. 5810, that he had superintended the work of dredging between Twentieth and Twenty-first streets, North river.
- 22d. Report on Secretary's Order No. 6318, that he had supervised the erection of shed on the bulkhead north of One Hundred and Thirty-fifth street, west side of Harlem river.
- 23d. Report on Secretary's Order No. 6321, that he had superintended driving piles in front of the bulkhead north of One Hundred and Thirty-fifth street, west side of Harlem river.
- 24d. Report on Secretary's Orders Nos. 6358 and 6459, that he had superintended the erection of shed, stable, office and fence on bulkhead between One Hundred and Thirty-seventh and One Hundred and Thirty-eighth streets and at One Hundred and Thirty-eighth street, west side of Harlem river.
- 25th. Report on Secretary's Order No. 6551, that he had superintended the erection of platform scales, etc., at bulkhead north of One Hundred and Thirty-sixth street, west side of Harlem river.

25th. Report on Secretary's Order No. 6751, that he had directed and superintended repairing Pier at Third street, East river.

26th. Report on Secretary's Order No. 6955, that he had directed and superintended repairing bulkhead between Forty-third and Forty-fourth streets, East river.

27th. Report on Secretary's Order No. 7123, that he had made requisition for dredging in slip adjoining south side of Pier, old 34, North river and supervised the work thereat.

28th. Report on Secretary's Order No. 7127, that he had repaired Pier 37, East river.

29th. Report on Secretary's Order No. 7137, that he had repaired Pier at Forty-sixth street, North river.

30th. Report on Secretary's Order No. 7148, that John Gillies took Bracing Pile Driver No. 8 on November 8 and returned same November 9, instant.

31st. Report on Secretary's Order No. 7157, that he had repaired sheathing on deck of Pier at West Eighteenth street, North river.

32d. Report on Secretary's Order No. 7161, that he had refastened two fender piles under dump of Department of Street Cleaning on south side of Pier at Nineteenth street, North river.

33d. Report on Secretary's Order No. 7162, that he had refastened two tender piles on north-west corner of Pier at Fifteenth street, North river.

The following resolution was,

On motion, adopted :

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans, specifications and form of contract for building a new wooden pier in place of Pier, old 46, East river.

The President reported that he had received from Ronan & Co., the sum of \$100 in settlement of claim for damage done to Pier 46, East river, and the same was paid to the Treasurer.

On motion, his action was approved.

The Treasurer, Commissioner Matthews, reported that on October 28, 1887, he had awarded to Brown & Fleming the right to fill in, to the extent of about 30,000 loads of clean earth filling, behind the bulkhead wall, between Piers, new 26 and 27, North river, at the rate of fifteen and one-half cents per single cart load, the same to be completed on or before May 15, 1888.

On motion, his action was approved.

The report of the Engineer-in-Chief, on Secretary's Order No. 7020, submitting plans, form of contract and specifications for building a new pier foot of One Hundred and Seventeenth street, Harlem river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the form of contract and specifications, as prepared and submitted by the Engineer-in-Chief, for building a new pier, with a crib-bulkhead, at the foot of East One Hundred

and Seventeenth street, Harlem river, together with the necessary plans therefor, be and they hereby be approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting estimates for doing the said work inserted in the papers designated by law.

The report of the Engineer-in-Chief, on Secretary's Order No. 7139, stating that he had examined the plans and specifications submitted by the New York Central and Hudson River Railroad Company, for the erection of a shed on Pier, new 62, North river, and find them proper and sufficient for the purpose and recommending that they be approved, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the New York Central and Hudson River Railroad Company, lessees of Pier, new 62, at or near the foot of West Thirty-second street, North river, to erect and maintain thereon a shed for the protection of railroad freight received and discharged thereat, the said shed to be constructed subject to the regulations required by section 772 of "the New York City Consolidation Act of 1882," in conformity with the requirements of the building and fire laws of the City of New York and in accordance with the plans and specifications submitted therefor, which are hereby approved, provided that the same shall revert to and become the property of the City of New York at the expiration or sooner termination of a lease for said pier to be made under resolution of the Board, adopted January 28, 1887, and the agreement made under such resolution. The said work to be done under the direction and supervision of the Engineer-in-Chief of this Department, provided that the said company shall, within ten days from the date hereof, assent in writing to the conditions of this resolution as aforesaid.

The following preambles and resolution were,

On motion adopted :

Whereas, By virtue of the terms and conditions of a public sale held 30th day of March, 1885, there was granted and assigned to James L. Miller, he being the highest bidder therefor, for the term of three years from the 1st day of May, 1885, at a yearly rent or sum of \$300 per annum, payable quarterly in advance, all the wharfage or crannage privilege, arising or accruing from the use and occupation of that certain wharf property known and designated as the bulkhead at Forty-third street, East river,

And whereas, In and by the indenture made by said James L. Miller, between the Mayor, Aldermen and Commonalty of the City of New York, acting through its Department of Docks, of the first part, and James L. Miller of the second part, it is expressly agreed and provided between the parties thereto, that in the event of the said yearly rent or sum of money, or any part thereof, remaining unpaid for the space of ten days after the same shall have become due and payable in accordance with the terms and conditions of the lease entered into between the said James L. Miller and the Department of Docks, it should be lawful for the said Department of Docks to serve or cause to be served upon the said James L. Miller a notice in writing, declaring that the said lease, made as aforesaid, had become utterly null and void and thereupon the said Department of Docks should claim to have again, *repossess, and enjoy* said wharfage rights and premises in all respects *and in like manner as though such lease to said James L. Miller had never been made or executed.*

And whereas, The said James L. Miller has failed and neglected to pay the said rent o money, as provided for in and by said lease, which was agreed to be paid in accordance terms and conditions thereof, and is now in arrears to this Department for a sum of money an to \$675, or thereabouts, on account thereof, therefore, it is

Resolved, That said lease to the said James L. Miller as aforesaid be and the same i declared utterly null and void from and after November 17, 1887 ; and further

Resolved, That notice in writing of such action and determination of this Board on l the Mayor, Aldermen and Commonalty of the City of New York, to have again, repose upon and enjoy said wharfage rights and all other franchises, powers, rights and privilege granted to or conferred upon the said James L. Miller, and to enter peaceably and quietly i session of the premises referred to, in accordance with the terms and conditions of the executed by the said James L. Miller, be served on him, and that he be ordered, requi directed to quit and surrender the occupancy of said premises on and after the date of this res November 17, 1887.

The Auditing Committee presented an audit of thirty-five bills or claims, amoun \$12,094,41, which was approved and ordered to be spread in full on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held November 18, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held November 17, 1887, were read and approved.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From St. John's Guild—Requesting the Department to place a swing bolt on the bulkhead between Piers, new 56 and 57, North river, in order to secure their barge thereat. Referred to the engineer-in-Chief to examine and report.

Henry P. McGown—Requesting permission to fill in in front of lots at One Hundred and 24th street, Harlem river. Referred to Engineer-in-Chief to examine and report.

From Hoboken Land and Improvement Company—Requesting permission to erect the additional shed shown on the accompanying plan at ferry premises, foot of Barclay street, North river. Permission granted to erect an additional temporary shed on the north side of ferry premises, foot of Barclay street, North river, the same to remain only until the permanent structure can be erected. The said shed to be erected under the direction and supervision of the Engineer-in-Chief of this Department.

From Garrett Roach, attorney—Requesting permission to drive four spring-piles on the north side of Pier foot of Eighth street, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, provided that the said permit shall not in any manner affect or prejudice the rights of the City in the premises, was approved.

From George A. Dearborn, Dock Master—Reporting that cleats are required at the bulkhead foot of Seventy-sixth street, East river. The Engineer-in-Chief directed to place two cleats there.

From Engineer-in-Chief:

1st. Reporting non-commencement of dredging at bulkhead south of Cherry street, East river, as ordered. The Engineer-in-Chief directed to make requisition for dredging thereat; at the expiration of the time given, Henry Keteltas to commence said work, and report the cost thereof for collection from the alleged owners.

2d. In reference to and submitting new plan respecting the bulkhead wall at West Fifty-second street section, North river.

On motion, the report of the Engineer-in-Chief was received and the recommendation contained therein adopted.

3d. In reference to the protection to water-pipes on Pier, new 43, North river, to prevent same from freezing. The Engineer-in-Chief directed to do the work thereat as recommended in his report, at a cost of about \$10.

4th. Report on Secretary's Order No. 7165, repairs required to Pier 4, East river. The President authorized to notify the New York Central and Hudson River Railroad Company, lessees, to repair the east half, and James Cruikshank, alleged owner or agent of alleged owner of west half of said pier, to repair as recommended by and under the direction and supervision of the Engineer-in-Chief of this Department.

5th. Report on Secretary's Order No. 7129, repairs required to Pier foot of Seventh avenue, Harlem river. The action of the President in directing the Engineer-in-Chief to repair as recommended in his report, at a cost of about \$60, was approved.

A communication from the Civil Service Supervisory and Examining Boards, transmitting eligible list of Stenographers and Type-writers, was,

On motion, ordered to be placed on file, and the following resolution was adopted:

Resolved, That Webster H. Gilon, who has been certified to by the Civil Service Supervisory and Examining Boards as eligible for such position, be and hereby is appointed as Stenographer and

Type-writer in the service of this Department, with compensation at the rate of \$66.66 per month, to take effect on and after November 21, 1887.

The following resolution was,

On motion, adopted :

Resolved, That Berthold Sommer, Clerk in this Department, be and hereby is assigned to duty under the direction and supervision of the Engineer-in-Chief, to take effect on and after November 21, 1887.

On motion, the resolution adopted by the Board on the 16th day of September, 1887, directing the Engineer-in-Chief to have built, with the force of the Department, a dump, with an approach the same on the westerly side near the outer end of Pier, new 32, East river, near the foot of Pike Slip, at a cost not exceeding \$950, was amended to read as follows :

Resolved, That the Engineer-in-Chief be and is hereby directed to have built, with the force of the Department, as soon as practicable, a dump, with an approach to the same on westerly side of and near the outer end of Pier, old 44, East river, near the foot of Rutger Slip, at a cost not exceeding \$950, the same being for the use of the Street Cleaning Department.

The Treasurer, Commissioner Matthews, submitted balance-sheet for the month of October, 1887.

On motion, the President was authorized to transmit same to the Comptroller of the City.

On motion, Patrick Sheehan, John Mahoney, Francis Moss, Matthew J. Coggy, were appointed Laborers ; William Porter, Henry McShane and Christopher Webb were appointed Dock Builders, and Peter Girard, Dock Builder, was discharged.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held November 22, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The Board proceeded to open the estimates for furnishing the Department with 1,500,000 feet B. M., sawed yellow pine timber, advertised to be opened this day at 12 o'clock M.

A representative of the Comptroller was present.

Five estimates were received as follows :

1. From Cooney, Eckstein & Co., with certified check for \$575.....	\$26 90 per M feet B.
2. From Joseph Hilton, with certified check for \$575.....	28 50 "
3. Joseph W. Duryee, with certified check for \$575	27 87 "
4. Dexter Hunter, with certified check for \$575.....	25 95 "
5. Francis E. Southard, with certified check for \$575.....	33 75 "

On motion, the bids were laid on the table for further consideration and the Secretary directed to transmit to the Comptroller the security deposits made by said bidders and accompanying estimates.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held November 23, 1887.

Present—Commissioners Stark Matthews and Marshall.

The minutes of the meetings held November 19 and 22, 1887, were read and approved.

A communication from the Engineer-in-Chief, recommending the discharge of certain employees, was,

On motion, referred to Executive Session.

From Peter Lang and others, employees of the Department—Requesting the Board to allow them \$3.50 per day for a day of nine hours. Referred to Executive Session.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to

From Counsel to the Corporation—In reference to the claim of \$40 penalty imposed on George Blair for violation of the rules and regulations. The action of Commissioner Marshall replying thereto approved.

From Rice & Bijur, attorneys—Enclosing copies of preamble and resolution adopted by East River Ferry Company and Metropolitan Ferry Company, agreeing to the terms and conditions of the resolution adopted by the Board on the 22d day of July, 1887, for the assignment and transfer of the leases of the East River Ferry Company, at East Thirty-third street, East river, to the Metropolitan Ferry Company. The Secretary directed to file with the assignment.

From E. Ellery Anderson, attorney—In reference to the removal of fence, etc., erected by Nesbitt's Sons, at the foot of Thirty-seventh street, East river.

From Fulton Market Fishmongers' Association—Requesting permit to dredge at Fulton Market

The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Horatio Hall, agent Maine Steamship Company—Stating that it is not the intention of the company to erect a shed over platform adjoining Pier 38, East river, without the consent of the Department.

From New York City Ice Company—Requesting permit for weigh office, engine-house and office near the foot of Gansevoort street, North river. Permit granted, to be and remain during the will of the Board.

From William P. Clyde & Co.—Enclosing consent of John F. Doyle, agent of the owners of the south half of Pier 15, East river, to the erection of a shed on said pier.

From Samuel Sloan, President Delaware, Lackawanna and Western Railroad Company—Stating the Board will meet on Friday next, when the formal resolution required by the Department in relation to Pier, new 41, North river, will be passed.

From New York Central and Hudson River Railroad Company—In reference to the filling in to be done by the Department in front of the approach to Pier, new 61, near the foot of West Thirty-first street, North river. Referred to the Engineer-in-Chief to examine and report.

From the Department of Public Works—In reference to connecting the gutters on both sides of Forty-seventh street, East river, with the sewer. Referred to the Engineer-in-Chief to consult with the Engineer in charge of Sewers, Department of Public Works, in relation thereto.

From New York Steam Company—Requesting permit to place a small pipe from the foot of Vesey street, North river, to the bulkhead on Pier, old 23. Referred to the Engineer-in-Chief to examine and report.

From Mutual Benefit Ice Company—Requesting renewal of permit for ice bridge and weigh-house on the bulkhead between Little West Twelfth street and Bloomfield street, North river. Permit granted, to be and remain during the will of the Board.

From Central Railroad Company of New Jersey—Requesting permission to rebuild the dock back of the north ferry-rack at Pier 15, North river. Referred to the Engineer-in-Chief to examine and report.

From Patrick Curley and George A. Dearborn, Dock Masters—Reporting that the piers at Eighty-ninth street, East river, and the bulkhead from Piers, new 36 to 43, North river, are in need of leaning. Referred to Commissioner Marshall.

From David W. Bogert, Dock Master—Reporting that the pavement adjoining bulkhead between Piers, old 34 and 35, 35 and 36, and at the south corner of Pier, old 35, North river, is in need of repairing. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

From Charles H. Pendergast, Dock Master—Reporting that repairs are required to Piers 46, and 61, East river. The action of the President in directing the Engineer-in-Chief to examine

and report repairs required to Pier 61 and repair Piers 46 and 60, East river, if necessary, approved.

From Charles H. Thompson, Dock Master—Reporting hole in bulkhead between Piers 7 and 8, East river. The action of the President in directing the Engineer-in-Chief to examine and if necessary, was approved.

From John Callan, Dock Master—Reporting that he had stopped Heron & Co. from filling in at One Hundred and Ninth street, Harlem river.

From Charles H. Thompson, Dock Master :

1st. Reporting that repairs have not been commenced to the westerly side of Pier 3, East river, by the alleged owners. Referred to Commissioner Marshall.

2d. Reporting that W. R. Grace & Co. have placed a new tally-house on Pier 13, East river, in place of the old one, which has been removed.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending November 19, 1887.

3d. Reporting that he had directed that Laborer and Acting Watchman Louis F. Merlino not be again assigned to duty as Acting Watchman, for having been found asleep while on duty, and recommending that his action be approved.

On motion, the action of the Engineer-in-Chief was approved.

4th. Report for the quarter ending October 31, 1887.

On motion, the President was authorized to transmit said report, together with the report of Chief Clerk for the same period, to Hon. Abram S. Hewitt, Mayor.

5th. Report on Secretary's Order No. 6851, in reference to the application of Wm. G. Tuck for permission to replace fence destroyed by fire foot of One Hundred and Seventeenth street, Harlem river. Referred to Commissioner Marshall.

6th. Report on Secretary's Orders Nos. 7102 and 7109, inclosing reports of cement tested by E. W. Fisher. The Secretary directed to send him copies of said report.

7th. Report on Secretary's Order No. 7166, repairs required to Pier foot of Eighth street, East river. The President authorized to request the Counsel to the Corporation to advise the Board what action it shall take in the matter.

8th. Report on Secretary's Order No. 7175, repairs required to coal dock, Randall's Island, East river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$450.

9th. Report on Secretary's Order No. 6784, that he had directed and superintended repairs to Pier at Sixth street, East river.

10th. Report on Secretary's Order No. 7153, that he had repaired sheathing on deck of Pier 4, East river.

10th. Report on Secretary's Order No. 7158, that he had directed and superintended the driving of piles for the foundation of Dog Pound at foot of East One Hundred and Second street, Harlem river.

11th. Report on Secretary's Order No. 7164, that he had replaced fence torn down and repaired at bulkhead between Seventeenth and Eighteenth streets, East river.

12th. Report on Secretary's Order No. 7176, that he had directed and superintended the driving of four spring piles on the north side of Pier at Eighth street, East river.

13th. Report on Secretary's Order No. 7169 that he had repaired sheathing on deck of Pier at Fifty-first street, North river.

14th. Report on Secretary's Order No. 6148 in reference to superintending repairs to Pier 40, North river.

15th. Report on Secretary's Order No. 6396 that he had repaired that portion of the bulkhead between Piers 47 and 48, East river, belonging to the city and had superintended repairing the remainder of said bulkhead by alleged owners.

16th. Report on Secretary's Order No. 6583 that he had superintended the erection of brick building on the north side of East One Hundred and Sixteenth street, Harlem river.

17th. Report on Secretary's Order No. 6759, that he had superintended the laying of a ten-inch iron pipe under Pier, old 1, North river.

18th. Report on Secretary's Order No. 7055, that he had conformed with the request of the Department of Street Cleaning by delivering to said Department the old timber taken from the old wharf at Thirty-seventh street, North river.

19th. Report on Secretary's Order No. 7141, that he had repaired Pier, new 43, North river.

20th. Report on Secretary's Order No. 7147, that he had superintended and directed the repairs to the ferry rack at Chambers street, North river.

21st. Report on Secretary's Order No. 7152, that he had repaired sheathing on outer end of Pier at Thirteenth street, North river.

The communication from the Engineer-in-Chief, in reference to the new plans submitted to the Commissioners of the Sinking Fund by the Board on the 27th December, 1886, for the improvement of the water-front from Twenty-fourth to Twenty-eighth street, East river, was,

On motion, ordered to be placed on file and the following preamble and resolution were adopted :

Whereas, Plans for the improvement of the water-front from Twenty-fourth to Twenty-eighth street, East river, without an exterior public wharf, street or place, were heretofore on or about the 17th of December, 1886, determined by this Department and forwarded to the Commissioners of the Sinking Fund for adoption, pursuant to the provisions of chapter 517 of the Laws of 1884 ; and

Whereas, *The Counsel to the Corporation*, under date of 13th May, 1887, in a communication to the *Comptroller*, has given his opinion that power does not exist to establish a system of improve-

ment of the water-front which shall not include an exterior public wharf, street or place the water-front to its whole extent ; therefore,

Resolved, That the Commissioners of the Sinking Fund are hereby requested to re plans to this Department for further consideration and amendment.

A communication from the Engineer-in-Chief submitting contracts, etc., for removing 35, North river, and for building Pier, new 24, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plan, form of contract and specifications as prepared and submitted by the Engineer-in-Chief for removing Pier, old 35, North river, and the shed thereon, and for building new pier northerly thereof to be known as Pier, new 24, North river, be and they hereby approved, subject to the approval of the Counsel to the Corporation as to form, and the Board be and hereby is directed to have a sufficient number of blank forms of proposals printed and advertisements inviting estimates for doing the said work inserted in the papers designated by

The following resolution was,

On motion, adopted :

Resolved, That the contract opened on the 22d of November, 1887, for furnishing the material with 1,500,000 feet of sawed yellow pine timber, B. M., be and hereby is awarded to Hunter, he being the lowest bidder, upon the approval of the sureties by the Comptroller of

On motion, the compensation for the use of berth occupied by Kennedy and Rhineha at the inner end and upper side of Pier at the foot of Fifty-first street, North river, was fixed at \$100 per week, beginning December 1, 1887, to continue during the pleasure of the Board, but no later than April 1, 1888.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending November 23, 1887, amounting to \$25,330.58, which was received and ordered to be spread on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS,
CHARLES H. MARSHALL, } Auditing Committee.

NEW YORK, November 23, 1887.

On motion, the President was authorized to transmit the same, with proper requisitions for the amounts, to the Finance Department for payment.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held November 23, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The application of Brown & Fleming for a reduction of rent for the privilege of using the bulk-head foot of Canal street, North river, for a dumping-board, was,

On motion, referred to President Stark with power.

The communication from Peter Lang and others, employees in the Department, requesting the Board to allow \$3.50 per day for a day of nine hours, was,

On motion, ordered to be placed on file, and the President authorized to advise that the Commissioners do not consider it expedient to make the change referred to.

The communication from the Engineer-in-Chief recommending the discharge of Sunday Watchmen, Dock Builders and Laborers was,

On motion, ordered to be placed on file and the following were discharged :

James Boyle, Watchman

James Byrnes, Dock Builder.

Edward O. Halloran, Laborer.

William Lyons, Laborer.

On motion, the appointment of Bernard Flood was rescinded and annulled.

On motion, William Armitage, James King and Alexander Bird were appointed Laborers and Patrick McManus, Dock Builder.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held December 1, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meetings held November 23, 1887, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action as stated, to wit :

From Glen Cove Manufacturing Company—In reference to wharf property near the Jackson street, East river. Referred to Executive Session.

From John J. Ryan, Dock Master—In reference to the erection of derricks on the bulkhead of One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North river. Referred to Executive Session.

From George Grossman—For permission to erect a temporary coal-derrick at One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North river. Referred to Executive Session.

From Engineer-in-Chief :

1st. In reference to deposit of material and certain occupation upon the newly-made bulkhead between West Fifty-fifth and Fifty-eighth streets, North river. Laid on the table. The President authorized to request the Counsel to the Corporation to prepare a form of notice to be served upon the occupants and owners of said material.

2d. Report on Secretary's Order No. 7220, in reference to the application of the Department of Street Cleaning for the assignment of the whole of the southerly or westerly side of Pier, East river. Referred to Executive Session.

3d. Report on Secretary's Order No. 7211, submitting list of places for the dumping of snow and ice. Referred to Executive Session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated,

From Counsel to the Corporation :

1st. In relation to the action of Dock Master John J. Ryan, respecting the piling of bulkhead at Seventy-ninth street, North river.

2d. Approving form of contract for removing Pier, old 27, and building Pier, new 27, North river.

3d. Approving form of contract for building crib-bulkhead at One Hundred and Fifty street, North river.

4th. In reference to claim against George Blair.

5th. In relation to the responsibility of the Department of Street Cleaning to clean the streets and bulkheads under the control of this Department.

from the New York Central and Hudson River Railroad Company :

- 1st. Requesting permission to repair bulkhead, between Piers, old 27 and 28, North river, in accordance with plans and specifications submitted.
- 2d. Requesting permission to lay down and maintain a line of double railroad tracks on the side of Pier, new 61, North river, and a line of single railroad tracks on the centre of Pier, new 62, North river, as shown on map submitted. The action of the President in directing the Engineer-in-Chief to examine and report on the said applications was approved.
- 3d. Agreeing to the terms and conditions of the resolutions for the erection of sheds on Piers, new 61 and 62, North river.
- 4th. Requesting the names of the owners of the west half of Pier 4, East river.
- 5th. Stating that the required repairs will be made to Piers 4, 5 and 6, East river, and the bulkhead.
- 6th. The action of the Secretary in furnishing the desired information was approved.

From Department of Street Cleaning :

- 1st. In reference to cleaning Piers at Bloomfield, Bogart, Jane and Horatio streets, North river, and enclosing the report of the District Superintendent in relation thereto. The Secretary directed to send copy of said report to Charles B. Husted, Dock Master.
- 2d. In relation to placing the new dump at Pier 44, East river, and requesting the use of the side of the south or westerly side of said pier. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

From New York, Lake Erie and Western Railroad Company—Requesting permission to repair the foot of Twenty-third street, North river. The action of Commissioner Marshall in granting a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From North and East River Steamboat Company :

- 1st. Requesting permission to cut string-piece on Pier, new 32, East river. The action of Commissioner Marshall in granting a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.
- 2d. Requesting permit to place a tally-house on Pier, new 32, East river. Permission granted, to be and remain during the will of the Board.

From Louis D. Beck—In reference to the erection of a derrick at the foot of West Seventy-ninth street, North river, and at Manhattanville.

From Delaware, Lackawanna and Western Railroad Company—Enclosing copy of resolution of the Board of Managers of said Company agreeing to the covenants and conditions of the lease of Pier, new 41, North river, made and executed December 24, 1881, and also ratifying and confirming the assignment of said lease bearing same date. The Secretary directed to file said agreement with the lease.

From Port Chester Transportation Company and Gedney's Freight and Passenger—Requesting permission to cut gangways on the upper side of Pier, new 32, East river. The action of Commissioner Marshall in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Maritime Association of the Port of New York—Requesting the length in miles of built-up portion of the wharfage front for the years 1883, 1884, 1885, 1886 and 1887. Referred to the Engineer-in-Chief.

From New York Floating Dry Dock Company—Requesting permit to drive piles on the side of Pier 49, East river. The action of Commissioner Marshall in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Knickerbocker Ice Company—Requesting permit to repair Piers at Twentieth, Twenty-second and Forty-third streets, North river. The action of Commissioner Marshall in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Alexander M. Goge, Draughtsman—Requesting an increase in compensation. Referred to the Engineer-in-Chief.

From G. B. Lawton—In relation to the water-front, between Gansevoort and West Thirtieth streets, North river. The Secretary directed to advise that the Board has the matter referred under consideration.

From Fred W. Wright, lessee—In reference to the possession of Pier 43, East river.

From George Ferris—Requesting permit for a watchman's house on Pier 61, East river. Permit granted, to be and remain during the will of the Board.

From J. A. Bostwick and W. H. Starbuck, lessees of Pier 49, East river. Requesting permission to make certain changes on said pier. The action of the President in issuing a permit provided the owners consent and the work is done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From William J. McKenna—Requesting the Board to grant B. Kirsch permission to anchor catboat foot of Seventeenth street, East river, during the winter. Referred to the Dock Master to examine and report.

From Dennis Mahoney—Requesting permission to run a six-inch drain-pipe, from No. 171 street through the bulkhead between Broome and Delancey streets. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

The Board suspended the regular order of business for the purpose of receiving the estimate advertised to be opened this day for preparing for and building a new crib-bulkhead at the foot of West One Hundred and Fifty-eighth street, North river, and for dredging thereat.

A representative of the Comptroller was present.

estimates were received, as follows :

Joseph Walsh, with check, \$250	\$19,000 00
John M. Monks, with check, \$250	21,675 00
John W. Flaherty, cash, \$250	18,500 00
Duncan A. Gillies, cash, \$250	14,360 00

On motion, the Secretary was directed to transmit to the Comptroller the security deposit by said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for preparing for and building a new crib-bulk-head at the foot of West One Hundred and Fifty-eighth street, North river, and for dredging thereat, and hereby is awarded to Duncan A. Gillies, he being the lowest bidder, upon the approval of the Comptroller of the City.

The Board then proceeded with the regular order of business.

The following communications were received, read, and on motion ordered to be placed on file :

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending November 26, 1887.

3d. Reporting dredging required north of crib, Pier foot of One Hundred and Thirty-first street, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to make provision for dredging about 450 cubic yards, as recommended in his report, was approved.

4th. Recommending that certain old material, which is useless to the Department, be sold at public auction, in accordance with law, at the earliest possible date.

On motion, the report was received and recommendation adopted.

5th. In relation to the claim of the propellor "C. A. Dickey," for assistance rendered to the "Manhattan," at Pier foot of Fifty-first street, North river, on the 13th of October, 1887. Referred to the Treasurer, Commissioner Matthews, with power to settle.

6th. Report on Secretary's Order No. 7197, that the New York Steam Company have abandoned their purpose of laying steampipe at bulkhead south of Pier, old 23, North river, and desire to withdraw application dated November 12, 1887.

7th. Report on Secretary's Order No. 6942, that F. M. Orton & Co. state that they do not intend to drive any piles at bulkhead between Thirty-eighth and Thirty-ninth streets, East river, for the present, under permit issued September 6, 1887, and recommending that the permit be revoked.

On motion, the recommendation was adopted.

8th. Report on Secretary's Order No. 6709, that he had repaired the damage done to Pier, new North river, by the Baltimore and Ohio Railroad Company during their occupancy of said pier,

at a cost of \$82.35. The Treasurer authorized to collect said amount from the Baltimore and Ohio Railroad Company.

9th. Report on Secretary's Order No. 7155, in reference to the application of the Central Railroad Company of New Jersey to repair dock back of north ferry-rack at Pier 15, North river. The action of Commissioner Marshall in granting them permission to repair the north ferry-rack and the small pier north of said ferry-rack, under the direction and supervision of the Engineer-in-Chief was approved.

10th. Report on Secretary's Orders Nos. 7177 and 7178. condition of and repairs required to the pavement adjoining bulkhead between Piers, old 34 and 35, and 35 and 36, North river. The action of Commissioner Marshall in directing the Engineer-in Chief to repair the pavement at a portion of said premises belonging to the City and directing the Welsh estate to repair their portion under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

11th. Report on Secretary's Order No. 5811, that he had supervised the work of dredging in front of bulkhead, between West Nineteenth and Twentieth streets, North river.

12th. Report on Secretary's Order No. 6229, that he had directed and superintended the replacing of bearing and fender piles and repairing of deck and sheathing on Pier 9, North river.

13th. Report on Secretary's Order No. 6527, that he had repaired and fastened bearing-piles on Pier, new 43, North river.

14th. Report on Secretary's Order No. 6810, that he had superintended and directed the extension of the sewer through the crib-bulkhead at the foot of East Seventy-fifth street, East river.

15th. Report on Secretary's Order No. 7097, that he had directed and superintended the erection of a shed over Pier 36, East river.

16th. Report on Secretary's Order No. 7120, that he had directed and superintended repairs to the vertical sheathing on outer end of Pier, new 40, North river.

17th. Report on Secretary's Order No. 7130, that he had supervised dredging between Pier 3 and 4, North river.

18th. Report on Secretary's Order No. 7185, that he had placed two cleats at Pier foot of West Seventy-sixth street, East river.

19th. Report on Secretary's Order No. 7195, that he had repaired sheathing on deck of Pier foot of West Eleventh street, North river.

20th. Report on Secretary's Order No. 7202, that he had directed and superintended the replacing of one spring pile on outer corner of Pier foot of West Twenty-first street, North river.

21st. Report on Secretary's Order No. 7201, that he had directed and superintended the replacing of piles at Pier foot of West Twentieth street, North river.

22d. Report on Secretary's Order No. 6548, that he had supervised the work of taking up twelve feet of projecting platform on piles and putting same back on line of Pier west of Lincoln avenue, north side of Harlem river.

23d. Report on Secretary's Order No. 6547, that he had supervised dredging on both sides of new Pier west of Lincoln avenue, Harlem river.

From P. J. Brady, Dock Master :

1st. Reporting sunken canal boat and scow, owned by John Hughes, in slip between Thirty-ninth and Fortieth streets, North river. The action of the President in directing the owner to remove, under the direction and supervision of the Engineer-in-Chief, was approved.

2d. Reporting that the Piers at Twenty-ninth and Thirty-fourth streets, North river, are in need of cleaning. The action of Commissioner Marshall in requesting the Department of Street Cleaning to clean was approved.

From D. W. Bogert, Dock Master—Reporting holes in pavement in front of Piers 7 and 12, North river. The action of Commissioner Marshall in notifying the Central Railroad Company of New Jersey to repair the pavement in front of the northerly and southerly half of Pier 12, and the New York and Baltimore Transportation Company and the Department of Public Works to repair the pavement between Piers 7 and 8, North river, under the direction and supervision of the Engineer-in-Chief, was approved.

From Edward Abeel, Dock Master—Reporting hole in deck lower side of Pier 19, East river. The action of Commissioner Marshall in directing the Engineer-in-Chief to repair was approved.

From Joseph B. Erwin, Dock Master—Reporting that on November 27, 1883, the ferryboat "Oswego," owned by the New York, West Shore and Buffalo Railroad Company, damaged the outer end of Pier at West Forty-fourth street, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report, and notifying the said Railroad Company of said damage, was approved.

From John J. Ryan, Dock Master—Reporting that the bulkheads at One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North river, are in need of cleaning. The President authorized to request the Department of Street Cleaning to clean.

The report of the Engineer-in-Chief on Secretary's Order No. 7205, in reference to the application of the New York Central and Hudson River Railroad Company for permission to lay car tracks on Piers, new 61 and 62, North river, was

On motion, ordered to be placed on file, and the following resolutions were adopted :

Resolved, That permission be and hereby is granted to the New York Central and Hudson River Railroad Company to lay down and maintain a line of double railroad tracks upon Pier, new 61, near the foot of West Thirty-first street, North river, and across the newly made land in the rear of said Pier, new 61, for the width of the widened marginal street, namely, 250 feet to the easterly line of Twelfth avenue. The same to remain only during the pleasure of the Board, and to be built and maintained thereat under the direction and supervision of the Engineer-in-Chief of this Department.

Resolved, That permission be and hereby is granted to the New York Central and Hudson River Railroad Company to lay down and maintain a single line of track upon Pier, new 62, near the foot of West Thirty-second street, North river, when said pier is completed and ready for use, and to lay a track on the filling to extend from the said pier to the easterly line of Twelfth avenue, when the filling is completed and ready to lay the track upon ; all of the same to remain on

during the pleasure of the Board, and to be built and maintained thereat under the direction and supervision of the Engineer-in-Chief of this Department.

Provided, That the said New York Central and Hudson River Railroad Company shall within ten days file with this Department their written acceptance to the terms and conditions of these resolutions.

A communication from the Counsel to the Corporation in relation to the action of the Commissioners of the Sinking Fund, respecting map approved April 27, 1871, was

On motion, ordered to be placed on file, and the following preambles and resolution were,

On motion, adopted :

Whereas, This Board, pursuant to the provisions of section six of chapter five hundred and seventy-four of the Laws of eighteen hundred and seventy-one, determined upon a plan or plans for the improvement of that part of the water-front of the City of New York upon the North or Hudson river, south of the northerly line of Sixty-first street and that part of the water-front of the said city upon the East river, between the easterly line of Whitehall street and the easterly line of Corlies street ; and

Whereas, This Board did, upon or before the twenty-seventh day of April, eighteen hundred and seventy-one, send the said plan or plans, together with the documents, specifications, estimates and particulars relating thereto to the Commissioners of the Sinking Fund of the said city for the purpose of adoption or rejection by them as provided and directed by the said statute ; and

Whereas, The plan or plans so determined upon and sent to the Commissioners of the Sinking Fund are described, as follows :

Sheet " A. " A general map showing the lines of the proposed River street, from Sixty-first street, North river, to Grand street, East river, scale 100,000.

Sheet " C. " (Four in number) shows the position and dimensions of proposed piers and slips and the River street, from the Battery to Grand street, East river, fifty feet to one inch.

Sheet " D. " (Seven in number) shows the position and dimensions of proposed piers and slips and the River street, from the Battery to Sixty-first street, North river, on a scale of fifty feet to one inch ; and

Whereas, The Commissioners of the Sinking Fund by a resolution passed by them on the twenty-seventh day of April, eighteen hundred and seventy-one, adopted the maps comprising Sheets " A. " " C. " and " D. " as above described, pursuant to the provisions of the said statute, and prescribed the form of a certificate of such adoption, which was directed to be endorsed or written upon the plan or plans adopted by them ; and

Whereas, The said plans were returned to this Board with the said certificates in the form so prescribed endorsed or written upon all of them except the said map or plan described as " Sheet A. " and

Whereas, The said certificate was inadvertently omitted to be endorsed or written upon the said Sheet " A. " as directed by the said resolution, and the same now remains in this Department with no certificate endorsed thereon.

Resolved, That the Commissioners of the Sinking Fund be and they are hereby requested to ~~draw~~ or write a certificate upon the said map described in their said resolution, passed April ~~seventy~~-seventh, eighteen hundred and seventy-one, as Sheet "A," as prescribed by their said resolution and by the said statute, and to affix their signatures to such certificate and to return the same to this Board, and

Resolved, That the Secretary of this Board transmit the said map to the said Commissioners of the Sinking Fund for that purpose.

The following preambles and resolutions were,

On motion, adopted :

Whereas, By the resolutions of the Commissioners of the Sinking Fund, adopted July 9, 1885, and September 17, 1886, the Comptroller was authorized and directed to prepare and issue from time to time dock bonds to meet the requirements of the Department of Docks to the amount of two millions of dollars, to raise money for the uses and purposes of the Department of Docks, as stated in said resolutions, and

Whereas, The Comptroller has issued only one million of said bonds, and there is still vested in him authority to issue the remaining one million, as provided for in said resolutions, and

Whereas, The moneys realized from the sale of the said bonds as aforesaid are now nearly exhausted, and there is pressing and immediate necessity that sufficient funds should be placed to the credit of this Department to enable it to prosecute its work ; therefore be it

Resolved, That the said Comptroller be and he is hereby requested to prepare and issue the said remaining one million of dollars dock bonds, as authorized and directed by the Commissioners of the Sinking Fund as aforesaid, and that he, the said Comptroller, place the avails thereof to the credit of the Department of Docks, as provided by law.

Whereas, An agreement was made between Mr. C. P. Huntington, lessee of Pier, new 37, North river, and the Mayor, Aldermen and Commonalty of the City of New York, acting by this Department, dated August 4, 1887, to rebuild and repair said Pier, new 37, North river, as in said agreement stated, to which reference is hereby made ; and

Whereas, It is among other things therein provided that no rent should be charged to or collected from the said lessee for the use of the premises for the quarter beginning August 1, 1887, and ending October 31, 1887 ; now, therefore, be it

Resolved, That the Chief Clerk be and he is hereby authorized to charge off on the books of his Department the said rent for the quarter beginning August 1, 1887, and ending October 31, 1887, namely, \$17,500, in accordance with the terms and conditions of the said agreement.

On motion, it was resolved that the form of assent to the assignment of the lease of Pier, new 1, North river, from John H. Starin to the Delaware, Lackawanna and Western Railroad Company, which was executed on the 16th of November, 1887, by Samuel Sloan and Percy Pyne, sureties on said lease, also that the assent of the Delaware, Lackawanna and Western Railroad Company to the terms and conditions of such assignment be and hereby are approved and accepted by the Board of Commissioners of this Department.

DECEMBER 1, 1887.]

344

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending November 30, 1887, amounting to \$4,856.82, which was received and ordered to be spread in on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary

An executive meeting of the Board of Docks, held December 2, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held December 1, 1887, were read and approved.

The communications from the Glen Cove Manufacturing Company in reference to bulkhead party near the foot of Jackson street, East river, were referred to Commissioners Matthews and Marshall.

A communication from the Engineer-in-Chief reporting that there is needed for the work under charge one Steam Engineer to run any of the various derricks or pile drivers or other engines of Department, except that of the tug "Manhattan" was,

On motion, ordered to be placed on file and the President authorized to request the Civil Service Advisory and Examining Boards to furnish this Department with a list of persons eligible for said positions.

A communication from the Engineer-in-Chief, reporting the repairs required to bulkhead platform, at foot of East Seventy-fifth street, East river, was,

On motion, ordered to be placed on file, and the Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$60.

The President authorized to request the Department of Street Cleaning to clean the surface of platform.

The report of the Engineer-in-Chief on Secretary's Order No. 7220, in reference to the application of the Department of Street Cleaning for the use of the whole of the southerly or westerly side of Pier, old 44, East river, for the purpose of building a double dump like the one at Pier 12, East river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That, pursuant to the provisions of section 728, of chapter 410, Laws of 1882, and in accordance with the request of the Commissioner of Street Cleaning, the whole of the south or westerly side of Pier, old 44, East river, be and hereby is set apart and designated for the use of the Department of Street Cleaning of the City of New York.

The report of the Engineer-in-Chief on Secretary's Order No. 7211, submitting a list of places on the North, East and Harlem rivers, from which to dump clean snow and ice, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That the following named piers and bulkheads be and hereby are designated and signed (until otherwise ordered by this Board) from which to dump clean snow and ice that may be removed from the streets, thoroughfares and public places of this city :

On North River.

1. Bulkhead south of Pier, new 1.
2. North end new made land between Duane and Jay streets.
3. Old bulkhead north of Pier, new 26 (Hubert street).
4. Outer end of Pier, old 42 (Canal street).
5. Outer end of Pier at West Eleventh street.
6. Outer end of Pier at Jane street.
7. Outer end of Pier at Bogart street.
8. Outer end of Pier at West Seventeenth street.
9. Outer end of Pier at West Nineteenth street.
10. Earth dump at foot of West Twenty-seventh street.
11. Outer end of Pier at West Thirty-fourth street.
12. Outer end of Pier at West Forty-sixth street.
13. Outer end of Pier at West Fifty-first street.
14. Outer end of Pier at West Fifty-fifth street.
15. New made ground between West Fifty-sixth and West Fifty seventh streets.
16. New made ground between West Fifty-seventh and West Fifty-eighth streets.
17. Outer end of Pier at West Seventy-ninth street.
18. Bulkhead at foot of West Ninety-sixth street.
19. Outer end of Pier at West One Hundred and Thirty-first street.
20. Outer end of Pier at West One Hundred and Fifty-second street.

On East River.

21. Outer end of Pier 7 (Coenties Slip).
22. Outer end of Pier 12 (Old Slip).
23. Outer end of west half of Pier 19 (Fletcher street).
24. Outer end of Pier, new 32 (Pike Slip).
25. Outer end of Pier 44 (Rutger's Slip).
26. Outer end of Pier 46 (Jefferson street).
27. Outer end of Pier 48 (Clinton street).
28. Bulkhead at foot of Corlears street.
29. Outer end of Pier 60 (Rivington street).
30. Bulkhead at foot of East Fourteenth street.
31. Bulkhead at foot of East Sixteenth street.
32. Outer end of Pier at East Thirty-seventh street.
33. Bulkhead at foot of East Forty-second street.
34. Bulkhead at foot of East Forty-third street.
35. Bulkhead at foot of Fifty-fourth street.
36. Bulkhead platform at foot of East Seventy-fifth street
37. Bulkhead at foot of East Seventy-sixth street.
38. Outer end of Pier at foot of East Eighty-sixth street.

On Harlem River.

Bulkhead at foot of East One Hundred and Seventh street.

Bulkhead at foot of East One Hundred and Twelfth street.

Bulkhead at foot of Second avenue.

In addition to the above, the following-named premises may be used for such dumping, provided consent from the lessees, respectively, be first obtained by parties desiring to avail themselves of the use thereof, to wit :

North River.

1. Bulkhead north of Pier, new 1.
2. Outer end of south half of Pier, old 23 (Vesey street).
3. Outer end of north half of Pier, old 34.
4. Outer end of Pier at Bethune street.
5. Outer end of Pier, new 60 (West Thirtieth street).
6. Outer end of Pier at West Fortieth street.
7. Outer end of Pier at West Forty-fourth street.

East River.

8. Outer end of Pier 5 (Broad street).
9. Outer end of Pier 6 (Coenties slip).
10. Outer end of westerly half of Pier 23 (Beekman street).
11. Outer end of westerly half of Pier 52 (Gouverneur Slip).
12. Outer end of Pier 55 (Grand street).
13. Outer end of lower half of Pier 57 (Broome street).
14. Outer end of Pier at East Third street.
15. Outer end of Pier at East Twenty-fifth street.
16. Outer end of Pier at East Thirty-first street.
17. Outer end of Pier at East Seventy-ninth street.

REGULATIONS.

Whenever a Pier is used, the dumping must be made from off its outer end.

In all cases the dumping must be made into the river, and not upon the surface of any of the piers.

The dumping of material other than clean snow and ice is strictly forbidden.

The Police Department have been requested to require these regulations to be enforced in all instances.

Resolved, That the President be and hereby is authorized to notify, in writing, the Commissioner of the Department of Street Cleaning and the Police Department of the adoption of the foregoing resolution, and the President is further authorized to have notice thereof prepared, and three copies of the same printed for general distribution.

DECEMBER 2, 1887.]

1	“ General Repairs Account.....	2,450 00
4	“ Amounting to.....	\$21,273 00

Respectfully submitted,

JAMES MATTHEWS,
CHARLES H. MARSHALL, } Auditing Committee.

New York, December 3, 1887.

On motion, Edward O'Halloran, James Devine, Adolph Harbert and William Keefe, were appointed Laborers, and Gavin Rutherford, Ship Builder, and Gavin Rutherford, Dock Builder, were discharged.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks held December 5, 1887.

Present—Commissioners Stark and Matthews.

Absent—Commissioner Marshall.

The Board met for the purpose of receiving the estimates for removing the existing Pier known as Pier 37, near the foot of Market Slip, East river, and for preparing for and building a new wooden pier and approach on the site of said Pier, to be known as Pier, new 29, East river ; and for repairing the existing crib bulkhead thereat advertised to be opened this day at 12 o'clock, M., a representative of the Comptroller was present.

Five estimates were received as follows :

No.	BIDDERS.	CLASS NO. 1.	CLASS NO. 2.	CLASS NO. 3.	Total.
		For Repairs to the Bulkhead and its Appurtenances	For the new Pier and Approach complete with all its Appurtenances	For the Rip-rap Stone.	
1	From John Gillies, with \$425 in money....	\$2,030 00	\$25,800 00	65 cents per cubic yard	\$30,105 00
2	" Richard Cronin, with \$425 in money.	1,850 00	25,500 00	90 " "	30,500 00
3	" John W. Flaherty, with \$425 in money	1,695 00	25,245 00	65 " "	29,215 00
4	" P. Sanford Ross, with \$425 in money.	2,100 00	24,200 00	65 " "	28,575 00
5	" John Monks, with \$425 in check....	1,840 00	27,000 00	80 " "	31,640 00

On motion, the Secretary was directed to transmit to the Comptroller, the security deposits received from said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day, for removing the existing Pier, known as Pier 37, near the foot of Market Slip, East river, and for preparing for and building a new wooden pier and approach on the site of said pier, to be known as Pier, new 29, East river ; and for repairing the existing crib-bulkhead thereat, be and hereby is awarded to P. Sanford Ross, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the city.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held December 8, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held December 2 and 5, 1887, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Counsel to the Corporation—Opinion respecting the repairing of Pier foot of Eighth street, East river.

From Engineer-in-Chief :

1st. In relation to wrongful possession of a portion of premises at West Twenty-seventh street, North river, and enclosing map showing an enclosure of a portion of said street by J. B. and J. M. Cornell. Referred to Executive Session.

2d. Report on Secretary's Order No. 6502, that S. Charles Welsh, alleged owner, has stated that, as negotiations are now pending for the purchase of the bulkhead north of Pier, old 34, North river, by the City, it is not his intention to further use the premises for commercial purposes. Referred to Executive Session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated to wit :

From Counsel to the Corporation :

1st. In reference to the complaint made by John J. Ryan, Dock Master against Franklin P. Cisin and Charles Anderson, for unloading brick on the bulkhead at or near Eightieth street, North river.

2d. In relation to condemnation of wharf property in the Jay street basin.

3d. In relation to the penalty imposed upon John McLaughlin and John Nesbitt and others for violation of the rules and regulations. Referred to Commissioner Marshall.

From Board of Aldermen—Enclosing copy of resolution adopted December 6, 1887, for removal of shed erected on Pier 27, East river. Referred to Commissioner Marshall with power.

From Department of Street Cleaning :

1st. Reporting obstructions to dumping-boards at Pier 12 and Market street, East river. The action of the Secretary in sending copy of said communication to the Dock Masters of said districts to examine and report was approved.

2d. *Thanking the Board for assigning to the use of said Department the whole of the south or sterly side of Pier 44, East river.*

From Police Department—Acknowledging receipt of list of piers and bulkheads from which clean snow and ice can be dumped.

From Civil Service Supervisory and Examining Boards—Submitting eligible list of steam engineers. Referred to the Engineer-in-Chief to examine and report.

From Comptroller of the City :

1st. Approving sureties of Dexter Hunter to contract for furnishing sawed yellow pine timber.

2d. Approving sureties of P. Sanford Ross to contract for building Pier, new 29, East river.

From Department of Public Charities and Correction—Reference to and requesting repairs to Store-house Pier, Blackwell's Island, East river. Referred to the Engineer-in-Chief to examine and report.

From Department of Public Works :

1st. In reference to the condition of Seventy-sixth street, from Avenue A to the East river. The Secretary directed to send copy of report to the Engineer-in-Chief.

2d. Stating that repairs have been ordered to pavement opposite Piers 7 and 8, North river.

From New York Central and Hudson River Railroad Company :

1st. Acknowledging receipt of communication respecting ownership of Pier 4, East river.

2d. Agreeing to the terms and conditions of resolutions for the laying of car tracks on Piers, new 61 and 62, etc., North river.

From Central Railroad Company of New Jersey—Stating that repairs will be made to the pavement opposite the southerly and northerly half of Pier 12, North river.

From New York Floating Dry Dock Company, alleged owners of Pier 49, East river—Giving their consent to certain alterations being made to said pier by J. N. Bostwick and W. H. Starbuck, lessees.

From Hoboken Land and Improvement Company—Requesting permission to repair ferry-racks foot of Christopher street, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Hunt & Clapp -In reference to the inspection of material used in bridge construction.

From Brown & Fleming—Requesting permission to locate a dumping-board at East Sixty-first street, East river, and enclosing consent of Cavanagh & Collins, lessees ; application denied.

From William Knapp—Requesting permission to run a 6-inch cast-iron drain pipe from his residence West One Hundred and Fifty-first street, about two hundred feet west of the Boulevard, through the bulkhead into the river at foot of said street. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From John Smith—Reporting obstructions on approach to Pier foot of West Fifty-fifth street, North river. Referred to the Dock Master of the district to examine and report.

From James Sutherland—Requesting permission to fill-in and build bulkhead in front of premises between Twenty-eighth and Twenty-ninth streets, East river, in accordance with diagram submitted. Referred to the Engineer-in-Chief to examine and report.

From New York, West Shore and Buffalo Railroad Company—Requesting permission to repair Pier 5, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From New York, Lake Erie and Western Railroad Company—Requesting renewal of permit to keep driveway in front of receiving station, between Piers, new 20 and 21, North river, in repair for the ensuing three months. Permit granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Department of Public Charities and Correction—Enclosing copy of communication received from the Superintendent of the Workhouse relative to the new landing prepared for the Workhouse ferry above Seventy-sixth street, East river. Referred to the Engineer-in-Chief to examine and report.

From Burrill, Zabriskie & Burrill, attorneys New York and South Brooklyn Ferry and Steam Transportation Company—Reporting that on several occasions the ferry slip between Piers 2 and 3, East river, was obstructed while making up tows. The Secretary directed to send copy of report to Dock Master Charles H. Thompson, and request him to do what he can to keep said slip clear.

From Engineer-in-Chief:

1st. Reporting assignment of employes to special duty.

2d. Reporting the amount of work done during the week ending December 3, 1887.

3d. Reporting death of Laborer, Dennis McLaughlin. The Secretary directed to drop his name from the list of employees.

4th. Reporting that under resolution 20th August, 1884, Laborer John Mahoney having been absent from duty for three successive days without sending any excuse for his absence, is now unassigned to duty.

5th. Reporting that a number of piles have been driven at Lincoln avenue, south of One Hundred and Thirty-second street, Harlem river, without a permit from the Department. Referred to Dock Master John Callan, to examine and report.

6th. Reporting non-commencement of repairs to water-pipe on Pier, new 43, North river, to the east and west half of Pier 3, bulkhead west of Corlears street, and between Ninetieth and Ninety-first streets, East river. Referred to Commissioner Marshall.

7th. Reporting that some work has been done at Pier, new 60, North river, by James McClenahan, lessee, but the same is not satisfactory. The Secretary directed to notify James McClenahan, lessee, that the repairs required to said pier must be made as directed by the Engineer-in-Chief of this Department, and under his direction and supervision.

8th. Reporting repairs required to Pier 60, East river, and portion of bulkhead thereat, and recommending that the bulkhead be rebuilt from low water up, and that Pier 60 be removed and

placed with a new pier about 50 feet wide and about 228 feet long. The Engineer-in-Chief directed to prepare plans, specifications, and form of contract for repairing the bulkhead and removing Pier 60, East river, and replacing same with a new pier, as recommended in his report.

9th. Reporting as to ownership, etc., of the undivided one-half of Piers 12 and 15, East river.

10th. Reporting the amount of material excavated by the Union Dredging Company with department dredges during the month of November, 1887. The Treasurer authorized to collect the amount from the Union Dredging Company.

11th. Report on Secretary's Order No. 7232, repairs required to pier at Thirty-eighth street, East river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$75.

12th. Report on Secretary's Order No. 7221, as to the damage done to Pier foot of Forty-fourth street, North river, by the ferryboat "Oswego," of the New York, West Shore and Buffalo Railway Company, on the morning of November 27, 1887. The Secretary directed to send copy of Engineer-in-Chief's report to the New York Horse Manure Company, lessees, and notify them to repair under his direction and supervision.

13th. Report on Secretary's Order No. 7222, in reference to the application of Dennis Mahoney, for permission to run a 6-inch cast-iron drain-pipe from No. 17 East street through the bulkhead between Piers 27 and 28, East river. Permission granted, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department, and to be and remain during the will of the Board.

14th. Report on Secretary's Order No. 7230, reporting length of built-up water-front under jurisdiction of the Department, in accordance with the request of the Maritime Association of the Port of New York. The Secretary directed to send them copy of said report.

15th. Report on Secretary's Order No. 7233, in reference to the application of William Knapp to run a 6-inch cast-iron drain-pipe from his residence in West One Hundred and Fifty-first street to the North river at foot of said street. Application denied.

16th. Reporting non-commencement of repairs to Pier foot of Fifty-eighth street, North river. The Secretary directed to notify the Union Stock Yard Company, lessees, that unless the repairs required to said pier are made at once, as heretofore ordered, the Board will require them to show cause why their lease should not be annulled.

17th. In reference to the application of the New York Central and Hudson River Railroad Company for permission to repair platform and bulkhead between Piers, old 27 and 28, North river, and also respecting the platforms built by said Company, between Piers, old 25 and 26, and 26 and 27, North river, and the payment of the compensation for the use thereof. Referred to Commissioners Matthews and Marshall for examination and report.

18th. Report on Secretary's Order No. 7187, in reference to the application of H. P. McGown to build a rip-rap wall between East One Hundred and Ninth and One Hundred and Tenth streets, Harlem river. Permit granted to build a rip rap wall or slope, to be composed of granite spawls, *out on the line of the spawls already dumped on the premises, provided sufficiently large spawls*

are used to prevent washing of them away, and also provided the said rip-rap wall is built sufficiently above high-water mark to prevent washing of the earth-filling to be placed behind them ; all the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

19th. Report on Secretary's Order No. 6776, that he had directed and superintended the removal of fence erected on south side of Pier at Thirty-seventh street, East river, and shed near bulkhead on the north side. The projection of shed within pier-line on south side of pier has not been removed by the occupants, John Nesbitt's Sons. Referred to Commissioner Marshall.

20th. Report on Secretary's Order No. 7172, that he had made a survey showing location of floating structures at foot of East Eighty-seventh street, East river, a tracing of which is submitted with report. The Secretary directed to notify Wooley & Sinn that they are occupying land under water belonging to the city and request them to call on the Commissioners respecting the compensation for the use of said premises.

21st. Report on Secretary's Order No. 7181, repairs required to Pier 61, East river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$275.

22d. Report on Secretary's Order No. 7204, that the plans and specifications submitted by the New York Central and Hudson River Railroad Company for repairing bulkhead between Piers old 27 and 28, North river, platform in front of same and shed thereon have been examined, and that the repairs to be made have been correctly planned and are sufficiently strong. Referred to Commissioner Marshall.

23d. Report on Secretary's Order No. 5394, that he had removed projecting crib timbers, etc. on both sides of Pier foot of Fifth street, East river.

24th. Report on Secretary's Order No. 6310, that he had directed and superintended repairing Pier 8, North river, shed thereon and platform south.

25th. Report on Secretary's Orders Nos. 6680 and 6783, that he had made certain alterations on Pier " A," North river, in accordance with request of Police Department.

26th. Report on Secretary's Order No. 6807, that he had directed and superintended repairing bulkhead, between Ninety-sixth and Ninety-seventh streets, North river.

27th. Report on Secretary's Order No. 6874, that the erection of temporary sheds on the south half of the ferry at Barclay street, North river, has been superintended.

28th. Report on Secretary's Order No. 7021, that he had directed and superintended the repairing of Pier, old 25, North river.

29th. Report on Secretary's Order No. 7112, that he had directed and superintended the repairing of horizontal fenders on the north side of Pier, old 39, North river, and on the platform south side of ferry-racks, foot of Desbrosses street, North river.

30th. Report on Secretary's Orders Nos. 7115 and 7117, that he had directed and superintended the repairing of the vertical sheathing at end and horizontal sheathing on both sides of Piers 4 and 15, North river.

31st. Report on Secretary's Orders Nos. 7118 and 7119, that he had directed and superintended the repairing of the vertical and horizontal sheathing on Piers, new 20 and 21, North river.

- 32d. Report on Secretary's Order No. 7142, that he had repaired Pier at Twenty-sixth street, East river.
- 33d. Report on Secretary's Order No. 7163, that he had superintended the work of pulling one end of fender-pile on outer northwesterly corner of Pier 5, North river, and driving and fastening new pile in place thereof.
- 34th. Report on Secretary's Order No. 7170, that he had repaired the pavement at approach platform at Twenty-fourth street, North river.
- 35th. Report on Secretary's Order No. 7182, that he had repaired Pier 60, East river.
- Report on Secretary's Order No. 7183, that he had repaired Pier 46, East river.
- 36th. Report on Secretary's Order No. 7188, that he had placed a drip-cock on the hydrant on south side Pier, new 43, North river.
- 37th. Report on Secretary's Order No. 7193, that he had supervised the work of dredging in ship between Piers 22 and 23, East river.
- 38th. Report on Secretary's Order No. 7196, that he had repaired bulkhead between Piers 7 and 8, East river.
- 39th. Report on Secretary's Order No. 7203, that he had directed and superintended the placing of a mooring-pile on Pier foot of Forty-third street, North river.
- 40th. Report on Secretary's Order No. 7207, that he had repaired the sheathing on deck of east side of Pier 19, East river.
- 41st. Report on Secretary's Order No. 7209, that he had directed and superintended the lengthening of office, building freight platform and cutting two gangways on Pier 49, East river.
- 42d. Report on Secretary's Order No. 7212, that he had directed and superintended repairing pavement adjoining Pier, old 42, North river.
- 43d. Report on Secretary's Order No. 7215, that he had directed and superintended driving piles on the east side of Pier 49, East river.
- 44th. Report on Secretary's Order No. 7116, that he had directed and superintended placing mooring-post and repairing shed Pier 6, North river.

From Charles H. Thompson, Dock Master—Reporting that the end of Pier 7, East river, is in bad condition. The Engineer-in-Chief to examine and report.

From George A. Dearborn, Dock Master :

1st. Reporting that dredging is required close to the bulkhead on the north, middle and south sides of Pier at East Eighty-sixth street, East river. The Engineer-in-Chief directed to examine and report.

2d. *Respecting the rate of wharfage for schooner "Mary Ellen."* The action of the Secretary replying thereto approved.

From Charles Hutchinson, Dock Master--Reporting that the piles on end of Pier at Thirty-eighth street, East river, are badly crushed, and the pier is in a dilapidated condition. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From David W. Bogert, Dock Master--Reporting that there is a hole in the pavement adjoining the sheathing on the south corner of driveway to bulkhead between Piers 18 and 19, North river, and a hole in the sheathing north half of Pier foot of Vesey street, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Dock Masters Charles H. Thompson, Edward Abeel, John J. Ryan, Charles Hutchinson, George A. Dearborn, Charles B. Husted, Joseph B. Erwin and John Callan--Reporting as to the condition of and the cleaning required to the piers and bulkheads in their respective district. Referred to the Engineer-in-Chief to examine and report.

From John J. Ryan, Dock Master :

1st. Reporting two holes in bulkhead foot of Ninety-sixth street, North river. The Engineer-in-Chief directed to examine and repair, if necessary.

2d. Reporting the sinking of the canal boat "Henry L. Dayton," at Pier foot of One Hundred and Thirty-eighth street, North river. The Secretary directed to notify Peter Ciancimino, owner, to remove forthwith under the direction and supervision of the Engineer-in-Chief of this Department.

The following preambles and resolutions were, on motion, adopted :

Whereas, It appears that at a meeting of the Board governing this Department held on March 23, 1881, the following preambles and resolutions were adopted :

"Whereas, The Hudson Tunnel Railway Company, a corporation incorporated under the General Railroad Act of 1850 and the act amendatory thereof, has made application to this Department for permission to use and occupy a portion of the water-front between Morton and Leroy streets, North river, for the construction of a tunnel under the North river to the New Jersey shore; and

"Whereas, The Counsel to the Corporation has given his opinion to the effect that this Department has power to grant the permission asked for by said company and to fix an amount as compensation to be paid for the use of the property to be occupied ; be it, therefore,

"Resolved, That permission be and hereby is granted to the Hudson Tunnel Railway Company to use and occupy, for the purpose of sinking a shaft and building a tunnel under the North river, that portion of the water-front recently reclaimed and filled in by this Department between Morton and Leroy streets, North river, which extends along the bulkhead-wall from the southerly side of Pier, new 42, for about 100 feet, and easterly from said bulkhead-wall for a distance of 180 feet, as shown upon plans filed in this Department, at a rent of the sum of \$3,000 per annum, payable quarterly in advance, from and after January 1, 1881, provided that the space hereby set apart shall be used by the said company for the construction of said shaft and tunnel, but not to exceed a time of four years from said January 1, 1881 ; and further

"Resolved, That the use and occupation of a strip of land fifty feet in width lying under water, belonging to the City, and extending from the said bulkhead wall in front of the space to be occu-

and by said company westwardly to the westerly boundary of the grant issued to the City of New York by letters patent, bearing date 28th September, 1871, be and hereby is granted to said company for the term of five years from the 1st January, 1881, at a rent of \$1,000 per annum, payable quarterly in advance, from and after 1st July, 1881; and further

"Resolved, That the lease for the above-named premises shall contain a covenant stipulating that if, in the prosecution of the work of building the shaft and tunnel aforesaid, or after the same shall have been completed, the bulkhead wall, or other permanent work of the City, shall, in consequence thereof, sustain any damage, the said company shall, upon notice to that effect, repair under the supervision of the Engineer-in-Chief of this Department, and to the satisfaction of the Board of Aldermen, at its own cost and expense, the damage so done, and restore the premises to a similar condition to that in which they were upon the said company taking possession thereof; and further, that the said lease shall be accompanied by a bond satisfactory to this Board in the sum of \$50,000, to secure the payment of the several sums of rent above mentioned, and to indemnify the City against any loss or damage it may sustain in consequence of the prosecution of the proposed work to be done by the said Hudson Tunnel Railway Company at the premises hereinbefore named."

And whereas, at a meeting of the Board of this Department, held on the 7th of January, 1885, the following resolutions were adopted:

"Resolved, That permission be and hereby is granted to the Hudson Tunnel Construction Company to use and occupy during the pleasure of this Board the reclaimed land, southerly of Pier, No. 42, North river, being a portion of the same premises mentioned and described in the lease granted to the Hudson Tunnel Railway Company, made pursuant to the terms and conditions of the resolution adopted by this Board on March 23, 1881, which said lease expired on January 1, 1885, the permission hereby given being granted upon the express condition that all the terms, conditions and provisions, contained in the expired lease of the said premises shall be and continue in full force, and effect during the continuance of the permit hereby granted and that the officers of the said Hudson Tunnel Railway Company and the sureties to the bond attached to the said lease execute and file in this office within ten days an agreement in writing that all the terms and conditions of the said lease and of the bond thereunto attached shall be continued in full force and effect, during the continuance of the period that the said premises may be used and occupied by the said company under this permit, and also provided that the said company pay as rental for the use of the said premises the sum of \$3,000 per annum in quarterly payments in advance during such period, and further

Resolved, That the resolution adopted by this Board on December 31st ultimo, requiring the said Tunnel Company to vacate and surrender possession of the said premises be and hereby is rescinded;" and

Whereas, Application has been made by the said Hudson Tunnel Railway Company asking for a modification of the above resolutions so far as refers to a strip of land under water fifty feet in width and extending out under the river, and also that portion of land fronting on the water one hundred feet in length and extending back about sixty feet, all of which the company desires to relinquish the use and occupancy, leaving for their use what is enclosed with the buildings and fence on the reclaimed land under the control of this Department; and

Whereas, it is urged by the said company that in consideration of such relinquishment and of the fact that the company is not now engaged in active work, the rent hitherto paid by it to the Department should be reduced to two thousand dollars per annum ; be it therefore

Resolved, That in view of the above circumstances and after careful consideration thereof, the Board of this Department hereby agrees to accede to the proposition as made by the company for the relinquishment of that part of the property as specified and the reduction of the rent to the sum mentioned, namely, two thousand dollars per annum, payable in advance quarterly, it being provided that this concession hereby accorded shall not prejudice or interfere with any rights or interests of the City which may exist under the previous agreements ; and further provided that the permission hereby given to continue the use and occupancy of the reclaimed land alluded to shall continue only during the pleasure of the Board, and that the assent of the sureties to a bond which was given by the company in the sum of fifty thousand dollars for the payment of the rent and for the securing of the City from damages which might be caused by the operations of the company, shall be obtained in writing and filed in this Department within twenty days after the passage of this resolution.

And provided further, that the said company shall, within ten days, file a written assent in the Department to the terms, provisions and conditions of the foregoing preamble and resolution.

The President reported that on December 3, 1887, he had been served with a summons complaint and injunction in a proceeding instituted by Ruth A. Wallace and David Wallace against the Mayor, Aldermen and Commonalty, restraining the Department from interfering with or permitting to be built any pier, bulkhead, or other wharf structure in the block bounded by the southerly side of Eleventh avenue, the northerly side of the passage known as Mott's lane and the easterly side of the Hudson river, and that he had sent same to the Counsel to the Corporation with a request that he take the necessary steps to protect the interests of the City.

On motion, his action was approved.

The President, to whom was referred with power the application of Brown & Fleming, for a reduction of rent for privilege of using the bulkhead at Canal street, for dumping-board, during the time that they are engaged in filling at the Laight street section, reported that he had fixed the price at the sum of \$1 per day for each and every day, to continue during the will of the Board, wharfage to be collected by the Dock Master from all vessels using the said premises excepting the berth for scow owned by Brown and Fleming.

On motion, his action was approved.

A communication from the Comptroller of the City, transmitting copy of resolution adopted by the Commissioners of the Sinking Fund at a meeting held December 1, 1887, approving of alterations in lines of Pier, new 24, North river, was received, read, and, together with the plan, ordered to be placed on file and the Secretary directed to enter the resolution in full on the minutes, as follows:

Resolved, That the Commissioners of the Sinking Fund do hereby consent to and approve of the alterations in the length and location of the new pier located near the foot of Franklin street, North river, to be known as Pier, new No. 24, North river, from the length and location thereof as laid down on the plans adopted by the Commissioners of Docks April 13, 1871 ; the length and

of the pier to be as follows: The width of the pier to remain 60 feet as shown on the plans, its length to be 566 feet instead of 570 feet as shown on the plans aforesaid, and the line of the pier to be 160 feet distant measuring along the established bulkhead-line, from the line of Pier, new No. 25, North river, as the same was fixed and established March 5, instead of 228 feet 4 inches, as it would be by the plans aforesaid, the axis of the pier to extend at an angle of 89° 6" with the established bulkhead-line, said angle being measured on the northerly side of the pier; all as shown on plans approved and submitted by the Commissioners of Docks.

The report was accepted, and the resolution unanimously adopted.

Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending December 7, 1887, amounting to \$34,425.09, which was received and ordered to be spread in full on the books, as follows:

tion, the Board adjourned.

G. KEMBLE, Secretary.

executive meeting of the Board of Docks held December 9, 1887.

11—Commissioners Stark, Matthews and Marshall.

minutes of the meeting held December 8, 1887, were read and approved.

Following communications were received, read, and,

action, ordered to be placed on file, action being taken where necessary, as stated, to wit :

Counsel to the Corporation—Enclosing copy of opinion sent to the Comptroller on August relating to the subject of the proposed improvement of the Harlem river at One Hundred ninth street. The Secretary directed to have the same recorded in the Book of Opinions.

From Sarah McGarigal—Requesting permission to erect and maintain derrick masts at the foot of East Seventy-sixth, Seventy-ninth and Eighty-sixth streets, East river, for unloading coal. Referred to Dock Master, George A. Dearborn, to examine and report.

From Charles B. Husted, Dock Master—In reference to the application of the Knickerbocker Ice Company for permission to retain engine-house and shed on the bulkhead at West Twentieth street, North river. Referred to the Engineer-in-Chief to examine and report.

From Charles H. Pendergast, Dock Master :

1st. Reporting that dredging is required in front of the bulkhead between Piers 47 and 48, at Pier 47, East river, and in front of the bulkhead between Piers 61 and 62, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

2d. Reporting that Piers 46 and 48, East river, require cleaning. The action of the President in requesting the Department of Street Cleaning to clean was approved.

From Civil Service Supervisory and Examining Boards—Requesting the number of Laborers in the service of the Department on November 30, 1887, not classified under Civil Service Rules and the number of persons appointed during the year ending November 30, 1887, after Civil Service examination, and discharged during or at the end of their probationary period. The action of the President in furnishing the desired information was approved.

From Engineer-in-Chief :

1st. Respecting possession of wharf property at West Twenty-seventh street, North river. Referred to Commissioner Marshall.

2d. Reporting repairs required to Piers 9 and 54, East river. The action of the President in notifying the alleged owner or owners of Pier 9, East river, to repair under the direction and supervision of the Engineer-in-Chief, and directing the Engineer-in-Chief to repair Pier 54, East river, as recommended in his report, at a cost of about \$50, was approved.

3d. Report on Secretary's Order No. 6502, in reference to superintending and directing the repairing of bulkhead north of Pier, old 34, North river, by S. Charles Welsh, alleged owner.

4th. Report on Secretary's Order No. 7226, repairs required to the pavement in front of bulkhead between Piers, old 18 and 19, North river. The action of the President in directing the Delaware, Lackawanna and Western Railroad Company, lessees, to repair under the direction and supervision of the Engineer-in-Chief, was approved.

5th. Report on Secretary's Order No. 7227, repairs required to the sheathing on upper side of Pier, old 23, North river. The action of the President in directing Buck & Steljes, lessees, to do the said work, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

Commissioner Matthews, to whom was referred with power, the claim of the propellor "C.A. Dickey" for assistance rendered to the tug "Manhattan," reported that he had settled the same for \$2.

On motion, his action was approved.

following resolution was,

motion, adopted :

olved, That Van Tassell & Kearney, auctioneers, on behalf of this Board, be and hereby are
ed and directed to offer for sale at public auction at East Seventeenth Street Yard, East river,
asin foot of West Thirtieth street, North river, and at West Fifty-seventh Street Yard, North
1 Wednesday, December 21, 1887, at 10 o'clock in the forenoon of that day, certain old
as recommended by the Engineer-in-Chief.

e Auditing Committee presented an audit of 32 bills, amounting to \$16,537.52, which were
d and audited, and the Secretary directed to enter in full on the minutes, as follows :

JAMES MATTHEWS, }
 CHARLES H. MARSHALL, } Auditing Committee

On motion, the President was authorized to transmit the same, with requisitions for the same to the Finance Department for payment.

On motion, William Poole was appointed Laborer and Adolph Harbert, Laborer, discharged.

On motion, the Board adjourned.

G. KEMBLE, Secretary

At a special meeting of the Board of Docks held December 10, 1887.

Present—Commissioners Stark, Matthews and Marshall.

A communication from the Comptroller of the City in reference to the substitution of Gillies and Joseph Cumings in place of William Gaskell and William P. Greenlie to the contract of Duncan A. Gillies for building a crib-bulkhead at the foot of One Hundred and Fifty street, North river, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the substitution of John Gillies and Joseph Cumings in place of William Gaskell and William P. Greenlie to the estimate of Duncan A. Gillies for building a crib-bulkhead foot of One Hundred and Fifty-eighth street, North river, and for dredging thereat under Contract No. 260.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held December 12, 1887.

Present—Commissioners Stark, Matthews and Marshall.

A communication from Hon. Abram S. Hewitt, Mayor, enclosing copies of resolutions adopted by the Board of Aldermen, for the regulating, grading, etc., of Fifty-sixth street, from Eleventh avenue to the bulkhead-line on the North river ; Forty-first street, from First avenue to bulkhead-line on the East river, and for changing the grade of Eighty-third and Eighty-fourth streets, from Avenue B to the East river, was,

On motion, ordered to be placed on file and referred to the Engineer-in-Chief to examine and report.

The application of the Inland and Seaboard Coasting Company for tally-house on Pier, new 32, East river, was,

On motion, ordered to be placed on file and permit granted the said tally-house to be and remain during the will of the Board.

Dock Master George A. Dearborn having reported favorably on the application of Sarah McGarigal for permission to locate derricks for hoisting coal at the foot of Seventy-sixth, Seventy-ninth and Eighty-sixth streets, East river,

On motion, permit was granted, the said derricks to be and remain during the will of the Board.

On motion, the Engineer-in-Chief was directed to fence off the dangerous portion of Pier foot of Eighth street, East river, and place fender-piles on the southerly side of Pier, new 57, North river, for the accommodation of vessels berthed thereat.

A communication was received from the Engineer-in-Chief in relation to Treasurer's Order No. 12309, for timber, which was read, and,

On motion, it was

Resolved, That the time for the delivery of the timber under Treasurer's Order No. 12309, dated 28th April, 1887, and issued to the Hilton Timber and Lumber Company, be extended to the 31st day of September, 1887, and that the order be canceled and withdrawn for all the timber that is undelivered and unaccepted at that date.

A communication was received from the Engineer-in-Chief in relation to Treasurer's Order No. 12409, for timber, which was read, and,

On motion, it was

Resolved, That the time for the delivery of the timber under Treasurer's Order No. 12409, dated 9th July, 1887, and issued to Mr. Dexter Hunter, be extended to the 23d November, 1887, and that the order be canceled and withdrawn for all timber that is undelivered and unaccepted at this date.

The following preambles and resolutions were,

On motion, adopted :

Whereas, The Manhattan Railway Company, by letter of R. M. Galloway, Vice-President of said Company, dated 6th September, 1887, has requested this Department to lease for a term of 99 years to said Company, the land under water commencing at a corner on the westerly side of the Harlem river at the intersection of the northerly line of the land belonging to the estate of William Lynch, and the bulkhead-line called the United States Improvement line, or the Department of Public Parks pier line, thence running northerly along the circumference of the circle having a radius of 4,220 feet, 500 feet to a point on the United States Improvement line, thence westerly and radially 200 feet to the point of intersection with the easterly line of the marginal wharf or street or place ; thence southerly along the easterly line of this marginal wharf or street, and parallel to the United States bulkhead-line, 390 feet, more or less, to the northerly line of land belonging to the estate of William Lynch ; thence easterly along the line of land belonging to the estate of William Lynch, 236 feet, more or less, to the United States Improvement line on the westerly side of the Harlem river and the place of beginning ; and also has requested this Department to appropriate and set aside for the special kind of commerce of the Manhattan Railway Company, the portion of the water-front above described ; and also has requested permission to erect the necessary sheds, elevators and coal hoisting apparatus ; and also to erect on the marginal street and said above-described premises, iron columns on which will rest iron girders at the proper elevation above the roadway and supporting tracks, necessary for access to the Harlem river, and

Whereas, A plan for the improvement of that part of the water-front of the City of New York on the westerly side of the Harlem river, between the westerly side of the Eighth avenue and the southerly side of One Hundred and Fifty-ninth street and High Bridge," was determined by the Department of Docks on the 28th June, 1887, and adopted by the Commissioners of the Sinking Fund on the 31st August, 1887, and filed in the Department of Docks.

Resolved, That for the purpose of enabling the Manhattan Railway Company to erect sheds, elevators and other improvements and accommodations for its business, this Department will grant and make a lease to the said Manhattan Railway Company of the land under water belonging to the City of New York and commencing at a corner on the westerly side of the Harlem river at the intersection of the southerly line of the land belonging to the estate of William Lynch and the bulkhead-line called the United States Improvement line, and thence running northerly along the circumference of the circle having a radius of 4,220 feet, 500 feet to a point on the said United States Improvement line, thence westerly and radially 200 feet to the point of intersection

the westerly line of the exterior wharf, street or place ; thence along the westerly line of this wharf, street or place, and parallel to the said United States bulkhead-line, 320 feet, more or less, to the northerly line of the lands belonging to the estate of William Lynch ; thence easterly along the line of the land belonging to the estate of William Lynch 410 feet, more or less, to the United States Improvement line on the westerly side of the Harlem river, and the place of beginning, for a term of ten years, with a privilege of two renewals of ten years each, with the privilege and permission to erect and build on said premises, the wharves, piers, bulkheads, slips and exterior street or place, shown and provided for in the plan for the improvement of that part of the waterfront of the City of New York on the westerly side of the Harlem river, between the westerly side of Eighth avenue at the southerly side of One Hundred and Fifty-ninth street and the High Bridge, which was determined by the Department of Docks on the 28th June, 1887, and approved by the Commissioners of the Sinking Fund on the 31st August, 1887, and filed in the Department of Docks, in accordance with plans and specifications to be hereafter first submitted to and approved by the Board governing the Department of Docks before beginning the work ; and that this Department will grant permit for the erection and construction upon said wharves, piers and bulkheads by the said Manhattan Railway Company of proper sheds, elevators and coal-dumping apparatus necessary for the business of the said Manhattan Railway Company, and for the erection of iron columns supporting and carrying railway tracks upon the exterior wharf, street or place and upon the said piers and bulkheads, all to be built under and in accordance with plans and specifications to be hereafter first submitted to and approved by the Board governing the Department of Docks before beginning the work :

Provided, That the said Manhattan Railway Company shall first, and within ten days after receipt of notice of this action of the Board of Docks, file in the office of the Department of Docks its written agreement to pay rent for said land under water in the sums and manner following, to wit : During the first term of ten years from the day of signing the lease, the sum of \$5,000 per annum, and during the second term of ten years the sum of \$6,500 per annum, and during the third term of ten years the sum of \$8,000 per annum, the same to be payable quarterly in advance on the first of each quarter days.

And also its written agreement immediately to execute and deliver the necessary lease upon receipt of notice of this Board so to do ;

And also its written agreement to maintain in good order and condition all of the exterior wharf, street or place, and all wharves, piers, bulkheads, and slips to be built on the said premises, and to do all dredging appertaining thereto, during the continuance of the lease, and that it will, at the expiration or sooner termination of the said lease, surrender all of the said wharves, piers, bulkheads and slips, and that the same shall become the property of the City of New York, together with all structures thereupon, free of all cost and expense to the said City ;

And also its written agreement that the said exterior wharf, street or place, shall be kept clear of said company of all obstructions and impediments to travel under the structures over said exterior wharf, street or place, as provided by plans and specifications to be submitted to and approved by the Department of Docks, and that the said Company will, on the expiration or sooner termination

of said lease, remove all columns, tracks and structures of every kind placed upon, on or over exterior wharf, street or place, within 30 days after notice in writing has been duly served on said Company to remove the same ;

And further provided, that all the above agreements in writing to be filed within ten days from receipt of notice of the passage of these preambles and resolutions, shall be duly and properly executed by the proper officers of the said Manhattan Railway Company under and with the corporate seal of said company attached to said agreements, and that until such agreements, so executed and sealed, shall be filed in this Department by the said company, all of the foregoing preambles and resolutions shall be of no force or effect.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held December 15, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held December 9, 10 and 12, 1887, were read and approved.

The communication from Joseph Cornell, President of the Citizens' Steamboat Company at Troy, requesting lease of Pier, new 46, North river, was,

On motion, laid on the table for further consideration.

The communication from E. Ellery Anderson, attorney John Nesbitt's Sons, in reference to the encroachment of fences and sheds at foot of Thirty-seventh street, East river, was,

On motion, laid on the table.

A communication from the Civil Service Supervisory and Examining Boards, in reference to the working of the Civil Service system as applied to the Department was,

On motion, laid on the table.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary as stated, to wit:

From Hon. Abram S. Hewitt, Mayor—Transmitting resolution adopted by the Board of Aldermen for the paving of Fortieth street, from First avenue to the East river, with trap-blocks. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Comptroller of the City—Approving sureties of Duncan A. Gillies to his contract for building crib-bulkhead foot of One Hundred and Fifty-eighth street, North river.

From Department of Public Works—Reporting hole in Pier foot of Eighth street, East river. The action of the Secretary in advising that the Engineer-in-Chief of this Department has been directed to cut off the dangerous portion of said Pier was approved.

From Department of Street Cleaning—In relation to the agreement made with Commissioner Marshall for the cleaning of the Piers and bulkheads under the control of this Department.

From the Counsel to the Corporation—In reference to form of contract for building pier and bulkhead at One Hundred and Seventeenth street, Harlem river.

From North and East River Steamboat Company and John D. Deveau—Requesting permit to lay water-pipes on Pier, new 32, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Belloni & Co.—Requesting permit to open bulkhead in front of building No. 41 South street, to make repairs to drain-pipe. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Wilson, Adams & Co.—In reference to the inspection of timber ordered by the Department. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Simon Stevens, attorney—Respecting the settlement of the bills submitted by the Department for dredging at Piers 12, 13 and 14, East river.

From S. A. Frost—Requesting permission to repair Piers 19 and 28, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief was approved.

From Union Stock Yard and Market Company—Stating that the required repairs will be made on Pier foot of Fifty-eighth street, North river.

From Bernard Kirsch—Requesting permission to place cat-boat in Department Yard, foot of Sixty-seventh street, East river.

From William Grier—Desiring to be informed upon what terms the Department will lease the wharf-front foot of Fifty-first street, East river. The Secretary directed to advise Mr. Grier that the wharf cannot lease wharf property, except at public auction.

From Charles H. Tweed, attorney for C. P. Huntington—In reference to the proposed lease for bulkhead adjoining Pier, new 37, North river. Referred to Commissioner Marshall.

From Frank Doughty—Tendering his resignation as Carpenter. Resignation accepted.

From Vanderpoel, Green, Cuming & Goodwin, attorneys for Edward Roberts—Requesting the Department to suspend action respecting wharf property at Ninety-fourth street, East river. Referred to Commissioner Marshall.

From Brown & Fleming—Requesting a reduction in rent for dumping-board located at the foot of Rivington street, East river. Referred to Commissioner Matthews with power.

From Baltimore and Ohio Railroad Company—Stating that repairs are being made to water-pipes on Pier, new 43, North river.

From Engineer-in-Chief :

1st. Reporting assignment of employes to special duty.

2d. Reporting the amount of work done during the week ending December 10, 1887.

3d. Reporting the repairs required to the bulkhead between Piers 43 and 44, East river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, a cost of about \$15, was approved.

4th. Reporting completion of new Pier at One Hundred and Thirty-second street, North of building new crib-bulkhead at and south of West One Hundred and Thirty-second street, repairing old crib-bulkhead north of Pier at One Hundred and Thirty-first street, North of West One Hundred and Thirty-second street. The action of the President in directing the Dock Master to collect wharfage from all vessels using said premises was approved.

5th. Reporting that repairs have been commenced to the bulkhead foot of Corlears street, East river.

6th. Reporting that he had suspended Laborer Patrick Maguire for ten days, and recommending that his action be approved.

On motion, his action was approved.

7th. Reporting repairs required to Piers at West Seventeenth and Eighteenth streets, North of West One Hundred and Thirty-second street. The Engineer-in Chief directed to repair as recommended in his reports.

8th. Reporting non-commencement of repairs to cluster of piles at Pier 59, East river.

On motion, the action of the Board directing the owners of the tug "Three Brothers" to repair the damage done to said piles was revoked, and the subject-matter respecting the repairing of piles referred to the Engineer-in-Chief.

9th. Report on Secretary's Order No. 7271, in reference to the application of James Sutherland for permission to fill-in and build a crib-bulkhead between Twenty-eighth and Twenty-ninth streets, East river, and recommending that the same be denied.

On motion, the report of the Engineer-in-Chief was received and recommendation adopted.

10th. Report on Secretary's Orders Nos. 7287, 7288, 7289 and 7290, respecting the resolutions passed by the Board of Aldermen for regulating, grading, etc., of West Fifty-sixth street, from Eleventh avenue to the North river; East Forty-first street, from First avenue to the East river, and East Eighty-third and Eighty-fourth streets, from Avenue B to the East river. The action of the President in sending copies of said reports to Hon. Abram S. Hewitt, Mayor, was approved.

11th. Report on Secretary's Order No. 6157, that he had made a survey of the premises between Thirty-eighth and Thirty-ninth streets, East river, which is on file in this office.

12th. Report on Secretary's Order No. 7284, in reference to the application of Wilson & Adams for an Inspector of Timber to examine some ordered from them at their yard foot of One Hundred and Thirty-eighth street, Harlem river.

- 13th. Report on Secretary's Order No. 7304, respecting the resolution passed by the Board of men for the paving of Fortieth street, from First avenue to the East river, with trap-block pavement. The President authorized to transmit copy of said report to Hon. Abram S. Hewitt, Mayor.
- 14th. Report on Secretary's Order No. 7297, as to coal-run structure erected at bulkhead north Forty-third street, East river, by the Consumers' Coal Company.
- 15th. Report on Secretary's Order No. 7225, that he had repaired the pavement in front of bulkhead, between Piers, old 35 and 36, North river, near the north side of Pier, old 35, North river.
- 16th. Report on Secretary's Order No. 7231, that he had repaired bulkhead-platform, foot of Forty-fifth street, East river.
- 17th. Report on Secretary's Order No. 7218, that he had repaired the pavement on City's bulkhead, south side of Pier, old 35, North river.
- 18th. Report on Secretary's Order No. 7099, that he had made the repairs and furnished supplies to Dock Master's office, at Seventy-ninth street, North river.
- 19th. Report on Secretary's Order No. 6832, reference to repairs, etc., bulkhead, westerly side of Pier 38, East river.
- 20th. Report on Secretary's Order No. 7090, that he had superintended repairing ferry premises between Thirty-fifth and Thirty-sixth streets, North river.
- 21st. Report on Secretary's Order No. 7217, that repairs have been made to the pavement between Pier 34 and Pier 35, and in front of bulkhead north of Pier, old 34, North river.
- 22d. Report on Secretary's Order No. 7223, that he had superintended repairing ferry-racks at foot of West Twenty-third street, North river.
- 23d. Report on Secretary's Order No. 3649, that he had supervised the building of a crib-bulkhead southwest of One Hundred and Sixty-first street, Cronwell's creek, and filling-in rear of same.
- 24th. Report on Secretary's Order No. 6207, that he had superintended the alterations to shed at Pier 18, North river.
- 25th. Report on Secretary's Orders Nos. 7210, 7224 and 7219, that he had superintended cutting backing-log on Pier, new 32, East river.
- 26th. Report on Secretary's Order No. 7242, that he had superintended removal of scow sunk at Pier foot of One Hundred and Thirty-eighth street, North river.
- 27th. Report on Secretary's Order No. 7293, that he had directed and superintended the opening of bulkhead between Piers 12 and 13, East river, for the purpose of repairing drain-pipe.
- 28th. Report on Secretary's Order No. 7237, that he had superintended replacing fender-piles at Pier 5, North river.
- 29th. Report on Secretary's Order No. 7234, that he had superintended replacing fender-piles at ends of ferry racks at Christopher street, North river.

30th. Report on Secretary's Order No. 7146, that he had superintended repairing ferry-rack at Fourteenth street, North river.

From P. Curley, Dock Master :

1st. Recommending that the bulkheads between Piers, new 36 to 40, North river, be cleaned. Referred to the Engineer-in-Chief to examine and report.

2d. Reporting that repairs are required to Pier, old 54, foot of Perry street, and Pier at West Eleventh street, North river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From Charles Hutchinson, Dock Master :

1st. Stating that he is collecting wharfage for use of bulkhead heretofore occupied by J. L. Miller at Forty-third street, East river.

2d. Reporting that Cornelius Gallagher has commenced to dig a trench on the westerly side of East Thirty-eighth street, and about twenty-one feet from bulkhead-line.

3d. Reporting that the Consumers' Coal Company are erecting a structure to be used as a coal bin on easterly side of East Forty-third street. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Edward Abeel, Dock Master—Reporting chain fastenings loose spring-pile on the outer upper corner of Pier 44, East river. The action of the President in directing the Engineer-in-Chief to repair at once was approved.

From David W. Bogert, Dock Master—Reporting that the bulkhead, between Piers, old 35 and 36 North river, requires cleaning. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Joseph B. Erwin, Dock Master—In reference to the complaint of John Smith as to obstructions on Pier at Fifty-fifth street, North river.

From Charles H. Pendegast, Dock Master—Reporting several holes in the sheathing on the north side of Pier 58, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Charles H. Thompson, Dock Master :

1st. In reference to the complaint of the New York, South Brooklyn Ferry and Steam Transportation Company as to the obstruction in front of ferry-slip, Pier 3, East river.

2d. In reference to the berthing of canal boats by persons in the employ of the New York Central and Hudson River Railroad Company.

The report of the Engineer in Chief on Secretary's Order No. 6684, submitting plans, specifications and form of contract for building a new pier and approach, foot of West Thirty-eighth street, North river, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That the plans, form of contract and specifications, as prepared and submitted by the Engineer-in-Chief, for building a new pier with a temporary approach at the foot of West Thirty-fifth street, North river, in place of the old pier which is to be removed, and for repairing the existing crib-bulkhead at the foot of the street, be and hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

The application of Thomas F. White, official contractor, requesting at least two hundred and fifty feet of the outer end of Pier foot of West Thirty-seventh street, North river, was received, read, and together with the communication from Health Commissioner James C. Bayles in relation hereto, referred to the Engineer-in-Chief to examine and report.

A communication from Hon. Abram S. Hewitt, Mayor, transmitting communication received from Francis M. Scott, Assistant Counsel to the Corporation, referring to matters in the Department, was,

On motion, referred to Commissioners Matthews and Marshall.

On motion, the President was authorized to transmit to the Comptroller the balance-sheet for the month of November, 1887.

On motion, the claim of John A. Bouker for three days' demurrage on Scow No. 8, loaded with cobbles at Franklin Street Section, October 27, 28, and 29, 1887, at \$7 per day, amounting to \$21, was allowed, and the Chief Clerk directed to include said amount in the next audit.

The communication from the Comptroller of the City, transmitting copy of resolution adopted by the Commissioners of the Sinking Fund, at a meeting held on the 1st day of December, 1887, approving of the alteration of the lines of Pier, new 24, East river, were received, read and, together with the plans, ordered to be placed on file, and the Secretary directed to enter the resolution in full in the minutes, as follows :

Resolved, That the action of the Board of Docks, taken at a regular meeting thereof, held on the tenth day of May, eighteen hundred and eighty-six, in changing the width and location of the proposed new pier number Twenty-four, to be built at or near the foot of Roosevelt street, East river, from the lines thereof as laid down on the plan heretofore determined upon by the said Board of Docks, and approved by this Board pursuant to the provisions of section six of chapter five hundred and seventy-four of the Laws of eighteen hundred and seventy-one, be and the same is hereby approved, the lines of the said proposed new pier number Twenty-four to be as indicated on map on file in the office of the Department of Docks and presented to this Board herewith and described as follows :

Beginning at a point in the established bulkhead-line of 1871, which point is also in the easterly side of Pier, old 29, East river, as it exists at present ; thence running in a straight line to the southeasterly corner of Pier, old 29, East river, as it exists at present ; thence running in a

straight line toward the southwesterly corner of Pier, old 29, as it exists at present, a distance of 171 feet ; thence deflecting to the right an angle of forty-seven degrees from the last-described line and running westerly a distance of 24 feet ; thence deflecting to the right an angle of thirty-nine degrees from the last-described line and running northerly a distance of 27 feet ; thence deflecting to the right an angle of twenty three degrees from the last-described line and running northerly a distance of 165 feet ; thence deflecting to the right an angle of eighty-four degrees from the last-described line and running easterly a distance of 50 feet ; thence running northerly to a point in the established bulkhead-line 107 feet distant and westerly from the point of beginning, measuring in said established bulkhead-line.

Provided that the action of the said Board of Docks and of this Board in making and approving such change of the width and location of the said pier shall in no way prejudice any right, title or interest that the Mayor, Aldermen and Commonalty of the City of New York may now have or be entitled to assert with respect to the structure of the present pier now existing in part or wholly erected upon the site of said proposed new pier, which present pier is known as Pier Old No. 29, or to the wharfage, crannage, advantage and emoluments thereof, or to the land or lands covered with water upon which the said present pier stands.

The communication from the Comptroller of the City transmitting copy of resolution adopted by the Commissioners of the Sinking Fund on the first day of December, 1887, returning the plans submitted by the Department for the improvement of the water-front between Twenty-fourth and Twenty-eighth streets, East river, was received and ordered to be spread in full on the minutes, as follows :

Resolved, That the Comptroller be authorized to return the plans for the improvement of the water front between Twenty-fourth and Twenty-eighth streets, East river, presented to the Commissioners of the Sinking Fund for their approval December 28, 1886, as requested by the Department of Docks.

The report from the Engineer in Chief on Secretary's Order No. 7194, that he had made requisition for dredging in front of bulkhead for one hundred feet south of Cherry street, East river, and supervised the work thereat, which was done by the Union Dredging Company, at a cost of \$252.40, was,

On motion, ordered to be placed on file, and the following preambles and resolution were adopted :

Whereas, It appears that notice was given on February 23, March 2, November 3 and 15, 1887, to Henry Keteltas to deepen and dredge water at the bulkhead, one hundred feet south of Cherry street, East river, of which the said Henry Keteltas is alleged owner, and that said notices were not complied with after a reasonable period had been allowed for the commencement of the work, and

Whereas, Said work of deepening and dredging the water at or near the premises referred to has been done by this Department (in accordance with authority conferred upon it by section 721 of the Consolidation Act of 1882, and Rule No. 9 of the Rules and Regulations of the Department, at a cost of \$252.40 ; therefore

ed, That a bill for the above amount be rendered to the said Henry Keteltas and demand of same be made with affidavit of personal service, and in case of neglect of the said teltas to pay the amount in full within ten days from the presentation of the account that e placed in the hands of the Counsel to the Corporation for collection.

reasurer, Commissioner Matthews, submitted his report of receipts for the week ending 13, 1887, amounting to \$30,547.40, which was received and ordered to be spread in full utes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

tion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held December 16, 1887.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The minutes of the meeting held December 15, 1887, were read and approved.

The reports of the Engineer-in-Chief on Secretary's Orders Nos. 7238, 7239, 7241, 7243, 7244, 7245, 7248, 7249, 7251, 7253, 7255, 7257, 7258, 7260, 7263, 7265, 7266, 7267, and 7268 respecting the cleaning required at the bulkhead foot of One Hundred and Twelfth street, Harlem river, at the bulkhead north and south of West Seventy-ninth street, in front of the bulkhead from West One Hundred and Twenty-ninth to West One Hundred and Thirtieth street. Piers at Bethune, Jan. Bogart streets; West Sixteenth street, West Seventeenth street, West Fifty-first and West Fifty-fifth streets, North river. Piers at East Eighty-sixth street, East Seventy-ninth street; bulkheads foot of East Sixty-second street and foot of East Twenty-ninth street. Pier at East Thirty-seventh street; bulkhead at East Fifty-fourth street, and between Piers 13 and 14, East river, were,

On motion, ordered to be placed on file, and the Engineer-in-Chief directed to clean said piers and bulkheads as recommended in his reports.

The reports of the Engineer-in-Chief on Secretary's Orders Nos. 7246, 7250, 7254, 7256, 7259, 7261, 7262, 7263, 7264 and 7266 as to the cleaning required to Pier at Little West Twelfth street, West Eighteenth street, North river; bulkhead between East Seventy-eighth and Seventy-ninth streets, foot of East Twenty-eighth street, at East Forty-third street, Pier 19, bulkhead between Piers 36 and 37, Pier 12, East river, and Pier foot of West Forty-sixth street, North river, were,

On motion, ordered to be placed on file, and the President authorized to request the Department of Street Cleaning to clean said piers and bulkheads as recommended by the Engineer-in-Chief of this Department.

On motion, the appointments of Frank D. Smith, Engineer of Pile Driver, and George A. Button, and Bernard Rolf, chainmen, were, in accordance with Regulation 36 of the Civil Service Regulations, made permanent.

The following preambles and resolutions were,

On motion, adopted:

Whereas, This Board has been in negotiation for the purchase of certain bulkhead or wharf property, commencing 100 feet west of Jackson street, extending thence westerly 125 feet on South street, along the East river, in the City of New York, as provided by section 15, chapter 410 of the Laws of 1882, and

Whereas, Such negotiations have resulted in a proposition on the part of John Duryea, for and in behalf of himself, Wright Duryea, William Duryea, Hiram Duryea and Edgar E. Duryea, under the terms of which they are willing to sell and convey to the Corporation of the City of New York, the premises hereinafter described for the sum of \$120 per lineal foot; therefore, be it

Resolved, That in pursuance of the proposition so named, this Board agrees to purchase for and on account of the Corporation of the City of New York the following described piece or parcel of

erty from the owners thereof, together with all their rights, titles, easements and incident thereto, for the sum of fifteen thousand dollars (\$15,000), subject to the approval of the Commissioners of the Sinking Fund, as provided by said section 715, chapter 410 of the Laws of 1887.

That certain bulkhead or wharf on the southerly side of South street, situated between and bounded by the prolongation in a southerly direction of a line drawn parallel to and one hundred feet westerly from the westerly side of Jackson street (formerly Walnut Slip) until it intersects the said bulkhead, and another line formed by the prolongation in a southerly direction of a line drawn parallel to and two hundred and twenty-five feet westerly from the westerly side of Jackson street (formerly Walnut Slip), until it intersects the said bulkhead, the line extending along the East River for a distance of one hundred and twenty-five feet, with the perpetual rights of wharfage, and all other riparian rights, terms, easements and privileges connected therewith or arising therefrom, or connected with or arising from the line of South street, or any other wharf line extending along the East river, between the lines formed by the prolongation in a southerly direction of a line drawn parallel to and one hundred feet westerly from the westerly side of Jackson street, and another line formed by the prolongation in a southerly direction of a line drawn parallel to and two hundred and twenty-five feet from the westerly side of Jackson street, as and for the purposes of a wharf or bulkhead; and all the perpetual rights, titles, terms, easements or privileges in the land under water, or in the waters of the East river opposite to or in front of the said bulkhead, said outer line of wharf, or said wharf lines, and all rights to any further or future grants of land and land under water in the East river, between the aforesaid prolongation of the line drawn parallel to and one hundred feet westerly from the westerly side of Jackson street and a line drawn parallel to and two hundred and twenty-five feet westerly from said westerly side of Jackson street.

That any and every right, title or interest said parties of the first part may have, other than as is described in and to said South street, adjoining said bulkhead, as and for the purposes of a wharf or bulkhead, and in any bulkhead or bulkheads in front thereof, and the wharfage and incident therefrom, and the land and land under water and waters of the East river in front of the same, extending from South street as far into the river as any private right may extend in front of said bulkhead, and any structures erected thereon; therefore, be it

Resolved, That the proposition made to this Board, by and on behalf of the owners of the property above described, to sell and convey the same to the Corporation of the City of New York, on the terms and conditions named therein, be and hereby is accepted, subject to the approval of the Commissioners of the Sinking Fund, as provided for by law, and that the President of this Board be and is hereby authorized to notify the said parties of the acceptance hereof, and request agreements for carrying out the same, shall be prepared and executed in quadruplicate by the said private owners, within twenty days from date hereof, and that when so prepared and submitted to the officers of this Board be and are hereby directed to execute the same, and affix the seal of the Board thereto, and when so executed, the Secretary be and hereby is directed to transmit the same to the Commissioners of the Sinking Fund, and one of the quadruplicates to the Clerk of the City.

Whereupon, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held December 19, 1887.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The Board met for the purpose of receiving estimates for preparing for and building wooden pier at the foot of East One Hundred and Seventeenth street, Harlem river ; for preparing for and building a new crib-bulkhead with appurtenances at the foot of East One Hundred and Seventeenth street, Harlem river, and for dredging thereat.

A representative of the Comptroller was present.

Six estimates were received, as follows :

No.	FROM.	CLASS NO. 1.	CLASS NO. 2.	CLASS NO. 3.	CLASS NO. 4.	Total
		For all Materials Dredged, per Cubic Yard.	For the New Crib-bulkhead Complete, with Appurtenances.	For the Rip-rap Stone, per Cubic Yard.	For the New Wooden Pier Complete, with Appurtenances.	
1	John Gillies, with \$160 in money.....	\$0 45	\$3,270 00	\$0 65	\$9,000 00	\$12,335 00
2	O'Connell & Coffey, with \$160 in money.....	35	5,375 00	75	8,550 00	13,985 00
3	Richard Cronin, with \$160 in money.....	50	3,300 00	75	7,638 00	11,063 00
4	John W. Flaherty, with \$160 in money.....	35	3,495 00	65	6,575 00	10,135 00
5	William P. Kelly, with \$160 in money.....	40	3,670 00	80	6,730 00	10,480 00
6	John M. Monks, with \$160 check.....	48	5,840 00	75	10,280 00	16,195 00

On motion, the Secretary was directed to transmit to the Comptroller the security deposits by said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for preparing for and building a new wooden pier at the foot of East One Hundred and Seventeenth street, Harlem river ; for preparing for and building a new crib-bulkhead with appurtenances at the foot of East One Hundred and Seventeenth street, Harlem river, and for dredging thereat be and hereby is awarded to John W. Flaherty, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary

at a meeting of the Board of Docks, held December 22, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held December 16 and 19, 1887, were read and approved.

The opinion of the Counsel to the Corporation respecting the repairing of the bulkhead at East Hundred and Twentieth street, Harlem river, was,

On motion, laid on the table for further consideration.

The reports of the Engineer-in-Chief on Secretary's Orders Nos. 7279 and 7280 as to the piling required at Pier 47 and bulkhead between Piers 47 and 48, East river, were,

On motion, laid on the table.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation :

1st. Approving contract, etc., for building Pier, etc., at One Hundred and Seventeenth street, East river.

2d. Approving contract for removing Pier, old 35, foot of Franklin street, North river, and building Pier, new 24, North river.

From Department of Street Cleaning :

1st. Reporting that there are about four cart loads of building sand on the bulkhead between Mott and Stanton streets, East river. Referred to the Engineer-in-Chief to examine and report.

2d. Reporting obstructions to dumping-board at Market street, East river, and foot of Canal street, North river. Referred to Dock Masters Abeel and Curley to examine and report.

3d. Stating that the platform foot of Seventy-fifth street, East river, will be cleaned as soon as it can be had to the foot of said street. The Secretary directed to notify the Dock Master to inform the Board when the obstructions are removed from said street.

4th. Requesting the Board to set aside for the uses and purposes of said Department the whole southerly side of the Pier foot of Seventy-ninth street, North river.

On motion, the Engineer-in-Chief was authorized to make the necessary arrangements with the Department of Street Cleaning, for the reception of ashes and street dirt behind the new bulkhead at West Seventy-ninth street, North river.

5th. Requesting dredging at the dumping-boards, foot of East Thirty-eighth street, East river, and foot of East One Hundred and Tenth street, Harlem river. The action of Commissioner Matthews directing the Engineer-in-Chief to examine and report was approved.

From Comptroller of the City—In reference to the petition of James Rogers and Mary Deen for a release from the City of certain land on the Harlem river, south of One Hundred and Twenty-fifth street, and desiring to be informed if said land is required for the improvement of the waterfront and commercial purposes. The action of the President in sending to the Comptroller a copy of the report of the Engineer-in-Chief on Secretary's Order No. 7345, in relation thereto, was approved.

From Manhattan Railway Company—Enclosing agreements executed by said company relative to the lease of property at One Hundred and Fifty-ninth street and Eighth avenue.

From T. H. Thorn & Co. Complaining of the rate of wharfage charged by H. Hasbrouck & Co. on canal-boat while berthed at Sixty-second street, East river. Referred to the Dock Master for examination and report.

From a citizen—In relation to the loading and unloading of a scow berthed at the foot of East Sixtieth street, East river. The action of the President in directing the Dock Master to examine and report was approved.

From L. & J. Brandt—Requesting permission to rip-rap the slope foot of Eighty-third street, East river, to prevent the rain from washing down the soil. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From G. Kemble, Secretary—Report on auction sale of old material held on the 21st day of December, 1887.

On motion, the Secretary was directed to notify the Chief Clerk of said sale, and deliver to the Treasurer the check for \$202.95, received from the auctioneers, Messrs. Van Tassell & Kearney.

From Clement Gould—Requesting permission to dredge and fill in near Morris Dock, Harlem river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Old Dominion Steamship Company—Respecting berth at Pier, new 43, North river.

From William Sheehan—Requesting a low tariff on three boats to lay up for the winter, at Pier foot of One Hundred and Thirty-second street, North river. Referred to the Dock Master to examine and report.

From David Stevenson—Respecting the shed being erected on the bulkhead north and south of Pier, new 41, North river. The Secretary directed to furnish the information desired.

From Benjamin D. Silliman, attorney Union Ferry Company—Respecting the condition of the northerly pier of the South Ferry slip, at or near the foot of Whitehall street. The action of the Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

From Clark & Wilkins—In relation to berth at Pier foot of West Eleventh street, North river. The action of the President in directing the Dock Master to examine and report was approved.

From C. M. Bell—Requesting permission to sheath Pier 47, East river, and drive about eight fender-piles. Permission granted, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Thomas Kane—Requesting permit to dredge in front of the bulkhead between Ninety-third and Ninety-sixth streets, North river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From George A. Dearborn, Dock Master—Reporting repairs required to Pier north of Eighty-third street, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From David W. Bogert, Dock Master—Reporting hole in bulkhead between Piers 12 and 13, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Edward Abeel, Dock Master—Reporting that there is a broken plank on deck of Pier 19, East river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From Charles H. Thompson, Dock Master :

1st, Reporting that one-half of the end of Pier 7, East river, is gone.

2d. Reporting that dredging is required at Pier 7, East river.

3d. Reporting that there is a large accumulation of dirt on the bulkhead between Piers 12 and 13, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From P. J. Brady, Dock Master—Reporting that the Pier foot of West Twenty-ninth street, North river, is in need of cleaning. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From John J. Ryan, Dock Master :

1st. Reporting hole in bulkhead foot of West Ninety-sixth street, North river. The action of the President in directing the Engineer-in-Chief to repair was approved.

2d. Reporting that the filling is settling between One Hundred and Thirty-first and One Hundred and Thirty-second streets, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

3d. Reporting that the canal-boat "Lillie D," is sunk in front of the bulkhead, between One Hundred and Twentieth-ninth and One Hundred and Thirtieth streets, North river. The action of the President in notifying Thomas Dineen, 15 Trinity Building, to remove said canal-boat forthwith, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Charles M. Pendergast, Dock Master—Reporting that Pier 46, East river, requires cleaning. Referred to the Engineer-in-Chief to examine and report.

From Charles B. Husted, Dock Master—Respecting a canal-boat that is in arrears for wharfage. Referred to the Secretary.

The President suspended the regular order of business for the purpose of receiving estimates for moving all that part of Pier, old 35, at the foot of Franklin street, North river, with the shell *iron, which lies westerly of the new bulkhead-line, except the cribwork below low-water mark,*

and preparing for and building a new wooden pier northerly of the site of said Pier old 35, to be known as Pier, new 24, North river, advertised to be opened this day at 12 o'clock. A representative of the Comptroller was present. Five estimates were received, as follows :

1. From John W. Flaherty, with \$580 in cash.....	\$45,900 00
2. From Joseph Walsh, with \$580 in check	43,000 00
3. From John Gillies, with \$580 in cash.....	36,000 00
4. From Richard Cronin, with \$580 in cash.....	37,750 00
5. From P. Sanford Ross, with \$580 in cash	40,675 00

On motion, the Secretary was directed to transmit to the Comptroller the security deposits made by said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for removing all that part of Pier, old 35, at the foot of Franklin street, North river, with the shed thereon, which lies westerly of the new bulkhead-line, except the cribwork below low-water mark, and preparing for and building a new wooden pier northerly of the site of said Pier, old 35, North river, to be known as Pier, new 24, North river, be and hereby is awarded to John Gillies, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the city.

The Board then proceeded with the regular order of business.

The following communications were received, read and,

On motion, ordered to be placed on file.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending December 17, 1887.

3d. Reporting completion of Pier, new 32, East river. The action of the President in directing the Dock Master to collect wharfage from all vessels using said Pier was approved.

4th. In reference to the sunken canal-boat and scow in slip between Thirty-ninth and Fortieth streets, North river. The action of the President in notifying John Hughes to at once remove said boat and scow, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

5th. Reporting the death of John Malone, Dock Builder. The Secretary directed to drop said name from the list of employees.

6th. Repair required to Pier south of Eighty-sixth street, East river. The Engineer-in-Chief acted to repair, as recommended in his report, at a cost of about \$110.

7th. Report on Secretary's Orders Nos. 7298 and 7299, in reference to the application of the Hudson and East River Steamboat Company and Captain John B. Deveau, for permission to lay water-pipes under Pier, new 32, East river. The action of the President in issuing a permit to run said pipes on top of cross caps along the westerly side of said pier, under the direction and supervision of the Engineer-in-Chief of this Department, and be and remain during the pleasure of the Board, was approved.

8th. Report on Secretary's Order No. 7303, repairs needed to the sheathing on the north side deck of Pier 58, East river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$40, was approved.

9th. Report on Secretary's Order No. 5119, recommending that the permit issued to J. W. Colwell to drive piles at One Hundred and Sixty-first street, Cromwell's creek, be revoked.

On motion, the report was received and recommendation adopted.

10th. Report on Secretary's Order No. 5868, recommending that the permit issued to John Smith to dredge along the return or wing structure of crib-bulkhead north of One Hundred and Fourteenth street, Harlem river, be revoked, as the said dredging has not been done and the Department are erecting a crib-bulkhead between One Hundred and Fourteenth and One Hundred and Fifteenth streets, Harlem river.

On motion, the report was received and recommendation adopted.

11th. Report on Secretary's Order No. 7235, respecting the qualifications of the parties submitted by the Civil Service Supervisory and Examining Board as eligible for the position of Steam Engineer, and recommending that the said Board be informed of the result of their certification and requested to send some others, in order that the Department may get the man they need and require.

On motion, the report was received and recommendation adopted.

12th. Report on Secretary's Order No. 4609, that he had superintended the erection of a sea-wall around a portion of North Brother Island, Long Island Sound, East river.

13th. Report on Secretary's Order No. 5230, that he had superintended the erection of a platform on piles at One Hundred and Sixty-first street, Cromwell's creek.

14th. Report on Secretary's Order No. 6542, that he had superintended driving fender-piles in front of the platform foot of One Hundred and Fifty-fifth street, Harlem river.

15th. Report on Secretary's Order No. 6587, that he had supervised the extension of platform at northerly end of Seventh avenue, Harlem river.

16th. Report on Secretary's Order No. 6893, that he had directed and superintended the erection of a structure for a dog pound foot of One Hundred and Second street, Harlem river.

17th. Report on Secretary's Orders Nos. 7150 and 7151, that he had made requisition for dredging the bulkhead, foot of East Forty-seventh street and half slip on the north side of Pier foot of Eighty-sixth street, East river, and supervised the work thereat.

18th. Report on Secretary's Order No. 7216, that he had made requisition for dredging in front of the bulkhead north of Pier foot of One Hundred and Thirty-first street, North river, and supervised the work thereat.

19th. Report on Secretary's Order No. 7275, that he had repaired Pier 61, East river.

20th. Report on Secretary's Order No. 7294, that he had repaired bulkhead between Piers 43 and 44, East river.

21st. Report on Secretary's Order No. 7300, that he had refastened spring-pile, Pier 44, East river.

22d. Report on Secretary's Order No. 7305, that he had directed and superintended replacing fender-piles, Pier 19, East river.

23d. Report on Secretary's Order No. 7306, that he had superintended repairing Pier 28, East river.

24th. Report on Secretary's Order No. 6074, removal of Pier, old 41, and building of Pier, new 32, East river.

25th. Report on Secretary's Orders Nos. 6994 and 7192, that a dump for the use of the Department of Street Cleaning, has been built on the southerly or lower side of Pier 44, East river.

The report of the Engineer-in-Chief on Secretary's Order No. 6908, in reference to the application of John Gillies for an extension of time in which to complete the work of building Pier, new 32, East river, under Contract No. 241, was received, read, and,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the time for the completion of the work to be done by John Gillies, under Contract No. 241, for removing Pier, old 41, East river, and building Pier, new 32, East river, be and hereby is extended to the 1st day of December, 1887, and that a penalty of \$500 be imposed for non-completion of the work in the time specified in the contract, and said amount deducted and retained from the final estimate on said contract.

The report of the Engineer-in-Chief on Secretary's Order No. 7149, in reference to the application of O'Connell & Coffey for an extension of time in which to complete the building of a pier and bulkhead at One Hundred and Thirty-second street, North river, was received, read, and,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the time for the completion of the work to be done by O'Connell & Coffey, under Contract No. 246, for preparing for and building a new wooden pier at the foot of West One Hundred and Thirty-second street, North river ; for preparing for and building a new crib-bulkhead at and southerly of West One Hundred and Thirty-second street, North river, and for repairing the crib-bulkhead northerly of the crib-pier at the foot of West One Hundred and Thirty-first street, North river, be and hereby is extended to the 23d of November, 1887, and that a penalty of \$500 be

for non-completion of the work in the time specified in the contract, and said amount and retained from the final estimate on said contract.

Commissioner Marshall gave notice that he would, in conformity with the provisions of sections 17 of the New York City Consolidation Act of 1882, being chapter 410 of the Laws of 1882, at the next regular meeting of the Board, to be held on Thursday, December 29, one week from date, certain amendments, alterations and modifications to the Rules and Regulations establishing the government and care of piers, bulkheads, slips and other wharf property and ask for adoption.

Commissioner Marshall gave notice that he would, in conformity with article XVI., section 1, By-laws, offer, at the next regular meeting of the Board, to be held on Thursday, December 29, one week from date, certain amendments, alterations and modifications to the By-laws, and ask for adoption.

Auditing Committee presented an audit of seven bills or claims amounting to \$7,878.88, which were approved, and ordered to be spread in full on the minutes, as follows :

Bills or Claims.	Amount.
Hoe & Co., cross-cut saws.....	\$101 72
Ward, Olyphant & Co., coal.....	501 25
Ward & Fleming, rip-rap and cobble....	5,534 16
Robert B. Brown, stationery.....	118 71
Robert M. Gilmour, hair felt.....	11 91
George Karr & Co., spruce.....	149 22
Liam Adams & Co., spruce	1,461 91
On Construction Account.....	\$7,878 88

RECAPITULATION.

Claims on Construction Account, amounting to..... \$7,878 88

Respectfully submitted,

JAMES MATTHEWS,
CHARLES H. MARSHALL, } Auditing Committee.

motion, the President was authorized to transmit the same, with requisitions for the amounts, to the Finance Department for payment.

The Treasurer, Commissioner Matthews, submitted the following report of receipts for week ending December 21, 1887, amounting to \$2,061.45, which was received and ordered to spread in full upon the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held December 23, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held December 22, 1887, were read and approved.

The application of F. W. J. Hurst, Manager National Line of Steamships, for lease of one of bulkhead each side of Pier, new 39, North river, was,

On motion, laid on the table.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From the Board of Commissioners of Pilots—In reference to the complaint made by the Dock Protective Association, respecting the dumping of a scow foot of East Sixtieth street, East river. Referred to Commissioner Marshall.

From Fire Department—Stating that an ash receptacle has been placed on pier foot of Clinton street, East river, for the use of the fire-boat "Havemeyer."

From R. Hill, captain steamer "Melzingah" :

1st. Requesting permission to cut string-piece at berth used by said steamer, at Pier, new 32, East river. The action of the President in issuing a permit, provided angle iron is used to protect end of pier, and five inch plank is placed thereat, secured by a chain, for closing the gangway when in actual use, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

2d. Requesting permission to remove tally-house from Pier 12, East river, to Pier, new 32, East river. The action of the President in issuing a permit, the said tally-house to be and remain during the will of the Board, was approved.

From Simpson, Spence & Young, lessees—Reporting that the approach to Pier, new 56, North river, requires repairs. Referred to the Engineer-in-Chief.

From C. H. Pendergast, Dock Master—Reporting that on December 21, 1887, he had served Henry Keteltas the resolution adopted by the Board December 15th instant, together with the sum, amounting to \$252.40, for dredging in front of the bulkhead one hundred feet south of Berry street, East river.

From Engineer-in-Chief :

1st. Report on Secretary's Order No. 7301, reference to the surface of Pier, old 54, North river. The Engineer-in-Chief directed to clean said pier as recommended in his report.

2d. Report on Secretary's Order No. 7342, cleaning required to the bulkhead between Piers 12 and 13, East river. The President authorized to request the Department of Street Cleaning to clean said bulkhead.

3d. Report on Secretary's Order No. 7344, condition of and repairs required to north half of Pier 2, East river. Referred to Commissioner Marshall.

4th. Report on Secretary's Order No. 7333, repairs required to the pavement adjoining the bulkhead between Piers, old 12 and 13, North river. The action of the President in notifying the Central Railroad Company of New Jersey, lessees, to repair under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

5th. Report on Secretary's Order No. 7312, as to the condition of and repairs required to Pier north of East Eighty-sixth street, East river. The action of the President in directing the Engineer-in-Chief to repair, as recommended in his report, at a cost of about \$225, was approved.

6th. Report on Secretary's Order No. 7311, as to the cleaning required to the bulkheads between Piers, new 35 and new 43, North river. The President authorized to request the Department of Street Cleaning to clean said bulkheads, excepting the ashes left on the bulkhead between Piers, new 37 and 38, North river, by the Fire Department. The Engineer-in-Chief directed to remove the ashes referred to with the force of the Department.

The application of the New York Central and Hudson River Railroad Company for permission to repair Piers 4, 5 and 6, East river, in accordance with the plans submitted, was received, read, and, together with the communication from the Engineer-in-Chief in relation thereto, ordered to be placed on file and permission granted, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

On motion, the following appointments were made :

Stone-cutters.

William Harrison,

Laughlin Harty,

Joseph Jaques.

Laborers.

Christopher Dalton,

Hugh Brady,

Michael Carroll,

Charles Rose,

Peter Bagley,

John Bowen,

James Cahill,

John Whearty,

Dennis G. Deery,

James Nash,

Patrick Connerty,

John J. Cunnion.

Edwin Burke,

John A. Anderson,

George T. Cash,

Thomas Winters.

Dock-builder.

Patrick Lafferty.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held December 28, 1887.

Present Commissioners Stark, Matthews and Marshall.

On motion, the following resolution was adopted :

Resolved, That the premises hereinafter described be and they hereby are appropriated and set apart for the sole use of the special kind of commerce carried on by the Manhattan Railway Company, and to the special commercial interests of said company; said premises being more particularly described as follows:

All that certain land under water belonging to the City of New York, and commencing at a corner on the westerly side of the Harlem river at the intersection of the northerly line of the land

ing to the estate of William Lynch, and the bulkhead-line called the United States improvement line, and thence running northerly along the circumference of the circle in said line, having a radius of four thousand two hundred and twenty feet, five hundred feet to a point on said United States improvement line ; thence westerly and radially, three hundred and fifty feet to the point of intersection with the westerly line of the exterior wharf, street or place ; thence along the westerly line of this exterior wharf, street or place, and parallel to the said United States bulkhead-line, three hundred and twenty feet more or less, to the northerly line of the land belonging to the estate of William Lynch ; thence easterly along the line of the land belonging to the estate of William Lynch, four hundred and ten feet more or less, to the United States improvement line, to the westerly side of the Harlem river and the place of beginning.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held December 29, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held December 23 and 28, 1887, were read and approved.

The application of Rice & Bijur, attorneys of the Ocean Steamship Company of Savannah, Messrs of Pier, new 35, North river, requesting the use of one-half of the bulkhead on either side of said Pier, was,

On motion, referred to Executive Session.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—In reference to the arrest of parties violating the rules and regulations established by the Department.

On motion, the suggestions were adopted, and the Secretary directed to notify the Dock Masters.

From Comptroller of the City—Approving sureties of John W. Flaherty to his estimate for building Pier, etc., at foot of East One Hundred and Seventeenth street, Harlem river.

From Civil Service Supervisory and Examining Boards—Transmitting eligible list of steam engineers. The action of the President in directing the Engineer-in-Chief to examine and report, as to the qualifications of the person named for said position, was approved.

From Fayerweather & Ladew—Respecting the condition of bulkhead foot of Forty-fourth street, East river. Referred to the Engineer-in-Chief to examine and report.

From Pennsylvania Railroad Company—Requesting permission to repair Pier 16, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Maine Steamship Company—Reporting that drifting planks and logs seriously interfere with the berthing of their vessels. Referred to the Engineer-in-Chief to examine and report.

From Old Dominion Steamship Company—Stating that they will discontinue using Pier, new 43, North river, on December 31, 1887. The action of the Secretary in notifying the Dock Master was approved.

From Hazelwood Point Ice Co.—Respecting the dumping of snow at Pier 55, East river.

From W. H. Starbuck and James A. Bostwick, lessee—Requesting permission to place a scale on Pier 49, East river. Permit granted, to be and remain only during the will of the Board.

From Greenpoint Ferry Co.—Requesting that the time to remove advertising signs from ferry premises, foot of East Twenty-third street, East river, be extended. The action of the President in advising that the time is extended until further notice from the Department was approved.

From Henry A. Cram—Reporting that for some time past a dealer in sand has been in the habit of depositing sand on his premises at One Hundred and Thirty-sixth street, near Madison avenue, Harlem river. The action of the Secretary in directing the Dock Master to examine and report was approved.

From Engineer-in-Chief:

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending December 24, 1887.

3d. Reporting holes in surface of bulkhead platform between Thirty-ninth and Fortieth streets, North river. The action of the President in notifying the alleged owner or owners, and the Citizen's Coal Company, lessees, to repair, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

4th. Reporting as to ownership of Piers 10 and 20, East river.

5th. Transmitting Engineer's report of material used under Contract No. 241, for building Pier, new 42, East river.

6th. Reporting Secretary's Office No. 7505, that Kennedy & Klunshart have decided not to do any work on the pier at the foot of East Twenty-third street, North river, in accordance with the permit issued May 22, 1887, and also reporting that the permit be revoked.

On motion of the Engineer-in-Chief, the report of the Engineer-in-Chief was adopted.

7th. Reading of Secretary's Office Nos. 7535 and 7536, regarding required at the dumping point, foot of Thirty-eighth street, East river, between Tenth and Tenth street, Harlem river. The Engineer-in-Chief directed that Kennedy & Klunshart be required to the extent of about 450 and 1,200 cubic yards thereat, as recommended in his report, to station a derrick of about fifteen feet at pier 42, East river.

- 9th. Report on Secretary's Order No. 5814, that he had supervised dredging in front of ferry-foot of Twenty-third street, North river.
- 10th. Report on Secretary's Order No. 6002, that he had painted on the outer ends of piers on North, East and Harlem rivers, the number of same in black figures upon a white background.
- 11th. Report on Secretary's Order No. 6764, that he had directed and superintended the removal of surplus material from bulkhead between Seventy-eighth and Eightieth streets and Pier Twenty-ninth street, North river, and the depositing of same behind the new bulkhead between Twenty-seventh and Seventy-eighth streets, North river.
- 12th. Report on Secretary's Order No. 6951, that he had superintended and directed the replacement of chocks at Pier, new 60, North river.
- 13th. Report on Secretary's Order No. 7076, that he had directed and superintended the refasting of backing-log on outer end of Pier at Fifty-eighth street, North river.
- 14th. Report on Secretary's Order No. 7372, that he had directed and superintended the running of 6-inch cast-iron pipe from No. 17 East street through the bulkhead between Piers 57 and 58, East river.
- 15th. Report on Secretary's Order No. 7270, that he had directed and superintended repairing bulkhead in front of bulkhead between Piers 18 and 19, North river.
- 16th. Report on Secretary's Order No. 7282, that he had directed and superintended repairing bulkhead on deck of Pier 9, East river.
- 17th. Report on Secretary's Order No. 7283, that he had repaired southerly half of Pier 54, East river.
- 18th. Report on Secretary's Order No. 7302, that he had repaired holes in deck of Pier at West Seventeenth street, North river.
- 19th. Report on Secretary's Orders Nos. 7309 and 7310, that he had repaired Pier at West Seventeenth and West Eighteenth streets, North river.
- 20th. Report on Secretary's Order No. 7332, that he had repaired Pier 58, East river.
- 21st. Report on Secretary's Order No. 7340, that he had repaired deck of west half Pier 19, East river.
- 22d. Report on Secretary's Order No. 7353, reference to repairing bulkhead foot of Ninety-sixth street, North river.
- 23d. Report on Secretary's Order No. 7240, that he had repaired bulkhead at Ninety-sixth street, North river.

From George A. Dearborn, Dock Master :

- 1st. Reporting that dredging is required in front of the bulkhead-platform, between Seventy-seventh and Seventy-eighth streets, East river.
- 2d. Reporting that the bulkhead between Seventy-fourth and Seventy-fifth streets, East river, is washing away. *The action of the President in directing the Engineer-in-Chief to examine and report was approved.*

From Charles H. Pendergast, Dock Master—Reporting that the covering of gangw was used for bath house on Pier 60, East river, has broken down. The action of the P directing the Engineer-in-Chief to examine and report was approved.

The reports of the Engineer-in-Chief on Secretary's Order No. 7341, as to the repairs a ing required at Pier 7, East river, were,

On motion, ordered to be placed on file, and the Engineer-in-Chief directed to repair as recommended in his report, at a cost of about \$800.

The Engineer-in-Chief was also directed to prepare specifications and form of cor dredging in the half slip on either side adjoining Pier 7, East river, to obtain a depth of fif as recommended in his report.

On motion, the Engineer-in-Chief was directed to prepare plans and specifications for the bulkhead wall and a new pier in place of Pier 7, East river.

The communication from the Engineer-in-Chief respecting the width of the new p built in place of Pier, old 46, East river, near the foot of Jefferson street, was,

On motion, ordered to be placed on file, and the Engineer-in-Chief directed to prepare changing the lines of Pier, new 36, East river, so as to bring the easterly line of said Pier, East river, on the easterly line of Jefferson street, and the width of said Pier to be forty fee of eighty feet as established under the new plan, subject to the approval of the Commission Sinking Fund.

The President suspended the regular order of business for the purpose of receiving the for granite-work and masonry on the boat-landing wall and about the approach to Pier "A river, advertised to be opened this day at 12 o'clock.

A representative of the Comptroller was present.

Estimates were received as follows :

1. From Robert L. Darragh & Co., \$75 in check..... \$
2. From Morris Jacoby, with \$75 in check.....
3. From Joseph Moore, with \$75 in check.....
4. From Bernard Mahon, \$75 in check.....

On motion, the Secretary was directed to transmit to the Comptroller the security depo by said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for granite-work and masonry on the boat wall and about the approach to Pier "A," North river, be and hereby is awarded to R Darragh & Co., they being the lowest bidders upon the approval of the sureties by the Compt the City.

the Board then proceeded with the regular order of business.

Commissioner Marshall, to whom was referred the revision of the Rules and Regulations for the management and care of wharf property under the control of this Department, submitted the following,

in motion, it was unanimously

resolved, That the following Rules and Regulations, numbered respectively from 1 to 16, both inclusive, be and they are hereby adopted and established as the Rules and Regulations of and for the Department of Docks, pursuant to the statute in such cases made and provided, to take effect from and after January 1, 1888; and that all Rules and Regulations heretofore adopted and established for the management and proper care of the said wharf property, be and are hereby repealed and annulled from and after the said January 1, 1888: Provided, however, that nothing in said Rules and Regulations so adopted and established as aforesaid shall in any manner impair or affect any violation of Rule or penalty incurred or imposed, or any action or proceeding in relation thereto, or for the recovery thereof, prior to January 1, 1888.

BOARD OF THE DEPARTMENT OF DOCKS.

Rules and Regulations established for the government and proper care of Piers, Bulkheads, and other Wharf Property, under the provisions of Sections 711 and 717 of the New York Consolidation Act of 1882, being chapter 410 of the Laws of 1882, as follows:

SECTION 711. The department of docks shall have exclusive charge and control, subject in the matters hereinafter mentioned to the commissioners of the sinking fund of said city, of all the property belonging to the corporation of the city of New York, including all the wharves, bulkheads and structures thereon, and waters adjacent thereto, and all the slips, basins, docks, fronts, land under water, and structures thereon, and the appurtenances, easements, uses, rights, and rights belonging thereto, which are now owned or possessed by the said corporation, in which said corporation is or may become entitled, or which said corporation may acquire under the provisions hereof or otherwise; and said department shall have exclusive charge and control of repairing, building, rebuilding, maintaining, altering, strengthening, leasing and protecting said property and every part thereof, and of all the cleaning, dredging and deepening, necessary in and about the same. Said department is also hereby invested with the exclusive government and regulation of all wharves, piers, bulkheads and structures thereon, and waters adjacent thereto, and all the slips and docks, with the land under water in said city not owned by said corporation.

SEC. 717. The department of docks shall establish and enforce all needful rules and regulations for the government and proper care of all the property placed in its charge and under its control by the provisions of this title relating thereto, and shall furnish a copy of such rules and regulations to the owners and occupants of such property, and shall make all needful orders and adopt all regulations necessary to carry out the provisions of this title relating thereto into effect, and fix penalties for disobeying such rules, regulations or orders, and shall publish such orders. The violation or disobedience to any rule, regulation or order of said department shall be a misdemeanor, punishable by a fine not exceeding five hundred dollars, or by imprisonment not exceeding thirty days, or by both such fine and imprisonment, on complaint of said department. The penalties

aforesaid may be recovered by suit in the name of the Mayor, Aldermen and Common City of New York, and such suit shall be prosecuted by the counsel to the said corporation directed by the board ; and no defendant in any such suit shall be permitted to plead in any such order, rule or regulation.

RULES AND REGULATIONS.

RULE 1.—No piles shall be driven, nor shall any platform be erected, nor shall any thing of any kind be made on any part of the water-front of the city, without a written permit therefor first had and obtained from the Board, under a penalty of one hundred dollars for every such pile to be recovered from the owner, lessee or occupant of any pier or bulkhead, or of any property or right, who shall cause or permit any such work to be done upon his premises without such permit therefor has been obtained, and there shall be a further penalty of twenty dollars for each and every day which shall elapse until any piles so driven, or platform so erected or material so filled in, without such permit being first obtained therefor, shall be removed. After the expiration of the time specified in a notice for such removal, to be signed and served upon the owner, lessee or occupant, by the Dock Master of the District or other representative of the Department, said penalty to be also recovered from such owner, lessee or occupant.

RULE 2.—No shed, building, office, tally-house, or any other structure shall be erected, nor shall any derrick, hoisting-mast, coal-hopper, sign or advertising device, or any other obstruction of any kind, be placed or maintained on any pier, bulkhead or other wharf structure, nor upon any reclaimed land, without a written permit being first had and obtained from the Board upon written application from the person desiring such permit. It shall not be lawful to maintain any booth, stand or structure for the sale of merchandise or refreshments upon any pier, bulkhead or other wharf structure, or upon any reclaimed land under control of this Department, nor shall any sign or advertising device other than those used for the business of the parties occupying the premises, be placed or maintained on any shed or structure erected on property under the control of this Department ; and if the owner, lessee, occupant, or agent shall place or erect any structure which permit has not been duly obtained from this Board, or place and maintain any sign or advertising device on sheds or structures on property in charge of this Department, and shall refuse to remove the same on notice being given to said owner, lessee, occupant or agent, signed and served by the Dock Master of the District, or other representative of the Department, then for every day after the expiration of the time mentioned in such notice of removal, removal shall have been made ; said penalty to be recovered by the Counsel to the Corporation in favor of the Mayor, Aldermen and Commonalty of the City of New York.

RULE 3.—No cargo shall be discharged from any vessel upon any pier, bulkhead or structure, at which such vessel is being unladen, after notice signed and served by the Dock Master of the District, or other representative of the Department, upon the owner, consignee, or other officer or stevedore, of such vessel, that such pier, bulkhead or structure will be closed for *by the placing* of additional cargo thereon, under a penalty of one hundred dollars for each *offense*, and a further penalty equal in amount to the damages of every description which

caused by the further discharging of cargo upon such pier, bulkhead or wharf structure, after the service of the said notice, both of such penalties to be recovered from such owner, consignee, master or other officer, or stevedore, severally and respectively.

RULE 4.—No manure, ashes, cellar dirt, garbage, offal, dead animals, or refuse of any kind shall be received or delivered at any pier, bulkhead or reclaimed land, or place thereon, without a special permit, to be applied for in writing, having first been obtained from this Department; and the party receiving or discharging said manure, ashes, cellar dirt, garbage, offal, dead animals, or refuse of any kind, or placing the same on any pier, bulkhead or reclaimed land, without a permit obtained therefor as specified, shall be subject to a penalty of twenty-five dollars for each offense, and a further penalty of twenty-five dollars a day for each and every day after the placing of the same on any pier, bulkhead or reclaimed land, until the removal thereof, to be recovered from the owner, agent, consignee of the vessel or of the manure, ashes, cellar dirt, garbage, offal, dead animals, or refuse of any kind so received, delivered or deposited, severally and respectively, and it shall be the duty of the Dock Master to enforce this rule and report any violation thereof.

RULE 5.—All goods, merchandise and materials of every kind, landed or placed on any pier, bulkhead or other wharf structure, or upon reclaimed land, must be removed therefrom without unnecessary delay, and within twenty-four hours after the Dock Master of the District, or other representative of the Department, shall have served upon the owner, shipper or consignee of such cargo a notice signed and served by the Dock Master of the District, or other representative of the Department, to remove the same, under penalty of twenty dollars per day for each and every day during which any part of said goods, merchandise or materials shall remain upon such pier, bulkhead, structure or reclaimed land, after the expiration of said twenty-four hours, to be recovered from such owner, shipper or consignee severally and respectively.

RULE 6.—All goods, merchandise and materials of every kind encumbering any pier, bulkhead or other wharf structure, or reclaimed land, after the time designated for the removal thereof shall have expired, will be liable to be removed by the Board to any warehouse or yard, at the sole risk and expense of the owner of any such goods, merchandise and materials, and all expense incurred for such removal and storage or otherwise, shall be and become a lien thereon, and such goods, merchandise and material will not be delivered to the owner until the expense of such removal and storage has been paid.

RULE 7.—All permits issued by this Department for tally-houses, Watchmen's houses, derricks and other like structures, shall continue only during the pleasure of the Board, and shall expire by limitation on the first day of May of each year, unless sooner revoked. Persons desiring such permits must make application in writing to the Board of Commissioners of this Department, stating the dimensions, character, uses, etc., of the structure for which permit is requested, and any permit issued by this Department shall be kept posted in a conspicuous place in the interior of the structure authorized by it, except in cases of derricks, etc., when it shall be produced on requirement of the Dock Master of the District.

RULE 8.—No vessel of any kind shall be loaded or discharged by horse-power, nor shall stones or similar cargo be discharged from any vessel, upon any pier, bulkhead or other wharf structure, unless proper planking be provided to protect the surface of such pier, bulkhead or other wharf

structure from injury consequent upon the travel of the horse or the throwing of stones or similar cargo thereupon, under a penalty of ten dollars a day for each horse so employed, and of twenty-five dollars for each offense of discharging such stones or like cargo, upon such pier, bulkhead or other wharf structure, to be recovered from the owner, consignee, master or stevedore of any such vessel, severally and respectively; and if such penalty be recovered for using horses or discharging stones or similar cargo, upon wharf property belonging to the Corporation, under lease, it shall be paid to the lessee thereof, but if such penalty be recovered for using horses or discharging stones or similar cargo, upon wharf property not owned by the Corporation, it shall be paid to the owner thereof.

RULE 9.—No sand shall be discharged from any vessel unless canvas or similar material be extended from the vessel's side to the bulkhead or wharf structure at which such vessel is berthed, unladen, to prevent the falling of the sand into the water; and if the surface of any such wharf structure is not sufficiently tight to prevent the sand dumped thereon from going through into the water, then no sand shall be discharged thereon from any vessel unless canvas or similar material be first laid thereon to receive the sand, under a penalty of twenty-five dollars for each offense, to be recovered from the owner, consignee, master or stevedore of any such vessel, severally and respectively; and if such penalty be recovered on account of sand discharged upon wharf property belonging to the Corporation, under lease, it shall be paid to the lessee thereof, but if such penalty be recovered on account of sand discharged upon wharf property not owned by the Corporation, it shall be paid to the owner thereof.

RULE 10.—The owners, lessees and occupants of every pier, wharf and bulkhead in the City of New York shall keep the same in good repair, and the slips adjacent thereto properly dredged, and whenever, in the judgment of the Board, it shall be necessary so to do, written notices shall be served upon the owners, lessees or occupants, or collector of wharfage of any such pier, wharf or bulkhead, or the slip adjoining the same, on or in which repairs or dredging are required by said Board, specifying the nature and extent of the repairs or dredging so required, and the time within which such repairs must be made, or such dredging done; and in case the owners, lessees or occupants so notified failed to comply with the terms and requirements of such notice, they shall forfeit and pay a penalty of twenty-five dollars per day for each and every day, which shall elapse until such owners, lessees or occupants shall comply with such notice.

RULE 11. It shall not be lawful for the owners, lessees or occupants of any pier, wharf or bulkhead, which has been covered with a shed, pursuant to the statute in such cases made and provided, and constructed in conformity with the authority of the Board of this Department, to use such shedded pier, wharf or bulkhead, for the permanent storage of goods, merchandise, cargo or material of any kind which may be discharged or placed thereon. Piers, wharves and bulkheads thus shedded are designed for the protection of merchandise and cargo in transit, as prescribed by the act, and such merchandise and cargo must be removed therefrom after the expiration of a reasonable period.

RULE 12.—No ashes, refuse, offal, fruit, or any other substances shall be thrown into the waters surrounding or adjacent to any pier or bulkhead, or any other part of the water-front of the city, under a penalty of twenty-five dollars for every such offense, to be recovered from the owner,

or occupant, severally and respectively, of any pier, bulkhead, wharf, structure, or other property from which any such substance shall be thrown, or from the person actually throwing the same; or if any such substance be thrown from any vessel lying in waters within the jurisdiction of the Department, whether berthed or not, then such penalty to be recovered from the owner, consignee or master of such vessel, severally and respectively.

RULE 13.—No snow or ice shall be dumped into the waters adjacent to the water-front of the pier, except from the piers, bulkheads and other places designated from time to time, by the Board, such dumping, under a penalty of twenty-five dollars for each offense, to be recovered from the owner, lessee or occupant of any pier, bulkhead, or other wharf property, from which any such snow and ice shall be dumped, or from the person actually dumping the same, severally and respectively.

RULE 14.—All lumber, brick or other material in bulk, discharged on any pier or bulkhead not intended to be stored, shall be at once removed, or, if not so removed, shall be placed at least twenty feet from the edge of the bulkhead, pending removal, under a penalty of twenty-five dollars per day, for each day every day such lumber, brick or other material shall remain on the bulkhead, to be recovered from the owner or consignee of such lumber, brick or other material, or from the person placing, or causing the same to be placed, on such bulkhead, severally and respectively.

RULE 15.—The charges for wharfage and dockage of all vessels admitted to any of the piers or bulkheads constructed under the new plans adopted by the Department, shall be at the same rates as now, or shall hereafter be, fixed and established by laws of this State, unless otherwise ordered by the Board.

RULE 16.—The term "Board," when used in the foregoing rules and regulations, shall be taken to mean "The Board of the Department of Docks of the City of New York," and the term "Corporation," when so used, shall be taken to mean "The Mayor, Aldermen and Commonalty of the City of New York."

At a meeting of the Board of Commissioners of this Department, duly held December 29, 1887, it was unanimously

Resolved, That the foregoing rules and regulations, numbered respectively from No. 1 to 16, both inclusive, be and they are hereby adopted and established as the rules and regulations of and for the Department of Docks, pursuant to the statute in such cases made and provided, to take effect January 1, 1888; provided, however, that nothing in the said rules and regulations so adopted and established as aforesaid shall in any manner impair or affect any violation of any rule or penalty incurred or imposed, or any action or proceeding in relation thereto, or for the recovery thereof, prior to January 1, 1888.

Resolved, That the Treasurer be and is hereby authorized to have printed five hundred copies of the Rules and Regulations adopted at this date.

Resolved, That the Secretary be and is hereby directed to cause to be published in the CITY RECORD daily for a period of six weeks and on every Monday and Thursday in the "Journal of Commerce" and "New York Herald," for a period of six weeks, the following notice:

"Notice is hereby given to all owners or lessees of wharf property; to owners or captains of vessels; to all agents, consignees, stevedores and others transacting business on the piers,

wharves and bulkheads of this city, and to all persons occupying or using its water-front, the Rules and Regulations have been established by the Department of Docks to take effect on and after January 1, 1888, for the government and proper care of piers, bulkheads, slips and other wharves, and imposing penalties for violations thereof, and that the said Rules and Regulations have been published in full in the CITY RECORD. Copies of these Rules and Regulations may be obtained at the Department of Docks, Pier 'A,' North river.

L. J. N. STARK,
JAMES MATTHEWS, / Commissioner
CHARLES H. MARSHALL, / of Docks

Commissioner Marshall, to whom was referred the revision of the By-laws, submitted a report thereon, and recommended that they be adopted by the Board, and

On motion, it was unanimously

Resolved, That the following By-laws be and are hereby adopted by the Board of this Department, to take effect on the first day of January, 1888, and that all by-laws heretofore adopted and established by the Board of Docks, be and are hereby repealed and annulled from and after January 1, 1888.

Resolved, That the Treasurer be authorized to have printed one hundred copies of the By-laws :

B Y - L A W S .

ARTICLE I.—MEETINGS.

Section 1. All meetings of the Board of Docks shall be held at the office of the Department.

Sec. 2. A public meeting shall be held on Thursday of each week, at 11 o'clock A. M.

Sec. 3. Special meetings shall be held on the call of the President or at the written request of any member. The call for a special meeting shall distinctly state the matter or matters to be considered at such meeting, and no other matter shall be presented for consideration thereat except by unanimous consent. Notices of special meetings shall be served upon each member of the Board before the time of meeting, by personal service of the notice upon each of the members, or by mail notice at his place of residence.

ARTICLE II.—OFFICERS, ETC.

Section 1. The officers of the Board shall be as follows :

1. President.
2. Treasurer.
3. Secretary.

Sec. 2. There may be appointed a Chief Clerk, Dock Masters, and such other clerical employees as may from time to time be necessary, in the judgment of the Board, for the conduct of the work of the Department.

ARTICLE III.—COMMITTEES.

Section 1. There shall be two standing committees, to be known as the Executive Committee and the Auditing Committee. The Executive Committee shall consist of a majority of the members of the Board. The Auditing Committee shall consist of the Treasurer and another member of the Board, to be chosen by the Board. The Executive Committee shall consider and take action on all matters as may be referred to it by the Board, and the Auditing Committee shall audit all accounts and bills against the Department. In the absence of any one member of the Auditing Committee, the President shall perform the duties assigned to such member.

Sec. 2. All committees shall be appointed by the President, unless otherwise ordered.

Sec. 3. Every report, when required to be in writing, shall be signed by one or more of the members of the committee, and shall contain a brief statement of the facts of the matters considered and involved, and an opinion thereon; and no report required to be in writing shall be made by a committee unless the subject thereof shall have been considered at a meeting at which all the members of such committee shall have been notified to attend.

Sec. 4. The regular meetings of the Executive Committee shall be held on Thursday of each week at 2 P. M., unless otherwise ordered.

Sec. 5. All appointments and dismissals of employees shall be made only in executive session.

ARTICLE IV.—PRESIDENT.

Section 1. The President shall hold his office until the first Monday of May next succeeding his election, and until his successor be chosen. He shall preside at the meetings of the Board and of the Executive Committee, and shall be a member ex-officio of the Standing Committees. In his absence a President pro tempore may be chosen who shall preside at the meetings and perform the duties which properly belong to the office of President. All official communications from the Department shall be signed by the President, or in the absence of the President, or his inability to act, by the President pro tempore, except such as may be designated to be signed by the Secretary or Treasurer.

ARTICLE V.—TREASURER.

Section 1. The Board shall elect annually one of its members to be Treasurer of the Department, and he shall collect, receive and deposit, or pay over upon receipt thereof to the credit of the City Chamberlain, all moneys received by him and collected for rents for the use and occupation of the wharf and slip property of the City of New York, and all fines and penalties imposed by the Department of Docks, and all other moneys payable to said Department which have been collected or received by him.

Sec. 2. Before entering upon the performance of his duties, the Treasurer shall give a bond to the Mayor, Aldermen and Commonalty of the City of New York, with sufficient surety, to be approved by the Comptroller of the City of New York, in the penal sum of not less than five thousand dollars, conditioned for the faithful performance of his duties as such Treasurer.

It shall be the duty of the Treasurer to submit a report in writing at every regular meeting of the Board, stating the amount of moneys received, and from what source and how disposed of.

ARTICLE VI.—SECRETARY.

Section 1. The Secretary shall be appointed by the Board to hold office at the pleasure of the Board. It shall be his duty to have charge of all official correspondence, subject to the direction of the Board, to keep accurate minutes of the proceedings of the Board, and an index thereof, and a record of such proceedings concerning the business of the Department as the President or the Board may direct. And he shall possess such other powers and perform such other duties as may from time to time be prescribed by the Board.

He shall, within five days after each meeting, forward to the President or the Board a copy of the minutes of each meeting for approval and transmission to the editor of the CITY RECORD publication. He shall transmit to the President, immediately upon receiving the same, all documents, reports, communications or papers which may come into his possession appertaining to the Department, and shall file the same and keep a proper index thereof. He shall prepare all communications from the Board and submit the same to the President, or in his absence from the city, to the President pro tempore, for his approval.

Sec. 2. The Secretary shall have the general direction and supervision of the clerical force under his charge, and shall prescribe and carry out such rules and regulations, subject to the approval of the Board, as may be necessary for the proper conduct of the work of the Department. He shall report to the Board all misconduct or neglect of duty on the part of an employee, and he shall make such recommendations and suggestions to the Board as will, in his opinion, add to the efficiency of the work under his control.

ARTICLE VII.—ENGINEER-IN-CHIEF.

Section 1. There shall be appointed by the Board an officer of the Department to be known as "Engineer-in-Chief. He shall, under the direction of the Board, exercise a general supervision of the whole water-front of the city, and propose plans for its improvement, including the construction of piers and bulkheads, and when so ordered by the Board, carry such plans into execution when adopted. He shall take charge of all old material removed in repairing piers and bulkheads or otherwise, and the same may be disposed of at public sale, according to law, under the direction of the Board.

Sec. 2. The Engineer-in-Chief may for cause suspend from duty any member of the working force under his supervision, and in such cases he shall without delay transmit to the Board his reasons for such suspension; but in no case shall any such employee be removed except by the Board. He shall make such recommendations and suggestions to the Board as may, in his opinion, be calculated to promote the efficiency of the work of the Department.

ARTICLE VIII.—CHIEF CLERK.

Section 1. The Chief Clerk shall keep the books and accounts of the Department, and draw and counter-sign all treasurer's orders directed to be made by the treasurer, or, in the absence of the treasurer, by a member of the Board, for the material, supplies, stores, etc. He shall prepare for auditing all pay-rolls of the Department, and all claims or bills for work or materials furnished. He shall have the general charge of all the records, papers, leases, and other documents belonging to

partment, excepting those in charge of the Secretary and the Engineer-in-Chief, and shall and prepare in such a way as may be prescribed by the Board, a statement of all facts and action which may relate to and be useful to the Department.

ARTICLE IX.—DOCK DISTRICTS.

The Board shall, at its discretion, divide the City into not exceeding twelve dock districts as may be required, and shall name a Dock Master for each of such districts who shall perform the duties hereinafter prescribed in and for the districts to which they shall be respectively assigned.

ARTICLE X.—DOCK SUPERINTENDENT.

The Board may appoint a Dock Superintendent, who shall superintend and make a personal inspection of all the affairs affecting the Department and connected with the several districts, as far as same relates to the duties of Dock Master, and shall, at least once in each week make a report to the Board in writing, containing general details affecting the districts and the Dock Masters employed thereto, and perform such other duties as may be assigned to him by the Board.

ARTICLE XI.—DOCK MASTERS.

Section 1. The Dock Masters shall be on duty in their respective districts, unless excused by the Board or more Commissioners in writing, from 9 A. M. until 4 P. M., and at such other times each day as the exigencies of the case may require or the public service demand.

Sec. 2. Each Dock Master shall exercise a constant inspection and supervision of the condition of the piers, bulkheads, slips and wharf property in his district, promptly reporting in writing to the Board from time to time, as may be required, such repairs and improvements thereto as he may deem necessary or proper for the safety and preservation thereof.

Sec. 3. Each Dock Master shall promptly designate and assign, in the order in which applications are made, suitable and convenient berths, as far as practicable, within the limits of his district for the use of such vessels and water-craft as may require the same for the reception or discharge of passengers, merchandise, etc., therefrom, or for the necessary repair or the safety of any vessel or water-craft.

Sec. 4. It shall be the duty of each Dock Master to require and enforce the due observance of compliance with such of the National and State Laws, City Ordinances, and the Rules, Regulations and Orders of the Department of Docks as appertain to the use, care and custody of the property of and about the City of New York, promptly reporting to the Board all violations and evasions of such Laws, Ordinances, Rules, Regulations and Orders.

Sec. 5. It shall be the duty of each Dock Master to keep a record of all structures (other than sheds duly authorized), such as tally-houses, watchmen's houses, derricks, etc., for which permits have been granted by the Board, and shall require said permits to be posted in a conspicuous place in the interior of the structure authorized by them. It shall be his duty to report without delay any and all structures, houses, booths, places of refreshment, etc., erected in his district without due authority from the Board, as well as obstructions on wharves, piers and bulkheads, of any nature whatsoever.

Sec. 6. It shall be the duty of each Dock Master to himself make and transmit to the Board a daily report in writing of all vessels and water-craft that may be moored within the limits of his district from which wharfage is accruing or may be due to the Corporation of the City of New York, giving a description of each vessel or water-craft with its name and tonnage, to be verified by an official record or number, the name of the captain, owner, agents, or consignee thereof, and the wharf, pier or bulkhead at which such vessel or water-craft is located.

Sec. 7. Each Dock Master shall collect promptly when due, and make return thereof to the Board, at six o'clock, noon, on Tuesday of each week or as much oftener as may be required by the Board, all wharfage or craning charges that have accrued during the previous week, within the limits of his district, reporting in writing the description, name, tonnage and location of each vessel, with the name of the captain, owner, agent or consignee thereof, and the amount of wharfage and craning charges that has accrued against each vessel, as also the amount received by him on account thereof.

Sec. 8. Each Dock Master is expressly prohibited, under penalty of immediate dismissal from his position, from receiving or demanding directly or indirectly any fee, gratuity, compensation or article of value of any nature or kind for the assignment of a berth to a vessel at any pier, wharf or bulkhead property whatsoever or for the performance of or the omission to perform any of the duties required of or appertaining to the position of Dock Master of this Department.

Sec. 9. The Dock Masters shall prevent any accumulation of material upon the wharves, bulkheads and reclaimed land in their respective districts; and whenever any pier, wharf, bulkhead, or reclaimed land in the City of New York shall be encumbered or obstructed in its use by any vessel, or by any merchandise, or material in transit, or otherwise, or by any structure, or encumbrance or obstruction not authorized or permitted by this Board, the Dock Master of the district in which such structure, encumbrance or obstruction shall exist is authorized to require the owner, agent, consignee or person occupying or in charge of such to remove the same without delay. Upon receiving such order, the owner, agent, consignee or person in charge of the vessel, merchandise, material, structure, encumbrance or obstruction, as the case may be, in reference to which the order was given, shall comply with the same without delay, and in default thereof, the Dock Master may employ such assistance as may be necessary to carry into effect his order or direction by the removal of such vessel, merchandise, material, structure, encumbrance or obstruction in respect to which the order was given. All expenses actually and necessarily incurred in effecting such removal and for storage of merchandise or material thus removed, shall be paid by the owner, agent, consignee or person in charge, and the amount thereof shall be a lien upon the same, in favor of the Mayor, Aldermen and Commonalty of the City of New York.

ARTICLE XII.—BONDS.

Section 1. The Secretary, Chief Clerk, Executive Clerk, Dock Superintendent (should such be appointed) and Dock Masters, shall, before entering upon the performance of their duties, each give a bond to the Treasurer of the Department of Docks, to be approved by the President of the Department, in a penal sum not to exceed three thousand dollars, conditioned for the faithful performance of their respective duties, and that correct and accurate returns shall be made by them respectively of all moneys belonging to the Department which shall come into their possession.

ARTICLE XIII.—DISCIPLINE.

tion 1. In all cases where charges are preferred against any person in the employ of this ment, either for dereliction of duty, breach of discipline, or any other offense, such person ve the opportunity to be heard before the President or one or more of the Commissioners of ard, to be selected by the President, who shall examine into the charges preferred and report ult to the Board for its final action.

c. 2. All subordinate officers having charge of men in the employ of the Department, shall at once to the Engineer-in-Chief all breaches of discipline or violation of orders committed by n under their immediate control.

sc. 3. No Dock Superintendent (should such be appointed) or Dock Master, shall follow, or ectly or indirectly interested in any trade, calling or employment, whatsoever, save that to he shall be assigned by the Board; neither shall he be interested, directly or indirectly, in f property of the city, or as owner or part owner of any steamer, vessel, craft, or ship of ind.

ARTICLE XIV.—CONTRACTS.

Section 1. No contract shall be made unless first authorized by the Board, and all contracts be executed on behalf of the Board by the officers thereof; in case of the absence or disability y such officers, the contracts may be executed by not less than two members of the Board. y contract when made, shall be executed in triplicate; one copy shall be filed in the Depart- of Docks, another in the Finance Department, and the third shall be retained by the con- tr.

All Treasurer's Orders made as provided in article 8, section 1, for materials, stores, supplies, r under which any moneys are to be expended, shall be prepared by the Chief Clerk under ffection of the Treasurer, or in his absence, of a member of the Board, and shall be signed by reasurer or by the Commissioner acting in his stead.

ARTICLE XV.—ORDER OF BUSINESS.

ection 1. The order of business at the meetings of the Board shall be as follows :

- . Reading of the minutes.
- . Communications to the Board.
- . Reports of committees.
- . Resolutions by members.
- . Miscellaneous and unfinished business.

sc. 2. Every resolution submitted to the Board must, when required by any member of the , be in writing and signed by the member offering it.

sc. 3. At the request of any member, the ayes and nays shall be called upon any proposition ted to the Board.

ARTICLE XVI.

Section 1. These by-laws or any portion of them may be modified, altered or amended at any regular meeting of the Board called for that purpose or at any regular meeting upon one week's notice, such amendment, alteration or modification having been given, upon a majority of the members present at such meeting voting therefor. Any portion of the by-laws may be suspended at any regular meeting, for such meeting, by an unanimous vote of all members present voting therefor.

ARTICLE XVII.

These by-laws shall take effect on the 1st day of January, 1888.

The following resolution was,

On motion, adopted :

Resolved, That the President, Treasurer and Secretary of this Department be and they are hereby respectively authorized and directed to execute as such, in duplicate, the lease to the Manhattan Railway Company, prepared and approved by the Counsel to the Corporation, of a lot of land situate at or near One Hundred and Fifty ninth street, Harlem river, as described in a resolution adopted by the Board on the 12th day of December, 1887, and that the seal of this Department be duly affixed thereto.

On motion, the application of F. V. Costello to furnish the Department with legislative documents was referred to Commissioner Matthews, with power to make the necessary arrangements, the sum not to exceed \$50.00.

The following preamble and resolutions were,

On motion, adopted :

Whereas, The Mayor, Aldermen and Commonalty of the City of New York, acting by the Department of Docks, as parties of the first part, entered into a certain agreement (No. 10) on November 23, 1886, with Michael Nolan and William T. Nolan (contractors), as parties of the second part, whereby the said parties of the second part agreed to furnish and deliver a certain quantity of granite stones for bulkhead or river wall, as provided for in said agreement, reference is hereby made ; and,

Whereas, As the said agreement contains, among other things, certain provisions, the same are therein, as follows :

10. The said party of the second part further agrees that if the work to be done under this contract shall be abandoned, or if this contract shall be assigned, or the work sublet, by or for the second part, otherwise than as is herein specified, or if at any time the said Engineer or other officer or officers designated by him as aforesaid to have charge of the inspection of the work, shall be of the opinion, and shall so certify in writing to said Board, that the said work or any part thereof, is unnecessarily or unreasonably delayed, or that the said party is willfully violating any of the conditions or covenants of this contract, or executing this contract in bad faith, or if the work to be done under this contract be not fully completed within the time specified herein for its completion, the said Board shall have the power to notify said party

continue any or all work under this contract; and thereupon said contractor shall and will continue said work, or such part thereof as said Board may designate; and the parties of the first part shall thereupon have the power, in the manner prescribed by law, to procure such quantity of material and such machinery, implements and appliances, and to employ such labor and use such materials as they may find upon the line of said work, and to do such work as may be necessary to fill this contract, or such part thereof as may be deemed necessary, and to charge the cost of said materials, machinery, implements, appliances and labor to the aforesaid contractor; and the expense so charged shall be deducted and paid by the parties hereto of the first part, out of such moneys as may then be due, or may at any time thereafter become due, to the said contractor, under and by virtue of this agreement, or any part thereof; and in case such expense shall be less than the sum which would have been payable under this contract if the same had been completed by the said contractor, then said party of the second part will be entitled to receive the difference; and in case such expense shall exceed the said last-named sum, then the said party of the second part shall and will pay the said amount of such excess to the parties of the first part, on notice from said Board of the excess so due. And when any particular part of said work is being carried on by the said Board, by contract or otherwise, under the provisions of this clause of this contract, the aforesaid contractor agrees to continue the remainder of the work in conformity with the terms of his agreement, and in such manner as in nowise to hinder or interfere with the persons or workmen employed as above provided by the said Board, by contract or otherwise, to do any part of the said work, or to complete the same, under the provisions of this clause of the contract.

And whereas, The Engineer-in-Chief of this Department is of the opinion, and has, under date of the 19th December, 1887, certified in writing to this Board, as provided in said agreement, that the prosecution of the said work is and has been unnecessarily and unreasonably delayed, and that the work to be done under this contract has not been fully completed within the time specified therein for its completion;

Resolved, That the said Michael and William T. Nolan be and hereby are notified to discontinue any and all work under the said contract above mentioned and described;

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare as soon as possible a form of contract and specifications for obtaining the remainder of the granite called for in the said contract which is now undelivered, and that the same be sent to the Counsel to the Corporation for his approval as to form, and that the Secretary be and hereby is directed to have the same advertised in the manner required by law, and further;

Resolved, That the Secretary be directed to notify and inform the said contractors and their attorneys that all expense of obtaining the remainder of the granite which now remains undelivered under said contract will be charged to the said contractors in the manner provided in article 19 of the said contract.

The Auditing Committee presented an audit of ten bills or claims, amounting to \$42,648, which as approved, and the Secretary directed to enter in full on the minutes, as follows:

audit No.	Name.	Amount.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held December 29, 1887.

Present—Commissioners Stark, Matthews and Marshall.

The following communications from the Engineer-in-Chief were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary as stated, to wit:

1st. Reporting that the tin roofs of the office buildings, shops and cement storehouse at the West Fifty-seventh Street Yard require painting. The Engineer-in-Chief directed to do the painting required, as recommended in his report, at a cost of about \$100.

2d. Reporting the death of Terrence McGough, Watchman. The Secretary directed to delete name from list of employees.

3d. Repairs required to Pier 60, East river. The Engineer-in-Chief directed to repair, as recommended in his report, at a cost of about \$20.

4th. Report on Secretary's Order No. 7366, as to the qualifications of Isaac B. Maslen, recommended by the Civil Service Supervisory and Examining Boards as Steam Engineer.

On motion, Isaac B. Maslen was appointed as Steam Engineer in the service of the Department with compensation at the rate of thirty-five cents per hour.

The communication from the Engineer-in-Chief respecting the salaries of Hydrographers and Chainmen in the service of the Department, was,

On motion, ordered to be placed on file, and the following resolution was adopted:

Resolved, That the compensation of Allen N. Spooner, Hydrographer, be fixed at \$100 per month, and the compensation of George A. Button and James W. Dikeman, Jr., Chainmen, be fixed at \$15 per week, to take effect on and after the 1st day of January, 1888.

On motion, the following resolution was adopted :

Resolved, That the time given to Thomas Smith & Co. to fill in behind the cribwork bulkhead between Seventy-seventh to Seventy-eighth streets, North river, be and hereby is extended from November 31, 1887, to and including January 31, 1888.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held December 30, 1887.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meeting held December 29, 1887, were read and approved.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Abram S. Hewitt, Mayor—Enclosing copy of communication received from James Biglin, respecting the washing away of the sidewalk in front of No. 301 Avenue C, between Sixteenth and Seventeenth streets, East river. Referred to the Engineer-in-Chief to examine and report.

From Comptroller of the City—Advising the Board that \$200,000 has been placed to the credit of the Department.

From Counsel to the Corporation—In relation to the proposed sale of Pier 53, East river, and foot of bulkhead adjoining at the foot of Jackson Slip, advertised to take place on Wednesday, December 28, 1887.

From Engineer-in-Chief :

1st. Transmitting Inspector's report of materials used under Contract No. 246 for building Wooden Pier, etc., at One Hundred and Thirty-second street, North river.

2d. Report on Secretary's Order No. 6443, that he had superintended and directed the running of a pipe under the Pier at Seventy-ninth street, North river.

The following resolutions were, on motion, adopted :

Resolved, That in pursuance to the preamble and resolution passed December 8, 1887, the Chief Clerk be directed to charge back the sum of \$1,000 charged to the Hudson Tunnel Railway Company for three months in advance for reclaimed land, etc., southerly of Pier, new 42, North river, and for land under water southerly of said pier.

Resolved, That the salary of Francis E. Moon, Chief Clerk, be and hereby is fixed at the rate of \$183.33 per month, to take effect on and after January 1, 1888.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks held January 5, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held December 30, 1887, were read and approved.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated to

From E. V. Loew, Comptroller—Transmitting four maps of plans of improvement of the front between Eighty-sixth street, East river, and Third avenue, Harlem river, approved Commissioners of the Sinking Fund on the 19th day of December, 1887.

On motion, the said plans were ordered to be filed in the Department.

From Theodore W. Myers, Comptroller—Stating that the Counsel to the Corporation has a settlement with the New York, Lake Erie and Western Railroad Company for rent of the half of Pier 29, North river, from February 1, 1880, to August 12, 1881, for the sum of \$7,500 enclosing check for that amount drawn to the order of E. V. Loew, Comptroller.

On motion, the Secretary was directed to notify the Chief Clerk that the claim against the company had been settled by the Counsel to the Corporation for \$7,500.

From F. T. Volk—Requesting permission to retain boat-house located on a large rock at foot of West One Hundred and Fifty-eighth street, North river. Referred to the Engineer-in-Chief to examine and report.

From New York Litterage Company—Requesting permit for derrick on south side of East river. The action of the President in issuing a permit, the derrick to remain thereat during will of the Board, was approved.

From F. W. J. Hurst, manager National Line of Steamships—Requesting use of Pier, 1 North river.

From John H. Schinnagel—Requesting permission to lay a new drain-pipe from No. 90 street through bulkhead near Pier 21, East river. The action of the President in directing Engineer-in-Chief to examine and report was approved.

From James Cruikshank, agent—Requesting permission to drive piles at Pier 3, East river. The action of the President in issuing permit, the work to be done under the direct supervision of the Engineer-in-Chief, was approved.

From Union Stock Yard and Market Co.—Stating that repairs will be made to the bridge platform, between Thirty-ninth and Fortieth streets, North river.

From Knickerbocker Ice Company—Respecting the rate of wharfage charged for berth at Sixty-second street, East river.

From Skidmore & Robertson—Requesting permission to maintain floating dumping-boat at Thirty-ninth street, East river. Referred to Commissioner Matthews.

from Engineer-in-Chief :

- st. Reporting assignment of employees to special duty.
- sd. Reporting the amount of work done during the week ending December 31, 1887.
- jd. Respecting the drifting of logs during progress of removal of crib at Storehouse Pier at Kwell's Island, East River. Referred to Commissioner Marshall.
- 4th. Report on Secretary's Order No. 7380, submitting form of contract and specifications for mining the remainder of the granite called for under Contract No. 230. The action of the Secretary in transmitting said contracts to the Counsel to the Corporation for approval was approved.
- 5th. Report on Secretary's Order No. 7359, respecting the sand on Pier 61, East River. The Engineer-in-Chief directed to remove said sand, as recommended in his report.
- 6th. Report on Secretary's Order No. 7358, as to the cleaning required to Pier 46, East River. Referred to Commissioner Marshall.
- 7th. Report on Secretary's Order No. 7383, in reference to the application of John H. Schinckel for permission to replace drain-pipe running from No. 90 South street, through the bulkhead between Piers 20 and 21, East River, and recommending that the same be denied.

On motion, the report was received and recommendation adopted.

- 8th. Report on Secretary's Order No. 6966, respecting the permit issued to the Nassau Ferry Company for the erection of two open frame sheds at ferry premises foot of East Houston street, East river, and recommending that the said permit be revoked and rescinded, as the company do intend to proceed with the work at present.

On motion, the report was received and recommendation adopted.

- 9th. Report on Secretary's Order No. 7350, that the necessary repairs have been made to the approach to Pier, new 56, North river.
- 10th. Report on Secretary's Order No. 7292, that he had fenced off from public use the inner foot of Pier foot of Eighth street, East river, and bulkhead on the northerly side.
- 11th. Report on Secretary's Order No. 7140, that he had removed the stone left by Allen & Talley upon the bulkhead north of Pier foot of Seventy-ninth street, North river, and placed the same behind the crib-bulkhead between Seventy-seventh and Seventy-eighth streets, North river.
- 12th. Report on Secretary's Order No. 7355, that he had superintended removal of canal boat in front of the bulkhead, between One Hundred and Twenty-ninth and One Hundred and thirtieth streets, North river.
- 13th. Report on Secretary's Order No. 6944, that the repairs to the planking in front of Piers, 20 and 21, North river, for the three months ending December 7, 1887, had been superintended.

From Edward Abeel, Dock Master—Recommending that a fence be erected on the lower side of Pier 44, East river, for the purpose of avoiding any obstruction to the ingress and egress of scows at the dumping-board. The action of the President in directing the Engineer-in-Chief to erect fence at was approved.

From Charles B. Husted, Dock Master—Repairs required to south side of Pier foot of Seventeenth street, North river. The action of the President in directing the Engineer-in-Chief to examine and repair if necessary was approved.

From John Callan, Dock Master—In reference to the storing of sand on property of H. A. at One Hundred and Thirty-sixth street, Harlem river. Referred to Commissioner Marshall.

From John J. Ryan, Dock Master—In reference to the application of William Sheel berth foot of One Hundred and Thirty-second street, North river. The Secretary directed to Mr. Sheehan that the matter has been referred to the Dock Master of the district.

The report of the Engineer-in-Chief on Secretary's Order No. 7373, submitting specific and form of contract for dredging at Pier 7, East river, was received, read, and,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the specifications and form of contract as prepared and submitted to the Engineer-in-Chief for dredging the half slips adjoining Pier 7, East river, to obtain a depth of fifteen feet at mean low water, be and they hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

On motion, the Engineer-in-Chief was directed to prepare plans, specifications and form of contract for removing the existing pier at the foot of West Fifty-first street, North river, and building a new wooden pier in place thereof.

A communication from the Comptroller of the City, in reference to the substitution of W. H. Beard in place of William P. Greenlie to the estimate of John Gillies for building Pier, new 24, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the substitution of W. H. Beard in place of William P. Greenlie as surety to the estimate of John Gillies for removing Pier, old 31, and building Pier, new 24, North river, under Contract No. 263.

The Treasurer reported that he had received the following estimates for furnishing the Department with one hundred white or yellow pine, spruce or cypress piles :

A. J. Murray.....	each.
Charles B. Carman.....	"
Beard and Kempland.....	"

And recommended that the order for furnishing the same be awarded to A. J. Murray, he being the lowest bidder.

On motion, the report was received and the recommendation adopted.

The following resolution was,

On motion, adopted :

Resolved, That permission be and hereby is given to the New York Central and Hudson River Railroad Company to occupy a certain area of land under water belonging to the City of New York, amounting to eight thousand five hundred and ninety-eight square feet, situated between Piers, old and old 28, North river, and at present covered by a platform, said permission to continue only by the will and pleasure of the Board of Docks, provided that the said company shall agree to pay as compensation for the occupancy of such land under water, the sum of twenty-five cents annum per square foot, to begin on January 1, 1888, payment to be made to the Treasurer of Board of Docks at the expiration of each month or for such time as the said New York Central and Hudson River Railroad Company may occupy the premises referred to ; and provided that all structures erected on said land under water shall revert to and become the property of the city on revocation or termination of this permit ; and further provided that the said New York Central and Hudson River Railroad Company shall file an assent in writing within ten days from the date of resolution to all the terms and conditions thereof.

The following preamble and resolution were,

On motion, adopted :

Whereas, Application has been made by the New York Central and Hudson River Railroad Company, in a communication to this Board dated December 5, 1887, to make certain repairs to platform built on land under water belonging to the City of New York and situated between old 27 and old 28, North river, and at present occupied by said company ; be it

Resolved, That permission be and hereby is granted to the said New York Central and Hudson River Railroad Company to make the repairs asked for, provided that the work be done under the direction and supervision of the Engineer-in-Chief of this Department.

The following resolution was,

On motion, adopted :

Resolved, That the Engineer-in-Chief be and he hereby is authorized, in his discretion, to cause to be removed, from time to time, by the force of the Department, from the piers, wharves and heads along the water-front, obstructions such as broken brick, stone, sand, etc., which may have been placed or left on the same, and such other refuse as is not properly removable by the Department of Street Cleaning, and report his action thereon to the Board.

The Auditing Committee presented an audit of eleven bills or claims amounting to \$12,940.80, which was approved and ordered to be spread in full on the minutes, as follows :

8. The Hilton Timber, Lumber Company, yellow pine.....	\$4,921 02

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held January 5, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The Treasurer, Commissioner Matthews, to whom was referred the application of B Fleming for a reduction in the compensation charged for the use of dumping-board at Pier (river, foot of Rivington street, reported that he had fixed the compensation for the use the rate of \$2 per day (Sunday excepted), to continue during the will of the Board, commencing January 1, 1888, payable weekly to the Dock Master of the district.

On motion, his action was approved.

The communication from the Engineer-in-Chief in relation to Clerk for Surveying Force

On motion, referred to Commissioner Matthews.

The resignation of James Bagley, Laborer, was,

On motion, accepted.

On motion, William McDermott and James Fox were appointed laborers.

On motion, the Board adjourned.

G. KEMBLE, Secretary

At a meeting of the Board of Docks, held January 12, 1888.

Present—Commissioners Matthews and Marshall.

Absent—The President, Commissioner Stark.

On motion, Commissioner Marshall was elected as President pro tem.

The minutes of the meeting held January 5, 1888, were read and approved.

The following communications from the Engineer-in-Chief were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

1st. Requirements of section 3 of chapter 517 of the Laws of 1884, in relation to wharves or slips between Ninety-second and One Hundred and Ninth streets, East river. Referred to Executive Session.

2d. Requesting the appointment of two Caulkers. Referred to Executive Session.

3d. In relation to the Foremen Dock Builders in the employ of the Department. Referred to Executive Session.

4th. Respecting the building of new Piers on the Harlem river. Referred to Executive Session.

5th. Reporting suspension of Alexander Bird, Laborer. Referred to Executive Session.

6th. Report on Secretary's Order No. 7387, in reference to the application of F. T. Volk for permission to retain boat-house at One Hundred and Fifty-eighth street, North river, and inclosing plan showing the location of other boat-houses thereat.

On motion, F. T. Volk's application was denied, and so much of said report respecting the removal of the other boat-houses was laid on the table.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Hon. Abram S. Hewitt, Mayor—Transmitting communication received from J. Battersby, requesting to be informed as to whether the effects alleged from the use of sand in the streets are really in the slips or water-front of the city. The action of Commissioner Marshall, in directing the Engineer-in-Chief to examine and report, was approved.

From Counsel to the Corporation :

1st. Advising the Board that the claim against the New York, Lake Erie and Western Railroad Company, for rent of Pier, old 29, North river, has been settled by the Comptroller for \$7,500, and inclosing the papers received from the Department in connection therewith.

2d. In reference to approving blank forms of contract for building new pier, etc., foot of West Fifty-eighth street, North river. The action of Commissioner Marshall in replying thereto was approved.

3d. Advising that contracts for building piers, etc., cannot be advertised until his approval as Engineer is indorsed thereon, and stating that the advertisement in CITY RECORD for building pier, foot of West Thirty-eighth street, North river, to be opened January 16, 1888, should be withdrawn and readvertised when approved.

4th. Stating that the examiners in his office had served upon Michael & William T. Nolan, Rick Keenan and Peter Neary, copies of preambles and resolutions adopted by the Board, on the 1st of December, 1887, respecting the furnishing of granite to the Department.

From Comptroller of the City :

1st. Requesting diagram of ferry premises near the foot of Jay street, North river. The action of Commissioner Marshall in directing the Engineer-in-Chief to prepare diagram was approved.

2d. Approving sureties of Robert L. Darragh & Co., on contract for granite-work at Pier "A," North river.

3d. Approving sureties of John Gillies, on his contract for building Pier, new 24, North river.

From Fire Department—Reporting removal of ashes from Pier, foot of West Thirte and stating that an iron receptacle will be placed on said pier for the reception of ashes boat “Zophar Mills.”

From Department of Street Cleaning—Reporting removal of dirt from Pier 46, East

From Civil Service Supervisory and Examining Boards :

1st. Submitting eligible list of Draughtsmen. The action of Commissioner Marshall, i the Engineer-in-Chief to examine and report as to the qualifications of the persons name position, was approved.

From CITY RECORD—Requesting a list of subordinates in the employ of the D The Secretary directed to comply with said request.

From Department of Public Works—Requesting the Department to build a bulke East Ninety-fifth street, East river. The action of the President, in directing the E Chief to examine and report, was approved.

From Police Department—Acknowledging receipt of Annual Report.

From Manhattan Railway Company— Requesting removal of boat-house and othe at the head of Eighth avenue, Harlem river. The Secretary directed to notify the Dock cause the said structures to be removed forthwith.

From William P. Clyde & Co.—Stating that they had sent notice to repair approach East river, to John F. Doyle, agent. The action of the Secretary, in sending said agent i repair the pavement thereat, was approved.

From New York and South Brooklyn Ferry Co.—In reference to repairing the west Pier 3, East river, and requesting permission to drive spruce piles along and against th side or face of the pier for a distance of about one hundred feet toward shore from the or the pier, etc. The action of Commissioner Marshall in replying to said communic approved.

From J. T. Van Sicklen, Agent Southern Pacific Co.—Stating that owners of “Fowles” are making preparations to have her raised and removed from the slip at Pi North river.

From New York Central and Hudson River Railroad Co. —Accepting the terms and of the resolutions adopted by the Board for the use of land under water, between Pier, 28, North river.

From Knickerbocker Ice Company —In reference to the collection of wharfrage fo Sixty-second street, East river, and stating that they have taken the collection of the s Mr. Hastorf's hands.

From John Everson—Requesting use of outer dumping-board on north side of West Forty-ninth street, North river. Referred to Commissioner Matthews.

From Eldridge & Mould—Requesting permit to replace five spring piles on the southwesterly end of Pier 53, East river. The action of Commissioner Marshall in issuing a permit, the work done under the direction and supervision of the Engineer-in-Chief, was approved.

From Bernard Sheridan—Requesting permission to erect a one-story wooden structure, eight by sixteen feet, on piles already driven at the vacant space at the bulkhead line on the northerly end of Pier, new 46, North river, and inclosing the consent of Jacob I. Housman, lessee. Referred to Engineer-in-Chief to examine and report.

From Goss & Small Notice of lien against Michael & William T. Nolan, amounting to \$122, for furnishing the Department with granite. The Secretary directed to file the same with contract or agreement and notify Michael & William T. Nolan, contractors, and Peter Neary Patrick Keenan, sureties.

From C. H. Pendergast, Dock Master—Reporting that several half-round fenders are needed on north side of Pier 58, East river. The action of Commissioner Marshall, in directing the Engineer-in-Chief to examine and repair, if necessary, was approved.

From D. W. Bogert, Dock Master—Reporting holes in the pavement adjoining pier foot of Vesey Street, North river. The action of Commissioner Marshall, in directing the Engineer-in-Chief to examine and report, was approved.

From J. B. Erwin, Dock Master—Reporting holes in deck of pier at foot of West Fifty-fifth Street, North river. The action of Commissioner Marshall, in directing the Engineer-in-Chief to examine and report, was approved.

From John Callan, Dock Master—Reporting sinking of canal boat at the foot of One Hundred and Nineteenth street, Harlem river. The action of Commissioner Marshall, in notifying the Delaware and Hudson Canal Company to remove the said canal boat under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

From Engineer-in-Chief:

- 1st. Reporting assignment of employees to special duty.
- 2d. Reporting the amount of work done during the week ending January 7, 1888.
- 3d. Reporting the amount of material excavated by the Union Dredging Company with Department dredges during the month of December, 1887. The Treasurer authorized to collect amount from the Union Dredging Company.
- 4th. Requesting two additional Draughtsmen and two additional Inspectors of Pier Building. The action of Commissioner Marshall, in requesting the Civil Service Board to furnish list of persons for said positions, was approved.
- 5th. Reporting the sinking of the barge "Charles H. Fowles" in slip between Beach and Moore streets, North river. The action of Commissioner Marshall, in notifying the Morgan

Steamship Company to remove said barge, under the direction and supervision of the Engineer-in-Chief of this Department, was approved.

6th. Reporting the names of certain persons who have not been employed for the past two months, and stating that it is advisable that their names be removed from the list of employees of the Department.

On motion, the Secretary was directed to drop the names of the following employees from the pay-rolls of the Department :

George W. Barber, Carpenter ; Thomas Carroll, Dock Builder ; James Carson, James McNally, Patrick Smith, Laborers ; Bernard D. Meyer, Inspector of Dumping of Dredged Material.

7th. Reporting that Laborers Thomas Armitage, Michael McLaughlin and Joseph Heeney have been absent for three successive working days without being excused, and that he had directed that they be not again assigned to duty until further orders.

On motion, his action was approved.

8th. Report on Secretary's Order No. 7396, repairs required to Pier, old 23, North river, foot of Vesey street. The action of Commissioner Marshall, in notifying the New York Steam Company and Buck & Steljes to repair, under the direction and supervision of the Engineer-in-Chief of the Department, was approved.

9th. Report on Secretary's Order No. 7397, in reference to communication from Hon. Abram S. Hewitt, Mayor, inclosing letter received from J. Battersby. Referred to Commissioner Marshall.

10th. Reporting that the West Shore Railroad Company has recently laid car tracks on the bulkhead within about nine feet south of West Thirty-seventh street, North river, without a permit from the Department. The Secretary directed to notify the said company that the consent of the Department must be obtained before making any improvement or doing work of any nature on the piers, bulkheads or other wharf property.

11th. Report on Secretary's Orders Nos. 4324 and 5228, respecting the work done under the permit granted to the Staten Island Rapid Transit Company to make certain improvements west of Pier 1, East river, and erect a pavilion at Pier 1, East river, and recommending that the permits be revoked.

On motion, the reports were received and recommendations adopted.

12th. Report on Secretary's Order No. 7389, respecting the request of the Department of Public Works for the Department to build a bulkhead at the foot of Ninety-fifth street, East river. Referred to Commissioner Marshall.

13th. Report on Secretary's Order No. 7395, submitting diagram of ferry premises foot of Jay street, North river. The President pro tem. authorized to transmit said diagram to the Comptroller of the City.

14th. Report on Secretary's Order No. 7381, repairs required to the pavement in front of Pier 15, East river. The action of the Secretary, in notifying William P. Clyde & Co. to repair, under the direction and supervision of the Engineer-in-Chief, was approved.

15th. Report on Secretary's Order No. 7375, in reference to the communication received from the Mayor, as to the condition of the bulkhead between Seventeenth and Eighteenth streets, East river. Referred to Commissioner Marshall.

16th. Report on Secretary's Order No. 6439, that he had repaired bulkhead south of Thirty-sixth street, East river.

17th. Report on Secretary's Order No. 7269, that he had superintended repairing sheathing on north side of Pier, old 23, North river.

18th. Report on Secretary's Order No. 7277, that he had repaired pier at Thirty-eighth street, North river.

19th. Report on Secretary's Order No. 7348, that he had superintended repairing pavement in front of bulkhead between Piers 12 and 13, North river.

20th. Report on Secretary's Order No. 7363, that he had superintended repairing bulkhead between Thirty-ninth and Fortieth streets, North river.

21st. Report on Secretary's Order No. 7369, that he had superintended repairing vertical sheathing on the end of Pier 16, North river.

22d. Report on Secretary's Order No. 7378, that he had repaired Pier 60, East river.

23d. Report on Secretary's Order No. 6827, that he had superintended the dumping of ashes and dirt in rear of bulkhead from Seventy-seventh to Seventy-ninth street, North river, by the Department of Street Cleaning.

24th. Report on Secretary's Order No. 7080, that he had directed and superintended the laying of tracks on Pier at Thirty-sixth street, North river, and raising freight transfer bridges thereat by the West Shore Railroad Company.

The report of the Engineer-in-Chief on Secretary's Order No. 7376, submitting the necessary plans for the changing of lines of Pier, new 36, East river, in accordance with the resolution passed December, 1887, was received, read and ordered to be placed on file, and the following resolution was,

On motion, adopted :

Resolved, That this Board deems it advisable to change the width and location of the new pier, near the foot of Jefferson street, East river, to be known as Pier, new 36, East river, from the old location and location therefor as laid down on the plans determined by this Board April 13, 1871, and adopted and certified to by the Commissioners of the Sinking Fund April 27, 1871, as follows :

The width of the pier to be forty feet, instead of eighty feet as shown on the plans aforesaid ; the easterly side-line of the pier to spring from the bulkhead-line at the intersection of the bulkhead-line with the easterly line of Jefferson street, extended, instead of at a point about eighty feet westerly thereof, as shown on the plans aforesaid ; the lines of the pier to be parallel to the lines as shown on the plans aforesaid ; all as shown on a plan submitted in duplicate by the Engineer-in-Chief, and hereby approved by the Board.

The report of the Engineer-in-Chief under Secretary's Order No. 7346, upon application of J. Brandt, for permission to rip-rap the slope of embankment recently made at the foot of Forty-third street, East river, was received and read, and

On motion, it was

Resolved, That the application of Messrs. L. & J. Brandt for permission to rip-rap the slope of embankment recently made at the foot of Eighty-third street, East river, be and hereby is denied.

and that the said Messrs. L. & J. Brandt be and hereby are required and directed to remove of said embankment as is within a line ten feet westerly of original high-water mark, and of said embankment as is above a slope beginning at a line ten feet westerly of original high-water mark, and rising westerly at the rate of one foot of vertical height to two feet of horizontal distance, and that the said Messrs. L. & J. Brandt be informed that if the exterior street plan of the Department of Docks and submitted to the Commissioners of the Sinking Fund, pursuant to chapter 697 of the Laws of 1887, and now under consideration by the Commissioners of the Sinking Fund, is approved by that body, that all of this embankment within one hundred feet of the river, will have to be removed.

The Treasurer, Commissioner Matthews, presented his report of receipts for the week ending January 11, 1888, amounting to \$6,324.69, which was received and ordered to be spread on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer

On motion, the Board adjourned.

G. KEMBLE, Secretary

At an executive meeting of the Board of Docks, held January 13, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held January 12, 1888, were read and approved.

The report of the Engineer-in-Chief respecting dredging, plant, etc., was,

On motion, laid on the table.

The report of the Engineer-in-Chief respecting Alexander Bird, Laborer, was,

On motion, referred to President Stark.

The communication from the Counsel to the Corporation, approving form of contract for build-
new pier, etc., foot of West Thirty-eighth street, North river, was ordered to be placed on file.

The communication from John O'Hara offering to supply the Department with all legislative
instruments for the Session of 1888, for the sum of \$50, was,

On motion, ordered to be placed on file, and the action of Commissioner Matthews in accepting
offer for the price named, was approved.

The communication from the Engineer-in-Chief in reference to Foremen Dock Builders, was,

On motion, taken from the table, ordered to be placed on file and the following resolutions
are adopted :

Resolved, That the name of Daniel Hart, Foreman of Dock Builders, be and hereby is
removed from the pay-rolls of this Department, to take effect on and after the 15th of January,
1888, and that Daniel Darby be and hereby is appointed Foreman of Dock Builders, to take effect
and after the 15th of January, 1888, and be it further

Resolved, That the compensation of Martin Miller and Daniel Darby, Foremen of Dock
Builders, be and hereby is fixed at the rate of forty cents per hour, to take effect on and after the
15th of January, 1888.

The report of the Engineer-in-Chief in reference to new piers on the Harlem river, was,

On motion, taken from the table and ordered to be placed on file.

On motion, the Engineer-in-Chief was directed to make the necessary borings, soundings, etc.,
at East One Hundred and Twenty-fifth street, Harlem river, as recommended in his report.

On motion, so much of the Engineer-in-Chief's report respecting the improvement of the water-
way at East One Hundred and Nineteenth street and East One Hundred and Twentieth street,
Harlem river, was referred to Commissioner Marshall.

The following resolution was unanimously adopted by the affirmative votes of Commis Stark, Matthews and Marshall :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the construction of a bulkhead across the foot of East One Hundred and Seventeenth street, and a pier at the foot of said street, in accordance with the plans for the improvement of the East water-front determined by the Department of Docks on the 13th December, 1887, and adopt the Commissioners of the Sinking Fund on the 19th of December, 1887 ; and that all the hereby ordered be performed otherwise than by contract, as required by section 714 of the Cation Act, and that it be done by the force of the Department by day's work, except so much the labor and material as is now or may hereafter be contracted for, and that all material, to dredging necessary therefor and not heretofore contracted for, or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

The following resolutions were,

On motion, adopted :

Resolved, That whatever license or licences, permission or permissions, has or have been heretofore granted or given to F. P. Eastman, to locate or use a dumping-board (floating or otherwise) on the southerly side of Thirty-ninth street, East river, be and the same are hereby revoked.

Upon reading and filing the application dated January 13, 1888, of Brown & Fleming, for permission to locate a dumping board at Thirty-ninth street, East river, at the price of thirty dollars per week, and the Board having duly considered the same, it was

Resolved, That license or permission be and the same is hereby granted to the said Brown & Fleming to locate or use a dumping-board on the bulkhead on the southerly side of Thirty-ninth street, East river, at the price of thirty dollars per week, payable at the end of each week to the Dock Master of the district, to commence January 16, 1888, the said license or permission to continue so long as the will of the Board.

The communication from the Old Dominion Steamship Co., respecting the increased rent for bulkhead or wharf property, at Pier, new 26, North river, was,

On motion, ordered to be placed on file and the following preambles and resolution adopted :

Whereas, At a meeting of the Board of Docks, held June 6, 1887, a certain resolution was adopted, agreeing to lease, at a rental subsequently to be determined upon, to the Old Dominion Steamship Company, the entire bulkhead on West street, between Piers, new 26 and 27, North river, and one hundred and twenty-five feet of bulkhead on West street, southerly of said Pier, new 26 (with permission to shed the same), upon the completion of the work of constructing the bulkheads upon the plan of permanent improvement adopted therefor, or at any time prior thereto in the discretion of the Commissioners of the Department of Docks ; and

Whereas, It was provided by said resolution that said lease should be for a term of years, *coexistent with the present lease to the company of Pier, new 26, North river, and should co-*

ment of renewal for a further term of years coexistent with the term of renewal under the privilege defined in the lease of said Pier, new 26, North river ; and

Whereas, It was provided that the bulkhead as above described, should be appropriated to the use of the special kind of commerce carried on by steam transportation : and

Whereas, The work of improvement under the "new plan" of said bulkheads, as described, is approaching completion, and the Old Dominion Steamship Company has made application to the Department for a lease of same ; now be it

Resolved, That the Board of Docks do hereby agree to lease to the Old Dominion Steamship Company the bulkhead on West street, described as follows :

Bulkhead extending from a point 125 feet southerly from the southerly side of Pier, new No. 26, North river, to the southerly side of Pier, new No. 27, North river, at an annual rental of ten thousand dollars, payable quarterly in advance, the date on which said annual rental is to begin to be determined and agreed on subsequently, said lease to contain the usual covenants and conditions to be in conformity with all the terms as set forth in the resolution of June 6th, 1887, adopted by the Board, and to be for a term of years coexistent with the present lease of the company of Pier, new No. 26, North river, and to contain a covenant of renewal for a term of years coexistent with that provided by the privilege in said lease to the company at an advanced rental of ten thousand and one hundred dollars per annum, payable in advance quarterly, on the usual quarter days, and further, permission be and hereby is granted to the Old Dominion Steamship Company to shed said bulkhead, as described, to a line fifty feet easterly of the same, provided that the shed or sheds so constructed, shall be built in accordance with the regulations required by chapter 249 of the Laws of 1882, and of sections 772 and 774 of chapter 410 of the Laws of 1882, commonly called the New York City Consolidation Act, and in conformity with plans and specifications to be first submitted to and approved by the Board governing the Department of Docks, and provided that all work be done under the direction and supervision of the Engineer-in-Chief of this Department, and provided that the area of pavement occupied by said shed shall be maintained and kept in satisfactory repair condition by, and at the expense of, the lessee, and provided further that the said Old Dominion Steamship Company, shall, within ten days after date of this resolution, file a written assent under the corporate seal of said company attached thereto, to all the terms, conditions and covenants of the foregoing resolution, and also an agreement similarly signed and sealed that the shed or sheds constructed by the company on said bulkhead shall revert to and become the property of the Corporation of the City of New York, on the expiration or sooner termination of the lease of said bulkhead free of all claim of every kind whatsoever.

On motion, the Engineer-in-Chief was directed to extend the pier, now in course of construction at the foot of East One Hundred and Seventeenth street, Harlem, from 136 feet long to 175 feet long, in accordance with the new plans submitted to and approved by the Commissioners of the Department of the Public Works Fund.

On motion, John Hogan, John Curry and John J. Dawson, were appointed Laborers, John J. O'Connell and Lawrence Welsh, Caulkers.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held January 19, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the executive meeting held January 12, 1888, were read and approved.

The application of the New Haven Steamboat Company for a renewal of the lease of East river, was

On motion, referred to Executive Session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated

From Counsel to the Corporation :

1st. Opinion in reference to the execution of contracts by the officers of the Board. Tl

2d. In reference to the proposed exterior street, from Sixty-fourth to Eighty-sixth st river. Referred to the Engineer-in-Chief to examine and report.

The Secretary directed to have the same recorded in the Book of Opinions.

3d. Requesting information in relation to the contract made with William T. Ne Michael Nolan, for the delivery of granite. The action of Commissioner Marshall in furni desired information was approved.

4th. Transmitting approved form of contract or ageement for the purchase of wharf at or near the foot of Jackson street, East river, from Hiram Duryea and others. Referred missioner Marshall.

From Department of Street Cleaning :

1st. Requesting the removal of broken brick and other rubbish from the bulkhead Piers 48 and 49, East river. The action of the President in directing the Engineer-in examine and report was approved.

2d. Requesting dredging at Old Slip and Jackson street, East river. The action of il dent in directing the Engineer-in-Chief to examine and report was approved.

From the Atalanta and New York Rowing Clubs —Requesting permission to locate b near the foot of One Hundred and Sixty-seventh street, Harlem river. The action of the in directing the Engineer-in-Chief to examine and report was approved.

From Sanderson & Son, agents Wilson line of steamers—Desiring to be informed if t ment propose to construct new piers for steamship purposes along the water-front oc Washington Market. Referred to the Secretary to reply thereto.

on Henry Lewis Morris and Charles L. Adams—Requesting permission to erect bulkhead and
nd under water at One Hundred and Forty-ninth street, Harlem river, in accordance with
is and specifications submitted. Referred to Engineer-in-Chief to examine and report.

m Simon Stevens, attorney for private interests in Piers 12, 13 and 14, East river—In refer-
he bills rendered by the Department for dredging at said premises. Referred to Commis-
marshall.

n M. Carroll, Jr., agent—Requesting that the name "M. Carroll," in the permit issued by
d September 22, 1887, to use and occupy dumping-board on the southerly side of Pier at
th street, North river, be changed to M. Carroll, Jr., agent. Referred to Commissioner

n Hiram Duryea, for himself and others—Respecting the agreement submitted for the pur-
bulkhead or wharf property at or near the foot of Jackson street, East river. Referred to
ioner Marshall.

n Portchester Transportation Company, E. F. Studwell, captain—Requesting the Board to
e rate of wharfage one-half for one of the boats berthed by them at Pier, new 32, East river,
rch 1, 1888.

motion, their request was granted, and the Secretary was directed to notify the Dock Master
tion of the Board.

m D. W. Bogert, Dock Master—Reporting that there were about two truck loads of
as trees on new made land at Pier, new 21, North river. The action of the President in
; the Engineer-in-Chief to remove said Christmas trees, was approved.

m Charles Hutchinson, Dock Master—Reporting three or four fenders partially adrift at foot
-second street, East river. The action of the President in directing the Engineer-in-Chief to
and repair, if necessary, was approved.

m Edward Abeel, Dock Master—Reporting five half-round fenders required at lower side of
East river. The action of the President in directing the Engineer-in-Chief to examine and
f necessary, was approved.

m John J. Ryan, Dock Master :

Reporting hole in bulkhead at foot of West Ninety-sixth street, North river. The action
President in directing the Engineer-in-Chief to examine and repair, if necessary, was
d.

Reporting the sinking of two canal boats at foot of Ninety-sixth street, North river. The
f the President in notifying the owners to remove, under the direction of the Engineer-in-
as approved.

m Engineer-in-Chief :

Reporting assignment of employees to special duty.

Reporting the amount of work done during the week ending January 14, 1888.

3d. Reporting damage to Pier, new 43, North river, by the steamship "Greece," of the National Line of Steamships. The action of the President in directing the Engineer-in-Chief to repair said pier, and report the cost for collection from the Steamship Company, was approved.

4th. Reporting as to ownership of Pier 23, East river.

5th. Report on Secretary's Order No. 7343, cleaning required to Pier, new 59, North river.

On motion, the Engineer-in-Chief was directed to clear the obstructions from said pier.

6th. Report on Secretary's Order No. 7377, as to the condition of and repairs required to the bulkhead foot of Forty-fourth street, East river. Referred to Commissioner Matthews.

7th. Report on Secretary's Order No. 7384, that he had refastened half-round fenders on the side of Pier foot of Seventeenth street, North river.

8th. Report on Secretary's Order No. 7382, that he had directed and superintended the erection of a weighing scale on Pier 49, East river.

9th. Report on Secretary's Order No. 7392, that he had superintended the raising and removal of the canal boat, "Charles H. Fowles," sunk in slip between Beach and North Moore street North river.

10th. Report on Secretary's Order No. 7398, that he had repaired deck of Pier, foot of Fifty-fifth street, North river.

11th. Report on Secretary's Order No. 7399, that he had directed and superintended the replacing and fastening of five spring piles on the southwest corner of Pier 53, East river.

12th. Report on Secretary's Order No. 7405, in reference to removing rubbish from bulkhead between Piers 48 and 49, East river.

13th. Report on Secretary's Order No. 7401, that he had replaced two half-round white fenders on North side of Pier 58, East river.

The Auditing Committee presented an audit of thirty-two bills or claims, amounting to \$14,345.13, which were approved, and the Secretary directed to enter in full on the minutes, as follows:

JAMES MATTHEWS, } Auditing Committee
CHARLES H. MARSHALL, }

On motion, the President was authorized to transmit the same, with requisitions for the same, to the Finance Department for payment.

Upon reading and filing the application of John Everson, dated January 10, 1888, for permission to use the outer dumping-board on the north side of West Forty-seventh street, North river, the Board having duly considered the same,

Resolved, That license or permission be and the same is hereby granted to John Everson and occupy the outer dumping-board on the north side of Pier, foot of West Forty-seventh North river, at the price of one dollar and fifty cents per day (Sundays included) for each and every day, payable at the end of each week to the Dock Master of the district, to commence January 1, 1888; the said license or permission to continue during the will of the Board.

The application of James Shewan for permission to dredge at south side of Pier 62, East river,

On motion, ordered to be placed on file and the following preamble and resolution adopted:

Whereas, application has been made by James Shewan to dredge at the south side of Pier 62, East river.

Resolved, That permission be and hereby is granted to the said James Shewan to dredge the area covered by dry docks and embraced in the angle formed by the south of Stanton street and Pier 62, and bulkhead at Tompkins street, East river, to a depth of eighteen feet at mean low water, the work hereby authorized to be done under the direction and supervision of the Engineer-in-Chief of this Department; it being expressly understood that the permission hereby granted is not to be construed as in any way or manner acknowledging that the said James Shewan or any other person has any right, title or interest in or to said premises, or as in any manner impairing or prejudicing the right, title or interest of the City to said property.

The Treasurer, Commissioner Matthews, reported that he had received the following order for furnishing the Department with 1,000 barrels of Portland cement:

Marcial & Co., per barrel.....
A. C. Babson, per barrel.....
J. L. Merchant & Co., per barrel.....
Erskine W. Fisher, per barrel.....

And recommended that the bid for furnishing the same be awarded to Marcial & Co., they being the lowest bidders.

On motion, the report was received and recommendation adopted.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending July 18, 1888, amounting to \$2,212.48, which was received and ordered to be spread in full on the minutes, as follows:

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held January 20, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held January 19, 1888, were read and approved.

The following communications were received, read and,

On motion, ordered to be placed on file, action be taken where necessary, as stated, to wit :

From Counsel to the Corporation—Approving contract for dredging at Pier 7, East river.

From National Line of Steamships—Requesting lease of bulkhead on each side of Pier, new 39, North river.

From P. Curley, Dock Master :

1st. Reporting damage to outer end of Pier, new 44, North river, by the Hoboken ferry boat. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

2d. Reporting the sinking of a canal boat between Piers, new 37 and 38, North river. The action of the President in notifying the owners of said canal boat to remove, under the direction and supervision of the Engineer-in-Chief, was approved.

From Engineer-in-Chief :

1st. Report on Secretary's Orders Nos. 7279 and 7280, dredging required at Pier 47 and in front of the bulkhead between Piers 47 and 48, East river.

2d. Report on Secretary's Orders Nos. 7406 and 7408, as to dredging required at the dumping boards at Piers 12 and 54, East river. The Engineer-in-Chief directed to make requisitions for dredging thereat, as recommended in his reports.

3d. Report on Secretary's Order No. 7420, in reference to the application of Henry Lewis Morris and Charles L. Adams for permission to build a bulkhead and fill in behind the same at the easterly side of One Hundred and Forty-ninth street, Harlem river. Permission granted, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department, and in accordance with the plans and specifications submitted therefor.

The report of the Engineer-in-Chief on Secretary's Order No. 7400, respecting the names submitted by the Civil Service Board for the position of Draughtsman, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That William G. Johnson and Matthew S. Gregory be and hereby are appointed Draughtsmen in the service of this Department, with compensation of \$83.33 per month, to take effect on and after the 23d day of January, 1888.

The Auditing Committee presented an audit of three bills or claims amounting to \$6,025.12, which was approved and ordered to be spread in full on minutes as follows :

1. James Matthews, Treasurer, incidentals	\$488 68
3. John Gillies, Estimate No. 1, Contract No. 258	5,110 81
On Construction Account	<u>\$5,599 49</u>
2. James Matthews, incidentals	<u>\$425 63</u>
On Annual Expense Account	<u>\$425 63</u>

On motion the President was authorized to transmit said claims, with requisitions for the amounts, to the Finance Department for payment.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held January 26, 1888.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meeting held January 20, 1888, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action as stated, to wit :

From Henderson Brothers, Agents Anchor Line and the Inman and International Steamship Company—Requesting use of Pier, new 43, North river. Referred to Executive Session.

From Homer Ramsdell—Requesting reduction in rent for Pier, old 35, North river. Referred to Executive Session.

From John A. Bouker—Requesting berth near bulkhead, lower side of Pier foot of Forty-sixth street, North river, with dumping board to load cellar dirt and clean ashes.

From Rice & Bijur, Attorneys Ocean Steamship Company of Savannah—Requesting lease of bulkhead adjoining Pier, new 35, North river.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary as stated, to wit:

From Old Dominion Steamship Company—Accepting the terms and conditions of the resolution for the leasing of bulkhead adjoining Pier, new 26, North river. The President authorized to request the Counsel to the Corporation to prepare form of lease.

From F. W. J. Hurst, Manager National Line of Steamships—Respecting the damage to Pier, new 43, North river, by the steamship "Greece."

From New York, Lake Erie and Western Railroad Company—Requesting permission to repair Ferry Rack, and Pier, new 20, North river, damaged by the steamer "Nassau." The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From S. A. Frost—Requesting permission to repair Pier 17, East river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Lehigh Coal and Navigation Company—Reporting that the canal boat sunk at West Ninth sixth street, North river, has not been removed. The action of the President in notifying the owners to remove as soon as possible was approved.

From Western Union Telegraph Company—Requesting permission to change termini of cable crossing at Second avenue and One Hundred and Twenty-ninth street, Harlem river, and erect cable boxes thereat, in accordance with the plan submitted. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

From New York Central and Hudson River Railroad Company—Requesting permission to construct gangways in Piers, new 61 and 62, North river, in accordance with the plans and specifications submitted. Permission granted, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From J. B. Erwin, Dock Master—Reporting small holes in deck of Pier foot of Fifty-first street, North river. The action of the President in directing the Engineer-in-Chief to repair if necessary was approved.

From Edward Abeel, Dock Master—Reporting that the fence which was placed on the lower side of Pier 44, East river, has been taken down by the Department of Street Cleaning. The action of the President in directing the Engineer-in-Chief to take possession of said material was approved.

From P. J. Brady, Dock Master—Reporting canal boat sunk in the slip between Piers, new 61 and 62, North river. The Secretary directed to notify John Hannaway to remove said canal boat forthwith under the direction and supervision of the Engineer-in-Chief of this Department.

From Engineer-in-Chief :

- 1st. Reporting assignment of employees to special duty.
- 2d. Reporting the amount of work done during the week ending January 22, 1888.
- 3d. Reporting that he had directed that Thomas J. McCloskey, Laborer, Acting Watchman, be assigned to duty as Acting Watchman, for having been found asleep while on duty, and recommending that his action be approved.

On motion, the action of the Engineer-in-Chief was approved.

4th. Reporting the carrying away of timber at West Thirty-seventh street, North river. Referred to Commissioner Marshall.

5th. Reporting absence of William Bar, Dock Builder, for three successive days without excuse or explanation, and stating that he had directed that he be not again assigned to duty until further notice.

On motion, the action of the Engineer-in-Chief was approved.

6th. Transmitting Inspector's report of material used under Contract No. 255 building platform, Store-house Pier, Blackwell's Island, East river.

7th. In relation to the dumping of material dredged at Storehouse Pier, Blackwell's Island, river, under Contract No. 255, with Duncan A. Gillies.

8th. Reporting that on January 24, 1888, he had suspended Watchman John McDougal for being found asleep while on duty.

On motion, the said Watchman was suspended, without pay, for a period of fifteen days from the date of his suspension.

9th. Respecting the obstructions on the bulkhead north of Ninety-sixth street, North river, and recommending that the Board order the removal of said brick immediately, or at least a portion of it. Referred to Commissioner Marshall.

10th. Partial report on Secretary's Order No. 6563, that he had supervised and directed the dredging, repairing, etc., of ferry premises at Barclay street, North river, and stating that the total area of land under water covered by these improvements amounts to 47,214 square feet. The area of land which the Hoboken Land and Improvement Company agreed to pay twenty five cents per acre per annum, under the resolution passed May 14, 1887, amounts to 34,417 square feet. Recommending that they be required to begin paying for the use of the land under water, under the terms of the above resolution, on the 1st day February, 1888.

On motion, the report was received, recommendation adopted, and the Secretary directed to carry out the Chief Clerk of the action of the Board.

11th. Report on Secretary's Order No. 7243, as to the damage done to Pier, new 44, North river, by Hoboken ferry boat. The action of the President, in notifying the Oceanic Steam Navigation Company to repair said Pier, under the direction and supervision of the Engineer-in-Chief of the Department, was approved.

12th. Report on Secretary's Order No. 7412, that he had repaired damage done to Pier 43, North river, by the steamer "Greece" of the National Line, at a cost of \$54.36.

The Treasurer authorized to collect said amount from the National Line of Steamships.

13th. Report on Secretary's Order No. 7413, that he had repaired bulkhead at Forty street, East river.

14th. Report on Secretary's Order No. 7403, that he had directed and superintended the and removing of the canal boat sunk in slip foot of One Hundred and Nineteenth street, East river.

15th. Report on Secretary's Order No. 7180, that there will not be any necessity for placing bolt on the bulkhead between Piers, new 56 and 57, North river, as the barge of the St. Guild is safely berthed at Pier, new 57, North river.

16th. Report on Secretary's Order No. 7186, that he had superintended the erection temporary shed on the north side of ferry at Barclay street, North river.

17th. Report on Secretary's Order No. 7385, that he had erected a fence on the lower side of Pier 43, East river.

The report of the Engineer-in-Chief, submitting plans and specifications for removing Pier 36, North river, and building Pier, new 25, along the northerly side thereof, was received, read,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plans, specifications and form of contract as prepared and submitted by the Engineer-in-Chief for removing Pier, old 36, North river, outside of a line about fifty feet west of the established bulkhead line, and the shed thereon, and for building Pier, new 25, along the northerly side thereof, be and they hereby are approved, subject to the approval of the Board of the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting estimates for doing same inserted in the papers designated by law.

The report of the Engineer-in-Chief on Secretary's Order No. 7421, respecting the application of the Department of Street Cleaning for permission to erect a dumping-board on the Pier West Seventy-ninth street, North river, was received, read, and,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That pursuant to the provisions of section 728 of chapter 410 of the Laws of 1887, and in accordance with the request of the Commissioner of Street Cleaning, the southerly side of the Pier at the foot of West Seventy-ninth street, North river, be and hereby is designated as apart for the use of the Department of Street Cleaning of the City of New York.

On motion, the Engineer-in-Chief was directed to prepare plans, specifications and form of contract for building a crib-bulkhead, from the southerly side of West Seventy-fifth street to the northerly side of West Seventy-seventh street, North river.

A communication from the Engineer-in-Chief, submitting form of contract and specifications for work for bulkhead or river wall, was received, read, and,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the form of contract and specifications as prepared and submitted by the Engineer-in-Chief for the purchase of about 18,300 cubic feet of granite for bulkhead or river wall, and they hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals made, and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

The Treasurer presented the monthly balance sheet for the month of December, 1887.

On motion, the President was authorized to transmit the same to the Comptroller of the City.

The President stated that he had been served with a petition, order and writ of certiorari in the case of Frederic Perry, Joseph L. Liscomb and Joseph F. Sharkey for reinstatement.

On motion, the President was authorized to transmit them to the Counsel to the Corporation and request him to take the proper steps to protect the interests of the City.

The following preamble and resolutions were,

On motion, adopted :

Whereas, At a meeting of the Board of this Department held on the 22d of September, 1887, the following resolution was adopted : Resolved that permission be and hereby is granted to M. J. Roll, representing the estate of Edward Teague, to use and occupy the dump on the southerly side of the pier at Forty-sixth street, North river, at a compensation of \$2 per day, same to be paid daily to the Dock Master of the district ; said permission to commence Monday, September 26, 1887, and continue during the pleasure of the Board,

Resolved, That the above resolution be rescinded, to take effect on and after January 28, 1888.

The report of Commissioner Marshall, dated September 22, 1887, respecting the printing of the minutes, accompanied by the report of the Engineer-in-Chief in relation thereto, was,

On motion, taken from the table, placed on file and the following resolution was adopted :

Resolved, That the specifications and form of contract as prepared and submitted by the Engineer-in-Chief for transcribing, printing and binding the minutes of the meetings of the Board of Docks from May 2, 1870, to April 28, 1877, inclusive, be and they are hereby approved, subject to the approval of the Counsel to the Corporation as to form, and that the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting estimates for doing the said work inserted in the papers designated by law.

The following preamble and resolution were,

On motion, adopted :

Whereas, Duncan A. Gillies allowed certain old timber to go adrift from the work done under Contract No. 255 with this Department in violation of the specifications of said contract, to be it

Resolved, That this Department deducts the sum of (\$50) fifty dollars from the money due on said contract in compensation for the above mentioned non-compliance with the specifications thereof, provided that the Comptroller assents to and approves of such deduction.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending January 25, 1888, amounting to \$2,569.80 which was received and ordered to be spread on the minutes, as follows :

G. KEMBLE, Secret:

At a special meeting of the Board of Docks, held January 27, 1888.

Present—Commissioners Stark and Matthews.

Absent—Commissioner Marshall.

The Board met for the purpose of receiving estimates for removing the existing Pier at the foot of West Thirty-eighth street, North river, and for preparing for and building a new wooden pier and approach at the foot of said street, and for repairing the existing crib bulkhead thereat.

A representative of the Comptroller was present.

Eight estimates were received as follows :

No.	FROM.	CLASS No. 1.	CLASS No. 2.	TOTAL.
		For repairs to Bulkhead and Appurtenances foot West Thirty-eighth street, North River.	For the Pier and Approach Complete.	
1	P. Sanford Ross, with \$675	\$1,275 00	\$48,700 00	\$49,975 00
2	Richard Cronin, with \$675.....	1,120 00	45,280 00	46,400 00
3	O'Connell & Coffey, with \$675.....	1,575 00	45,790 00	47,365 00
4	John W. Flaherty, with \$675	1,375 00	54,700 00	56,075 00
5	William P. Kelly, with \$675.....	1,224 00	53,000 00	54,224 00
6	John Gillies, with \$675	1,300 00	45,200 00	46,500 00
7	J. H. Staats, with \$675.....	1,075 00	48,410 00	49,485 00
8	James G. Hasking, with \$675.....	900 00	55,000 00	55,900 00

On motion, the Secretary was directed to transmit to the Comptroller the security deposits received from said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for removing the existing pier at the foot of West Thirty-eighth street, North river, and for preparing for and building a new wooden pier and approach at the foot of said street, and for repairing the existing bulkhead thereat, be and hereby is awarded to Richard Cronin, he being the lowest bidder upon the approval of the sureties by the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held January 27, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held January 26 and 27, 1888, were read and approved.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary as stated, to wit:

From Counsel to the Corporation :

1st. In reference to the repairs required to Pier foot of Eighth street, East river. Referred to the Engineer-in-Chief.

2d. Transmitting answer of the City to the complaint of Ruth A. Wallace and David Wallace respecting wharf property between Fifty-fourth and Fifty-fifth streets, North river.

The President authorized to return to the Counsel to the Corporation when signed and -sent to by the Commissioners.

3d. In relation to the claims against owners of pier and bulkhead property for the expense incurred in dredging basins and slips adjacent thereto. Referred to Commissioner Marshall.

From Rice & Bijur, attorneys Ocean Steamship Company, of Savannah—Requesting lease of bulkhead on either side of Pier, new 35, North river. Referred to Commissioner Marshall.

From Homer Ramsdell —Requesting allowance on rent Pier, old 35, North river. Referred to Commissioner Matthews.

From the Comptroller of the City—Transmitting map of new Pier 36, East river, approved by the Commissioners of the Sinking Fund at a meeting held on the 25th instant.

On motion, the said plans were ordered to be filed in the Department.

From New York Steam Company—Requesting permission to remove stone between Forty-ninth and Fifty-first streets, East river, and to erect derricks and load scows with stone at the little dock that is now built at said place. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From John Everson—Requesting permission to extend the run to dumping-board on the north side of West Forty-seventh street, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Henderson Bros., agents Anchor Line—Requesting use of Pier, new 43, North river.

From Engineer-in-Chief Report on Secretary's Order No. 7434, in reference to the application of the Western Union Telegraph Company to change termini of its cable crossing at One Hundred and Twenty-ninth street, Harlem river. Permission granted, the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

The following resolution was,

On motion, adopted :

Resolved, That in consideration of the sum of \$50. which has been paid to the Treasurer of Department, the time given to Thomas Smith & Co. to fill in behind the cribwork bulkhead between Seventy-seventh to Seventy-eighth street, North river, be and hereby is further extended from May 31, 1888, to and including April 1, 1888.

Upon reading and filing the application dated January 25, 1888, of John A. Bouker, for a berth for the bulkhead on the lower side of the Pier foot of West Forty-sixth street, North river, with a dumping-board to load cellar dirt and clean ashes, and the Board having duly considered the same, it

Resolved, That license or permission be and the same is hereby granted to the said John A. Bouker to use and occupy the dumping-board on the lower side of the Pier foot of West Forty-sixth street, North river, to load cellar dirt and clean ashes at the price of twenty-eight dollars per week, from the date of beginning of occupancy, payable at the end of each week to the Dock Master of the District, the said license or permission to continue during the will of the Board.

The report of the Engineer-in-Chief on Secretary's Order No. 7276, submitting plans, specifications, and form of contract for removing Pier 60, East river, was received, read and,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plans, specifications and form of contract as prepared and submitted by the Engineer-in-Chief for removing Pier 60, East river, for building a new pier in its place and for filling the crib bulkhead under said pier and northerly thereof along the easterly line of Rivington street, be and they are hereby approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

On motion, the appointments of Charles G. Beck, Inspector of Dumping of Dredged Material, John G. Darby, Sounder, John E. Land, Inspector of Pier Building, and Allen N. Spooner, Photographer, were, in accordance with regulation 36 of the Civil Service Regulations, made permanent.

On motion, the following appointments were made : Roger McGuire, Thomas Lestrangle, John Chaney, John Haughney, Laborers, and Michael Gayte, Stone-cutter.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held February 2, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held January 27, 1888, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Simon Stevens, attorney—Stating that he will advise his clients to tender to the ment \$400 in full settlement for dredging half of the slip next to the westerly side of Pier river, and desiring to be informed if such a settlement will be accepted. The action of the F in requesting the opinion of the Counsel to the Corporation as to the power and authority of the Department to settle claim for the amount stated, was approved.

From Anchor Line, Henderson Brothers, agents—In relation to berth for the steamship of Rome.”

From Engineer-in-Chief :

1st. Report on Secretary's Order No. 7449, respecting the application of the New York Company for lease of land under water, between Forty-ninth and Fifty-first streets, E. Referred to Commissioner Marshall.

2d. Report on Secretary's Order No. 7447, respecting the eligible list submitted by the Service Board as Inspectors of Pier Building. Referred to Executive Session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated

From Counsel to the Corporation :

1st. In reference to the agreement with Wright Duryea and others for the purchase of land and wharf property near the foot of Jackson street, East river.

2d. Opinion in reference to the claim against the private owners of Piers 12, 13 and 14, for the expense of necessary dredging in the slips adjacent to said piers. The Board directed to have the same recorded in the Book of Opinions.

From Civil Service Supervisory and Examining Boards :

1st. Stating that Francis E. Moon had passed the necessary examination, and is eligible for promotion.

2d. Transmitting eligible list of Inspectors of Pier Building. The action of the Board directing the Engineer-in-Chief to examine and report as to the qualifications of the person recommended for said position, was approved.

From Department of Street Cleaning :

1st. Respecting the dumping of ashes and garbage mixed with snow on the surface of Pier 19, East river.

2d. Requesting the assignment of the southerly half of the outer end of the Pier at West Fifty-seventh street, North river. Referred to the Engineer-in-Chief to examine and report.

From Hon. Abram S. Hewitt, Mayor—Enclosing communication from H. P. Ashley as to the amount paid by certain steamship companies. The action of the President, in directing the Secretary to send Mr. Ashley a copy of the Annual Report, was approved.

From Comptroller of the City—Approving sureties of Richard Cronin to his contract for building Pier foot of West Thirty eighth street, North river.

From Hiram Duryea and others—Respecting the sale of wharf property at Jackson street, East river. The action of Commissioner Marshall in replying thereto was approved.

From Alonzo Flemming Requesting permit to locate office on Pier foot of Twenty-eighth street, East river. Permit granted, to be and remain during the will of the Board.

From John A. Bouker—Desiring to be informed when the dumping-board foot of West Forty-sixth street, North river, will be ready for occupancy. The Secretary directed to notify the Dock Master to place Bouker in immediate possession of said dump.

From F. W. J. Hurst, Manager National Line of Steamships—Respecting the damage to Pier, West 37, North river, by the steamship "Queen."

From National Transit Company—Stating that they will erect signs, as requested, on Pier foot of West Seventy-ninth street, North river.

From White Star Line—Stating that the necessary repairs will be made to Pier, new 44, North river, as soon as the weather will permit.

From Erskine W. Fisher Requesting the Department to test a barrel of Portland cement, and enclosing \$10 to pay the cost of the same. The action of the President, in directing the Engineer-in-Chief to test said cement and report the result, was approved.

From Jacob Dahlman and Francis Connolly, respectively—Requesting berths at Pier foot of West Forty-sixth street, North river, with the privilege of loading manure. Permits granted, to continue during the will of the Board, and to be located thereat by the Dock Master of the District.

From Clark & Wilkins—Stating that they are unable to procure a berth at Pier foot of West Fiftieth street, North river. Referred to the Dock Master, to examine and report.

From Homer Ramsdell Transportation Company—Requesting permission to build two spurs on the south side of Pier, new 24, North river. Referred to the Engineer-in-Chief to examine and report.

The President reported that he had directed the Engineer-in-Chief to examine and report upon following applications :

From L. and J. Brandt—For permission to run a drain-pipe into the East river, at the foot of Fifty-third street.

From New York Steam Company—For lease of land under water between Forty-ninth and Fifty-first streets, East river.

From G. H. & E. C. Swift - Requesting dredging between Thirty-eighth and Thirty-ninth streets, North river.

From Maine Steamship Company—Requesting permission to erect a small fence on the front of platform on the side of Pier 38, East river.

From Manhattan Railway Company—Transmitting for approval plans of proposed improvements at the head of Eighth avenue, at One Hundred and Fifty-ninth street, Harlem river.

On motion, his action was approved.

From J. B. Erwin, Dock Master :

1st. Reporting that piles have been displaced foot of West Fifty-fourth street, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

2d. Reporting that the canal boat sunk at Pier, foot of West Fifty-fifth street, North river, has not been removed. The action of the President in directing the Delaware and Hudson Canal Company to remove the same, and directing Engineer-in-Chief to superintend the removal, was approved.

From P. J. Brady, Dock Master—Reporting the dumping of snow on the deck of pier, foot of West Thirty-fourth street, North river, by the Department of Street Cleaning. The action of the President in sending copy of report to the Department of Street Cleaning was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending January 28, 1888.

3d. Transmitting resignation of Edward Roach, Dock Builder.

On motion, the resignation was accepted.

4th. Report on Secretary's Order No. 7428, in reference to the application of F. T. Volk, for permission to locate a boat-house north of Pier foot of One Hundred and Fifty-eighth street, North river.

On motion, permit was granted the said boat-house to be and remain during the will of the Board.

5th. Report on Secretary's Order No. 6668, that he had repaired bearing piles under Pier, no 39, North river.

6th. Report on Secretary's Orders Nos. 6717 and 6718, that he had superintended and directed repairing Piers, old 20 and 21, North river.

7th. Report on Secretary's Orders Nos. 6773, 6774 and 7386, that he had superintended repairing east and west half of Pier 3, East river.

8th. Report on Secretary's Order No. 7200, that he had repaired Coal Dock, Blackwell's Island, river.

9th. Report on Secretary's Order No. 7064 that he had placed new cleats south side of Pier, 46, North river.

10th. Report on Secretary's Order No. 7431, that he had taken possession of material comprising iron of fence at Pier 44, East river.

11th. Report on Secretary's Order No. 7432, that he had repaired deck of Pier at Fifty-first st, North river.

12th. Report on Secretary's Order No. 7372, that he had repaired Pier 7, East River.

A communication was received from the Counsel to the Corporation, stating that actions had been commenced and are now pending for the recovery of city property in possession of the following parties :

Against George W. Quintard and George E. Weed, assignees of John Roach, for the Pier at the foot of Ninth street and for a part of Mangin street adjacent thereto, October 21, 1887.

Against George Law, Jr., and others, trustees under the will of George Law, deceased, for the southerly one-half of the Pier at the foot of Eleventh street, November 18, 1887.

Against the Metropolitan Ferry Company, for the southerly one-half of the Pier at the foot of Eleventh street, and for the northerly one-half of the Pier at the foot of Seventh street, November 22, 1887.

Against Emeline Roach, for the northerly one-half of the Pier at the foot of Eighth street, November 26, 1887.

Against John Crosby Brown and others, and John Rheinfrank, and others, for premises included within the lines of Thirteenth street, east of Avenue D, December 15, 1887.

Against William H. Webb and others, for the Pier at the foot of Sixth street, and the south half of the Pier at the foot of Seventh street, January 9, 1888.

Against the Mutual Gas-light Company for the northerly one-half of the Pier at the foot of Seventh street, and premises encroaching on the street, for the whole of Twelfth street east of Avenue D, and for Tompkins street, between Eleventh and Twelfth streets, January 26, 1888.

Commissioner Matthews, to whom was referred the application of the Homer Ramsdell Transportation Company for a deduction in rent of Pier, old 35, North river, reported that he had made a deduction of \$2,550 in consequence of their being deprived of the use of said Pier by the City during the construction of Pier, new 24, North river.

On motion, his action was approved.

Upon reading and filing the application of Brown & Fleming, dated January 31, 1888, for a deduction in the rent for use of the dumping-board and approach at Eightieth street, East river, and Board having duly considered the same, it was

Resolved, That the compensation for the use of the dumping-board and approach at the foot of East Eightieth street, East river, be and hereby is fixed at the rate of \$17.50 per week, to take effect from and after February 4, 1888, and to continue during the will of the Board.

The report of the Engineer-in-Chief on Secretary's Order No. 7436, respecting the application of John Everson to extend the run to dumping-board on north side of Pier at West Forty-seventh street, North river, was

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is given to John Everson to extend the inclined approach to the dumping-board on the north side of pier at West Forty-seventh street, North river, about ten feet, to facilitate the use thereof, said work to be done without any cost to this Department, under the direction and supervision of the Engineer-in-Chief, the extension to remain only during the pleasure of the Board, and to revert to and become the property of the City upon its completion. Provided the said Everson shall within ten days file in this office his written acceptance to the terms of this resolution as aforesaid.

The report of the Engineer-in-Chief on Secretary's Order No. 7450, respecting the application of the Maine Steamship Company for permission to put up a small fence on the platform recently built west of Pier 38, East river, was received, read, and,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the Maine Steamship Company to put up a small fence on the platform recently built by the said company, in front of the bulkhead between Piers, new 29 and old 38, East river, it being expressly agreed and understood that the said fence is to be and remain thereat only during the pleasure of the Board, and the work to be done under the direction and supervision of the Engineer-in-Chief of this Department : provided the said Maine Steamship Company shall within ten days file in this office an agreement in writing that it will remove the said fence whenever ordered so to do by this Department.

The report of the Engineer-in-Chief on Secretary's Order No. 7448, approving of the plans and specifications submitted by the Manhattan Railway Company, for proposed improvements at One Hundred and Fifty-ninth street, north of Eighth avenue, Harlem river, was received, read, and,

On motion, ordered to be placed on file, and the following preamble and resolution was adopted :

Whereas, The Manhattan Railway Company has, in accordance with the terms and conditions of the preambles and resolution adopted by the Board on the 12th day of December, 1887, filed in this Department plans and specifications for proposed improvements at or near One Hundred and Fifty-ninth street, north of Eighth avenue, Harlem river, which plans and specifications, as amended, have been approved by the Engineer-in-Chief of this Department and submitted to the Board ; therefore,

Resolved, That the said plans and specifications, as amended by the Engineer-in-Chief, be and they are hereby approved, and that permit be granted to the said company to proceed with the work as therein indicated, under the direction and supervision of the Engineer-in-Chief of this Department.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending February 1, 1888, amounting to \$61,822.02, which was received and ordered to be spread in full on 10 minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held February 3, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held February 2, 1888, were read and approved.

The communication from the Counsel to the Corporation in reference to suits for violation of the rules and regulations was referred to Commissioner Marshall.

The application of the Western Union Telegraph Company for permission to renew the pile at the east side of the abutment on the north side of railroad bridge crossing the Harlem river at Fourth avenue, was

On motion, ordered to be placed on file. The action of the President in directing the Engineer-in-Chief to examine and report, was approved.

The report of the Engineer-in-Chief on Secretary's Order No. 7442 in relation to the application of L. & J. Brandt for permission to run a 6-inch drain pipe from stable at the foot of East Eighty-third street into the river, was,

On motion, ordered to be placed on file and permission granted, the said pipe to be placed under the direction and supervision of the Engineer-in-Chief of this Department, and to be remain during the will of the Board.

The Auditing Committee reported that they had insured the Derrick "City of New York," for \$1000 for one year, from February 2, 1888, to February 2, 1889.

On motion, their action was approved.

The report of the Engineer-in-Chief on Secretary's Order No. 7447, respecting the eligible list submitted by the Civil Service Board for the position of Inspectors of Pier Building, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That Frank E. Doughty and E. E. McCarney be and they hereby are appointed Inspectors of Pier Building, with compensation at the rate of forty cents per hour, to take effect when their services are required.

The following preambles and resolution were,

On motion, adopted :

Whereas, The Fort Lee Ferry Company is indebted to and owes this Department the sum of \$100, being the rental for six months (two quarters) for the bulkhead between West One Hundred and Thirtieth and West One Hundred and Thirty-first streets, North river, and the southerly side of Pier at West One Hundred and Thirty-first street, North river, leased to the said Ferry company under a lease dated the 29th day of April, 1857, to which reference is hereby made ; and

Whereas, The said ferry company has neglected to pay the said rental, although the same has been duly demanded ; therefore

Resolved, That the Counsel to the Corporation be and hereby is requested to take the necessary steps to collect from the said Fort Lee Ferry Company the amount due for the use of said premises provided for in said lease.

On motion, James Anderson was appointed Dock Builder.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks held February 6, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The Board met for the purpose of receiving the estimates for dredging at Pier 7, East river, advertised to be opened this day, at 12 o'clock M.

A representative of the Comptroller was present.

One estimate was received, as follows :

From the Union Dredging Company, with \$50 in money, 20 cents per cubic yard.

On motion, the Secretary was directed to transmit to the Comptroller the security received from said bidder and accompanying their estimate.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for dredging at Pier 7, East river, be and is awarded to the Union Dredging Company, upon the approval of the sureties by the Council of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary

At a meeting of the Board of Docks, held February 9, 1888.

Present—Commissioners Matthews and Marshall ; absent Commissioner Stark.

On motion, Commissioner Marshall was elected President pro tem.

The minutes of the meetings held February 3 and 6, 1888, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated, to wit :

From Counsel to the Corporation Opinion in relation to the application of the New York Steam Company for lease of land under water between Forty-ninth and Fifty-first streets, East river. The Secretary directed to have the same recorded in the Book of Opinions.

From P. Sheahan—Denying the charge of being asleep while on duty. Referred to the next Session.

From Hiram Duryea and others—In reference to the sale of bulkhead property foot of Jackson street, and requesting that they be allowed to build a temporary platform or wharf structure thereat. Referred to Executive Session.

From Counsel to the Corporation :

1st. Enclosing copy of an "Act" relating to the methods of making appropriations for the expenditures of the Department.

2d. In reference to the necessary action to be taken for acquiring the necessary lands to build one or more wharves, piers or slips, on the Harlem river, between Ninety-second street and One hundred and Ninth street. Referred to the Engineer-in-Chief.

From John A. Bouker—Requesting use of the south side of the dumping-board foot of East Twenty-second street, for the purpose of taking away cellar dirt.

From Engineer-in-Chief :

1st. Reporting that he had directed that Laborer Acting Watchman Patrick Sheahan be not assigned to duty as Acting Watchman, for being found asleep while on duty, and recommending that his action be approved. Referred to Executive Session.

2d. Report on Secretary's Order No. 7454, in reference to the application of the Department Street Cleaning, for permission to use and occupy the southerly half of the outer end of the Pier at East Thirty-seventh street, North river.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Hon. Abram S. Hewitt, Mayor Enclosing communication received from M. T. Williams, suggesting the allotment of certain piers on the North river in one plot for the use of boats for sale of country produce. Referred to the President.

From Comptroller of the City :

1st. Transmitting copy of communication sent to the Commissioners of the Sinking Fund by the Staten Island Rapid Transit Railroad Company, respecting proposed improvement of ferry landings foot of Whitehall street, and desiring to be informed if the plans for said improvement are approved by the Department. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

2d. Requesting certain information in relation to ferry premises foot of Desbrosses street, North river, with a diagram of the premises. Referred to the Engineer-in-Chief.

From Department of Street Cleaning—Requesting permission to erect a dumping-board on the pier foot of West Seventy-ninth street, North river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Hiram Duryea and others—Relating to the sale of bulkhead property near the foot of Jackson street, East river. The action of Commissioner Marshall in replying thereto approved.

From Maine Steamship Company--Accepting the terms and conditions of the resolution the erection of a fence in front of the platform west of Pier 38, East river.

From Pennsylvania Railroad Company --Requesting permission to replace fenders, etc., at Pier 16, North river. The action of the President in issuing a permit, the work to be done under the direction and supervision of the Engineer-in-Chief, was approved.

From Martin B. Brown --In reference to delay in printing contracts and stating that in the work of the Department will receive prompt attention.

From John Everson --Accepting terms and conditions of resolution for the extension of dumping-board on the north side of Pier at West Forty-seventh street, North river.

From Stickney, Conyngham & Co.--Stating that steps will be at once taken to raise scow sunk in the slip between Piers, new 61 and 62, North river.

From John J. Brennan --Requesting permit to place a temporary derrick on Pier foot of Eleventh street, North river, to discharge cargo of coal. The action of Commissioner Marshall in issuing a permit, the said derrick to be removed when cargo is discharged, was approved.

From John Jeroloman, attorney --In reference to the ownership of scow sunk in the slip between Thirty-ninth and Fortieth streets, North river.

From Friendship Boat Club- Requesting lease of certain land on the Harlem river at the foot of Lexington avenue for use of boat house. Referred to the Engineer-in-chief to examine and report.

From M. E. Staples, general agent New York, Lake Erie and Western Railroad Company --Requesting a lease of the west half of Pier 8, East river, for a term of ten years, with permission to rebuild shed and construct a temporary platform, etc., thereat. Referred to the Engineer-in-Chief to examine and report.

From P. Curley, Dock Master--In reference to complaint of Clark & Wilkins, respecting the use of pier foot of West Eleventh street, North river. The Dock Master directed to find a berth for hay barges complained of.

From Charles B. Husted, Dock Master--Reporting that pier foot of Fifteenth street, North river, requires cleaning.

From Charles H. Thompson, Dock Master--Reporting that Pier 12, East river, requires cleaning. The action of Commissioner Marshall in requesting the Department of Street Cleaning to clean said piers, was approved.

From Edward Abeel, Dock Master --Respecting claim for wharfage against the Inland Sea Transportation Company. The action of Commissioner Marshall in requesting the said company to pay the amount due, was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending February 4, 1888.

3d. Reporting that he had ordered that white oak spring piles at outer northerly corner of Pier thirty-fourth street, North river, be retastened at once and recommending that his action be approved.

On motion, the action of the Engineer-in-Chief was approved.

4th. Report on Secretary's Order No. 7404, in reference to the application of Bernard Sheridan for permission to erect a wooden structure north of Pier, new 46, North river. Application denied.

5th. Reporting amount of material excavated by the Union Dredging Company with Department dredges during the month of January, 1888. The Treasurer authorized to collect said amount from the Union Dredging Company.

6th. Report on Secretary's Order No. 7364, dredging required in front of the bulkhead between thirty-eighth and Seventy-ninth streets, East river. The Engineer-in-Chief directed to make requisition for dredging thereat as recommended in his report.

7th. Reporting that the canal-boat sunk in the slip between Thirty-ninth and Fortieth streets, North river, has not been removed. Engineer-in-Chief directed to remove.

8th. Report on Secretary's Order No. 7459, in reference to the application of the Western Telegraph Company to replace piles on the north side of Fourth avenue at Harlem River Road Bridge abutment. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

9th. Report on Secretary's Order No. 6911, that he had superintended repairing Pier, old 24, North river.

10th. Report on Secretary's Order No. 7347, that he had repaired Pier north of Eighty-sixth street, East river.

11th. Report on Secretary's Order No. 7356, that he had repaired Pier south of Eighty-sixth street, East river.

12th. Report on Secretary's Orders Nos. 7370 and 7371, that he had made requisition for dumping-board at East Thirty-eighth street, East river, and East One Hundred and thirty street, Harlem river, and supervised the work thereat.

13th. Report on Secretary's Order No. 7429, that he had superintended repairing and driving piles at Pier 17, East river.

14th. Report on Secretary's Orders Nos. 7315, 7319, 7320, 7321, 7322, 7323, 7328, 7329, that he had removed obstructions from Piers at Bogart street, Thirteenth, Sixteenth, Seventeenth, Fifty-first and Fifty-fifth streets, and bulkhead north and south of Seventy-ninth street, North river, and Pier at Eighty-sixth street, East river.

15th. Report on Secretary's Order No. 7463, that he had repaired Pier at Thirty-fourth street, North river.

16th. Report on Secretary's Order No. 7453, that he had superintended removing canal-boat at Fifty-fifth street, North river.

The Auditing Committee presented an audit of twenty-one bills or claims, amounting to \$23,428.19, which was approved and ordered to be spread in full on the minutes, as follows:

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

The resignation of Henry C. Reilly, Laborer, was,
in motion, accepted.

In motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks held February 10, 1888.

Present—Commissioners Stark and Marshall.

Absent—Commissioner Matthews.

The minutes of the meeting held February 9, 1888, were read and approved.

The following communications were received, read, and,

(On motion, ordered to be placed on file, action being taken where necessary, as stated,

From Comptroller of the City—Approving sureties of the Union Dredging Company estimate for dredging at Pier 7, East river.

From Counsel to the Corporation—Requesting a survey of premises at foot of Thirteenth East river. The action of the President in directing the Engineer-in-Chief to make a survey was approved.

From Department of Public Works—Reference to dumping on surface of Pier foot Fifteenth street, North river.

From Jeremiah Skidmore's Sons—Requesting permission to dredge in front of the lot between Thirty-fourth and Thirty-fifth streets, East river. The action of the President in granting the permit, the work to be done under the direction of the Engineer-in-Chief, was approved.

From Michael Kane—Requesting permission to drive piles within and near the south premises between Ninety-fifth and Ninety-seventh streets, East river. Permission granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

From Harlem and Morrisania Line—Requesting permit to drive fender piles in front foot of One Hundred and Thirtieth street, Harlem river. The action of the President in granting the permit, the work to be done under the direction and supervision of the Engineer-in-Chief was approved.

From Engineer-in-Chief :

1st. Repairs needed, bulkhead between Piers 47 and 48, East river.

2d. Additional repairs required at Pier 6, East river. The Secretary directed to notify York Central and Hudson River Railroad Company, lessees, to make the additional repairs as recommended by the Engineer-in-Chief of this Department, and under his direction an estimate.

3d. Report on Secretary's Order No. 7446, submitting survey of premises at the foot of Thirteenth street, East river. The President authorized to transmit said survey to the Council of the Corporation.

From Charles H. Pendergast, Dock Master—Reporting that repairs have been made to the bulkhead between Piers 47 and 48, East river.

The report of the Engineer-in-Chief respecting Laborer and Acting Watchman Patrick Sheahan, was,

On motion, taken from the table, ordered to be placed on file, and the said Sheahan suspended fifteen days, from February 3, 1888.

The communication from the Engineer-in-Chief, submitting plans, specifications and form of contract for removing pier and dumping-board at Forty-sixth street, East river, and building new pier, etc., thereat, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plans, specifications and form of contract, as prepared and submitted by the Engineer-in-Chief, for removing the existing pier and dumping-board at the foot of East Forty-sixth street, East river, and for repairing the bulkhead ; building a new crib-bulkhead, pier and a dumping-board thereat, be and hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements inviting estimates for doing said work inserted in the papers designated by law.

The Treasurer submitted the balance sheet for the month of January, 1888.

On motion, the President was authorized to transmit the same to the Comptroller of the City.

Upon reading and filing the application of Brown & Fleming, dated February 9, 1888, for permission to use a part of the Street Cleaning Department dumping-board at the foot of West Nineteenth street, North river, to take cellar dirt, the Department of Street Cleaning having consented thereto and the Board having duly considered the same,

Resolved, That license or permission be and the same is hereby granted to Brown & Fleming to use and occupy a part of the dumping-board assigned to the Department of Street Cleaning at the Pier foot of Nineteenth street, North river, for the purpose of receiving cellar dirt (the Department of Street Cleaning having consented thereto in writing), at the price of \$4 per day for each day, every day, Sundays included, payable at the end of the week to the Dock Master of the District. The said license or permission to continue during the will of the Board.

The report of the Engineer-in-Chief on Secretary's Order No. 7454, respecting the application of the Department of Street Cleaning for permission to use and occupy the southerly half of the pier at West Thirty-seventh street, North river, was received, read, and

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the whole width of the pier at the foot of West Thirty-seventh street, North river, for its outer 250 feet, be and hereby is assigned to the Board of Health for the uses and purposes of the official contractor.

Resolved, That, pursuant to the provisions of section 728, chapter 410 of the Laws of 1882, and in accordance with the request of the Commissioner of Street Cleaning, the inner 250 feet of

the southerly side of Pier foot of West Thirty-seventh street, North river, be and the same is designated and set apart for the use of the Department of Street Cleaning of the City of New

On motion, William Barr, Dock Builder, was reinstated.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held February 16, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the executive meeting held February 10, 1888, were read and approved.

The report of Dock Master respecting the obstructions on bulkhead at Ninety-sixth street, North river, was referred to executive session.

The report of the Engineer-in-Chief on Secretary's Order No. 7470, respecting the application of the New York, Lake Erie and Western Railroad Company for lease of one-half of Pier 8, North river, with permission to make certain improvements thereat, was referred to executive session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to w

From Comptroller of the City :

1st. Assenting to and approving of the deduction of \$50 from amount due Duncan A. Gil under Contract No. 255. The action of the President in notifying the Engineer-in-Chief approved.

2d. Desiring to be informed if any changes have been made or are contemplated at ferry landing foot of Roosevelt street, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Counsel to the Corporation - Respecting the settlement of claim with private owner dredging at Pier 14, East river. The Secretary directed to have the same recorded in the Book of Opinions.

From Department of Street Cleaning :

1st. Reporting obstructions on Pier 46, East river. The Secretary directed to advise that obstruction was removed on February 14th instant.

d. Stating that permission had been granted to Brown & Fleming to use a part of the dump-
ard at Nineteenth street, North river, and to John A. Bouker to use a part of the dumping-
s occupied by said Department at the foot of East Twenty-second street, East river.

From C. P. Huntington, lessee :

1st. Requesting permission to erect shed on Pier, new 37, North river, in accordance with plans
specifications.

2d. Requesting permission to place gangway bridges on Pier, new 37, North river, as shown on
submitted.

3d. Requesting permission to place spring piles, a continuous chock and beveled fender on
sides and along the end of Pier, new 37, North river, as shown on diagram submitted. The
action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Charles H. Tweed, Attorney Southern Pacific Company—Respecting merchandise on
bunk between Piers, new 36 and 38, North river, and stating that it will be removed as rapidly
possible.

From West Shore Railroad Company—Requesting permission to repair Pier 5, North river.
The action of the President in issuing a permit was approved.

From Peter Donnelly—Requesting berth at pier foot of Forty-sixth street, North river, for
storing manure. The action of the President in issuing a permit to continue during the will of the
pier, was approved.

From John Keating—Requesting permit for a temporary derrick on Pier foot of Seventy-ninth
street, North river. The action of the President in issuing a permit was approved.

From A. B. Johnson & Co.—Requesting permit to erect an office building on the easterly line
of First avenue, near the foot of East Ninety-sixth street, East river. The action of the President in
issuing a permit was approved.

From Department of Public Works—In reference to proposed exterior street from Sixty-fourth
Eighty-sixth street, East river. The action of the President in directing the Engineer-in-Chief to
examine and report was approved.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending February 11, 1888.

3d. Report on Secretary's Order No. 7482, furnishing the information desired by the Comptroller
regarding ferry landing foot of Roosevelt street, East river. Referred to Commissioner Marshall.

4th. Report on Secretary's Order No. 7481, in reference to the application of C. P. Huntington,
owner of Pier, new 37, North river, for permission to place gangway bridges on said pier. Permission
granted, the work to be done under the direction and supervision of the Engineer-in-Chief of this
Department and in accordance with the plans submitted.

5th. Report on Secretary's Order No. 7451, dredging required in the slip between West Thirty-
fourth and West Thirty-ninth streets, North river, and recommending that the owners of both halves
of the bulkhead be directed to dredge to fifteen feet depth at mean low water in front of their bulk-

heads, and that owners of Pier at West Thirty-ninth street be required to dredge to make fifteen feet depth at mean low water over half slip on south side of said pier.

On motion, the report was received and recommendation adopted.

6th. Report on Secretary's Order No. 7009, that he has been unable to secure any evidences to who damaged the cluster of piles at Pier 59, East river.

7th. Report on Secretary's Order No. 7444, that he had directed and superintended changing termini of cable crossing and erection of cable boxes at One Hundred and Twenty-ninth street, Harlem river.

8th. Report on Secretary's Order No. 7418, that he had supervised dredging in the half slip adjoining the lower side of Pier 62, East river.

9th. Report on Secretary's Order No. 7091, that he had supervised dredging at the easterly end of ferry bridge at the foot of Ninety-second street, East river.

10th. Report on Secretary's Order No. 7462, that he had superintended repairing Pier 16, North river.

11th. Report on Secretary's Order No. 7424, that he had superintended removing canal-boat sunk in slip between Piers, new 37 and 38, North river.

From Charles H. Thompson, Dock Master—Reporting dredging required westerly side of Pier 10, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From P. J. Brady, Dock Master—Reporting sunken canal-boat at Thirty-ninth street, North river. The action of the President in directing the Secretary to notify the owners to remove was approved.

From P. Cunley, Dock Master—In reference to boilers on the bulkhead between Piers, new 32 and old 39, and also respecting the new made land between Piers, new 35 and 41, North river.

From P. J. Brady and E. Abbel, Dock Masters—Reporting that carts of the Department of Street Cleaning dumped snow on Pier at Thirty-fourth street, North river, and snow mixed with dirt off the bulkhead between Piers 18 and 19, East river. The action of the President in sending copies of said reports to the Department of Street Cleaning, was approved.

From David W. Bogert, Dock Master—Reporting spring pile loose on south side Pier, old 33, North river. The Engineer-in-Chief directed to repair.

The report of the Engineer-in-Chief on Secretary's Order No. 7464, respecting the proposed improvement of ferry premises foot of Whitehall street, East river, by the Staten Island Rapid Transit Railroad Company, was,

On motion, referred back to the Engineer-in-Chief for further examination and report.

The report of the Engineer-in-Chief on Secretary's Order No. 7468, respecting the acquiring of certain bulkhead or wharf property on the Harlem river, between Ninety-second and One Hundred and Ninth streets, was,

On motion, referred to Commissioner Marshall.

owing resolution was,

on, adopted :

, That the resolution adopted by the Board on the 5th day of January, 1888, giving the New York Central and Hudson River Railroad Company to occupy certain land belonging to the City, be amended to read, as follows :

, That permission be and hereby is given to the New York Central and Hudson River Company to occupy a certain area of land under water belonging to the City of New York, eight thousand five hundred and ninety-eight square feet, situated between Piers, old North river, and at present covered by a platform, said permission to continue only in and pleasure of the Board of Docks, provided that the said company shall agree to compensation for the occupancy of such land under water, the sum of twenty-five cents per square foot, to begin on January 1, 1888, payment to be made to the Treasurer of Docks at the expiration of every three months or for such time as the said New York Hudson River Railroad Company may occupy the premises referred to ; and provided structures erected on said land under water shall revert to and become the property of the City on the expiration or termination of this permit ; and further provided that the said New York Hudson River Railroad Company shall file an assent in writing within ten days from the date of this resolution to all the terms and conditions thereof.

Report of the Engineer-in-Chief on Secretary's Order No. 7479, respecting the application of C. P. Huntington, lessee of Pier, new 37, North river, for permission to place spring piles, chocks along the sides and end of said Pier, was

on, ordered to be placed on file, and the following resolution was adopted.

1, That permission be and hereby is granted to C. P. Huntington, lessee of Pier, new 37, North river, to place temporary spring piles, chocks and fenders along the sides and end of said Pier, work to be done under the direction and supervision of the Engineer-in-Chief of this City, it being expressly agreed and understood that the said spring piles, chocks and fenders shall remain thereat only during the pleasure of this Board, and to be removed whenever ordered by the said Board ; provided the said C. P. Huntington shall within five days from date of this office an agreement in writing to remove the same whenever ordered to do so by the said Board.

Accounting Committee presented an audit of one claim, amounting to \$3,022.89, which was ordered to be spread in full on the minutes, as follows :

Construction Account.

Name.	Amount.
John A. Gillies, Estimate No. 2 and final Contract No. 255	\$3,022 89

JAMES MATTHEWS,
CHARLES H. MARSHALL, } Auditing Committee.

on, the President was authorized to transmit said claim, with proper requisition for the same to the Finance Department for payment.

On motion, the President was authorized to transmit to Hon. Abram S. Hewitt, Mayor for the quarter ending February 1, 1888.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week February 15, 1888, amounting to \$62,023.76, which was,

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks held February 17, 1888.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meeting held February 16, 1888, were read and approved.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Simon Stevens, attorney—Respecting bill for dredging half slip next to the westerly side of Pier 14, East river.

From Hoboken Land and Improvement Company—Requesting permission to remove cluster of piles which were driven in front of the centre pin in Barclay street ferry-slip and strengthen the main centre pin with additional piles. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Joseph F. Gallagher, requesting permission to fill in behind crib-work between East One Hundred and Fourteenth and East One Hundred and Fifteenth streets, Harlem river.

From John J. Ryan, Dock Master—Respecting obstructions on bulkhead north of West Ninety-ninth street, North river. Referred to Commissioner Marshall.

From Engineer-in-Chief :

1st. Reporting completion of extension to Storehouse Pier on Blackwell's Island, East river, under Contract No. 255.

2d. Reporting completion of Pier, new 37, North river, by the Pacific Improvement Company under Contract No. 257.

The report of the Engineer-in-Chief on Secretary's Order No. 7390, submitting plans, specifications and form of contract for building a new pier at the foot of West Fifty-first street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plans, specifications, and form of contract, as prepared and submitted to the Engineer-in-Chief of this Department, for removing the existing Pier foot of West Fifty-first street, North river, and for building a new wooden pier in place thereof, be and hereby are approved subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and he is directed to have a sufficient number of blank forms of proposals printed, and proper advertisements inviting estimates for doing the said work inserted in the papers designated by law.

The report of the Engineer-in-Chief on Secretary's Order No. 7490, in reference to the application of the Hoboken Land and Improvement Company, for permission to remove piles, etc., in wharf slip at Barclay street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the Hoboken Land and Improvement Company to remove cluster of piles in front of centre pin at ferry premises, foot of Barclay street, North river, and strengthen the main centre pin with additional piles. The said work to be under the direction and supervision of the Engineer-in-Chief of this Department ; it being expressly agreed and understood that this permission, and anything done under it, shall not affect the amount now payable by said company for the use of land under water covered by ferry structures and appurtenances, situated westerly of the easterly line of West street, in accordance with the resolution adopted by the Board on the 14th of May, 1887.

The following resolution was,

On motion, adopted.

Resolved, That permission be and hereby is given to the Old Colony Steamboat Company to occupy a certain area of land under water, belonging to the City of New York, along the south side of Pier, old 28, North river ; 9 $\frac{8}{10}$ feet wide on the westerly line of West street, and 56 feet wide, 56 feet westerly of said westerly line of West street, and amounting to 3,136 square feet, at present covered by a platform ; said permission to continue only during the pleasure of the Board of Docks ; provided, that the said company shall agree to pay as compensation for the occupancy of such land under water, the sum of twenty-five cents per annum per square foot, to begin on October 27, 1887, payment to be made to the Treasurer of the Board of Docks at the expiration of every three months or for such time as the said Old Colony Steamboat Company may occupy the premises referred to, and provided, that all structures erected on such land under water shall revert to and become the property of the City on the revocation or termination of this permit, and further provided, that the said Old Colony Steamboat Company shall assent in writing within ten days from the date of this resolution, to all the terms and conditions thereof.

[FEBRUARY 17, 1888.]

The Treasurer, Commissioner Matthews, reported that he had received the following estimates furnishing the Department with 550 white, yellow pine, spruce or cypress piles.

	450 piles, 65 to 70 feet.	100 piles, 70 to 75 feet.
J. Murray	\$11 00 each.	\$14 00 each.
James B. Carman	11 40 "	14 70 "
and & Kempland	11 25 "	14 25 "

And recommended that the order for furnishing the same be awarded to A. J. Murray, he being lowest bidder.

On motion, the report was received and recommendation adopted.

On motion, the permit issued on May 4, 1887, to Kennedy, Reinhart & Co., to place an ice bridge on the approach to Pier at West Twenty-ninth street, North river; and the permit issued to E. Bean, May 26, 1887, to place an ice bridge on the bulkhead foot of East Forty-second street, North river, were revoked.

The Auditing Committee presented an audit of one bill or claim amounting to \$5,939.68, which was approved, and,

On motion, ordered to be spread in full on the minutes, as follows:

No.	Name.	Amount.
236.	Ranald Gillies, Estimate No. 2, Contract No. 256.....	\$5,939 68

RECAPITULATION.

Bill or Claim on Construction Account, amounting to.....	\$5,939 68
--	------------

Respectfully submitted,

JAMES MATTHEWS,
CHARLES H. MARSHALL, } Auditing Committee.

On motion, the President was authorized to transmit said claim, with requisition for the amount, to the Finance Department for payment.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held February 23, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the executive meeting held February 17, 1888, were read and approved.

The following opinions from the Counsel to the Corporation, were,

On motion, laid on the table for further consideration and the Secretary directed to have same recorded in the Book of Opinions :

1st. In reference to the renewal of the lease of Pier, new 38, North river, to the Williams Guion line.

2d. In reference to the assignment of the contract made by Michael Nolan and William Nolan for furnishing granite to the Department.

3d. Respecting the obligations of holders of water grants on the Harlem river to improve property.

The application of A. W. Cruikshank for lease of a Pier on the North river, between Deshr and Christopher streets, and the communication from C. P. Huntington requesting lease of Pier, 38, North river, were,

On motion, laid on the table.

The report of the Engineer-in-Chief on Secretary's Order No. 7281, dredging required in north of Pier 61, East river, and in front of bulkhead between Piers 61 and 62, East river, was,

On motion, laid on the table.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit

From Fire Department—In relation to the berthing of boats at end of Pier foot of West Thirteenth street, North river. The President authorized to send a copy of the Dock Master's report to the Fire Department, and request them to place on said pier a receptacle for holding the oil similar to the one on Pier 48, East river.

From Counsel to the Corporation :

1st. Approving form of contract for building Pier, new 25, North river.

2d. In relation to the acquisition of water-front property between Ninety-fifth and Ninety-sixth and One Hundredth and One Hundred and First streets, East river. The action of Commissioner Marshall in directing the Engineer-in-Chief to furnish the required information was approved.

3d. Transmitting form of lease of site for Pier at the foot of West Fifty-ninth street, North river with his approval as to form endorsed thereon.

On motion, the President, Treasurer and Secretary, were authorized to execute said lease *behalf of the Mayor, Aldermen and Commonalty of the City of New York.*

From Ocean Steamship Company of Savannah—Requesting permission to build a suspended barge walk in shed on Pier, new 35, North river, as shown on plans and specifications submitted. Referred to the Engineer-in-Chief to examine and report.

From Dennis Devine—Requesting berth for loading manure at Pier foot of West Forty-sixth st, North river. The action of the President in issuing a permit was approved.

From J. A. Bostwick—Requesting permission to enlarge Pier 45, East river, in accordance with plans and specifications. The action of the President in directing the Engineer-in-Chief to examine report was approved.

From West Shore Railroad Company—Requesting permit to repair Pier, new 1, North river. The action of the President in issuing a permit, under the usual conditions, was approved.

From George W. Plunkitt—Requesting use of bulkhead foot of West Fifty-second street, North river. Referred to the President.

From Kane & Wright—Requesting use of bulkhead foot of East Forty-second street, East river. Referred to the Dock Master to examine and report.

From Old Colony Steamboat Company—Agreeing to the terms and conditions of resolution adopted February 17, 1888, respecting the occupancy of 504 square feet of land under water south of Pier, old 28, North river.

From John J. Coleman—Requesting permission to fill in at East One Hundred and Fifteenth st, Harlem river.

From New York Central and Hudson River Railroad :

1. Respecting measurement of land under water between Piers, old 27 and 28, North river,
2. In relation to claim for land under water between Piers, old 25 and 26, and 26 and 27, North river. Referred to Commissioner Marshall.

From C. P. Huntington, lessee—Agreeing to the terms and conditions of resolution adopted on 17th instant, respecting spring piles, etc., at Pier, new 37, North river.

From Edward Gilon, Chairman Board of Assessors—In reference to conferring with the Commissioners.

From Gomez & Pearsall and Hipolito Dumois—Requesting a pier for accommodation of fruit merchants.

From Henry Keteltas—Requesting a permit to drive piles at bulkhead between Jackson and Nassau streets, East river. The action of the President in issuing a permit under the usual conditions was approved.

From Charles H. Thompson, Dock Master—Reporting that the crib filling has fallen in west of Pier 7, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From E. Abeel, Dock Master—Reporting that Piers 19, new 32, 43 and 44, East river, require cleaning. The action of the Secretary in requesting Department of Street Cleaning to clean was approved.

From P. Curley, Dock Master—Reporting repairs required to Pier, new 43, North river. action of the President in directing the Engineer-in-Chief to examine and repair, if necessary, was approved.

From Joseph B. Erwin, Dock Master—Reporting sunken canal-boats near the west end of at Forty-eighth street, North river. The action of the Secretary in notifying the owners to remove was approved.

From Charles B. Husted, Dock Master—In reference to the complaint of the Fire Dept. respecting obstructions, etc., at Pier foot of West Thirteenth street, North river.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending February 18, 1888.

3d. Report on Secretary's Order No. 7466, transmitting diagrams of ferry premises, at Desbrosses and Cortlandt streets, North river. The President authorized to transmit said diagrams to the Comptroller.

4th. Report on Secretary's Order No. 7484, respecting the communication received from General Newton in reference to the proposed exterior street, from Sixty-fourth to Eighty-sixth street, North river. The President authorized to send a reply to General Newton in accordance with the action of the Engineer-in-Chief.

The Treasurer reported that he had received the following estimates for furnishing the Department with stationery :

George W. Lane	\$214 65	John H. Gresham	\$1
William H. Clark	221 50	Douglas Taylor	1
Martin B. Brown	223 75		

and recommended that the order for furnishing the same be awarded to George W. Lane.

On motion, the report was received and recommendation adopted.

The Auditing Committee presented an audit of twenty-nine bills or claims amounting to \$38,508.90, which was approved and ordered to be spread in full on the minutes, as follows :

Article No.	Name	Amount
10037.	Union Dredging Co., dredging	\$7.7

JAMES MATTHEWS, Treas

On motion, the Board adjourned.

G. KEMBLE, Secre

At an executive meeting of the Board of Docks, held February 23, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The communication from Smith Clift, executor of the estate of Stuart F. Randolph, deceased—reference to the dredging required in the southerly half of the slip between West Thirty-eighth and Thirty-ninth streets, North river, and requesting the Board to do the dredging required thereat and the Department dredges at the foot of said street, and agreeing to pay his share of said dredging, was,

On motion, ordered to be placed on file and the Engineer-in-Chief directed to make requisition for the dredging thereat and report the cost for collection from Smith Clift, executor of said estate.

The application of Edward Roach, Dock Builder, for reappointment, was,

On motion, ordered to be placed on file, and the said Edward Roach was appointed Dock Builder.

On motion, Joseph Ryan was appointed Dock Builder.

Commissioner Matthews reported that insurance for \$50,000 had been effected on Pier A, including the structure thereon and the furniture, fixtures, etc., therein, for three years, commencing February 18, 1888, 12 o'clock M. and ending February 18, 1891, 12 o'clock M., at the rate of five cents per hundred dollars, in the following insurance companies, viz. :

Man-American.....	\$20,000 00
Travich	20,000 00
Continental.....	10,000 00

The following preamble and resolutions were,

On motion, adopted :

Whereas, A resolution was adopted by the Board governing this Department on the 6th of April, 1887, as follows :

Resolved, That permission be and hereby is granted to Polhemus & Winne to use and occupy the will of this Board, one hundred and ten feet of the bulkhead between Piers, new 35 and North river, with the privilege of erecting a temporary platform scales and weigh office thereon, for the purpose of receiving and discharging ice thereat, at the rate of \$150 per month, payable in advance, commencing Monday, April 11. 1887, and be it further

Resolved, That this permit is for a temporary platform only, and is revocable at any time by the Board governing the Department of Docks ; and

Whereas, It appears that the said permission was granted on condition that it should continue during the will of the Board ; therefore be it

Resolved, That the above resolution be and is hereby rescinded to take effect on the 1st March,

Whereas, Upon reading and filing the application of George W. Plunkitt, dated February 1888, for permission to use the bulkhead at the foot of West Fifty-second street, North river, cellar dirt, and the Board having duly considered the same ; it was

Resolved, That license or permission be and the same is hereby granted to George W. Plunkitt to use and occupy the bulkhead at the foot of West Fifty-second street, North river, for the purpose of receiving cellar dirt at the price of three dollars per month, payable at the end of each month to the Dock Master of the district ; the said license or permission to continue only during the term of the Board, commencing February 24, 1888.

On motion, the Board adjourned.

G. KEMBLE, Secretary

At a meeting of the Board of Docks held March 1, 1888.

Present—Commissioners Stark and Matthews ; absent, Commissioner Marshall.

The minutes of the meetings held February 23, 1888, were read and approved.

The communication from Hon. Abram S. Hewitt, Mayor, respecting renewal of the lease of Pier, new 38, North river, was.

On motion, laid on the table.

The communication from the Inland and Seaboard Coasting Company, was.

On motion, laid on the table.

The partial report of the Engineer-in-Chief on Secretary's Order No. 7491, respecting application of J. A. Bostwick to make certain changes to Pier 45, East river, was.

On motion, laid on the table.

The following communications were received, read, and.

On motion, ordered to be placed on file, action being taken where necessary, as stated.

From Counsel to the Corporation :

1st. Approving contract for furnishing the Department with granite stone for bulkhead wall.

2d. Approving contract for building Pier 60, East river, and repairing crib-bulkhead.

3d. Approving of the contract for transcribing printing and binding the minutes of the Board from May 2, 1870, to April 28, 1877, inclusive.

4th. Returning the papers used in the suit against J. and R. Darrow.

From Department of Public Works—Requesting the Board to set apart one pier on the North East river in convenient and central location for exclusive use for the supply of water to ships. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From M. Carroll, Jr., agent—Requesting a permit for berth at Pier foot of West Thirty-seventh street, for loading manure. Referred to the Dock Master to examine and report.

From Inman and International Steamship Company—Requesting an extension of time to their proposition respecting use of Pier, new 43, North river.

On motion, the time was extended to March 10, 1888.

From Comptroller of the City—Stating that the lease of the Roosevelt and all other ferries that may be affected by the new plans of the improvement of the water front, contain the provisions suggested by the Department.

From Department of Street Cleaning—In reference to and objecting to the assignment of the new two hundred and fifty feet of the southerly side of Pier at West Thirty-seventh street, North river. Referred to the Engineer-in-Chief.

From Central Railroad Company of New Jersey—Requesting permission to widen Pier 13, North river, in accordance with plan submitted. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From George De Forest Lord, attorney—Requesting an interview respecting the lease of Pier, new 40, North River, to the Cunard Steamship Company. The action of the President in postponing interview until the return of Commissioner Marshall was approved.

From James Shewan—Requesting permission to replace two piles on the south side of Pier 62, North river. The action of the President in issuing a permit under the usual conditions and with the understanding that the permit shall not be construed as acknowledging any right, title or interest of James Shewan or any other alleged owner to said pier was approved.

From Richard Henderson, agent Anchor Line. In relation to berth for the steamship "City of Rome." Referred to Commissioner Marshall.

From Charles H. Tweed, attorney Southern Pacific Company—In relation to vacating Pier, old 36, North river. The Secretary directed to advise that the Department are prepared to commence at once the work of building Pier, new 25, North river, and the Commissioners expect that they will surrender and vacate Pier, old 36, North river, in accordance with their agreement dated September 27, 1887.

From Captain and citizen—Reporting that stones are dropped overboard at Pier and bulkhead foot of West Seventy-ninth street, North river. The action of the Secretary in directing the Dock Master to examine and report was approved.

From J. A. Bostwick—Requesting permit to enlarge Pier 45, East river, in accordance with the plans and specifications submitted. Referred to the Engineer-in-Chief to examine and report.

From George W. Plunkitt—Requesting permission to drive piles at the foot of West Fifty street, North river. The action of the President in issuing a temporary permit under the conditions, was approved.

From A. M. Underhill & Co., Agents Guion Line—Requesting copy of resolution January 30, 1878. The action of the Secretary in sending said copy was approved.

From Pennsylvania Railroad Company—Objecting to the loading of manure at Pier West Thirty-fifth street, North river. The action of the President in directing the Dock 3 the district to examine and report was approved.

From Staten Island Rapid Transit Railroad Company—Requesting permission to alter the wharf and ferry structures at the foot of Whitehall street, in accordance with the plan submitted. Referred to the Engineer-in-Chief to examine and report.

From P. J. Brady, Dock Master—Reporting that M. Carroll, Jr., has stopped loading at Pier foot of Thirty-fifth street, North river. The Secretary directed to send copy of said report to the Pennsylvania Railroad Company.

From P. Curley, Dock Master—Reporting repairs required to approach to Pier, new 46 river. The action of the President in directing the Engineer-in-Chief to repair, if necessary, was approved.

From John J. Ryan, Dock Master—Reporting that dredging is required in front of the head from West Seventy-eighth to West Seventy-ninth street, West Seventy-ninth to West Eighty street, at Pier foot of West One Hundred and Thirtieth street, and south side of Pier at West One Hundred and Thirty-first street, North river. Referred to the Engineer-in-Chief to examine and report.

From Charles H. Pendergast, Dock Master—Reporting spring piles loose on outer lower Pier 48, East river, and reporting the caving in of bulkhead between Piers 47 and 48, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From George A. Dearborn, Dock Master :

1st. Reporting that a horse and cart backed into the river at end of Pier, foot of East Sixty-ninth street, East river. The Dock Master directed to report as to the condition of backing said Pier and furnish the Department with a list of the persons who witnessed said accident, together with their addresses and such other information in respect thereto as he may be able to obtain.

2d. Reporting repairs required to bulkhead adjoining Pier north of East Eighty-sixth street, East river. The action of the President in directing the Engineer-in-Chief to repair, if necessary, was approved.

3d. Reporting repairs required at the dumping-board foot of East Eightieth street, East river. The Engineer-in-Chief directed to repair.

4th. Reporting fender-pile broken in front of bulkhead north of East Eighty-sixth street, East river. The action of the President in directing G. F. & E. C. Swift to repair was approved.

From Engineer-in-Chief :

- a. Reporting assignment of employees to special duty.
- b. Reporting the amount of work done during the week ending February 25, 1888.
- c. In reference to repairs required to pavement in front of Pier, new 37, North river. The Engineer-in-Chief was directed to notify C. P. Huntington, lessee, to repair, or advise him that the Department will do the said paving at his cost and expense, if desired.
- d. Repairs required to superstructure Pier, new 21, North river. The action of the President directing the Engineer-in-Chief to repair, as recommended in his report, was approved.
- e. In reference to the dump at East Twenty-second street, East river. The Secretary was directed to notify the Consolidated Gas Company to remove sunken canal-boat in front of platform at the earliest possible date. The Engineer-in-Chief directed to do the dredging and clearing thereat, as recommended in his report.
- f. Report on Secretary's Order No. 7494, in reference to the repairs required to Pier 7, East river. The Engineer-in-Chief directed to repair as recommended in his report.
- g. Report on Secretary's Order No. 7496, that he had furnished the Counsel to the Corporation the desired information respecting the water-front between Ninety-fifth and Ninety-sixth and One Hundredth and One Hundred and First streets, Harlem river. By motion, his action was approved.
- h. Report on Secretary's Order No. 7239, respecting bulkhead at Store-house Pier, Blackwell's street, East river.
- i. Report on Secretary's Order No. 7308, that he had placed a sign of "danger" on the pile-work on the remainder of the crib-work of Pier 59, East river.
- j. Report on Secretary's Order No. 6545, that he had superintended repairing Croton pipe on Pier, new 43, North river.
- k. Report on Secretary's Order No. 5976, that he had superintended the running of a sewer through the bulkhead at the foot of Eighth avenue, Harlem river.
- l. Report on Secretary's Order No. 7438, that he had superintended the removal of canal bank in slip between Piers, new 61 and 62, North river.
- m. Report on Secretary's Order No. 7430, that he had superintended repairing ferry-rack, Chambers street, North river.
- n. Report on Secretary's Order No. 7497, that he had superintended driving piles, Pier, new 31, North river.
- o. Report on Secretary's Order No. 7160, that he had supervised the erection of an extension to the northerly fender-rack of the freight transfer bridge at the foot of Sixty-ninth street, North river.
- p. Report on Secretary's Order No. 7478, that he had superintended replacing piles at Pier 61, North river.

17th. Report on Secretary's Order No. 6833, that he had superintended the erection of bulkhead between One Hundred and Seventeenth and One Hundred and Eighteenth Harlem river.

18th. Report on Secretary's Order No. 7393, that he had superintended filling in bulkhead Pier 15, East river.

19th. Report on Secretary's Order No. 7208, that he had superintended repairs at North river.

20th. Report on Secretary's Order No. 7417, that he had superintended raising and removing canal-boat sunk at Ninety-sixth street, North river.

The application of A. B. Johnson & Co., for permission to dig holes for four derricks erected on the bulkhead between Ninety-fifth and Ninety-sixth streets, East river, was received together with the report of the Engineer-in-Chief on Secretary's Order No. 7502, ordered placed on file, and the action of the President in issuing a permit was approved.

The application of the Department of Street Cleaning for the assignment of bulkhead at Fifty-fourth street, East river, was received, and, with the report of the Dock Master in relation thereto, referred to the Engineer-in-Chief to examine and report.

The report of the Engineer-in-Chief on Secretary's Order No. 7480, approving of the plans and specifications submitted by C. P. Huntington, for the erection of a shed on Pier, new 37, North river, was,

On motion, ordered to be placed on file, and the following resolutions were adopted :

Resolved, That under and by virtue of the powers vested in this Board by section 716, chapter 410, Laws of 1882, and upon the application of C. P. Huntington, lessee, and in pursuance of the terms and conditions as announced at the public sale of the lease therefor on April 27, 1887, and in accordance with the agreement made by and between said C. P. Huntington and the City of New York, by the Department of Docks, dated the 4th day of August, 1887, and filed in the Department of Docks, Pier, new No. 37, North river, be and it hereby is appropriated to the sole use of the special kind of commerce carried on by steam transportation.

Resolved, That permission be and hereby is granted to C. P. Huntington, lessee of Pier, new No. 37, North river, to erect and maintain thereon a shed for the protection of property received and discharged thereat, by means of steam transportation, the said shed to be constructed subject to the regulations required by chapter 249, Laws of 1875, and in conformity with the requirements of the Building and Fire Laws of the City of New York, and in accordance with the plans and specifications therefor submitted to the Board by the said C. P. Huntington, lessee, as approved by the Engineer-in-Chief of this Department, and which are hereby approved of by this Board and ordered to be placed on file in the office of this Department, provided that all the work in the construction of the same shall be done under the supervision, direction and approval of the Engineer-in-Chief and further provided that the said C. P. Huntington, lessee, shall file with this Department, within fifteen days after the receipt hereof, a written agreement, assenting to the terms and conditions hereof and agreeing that the said shed shall revert to and become the property of the Corporation of the City of New York upon the expiration or sooner termination of the lease to him of the said Pier, or the renewal term thereof, free of all claims of every kind whatsoever.

of the Engineer-in-Chief on Secretary's Order No. 7483, on dredging required in the piers 10 and 11, East river, and recommending that a depth of twenty-five feet be made between Piers 10 and 11, East river, and that a depth of fifteen feet be made in bulkhead between said piers, was,

ordered to be placed on file and the following resolution adopted :

That the alleged owner or owners of the east half of Pier 10, East river, and of the pier 11, East river, be and are hereby directed to dredge the half slips adjoining their piers to a depth of twenty-five feet at mean low water, and that the alleged owner of the bulkhead between Piers 10 and 11, East river, be and are hereby directed to dredge the above-mentioned bulkhead to a depth of fifteen feet at mean low water, as recommended by the Engineer-in-Chief of this Department, the work to be done under his supervision.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending March 1, 1888, amounting to \$3,270.67, which was received and ordered to be spread in full on the following :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

Attest, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held March 2, 1888.

Present—Commissioners Stark and Matthews ; absent, Commissioner Marshall.

The minutes of the meeting held March 1, 1888, were read and approved.

The report of the Engineer-in-Chief on Secretary's Order No. 7510, in reference to the action of the Central Railroad Company of New Jersey, for permission to increase the width of the North river, was,

On motion, laid on the table, and the Secretary directed to request the President of said company to call on the Commissioners.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to

From Kane & Wright—Requesting the use of bulkhead foot of East Forty-second street river, for receiving manure during the rebuilding of the Pier foot of East Forty-sixth street, East

On motion, the said application was denied.

From Engineer-in-Chief :

1st. Reporting non-commencement of dredging at east side of Third Avenue Bridge, East river.

On motion, Secretary's Order No. 4117, issued on the 24th of January, 1885, was revoked. The Engineer-in-Chief directed to examine and report the dredging required thereat.

2d. Reporting damage to propeller wheel of the tug "Manhattan," and recommending the said wheel be balanced immediately, and a new one made and put on as soon as possible

On motion, the report was received and recommendation adopted.

3d. Report on Secretary's Order No. 7441, enclosing report of cement tested for E. W. The Secretary directed to send him copy of said test.

The following preambles and resolutions were,

On motion, adopted :

Whereas, By the resolutions of the Commissioners of the Sinking Fund, adopted July 9, 1868 and September 17, 1886, the Comptroller was authorized and directed to prepare and issue from time to time, Dock bonds to meet the requirements of the Department of Docks to the amount of millions of dollars to raise money for the uses and purposes of the Department of Docks as set forth in said resolutions ; and

Whereas, The Comptroller has issued only \$1,200,000 of said bonds, and there is still in his authority to issue the remaining \$800,000 as provided for in said resolutions ; and

Whereas, The moneys realized from the sale of the said bonds as aforesaid are now nearly expended and there is pressing and immediate necessity that sufficient funds should be placed to the credit of this Department to enable it to prosecute its work ; therefore, be it

Resolved, That the said Comptroller be and he is hereby requested to prepare and issue the remaining \$800,000 Dock bonds as authorized and directed by the Commissioners of the Sinking Fund as aforesaid, and that he the said Comptroller place the avails thereof to the credit of the Department of Docks, as provided by law.

On motion, the time to receive estimates for removing all that part of Pier, old 36, at the foot of Moore street, North river, with the shed thereon, which lies westerly of a line about fifty feet westerly of the new bulkhead line, except the crib-work below low water-mark, and preparing and building a new wooden pier along the northerly side of the site of said Pier, old 36, to be known as Pier, new 25, North river, was postponed from March 6, 1888, until otherwise ordered by the Board, and the Secretary directed to withdraw said notice from publication in the CITY RECORD.

The following resolution was adopted :

Resolved, That the Engineer-in-Chief be and hereby is directed to build a temporary approach to Pier, old 36, North river, to extend from the existing crib-bulkhead about ninety feet outside of established bulkhead line.

On motion, the appointments of Edgar B. Gosling, Assistant Engineer ; John C. Wood, Engineer "Manhattan," William H. Reilly, Sounder, and Andrew McC. Parker, Assistant Engineer, in accordance with Regulation 36 of the Civil Service Regulations, made permanent.

On motion, Marcus Cane, Janitor, of West Fifty-seventh street Yard, was discharged.

On motion, the following appointments were made :

Dock Builders.

Walter Hillis,
Thomas Love,

Frederick Eckstein.

Laborers.

Marcus Cane,
William Doyle,
James Dunning,
Michael Carney,
Michael Zeigler,

Bartholomew Murphy,
Thomas Murphy,
William Woodbridge,
Edwin S. Phillips,
Martin Flanagan.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held March 8, 1888.

Present—Commissioners Stark and Matthews ; absent, Commissioner Marshall.

The minutes of the executive meeting held March 2, 1888, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated to wit :

From Kane & Wright—Requesting use of Pier at East Forty-eighth street, East river, and the rebuilding of Pier at East Forty-sixth street, East river.

From Engineer-in-Chief :

1st. Reporting that he had directed that Laborer and Acting Watchman John J. Deane be not again assigned to duty as Acting Watchman. Referred to Executive Session.

2d. Report on Secretary's Order No. 7517, in reference to the application of the Staten Island Rapid Transit Railroad Company for permission to alter ferry premises, foot of Whitehall street, East river.

The following communications were received, read and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to

From Counsel to the Corporation :

1st. Enclosing copy of order in the case of Joseph L. Liscomb against the Department requesting information in relation thereto. The action of the President in sending the desired information was approved.

2d. Suggesting that the Board, in sending communications, will hereafter send separate letters on every particular topic or piece of property that may be referred to.

3d. Requesting itemized statement of the cost of repairs to tug "Manhattan" damaged in collision with the ferry-boat "Flushing." The action of the President in replying thereto was approved.

4th. Approving contract for building pier and bulkhead foot of East Forty-sixth street, East river.

From Theodore W. Myers, Comptroller :

1st. Requesting an interview with the Commissioners respecting the issue of Dock bonds. The action of the President in conferring with the Comptroller was approved.

2d. Requesting diagram of ferry premises foot of Roosevelt street, East river. The action of the President in directing the Engineer-in-Chief to prepare said diagram was approved.

From Hanson & Crombie—Requesting use of bulkhead foot of Ninety-third street, East river. Referred to the Dock Master to examine and report.

From William Duryea, for himself and other owners—Requesting permit to put a backing-log the bulkhead between Piers 52 and 53, East river. Permit granted under usual conditions.

From Friendship Boat Club—Requesting a permit to drive ten piles between Lexington and 4th avenues, at or near One Hundred and Thirty-second street, Harlem river. The action of the President in issuing a permit (the piles to be removed whenever ordered by the Board of Docks) is approved.

From Pennsylvania Railroad Company—Requesting permit to plank over the space in front of newly filled-in ground in front of Pier, new 27, North river. The action of Commissioner of Docks in issuing a permit, under the usual conditions, was approved.

From Thomas F. White—Requesting permission to erect a temporary office for the use of police graph, and also a board fence on portion of Pier foot of West Thirty-seventh street, North river, and to the Health Department. Referred to the Engineer-in-Chief to examine and report.

The President reported that he had directed the Engineer-in-Chief to examine and report on the following applications:

From J. A. Bostwick—For permission to erect platform in front of bulkhead property on either side of Pier 45, East river, in accordance with plans and specifications submitted.

From West Shore Railroad—For permission to lay railroad tracks in the rear of the bulkhead between Thirty-sixth and Thirty-seventh streets, North river, as shown on map submitted.

From Gas Engine and Power Company—For permission to erect a platform at Morris Dock station, Harlem River, in accordance with plans and specifications.

On motion his action was approved.

From Engineer-in-Chief:

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending March 3, 1888.

3d. Reporting non-commencement of dredging south of One Hundred and Fifty-first street, Harlem river, and recommending that the permit for doing said work be revoked.

On motion, the report was received and recommendation adopted.

4th. Reporting non-commencement of dredging in slip adjoining north side of Pier at One Hundred and Twenty-ninth street, North river, as ordered.

On motion, the order to dredge thereat, Secretary's Order No. 6049, dated February 27, 1886, was revoked.

5th. Reporting that extensive filling-in is going on in the vicinity of One Hundred and Thirty-third street and east side of Fourth avenue. The action of the Secretary in directing the Dock Master to stop said filling-in was approved.

6th. Reporting repairs required to Pier at One Hundred and Fifty-second street, North river. The action of the President in notifying John A. Bouker, lessee, to repair, was approved.

7th. Reporting ownership of the undivided one-half of Pier 26, East river.

8th. Report on Secretary's Order No. 7504, repairs required to cluster of piles on outer and lower side of Pier 48, East river. The action of the President in directing the Engineer-in-Chief to repair was approved.

9th. Report on Secretary's Order No. 7505, repairs required to bulkhead between Piers 47 and 48, East river. The action of the President in directing the alleged owners to repair was approved.

10th. Report on Secretary's Order No. 7512, in reference to the application of the Department of Street Cleaning, for use of bulkhead at Fifty-fourth street, East river, during the rebuilding of Pier at Forty-sixth street, East river. The Engineer-in-Chief directed to examine and report as to the feasibility of erecting a temporary dumping-board at the foot of East Forty-eighth street, East river, for the use of the Department of Street Cleaning during the rebuilding of Pier foot of East Forty-sixth street, East river.

11th. Report on Secretary's Order No. 7526, in reference to the application of J. A. Bostwick, for permission to erect platform at bulkhead adjoining Pier 45, East river. Referred back to the Engineer-in-Chief and J. A. Bostwick requested to call on him to have said plans amended as agreed upon.

12th. Report on Secretary's Order No. 6563, that he had superintended altering and repairing ferry structure at Barclay street, North river.

13th. Report on Secretary's Order No. 7452, that the piles referred to by the Dock Master as being displaced, foot of West Fifty-fourth street, North river, have been removed.

14th. Report on Secretary's Order No. 7313, that he had repaired deck of approach to Pier, new 46, North river.

15th. Report on Secretary's Order No. 7465, that he had directed and superintended the driving of piles for cable boxes on north side of Fourth Avenue Railroad Bridge abutment, Harlem river.

16th. Report on Secretary's Order No. 7493, that he had directed and superintended driving piles in front of bulkhead between Jackson and Corlears streets, East river.

17th. Report on Secretary's Order No. 7313, that he had superintended and directed the erection of a stable on the south side of East Thirty-eighth street, East river.

18th. Report on Secretary's Orders Nos. 3008 and 3665, that he had supervised the erection of platform on piles and filling-in south of One Hundred and Fiftieth street, east side of Harlem river.

19th. Report on Secretary's Order No. 7078, that he had superintended laying plank walks from ferry-house at new-made land foot of Chambers street, North river, to crosswalk on West street.

20th. Report on Secretary's Order No. 5066, that the altering, rebuilding and extension of Pier, old 20, North river, was substantially made in accordance with resolution of the Board.

From Charles Hutchinson, Dock Master--Reporting repairs required to Piers at foot of Twenty-eighth, Thirtieth and Forty-second streets, East river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From J. B. Erwin, Dock Master—Reporting that dredging is required on both sides of Pier, of Fifty-fifth street, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From John J. Ryan, Dock Master—Respecting the dropping of stones into the river at Pier and head foot of West Seventy-ninth street.

From George A. Dearborn, Dock Master—In reference to the repairs ordered to the short bulkhead north of East Eighty-sixth street, East river, and stating that G. F. & E. C. Swift state that they are not the owners of the said premises. The Engineer-in-Chief directed to repair said bulkhead, if City property.

From John Callan, Dock Master—Reporting that he had stopped filling-in at Fourth avenue and One Hundred and Thirty-third street, Harlem river.

The report of the Engineer-in-Chief on Secretary's Order No. 7529, respecting the application of the West Shore Railroad to lay railroad tracks in the rear of the bulkhead between Thirty-sixth and Thirty-seventh streets, North river, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the West Shore Railroad to keep and maintain the railroad tracks that are laid across Twelfth avenue and the bulkhead or wharf property south of Twelfth avenue, between Thirty-sixth and Thirty-seventh streets, North river, it being expressly agreed and understood that the said railroad tracks are to be and remain thereat only during the pleasure of the Board of Docks, and are to be removed whenever ordered by the said Board ; provided the West Shore Railroad shall within five days from date hereof file in this office an agreement in writing to remove the said railroad tracks whenever ordered to do so by this Department.

The communication from the Engineer-in-Chief reporting the completion of Pier foot of West Thirty-seventh street, North river, under Contract No. 252, was,

On motion, ordered to be placed on file and the time for the completion of the work under said contract was extended from the 24th of February to and including March 3, 1888.

The communication from the Counsel to the Corporation respecting the occupation of land under water at the foot of Ninety-fourth street, East river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the Counsel to the Corporation be and hereby is requested to commence such actions or proceedings against Hencken & Co. as may be necessary and proper to protect and enforce the right, title and interest of the City of New York in and to the premises at or near the foot of East Ninety-fourth street, East river, occupied by the said Hencken & Co., for the recovery and placing the City in possession thereof, and for the recovery of damages for detaining or using or occupying the same.

MARCH 8, 1888.]

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held March 9, 1888.

Present—Commissioners Stark and Matthews ; absent, Commissioner Marshall.

The Board met for the purpose of receiving estimates for removing the existing pier on Pier 60, at the foot of Rivington street, East river, and for preparing for and building a new pier on the site of said Pier, and for repairing the existing crib-bulkhead thereat, advertising opened this day at 12 o'clock M.

A representative of the Comptroller was present.

Nine estimates were received, as follows :

No.	FROM.	CLASS No. 1.	CLASS No. 2.
		For repairs to the Bulkhead and its Appurtenances.	For the new Pier complete, with all its Appurtenances.
1	J. H. Staats, accompanied with \$270, check.....	\$2,950 00	\$15,850 00
2	P. Sanford Ross, accompanied with \$270, money.....	2,680 00	17,580 00
3	William P. Kelly, accompanied with \$270, money.....	2,500 00	18,361 00
4	Joseph Walsh, accompanied with \$270, check.....	3,000 00	22,900 00
5	O'Connell & Coffey, accompanied with \$270, money.....	2,800 00	16,800 00
6	John M. Monks, accompanied with \$270, check.....	2,590 00	18,902 50
7	John D. Walsh, accompanied with \$270, money.....	2,100 00	19,900 00
8	John W. Flaherty, accompanied with \$270 money.....	1,944 00	16,900 00
9	Duncan A. Gillies, accompanied with \$270, money.....	1,950 00	16,049 00

On motion, the Secretary was directed to transmit to the Comptroller the securities received from said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for removing the existing pier known as at the foot of Rivington street, East river, and for preparing for and building a new pier on the site of said pier, and for repairing the existing crib-bulkhead thereat, be and hereby is to Duncan A. Gillies, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secy

an executive meeting of the Board of Docks, held March 9, 1888.

sent—Commissioners Stark and Matthews; absent, Commissioner Marshall.

minutes of the meeting held March 8, 1888, were read and approved.

following communications were received, read, and,

motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

n John A. Bouker, lessee—In reference to repairs required to Pier at West One Hundred and second street, North river. The Secretary directed to refer Mr. Bouker to clause in lease regarding repairs, and notify him that unless he commences to make the repairs heretofore ordered within ten days from receipt of notice, the Engineer-in-Chief of this Department will be directed to work at his cost and expense.

n Thomas Scully—Requesting berth for loading manure at Pier foot of West Thirty-seventh street, North river. Referred to the Dock Master to examine and report.

n Charles H. Tweed, attorney Southern Pacific Company—Requesting the Department to repair pavement at Pier, new 37, North river, at a cost of about \$50. The action of the Department in directing the Engineer-in-Chief to repair and report cost for collection from C. P. Company, lessee, was approved.

n Charles D. Dickey—In reference to title to land under water on west side of Bronx river, Westchester Turnpike Bridge and the East river. Referred to the Engineer-in-Chief to examine and report.

n Central Railroad Company of New Jersey—Requesting permit to repair Pier 8, North river. The action of the President in issuing a permit under the usual conditions was approved.

n H. E. Nesmith, Jr.—Requesting the Department to modify order to dredge in slip east of East river, so as to make a depth of twenty-two feet six inches, instead of twenty-five feet. The said request was granted, and the Secretary directed to advise Mr. Nesmith, Engineer-in-Chief.

n Kane & Wright—Requesting use of Pier at East Forty-eighth street during the rebuilding of East Forty-sixth street, East river. Referred to the Engineer-in-Chief to examine and report.

n Inland and Seaboard Coasting Company—Respecting amount due for wharfage. Referred to the Treasurer.

Engineer-in-Chief :

Reporting the sinking of schooner "Celeste" at Pier foot of West One Hundred and second street, North river. The Secretary directed to notify owner or consignee to remove.

In reference to John J. Dawson, Laborer and Acting Watchman.

Notion, said Dawson was suspended for a period of fifteen days from Wednesday, March

3d. Reporting completion of dredging at Pier 7, East river, under Contract No. 24 Secretary directed to notify the Dock Master to collect wharfage from all vessels using said

4th. Reporting the carrying away of small Pier at One Hundred and Ninety-second North river, by the ice, and suggesting that the Dock Master be directed to see that said pier not rebuilt without a permit from the Department.

On motion, the report was received and recommendation adopted.

5th. Report on Secretary's Order No. 7281, dredging required in the half slip on north Pier 61, East river, and the area in front of bulkhead fifty-five feet north of said pier, and mending that the said premises be dredged to a depth of fifteen feet at mean low water.

On motion, the Engineer-in-Chief was directed to prepare specifications and form of for dredging thereat, as recommended in his report.

6th. Transmitting Inspector's report of material used under Contract No. 257, building new 37, foot of Charlton street.

7th. Report on Secretary's Order No. 7541, in reference to the application of Th White, for permission to erect a temporary telegraph office and board fence on Pier foot Thirty-seventh street, North river. Permit granted under the usual conditions.

8th. Report on Secretary's Order No. 7168, respecting the repairs ordered to the between Piers 45 and 46, East river.

The following communications were,

On motion, taken from the table and ordered to be placed on file.

From Counsel to the Corporation—Respecting proposed "act" in relation to the expense of the Department.

From C. P. Huntington—In relation to lease of Pier, new 38, North river.

From Edward Abeel, Dock Master—Respecting wharfage due from the Island and Transportation Company.

[MARCH 9, 1888.]

The following resolution was,

On motion, adopted :

Resolved, That the recommendations contained in the report of the Engineer-in-Chief dated ~~March~~ March, 1888, in regard to the new Pier at One Hundred and Seventeenth street, Harlem river, and hereby are approved, and that the Engineer-in-Chief be and hereby is directed to make provision for extending the Pier as directed on the 13th January, 1888, and that Mr. John W. Flaherty be requested to call at this office with his bondsmen and sign a written consent to the extension of the amount to be paid him on said contract of \$400, in consequence of his not being required to do all the work upon said Pier required in Contract No. 262.

The Auditing Committee presented an audit of two bills or claims, amounting to \$6,746.07, which were approved and ordered to be spread in full on the minutes, as follows :

No.	Bill or Claim.	Amount.
778.	John W. Flaherty, Estimate No. 1, Contract No. 262.....	\$2,962 07
	On Construction Account.....	\$2,962 07
779.	Union Dredging Co., Estimate No. 1 and Final Contract No. 266... ..	\$3,802 00
	On General Repairs Account.....	\$3,802 00

RECAPITULATION.

Bill or Claim on Construction Account.....	\$2,962 07
" " General Repairs Account	3,802 00
" " Amounting to	\$6,764 07

Respectfully submitted,

L. J. N. STARK,
JAMES MATTHEWS, } Auditing Committee.

On motion, the President was authorized to transmit the same with requisitions for the amount to the Finance Department for payment.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held March 13, 1888.

Present—Commissioners Stark and Matthews ; absent, Commissioner Marshall.

The Board met for the purpose of receiving estimates for furnishing the Department with granite stones for bulkhead or river wall, and for transcribing, printing and binding the minutes of the Board of Docks from May 2, 1870 to April 28, 1877, inclusive.

Owing to the absence of the Comptroller or his representative, the opening of the said bids was postponed to Friday, March 16, 1888, at 12 o'clock, M.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held March 14, 1888.

Present—Commissioners Stark and Matthews ; absent, Commissioner Marshall.

The communication from Hon. Abram S. Hewitt, Mayor, received this morning, respecting the dumping of clean snow from the bulkheads and on the wide spaces to the west of West street, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission, until otherwise ordered, be and hereby is granted to the Department of Street Cleaning, to dump clean snow and ice at any of the piers, bulkheads or places belonging to the city under the jurisdiction of this Department.

On motion, the Engineer-in-Chief was directed to have the snow cleared as soon as possible from the piers and bulkheads belonging to the city and not leased by private parties using the force of the Department for the purpose.

No estimates were received for transcribing, printing and binding the minutes of the Board advertised to be opened this day at 12 o'clock M.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held March 15, 1888.

Present—Commissioners Stark and Matthews ; absent—Commissioner Marshall.

The minutes of the meetings held March 9, 13 and 14, 1888, were read and approved.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Counsel to the Corporation—Approving contract for building a new pier foot of West Forty-first street, North river.

From Comptroller of the City—Approving sureties of Duncan A. Gillies for building Pier 60, North river, etc.

From Hon. Abram S. Hewitt, Mayor—Advising of meeting of heads of departments on Monday, March 12, 1888.

From Health Department—Transmitting copy of resolution relating to sewer foot of Beekman street, East river, and respecting dredging between Beekman and Fulton streets, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Maritime Association of the Port of New York—Respecting the facilities offered by said Association. Referred to the Treasurer.

From West Shore Railroad—Agreeing to the terms of resolution respecting railroad tracks between Thirty-sixth and Thirty-seventh streets, North river.

From North and East River Steamboat Company—Requesting permit to cut sluiceway on the West side of Pier, new 32, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From John A. Bouker—Stating that he will be through with the dumping-board foot of West Forty-sixth street, North river, on March 13th instant, and will not use it after that date.

On motion, the surrender was accepted. Permit revoked, and the Secretary directed to notify John A. Bouker and the Dock Master of the action of the Board.

From Inman and International Steamship Company—Stating that they will be unable to do the work of said line at Pier, new 43, North river.

From Smith & Sills—Respecting obstructions on Pier foot of West Forty-sixth street, North river. The action of the President in sending copy of said communication to the Dock Master was approved.

From Brown & Fleming—Requesting permission to repair bulkhead occupied by dumping-board foot of Canal street, North river. The action of the President in issuing a permit under usual conditions and with a provision respecting the filling at North Moore street and Franklin street, North river, was approved.

From Charles H. Pendergast, Dock Master—Reporting that repairs are being made bulkhead between Piers 47 and 48, East river.

From John Callan, Dock Master—Respecting the leasing of bulkhead foot of East Nineteenth street, East river.

From George A. Dearborn, Dock Master—Reporting that the bulkhead between Sixty and Sixty-second streets, East river, is getting defective and decaying. The action of the President directing the Engineer-in-Chief to examine and report was approved.

From Edward Abeel, Dock Master—Reporting accumulation of snow on Piers 19 and 32, East river. Referred to the Engineer-in-Chief.

From Charles Hutchinson, Dock Master—Reporting that fenders foot of East Forty-first street and sheathing on Pier foot East Twenty-eighth street, East river, have been temporarily repaired.

From Joseph B. Erwin, Dock Master :

1st. Reporting sunken canal boat foot of West Forty-sixth street, North river. The Secretary directed to notify owner to remove.

2d. Reporting damage to Pier foot of West Forty-sixth street, North river, by the frigate "Oswego." The Secretary directed to notify West Shore Railroad Company to repair.

From Charles H. Thompson, Dock Master—Reporting damage to southwest corner of East river. The Secretary directed to notify the New York, New Haven and Hartford Company to repair said damage under the direction and supervision of the Engineer-in-Chief in this Department.

From John J. Ryan, Dock Master :

1st. Reporting repairs needed at north side of Pier foot of West Seventy-ninth street, North river. The Engineer-in-Chief directed to repair.

2d. Reporting damage to outer end of Pier at West One Hundred and Twenty-ninth North river. The Secretary directed to notify David G. Yuengling, Jr., lessee, to repair.

3d. Reporting damage to outer end of Pier foot of One Hundred and Thirty-eighth North river. The Engineer-in-Chief directed to examine and report.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending March 3, 1888.

3d. Reporting fender piles loose on Pier at foot of West Fifteenth street, North river. The action of the President in directing the Engineer-in-Chief to repair was approved.

h. Reporting the sinking of the tug "May Clinton" between Pier A and Pier, new 1, North The Secretary directed to notify Ambrose James, owner, to remove forthwith.

i. Report on Secretary's Order No. 7539, transmitting diagram of ferry premises foot of 51st street, East river. The action of the President in sending said diagram to the Comptroller approved.

j. Report on Secretary's Orders Nos. 4885 and 6049, respecting dredging in half slip north of One Hundred and Twenty-ninth street, North river, and south of One Hundred and Fifty-first street, Harlem river.

k. request of Mr. Silliman for a reduction in the rate of wharfage charged for berth occupied by boats "St. Nichols" and "F. B. Wallace" at pier foot of Fifty-fifth street, North river,

motion, denied, and the Dock Master directed to collect the amount of said bills as rendered with any abatement or reduction.

On reading and filing the communication and resolution of and from the Board of Aldermen, March 14, 1888, received this A. M. in reference to permitting the dumping of clean snow and ice, the Board having duly considered the same, it was

resolved, That, in accordance with the request of the Board of Aldermen, permission, until further order, be and hereby is granted to merchants and other persons doing business in the City of New York to dump clean snow and ice at any of the piers, bulkheads or places belonging to and under the jurisdiction of this Department, being the same as granted to the Department of Public Cleaning at a special meeting of the Board held on the 14th day of March, 1888.

motion, the Secretary was directed to immediately transmit a copy of said resolution to Hon. H. Forster, President of the Board of Aldermen.

The following preamble and resolution were,

motion, adopted :

Resolved, That, upon reading and filing the communication from the Counsel to the Corporation, dated March 10, 1888, in reference to obstructions on the newly made land situated between Fifty-sixth and Fifty-eighth streets, North river, and stating that instead of serving notices for the removal of obstructions, it would be advisable to bring actions of ejectment against Mr. Appleby and the tenants and occupants thereof for the recovery of the possession of said property, and the Board having duly considered the same ;

Resolved, That the Counsel to the Corporation be and hereby is requested in accordance with the communication dated the 10th day of March, 1888, to institute actions of ejectment against *E. Appleby and the tenants and occupants of the newly made land situated between Fifty-sixth and Fifty-eighth streets, North river, for the recovery of the possession of the said property.*

MARCH 15, 1888.]

500

On motion, the President was authorized to transmit to the Counsel to the Corporation of the premises in question together with a list of the names of the persons obstructing said p

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week March 14, 1888, amounting to \$2,282.71, which was received and ordered to be spread on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasu

On motion, the Board adjourned.

G. KEMBLE, Secretu

At a special meeting of the Board of Docks, held March 16, 1888.

Present—Commissioners Stark and Matthews; absent, Commissioner Marshall.

The Board met for the purpose of receiving estimates for removing the old pier and dumping board, and for preparing for and building a new wooden pier and crib-bulkhead at the foot of East Forty-sixth street, East river, and for repairing the existing crib-bulkhead thereat, advertised to be opened this day at 12 o'clock M.

A representative of the Comptroller was present.

Estimates were received as follows :

FROM.	CLASS No. 1.	CLASS No. 2.	CLASS No. 3.	TOTAL.
	For new Crib-Bulkhead and repairs to Bulkhead, etc.	For new Pier complete.	Rip-rap Stone per cubic yard.	
1 John W. Flaherty, with \$240, in money.....	\$2,948 00	\$14,445 00	70 cents.	\$18,548 00
2 Joseph Walsh, with \$240, check.....	3,321 00	15,000 00	90 "	19,806 00
3 John D. Walsh, with \$240, money.....	2,500 00	14,054 00	80 "	17,974 00
4 O'Connell & Coffey, with \$240, money.....	3,350 00	13,000 00	85 "	17,752 50
5 J. H. Staats, with \$240, check.....	3,100 00	13,610 00	80 "	18,030 00

The estimate received March 13, 1888, for furnishing the Department with granite for bulkhead river-wall, the opening of which was postponed until this date, owing to the absence of the Comptroller or his representative, were opened, as follows :

1. Charles Guidet, with \$275, in check..... \$1 45 per cubic foot.
 2. J. Goss, Jr., with \$275, in check..... 1 03 "

On motion, the Secretary was directed to transmit to the Comptroller the security deposits made by said bidders and accompanying their estimates.

The following resolutions were,

On motion, adopted :

Resolved, That the contract opened this day for furnishing the Department with granite for bulkhead or river-wall be and hereby is awarded to J. Goss, Jr., he being the lowest bidder, upon the approval of the sureties by the Comptroller of the City.

Resolved, That the contract opened this day for removing the old pier and dumping-board and preparing for and building a new wooden pier and crib-bulkhead at East Forty-sixth street, East river, and for repairing the existing crib-bulkhead thereat be and hereby is awarded to O'Connell & Coffey, they being the lowest bidders, upon the approval of the sureties by the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks held March 16, 1888.

Present—Commissioners Stark and Matthews ; absent, Commissioner Marshall.

The minutes of the meetings held March 15 and 16, 1888, were read and approved.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Department of Street Cleaning—Reporting obstructions at the dumping-board foot of West Thirty-seventh street, and sunken canal-boat at West Forty-seventh street, North river. The action of the President, in directing the Engineer-in-Chief to examine and report, was approved.

From John Gillies—Reporting that Duncan A. Gillies is out of town, and will execute contract on his return.

On motion, the time to execute contract for building Pier 60, East river, etc., was extended five days.

From Henderson Brothers, agents Anchor Line—Respecting berth for "City of Rome" at Pier new 43, North river. The Secretary directed to advise that the Board is uncertain as to the disposition of said pier, but will inform them in a few days.

From James McCartney—Requesting release as surety on the lease of Fort Lee Ferry Company for bulkhead between One Hundred and Thirtieth and One Hundred and Thirty-first streets, North river. Application denied ; the Secretary directed to advise that the Board has no power to grant his request.

From Bernheimer & Schmidt—Requesting permit to erect a pumping-station foot of One Hundred and Eighth street, North river, for supplying their establishment with water from the Hudson river. Referred to the Engineer-in-Chief to examine and report.

From Joseph B. Erwin, Dock Master—Respecting complaint of Smith & Sills as to obstructions on Pier foot of West Forty-sixth street, North river. The Secretary directed to send them copy of said report.

From Schwarzschild & Sulzberger—Requesting permission to repair pile platform between Forty-fourth and Forty-fifth streets, East river. Permit granted under usual conditions.

From Engineer-in-Chief:

1st. Report on Secretary's Order No. 7549, in reference to the application of Kane & Wright, for use of Pier at East Forty-eighth street, East river. The Secretary directed to advise that Pier at East Forty-sixth street, East river, will be completed about June 25, 1888, and the Department hope they will be able to transact their business during that time at the bulkhead between Forty-sixth and Forty-seventh streets, East river, as it is not convenient to assign them at the pier mentioned in their application.

2d. Report on Secretary's Order No. 7548, respecting claim of Charles D. Dickey, as to ownership of wharf property west side Bronx river, about half way between the Westchester turnpike bridge and the East river.

[MARCH 16, 1888.]

IN THE MATTER

of

Building a Pier at West Forty-seventh street,
North river.

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare plans, specifications and form of contract for building a new wooden Pier at the foot of West Forty-seventh street, North river.

IN THE MATTER

of

Use of Bulkhead at Pier, new 26, North river,
to OLD DOMINION STEAMSHIP CO.

The communication from the Counsel to the Corporation in the above matter in reference to, and stating that, the resolution of June 6, 1887, did not include the bulkhead at approach to Pier, new 26, North river, was

On motion, ordered to be placed on file, and the following preambles and resolution were adopted :

Whereas, the resolution passed by this Board on the 6th day of June, 1887, appropriating to the sole use of the special kind of commerce carried on by steam transportation, certain bulkheads in the vicinity of Piers, new 26 and 27, North river, did not, through inadvertence, correctly describe said bulkheads which it was intended to appropriate to the sole use of the special kind of commerce carried on by steam transportation ; and

Whereas, It was the intention of this Board at that time to appropriate to the sole use of the special kind of commerce carried on by steam transportation the whole of the stone bulkhead extending from a point one hundred and twenty-five feet southerly from the southerly side of Pier, new No. 26, North river, to the southerly side of Pier, new No. 27, North river ; therefore be it

Resolved, That the said resolution be amended to read as follows : " Resolved, That by virtue of the power vested in this Board by subdivision 6, of section 6, chapter 574 of the Laws of 1871, and section 716 of chapter 410 of the Laws of 1882, commonly called the New York City Consolidation Act, as amended by chapter 517 of the Laws of 1884, the whole bulkhead, from a point one hundred and twenty-five feet southerly from the southerly side of Pier, new 26, North river, to the southerly side of Pier, new 27, North river, be and hereby is appropriated to the sole use of the special kind of commerce carried on by steam transportation."

The following requisitions were, on motion, approved :

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held March 17, 1888.

Present—Commissioners Stark and Marshall ; absent, Commissioner Matthews.

A communication from the Comptroller relating to the substitution of James Slattery in place of John B. Devlin, as one of the sureties on the proposal of J. Goss, Jr., was received, read, and

On motion, ordered on file, and the following resolution adopted :

Resolved, That permission be and hereby is granted to the substitution of James Slattery in place of John B. Develin as surety to the estimate of J. Goss, Jr., for furnishing granite for bulkhead river wall, under Contract No. 268.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held March 22, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held March 16 and 17, 1888, were read and approved.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Theodore W. Myers, Comptroller :

1st. Approving sureties of J. Goss, Jr., for furnishing granite.

2d. Approving sureties of O'Connell & Coffey, for building Pier, etc., at foot of East Forty-fifth street, East river.

From Department of Public Works :

1st. Requesting berths for use of the free floating baths during the coming season. Referred to the Engineer-in-Chief to examine and report.

2d. Requesting renewal of arrangement for dumping street dirt. The President authorized to advise that the Department has no further use for any filling, but would suggest that the said material be dumped at the dumping board occupied by the Department of Street Cleaning, foot of Seventy-ninth street, North river.

From Henry Lewis Morris and Charles L. Adams—Requesting permission to substitute plans and specifications for the erection of a crib-bulkhead in place of those heretofore adopted for the erection of a pile-bulkhead on the easterly side of the Harlem river, near One Hundred and Forty-ninth street. Referred to the Engineer-in-Chief to examine and report.

From John H. Starin, Agent Delaware, Lackawanna and Western Railroad Company—Requesting a modification of the specifications for the buildings on the bulkhead at Pier, new 41, North river, in the section referring to an outside guard. Referred to the Engineer-in-Chief to examine and report.

From D. G. Yuengling, Jr., Brewing Company—Stating that repairs will be made to Pier at One Hundred and Twenty-ninth street, North river.

From Charles Guidet—Respecting the contract for furnishing the Department with granite.

From H. W. Loud & Co.—Respecting reduction in rate of wharfage. The Secretary directed to advise that the Board cannot accede to their request.

From North River Steamboat Company—In reference to renewal of lease of Pier, old 34, North river. The Secretary directed to advise that the Department have the matter under consideration.

From Columbia College Boat Club—Requesting permission to drive piles on the Harlem river, near Madison Avenue Bridge. The action of the President in issuing a permit was approved.

From Pacific Mail Steamship Company—Respecting the condition of West street, at approach to Pier, new 34, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Charles Peterson & Co.—Requesting permit to erect a temporary landing-platform on the west side of Harlem river, north of Highbridge. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Lawrence, Son & Gerrish—Requesting permit to drive fender-piles at Pier 36, East river. The action of the President in issuing a permit under the usual conditions was approved.

From William M. Bruns, Jr.—Requesting the Department to build a pier foot of West Ninety-sixth street, North river. Referred to Engineer-in-Chief to examine and report.

From Ward & Olyphant—Respecting obstructions on Pier at Little West Twelfth street, North river. The Dock Master directed to examine and report.

From Portchester Transportation Company—Requesting permission to cut sluiceway on upper side Pier, new 32, East river. The Engineer-in-Chief directed to examine and report.

From Patrick J. Brady, Dock Master :

- 1st. Reporting fender-piles need repairing on the northwest corner of Pier, new 60, North river. The action of Commissioner Marshall in directing the lessee to repair was approved.
- 2d. Recommending that Thomas Scully and M. Carroll, Jr., be granted permission to load boats with manure at Pier foot of West Thirty-seventh street, North river. Permits granted, to continue during the will of the Board.

From C. H. Pendergast, Dock Master :

- 1st. Reporting that scow owned by Brown & Fleming sunk in slip between Piers 60 and 61, East river.
- 2d. Reporting holes in sheathing north side of Pier 58, East river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From J. B. Erwin, Dock Master—Reporting canal boat sunk at Pier foot of West Forty-eighth street, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Engineer-in-Chief :

- 1st. Reporting assignment of employees to special duty.
 - 2d. Reporting the amount of work done during the week ending March 17, 1888.
 - 3d. Reporting that he had directed that Michael Carroll, Laborer, be not again assigned to duty until further orders, for being absent three successive days without an excuse, and recommending that his action be approved.
- On motion, his action was approved, and Carroll's name dropped from the roll.
- 4th. Reporting material excavated by the Union Dredging Company with Department dredge during the month of February, 1888.

On motion the Treasurer was authorized to collect said amount from the Union Dredging Company.

- 5th. Reporting spring-piles require fastening at approach to Pier at Thirty-seventh street, North river. The action of the President in directing the Engineer-in-Chief to repair was approved.

6th. Reporting erection of frame building on Astor bulkhead, east side of Cromwell's creek, near One Hundred and Sixty-first street bridge. The Secretary directed to notify Abner Bartlett, agent of said estate, that the erection of said building without a permit is a violation of law.

- 7th. Reporting erection of small house on piles east of Third avenue bridge approach, north side of Harlem river. The Dock Master directed to examine and report.

8th. Repairs required to Pier at Ninety-sixth street, North river. The Engineer-in-Chief directed to fill in and repair as recommended in his report.

9th. Report on Secretary's Order No. 7542, in reference to building a temporary dumping-board for the use of Department of Street Cleaning, at Pier foot of Forty-eighth street, East river; and reference to the removal of storehouse junk on Pier at Forty-sixth street, East river. The action of Commissioner Marshall in communicating with Commissioner Coleman was approved.

10th. Report on Secretary's Order No. 7573, respecting the condition of new made bank at approach to Pier, new 34, North river. The Secretary directed to send copy of said report to the Pacific Mail Steamship Company.

11th. Report on Secretary's Order No. 7565, respecting canal boat sunk between Forty-sixth and Forty-seventh streets, North river.

12th. Report on Secretary's Order No. 6672, that he had superintended driving piles north side of Madison Avenue Bridge, Harlem river.

13th. Report on Secretary's Order No. 7564, that no obstructions exist at the dumping-board foot of West Thirty-seventh street, North river.

14th. Report on Secretary's Order No. 6963, that he had superintended erection of shed at Pier "G," between Sixty-seventh and Sixty-eighth streets, North river.

15th. Report on Secretary's Order No. 7357, that he had made the necessary arrangements and received material from Department of Street Cleaning in rear of bulkhead between Seventy-seventh and Seventy-eighth streets, North river.

16th. Report on Secretary's Order No. 7543, that he had superintended putting backing-log on bulkhead between Piers 52 and 53, East river.

17th. Report on Secretary's Order No. 7537, that he had redrove projecting fender spikes at bulkhead foot of Forty-second street, East river.

18th. Report on Secretary's Order No. 7535, that he had repaired Pier at Twenty-eighth street, East river.

19th. Report on Secretary's Order No. 7495, that he had repaired Pier, new 43, North river.

20th. Report on Secretary's Order No. 7503, that he had replaced fastenings at the head of bracing piles on southerly side of Pier, new 21, North river.

21st. Report on Secretary's Order No. 7528, that he had refastened spring piles, Pier 48, East river.

The report of the Engineer-in-Chief on Secretary's Order No. 7567, respecting the application of Bernheimer & Schmitt for permission to erect a pumping-station at the foot of West One Hundred and Eighth street, North river, was,

On motion, ordered to be placed on file, and the Secretary directed to send them copy of said report, and advise that a new application must be made in accordance therewith.

The Treasurer submitted balance-sheet for the month of February, 1888.

On motion, the President was authorized to transmit the same to the Comptroller of the City.

IN THE MATTER

of

bulkhead at Fifty-third street, East river.

olved, That the Engineer-in Chief be and hereby is directed to prepare plans, specifications
of contract for rebuilding the entire bulkhead at the foot of East Fifty-third street, East

IN THE MATTER

of

Charles Peterson & Co. permit for temporary platform on the Harlem river, north of bridge.

: report of the Engineer-in-Chief on Secretary's Order No. 7575, in relation thereto was,
motion, ordered to be placed on file, and the following resolution was adopted :

solved, That Charles Peterson & Co. be and they hereby are granted permission to erect a
erry landing-platform in front of the Chesbrough estate on the Harlem river, a short distance
f the Croton Aqueduct, in process of construction, the said work to be done under the
ion and direction of the Engineer-in-Chief of this Department, and in accordance with the
nd diagrams submitted, which are herewith approved, provided that the consent of the
States Engineer, officer in charge of the Harlem River Canal, is first obtained ; it being
y agreed and understood that this permit is for a temporary platform only, and that it is
le at any time by the Board of Docks ; and further provided, that the said Charles Peterson
hall, within five days after receipt hereof, file in this office an agreement in writing that they
ove the said platform within ten days after receiving a notice from the Board of Docks to

of this resolution, to pay as compensation for the use of the land under water covered by
y structures, over and above and in addition to the land under water now covered by existing

structures, the sum of twenty-five cents per square foot per annum, payable quarterly, at the end of each quarter, to the Treasurer of this Department during the continuance of the present lease of the ferry franchise, or for such time as the said Staten Island Rapid Transit Railroad Company shall occupy the premises referred to under the existing lease, and also that all structures erected on land under water shall revert to and become the property of the City on the revocation or termination of this permit or of the expiration or sooner termination of the lease of said premises held by said company ; and it is also further provided, that the Department of Docks reserves the right to modify or change the terms of the above-described agreement in case the said company obtains more favorable terms with reference to said structures from the Commissioners of the Sanitary Fund.

The Auditing Committee presented an audit of one bill or claim amounting to \$9,617.97, which was approved and audited, and the Secretary directed to enter in full on the minutes, as follows :

Audit No.	Name.	Amount.
10080.	John Gillies, Estimate No. 4 and Final Contract.....	\$9,617.97
	On Construction Account.....	\$9,617.97

RECAPITULATION :

1 Bill or claim on Construction Account	\$9,617.97
---	------------

Respectfully submitted,

JAMES MATTHEWS, } Auditing
CHARLES H. MARSHALL, } Committee.

On motion, the President was authorized to transmit said claim, with requisition for the amount to the Finance Department for payment.

Whereas, At a meeting of the Board of this Department, held on December 16, 1887, the following preamble and resolutions were adopted :

Whereas, This Board has been in negotiation for the purchase of certain bulkhead or wharf property, commencing 100 feet west of Jackson street, extending thence westerly 125 feet on Jackson street, along the East river, in the City of New York, as provided by section 15, chapter 410 of the Laws of 1882 ; and

Whereas, Such negotiations have resulted in a proposition on the part of John Duryea, for and in behalf of himself, Wright Duryea, William Duryea, Hiram Duryea and Edgar E. Duryea, on the terms of which they are willing to sell and convey to the Corporation of the City of New York the premises hereinafter described for the sum of \$120 per lineal foot ; therefore, be it

Resolved, That in pursuance of the proposition so named, the Board agrees to purchase for and on account of the Corporation of the City of New York the following-described piece or parcel of wharf property from the owners thereof, together with all their rights, titles, easements and

incident thereto, for the sum of fifteen thousand dollars (\$15,000), subject to the approval of the Commissioners of the Sinking Fund, as provided by said section 715, chapter 410 of the Laws of this City, viz. :

that certain bulkhead or wharf on the southerly side of South street, situated between a line formed by the prolongation in a southerly direction of a line drawn parallel to and one hundred feet westerly from the westerly side of Jackson street (formerly Walnut Slip) until it intersects the said bulkhead, and another line formed by the prolongation in a southerly direction of a line drawn parallel to and two hundred and twenty-five feet westerly from the westerly side of Jackson street (formerly Walnut Slip), until it intersects the said bulkhead, the same extending along the East river a distance of one hundred and twenty-five feet, together with the perpetual rights of riparian owners, and all other riparian rights, terms, easements and privileges connected therewith or arising therefrom, or connected with or arising from the outer line of South street, or any other line extending along the East river, between the said line formed by the prolongation in a southerly direction of a line drawn parallel to and one hundred feet westerly from the westerly side of Jackson street, and another line formed by the prolongation in a southerly direction of a line drawn parallel to and two hundred and twenty-five feet westerly from the westerly side of Jackson street, as and for the purposes of a wharf or bulkhead ; and, also, all the perpetual rights, titles, easements or privileges in the land under water, or in or over the waters of the East river in front of the said bulkhead, said outer line of South street, or said wharf lines, and as to any further or future grants of land and land under water in the East river, between the said prolongation of the line drawn parallel to and one hundred feet westerly from the westerly side of Jackson street and a line drawn parallel to and two hundred and twenty-five feet westerly from the westerly side of Jackson street.

so, any and every right, title or interest said parties of the first part may have, other than as described in and to said South street, adjoining said bulkhead, as and for the purposes of a wharf or bulkhead, and in any bulkhead or bulkheads in front thereof, and the wharfage and rents therefrom, and the land and land under water and waters of the East river in front of the wharf extending from South street as far into the river as any private right may extend in front of the said bulkhead, and any structures erected thereon ; therefore, be it

resolved, That the proposition made by this Board, by and on behalf of the owners of the property above described, to sell and convey the same to the Corporation of the City of New York, on the terms and conditions named therein, be and hereby is accepted, subject to the approval of the Commissioners of the Sinking Fund, as provided for by law, and that the President of this Board be and is hereby authorized to notify the said parties of the acceptance hereof, and request the agreements for carrying out the same shall be prepared and executed in quadruplicate by the said private owners, within twenty days from date hereof, and that when so prepared and submitted to the officers of this Board be and are hereby directed to execute the same, and affix the seal of the Department thereto, and when so executed, the Secretary be and hereby is directed to transmit the same to the Commissioners of the Sinking Fund, and one of the quadruplicates to the Recorder of the City.

Resolved, That the foregoing preambles and resolution be and they are hereby rescinded.

MARCH 22, 1888.]

512

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week March 21, 1888, amounting to \$1,427.60, which was received and ordered to be spread in the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasu

On motion, the Board adjourned.

G. KEMBLE, Secret

At an executive meeting of the Board of Docks, held March 23, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held March 22, 1888, were read and approved.

The application of Canda & Kane for lease of certain wharf property was,

On motion, laid on the table.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated.

From Hon. Abram S. Hewitt, Mayor :

1st. Respecting obstructions on Pier at Little West Twelfth street, North river. Referred to Dock Master to examine and report.

2d. In reference to the condition in which cotton is suffered to lie on piers and lighters while in storage. Referred to Commissioner Marshall.

From Theodore W. Myers, Comptroller—Respecting plans for proposed change at ferry crossing Whitehall street, East river, by Staten Island Rapid Transit Company. The action of the President in replying thereto approved.

From Charles H. Tweed, Attorney, Southern Pacific Company—In relation to permit for shed on Pier, new 37, North river. The Secretary directed to request Mr. Tweed to call on the Commissioners.

From Henry P. Havens—Complaining of obstructions at bulkhead between Piers, new 38 and North river. Referred to the Dock Master to examine and report.

From Old Dominion Steamship Company—Submitting plans for shed on bulkhead at Pier, new North river. Referred to the Engineer-in-Chief to examine and report.

From Columbia Yacht Club—Requesting lease of water-front near the foot of Eighty-sixth street, North river. Referred to the Engineer-in-Chief to examine and report.

From Nonpareil Rowing Club—Requesting permission to replace six piles on the Harlem river, at the foot of One Hundred and Thirty-second street. Permit granted under the usual conditions, provided they agree to remove said piles when ordered by the Board.

From Union Steamboat Company—Requesting permit to replace derrick on Pier 7, East river. Permit granted under the usual conditions.

From Consolidated Gas Company—Requesting permission to close-pile the bulkhead between Eleventh and Eighteenth streets, North river. The action of the President in issuing a permit under the usual conditions was approved.

From Engineer-in-Chief :

1st. Recommending that Simeon S. Dunning be appointed Foreman of Laborers at the established rate of pay for such position, namely, thirty-five cents per hour.

On motion, the report was received and recommendation adopted.

2d. Reporting that he had removed snow from the piers and bulkheads with the force of the Department.

3d. Report on Secretary's Order No. 7550, in reference to the application of the North and East River Steamboat Company for permission to cut a sluiceway on the lower side of Pier, new 32, North river. Permission granted, under the usual conditions and as recommended by the Engineer-in-Chief.

4th. Reporting that he had suspended Watchman John Crandall from all duty in the Department, and recommending that his action be approved.

On motion, his action was approved.

The communication from the Engineer-in-Chief in relation to Matthew S. Gregory, Temporary Draughtsman, was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That Matthew S. Gregory, Temporary Draughtsman, be and hereby is discharged from the service of this Department, to take effect March 31, 1888.

On motion, the President was authorized to request the Civil Service Supervisory and Engineering Board to furnish this Department with an eligible list of Draughtsmen.

IN THE MATTER	}
<i>of</i>	
Building Temporary Dump at foot of Forty-eighth street, East river.	

The communication from the Department of Street Cleaning was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That the Engineer-in-Chief be and is hereby directed to proceed forthwith with the force of the Department to build a dump at the foot of Forty-eighth street, East river, for the use of the Department of Street Cleaning, cost of same not to exceed \$950.

Resolved, That the Secretary be and is hereby directed to transmit a copy of the above resolution to the Department of Street Cleaning.

The following resolution was,

On motion, adopted :

Resolved, That Van Tassell & Kearney, auctioneers on behalf of this Board, be and be are authorized and directed to offer for sale at public auction, at Pier "A," Battery place, North of the City of New York, on Wednesday, April 11, 1888, at 12 o'clock noon of that day, to collect and retain all wharfage accruing at the following piers and bulkheads upon the following terms and conditions, viz. :

On the North River.

Lot 1. Bulkhead between Pier, new 1 and Pier, old 1. To be leased for a term of three years, commencing May 1, 1888.

Lot 2. Bulkhead between Piers, old 21 and old 23. To be leased for a term of three years, commencing May 1, 1888.

Lot 3. South half of Pier, old 23. To be leased for a term of three years, commencing May 1, 1888.

Lot 4. South half of Pier, old 33, and platform adjoining. To be leased for a term of three years, commencing May 1, 1888.

Lot 5. North half of Pier, old 34. To be leased for a term of one year, commencing May 1,

Lot 6. Pier, old 54. To be leased for a term of three years, commencing May 1, 1888.

Lot 7. Bulkhead at Bank street. To be leased for a term of three years, commencing May 1, 1888.

Lot 8. Pier at Jane street. To be leased for a term of three years, commencing May 1, 1888.

Lot 9. Pier at Horatio street. To be leased for a term of three years, commencing May 1, 1888, with reservation for public bath.

Lot 10. Pier, old 56, at Gansevoort street. To be leased for a term of three years, commencing May 1, 1888, with reservation to cancel if required for new public market.

Lot 11. Bulkhead between Gansevoort and Bogart streets. To be leased for a term of one year, commencing May 1, 1888, with reservation to cancel if required for new public market.

Lot 12. Pier, old 57, north of Bogart street. To be leased for a term of one year, commencing May 1, 1888, with reservation to cancel if required for new public market.

Lot 13. Bulkhead between Piers, old 57 and old 58. To be leased for a term of one year, commencing May 1, 1888, with reservation to cancel if required for new public market.

Lot 14. Bulkhead between Piers, old 58 and old 59. To be leased for a term of one year, commencing May 1, 1888, with reservation to cancel if required for new public market.

Lot 15. Pier at West Fifteenth street. To be leased for a term of three years, commencing May 1, 1888.

Lot 16. Pier at West Seventeenth street. To be leased for a term of three years, commencing May 1, 1888.

Lot 17. Bulkhead at West Forty-first street. To be leased for the term of one year, commencing May 1, 1888.

Lot 18. Bulkhead at West Forty-fifth street. To be leased for the term of one year, commencing May 1, 1888.

Lot 19. Bulkhead on the south half of West Ninety-seventh street. To be leased for the term of one year, commencing May 1, 1888.

Lot 20. Pier at West One Hundred and Twenty-ninth street. To be leased for the term of one year, commencing May 1, 1888. Except the Street Cleaning Department Dump on the early side.

Lot 21. Bulkhead between West One Hundred and Thirty-first and West One Hundred and Thirty-second streets. To be leased for the term of three years, commencing May 1, 1888.

Lot 22. Pier at West One Hundred and Thirty-second street. To be leased for the term of one year, commencing May 1, 1888.

On the East River.

Lot 23. West half of Pier 8. To be leased for the term of ten years, commencing May 1, 1888.

Lot 24. East half of Pier 18. To be leased for the term of three years, commencing May 1, 1888.

Lot 25. West half of Pier 19. To be leased for the term of three years, commencing May 1, 1888.

Lot 26. East half of Pier 20. To be leased for the term of three years, commencing May 1, 1888.

Lot 27. Bulkhead platform between Piers 20 and 21. To be leased for the term of ten years, commencing May 1, 1888.

Lot 28. Pier 25 and half bulkhead adjoining west side. To be leased for the term of ten years, commencing May 1, 1888.

Lot 29. Upper half of Pier 58 and bulkhead between Pier 58 and Pier 59. To be leased for the term of three years, commencing May 1, 1888.

Lot 30. Pier at East Third street. To be leased for the term of three years, commencing May 1, 1888, with reservation for public bath.

Lot 31. Bulkhead foot of East Fourth street. To be leased for the term of ten years, commencing May 1, 1888.

Lot 32. Bulkhead at East Fourteenth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 33. Bulkhead at East Fifteenth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 34. Bulkhead at East Twentieth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 35. Pier at East Thirty-seventh street. To be leased for the term of three years, commencing May 1, 1888, with reservation for public bath.

Lot 36. Bulkhead-platform south of East Thirty-ninth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 37. Bulkhead at East Forty-fifth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 38. Bulkhead at East Fifty-sixth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 39. Bulkhead with dumping-board at East Seventy-third street. To be leased for the term of three years, commencing May 1, 1888.

Lot 40. Bulkhead-platform at East Seventy-fifth street. To be leased for the term of three years, commencing May 1, 1888, with reservation for water-lifting for Department of City Correction.

Lot 41. Bulkhead at East Seventy-sixth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 42. Dumping-board at foot of East Eightieth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 43. Bulkhead north of East Eighty-sixth street. To be leased for the term of three years, commencing May 1, 1888.

Lot 44. Bulkhead at East Ninety-third street. To be leased for the term of three years, commencing May 1, 1888.

On the Harlem River.

Lot 45. Bulkhead at East One Hundred and Thirty-sixth street, west side of Harlem river. To be leased for the term of three years, commencing May 1, 1888.

Lot 46. Bulkhead on south half of East One Hundred and Thirty-eighth street, west side of Harlem river. To be leased for the term of three years, commencing May 1, 1888.

TERMS AND CONDITIONS OF SALE.

The premises must be taken in the condition in which they may be at the commencement of the term of the lease, and no claim or demand that the premises or property are not in suitable and profitable condition at the commencement of the term will be allowed by this Department.

All repairs, maintaining or rebuilding required or necessary to be done to or upon the premises, in any part thereof, during the continuance of the term of the lease, shall be done by and at the cost and expense of the lessee or purchaser.

No claim or demand will be considered or allowed by the Department for any loss or deprivation of wharfage or otherwise resulting from or occasioned by any delay on account or by reason of the premises or any part thereof being occupied for or on account of any repairs, rebuilding or dredging.

The up-set price of the parcels or premises exposed or offered for sale will be announced by the auctioneer at the time of sale.

The Department will do all dredging, whenever it shall deem it necessary or advisable so to do.

The term for which leases are sold will commence at the date mentioned in the advertisement, viz.: May 1, 1888, and the rents accruing therefor will be payable from that date in each case.

Each purchaser of a lease will be required, at the time of the sale, to pay, in addition to the auctioneer's fees, to the Department of Docks, twenty-five per cent. (25%) of the amount of annual rent bid, as security for the execution of the lease, which twenty-five per cent. (25%) will be applied to the payment of the rent first accruing under the lease when executed, or will be forfeited to the Department if the purchaser neglects or refuses to execute the lease, with good and sufficient sureties, to be approved by the Department, within ten days after being notified that the lease is prepared and ready for execution at the office of the Department of Docks, Pier "A," North river, Battery place.

The Department expressly reserves the right to resell the lease or premises bid off, by those failing, refusing or neglecting to comply with these terms and conditions, the party so failing, refusing or neglecting to be liable to the Corporation of the City of New York for any deficiency resulting from or occasioned by such resale.

Lessees will be required to pay their rent quarterly in advance, in compliance with the terms and conditions of the lease prepared and adopted by the Department.

In all cases where it is mentioned in the advertisement of sale, the purchaser shall be entitled to the privilege of occupying any shed upon the pier or bulkhead at the commencement of the term of that may thereafter be permitted or licensed by the Department and to the rights attached to such permission or license, but subject to the conditions thereof, such purchaser being engaged in the business of steam transportation and using and employing the same for the purpose of regularly receiving and discharging cargo thereat.

Not less than two sureties, each to be a householder or freeholder in the State of New York, to be approved by the Board of Docks, will be required under each lease to enter into a bond or obligation, jointly and severally with the lessee, in the sum of double the annual rent, for the faithful performance of all the covenants and conditions of the lease, the names and addresses of the sureties to be submitted at the time of sale.

Each purchaser will be required to agree that he will upon ten days' notice so to do, execute the lease with sufficient surety as aforesaid, the printed form of which may be seen and examined upon application to the Secretary at the office of the Department, Pier "A," Battery place.

No person will be received as a lessee or surety who is delinquent on any former lease from the Department or the Corporation.

No bid will be accepted from any person who is in arrears to this Department or the Corporation, upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation to the Department or to the Corporation of the City of New York.

The auctioneer's fees (\$20) on each lot or parcel must be paid by the purchasers thereof respectively, at the time of sale.

On motion, Francis S. Dunning, Dock Builder, was discharged.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held March 27, 1888.

Present—Commissioners Stark, Matthews and Marshall.

IN THE MATTER

of

STATEN ISLAND RAPID TRANSIT R. R.
CO., as to Changing Wharf Structures at
Foot of Whitehall street, E. R.

Upon reading and filing the communication dated March 26, 1888, from the Comptroller stating that no action be taken by this Department in granting permission to said company to, etc., the ferry wharf structures at the foot of said street until the matter is considered and decided by the Commissioners of the Sinking Fund, now on motion

Resolved, That the resolution passed by the Board of Docks March 22, 1888, granting permission to said Staten Island Rapid Transit R. R. Company as in said resolution provided, and to which reference is hereby made, be and the same is hereby reconsidered, and that the whole matter lie on the table until otherwise ordered.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held March 28, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The Board met for the purpose of receiving estimates for removing all that part of the old Pier at the foot of West Fifty-first street, North river, which lies westerly of a line fifty feet west of the bulkhead-line, and preparing for and building a new wooden Pier at the foot of West Fifty first street, North river, advertised to be opened this day at 12 o'clock M. A representative of the Comptroller was present. Seven estimates were received, as follows:

1. From John W. Flaherty, with \$360, money	\$27,975 00
2. From John Gillies, with \$360, money	27,500 00
3. From Richard Cronin, with \$360, money	25,970 00
4. From Joseph Walsh, with \$360, check	28,900 00
5. From P. Sanford Ross, with \$360, money	27,100 00
6. From O'Connell & Coffey, with \$360, money	31,990 00
7. From J. H. Staats, with \$360, check	26,440 00

On motion, the Secretary was directed to transmit to the Comptroller the security deposits made by said bidders and accompanying their estimates.

The following resolution was,

On motion, adopted :

Resolved, That the contract opened this day for removing all that part of the old Pier at the foot of West Fifty-first street, North river, which lies westerly of a line fifty feet west of the bulkhead-line, and preparing for and building a new wooden Pier at the foot of West Fifty-first street North river, be and hereby is awarded to Richard Cronin, he being the lowest bidder, upon the approval of the sureties by the Comptroller of the City.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held March 28, 1888.

Present—Commissioners Stark, Matthews and Marshall.

IN THE MATTER

of

THE STATEN ISLAND RAPID TRANSIT RAILROAD Co., Improvements at Ferry Premises, Whitehall street, E. R.

Whereas, At a special meeting of the Board of Docks, held March 27, 1888, the following resolution was adopted :

“Resolved, That the resolution passed by the Board of Docks March 22, 1888, granting permission to said Staten Island Rapid Transit Railroad Company as in said resolution provided, and to which reference is hereby made, be and the same is hereby reconsidered and that the whole matter lie on the table until otherwise ordered.”

On motion, the above resolution was taken from the table and reconsidered, and the following preamble and resolution were adopted :

Whereas, At a meeting of the Board of Docks, held March 22, 1888, the following resolution was adopted :

Resolved, That permission be and is hereby granted to the Staten Island Rapid Transit Railroad Company to alter, repair and extend the ferry wharf structures at the foot of Whitehall street.

river. The said work to be done in accordance with the plans submitted, which are hereby approved, and under the direction and supervision of the Engineer-in-Chief of this Department ; provided, that the said company shall first agree to and assent in writing within ten days from the date of this resolution, to pay as compensation for the use of the land under water covered by said structures, over and above and in addition to the land under water now covered by existing structures, the sum of twenty-five cents per square foot per annum, payable quarterly at the end of each quarter, to the Treasurer of this Department, during the continuance of the present lease of ferry franchise or for such time as the said Staten Island Rapid Transit Railroad Company may occupy the premises referred to under the existing lease, and also that all structures erected on said land under water shall revert to and become the property of the City on the revocation or sooner termination of this permit, or of the expiration or sooner termination of the lease of said premises by said company ; and it is also further provided that the Department of Docks reserves the right to modify or change the terms of the above described agreement in case the said company obtains more favorable terms with reference to said structures from the Commissioners of the Sinking Fund.

Resolved, That the foregoing resolution be and hereby is rescinded and annulled.

IN THE MATTER

of

Construction of Platform north of Morris Dock Station, Harlem river, GAS ENGINE AND POWER COMPANY.

The report of the Engineer-in-Chief on Secretary's Order No. 7530 was,

On motion, ordered to be placed on file and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the Gas Engine and Power Company to erect and construct a platform on the land under water north of Morris Dock Station, Harlem river, about at the foot of Powell place, in accordance with the new plans and specifications submitted which are hereby approved ; all of the said work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held March 29, 1888.

Present—Commissioners Stark, Matthews, and Marshall.

The minutes of the meetings held March 23, 27 and 28, 1888, were read and approved.

The application of Ellen Hughes for lease of dumping-board on the north side of Pier foot West Thirty-seventh street, North river, was,

On motion, laid on the table.

The communication from John Crandall, Watchman, in reference to his suspension, was

On motion, referred to Executive Session.

The report the Engineer-in-Chief on Secretary's Order No. 7581, respecting locations for the Public Baths, was,

On motion, referred to Executive Session.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Civil Service Supervisory and Examining Board—Transmitting eligible list of Draughtsmen. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Department of Public Works—Requesting permit to pierce bulkhead foot of East Thirty-first street, East river. Permit granted under the usual conditions.

From Fire Department—Respecting obstructions to fire-boats, and requesting assignment of the outer ends of Pier at West Thirteenth street, North river, and Pier 48, East river. Referred to the Engineer-in-Chief to examine and report.

From Jones & Co.—Requesting lease of Pier 60, East river, when completed. The Secretary directed to advise that the pier will not be completed before July 2, 1888.

From Charles W. Dayton, attorney—In the matter of the application of the Liverpool and Great Western Steam Company (Limited) for a renewal of the lease of Pier, new 38, North river. Referred to Commissioner Marshall.

From Benjamin D. Silliman, Attorney Union Ferry Company—Requesting the Department to repair the northerly Pier at the South Ferry Slip, East river. Referred to Commissioner Marshall.

From William Ruddemann—Requesting permit to drive piles north of Madison Avenue Bridge between One Hundred and Thirty-eighth and One Hundred and Forty-fourth streets, Harlem river. The action of Commissioner Matthews in issuing a permit was approved.

From Hiram Duryea and others—Acknowledging receipt of communication rescinding resolution adopted December 16, 1887, respecting the purchase of bulkhead and wharf property at or near the foot of Jackson street, East river.

From Charles Peterson & Co.—Agreeing to the terms of permit respecting temporary platform on the west side of Harlem river, north of High Bridge.

From New York and College Point Ferry Company—Requesting permit to drive piles. The Secretary directed to advise that they must state definitely as to the exact location and the number of piles they desire to drive.

From London, Liverpool and Globe Insurance Company—Respecting the covering of cotton bales in transit from piers and bulkheads. Referred to Commissioner Marshall.

From Atlanta Boat Club—Requesting permission to locate boat-houses at the end of One Hundred and Fifty-third or One Hundred and Fifty-fourth street, Harlem river. Referred to the Engineer-in-Chief to examine and report.

From West Shore Railroad Company—Requesting permission to drive piles at Pier, new 1, and piers, old 4 and 5, North river. Permit granted under the usual conditions.

From Bernheimer & Schmid—Renewing application for permission to erect pumping station west of One Hundred and Eighth street, North river, in accordance with plan submitted. Referred to the Engineer-in-Chief to examine and report.

From John J. Ryan, Dock Master—Reporting sunken canal boat at Pier foot of West Ninety-ninth street, North river. The Secretary directed to notify owners to remove forthwith.

From Charles H. Thompson, Dock Master—Reporting two small holes in the deck of Pier 7, East river. The Engineer-in-Chief directed to repair.

From Charles B. Husted, Dock Master—In reference to communication received from Hon. A. S. Hewitt, Mayor, respecting the obstructions complained of at Piers foot of Little West Twelfth and Bloomfield streets, North river. The action of the President, in sending copy of said report to the Mayor, was approved.

From E. Abeel and P. J. Brady, Dock Masters—Reporting that Piers 19, 44 and new 32, East river; platform foot West Twenty-fourth street, Pier new 59 and Pier at West Thirty-fourth street, North river, require cleaning. The action of the President, in requesting the Department of Street Cleaning to clean, was approved.

From P. J. Brady, Dock Master :

1st. Reporting that bearing pile needs fastening, new 59, North river. The action of the President in directing the Engineer-in-Chief to repair, if necessary, was approved.

2d. Reporting that the decayed fruit has been removed from Pier, new 55, North river.

From Charles Hutchinson, Dock Master - Reporting repairs required to Pier at East Thirty-eighth street, East river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From J. B. Erwin, Dock Master - Reporting several small holes in deck of Pier at Fifty-fifth street, North river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From John Callan, Dock Master—Reference to refreshment stand north of Third avenue by Harlem river. The Secretary directed to advise that the permit issued April 4, 1887, was to piles, and that no permit has ever been issued for the structure erected thereon.

From Engineer-in-Chief :

- 1st. Reporting assignment of employees to special duty.
- 2d. Reporting the amount of work done during the week ending March 24, 1888.
- 3d. Reporting repairs, etc., required to Pier at Sixty-second street, East river. The action of the President in notifying the lessees to repair and clean said premises was approved.
- 4th. In relation to bulkhead between Piers 60 and 61, East river. The Engineer-in-Chief directed to make requisition for dredging thereat as recommended in his report.
- 5th. Reporting non-commencement of repairs at Pier foot of West One Hundred and second street, North river. The Engineer-in-Chief directed to repair and report the cost for collection from John A. Bouker, lessee.
- 6th. Reporting condition of crosswalks on newly-made ground in front of Piers new 38, 42, North river. The Engineer-in-Chief directed to repair said crosswalks as recommended in report.
- 7th. Reporting that he had directed that Laborer acting Watchman Timothy McMahon again assigned to duty as Acting Watchman, and recommending that his action be approved. On motion, the action of the Engineer-in-Chief was approved.
- 8th. Report on Secretary's Order No. 7554, in reference to communication from Health Department respecting dredging, etc., at foot of Beekman and Fulton streets, East river. Secretary directed to send Health Department a copy of said report.
- 9th. Report on Secretary's Order No. 7555, repairs, etc., required to bulkhead between Fifty and Sixty-second streets, East river. The action of the President in directing the lessees to repair and remove obstructions thereat was approved.
- 10th. Report on Secretary's Order No. 7577, in reference to the application of the Port Transportation Company for permission to cut sluiceway in the upper side of Pier, new 3 river. Permission granted as recommended by the Engineer-in-Chief.
- 11th. Report on Secretary's Order No. 7562, repairs required to Pier foot of One Hundred Thirty-eighth street, North river. The Engineer-in-Chief directed to repair as recommended in report.
- 12th. Report on Secretary's Order No. 7583, in reference to the application of John H. agent Delaware, Lackawanna & Western Railroad Company, for permission to modify the foundations for the building on bulkhead at Pier, new 41, North river, in the sections referring outside guard.

On motion, said application was denied, and the Secretary directed to send Mr. Starin a copy of report.

Report on Secretary's Orders Nos. 6518-7285, that he had superintended repairing Pier foot Forty-fourth street, North river.

Report on Secretary's Order No. 7318, that he had removed obstructions from surface of of Jane street, North river.

Report on Secretary's Order No. 7492, that he had superintended removing cluster of piles remises, Barclay street, North river.

Report on Secretary's Order No. 7560, that he had repaired north side of Pier at Seventy-et, North river.

Report on Secretary's Order No. 7547, that he had refastened fender pile Pier foot of West street, North river.

Report on Secretary's Order No. 7566, that he had directed and superintended replacing es at bulkhead platform between Forty-fourth and Forty-fifth streets, East river.

Report on Secretary's Order No. 7522, that he had repaired Pier 7, East river.

Report on Secretary's Order No. 7352, that he had supervised dredging in front of and at alkhead between Ninty-fifth and Ninety-sixth streets, East river.

IN THE MATTER
of
ilding Pier, New 36, East River.

report of the Engineer-in-Chief on Secretary's Order No. 7284, submitting plans, etc., for Pier, new 36, East river, was

motion, ordered to be placed on file and the following resolution was adopted :

olved, That the plans, specifications and form of contract, as prepared and submitted by neer-in-Chief of this Department, for removing Pier, old 46, at the foot of Jefferson street, or, for building a new pier with a temporary approach on the site thereof, to be known as w 36, East river, together with an oval sewer-box under said new pier, and for repairing the l under the pier, be and hereby are approved subject to the approval of the Counsel to the tion as to form, and the Secretary be and hereby is directed to have a sufficient number of rms of proposals printed and proper advertisements inviting estimates for doing the said work in the papers designated by law.

On motion, the President was authorized to transmit the same, with requisition for the amount to the Finance Department, for payment.

On motion, the Engineer-in-Chief was directed to confer with General Newton, Commissioner of Public Works, as to definite location for the free floating baths for the coming season.

On motion, the appointment of William S. White, Draughtsman, was in accordance with Article 36 of the Civil Service Regulations, made permanent.

The resignation of John Crosland, Laborer, was

On motion, accepted.

On motion, Charles Hennessey was appointed Dock Builder.

On motion, the Board adjourned.

G. KEMBLE, Secre

At a meeting of the Board of Docks held April 5, 1888.

Present—Commissioners Stark and Marshall ; absent, Commissioner Matthews.

The minutes of the meeting held March 30, 1888, were read and approved.

The report of the Engineer-in-Chief on Secretary's Order No. 7532, as to dredging required at ~~the~~ side of Third Avenue Bridge, Harlem river, was

On motion, laid on the table.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary as stated to wit :

From Hon. Abram S. Hewitt, Mayor—Enclosing reply of Wotherspoon Brothers respecting report of Dock Master in reference to the complaint made about the wharf at Little West Twelfth street. The Secretary directed to send copy to the Dock Master for a reply.

From Hon. Theo. W. Myers, Comptroller ;

1st. Advising the Board that \$200,000 has been placed to the credit of the Dock Fund. The Secretary directed to notify the Chief Clerk.

2d. Requesting information respecting wharf property leased to ferry premises. The action of Commissioner Marshall in directing the Engineer-in-Chief to examine and report was approved.

3d. Approving sureties of Richard Cronin on contract for building pier, etc., at West Fifty-first street, North river.

From Department of Public Charities and Correction—Requesting the Department to build a small wharf at foot of East Fifty-first street and construct some steps at small pier south of Maternity Hospital, Blackwell's Island. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Department of Street Cleaning—Requesting dredging at Seventeenth street, East river, and Forty-seventh street, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From New York, Lake Erie & Western Railroad Company—Requesting permit to keep plank approach to Piers 20 and 21, and bulkhead between, in repair for three months. Permit granted under the usual conditions and for time stated.

From Ridgewood Ice Company :

1st. Requesting withdrawal of lot No. 30 from sale to take place April 11, 1888. The Secretary directed to advise that the Board decline to withdraw said lot from the sale.

2d. *Respecting the necessity of dredging between East Seventy-eighth and Seventy-ninth streets.* The Secretary directed to advise that the dredging has been ordered.

From John M. Tierney—Requesting permit to erect buildings on the bulkhead at the intersection of One Hundred and Sixty-first street and Cromwell's creek. Referred to the Engineer-in-Chief to examine and report.

From Horace E. Van Rant—Reporting hole in bulkhead at James Slip, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From John N. Briggs—Requesting renewal of permit for tally-house, scales and also permit for ice bridge on north side of Pier foot East Eleventh street, East river. The Secretary directed to advise him that he must obtain the written consent of the owner of the premises and furnish the dimensions of said structures before the Board will take action on his application.

From Southern Pacific Company—Enclosing check for \$22,312.50, being 37½ per cent. of the cost of rebuilding Pier, new 37, North river.

From C. P. Huntington, lessee, Pier, new 37, North river—For permit to construct water-meter box under said pier in accordance with plans submitted. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From James W. Colwell—Stating that he has not erected and does not own house placed on piles east of Third Avenue Bridge, Harlem river.

From John Wilshear—Reporting damage to bark "John" at Pier 11, East river. The action of the Secretary in directing the Dock Master to examine and report was approved.

From Citizens' Steamboat Company—In reference to berth for their boats after May 1. The Secretary directed to advise that the Board will do what it can to accommodate them, but cannot guarantee to provide them with a berth.

From Henderson Bros., agents, Anchor Line In reference to use Pier, new 43, North river. Referred to Commissioner Marshall.

From Homer Ramsdell Transportation Company—Requesting permission to allow Poughkeepsie steamers to land at Pier, new 24, North river, as soon as a portion of it is ready. Permission granted, provided the consent of the Contractor be obtained.

The President reported that he had issued the following permits under the usual conditions:

Pennsylvania Railroad Company—To repair Pier 3, North river.

Gedney's Freight and Transfer Line--To cut sluiceway in Pier, new 32, East river.

M. Goodwin—To dredge under dump lower side East Twenty-ninth street, East river.

Gas Engine and Power Company--To build a rough stone-wall and fill in within the same north of Morris Dock, Harlem river, in the vicinity of Powell place and Commerce avenue.

Pennsylvania Railroad Company--To repair piers, new 27 and 28, North river.

On motion, his actions were approved.

From C. H. Pendergast, Dock Master—Reporting cluster of piles adrift at Pier 46, East river.

From Edward Abeel, Dock Master - Reporting chain fastenings broke on oak piles on the upper tier of Pier 44, East river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From Charles H. Thompson, Dock Master :

1st. Reporting that Pier 7, East river, needs cleaning. The action of the President in requesting Department Street Cleaning to clean was approved.

2d. Respecting damage to bark "John" at Pier 11, East river. The Secretary directed to send copy of the complaint and the Dock Master's report to the Union Dredging Company, and copy to Wilshear & Co., of the action of the Board.

From John Callan, Dock Master :

1st. Reporting that he had stopped the Department of Street Cleaning from filling in water-front south side of Harlem river, west of Madison avenue.

2d. Reporting that the house on piles north side of Harlem river, is owned by Mrs. Jordan & Son, No. 485 East One Hundred and Thirty-fourth street. The Secretary directed to notify them to remove said house.

From Joseph B. Erwin, Dock Master - Reporting that Piers at West Forty-sixth and West Fifty-third streets, North river, need cleaning. The Engineer-in-Chief directed to clean the said piers.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending March 31, 1888.

3d. Reporting repairs required to tin roofing of Pier, new 1, North river. The action of the President in notifying the lessees to repair was approved.

4th. Stating that access from the river to the bulkhead-platform north of Pier old 35 and south of Pier old 36, north river, is cut off in consequence of the work of tearing up the inner end of Pier old 36, North river, and recommending that parties using or intending to use the said bulkhead be notified.

On motion, the report was received and recommendation adopted.

5th. Reporting that he had directed that Laborer acting Watchman Christopher Dalton, be not assigned to duty as Acting Watchman and recommending that his action be approved.

On motion, his action was approved.

6th. Reporting damage to Department float at Pier "A," North river, by tug "James H. Miller." The Engineer-in-Chief directed to repair and report cost, for collection from the New York Central and Hudson River Railroad Company.

7th. In reference to crib-log at Pier 7, East river. The Engineer-in-Chief directed to remove.

8th. Report on Secretary's Order No. 7252, dredging required at Piers at East Eighty-sixth and East river. The Engineer-in-Chief directed to make requisition for dredging as recommended in his report.

9th. Report on Secretary's Order No. 7623, in reference to the application of the Department of Public Charities and Correction, for the Department to construct wharf foot of East street, East river, and stone steps south of Maternity Hospital. The Engineer-in-Chief did said work as recommended in his report.

10th. Report on Secretary's Order No. 7622, in reference to the application of C. P. ton, lessee, Pier, new 37, North river, for permission to construct a meter-box under said Pier granted, the work to be done in accordance with plans submitted, and under the direct supervision of the Engineer-in-Chief of this Department.

11th. Report on Secretary's Order No. 7427, that he had made requisition for dredging-board at Pier 12, East river.

12th. Report on Secretary's Order No. 7471, that he had supervised dredging in front head between Thirty-fourth and Thirty-fifth streets, East river.

13th. Report on Secretary's Order No. 6894, that he had directed and superintended the construction of a structure for coal hoisting purposes on bulkhead One Hundred and Twenty-ninth street, Second avenue, Harlem river.

14th. Report on Secretary's Order No. 7508, that he had refastened the iron plating corner of north Pier at Eighty-sixth street, East river.

15th. Report on Secretary's Orders Nos. 7509 and 7540, that he had refastened pile at north of Eighty-sixth street, East river.

16th. Report on Secretary's Order No. 7519, that he had repaired dumping-board at second street, East river.

17th. Report on Secretary's Order No. 7536, that he had placed two mooring posts on at Thirtieth street, East river.

18th. Report on Secretary's Order No. 7546, that he had directed the driving of pile Pier 8, North river.

19th. Report on Secretary's Order No. 7563, that he had directed the repairing of deck Pier 7, East river.

20th. Report on Secretary's Order No. 7571, that he had repaired north side of Pier 7, East river.

21st. Report on Secretary's Order No. 7595, that he had repaired deck of Pier at Thirtieth street, East river.

22d. Report on Secretary's Order No. 7597, that he had repaired Pier at Fifty-fifth street, North river.

23d. Report on Secretary's Order No. 7611, that he had repaired deck of Pier 7, East river.

IN THE MATTER

of

Building bulkhead, One Hundred and Forty-ninth street, east side, Harlem river.

The report of the Engineer-in-Chief on Secretary's Order No. 7578, in relation thereto, was ordered to be placed on file and the President authorized to advise Henry L. Morris and Charles L. Adams that their application for permission to build a crib-bulkhead instead of a pile-bulkhead, has been denied.

The following resolution was

On motion, adopted :

Resolved, That in consideration of the payment of one hundred and eighty-five dollars (\$185), which has been made to the treasurer of this Department, Thomas Smith & Company be and they are hereby permitted to fill in behind the bulkhead at the foot of West Ninety-sixth street, North river, from this date to and including the 30th day of June, 1888 ; provided that all of the said filling shall be composed of clean ashes, earth, sand or stone, if of stone, no piece of stone to be larger than sixteen (16) inches in its largest dimension ; and, provided further, that all the filling shall be done as directed by the Engineer-in-Chief of this Department, and under his supervision.

The application of Thomas Smith & Co., requesting an extension of time to fill in at West Seventy-eighth street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the time given Thomas Smith & Company to fill in behind the crib-work bulkhead, from Seventy-seventh to Seventy-eighth streets, North river, be and hereby is further extended from April 1, to and including April 15, 1888.

Commissioner Marshall, Treasurer pro tem., submitted the following report of receipts for the week ending April 4, 1888, amounting to \$50,258.65, which was received and ordered to be spread full on the minutes, as follows :

motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held April 6, 1888.

Present—Commissioners Stark and Marshall; absent, Commissioner Matthews.

The minutes of the meeting held April 5, 1888, were read and approved.

The report of Dock Master Charles Hutchinson, respecting removal of floating dump located at the foot of East Fortieth street, East river, and the application of F. P. Eastman for permission to moor a floating dump thereat, was,

On motion, laid on the table.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Counsel to the Corporation—Requesting information respecting the repairs ordered at Pier 2, East river. The Engineer-in-Chief directed to furnish the information desired.

From New York and College Point Ferry Company—Requesting permit to drive a bunch of piles on the north side of ferry slip at Ninety-ninth street, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Consolidated Gas Company, of New York—For permit to repair bulkhead between Twentieth and Twenty-first streets, East river. The action of the President in issuing a permit under the usual conditions was approved.

From Engineer-in-Chief:

1st. Reporting accidental death of Walter Hillis, Dock Builder, at Pier, old 36, North river. The Secretary directed to drop name from the list of employees and the President authorized to send a copy of the Engineer-in-Chief's report to the Counsel to the Corporation.

2d. In relation to sunken barge at West Thirty-eighth street, North river.

On motion, the report was received and recommendation adopted.

3d. In relation to drain at East One Hundred and Fifteenth street, Harlem river.

On motion, the Engineer-in-Chief was directed to do the work required thereat as recommended in his report.

4th. Reporting non-commencement of dredging at Thirty-ninth street, North river. The Secretary directed to notify C. Vorbach and Bechstein & Co., alleged owners, that unless the said work is commenced at once the dredging will be done by this Department at their cost and expense, and proper steps taken for the collection of the same.

5th. Report on Secretary's Order No. 7600, in reference to the application of the Atalanta Boat Club, for permission to locate boat-house at end of One Hundred and Fifty-third or One Hundred and Fifty-fourth street, Harlem river, and stating that the said boat-house can be placed at One Hundred and Fifty-second street.

On motion, permit was granted to locate boat-house at One Hundred and Fifty-second street, Harlem river, the same to be and remain only during the pleasure of the Board.

The communication from the Engineer-in-Chief in relation to request of Thomas Ward respecting the erection of a fence at Eightieth street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, that the application of Thomas Ward, of Broadway, between Eighty-first and Eighty-second streets, to build a fence and coal pocket on the southerly side of Eightieth street, North river, commencing from the easterly end of the existing bulkhead at West Eightieth street, and upon the filling now made, and on the southerly line of said West Eightieth street (about 100 feet long and 50 feet wide), for the purpose of laying boats alongside to discharge coal for temporary storage inside of said fence, be and hereby is granted, the said fence and coal pocket to be built under the supervision of the Engineer-in-Chief, and to remain only during the pleasure of the Board ; and provided that said Thomas Ward shall pay a wharfage of eighty cents per day for each and every day, Sundays included, from the date when ready for use, to be collected by the Dock Master of the District.

IN THE MATTER

of

Assigning berths on outer ends of Piers at Pier
48, East river, and foot of West Thirteenth
street, North river.

The report of the Engineer-in-Chief on Secretary's Order No. 7607, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and is hereby granted to the Fire Department of the City of New York to use the end of the Pier at the foot of Thirteenth street, North river, and the end of Pier No. 8, at the foot of Clinton street, East river, in addition to the berths already occupied by the Department at these piers, for the use of its boats and for the purpose of placing them thereat ; that the ends of said piers, as described, be and are hereby set apart for the exclusive use of the Fire Department of the City of New York ; that the Engineer-in-Chief be and is hereby directed to cause proper signs or notices to be affixed to the premises, and that the Secretary be directed to notify the Dock Masters that the ends of said piers shall not be used or occupied by vessels other than those of the Fire Department, it being provided that the above assignment shall continue only during the will and pleasure of the Board.

On motion, Alfred D. Tyrrell was appointed a Deckhand on tug "Manhattan," in place of George H. Coffin, resigned, to take effect April 3, instant.

On motion, the appointments of Nicholas F. Kinnally, Henry Manheimer, Montford Clements, Hugh Byrne and John McDougal, Watchmen, were, in accordance with Rule 36 of the Civil Service Regulations, made permanent.

On motion, the name of Joseph Ross, Inspector of Dumping of Dredged Material, was dropped from the roll.

On motion, the following appointments were made : Laborers, Patrick Devlin, Richard Fox, Thomas Maher, Peter Snedden and Thomas Dwyer ; Dock Builders, Thomas Kenney, John Gaffney and John Connors.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held April 9, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The communication from the Engineer-in-Chief in reference to the Pier at West Forty-seventh street, North river, was

On motion, ordered to be placed on file and the following resolution was unanimously adopted by the affirmative votes of Commissioners Stark, Matthews, and Marshall.

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the removal of the old Pier foot of West Forty-seventh street, North river, and with the construction of a new Pier at the foot of said West Forty-seventh street, and a temporary approach thereto, within the established lines for the same, and that all the work hereby ordered be performed otherwise than by contract, as provided by section 714 of the New York City Consolidation Act of 1882, and that it be done by the force of the Department by day's work, except so much of the labor and material as is now or may hereafter be contracted for, and that all the materials, tools and dredging necessary therefor, and not heretofore contracted for, or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

On motion, the Secretary was directed to notify the Department of Street Cleaning and such other occupants of said Pier as may be advisable or necessary, of the action of the Board.

The following resolution was unanimously adopted by the affirmative votes of Commissioners Stark, Matthews and Marshall :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the construction of a bulkhead from the middle of the block between One Hundred and Fourteenth and One Hundred and Fifteenth streets, East or Harlem river, to the northerly side of East One Hundred and Fifteenth street, and to fill in behind the same, in accordance with the plans for the improvement of the East river water front determined by the Department of Docks on the 13th December, 1887, and adopted by the Commissioners of the Sinking Fund on the 19th of December, 1887 : and that all of the work hereby ordered be performed otherwise than by contract, as provided by section

of the New York City Consolidation Act of 1882, and that it be done by the force of the Department by day's work, except so much of the labor and material as is now or may hereafter be contracted for, and that all material, tools and dredging necessary therefor, and not heretofore contracted for, or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

The following resolution was unanimously adopted by the affirmative votes of Commissioners Ark, Matthews and Marshall :

Resolved, That the Engineer-in-Chief be and hereby is directed to proceed with the removal of old Pier foot of West Fifty-first street, North river, and with the construction of a new pier at foot of said West Fifty-first street, and a temporary approach thereto, within the established spaces for the same ; and that all the work hereby ordered be performed otherwise than by contract, provided by section 714 of the New York City Consolidation Act of 1882, and that it be done by the force of the Department by day's work, except so much of the labor and material as is now or may hereafter be contracted for, and that all the materials, tools and dredging necessary therefor, and not heretofore contracted for, or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

The communication from the Engineer-in-Chief, submitting form of contract and specifications for repairing crib-bulkhead and Pier at West Eleventh street, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the plans, specifications and form of contract, as prepared and submitted by the Engineer-in-Chief for repairing crib-bulkhead at southerly side of West Eleventh street and repairing Pier at West Eleventh street, North river, be and they hereby are approved, subject to the approval of the Counsel to the Corporation as to form, and the Secretary be and hereby is directed to have a sufficient number of blank forms of proposals printed and proper advertisement inviting estimates for doing the said work inserted in the papers designated by law.

The communication from the Engineer-in-Chief, respecting filling required at bulkhead between One Hundred and Fourteenth and One Hundred and Fifteenth streets, Harlem river, was referred to the Treasurer with power.

The resignation of John Crandall, Watchman, was received and accepted.

On motion, Patrick McNary, Watchman, was suspended from further duty.

On motion, George Bloomer was appointed Dock Builder, and Michael G. Scally and Patrick O'Brien, Laborers.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held April 12, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meetings held April 6 and 9, 1888, were read and approved.

The following communications were received, read, and,

On motion, laid on the table to await action, as stated :

From Hon. Abram S. Hewitt, Mayor—Transmitting copy of opinion from the Counsel to the Corporation respecting the assignment of a portion of the Pier at foot of West Thirty-seventh street to the Department of Street Cleaning.

From Counsel to the Corporation—Respecting the obligation of the New York and Southern Brooklyn Ferry and Steam Transportation Company to repair Pier 2, East river.

From A. M. Underhill & Co., agents—In relation to the renewal of lease of Pier, new North river.

From J. M. Goetchius, Treasurer of the Fort Lee Park and Steamboat Company—Respect berths for their boats at the Pier foot of Canal street, North river.

From Kennady, Reinhard & Co.—Requesting berth at Pier foot of West Fifty-fifth street.

From Thomas F. White, Offal Contractor—Requesting permit to erect a derrick on Pier foot West Thirty-seventh street.

From Engineer-in-Chief—Report on Secretary's Order No. 7392, in relation to the application of the Old Dominion Steamship Company for permission to erect a shed on the bulkhead at Pier new 26, North river. The Secretary directed to request Mr. Stanford the Vice-President to call the Commissioners.

The following communications were received, read, and,

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Hon. Abram S. Hewitt, Mayor—Transmitting request of Francis S. Corbett for permission to play ball on the docks. Referred to Commissioner Marshall to reply.

From Counsel to the Corporation :

1st. In relation to the claim against the steamboat "Melzingah." The action of the President in directing the Dock Master to examine and report was approved.

2d. Requesting information in relation to bulkhead, between Ninety-second and Ninety-third streets, East river. The action of Commissioner Marshall in furnishing the desired information was approved.

From Department of Street Cleaning :

1st. In reference to sand on Pier foot of West Forty-seventh street. The action of the Secretary in directing the Dock Master to examine and report was approved.

2d. Requesting dredging under dumping-board foot of Stanton street, East river. The action of the President in directing the Engineer-in-Chief to make requisition for dredging thereat was approved.

From Michael Ford—Requesting the Board to revoke the order served on Mrs. C. Jorden to move house located on piles at Third Avenue Bridge, east side, Harlem river. Referred to the Engineer-in-Chief to examine and report.

From Manhattan Railway Company—Requesting permit to dredge at One Hundred and twenty-ninth street and Second avenue, Harlem river. Permit granted under usual conditions.

From Neidlinger, Schmitt & Co.—Requesting permit to repair bulkhead between Sixty-third and Sixty-fourth streets, East river. Permit granted under the usual conditions.

From John Everson—Requesting use of dumping-board on south side of pier at West Forty-ninth street. Referred to the Dock Master to examine and report.

From Buck & Steljes—Requesting permit to repair Pier foot of Vesey street, North river. Permit granted under the usual conditions.

From James E. Ward & Co.—Requesting permit to repair Pier 16, East river. Permit granted under the usual conditions.

From T. H. Thorn & Co.—In reference to canal-boat occupying berth at Pier foot of Twenty-ninth street, East river. The action of the Secretary in sending copy of said complaint to the Dock Master to examine and report was approved.

From Henry Fischer—For permit to erect a derrick foot of East Seventy-sixth street. The Secretary directed to notify Mr. Fischer that the said premises have been leased from May 1, 1888.

From Brown & Fleming—In reference to floating-bump foot of East Fortieth street. The action of Commissioner Marshall in communicating with the Equitable Gas Light Co. was approved.

From William P. Clyde & Co.—For permit to repair Pier 34, East river. Permit granted under the usual conditions.

From Theo. F. Tone—Requesting permission to change the lines for the erection of a bulkhead between One Hundred and Thirty-third and One Hundred and Forty-fourth streets, North river, and drive piles behind said bulkhead for a temporary wharf and dock. Referred to the Engineer-in-Chief to examine and report.

From People's Line of Steamers—For permit to erect a derrick at Pier 41, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Delaware, Lackawanna and Western Railroad Company—Requesting permit to drive piles at Pier, new 41, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Hartford and New York Transportation Company—For permit to repair Pier 24, East river. The action of the President in issuing a permit under the usual conditions was approved.

From E. M. & J. V. Brown - For permit to replace six piles on the lower side of Pier East Twenty-first street. The action of the President in issuing a permit under the usual conditions was approved.

From Compagnie Générale Transatlantique—As to dredging required in the slips on the east and south sides of Pier, new 41, North river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From J. B. Erwin, Dock Master :

1st. Reporting repairs required to Pier foot of West Forty-sixth street. The action of the President in directing the Engineer-in-Chief to repair was approved.

2d. Respecting obstructions on Pier at West Forty-seventh street. The President authorized a copy of said report to the Department of Street Cleaning.

From Charles B. Husted, Dock Master—Reporting holes in Pier at West Eighteenth street. The action of the President in directing the Engineer-in-Chief to repair where necessary was approved.

From John Callan, Dock Master—Reporting that he had stopped dumping on water-front side of One Hundred and Fourth street, Harlem river, and north side of Ninety-fourth street, East river.

From Charles Hutchinson, Dock Master—In reference to complaint of T. H. Thorn respecting berth at Pier foot of Twenty-eighth street, East river.

From Charles B. Husted, Dock Master—In reference to reply of Wotherspoon Bros. obstructions on Pier at Little West Twelfth street, North river. The President authorized a copy of said report to his Honor the Mayor.

From D. W. Bogert, Dock Master - Reporting condition of shed north side of Pier, North river. The action of the President in directing the West Shore Railroad Company, lessee, to repair was approved.

From P. Curley, Dock Master :

1st. Reporting water-pipe, Pier, new 43, North river, requires repairing. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

2d. Recommending that the pavement at bulkhead between Piers, old 35 and 36, North river, be repaired. The action of Commissioner Marshall in directing the Engineer-in-Chief to report was approved.

From Engineer-in-Chief—

1st. Reporting the assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending April 7, 1888.

3d. That he had removed obstructions from Piers at Eleventh and Fifteenth streets, East river.

4th. Reporting the amount of material removed by the Union Dredging Company with Dredges, during the month of March, 1888. The Treasurer authorized to collect amount from Union Dredging Company.

5th. In reference to printing the minutes of the Board from 1870 to 1877.

On motion, the report was received and recommendation adopted.

6th. In reference to the application of J. M. Tiernay, for permission to erect sheds and offices on bulkhead at One Hundred and Sixty-first street and Cromwell's Creek.

On motion, the report was received and recommendation adopted.

7th. Report on Secretary's Order No. 7499, that he had made requisition for dredging in front of bulkhead north of Thirty-eighth street, North river, and supervised the work thereat, which done by the Union Dredging Company, at a cost of \$310.70. The Treasurer authorized to pay said amount from the estate of Stewart F. Randolph.

8th. Report on Secretary's Order No. 7500, in reference to the request of the Commissioner of Public Works for the selection of a pier on the North and East rivers for the exclusive use of the city of water to shipping.

On motion, so much of the Engineer-in-Chief's report as to the location of hydrants was approved.

9th. Report on Secretary's Order No. 7589, that he had built a dump foot of Forty-eighth street, East river, for the use of the Department of Street Cleaning. The President authorized to pay the said Department.

10th. Report on Secretary's Order No. 7618, respecting the information requested by the Comptroller in relation to wharf property leased at ferry landing.

On motion, the President was authorized to send a copy of said report to Hon. Theodore W. Tilton, Comptroller.

11th. Report on Secretary's Order No. 7639, in relation to application of the New York and Long Island Ferry Company to drive piles at ferry slip, Ninety-ninth street, East river. Permit granted under the usual conditions.

12th. Report on Secretary's Order No. 7354, as to the filling required at bulkhead between One Hundred and Thirty-first and One Hundred and Thirty-second streets, and Pier at One Hundred and Thirty-second street, North river.

On motion, the Engineer-in-Chief was directed to do the filling thereat, as recommended in his report.

13th. Report on Secretary's Order No. 7643, respecting the application of the Peoples' Line of Ferries to drive piles at the end of Pier, old 41, North river. Permit granted under usual conditions.

14th. Report on Secretary's Order No. 7154, that he had superintended and directed the repairs at bulkhead west of Corlears street, East river.

15th. Report on Secretary's Order No. 7274, that he had superintended repairing driveway made land in front of bulkhead, between Piers, new 20 and 21, North river, during months ending March 9, 1888.

16th. Report on Secretary's Order No. 7326, that the Department of Street Clear removed obstructions from surface of Pier at Thirty-seventh street, East river.

17th. Report on Secretary's Orders Nos. 7362 and 7367, that he had removed obstructions from bulkhead, between Piers, new 37 and 38, and deck of Pier, old 54, North river.

18th. Report on Secretary's Order No. 7518, that he had repaired the dump at Eighty East river.

19th. Report on Secretary's Orders Nos. 7527 and 7556, that he had directed and superintended repairing bulkhead north of Pier, old 41, North river, and between Piers 47 and 48, East river.

20th. Report on Secretary's Order No. 7599, that he had directed and superintended driving piles at bulkhead, between Piers 4 and 5, North river.

21st. Report on Secretary's Order No. 7616, that he had repaired cluster of piles at outer corner of Pier 46, East river.

22d. Report on Secretary's Order No. 7626, that he had refastened the oak spring upper corner of Pier 44, East river.

23d. Report on Secretary's Order No. 7633, that he had removed sunken crib logs at East river.

24th. Report on Secretary's Order No. 7648, that he had erected a temporary stand on top of Pier "A," North river.

25th. Report on Secretary's Order No. 7585, that he had directed and superintended driving piles in front of bulkhead, between Seventeenth and Eighteenth streets, North river.

26th. Report on Secretary's Order No. 7477, that he had superintended and directed at work at Pier 6, East river.

27th. Report on Secretary's Order No. 7475, that he had removed canal-boat sunk between Thirty-ninth and Fortieth streets, North river.

28th. Report on Secretary's Order No. 7361, that he had superintended repairing Pier 6, East river.

29th. Report on Secretary's Order No. 7167, that he had received filling behind bulkhead between Seventy-seventh and Seventy-eighth streets, North river.

IN THE MATTER

of

Tally-house scales and bridge north side of Pier
at East Eleventh street, East river.

The application of John N. Briggs enclosing consent of the New York Mutual Gas-light Company, alleged owners, was,

On motion, ordered to be placed on file. and the following resolution was adopted :

Resolved, That permission be and hereby is granted to John N. Briggs to retain tally-house and scales, and to erect a temporary platform or ice bridge on the north side of Pier foot of East seventh street, East river. It being expressly understood that the permission hereby granted is not to be construed as in any way or manner acknowledging that the New York Mutual Gas-light Company, alleged owners, or John N. Briggs, as lessee, have any right, title or interest in or to the said premises, or as in any manner impairing or prejudicing the right, title or interest of the City to the said property ; provided that the said John N. Briggs shall within five days from receipt hereof, file in the Department a written agreement to remove the said tally-house, scales and platform whenever ordered to do so by this Department.

IN THE MATTER

of

Erection of shed on Pier, new 37, North river.

The opinion of the Counsel to the Corporation in relation thereto was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the resolution passed March 1, 1888, authorizing a shed to be erected and maintained upon Pier, new 37, North river, be and the same hereby is amended so as to read as follows :

Resolved, That under and by virtue of the powers vested in this Board by sections 716 and 772 of chapter 410 of the Laws of 1882, and upon the application of C. P. Huntington, lessee, and in pursuance of the terms and conditions as announced at the public sale of the lease therefor, on April 27, 1883, and in accordance with the agreement made by and between said C. P. Huntington and the City of New York, by the Department of Docks, dated the 4th day of August, 1887, and filed in the Department of Docks, Pier, new No. 37, North river, be and it hereby is appropriated to the sole use of the special kind of commerce carried on by steam transportation.

Resolved, That permission be and hereby is granted to C. P. Huntington, lessee of Pier, new No. 37, North river, to erect and maintain thereon, in conformity with the provisions of said lease and in pursuance of the same, a shed for the protection of property received and discharged thereat by means of steam transportation ; the said shed to be constructed subject to the regulations required by Section 772 of chapter 410, Laws of 1882, and in conformity with the requirements of the Building and Fire Laws of the City of New York, and in accordance with the plans and specifications therefor submitted to the Board by the said C. P. Huntington, lessee, as approved by the Engineer-in-Chief of this Department, and which are hereby approved of by this Board and ordered to be placed on file in the office of this Department. Provided that all the work in the construction of the same shall be done under the supervision, direction and approval of the Engineer-in-Chief.

The communication from John H. Starin, Agent Delaware, Lackawanna and Western Railroad Company, withdrawing application of 7th April, for permission to drive piles at Pier, new 41, North river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the Delaware, Lackawanna and Western Railroad Company to withdraw their application dated April 7, for permission to drive piles at Pier new 41, North river.

On motion, the following resolution adopted on the 29th day of December, 1887, was rescinded and annulled.

Resolved, That the Engineer-in-Chief be and hereby is directed to prepare as soon as possible a form of contract and specifications for obtaining the remainder of the granite called for in the said contract which is now undelivered, and that the same be sent to the Counsel to the Corporation for his approval as to form and that the Secretary be and hereby is directed to have the same advertise in the manner required by law.

The following preambles and resolution were,

On motion, adopted :

Whereas, by virtue of a certain lease dated April 28, 1887, from the Mayor, Aldermen and Commonalty of the City of New York to the Fort Lee Ferry Company, of the right to collect the wharfage for the use and occupation of the bulkhead between West One Hundred and Thirtieth and One Hundred and Thirty-first streets, and southerly side of Pier at West One Hundred and Thirty-first street, North river, provides among other things, that if the rent or sum of money in said lease reserved or any part thereof shall at any time be due or unpaid for the space of ten days after the same shall have become due and payable according to the terms thereof . . . then the Board of Commissioners of Docks may, in its discretion, declare the lease or demise as having ceased and determined and to become at all times thereafter null and void.

Whereas, there is due and payable from the said Fort Lee Ferry Company the sum of \$250 to the Mayor, Aldermen and Commonalty of the City of New York, acting by the Department of Docks; and

Whereas, the said Fort Lee Ferry Company have failed to pay the said sum of \$250 or any part thereof; and

Whereas, more than ten days have elapsed since the same became due and payable;

Resolved, That the Fort Lee Ferry Company be and they are hereby ordered, notified, and required to be and appear before the Board of Commissioners of Docks, at a meeting thereof, to be held in the Board room of this Department, at Pier "A" Battery Place, on Thursday, April 19, 1888, at 12 o'clock noon of that day, and show cause why said amount has not been paid and why the lease should not be canceled and annulled for failure and neglect to pay the said sum or any part thereof to this Department, and for failure to comply with the conditions and provisions of said lease, and why this Department should not be entitled to such further or other relief in the premises as may be proper.

The following preambles and resolution were,

On motion, adopted :

Whereas, Schwarzschild & Sulzberger are indebted to and owe this Department the sum of \$72.58, being for the use of the bulkhead and dump at the foot of East Forty-fifth street, East river, granted to the said Schwarzschild & Sulzberger under a permit or license dated the 14th of May, 1887, to which reference is hereby made ; and

Whereas, The said Schwarzschild & Sulzberger have neglected to pay the said amount (\$72.58), although the same has been duly demanded ; therefore

Resolved, That the counsel to the Corporation be and hereby is requested to take the necessary steps to collect from the said Schwarzschild & Sulzberger the amount due for the use of the said premises, as provided for in said permit or license.

The Secretary reported that the right to collect and retain all wharfage accruing at the following named piers and bulkheads on the North, East and Harlem rivers had been sold to the highest bidders therefor, as named below, at the public sale, held April 9, 1888, 12 o'clock noon, at Pier "A," North river, by Van Tassell & Kearney, auctioneers, and for the terms and at the prices stated opposite each lot respectively, to wit :

On the North River.

Lot 1. Bulkhead between Pier, new 1 and Pier, old 1. To be leased for a term of three years, commencing May 1, 1888. To Cavanagh & Collins, for \$1,000.

Lot 2. Bulkhead between Piers, old 21 and old 23. To be leased for a term of three years, commencing May 1, 1888. To New York Steam Company, for \$1,500.

Lot 3. South half of Pier, old 23. To be leased for a term of three years, commencing May 1, 1888. To New York Steam Company, for \$2,000.

Lot 4. South half of Pier, old 33 and platform adjoining. To be leased for a term of three years, commencing May 1, 1888. To Catskill and New York Steamboat Company, Limited, for \$10,000.

Lot 5. North half of Pier, old 34. To be leased for a term of one year, commencing May 1, 1888. To S. D. Coykendall, Jacob H. Tremper and James E. Morris, for \$7,000.

Lot 6. Pier, old 54. To be leased for a term of three years, commencing May 1, 1888. To I. Mersereau, for \$3,000.

Lot 7. Bulkhead at Bank street. To be leased for a term of three years, commencing May 1, 1888. To Knickerbocker Ice Company, for \$500.

Lot 8. Pier at Jane street. To be leased for a term of three years, commencing May 1, 1888. To A. T. Decker & Co., for \$1,400.

Lot 9. Pier at Horatio street. To be leased for a term of three years, commencing May 1, 1888, with reservation for public bath. To Consumers Ice Company, for \$1,500.

Lot 10. Pier, old 56, at Gansevoort street. To be leased for a term of three years, commencing May 1, 1888, with reservation to cancel if required for new public market. To Daniel : \$3,500.

Lot 11. Bulkhead between Gansevoort and Bogart streets. To be leased for the ten year, commencing May 1, 1888, with reservation to cancel if required for new public market. To New York City Ice Company, for \$1,300.

Lot 12. Pier, old 57, north of Bogart street. To be leased for the term of one year, commencing May 1, 1888, with reservation to cancel if required for new public market. No bid.

Lot 13. Bulkhead between Piers, old 57 and old 58. To be leased for the term of one year, commencing May 1, 1888, with reservation to cancel if required for new public market. To A. Bouker, for \$1,300.

Lot 14. Bulkhead between Piers, old 58 and old 59. To be leased for the term of one year, commencing May 1, 1888, with reservation to cancel if required for new public market. To Benefit Ice Company, for \$1,300.

Lot 15. Pier at West Fifteenth street. To be leased for a term of three years, commencing May 1, 1888. To George W. Winant, for \$1,000.

Lot 16. Pier at West Seventeenth street. To be leased for a term of three years, commencing May 1, 1888. To Robert S. Briggs, for \$3,000.

Lot 17. Bulkhead at West Forty-first street. To be leased for the term of one year, commencing May 1, 1888. No bid.

Lot 18. Bulkhead at West Forty-fifth street. To be leased for the term of one year, commencing May 1, 1888. To James McLoughlin, for \$200.

Lot 19. Bulkhead on the south half of West Ninety-seventh street. To be leased for the term of one year, commencing May 1, 1888. To Canda & Kane, for \$200.

Lot 20. Pier at West One Hundred and Twenty-ninth street. To be leased for the term of three years, commencing May 1, 1888. Except the Street Cleaning Department dump on the southerly side. To The Homer Ramsdell Transportation Company, for \$1,000.

Lot 21. Bulkhead between West One Hundred and Thirty-first and West One Hundred and Thirty-second streets. To be leased for the term of three years, commencing May 1, 1888. No bid.

Lot 22. Pier at West One Hundred and Thirty-second street. To be leased for the term of three years, commencing May 1, 1888. To Mutual Benefit Ice Company, for \$1,000.

On the East River.

Lot 23. West half of Pier 8. To be leased for the term of ten years, commencing May 1, 1888. To New York Lake Erie and Western Railroad Company, for \$10,000.

Lot 24. East half of Pier 18. To be leased for the term of three years, commencing May 1, 1888. No bid.

Lot 25. West half of Pier 19. To be leased for the term of three years, commencing May 1, 1888. No bid.

Lot 26. East half of Pier 20. To be leased for the term of three years, commencing May 1, 1888. To New York and Texas Steamship Company, for \$7,000.

Lot 27. Bulkhead platform between Piers 20 and 21. To be leased for the term of three years, commencing May 1, 1888. No bid.

Lot 28. Pier 25 and half bulkhead adjoining west side. To be leased for the term of three years, commencing May 1, 1888. To New Haven Steamboat Company, for \$9,000.

Lot 29. Upper half of Pier 58 and bulkhead between Pier 58 and Pier 59. To be leased for the term of three years, commencing May 1, 1888. To Carll V. Smith, for \$2,000.

Lot 30. Pier at East Third street. To be leased for the term of three years, commencing May 1, 1888, with reservation for public bath. To Ridgewood Ice Company, for \$2,000.

Lot 31. Bulkhead foot of East Fourth street. To be leased for the term of three years, commencing May 1, 1888. To B. F. Romaine, for \$150.

Lot 32. Bulkhead at East Fourteenth street. To be leased for the term of three years, commencing May 1, 1888. No bid.

Lot 33. Bulkhead at East Fifteenth street. To be leased for the term of three years, commencing May 1, 1888. To Thomas Cunningham, for \$200.

Lot 34. Bulkhead at East Twentieth street. To be leased for the term of three years, commencing May 1, 1888. No bid.

Lot 35. Pier at East Thirty-seventh street. To be leased for the term of three years, commencing May 1, 1888, with reservation for public bath. To the Baltimore and Ohio Railroad Company, for \$1,500.

Lot 36. Bulkhead-platform south of East Thirty-ninth street. To be leased for the term of three years, commencing May 1, 1888. To Brown & Fleming, for \$910.

Lot 37. Bulkhead at East Forty-fifth street. To be leased for the term of three years, commencing May 1, 1888. No bid.

Lot 38. Bulkhead at East Fifty-sixth street. To be leased for the term of three years, commencing May 1, 1888. Sand & Koenig, for \$150.

Lot 39. Bulkhead with dumping-board at East Seventy-third street. To be leased for the term of three years, commencing May 1, 1888. To Daniel Robinson, for \$2,125.

Lot 40. Bulkhead-platform at East Seventy-fifth street. To be leased for the term of three years, commencing May 1, 1888. To John A. Bouker, for \$490.

Lot 41. Bulkhead at East Seventy-sixth street. To be leased for the term of three years, commencing May 1, 1888. To D. Milliken, for \$440.

Lot 42. Dumping-board at foot of East Eightieth street. To be leased for the term of three years, commencing May 1, 1888. No bid.

Lot 43. Bulkhead north of East Eighty-sixth street. To be leased for the term of three years, commencing May 1, 1888. Withdrawn.

Lot 44. Bulkhead at East Ninety-third street. To be leased for the term of three years, commencing May 1, 1888. To Knickerbocker Ice Company, for \$1,200.

On the Harlem River.

Lot 45. Bulkhead at East One Hundred and Thirty-sixth street, west side of Harlem river. To be leased for the term of three years, commencing May 1, 1888. To J. Sargeant Cram, for \$250.

Lot 46. Bulkhead on south half of East One Hundred and Thirty-eighth street, west side of Harlem river. To be leased for the term of three years, commencing May 1, 1888. To John Dobbins, for \$150.

The following resolution was adopted :

Resolved, That the right to collect and retain all wharfage which may accrue for the use and occupation by vessels of more than five tons burden at the several lots of wharf property sold as aforesaid, upon the terms as reported by the Secretary, be and hereby is approved and confirmed, and the officers of the Board be and hereby are authorized and empowered to execute the necessary leases, therefor, as prepared and in the form approved by the Counsel to the Corporation.

The Auditing Committee presented an audit of seventeen bills or claims amounting to \$13,313.95, which was approved and ordered to be spread in full on the minutes, as follows :

Respectfully submitted.

JAMES MATTHEWS, Treasurer.

On motion the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held April 19, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held April 12, 1888, were read and approved.

The following communications were received, read, and,

On motion, laid on the table, to await action, as stated, to wit :

From Counsel to the Corporation—Respecting the completion of contract made with Michael and William T. Nolan for furnishing the Department with granite. Referred to Executive Session.

From Department of Street Cleaning—Stating that permission has been granted to the Barney dumping-boat Company to use the dumping-board at Old Slip.

From Thomas I. Madge—Requesting use of the east half of Pier 18, East river.

From Van Vleck & Co.—Requesting berth at east side of Pier 18, East river.

From Engineer-in-Chief—

1st. Respecting pier at One Hundred and Nineteenth street, Harlem river. The President authorized to send copy of report to the Counsel to the Corporation, and request his opinion in relation thereto.

2d. Reporting inefficient Dock Builders. Referred to Executive Session.

3d. Report on Secretary's Order No. 7665, respecting stand erected on piles east side of Third Avenue Bridge, Harlem river. The Secretary directed to notify the Dock Master that the order to remove said structure has been suspended until otherwise ordered.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit:

From Counsel to the Corporation—Transmitting grant made by the people of the State of New York to the Mayor, Aldermen and Commonalty of the City of New York of lands under water of the Harlem river on Westchester shore and around Ward's and Randall's Islands, for filing in the Department. Referred to the Engineer-in-Chief for examination and comparison, and to have same recorded in Register's office.

From the Hon. Theodore W. Myers, Comptroller—Transmitting proceedings of the Commissioners of the Sinking Fund in relation to the renewal of the lease of Pier, new 38, North river.

From Department of Street Cleaning:

1st. Requesting the Department to build a new Pier foot of West Twelfth street, for use of dumping-board. Referred to the Engineer-in-Chief to examine and report.

2d. Reporting that dump foot of Canal street, North river, was obstructed on the night of the 17th instant. Referred to the Dock Master to examine and report.

From Department of Public Charities and Correction—Requesting repairs to Charity Hospital Pier, Blackwell's Island, East river. Referred to the Engineer-in-Chief to examine and report.

From Archibald Scott:

1st. Requesting renewal of permits to erect an ice bridge or platform at the foot of West Twenty-second street, North river, and Nineteenth street, East river. Referred to Dock Masters of said districts to examine and report.

2d. Requesting dredging in front of the bulkhead at One Hundred and Sixth street, Harlem river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From English & Best, Cedar Hill Ice Company:

1st. Requesting permission to dredge in front of the north half of bulkhead, between Thirteenth and Fourteenth streets, North river. The action of the President in issuing a permit to do the dredging was approved.

2d. For permit to retain platform on the northerly half of the bulkhead, between Thirteenth and Fourteenth streets, North river. Permit granted under usual conditions.

From Gas Engine and Power Company—Requesting permission to erect a platform on piles at Morris Dock Station, Harlem river. Referred to the Engineer-in-Chief to examine and report.

om Columbia Yacht Club—Requesting use of small point of ground west of railroad track Eighty-sixth street, North river. Referred to the Engineer-in-Chief to examine and report.

om Thomas Smith—Respecting the loading of scows with cellar dirt near the foot of Thirtieth North river. Referred to the Engineer-in-Chief.

om A. Van Santvoord, President Albany Day Line—Requesting permit to dredge at south Pier foot of Vestry street, North river. Permit granted under usual conditions.

om Tinsley Brothers—Requesting permit to repair brick stable foot of One Hundred and second street, Harlem river, in accordance with plan submitted. Application denied.

om E. Thiele—Requesting Department to test barrel of Portland cement. The action of Commissioner Matthews in directing the Engineer-in-Chief to make test and report the result there-approved.

om Waverley Boat Club—Requesting permission to locate boat-house, between One Hundred fifty-fifth and One Hundred and Sixty-second streets, North river. The Secretary directed to Mr. Dalton to call on the Engineer-in-Chief.

om T. H. Thorn & Co.—Respecting berth at pier foot of Twenty-eighth street, East river.

om Brown & Fleming—Requesting permission to occupy a portion of dumping-board at Pier at river. Referred to Commissioner Marshall.

om Ronald Gillies—Requesting that the time for the completion of Pier, new 62, North river, Contract No. 256, be extended from April 13, 1888, to June 1, 1888. Referred to the Engineer-in-Chief to examine and report.

om Hunt and Donaldson—Requesting renewal of permit for use of bulkhead south of Frankfort, North river.

om John A. Bouker—Requesting permit to erect a dumping-board at bulkhead foot of Fifty-fifth street, East river. Referred to the Engineer-in-Chief to examine and report.

om David Milliken—Requesting permits to erect two derricks foot of Seventy-sixth street, East river. Permit granted under usual conditions, to be located thereat by the Dock Master.

The President reported that he had issued the following permits :

Twenty-third Street Railway Company—To repair platform and ferry-racks foot of Twenty-seventh street, North river.

Charles A. Pool & Co.—To repair Pier 6, North river.

Pennsylvania Railroad Co.—To repair sheathing, Pier, old 1, North river.

Samuel Skidmore's Sons—To drive piles at bulkhead, between Thirty-fourth and Thirty-sixth streets, East river.

High Valley Railroad Co.—To repair Pier 2, North river.

Atlanta Boat Club—To construct a gangway on piles on One Hundred and Fifty-second street, between Seventh avenue and the river, to connect with boat-houses.

West Shore Railroad Co.—To repair Pier 5, North river, and the approach to said pier.

Watervliet Ice Co.—To repair bulkhead, between Fifteenth and Sixteenth streets, North river.

The President also stated that he had directed the Engineer-in-Chief to examine and report on the following applications :

From White Star Line—Requesting an examination of the slip at Pier, new 45, North river, to ascertain if there is any sunken obstruction thereat.

From George H. Schaffer & Co—For permit to rebuild platform between Perry and West Eleventh streets, North river.

From New York City Ice Co.—Requesting dredging in front of the bulkhead between Gansevoort and Bogart streets, North river.

From Homer Ramsdell Transportation Co.—Requesting the Department to cut a chute in front of Pier at foot of One Hundred and Twenty-ninth street, North river.

From Thomas Cunningham—Requesting dredging in front of bulkhead foot of Fifteenth street, East river.

On motion, his action was approved.

The following reports were received from the Dock Masters :

From P. Curley—Repairs required to Pier, old 42, North river.

From John Callan—Dredging required at bulkhead foot of One Hundred and Fourth and One Hundred and Sixth streets, Harlem river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From E. Abeel—Repairs required to Pier 18, East river.

From P. J. Brady—Reporting small holes in Pier, new 59, North river.

From J. B. Erwin—Repairs required pier at Fifty-fifth street, North river.

From Charles H. Thompson—Holes in deck of Pier 7, East river. The action of the President in directing the Engineer-in-Chief to repair was approved.

From Charles H. Thompson—Reporting fender-piles required on the westerly side of Pier 14, East river. The action of the President in notifying alleged owners to repair was approved.

From John J. Ryan—Reporting mooring post broken off at outer end of pier foot of West One Hundred and Thirtieth street, and fender-piles loose on north side of pier foot of West One Hundred and Thirty-first street. The Engineer-in-Chief directed to examine and repair where necessary.

From J. B. Erwin—In reference to the application of John Everson for use of dumping-board at pier foot of Forty-sixth street, North river. Referred to the Treasurer.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending April 14, 1888.

3d. Reporting repairs required to Pier, old 39, to bulkhead platform between Desbrosses street and Pier, old 40, Piers, new 20 and 21, Pier, old 40, and Pier at foot of Twenty-second street, North river. The action of the President in notifying the lessees to repair was approved.

4th. Respecting the use of small boat landing foot of Battery place, North river, by large boats. The Secretary directed to communicate with the Pennsylvania Railroad Company as recommended by the Engineer-in-Chief.

5th. Report on Secretary's Order No. 7538, dredging required in the half slips adjoining Pier at West Fifty-fifth street. The Engineer-in-Chief directed to prepare specifications and form of contract for dredging thereat as recommended in his report.

6th. Report on Secretary's Order No. 7668, in reference to the application of Theodore F. Lane, to change the lines upon permit heretofore granted to build bulkhead between One Hundred and Thirty-third and One Hundred and Thirty-fourth streets, North river, with permission to drive about two hundred and fifty-two piles behind the said bulkhead, and erect coal sheds thereon, and recommending that the application be granted.

On motion, the recommendation of the Engineer-in-Chief was adopted.

7th. Report on Secretary's Orders Nos. 7515, 7516 and 7625, dredging required at bulkhead from Seventy-eighth to Eightieth streets, North river, Piers foot West One Hundred and Thirtieth and One Hundred and Thirty-first streets, and at the dumping-board foot East Seventeenth street. The Engineer-in-Chief directed to make requisition for dredging thereat, as recommended in his reports.

8th. Report on Secretary's Order No. 7629, repairs required to bulkhead at Pier 31, East river. The Long Island Railroad Company directed to repair as recommended by the Engineer-in-Chief.

9th. Report on Secretary's Order No. 7520, in relation to supervising the raising and removal of boat sunk in front of the platform south of East Twenty-second street, East river, and stating while lifting thereat it was ascertained that the supposed boat was a shoal composed of sand, coal, etc.

On motion, the order given to gas company to remove boat, etc., was rescinded, as recommended by the Engineer-in-Chief.

10th. Report on Secretary's Order No. 7473, that he had superintended and directed the erection of a dumping-board on pier at West Seventy-ninth street, North river.

11th. Report on Secretary's Orders Nos. 7587, 7609 and 7619, that he had directed and superintended the cutting of a sluiceway on the westerly and upper sides of Pier, new 32, East river.

12th. Report on Secretary's Order No. 7576, in reference to the canal-boat sunk at the foot of West Forty-eighth street, North river.

13th. Report on Secretary's Order No. 7594, that he had repaired Pier, new 59, North river.

14th. Report on Secretary's Order No. 7620, that he had supervised dredging at dumping-board south of East Twenty-ninth street, East river.

15th. Report on Secretary's Order No. 7621, that he had directed and superintended repairing of Pier 3, North river.

16th. Report on Secretary's Order No. 7647, that he had made requisition for dredging and dumping-board at Pier 61, East river, and supervised the work thereat.

17th. Additional report on Secretary's Order No. 5066, that he had supervised the dredging done at Pier 29, East river.

18th. Additional report on Secretary's Order No. 7519, that he had made requisition for dredging and dumping-board foot of East Twenty-second street, East river, and supervised the work thereat.

19th. Report on Secretary's Order No. 7391, that he had directed and superintended the building of a bulkhead between Piers, old 27 and 28, North river, and the building of a platform and shed on the bulkhead.

20th. Report on Secretary's Order No. 7402, that he had directed and superintended the sheathing on deck of Pier, old 23, foot of Vesey street, North river.

21st. Report on Secretary's Order No. 7426, that he had made requisition for dredging and dumping-board at Pier 54, East river, and supervised the work thereat.

22d. Report on Secretary's Order No. 7443, that signs had been placed on the outer corners of Pier at West Seventy-ninth street, North river, under his direction and supervision.

23d. Report on Secretary's Order No. 7458, that he had directed and superintended the building of a fence on bulkhead platform between Piers, new 29 and old 38, East river.

24th. Report on Secretary's Order No. 7461, that he had superintended running sewer through bulkhead at East Eighty-third street, East river.

25th. Report on Secretary's Order No. 7469, that he had made requisition for dredging of the bulkhead between East Seventy-eighth and Seventy-ninth streets, East river, and supervised the work thereat.

IN THE MATTER

of

FORT LEE FERRY COMPANY, in relation to Lease of Bulkhead between One Hundred and Thirtieth and One Hundred and Thirty-first streets, and Pier One Hundred and Thirty-first street, North river.

The matter having been called in its regular order, William Moores appeared before the Board as the representative of the Fort Lee Ferry Company in answer to a resolution and this matter, dated April 12, 1888, requiring the said Fort Lee Ferry Company, among other things, to show cause why the amount due has not been paid, and why the lease should be canceled and annulled for the failure and neglect to pay the amount due or any part thereof.

The representative of the said Fort Lee Ferry Company requested that the matter be adjourned, as the Company expected to pay the amount due in a few days.

On motion, the further consideration of the subject was postponed until May 3, 1888, at 12 o'clock M.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week ending April 18, 1888, amounting to \$5,089.60, which was received and ordered to be spread in full on the minutes, as follows:

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held April 21, 1888.

Present—Commissioners Stark, Matthews, and Marshall.

The following communications were received, read and,

On motion, laid on the table to await action, as stated, to wit :

From Counsel to the Corporation :

1st. Transmitting form of lease to Old Dominion Steamship Company of bulkhead at Pier, new 26, North river.

2d. Respecting lease of bulkhead adjoining Pier, new 37, North river.

From Department of Street Cleaning—Enclosing communication from Hon. Abram S. Mayor, respecting the assignment of Pier at Thirty-seventh street, North river.

From Barney Dumping Boat Company—Requesting permission to use dumping-board 12, East river.

The following communications were received, read and,

On motion, ordered to be placed on file, action being taken where necessary, as stated,

From Department of Street Cleaning :

1st. Complaining of obstructions at dumping-board foot of Stanton street, East river. Referred to Dock Master to examine and report.

2d. Respecting the use of dumping-board at Pier 12, East river, by the Barney Dumping Company. Referred to Commissioner Marshall.

From Department of Public Works—Requesting permit to place hydrants on the outer Pier foot of Nineteenth street, North river, and Pier, old 44, East river. Permission granted one or more water-mains on the outer ends of said piers, as recommended by the Engineer-in-Chief.

From Counsel to the Corporation :

1st. Respecting the jurisdiction of the Department over the loading and discharging of inflammable character.

On motion, the President was authorized to request the Counsel to the Corporation to file such a rule or regulation as will meet the necessity of the case.

2d. Enclosing bill amounting to \$30, received from the Secretary of State for the patent for land under water in the Twenty-third and Twenty-fourth Wards in the City of New York, recently issued by the Land Commissioners. The Treasurer authorized to pay said bill.

3d. Transmitting \$295, amount received from steamboat "Melzingah" for wharfage at Pier 12, East river. The Secretary directed to notify Chief Clerk.

From Southern Pacific Company—In relation to the surrender of Pier, old 36, North river. Referred to Commissioner Marshall.

From Charles McK. Loeser, Grand Marshal Memorial Committee Grand Army of the Republic—Requesting that the veterans in the service of the Department be excused for the twenty-four hours of May 30, 1888.

On motion, the request was granted.

From J. Landane—In relation to the condition of pavement in East Fifty-sixth street, between First avenue and Avenue A. The Secretary directed to advise that the said premises is under the control of the Department of Public Works.

From W. Oliver—Requesting lease of end and north side of Pier at One Hundred and Thirty-first street, North river, and bulkhead between One Hundred and Thirty-first and One Hundred and Thirty-second streets, North river. Referred to the Dock Master to examine and report as to the requirements of said premises for commercial purposes.

From Theodore F. Tone—Requesting renewal of permit for hoisting engine and two masts on the bulkhead between One Hundred and Twenty-ninth and One Hundred and Thirtieth streets, North river. Permit granted, under the usual conditions.

From Archibald Scott—Requesting renewal of permit for ice bridge or platform foot of Ninth street, East river, and adjoining Pier foot of Twenty-second street, North river. Permit granted, under the usual conditions.

From John N. Briggs—Agreeing to remove tally-house, etc., on Pier foot of Eleventh street, East river, when ordered to do so by the Department.

From Washington Heights Aquatic Club—Requesting permission to erect a small wooden house on piles near the foot of West One Hundred and Fifty-eighth street. Permit granted, the said house to be located by the Engineer-in-Chief of this Department.

The President stated that he had issued the following permits :

To Manhattan Railway Company—Drive fender piles in front of bulkhead at One Hundred and Twenty-ninth street, near Second avenue, Harlem river.

To Pennsylvania Railroad Company—Repair stringers and planking forming the bulkhead platform in front of the sheds between Piers 4 and 5, North river.

To Consumers' Ice Company—Place clect on the north side of Pier, near bulkhead, foot of Moratio street, North river.

The President also stated that he had directed the Engineer-in-Chief to examine and report on the following applications :

From the Brooklyn and New York Ferry Company—To erect a covered walk or canopy foot of Twenty-third street, East river.

From Cavanagh & Collins—Requesting dredging at the bulkhead north of Pier, new 1, North river.

On motion, his action was approved.

From Engineer-in-Chief :

1st. Reporting non-commencement of dredging at bulkhead at Thirty-ninth street, North river. The Engineer-in-Chief directed to make requisition for dredging thereat, and report the cost thereof for collection.

2d. Reporting that Dock Builders William J. Beard and Edward Roach are inefficient in the discharge of their duties, and recommending that they be discharged the service of the Department.

On motion, the report was received and recommendation adopted.

3d. Report on Secretary's Orders Nos. 4037 and 4038, that dredging has not been done on the Harlem river next to and adjoining the Third Avenue Bridge.

On motion, the order to dredge was revoked, and the Engineer-in-Chief directed to examine and report the dredging required thereat.

4th. Report on Secretary's Order No. 3648, in reference to permit granted to T. W. Thorn & Co. to construct a crib-bulkhead and rip-rap wall and fill in behind Pier in Spuyten Duyvil creek, south of Riverdale avenue, Harlem river, and recommending that the same be revoked.

On motion, the report was received and recommendation adopted.

5th. Report on Secretary's Order No. 7651, as to the dredging required in the slips adjoining Pier, new 42, North river, and recommending that the lessees of Piers, new 41 and 42, North river, be directed to dredge the half slips adjacent to their respective piers together, and at the same time to a depth of at least twenty-five feet at mean low water, and that the Engineer-in-Chief be directed to prepare specifications for dredging the half slip adjacent to the southerly side of Pier, new 43, North river, by contract, and that the lessees of Pier, new 42, North river, be directed to dredge to the same depth in the half slip adjacent to the northerly side of said pier.

On motion, the report was received and recommendation adopted.

6th. Report on Secretary's Order No. 7652, repairs required to water-pipe on Pier, new 43, North river. The Engineer-in-Chief directed to repair as recommended in his report.

7th. Report on Secretary's Order No. 7691, respecting the request of The Homer Ramsdell Transportation Company, lessees, for the Department to cut a gangway in the outer end of Pier at One Hundred and Twenty-ninth street, North river.

On motion, the Secretary was directed to notify the lessees that they should do the work of making the gangway at their own expense.

The application of Thomas I. Madge for use of east half of Pier 18, East river, was,

On motion, taken from the table and ordered to be placed on file.

The appointments of Z. C. Smith and Edward J. Kenney, Steam Engineers, were, in accordance with Rule 36 of the Civil Service Regulations, made permanent.

Upon reading and filing the application of F. P. Eastman, dated April 6, 1888, for permission to moor a floating dumping-board at the foot of Fortieth street, East river, leased by the Equitable Gas-light Company, and, the Board having duly considered the same,

Resolved, That the application of F. P. Eastman to moor a floating dump at the foot of Fortieth street, East river, be and hereby is denied, and that he be and hereby is ordered and directed to remove the dump therefrom immediately.

The communication from the Engineer-in-Chief, in reference to the rate of pay or wages for Dock Builders or Laborers upon tide-work, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the rates of pay or wages for Dock Builders and Laborers employed upon tide-work be and hereby are established, to take effect on and after April 16, 1888, as follows, to wit :
 Dock Builders--For two hours' work or less on any kind of work in any one day, at sixty cents per hour : for six hours' work or more on any kind of work in any one day, at thirty cents per hour ; for any time between two and six hours on any kind of work in any one day, at the rate of sixty cents per hour for the first two hours and sixteen cents per hour for the remainder of the time. Laborers--For two hours' work or less on any kind of work in any one day, at forty-six cents per hour ; for six hours' work or more on any kind of work in any one day, at twenty-three cents per hour ; for any time between two and six hours on any kind of work in any one day, at the rate of forty-six cents per hour for the first two hours and twelve cents per hour for the remainder of the time ; provided, that any Dock Builder or Laborer who shall for any reason stop working before being ordered to do so by the Foreman or other officer in charge of the work, shall be paid at the rate of thirty cents per hour and twenty-three cents per hour, respectively, for the time he may have actually worked during the day he so stopped.

The rates as above established on tide-work being as follows :

Dock Builders.

IN THE MATTER

of

Renewal of Lease of Pier, new 38, North river,
to the LIVERPOOL AND GREAT WESTERN
STEAMSHIP COMPANY, Limited.

Upon reading and filing the application of A. M. Underhill & Co., general agents of Liverpool and Great Western Steamship Company, Limited, dated 10th April, 1888, in relation to the renewal of the lease in the above matter, and upon reading and filing the papers, records and proceedings, including the proceedings of the Commissioners of the Sinking Fund in relation to the

Resolved, That the Liverpool and Great Western Steamship Company, Limited, of which Messrs. A. M. Underhill & Co. are the general agents in this country, be and they are hereby informed that this Department will grant to the said company a renewal of the lease of Pier 38 on North river, for a period of ten years, extending from May 1, 1888, to May 1, 1898, without the covenant of renewal, as unanimously recommended by the Commissioners of the Sinking Fund meeting held April 6, 1888, at a yearly rent of \$31,500, payable quarterly, in advance, on the day of each quarter, and will also grant and permit to the said company the right to maintain shed now erected on the said pier; provided, that the said company shall keep the said pier and shed erected thereon in good condition and repair during the term of ten years as aforesaid, and that the shed shall revert to and become the property of the City of New York upon the expiration or termination of the lease; and further provided, that the said company or agents shall, within ten days from date, file in this office their acceptance, in writing, of the terms and conditions of the foregoing resolution, and agree to execute a lease in accordance therewith, together with the covenants.

Resolved, That the Counsel to the Corporation be requested to prepare a lease with the usual covenants and conditions, and containing also the terms and conditions as set forth in the resolution above, and that the officers of the Department of Docks be authorized to execute the same, with sufficient sureties, to be approved by the Board.

The above resolutions were adopted by the following vote :

Ayes—Commissioners Stark and Marshall.

Nay—Commissioner Matthews.

The communication from the Counsel to the Corporation in reference to completion of Michael and William T. Nolan's contract for granite was,

On motion, ordered to be placed on file, and the following preambles and resolution were adopted :

Whereas, The Mayor, Aldermen and Commonalty of the City of New York, acting by their Department of Docks as parties of the first part, entered into a certain agreement (No. 230), dated November 23, 1886, with Michael Nolan and William T. Nolan, contractors, as parties of the second part, whereby the said parties of the second part agree to furnish and deliver a certain quantity of granite stones for bulkhead or river wall, as provided for in said agreement ;

And whereas, At a meeting of this Board, held on the 29th day of December, 1887, it was resolved that the said Michael Nolan and William T. Nolan be notified to discontinue the work to be done under the said contract, they having unnecessarily and unreasonably delayed and abandoned the same, and the said work was thereupon so discontinued ;

And whereas, At the said meeting of this Board the Engineer-in-Chief was directed to prepare, soon as possible, a form of contract and specifications for obtaining the remainder of the granite needed for in said contract which was then undelivered ;

Resolved, That the contract for the completion of the work agreed to be performed by the said Michael Nolan and William T. Nolan be and the same hereby is, by an affirmative vote of all the members of this Board, awarded to Patrick Keenan and Peter Neary, the said contract to be in the form of and subject to the terms and conditions of a form of contract for this work approved by the Counsel to the Corporation on the 18th day of April, 1888.

On motion, the officers of the Board were authorized to execute said contract.

The Auditing Committee presented an audit of twenty-one bills or claims, amounting to \$3,757.93, which were approved and audited and ordered to be spread in full on the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS,
CHARLES H. MARSHALL, } Auditing Committee.

New York, April 20, 1888.

On motion, the President was authorized to transmit said claims with requisitions for amounts to the Finance Department for payment.

The Treasurer presented the monthly balance sheet for the month of March, 1888.

On motion, the President was authorized to transmit the same to the Comptroller.

On motion, the following Laborers were appointed :

Philip Becker,	Walter Russel,
Samuel J. Morrison,	John Jones,
George McClancy,	J. J. McCabe,
Thomas Kelly,	James Brady,
Thomas Kearney,	James McGarry,
John Miller, Jr.,	Edwin A. Gregory, Jr.
John Conners,	

On motion, John Conners, Dock Builder, was discharged.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a meeting of the Board of Docks, held April 26, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting, held April 19, 1888, were read and approved.

The following communications were received, read, and

On motion, laid on the table to await action, as stated, to wit :

From Charles H. Tweed, attorney, Southern Pacific Company—In regard to extension up to June 1 of occupancy of Pier, old 36, North river.

From Equitable Gas-light Company—Requesting permission to locate floating dump at the foot of Fortieth street, East river. Referred to Executive Session.

From Henderson Bros., agents, Anchor Line—Requesting use Pier, new 43, North river, for steamship "City of Rome." The Secretary directed to request Mr. Coverly to call on the Commissioners.

From Daniel Robinson and B. C. Gerkaer and others—Protesting against the erection of a dumping-board at the bulkhead foot of Seventy-fifth street, East river. Referred to Executive Session.

From Engineer-in-Chief :

1st. Report on Secretary's Order No. 7701, in reference to the application of John A. Bouker, for permission to erect a dumping-board foot of Seventy-fifth street, East river. Referred to Executive Session.

2d. Report on Secretary's Order No. 7698, respecting the protest of Thomas Smith, in to the loading of scows with cellar dirt, near the foot of Thirtieth street, North river. Referred to Executive Session.

3d. Report on Secretary's Order No. 7612, in reference to the revised application of Ben & Schmid, for permission to locate and construct a pumping station at One Hundred and Twenty street, North river. The Secretary directed to request said parties to call on the Commissioner.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated:

From Department of Street Cleaning :

1st. Reporting obstruction to dumping-board at foot of West Twelfth street. The Board authorized to advise that the Department will do what it can to keep slip clear.

2d. Requesting dredging in the slip foot of Canal street, North river, and repair foundation of the dump thereat. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

3d. Requesting the Board to build foundation for a dump at foot of Seventieth street, East river. Referred to the Engineer-in-Chief to examine and report.

From Health Department--Respecting the berth assigned to the Health Department at foot of Thirty-seventh street, North river.

From Department of Public Parks--For permission to temporarily discharge dredged material on westerly side of Harlem river, near entrance to Mott Haven Canal. The action of Commissioner Matthews in issuing a permit was approved.

From Counsel to the Corporation :

1st. Approving form of contract for building Pier, new 36, East river.

2d. In reference to the desire of the Staten Island Rapid Transit Company to make alterations in the shape of the ferry slips at the foot of Whitehall street, East river. Referred to Engineer-in-Chief to examine and report.

From Ridgewood Ice Company--Requesting permission to change location of scales to the foot of Rivington street, East river. Referred to the Engineer-in-Chief to examine and report.

From M. Morris--Offering to lease bulkhead foot of Forty-fifth street, East river. The Board directed to advise that the Board cannot accept his offer.

From Moran & Armstrong--Requesting permit to land sand on bulkhead between Blauvelt and Bogart streets, North river. Permit granted, said sand to be removed as rapidly as possible and not to be allowed to accumulate on said bulkhead.

From Robert Murray--Enclosing form of agreement to pay the Department one-half the expense incurred in building bulkhead foot of East One Hundred and Nineteenth street. Referred to Commissioner Matthews.

From A. M. Underhill & Co., agents, Guion Line—Agreeing to execute lease for Pier, new 38, North river, in accordance with the terms and conditions of resolution adopted April 21, 1888.

From Carll Smith & Son—Requesting repairs to Pier 58, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Hudson Boat Club—Requesting permit to drive two piles at One Hundred and Thirty-fifth street, North river. The action of Commissioner Matthews in granting a permit was approved.

From William Cruikshank—Requesting permit to repair Pier 8, North river. The action of the President in issuing a permit under the usual conditions was approved.

From Lewis G. Morris—Requesting permit to repair premises known as Morris Dock. The action of the President in issuing a permit under the usual conditions was approved.

From Henry A. Peck & Co.—Requesting permission to use dumping-board at Thirty-eighth street, East river, and enclosing consent of the Department of Street Cleaning. Permission granted under the usual conditions.

The following applications for permits were received, and

On motion, granted :

To Fred W. Wright—Renewal of permit for tally-house on Pier 43, East river.

To George C. Gibbs—Renewal of permit for tally-house on Pier 23, East river.

To Western States Line—Renewal of permit for tally-house and derricks on Pier 6, East river.

To Frederick T. Volk—Renewal of permit for boat-house at One Hundred and Fifty-eighth street, North river.

To Louis Berndt—For permit to locate a small house on Pier 23, East river.

To F. E. Bean—Renewal of permit for tally-house, scales and ice bridge on the bulkhead, between Sixteenth and Seventeenth streets, North river.

To Edward M. Parker—Renewal of permit for two derricks, coal pockets and tramway, located on the bulkhead between Thirty-seventh and Thirty-eighth streets, North river.

To New York City Ice Company—Renewal of permit for ice bridge engine-house and weighing office on the bulkhead at Gansevoort street, North river.

To C. McMonagle—Renewal of permit for tally-house and scales on the approach to Pier, old 22, North river.

The following reports were received from the Dock Masters :

From John Callan—Reporting repairs required Pier foot of One Hundred and Ninth street, Harlem river.

From P. Curley—Recommending repairs to deck of Pier, new 43, North river.

From Charles H. Thompson—Reporting fender piles loose Pier 12, East river. The action of the President in directing the Engineer-in-Chief to repair, if necessary, was approved.

2d. Report on Secretary's Order No. 7698, respecting the protest of Thomas Smith, in reference to the loading of scows with cellar dirt, near the foot of Thirtieth street, North river. Referred to Executive Session.

3d. Report on Secretary's Order No. 7612, in reference to the revised application of Bernheim & Schmid, for permission to locate and construct a pumping station at One Hundred and Eight street, North river. The Secretary directed to request said parties to call on the Commissioners.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit

The following reports were received from the Dock Masters :

From John Callan—Reporting repairs required Pier foot of One Hundred and Ninth street, Harlem river.

From P. Curley—Recommending repairs to deck of Pier, new 43, North river.

From Charles H. Thompson—Reporting fender piles loose Pier 12, East river. The action of the President in directing the Engineer-in-Chief to repair, if necessary, was approved.

From E. Abeel :

1st. Reporting repairs required to Pier 44, East river. The action of the President in directing the Engineer-in-Chief to repair, if necessary, was approved.

2d. Respecting the cleaning required to Pier 19 and Pier, new 32, East river. The action of the President in requesting the Department of Street Cleaning to clean, was approved.

3d. Reporting that repairs are required to deck of Pier 19, East river. The action of the President in directing the Engineer-in-Chief to examine and repair if on city's portion of said Pier was approved.

From D. W. Bogert—Reporting hole in pavement adjoining the bulkhead between Piers, old 34 and 35, North river. The action of the President in directing the George W. Welsh Estate to repair was approved.

From P. Curley—Respecting the obstructions complained of by the Department of Street Cleaning at dumping-board foot of Canal street, North river. The President authorized to send copy of said report to the Department of Street Cleaning.

From Charles B. Husted—Reporting that Pier at West Seventeenth street requires cleaning. The action of the President in requesting the Department of Street Cleaning to clean was approved.

From Charles Hutchinson—Enclosing affidavit of service of notice on the Equitable Gas-light Co. and F. P. Eastman to discontinue receiving cellar dirt at the bulkhead foot of Fortieth street, East river.

From Joseph B. Erwin—Affidavit of service of notice on captain of schooner "W. L. Peck" to discontinue discharging brick on Pier foot of Fifty-fifth street, North river. The Secretary directed to notify owners of said schooner to show cause, Thursday, May 3, 1888, at 12 o'clock, why penalty should not be imposed for violation of Rule No. 3.

From Charles H. Pendergast—Respecting complaint of Department of Street Cleaning as to obstructions at dumping-board at Stanton street, East river. The Secretary directed to send copy of report to the Department of Street Cleaning.

From Engineer-in-Chief :

1st. Reporting assignment of employees to special duty.

2d. Reporting the amount of work done during the week ending April 21, 1888.

3d. In reference to the construction of pier and crib bulkhead at East One Hundred and Seventeenth street, Harlem river, and recommending that the time to complete said work under Contract No. 262 be extended until May 21, 1888, in order to coincide with the time limit on Treasurer's Order No. 12486.

On motion, the recommendation of the Engineer-in-Chief was adopted.

4th. Report on Secretary's Order No. 7351, that he had superintendent resheathing Pier 47, East river, and stating that it is not the intention of said owner to drive the piles called for in said permit.

On motion, the permit issued to C. M. Bell to drive said piles was revoked.

5th. Report on Secretary's Order No. 7586, in reference to the application of the Columbia Yacht Club for lease of water-front foot of Eighty-sixth street, North river.

On motion, permit was granted as recommended by the Engineer-in-Chief.

6th. Report on Secretary's Orders Nos. 7649 and 7650, that he had placed a sign near the outer end of pier foot of Thirteenth street, North river, and Pier 48, East river, forbidding vessels to lie at the outer end of said pier. The President authorized to notify the Fire Department of the action of the Board.

7th. Report on Secretary's Order No. 7674, in reference to the application of George H. Schaffer & Co., to rebuild platform in front of bulkhead north of Pier, old 54, North river. The action of the President in issuing a permit under the usual conditions was approved.

8th. Report on Secretary's Order No. 7676, that he had examined slips at Pier, new 46, North river, and failed to find any sunken obstructions thereat. The Secretary directed to send copy of report to the White Star Line.

9th. Report on Secretary's Order No. 7686, repairs required to Pier, old 42, North river. The Engineer-in-Chief directed to repair as recommended in his report.

10th. Report on Secretary's Order No. 7700, in reference to the application of the Gas Engine and Power Company for permission to erect a platform on piles at Morris Dock, Harlem river. Permission granted, provided the structure is strengthened as recommended by the Engineer-in-Chief.

11th. Report on Secretary's Order No. 7672, as to dredging required at foot of One Hundred and Sixth street, Harlem river. The Engineer-in-Chief directed to make requisition for dredging thereat, as recommended in his report.

12th. Report on Secretary's Order No. 7709, respecting the application of the Department of Street Cleaning, requesting the Department to rebuild dumping-board foot of West Twelfth street. The Engineer-in-Chief directed to prepare plans, specifications and form of contract for building a new pier thereat as recommended in his report. The President authorized to notify Commissioner Coleman of the action of the Board, and advise him that the southerly side of said pier when constructed will be assigned for the use of his Department.

13th. Report on Secretary's Order No. 4868, in reference to the application of Gas Engine and Power Company, for building piers and bulkheads at Brook avenue, Harlem river.

14th. Report on Secretary's Order No. 7658, that he had supervised dredging in front of the bulkhead at One Hundred and Twenty-ninth street, near Second avenue, Harlem river.

15th. Report on Secretary's Orders Nos. 7614, 7655, that he had repaired pier at Eighteenth street, North river.

16th. Report on Secretary's Order No. 7642, that sunken barge had been removed from southerly side of pier at Thirty-eighth street, North river.

17th. Report on Secretary's Order No. 7661, that he had superintended erection of fence at *Eightieth street, North river.*

18th. Report on Secretary's Order No. 7330, that he had removed obstructions from bulkhead at Twenty-ninth street, East river.

19th. Report on Secretary's Order No. 7718, that he had superintended driving piles east of Second avenue, Harlem river.

20th. Report on Secretary's Order No. 7663, that he had superintended driving piles at Ferry Slip, Ninety-ninth street, East river.

21st. Report on Secretary's Order No. 7660, that he had superintended repairing north side Pier, old 23, North river.

22d. Report on Secretary's Order No. 7656, that he had superintended repairing shell north side Pier, old 33, North river.

23d. Report on Secretary's Order No. 7572, that he had superintended driving piles east side of Pier 36, East river.

24th. Report on Secretary's Order No. 7433, that he had superintended repairing Pier, new 44, North river.

25th. Report on Secretary's Order No. 7683, that he had refastened spring-pile, Pier 18, East river.

26th. Report on Secretary's Order No. 7124, that he had superintended erecting pile-platform at west side Mott Haven Canal, near One Hundred and Fortieth street, Harlem river.

27th. Report on Secretary's Order No. 7159, that he had superintended building platform westerly side of Pier 38, East river.

28th. Report on Secretary's Order Nos. 7213 and 7214, that he had superintended repairing pavement on north and south side Pier 7, North river.

29th. Report on Secretary's Order No. 7324, that the Ridgwood Ice Company removed obstructions from surface of pier at Seventy-ninth street, East river.

30th. Report on Secretary's Order No. 7325, that the Knickerbocker Ice Company removed obstructions from surface of bulkhead foot of Sixty-second street, East river.

31st. Report on Secretary's Order No. 7327, that he had removed obstructions from surface of bulkhead at Fifty-fourth street, East river.

32d. Report on Secretary's Order No. 7608, that he had repaired pier at One Hundred and Thirty-eighth street, North river.

33d. Report on Secretary's Order No. 7662, that he had superintended driving and refastening piles at Pier, old 41, North river.

34th. Report on Secretary's Order No. 7659, that he had superintended repairing Pier 16, East river.

IN THE MATTER

of

Landing Places for Boats, Pier, new 57, North
River.

The communication from the Engineer-in-Chief in reference to landing-floats for boats at Pier, new 57, North river, was,

On motion, ordered to be placed on file, and the following resolution adopted :

Resolved, That permission be and hereby is granted to Garrett May to place a landing-float for boats, with a gangway thereto, at bulkhead on northerly side of Pier, new 57, North river, the same to be and remain thereat only during the pleasure of the Board, and to be used for the purpose of affording facilities for the use of small boats, at a compensation of \$3.50 per week, payable to the Dock Master of the District.

The communication from the Engineer-in-Chief in reference to the purchase of a new engine for Pile-driver No. 9, was

On motion, ordered to be placed on file and the following resolution was unanimously adopted by the affirmative votes of Commissioners Stark, Matthews and Marshall :

Resolved, That the Engineer-in-Chief be and hereby is directed to provide Pile-driver No. 9 with a double cylinder and double drum hoisting engine and boiler in accordance with his report to the Board dated the 24th April, 1888, the same to be used in constructing the pier at the foot of West Forty-seventh street, under the new plan adopted for the improvement of the water-front and ordered to be built by the Board by unanimous resolution passed on the 9th of April, 1888, and that all the work hereby ordered be performed otherwise than by contract, as required by section 714 of the New York City Consolidation Act of 1882, and that all the material, tools, etc., necessary for the same not now contracted for or which may not hereafter be contracted for, be purchased by the Treasurer otherwise than by contract.

The Auditing Committee submitted a report of two bills or claims amounting to \$14,623.44, which were approved and audited, and ordered to be spread in full on the minutes, as follows :

Audit No.	Bill or Claim.	Amount.
10143.	John Gillies, Estimate No. 2, Contract No. 263	\$7,341 97
10144.	P. Sanford Ross, Estimate No. 1, Contract No. 261	7,281 47

On Construction Account	\$14,623 44
-------------------------	-------------

RECAPITULATION.

2 bills or claims on Construction Account amounting to	\$14,623 44
--	-------------

Respectfully submitted,

JAMES MATTHEWS,
CHARLES H. MARSHALL, } Auditing Committee.

On motion, the President was authorized to transmit said claims, with requisitions for amounts, to the Finance Department for payment.

The Treasurer, Commissioner Matthews, submitted his report of receipts for the week en April 25, 1888, amounting to \$2,900.13 which was received, and ordered to be spread in full the minutes, as follows :

Respectfully submitted,

JAMES MATTHEWS, Treasurer.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At an executive meeting of the Board of Docks, held April 27, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The minutes of the meeting held April 26, 1888, were read and approved.

The proposition of Thomas I. Madge for temporary use of east half of Pier 18, East river, was,

On motion, laid on the table.

The following communications were received, read, and

On motion, ordered to be placed on file, action being taken where necessary, as stated, to wit :

From Department of Street Cleaning—In reference to and stating that Piers, old 19 and new 32, East river, will be cleaned. The action of the President in notifying J. Rosenfeld's Sons to remove the material placed on Pier 19, East River, was approved.

From New York Rowing Club—Requesting permit to drive piles and locate boat-house at or near One Hundred and Sixty-third street, west side Harlem river. The action of the President in issuing a permit under the usual conditions was approved.

From People's Line of Steamers—Requesting permission to repair Pier, old 41, North river. The action of the President in issuing a permit under the usual conditions was approved.

From Charles Hutchinson, Dock-Master—Reporting that P. Gallagher has erected fence foot of thirty-eighth street, East river. The action of the President in directing the Engineer-in-Chief to examine and report was approved.

From Kennedy, Rinehard & Co.—Requesting permission to place an ice bridge on north side of foot of Forty-fourth street, North river, and scale and weigh office on the approach to said pier. Permission granted the said ice bridge, scales and weigh office to be located thereat by the Engineer-in-Chief of this Department.

From the Engineer-in-Chief :

1st. Report on Secretary's Order No. 7735, in reference to the application of S. J. Colford for permission to run a 6-inch sewer pipe through bulkhead between Piers 10 and 11, East river, for sewage purposes. Permit granted under the usual conditions.

2d. Report on Secretary's Order No. 7688, dredging required at bulkhead foot of One Hundred and Fourth street, Harlem river. The Engineer-in-Chief directed to make requisition for dredging as recommended in his report.

The following communications were,

On motion, taken from the table and ordered to be placed on file :

From Department of Street Cleaning - Inclosing copy of communication from Hon. Abram S. Hewitt, Mayor.

1st. Respecting the assignment of a portion of Pier foot of West Thirty-seventh street, North river.

2d. In reference to granting the Barney Dumping-boat Company to use portion of dumping-board at Pier 12, East river.

From Barney Dumping-boat Company.—Requesting permit to use portion of dumping-board at Old Slip, East river.

From Henderson Brothers, agents Anchor Line.—Requesting berth at Pier, new 43, North river.

From Canda & Kane —Requesting lease of water-front property.

From Kennedy, Rinchard & Co.—Requesting berth at pier foot of West Fifty-fifth street, North river.

From Engineer-in-Chief—Report on Secretary's Order No. 7532, dredging required east side Third avenue bridge, Harlem river.

From Ellen Hughes.—For use of dumping-board at Thirty-seventh street, North river.

The report of the Engineer-in-Chief on Secretary's Order No. 7698, respecting the loading of scows with cellar dirt near the foot of Thirtieth street, North river, was,

On motion, ordered to be placed on file and the Secretary directed to notify the Dock Master not to allow the loading of cellar dirt into scows from any pier or bulkhead between Twenty-third and Forty-third streets, North river.

The application of John A. Bouker for permission to erect a dumping-board at bulkhead foot of Seventy-fifth street, East river, and the protests from Daniel Robinson and B. C. Gerkaer and others, objecting to the erection of said dumping-board, were,

On motion, referred to the Dock Master to examine and report.

IN THE MATTER
of
PERMIT TO EQUITABLE GAS-LIGHT COMPANY.

The application of the Equitable Gas light Company for permission to locate a floating-dump foot of Fortieth street, East river, was,

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That permission be and hereby is granted to the Equitable Gas-light Company to locate a floating-dump at the foot of Fortieth street, East river, the same to continue during the pleasure of the Board.

The report of the Engineer-in-Chief respecting the completion of contract for building bulkhead at One Hundred and Fourteenth and One Hundred and Fifteenth streets, Harlem river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the time for the completion of the work to be done by John Gillies, under Contract No. 258, for building a crib-bulkhead from the centre line of the block between One Hun-

dred and Fourteenth and One Hundred and Fifteenth streets, to the northerly line of East One Hundred and Fifteenth street, Harlem river, including rip-rap embankment in its rear, be and hereby is extended to the 6th of April, 1888, and that the sum of \$500 be and hereby is directed to be deducted from the final estimate on said contract for non-completion of the work in the time specified in said contract.

IN THE MATTER

of

Alterations at ferry slip, Whitehall Street,
East River.

The report of the Engineer-in-Chief on Secretary's Order No. 7748, in relation thereto, was,

On motion, ordered to be placed on file, and the following resolution adopted :

Resolved, That permission be and hereby is granted to the Staten Island Rapid Transit Railroad Company to make certain alterations in the shape of the ferry slips at the foot of Whitehall street, East river, in accordance with the diagrams submitted this day, which are hereby approved, permission being also granted to dredge in said slips ; all of the work to be done under the direction and supervision of the Engineer-in-Chief of this Department.

The communication from the Counsel to the Corporation, transmitting form of leases for bulkhead adjoining Pier, New 26, North river, leased to the Old Dominion Steamship Company, was,

On motion, ordered to be placed on file, and the officers of the Board authorized to execute said leases.

IN THE MATTER

of

Permit to use Dumping-board at Pier 12, East
river.

Upon reading and filing the application of Brown & Fleming, dated April 12, 1888, for permission to use and occupy a portion of the dumping-board at Pier 12, East river, and the Board having duly considered the same, and the Department of Street Cleaning having consented thereto,

Resolved, That license or permission be and hereby is granted to Brown & Fleming to use and occupy a portion of the dumping-board at Pier 12, East river, for the purpose of receiving cellar dirt at the price of \$45 per week, payable weekly, when due, to the Dock Master of the district, the said license or permission to continue only during the will of the Board, commencing Tuesday, May 1, 1888.

The report of the Engineer-in-Chief on Secretary's Order No. 7722, submitting form of contract, for dredging at Pier, new 43, and at Pier foot of Fifty-fifth street, North river, was

On motion, ordered to be placed on file, and the following resolution was adopted :

Resolved, That the form of contract and specifications as prepared and submitted by the Engineer-in-Chief for dredging the half slip south of Pier, new 43, North river, and at the foot of Fifty-fifth street, North river, be and they hereby are approved, and the Secretary be and is directed to have a sufficient number of blank forms of proposals printed and proper advertising estimates for doing the said work inserted in the papers designated by law.

IN THE MATTER

of

Use of Bulkhead South Pier, old 54, North River.

Upon reading and filing the application of the Wholesale Oyster Dealers' Association for permission to use a few feet of the bulkhead adjoining the southerly side of Pier, old 54, North river, and the Board having duly considered the same,

Resolved, That license or permission be and hereby is granted to the Wholesale Oyster Dealers' Association to use and occupy fifteen feet of the bulkhead at the southerly side of Pier, old 54, North river, at the price of \$1.00 per week, payable weekly when due to the Dock Master of the district; the said license or permission to continue only during the will of the Board, commencing Tuesday, May 1, 1888.

IN THE MATTER

of

Permit of W. A. WINNE to occupy bulkhead between Piers, new 36 and 37, North river.

Upon reading and filing the application of W. A. Winne, dated April 21, 1888, for permission to use seventy-five feet of south half of bulkhead between Piers, new 35 and 37, North river, with the privilege of erecting an ice-bridge, scale and weigh-office thereat, and the Board having considered the same;

Resolved, That license or permission be and the same is hereby granted to W. A. Winne to use and occupy seventy-five feet of the south half of the bulkhead between Piers, new 36 and 37, North river, with the privilege of erecting a temporary ice-bridge, scale and weigh-office thereat, for the purpose of receiving and discharging ice, at the price of \$18 per week, payable weekly, when due to the Dock Master of the district, and to deliver up possession thereof upon one week's notice. *said license or permission to continue only during the will of the Board, commencing Tuesday, May 1, 1888; provided that the said Winne shall deposit \$50 with the Treasurer to cover*

expense that may be incurred by the Department in placing the property in the same condition in which it was when taken possession of by him, natural wear and tear excepted.

The following resolution was,

On motion, adopted :

Resolved, That Brown & Fleming be and they hereby are permitted or licensed to fill in behind the new cribwork bulkhead between One Hundred and Fourteenth and One Hundred and fifteenth streets, Harlem river, to the extent of 8,000 loads for the price of \$300, provided that all of the said filling shall be composed of clean ashes, earth, sand or stone if of stone ; no piece of stone be larger than sixteen inches in its largest dimensions ; all of the said filling to be done under the direction and supervision of the Engineer-in-Chief of this Department, and provided further, that the said work shall be completed on or before the first day of July next.

IN THE MATTER	}
<i>of</i>	
Permit to JOHN EVERSON to occupy dumping-board at Forty-sixth street, North river.	

Upon reading and filing the application of John Everson, dated April 12, 1888, for permission to use and occupy the dumping-board on the south side of Pier foot of West Forty-sixth street, and the Board having duly considered the same,

Resolved, That license or permission be and the same is hereby granted to John Everson to use and occupy the dumping-board on the south side of Pier foot of Forty-sixth street, North river, at the price of \$2 per day for each and every day, Sundays included, payable at the end of each week to the Dock Master of the district, to commence May 1, 1888 ; the said license or permission to continue during the will of the Board.

On motion, the permit issued January 19, 1888, to John Everson to use and occupy the outer dumping-board on the north side of pier at West Forty-seventh street was revoked, to take effect May 1, 1888.

The communication from the Counsel to the Corporation, respecting the acquisition of wharf property on the Harlem river, was,

On motion, ordered to be placed on file, and the following preambles and resolutions were adopted :

Whereas, Pursuant to the provisions of section seven hundred and fifteen of chapter four hundred and ten of the Laws of eighteen hundred and eighty-two, this Department is desirous of acquiring in the name and for the benefit of the Corporation of the City of New York, the land and land under water in said city, described as follows : Beginning at a point on the northerly line of One Hundred

and Fourth street, distant seven hundred and twenty-five and sixty-one one-hundredths feet easterly from the easterly line of First avenue ; running thence easterly along the northerly line of One Hundred and Fourth street, one hundred and forty-one and seventy-three one-hundredths feet, more or less, to the exterior or bulkhead-line of Harlem river, as established by the Legislature in 1857, as the same is shown on a map attached to a grant made by the Mayor, Aldermen and Commonalty of the City of New York to Richard Kelly, dated May eighth, eighteen hundred and seventy-one, and filed in the office of the Comptroller of said City in Book I. of Grants, page 554 ; running thence in a northerly direction along the said exterior or bulkhead-line of Harlem river, as shown on the map last mentioned, to the line of low water in the Harlem river, as shown on the map last mentioned ; thence running still in a northerly direction along the said line of low water in the Harlem river, as shown on the map last mentioned, and along the line of low water in the Harlem river, as shown on another map attached to a grant made by the Mayor, Aldermen and Commonalty of the City of New York to James H. Welsh, dated September fifteenth, eighteen hundred and seventy, and filed in the office of the Comptroller of the City of New York in Book I. of Grants, page 549, until it intersects the southerly line of One Hundred and Fifth street ; running thence westerly along the southerly line of One Hundred and Fifth street one hundred and forty-five and thirty-nine one-hundredths feet, more or less, and running thence in a southeasterly direction two hundred and two and forty-six one-hundredths feet, more or less, to the point or place of beginning ; also any and all wharfage, cranage, advantages or emoluments growing or accruing by or from that part of the exterior line of the said city lying on the easterly side of said premises, fronting on the Harlem river. Saving and reserving out of that part of the premises hereinbefore described, which is included in the said grants to Richard Kelly and James H. Welsh, so much thereof as forms part of any street or streets, avenue or avenues that were at the dates of said grants respectively, or have since been assigned, designated or laid out through the said premises according to law ; and

Whereas, George E. Ketcham is the owner of the said premises, and Robert J. Wright, or the firm of Kane & Wright composed of Michael J. Kane and Robert J. Wright, are the lessees or owners of the existing lease thereof,

Resolved, That this Board hereby offers to pay for a good title to the said premises free from incumbrance the sum of forty-seven thousand dollars in cash, that is to say, to the said George E. Ketcham for the said premises, subject only to the said lease, the sum of forty-five thousand dollars, and to the said Robert J. Wright, or to the said Kane & Wright (whichever may be the owner of the existing lease of the said premises), for the whole interest as lessees under or owners of the existing lease of the said premises, the sum of two thousand dollars.

Resolved further, That copies of this resolution be served upon the said George E. Ketcham, Robert J. Wright and Kane & Wright, and that they be and are hereby requested, within ten days from the receipt thereof, to notify this Board in writing of their willingness to sell and convey their respective interests as aforesaid in the said premises to the Mayor, Aldermen and Commonalty of the City of New York for the prices above mentioned ; and in the event that they or any of them shall fail to notify this Board of their willingness to so convey their respective interests as aforesaid, it shall be deemed that no price can be agreed upon for the said premises between the owners thereof and this Department.

The report of the Treasurer, Commissioner Matthews, amounting to \$2,670.43 was received, and ordered to be spread in full on the minutes, as follows :

The following appointments were made :

John Gibbons, William Mitchell, James Harty, Daniel Haggerty, Lawrence Kelly, Patrick McGovern, Laborers ; James Murray, Dock Builder.

On motion, the Board adjourned.

G. KEMBLE, Secretary.

At a special meeting of the Board of Docks, held April 28, 1888.

Present—Commissioners Stark, Matthews and Marshall.

The following preambles and resolutions were,

On motion, adopted :

Whereas, This Board did, on the twenty-fourth day of June, eighteen hundred and eighty-six, adopt a resolution appropriating the southerly half of the stone bulkhead between Piers, new 37 and

38, North river, and the northerly half of the stone bulkhead between Piers, new 36 and new 37, North river, to the sole use of the special kind of commerce carried on by steam transportation, and that a lease of said bulkhead be granted to C. P. Huntington, with permission to shed the same fifty feet easterly from the front of the bulkhead and from the middle of the bulkhead between Piers 37 and 38 to the middle of the bulkhead between Piers 36 and 37 ; and,

Whereas, this Board did, by resolutions adopted on the ninth day of February, eighteen hundred and eighty-seven, and on the fourteenth day of July, eighteen hundred and eighty-seven, amend the said resolution of June twenty-fourth, eighteen hundred and eighty-six ; and,

Whereas, Certain errors and inaccuracies occur in the said amendatory resolution of July fourteenth, eighteen hundred and eighty-seven, whereby it has become advisable to adopt a further amendatory resolution ; it is therefore

Resolved, That the said resolution of June 24th, eighteen hundred and eighty-six, be amended so as to read as follows :

Resolved, That by virtue of the power vested in this Board by subdivision 6 of section 6, chapter 574 of the Laws of 1871, and section 716 of chapter 410 of the Laws of 1882, commonly called "The New York City Consolidation Act," as amended by chapter 517 of the Laws of 1884, the stone bulkhead extending from the middle of the slip between Piers, new 36 and new 37, North river, to the middle of the slip between Piers new 37 and 38, North river, be and hereby is appropriated to the sole use of the special kind of commerce carried on by steam transportation.

Resolved, That C. P. Huntington be and is hereby informed that this Department will grant to him a lease of the said bulkheads for a term of years, co-terminous with his present lease of Pier, new 37, at an annual rent of \$3,500, payable quarterly in advance, and will agree in said lease to give to said lessee a covenant of renewal for a further term of years, co-terminous with his right of extension of his present lease of said pier, at an advanced rent of three thousand and eight hundred dollars per annum, payable quarterly in advance, in accordance with section 716 of the Consolidation Act of 1882, provided that said C. P. Huntington shall, within five days after receipt thereof, file in this office a written acceptance of the terms hereof, and agree to execute a lease for said bulkheads, with permission to shed the same fifty feet easterly from the front of the bulkheads, and from the middle of the bulkhead, between Piers 37 and 38, to the middle of the bulkhead between Piers 36 and 37, containing the usual covenants and conditions and in conformity with the terms herein set forth ; and be it further

Resolved, That said shed shall be constructed subject to the regulations required by chapter 249 of the Laws of 1875, and of sections 772 and 774 of chapter 410 of the Laws of 1882, commonly called "The New York City Consolidation Act," and in conformity with plans to be first submitted to and approved by the Commissioners of Docks, and all work to be done under the supervision and direction of the Engineer-in-Chief of this Department ;

Provided, that the area of pavement to be occupied by said shed shall be maintained and kept in satisfactory repair by and at the expense of the lessee ;

And provided further, that the said lessee shall file in the office of this Department, within five days after receipt hereof, a written agreement that the said shed shall revert to and become the

property of the Corporation of the City of New York, upon the expiration or sooner termination of the lease of said bulkheads, free of all claims of every kind whatsoever ; and be it further

Resolved, That the Counsel to the Corporation be and he is hereby requested to prepare in proper form a lease in triplicate to C. P. Huntington of the said premises for a term of years, co-terminous with his present lease and his renewals, containing the usual covenants and conditions, with the terms herein set forth, and that the officers of this Board be and are hereby authorized and empowered to execute the said lease when approved as to form by the said Counsel to the Corporation.

IN THE MATTER

of

The use and occupancy of Pier, old 36, North river, by THE SOUTHERN PACIFIC COMPANY.

Upon reading and filing the application dated April 19, 1888, of the Southern Pacific Company, acting through its counsel Charles H. Tweed, for leave to use and occupy Pier, old 36, North river, during the month of May, 1888, to which application reference is hereby made, and upon all the papers and proceedings in this matter,

Resolved, That permission be and is hereby granted to the said Southern Pacific Company to occupy the said Pier, old 36, North river, for the purposes of their business until June 1, 1888 (being the whole of the month of May), at and for the price of one thousand eight hundred and seventy-five dollars, payable immediately ; provided, however, that it be distinctly understood that the Department of Docks shall, on that date, June 1, 1888, enter into full and peaceable possession of the said Pier and that the said Southern Pacific Company will, at the latter date, deliver up possession thereof to the said Department of Docks ; and provided further, that the said Southern Pacific Company shall, without delay, file in the said Department an agreement, in writing, to surrender and relinquish the occupancy of the said pier on the 1st of June, 1888, and also assent, in writing, to all the terms and conditions of this resolution.

The Auditing Committee presented an audit of thirty-one bills or claims amounting to \$5,301.40 which were approved and audited, and ordered to be spread in full on the minutes, as follows :

Audit No.	Bills or Claims.	Amount.
10146.	Samuel Suydam, stove, etc.....	\$21 00
10147.	E. B. Walters, bagging sheets.....	32 50
10148.	Alexander Pollock, Manila rope.....	167 17
10149.	F. W. Beatty, ferro-prussiate paper.....	15 20
10150.	Garret E. Green, white pine boards.....	37 00
10151.	John A. Roeblings Sons' Co., wire ropes.....	35 86
10152.	Bell Bros., spruce.....	999 66
